"(III) The Department of Agriculture, with regard loans guaranteed by the Secretary of Agriculture pursuant to 42 U.S.C. 1472(h).

"(IV) The Rural Housing Service, with regard to loans insured by the Rural Housing Service.".

SEC. 1413. DEFENSE TO FORECLOSURE.

Section 130 of the Truth in Lending Act (15 U.S.C. 1640) is amended by adding at the end the following new subsection:

"(k) DEFENSE TO FORECLOSURE.—

"(1) IN GENERAL.—Notwithstanding any other provision of law, when a creditor, assignee, or other holder of a residential mortgage loan or anyone acting on behalf of such creditor, assignee, or holder, initiates a judicial or nonjudicial foreclosure of the residential mortgage loan, or any other action to collect the debt in connection with such loan, a consumer may assert a violation by a creditor of paragraph (1) or (2) of section 129B(c), or of section 129C(a), as a matter of defense by recoupment or set off without regard for the time limit on a private action for damages under subsection (e).

"(2) AMOUNT OF RECOUPMENT OR SETOFF.—

"(A) IN GENERAL.—The amount of recoupment or set-off under paragraph (1) shall equal the amount to which the consumer would be entitled under subsection (a) for damages for a valid claim brought in an original action against the creditor, plus the costs to the consumer of the action, including a reasonable attorney's fee.

"(B) SPECIAL RULE.—Where such judgment is rendered after the expiration of the applicable time limit on a private action for damages under subsection (e), the amount of recoupment or set-off under paragraph (1) derived from damages under subsection (a)(4) shall not exceed the amount to which the consumer would have been entitled under subsection (a)(4) for damages computed up to the day preceding the expiration of the applicable time limit.".

SEC. 1414. ADDITIONAL STANDARDS AND REQUIREMENTS.

(a) IN GENERAL.—Section 129C of the Truth in Lending Act is amended by inserting after subsection (b) (as added by this title) the following new subsections:

"(c) PROHIBITION ON CERTAIN PREPAYMENT PENALTIES.—

"(1) PROHIBITED ON CERTAIN LOANS.—

"(A) IN GENERAL.—A residential mortgage loan that is not a 'qualified mortgage', as defined under subsection (b)(2), may not contain terms under which a consumer must pay a prepayment penalty for paying all or part of the principal after the loan is consummated.

"(B) EXCLUSIONS.—For purposes of this subsection, a 'qualified mortgage' may not include a residential mortgage loan that—

"(i) has an adjustable rate; or

"(ii) has an annual percentage rate that exceeds the average prime offer rate for a comparable transaction, as of the date the interest rate is set—

"(I) by 1.5 or more percentage points, in the case of a first lien residential mortgage loan having a original principal obligation amount that is equal to or less than the amount of the maximum limitation on the original principal obligation of mortgage in effect for a residence of the applicable size, as of the date of such interest rate set, pursuant to the 6th sentence of section 305(a)(2) the Federal Home Loan Mortgage Corporation Act (12 U.S.C. 1454(a)(2));

"(II) by 2.5 or more percentage points, in the case of a first lien residential mortgage loan having a original principal obligation amount that is more than the amount of the maximum limitation on the original principal obligation of mortgage in effect for a residence of the applicable size, as of the date of such interest rate set, pursuant to the 6th sentence of section 305(a)(2) the Federal Home Loan Mortgage Corporation Act (12 U.S.C. 1454(a)(2)); and

"(III) by 3.5 or more percentage points, in the case of a subordinate lien residential mortgage loan.

"(2) PUBLICATION OF AVERAGE PRIME OFFER RATE AND APR THRESHOLDS.—The Board—

"(A) shall publish, and update at least weekly, average prime offer rates;

"(B) may publish multiple rates based on varying types of mortgage transactions; and

"(C) shall adjust the thresholds established under subclause (I), (II), and (III) of paragraph (1)(B)(ii) as necessary to reflect significant changes in market conditions and to effectuate the purposes of the Mortgage Reform and Anti-Predatory Lending Act.

"(3) PHASED-OUT PENALTIES ON QUALIFIED MORTGAGES.—A qualified mortgage (as defined in subsection (b)(2)) may not contain terms under which a consumer must pay a prepayment penalty for paying all or part of the principal after the loan is consummated in excess of the following limitations:

"(A) During the 1-year period beginning on the date the loan is consummated, the prepayment penalty shall not exceed an amount equal to 3 percent of the outstanding balance on the loan.

"(B) During the 1-year period beginning after the period described in subparagraph (A), the prepayment penalty shall not exceed an amount equal to 2 percent of the outstanding balance on the loan.

"(C) During the 1-year period beginning after the 1-year period described in subparagraph (B), the prepayment penalty shall not exceed an amount equal to 1 percent of the outstanding balance on the loan.

"(D) After the end of the 3-year period beginning on the date the loan is consummated, no prepayment penalty may be imposed on a qualified mortgage.

"(4) OPTION FOR NO PREPAYMENT PENALTY REQUIRED.—A creditor may not offer a consumer a residential mortgage loan product that has a prepayment penalty for paying all or part of the principal after the loan is consummated as a term of the loan without offering the consumer a residential mortgage loan product that does not have a prepayment penalty as a term of the loan.

"(d) SINGLE PREMIUM CREDIT INSURANCE PROHIBITED.—No creditor may finance, directly or indirectly, in connection with any residential mortgage loan or with any extension of credit under an open end consumer credit plan secured by the principal dwelling of the consumer, any credit life, credit disability, credit unemployment, or credit property insurance, or any other accident, loss-of-income, life, or health insurance, or any payments directly or indirectly for any debt cancellation or suspension agreement or contract, except that—

"(1) insurance premiums or debt cancellation or suspension fees calculated and paid in full on a monthly basis shall not be considered financed by the creditor; and

"(2) this subsection shall not apply to credit unemployment insurance for which the unemployment insurance premiums are reasonable, the creditor receives no direct or indirect compensation in connection with the unemployment insurance premiums, and the unemployment insurance premiums are paid pursuant to another insurance contract and not paid to an affiliate of the creditor.

"(e) ARBITRATION.—

"(1) IN GENERAL.—No residential mortgage loan and no extension of credit under an open end consumer credit plan secured by the principal dwelling of the consumer may include terms which require arbitration or any other nonjudicial procedure as the method for resolving any controversy or settling any claims arising out of the transaction.

"(2) POST-CONTROVERSY AGREEMENTS.—Subject to paragraph (3), paragraph (1) shall not be construed as limiting the right of the consumer and the creditor or any assignee to agree to arbitration or any other nonjudicial procedure as the method for resolving any controversy at any time after a dispute or claim under the transaction arises.

"(3) NO WAIVER OF STATUTORY CAUSE OF ACTION.—No provision of any residential mortgage loan or of any extension of credit under an open end consumer credit plan secured by the principal dwelling of the consumer, and no other agreement between the consumer and the creditor relating to the residential mortgage loan or extension of credit referred to in paragraph (1), shall be applied or interpreted so as to bar a consumer from bringing an action in an appropriate district court of the United States, or any other court of competent jurisdiction, pursuant to section 130 or any other provision of law, for damages or other relief in connection with any alleged violation of this section, any other provision of this title, or any other Federal law.

"(f) MORTGAGES WITH NEGATIVE AMORTIZATION.—No creditor may extend credit to a borrower in connection with a consumer credit transaction under an open or closed end consumer credit plan secured by a dwelling or residential real property that includes a dwelling, other than a reverse mortgage, that provides or permits a payment plan that may, at any time over the term of the extension of credit, result in negative amortization unless, before such transaction is consummated—

"(1) the creditor provides the consumer with a statement that—

"(A) the pending transaction will or may, as the case may be, result in negative amortization;

"(B) describes negative amortization in such manner as the Board shall prescribe;

"(C) negative amortization increases the outstanding principal balance of the account; and

"(D) negative amortization reduces the consumer's equity in the dwelling or real property; and

"(2) in the case of a first-time borrower with respect to a residential mortgage loan that is not a qualified mortgage, the first-time borrower provides the creditor with sufficient documentation to demonstrate that the consumer received homeownership counseling from organizations or counselors certified by the Secretary of Housing and Urban Development as competent to provide such counseling.''.

(b) CONFORMING AMENDMENT RELATING TO ENFORCEMENT.—Section 108(a) of the Truth in Lending Act (15 U.S.C. 1607(a)) is amended by inserting after paragraph (6) the following new paragraph:

''(7) sections 21B and 21C of the Securities Exchange Act of 1934, in the case of a broker or dealer, other than a depository institution, by the Securities and Exchange Commission.''.

(c) PROTECTION AGAINST LOSS OF ANTI-DEFICIENCY PROTECTION.—Section 129C of the Truth in Lending Act is amended by inserting after subsection (f) (as added by subsection (a)) the following new subsection:

''(g) PROTECTION AGAINST LOSS OF ANTI-DEFICIENCY PROTECTION.—

''(1) DEFINITION.—For purposes of this subsection, the term 'anti-deficiency law' means the law of any State which provides that, in the event of foreclosure on the residential property of a consumer securing a mortgage, the consumer is not liable, in accordance with the terms and limitations of such State law, for any deficiency between the sale price obtained on such property through foreclosure and the outstanding balance of the mortgage.

''(2) NOTICE AT TIME OF CONSUMMATION.—In the case of any residential mortgage loan that is, or upon consummation will be, subject to protection under an anti-deficiency law, the creditor or mortgage originator shall provide a written notice to the consumer describing the protection provided by the anti-deficiency law and the significance for the consumer of the loss of such protection before such loan is consummated.

''(3) NOTICE BEFORE REFINANCING THAT WOULD CAUSE LOSS OF PROTECTION.—In the case of any residential mortgage loan that is subject to protection under an anti-deficiency law, if a creditor or mortgage originator provides an application to a consumer, or receives an application from a consumer, for any type of refinancing for such loan that would cause the loan to lose the protection of such anti-deficiency law, the creditor or mortgage originator shall provide a written notice to the consumer describing the protection provided by the anti-deficiency law and the significance for the consumer of the loss of such protection before any agreement for any such refinancing is consummated.''.

(d) POLICY REGARDING ACCEPTANCE OF PARTIAL PAYMENT.—Section 129C of the Truth in Lending Act is amended by inserting after subsection (g) (as added by subsection (c)) the following new subsection:

''(h) POLICY REGARDING ACCEPTANCE OF PARTIAL PAYMENT.—In the case of any residential mortgage loan, a creditor shall disclose prior to settlement or, in the case of a person becoming a creditor with respect to an existing residential mortgage loan, at the time such person becomes a creditor—

''(1) the creditor's policy regarding the acceptance of partial payments; and

"(2) if partial payments are accepted, how such payments will be applied to such mortgage and if such payments will be placed in escrow.

"(i) TIMESHARE PLANS.—This section and any regulations promulgated under this section do not apply to an extension of credit relating to a plan described in section 101(53D) of title 11, United States Code.".

SEC. 1415. RULE OF CONSTRUCTION.

Except as otherwise expressly provided in section 129B or 129C of the Truth in Lending Act (as added by this title), no provision of such section 129B or 129C shall be construed as superseding, repealing, or affecting any duty, right, obligation, privilege, or remedy of any person under any other provision of the Truth in Lending Act or any other provision of Federal or State law.

SEC. 1416. AMENDMENTS TO CIVIL LIABILITY PROVISIONS.

(a) INCREASE IN AMOUNT OF CIVIL MONEY PENALTIES FOR CERTAIN VIOLATIONS.—Section 130(a) of the Truth in Lending Act (15 U.S.C. 1640(a)) is amended—

(1) in paragraph (2)(A)(ii)—

(A) by striking "$100" and inserting "$200"; and

(B) by striking "$1,000" and inserting "$2,000";

(2) in paragraph (2)(B), by striking "$500,000" and inserting "$1,000,000"; and

(3) in paragraph (4), by inserting ", paragraph (1) or (2) of section 129B(c), or section 129C(a)" after "section 129".

(b) STATUTE OF LIMITATIONS EXTENDED FOR SECTION 129 VIOLATIONS.—Section 130(e) of the Truth in Lending Act (15 U.S.C. 1640(e)) is amended—

(1) in the first sentence, by striking "Any action" and inserting "Except as provided in the subsequent sentence, any action"; and

(2) by inserting after the first sentence the following new sentence: "Any action under this section with respect to any violation of section 129, 129B, or 129C may be brought in any United States district court, or in any other court of competent jurisdiction, before the end of the 3-year period beginning on the date of the occurrence of the violation.".

SEC. 1417. LENDER RIGHTS IN THE CONTEXT OF BORROWER DECEPTION.

Section 130 of the Truth in Lending Act (15 U.S.C. 1640) is amended by adding after subsection (k) (as added by this title) the following new subsection:

"(l) EXEMPTION FROM LIABILITY AND RESCISSION IN CASE OF BORROWER FRAUD OR DECEPTION.—In addition to any other remedy available by law or contract, no creditor or assignee shall be liable to an obligor under this section, if such obligor, or co-obligor has been convicted of obtaining by actual fraud such residential mortgage loan.".

SEC. 1418. SIX-MONTH NOTICE REQUIRED BEFORE RESET OF HYBRID ADJUSTABLE RATE MORTGAGES.

(a) IN GENERAL.—Chapter 2 of the Truth in Lending Act (15 U.S.C. 1631 et seq.) is amended by inserting after section 128 the following new section:

"§ 128A. Reset of hybrid adjustable rate mortgages

"(a) HYBRID ADJUSTABLE RATE MORTGAGES DEFINED.—For purposes of this section, the term 'hybrid adjustable rate mortgage' means a consumer credit transaction secured by the consumer's principal residence with a fixed interest rate for an introductory period that adjusts or resets to a variable interest rate after such period.

"(b) NOTICE OF RESET AND ALTERNATIVES.—During the 1-month period that ends 6 months before the date on which the interest rate in effect during the introductory period of a hybrid adjustable rate mortgage adjusts or resets to a variable interest rate or, in the case of such an adjustment or resetting that occurs within the first 6 months after consummation of such loan, at consummation, the creditor or servicer of such loan shall provide a written notice, separate and distinct from all other correspondence to the consumer, that includes the following:

"(1) Any index or formula used in making adjustments to or resetting the interest rate and a source of information about the index or formula.

"(2) An explanation of how the new interest rate and payment would be determined, including an explanation of how the index was adjusted, such as by the addition of a margin.

"(3) A good faith estimate, based on accepted industry standards, of the creditor or servicer of the amount of the monthly payment that will apply after the date of the adjustment or reset, and the assumptions on which this estimate is based.

"(4) A list of alternatives consumers may pursue before the date of adjustment or reset, and descriptions of the actions consumers must take to pursue these alternatives, including—

"(A) refinancing;

"(B) renegotiation of loan terms;

"(C) payment forbearances; and

"(D) pre-foreclosure sales.

"(5) The names, addresses, telephone numbers, and Internet addresses of counseling agencies or programs reasonably available to the consumer that have been certified or approved and made publicly available by the Secretary of Housing and Urban Development or a State housing finance authority (as defined in section 1301 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989).

"(6) The address, telephone number, and Internet address for the State housing finance authority (as so defined) for the State in which the consumer resides.

"(c) SAVINGS CLAUSE.—The Board may require the notice in paragraph (b) or other notice consistent with this Act for adjustable rate mortgage loans that are not hybrid adjustable rate mortgage loans.".

(b) CLERICAL AMENDMENT.—The table of sections for chapter 2 of the Truth in Lending Act is amended by inserting after the item relating to section 128 the following new item:

"128A. Reset of hybrid adjustable rate mortgages.".

SEC. 1419. REQUIRED DISCLOSURES.

Section 128(a) of Truth in Lending Act (15 U.S.C. 1638(a)) is amended by adding at the end the following new paragraphs:

"(16) In the case of a variable rate residential mortgage loan for which an escrow or impound account will be established for the payment of all applicable taxes, insurance, and assessments—

"(A) the amount of initial monthly payment due under the loan for the payment of principal and interest, and the amount of such initial monthly payment including the monthly payment deposited in the account for the payment of all applicable taxes, insurance, and assessments; and

"(B) the amount of the fully indexed monthly payment due under the loan for the payment of principal and interest, and the amount of such fully indexed monthly payment including the monthly payment deposited in the account for the payment of all applicable taxes, insurance, and assessments.

"(17) In the case of a residential mortgage loan, the aggregate amount of settlement charges for all settlement services provided in connection with the loan, the amount of charges that are included in the loan and the amount of such charges the borrower must pay at closing, the approximate amount of the wholesale rate of funds in connection with the loan, and the aggregate amount of other fees or required payments in connection with the loan.

"(18) In the case of a residential mortgage loan, the aggregate amount of fees paid to the mortgage originator in connection with the loan, the amount of such fees paid directly by the consumer, and any additional amount received by the originator from the creditor.

"(19) In the case of a residential mortgage loan, the total amount of interest that the consumer will pay over the life of the loan as a percentage of the principal of the loan. Such amount shall be computed assuming the consumer makes each monthly payment in full and on-time, and does not make any over-payments.".

SEC. 1420. DISCLOSURES REQUIRED IN MONTHLY STATEMENTS FOR RESIDENTIAL MORTGAGE LOANS.

Section 128 of the Truth in Lending Act (15 U.S.C. 1638) is amended by adding at the end the following new subsection:

"(f) PERIODIC STATEMENTS FOR RESIDENTIAL MORTGAGE LOANS.—

"(1) IN GENERAL.—The creditor, assignee, or servicer with respect to any residential mortgage loan shall transmit to the obligor, for each billing cycle, a statement setting forth each of the following items, to the extent applicable, in a conspicuous and prominent manner:

"(A) The amount of the principal obligation under the mortgage.

"(B) The current interest rate in effect for the loan.

"(C) The date on which the interest rate may next reset or adjust.

"(D) The amount of any prepayment fee to be charged, if any.

"(E) A description of any late payment fees.

"(F) A telephone number and electronic mail address that may be used by the obligor to obtain information regarding the mortgage.

"(G) The names, addresses, telephone numbers, and Internet addresses of counseling agencies or programs reasonably available to the consumer that have been certified or approved and made publicly available by the Secretary of Housing and Urban Development or a State housing finance authority (as defined in section 1301 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989).

"(H) Such other information as the Board may prescribe in regulations.

"(2) DEVELOPMENT AND USE OF STANDARD FORM.—The Board shall develop and prescribe a standard form for the disclosure required under this subsection, taking into account that the statements required may be transmitted in writing or electronically.

"(3) EXCEPTION.—Paragraph (1) shall not apply to any fixed rate residential mortgage loan where the creditor, assignee, or servicer provides the obligor with a coupon book that provides the obligor with substantially the same information as required in paragraph (1).".

SEC. 1421. REPORT BY THE GAO.

(a) REPORT REQUIRED.—The Comptroller General of the United States shall conduct a study to determine the effects the enactment of this Act will have on the availability and affordability of credit for consumers, small businesses, homebuyers, and mortgage lending, including the effect—

(1) on the mortgage market for mortgages that are not within the safe harbor provided in the amendments made by this subtitle;

(2) on the ability of prospective homebuyers to obtain financing;

(3) on the ability of homeowners facing resets or adjustments to refinance—for example, do they have fewer refinancing options due to the unavailability of certain loan products that were available before the enactment of this Act;

(4) on minorities' ability to access affordable credit compared with other prospective borrowers;

(5) on home sales and construction;

(6) of extending the rescission right, if any, on adjustable rate loans and its impact on litigation;

(7) of State foreclosure laws and, if any, an investor's ability to transfer a property after foreclosure;

(8) of expanding the existing provisions of the Home Ownership and Equity Protection Act of 1994;

(9) of prohibiting prepayment penalties on high-cost mortgages; and

(10) of establishing counseling services under the Department of Housing and Urban Development and offered through the Office of Housing Counseling.

(b) REPORT.—Before the end of the 1-year period beginning on the date of the enactment of this Act, the Comptroller General shall submit a report to the Congress containing the findings and conclusions of the Comptroller General with respect to the study conducted pursuant to subsection (a).

(c) EXAMINATION RELATED TO CERTAIN CREDIT RISK RETENTION PROVISIONS.—The report required by subsection (b) shall also include an analysis by the Comptroller General of the effect on the capital reserves and funding of lenders of credit risk retention provisions for non-qualified mortgages, including an analysis of the exceptions and adjustments authorized in section 129C(b)(3) of the Truth in Lending Act and a recommendation on whether a uniform standard is needed.

(d) ANALYSIS OF CREDIT RISK RETENTION PROVISIONS.—The report required by subsection (b) shall also include—

(1) an analysis by the Comptroller General of whether the credit risk retention provisions have significantly reduced risks to the larger credit market of the repackaging and selling of securitized loans on a secondary market; and

(2) recommendations to the Congress on adjustments that should be made, or additional measures that should be undertaken.

SEC. 1422. STATE ATTORNEY GENERAL ENFORCEMENT AUTHORITY.

Section 130(e) of the Truth in Lending Act (15 U.S.C. 1640(e)) is amended by striking "section 129 may also" and inserting "section 129, 129B, 129C, 129D, 129E, 129F, 129G, or 129H of this Act may also".

Subtitle C—High-Cost Mortgages

SEC. 1431. DEFINITIONS RELATING TO HIGH-COST MORTGAGES.

(a) HIGH-COST MORTGAGE DEFINED.—Section 103(aa) of the Truth in Lending Act (15 U.S.C. 1602(aa)) is amended by striking all that precedes paragraph (2) and inserting the following:

"(aa) HIGH-COST MORTGAGE.—

"(1) DEFINITION.—

"(A) IN GENERAL.—The term 'high-cost mortgage', and a mortgage referred to in this subsection, means a consumer credit transaction that is secured by the consumer's principal dwelling, other than a reverse mortgage transaction, if—

"(i) in the case of a credit transaction secured—

"(I) by a first mortgage on the consumer's principal dwelling, the annual percentage rate at consummation of the transaction will exceed by more than 6.5 percentage points (8.5 percentage points, if the dwelling is personal property and the transaction is for less than $50,000) the average prime offer rate, as defined in section 129C(b)(2)(B), for a comparable transaction; or

"(II) by a subordinate or junior mortgage on the consumer's principal dwelling, the annual percentage rate at consummation of the transaction will exceed by more than 8.5 percentage points the average prime offer rate, as defined in section 129C(b)(2)(B), for a comparable transaction;

"(ii) the total points and fees payable in connection with the transaction, other than bona fide third party charges not retained by the mortgage originator, creditor, or an affiliate of the creditor or mortgage originator, exceed—

"(I) in the case of a transaction for $20,000 or more, 5 percent of the total transaction amount; or

"(II) in the case of a transaction for less than $20,000, the lesser of 8 percent of the total transaction amount or $1,000 (or such other dollar amount as the Board shall prescribe by regulation); or

"(iii) the credit transaction documents permit the creditor to charge or collect prepayment fees or penalties more than 36 months after the transaction closing or such fees or penalties exceed, in the aggregate, more than 2 percent of the amount prepaid.

"(B) INTRODUCTORY RATES TAKEN INTO ACCOUNT.—For purposes of subparagraph (A)(i), the annual percentage rate of interest shall be determined based on the following interest rate:

"(i) In the case of a fixed-rate transaction in which the annual percentage rate will not vary during the term of the loan, the interest rate in effect on the date of consummation of the transaction.

"(ii) In the case of a transaction in which the rate of interest varies solely in accordance with an index, the interest rate determined by adding the index rate in effect on the date of consummation of the transaction to the maximum margin permitted at any time during the loan agreement.

"(iii) In the case of any other transaction in which the rate may vary at any time during the term of the loan for any reason, the interest charged on the transaction at the maximum rate that may be charged during the term of the loan.

"(C) MORTGAGE INSURANCE.—For the purposes of computing the total points and fees under paragraph (4), the total points and fees shall exclude—

"(i) any premium provided by an agency of the Federal Government or an agency of a State;

"(ii) any amount that is not in excess of the amount payable under policies in effect at the time of origination under section 203(c)(2)(A) of the National Housing Act (12 U.S.C. 1709(c)(2)(A)), provided that the premium, charge, or fee is required to be refundable on a pro-rated basis and the refund is automatically issued upon notification of the satisfaction of the underlying mortgage loan; and

"(iii) any premium paid by the consumer after closing.".

(b) ADJUSTMENT OF PERCENTAGE POINTS.—Section 103(aa)(2) of the Truth in Lending Act (15 U.S.C. 1602(aa)(2)) is amended by striking subparagraph (B) and inserting the following new subparagraph:

"(B) An increase or decrease under subparagraph (A)—

"(i) may not result in the number of percentage points referred to in paragraph (1)(A)(i)(I) being less than 6 percentage points or greater than 10 percentage points; and "(ii) may not result in the number of percentage points referred to in paragraph (1)(A)(i)(II) being less than 8 percentage points or greater than 12 percentage points.".

(c) POINTS AND FEES DEFINED.—

(1) IN GENERAL.—Section 103(aa)(4) of the Truth in Lending Act (15 U.S.C. 1602(aa)(4)) is amended—

(A) by striking subparagraph (B) and inserting the following:

"(B) all compensation paid directly or indirectly by a consumer or creditor to a mortgage originator from any source, including a mortgage originator that is also the creditor in a table-funded transaction;";

(B) by redesignating subparagraph (D) as subparagraph (G); and

(C) by inserting after subparagraph (C) the following new subparagraphs:

"(D) premiums or other charges payable at or before closing for any credit life, credit disability, credit unemployment, or credit property insurance, or any other accident, loss-of-income, life or health insurance, or any payments directly or indirectly for any debt cancellation or suspension agreement or contract, except that insurance premiums or debt cancellation or suspension fees calculated and paid in full on a monthly basis shall not be considered financed by the creditor;

"(E) the maximum prepayment fees and penalties which may be charged or collected under the terms of the credit transaction;

"(F) all prepayment fees or penalties that are incurred by the consumer if the loan refinances a previous loan made or currently held by the same creditor or an affiliate of the creditor; and".

(2) CALCULATION OF POINTS AND FEES FOR OPEN-END CONSUMER CREDIT PLANS.—Section 103(aa) of the Truth in Lending Act (15 U.S.C. 1602(aa)) is amended—

(A) by redesignating paragraph (5) as paragraph (6); and

(B) by inserting after paragraph (4) the following new paragraph:

"(5) CALCULATION OF POINTS AND FEES FOR OPEN-END CONSUMER CREDIT PLANS.—In the case of open-end consumer credit plans, points and fees shall be calculated, for purposes of this section and section 129, by adding the total points and fees known at or before closing, including the maximum prepayment penalties which may be charged or collected under the terms of the credit transaction, plus the minimum additional fees the consumer would be required to pay to draw down an amount equal to the total credit line.".

(d) BONA FIDE DISCOUNT LOAN DISCOUNT POINTS.—Section 103 of the Truth in Lending Act (15 U.S.C. 1602) is amended by inserting after subsection (cc) (as added by section 1401) the following new subsection:

"(dd) BONA FIDE DISCOUNT POINTS AND PREPAYMENT PENALTIES.—For the purposes of determining the amount of points and fees for purposes of subsection (aa), either the amounts described in paragraph (1) or (2) of the following paragraphs, but not both, shall be excluded:

"(1) Up to and including 2 bona fide discount points payable by the consumer in connection with the mortgage, but only if the interest rate from which the mortgage's interest rate will be discounted does not exceed by more than 1 percentage point—

"(A) the average prime offer rate, as defined in section 129C; or

"(B) if secured by a personal property loan, the average rate on a loan in connection with which insurance is provided under title I of the National Housing Act (12 U.S.C. 1702 et seq.).

"(2) Unless 2 bona fide discount points have been excluded under paragraph (1), up to and including 1 bona fide discount point payable by the consumer in connection with the mortgage, but only if the interest rate from which the mortgage's interest rate will be discounted does not exceed by more than 2 percentage points—

"(A) the average prime offer rate, as defined in section 129C; or

"(B) if secured by a personal property loan, the average rate on a loan in connection with which insurance is provided under title I of the National Housing Act (12 U.S.C. 1702 et seq.).

"(3) For purposes of paragraph (1), the term 'bona fide discount points' means loan discount points which are knowingly paid by the consumer for the purpose of reducing, and which in fact result in a bona fide reduction of, the interest rate or time-price differential applicable to the mortgage.

"(4) Paragraphs (1) and (2) shall not apply to discount points used to purchase an interest rate reduction unless the amount of the interest rate reduction purchased is reasonably consistent with established industry norms and practices for secondary mortgage market transactions.".

SEC. 1432. AMENDMENTS TO EXISTING REQUIREMENTS FOR CERTAIN MORTGAGES.

(a) PREPAYMENT PENALTY PROVISIONS.—Section 129(c)(2) of the Truth in Lending Act (15 U.S.C. 1639(c)(2)) is hereby repealed.

(b) NO BALLOON PAYMENTS.—Section 129(e) of the Truth in Lending Act (15 U.S.C. 1639(e)) is amended to read as follows:

"(e) NO BALLOON PAYMENTS.—No high-cost mortgage may contain a scheduled payment that is more than twice as large as the average of earlier scheduled payments. This subsection shall not apply when the payment schedule is adjusted to the seasonal or irregular income of the consumer.".

SEC. 1433. ADDITIONAL REQUIREMENTS FOR CERTAIN MORTGAGES.

(a) ADDITIONAL REQUIREMENTS FOR CERTAIN MORTGAGES.—Section 129 of the Truth in Lending Act (15 U.S.C. 1639) is amended—

(1) by redesignating subsections (j), (k), (l) and (m) as subsections (n), (o), (p), and (q) respectively; and

(2) by inserting after subsection (i) the following new subsections:

"(j) RECOMMENDED DEFAULT.—No creditor shall recommend or encourage default on an existing loan or other debt prior to and in connection with the closing or planned closing of a high-cost mortgage that refinances all or any portion of such existing loan or debt.

"(k) LATE FEES.—

"(1) IN GENERAL.—No creditor may impose a late payment charge or fee in connection with a high-cost mortgage—

"(A) in an amount in excess of 4 percent of the amount of the payment past due;

"(B) unless the loan documents specifically authorize the charge or fee;

"(C) before the end of the 15-day period beginning on the date the payment is due, or in the case of a loan on which interest on each installment is paid in advance, before the end of the 30-day period beginning on the date the payment is due; or

"(D) more than once with respect to a single late payment.

"(2) COORDINATION WITH SUBSEQUENT LATE FEES.—If a payment is otherwise a full payment for the applicable period and is paid on its due date or within an applicable grace period, and the only delinquency or insufficiency of payment is attributable to any late fee or delinquency charge assessed on any earlier payment, no late fee or delinquency charge may be imposed on such payment.

"(3) FAILURE TO MAKE INSTALLMENT PAYMENT.—If, in the case of a loan agreement the terms of which provide that any payment shall first be applied to any past due principal balance, the consumer fails to make an installment payment and the consumer subsequently resumes making installment payments but has not paid all past due installments, the creditor may impose a separate late payment charge or fee for any principal due (without deduction due to late fees or related fees) until the default is cured.

"(l) ACCELERATION OF DEBT.—No high-cost mortgage may contain a provision which permits the creditor to accelerate the indebtedness, except when repayment of the loan has been accelerated by default in payment, or pursuant to a due-on-sale provision, or pursuant to a material violation of some other provision of the loan document unrelated to payment schedule.

"(m) RESTRICTION ON FINANCING POINTS AND FEES.—No creditor may directly or indirectly finance, in connection with any high-cost mortgage, any of the following:

"(1) Any prepayment fee or penalty payable by the consumer in a refinancing transaction if the creditor or an affiliate of the creditor is the noteholder of the note being refinanced.

"(2) Any points or fees.".

(b) PROHIBITIONS ON EVASIONS.—Section 129 of the Truth in Lending Act (15 U.S.C. 1639) is amended by inserting after subsection (q) (as so redesignated by subsection (a)(1)) the following new subsection:

"(r) PROHIBITIONS ON EVASIONS, STRUCTURING OF TRANSACTIONS, AND RECIPROCAL ARRANGEMENTS.—A creditor may not take any action in connection with a high-cost mortgage—

"(1) to structure a loan transaction as an open-end credit plan or another form of loan for the purpose and with the intent of evading the provisions of this title; or

"(2) to divide any loan transaction into separate parts for the purpose and with the intent of evading provisions of this title.".

(c) MODIFICATION OR DEFERRAL FEES.—Section 129 of the Truth in Lending Act (15 U.S.C. 1639) is amended by inserting after subsection (r) (as added by subsection (b) of this section) the following new subsection:

"(s) MODIFICATION AND DEFERRAL FEES PROHIBITED.—A creditor, successor in interest, assignee, or any agent of any of the above, may not charge a consumer any fee to modify, renew, extend, or amend a high-cost mortgage, or to defer any payment due under the terms of such mortgage.".

(d) PAYOFF STATEMENT.—Section 129 of the Truth in Lending Act (15 U.S.C. 1639) is amended by inserting after subsection (s) (as added by subsection (c) of this section) the following new subsection:

"(t) PAYOFF STATEMENT.—

"(1) FEES.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), no creditor or servicer may charge a fee for informing or transmitting to any person the balance due to pay off the outstanding balance on a high-cost mortgage.

"(B) TRANSACTION FEE.—When payoff information referred to in subparagraph (A) is provided by facsimile transmission or by a courier service, a creditor or servicer may charge a processing fee to cover the cost of such transmission or service in an amount not to exceed an amount that is comparable to fees imposed for similar services provided in connection with consumer credit transactions that are secured by the consumer's principal dwelling and are not high-cost mortgages.

"(C) FEE DISCLOSURE.—Prior to charging a transaction fee as provided in subparagraph (B), a creditor or servicer shall disclose that payoff balances are available for free pursuant to subparagraph (A).

"(D) MULTIPLE REQUESTS.—If a creditor or servicer has provided payoff information referred to in subparagraph (A) without charge, other than the transaction fee allowed by subparagraph (B), on 4 occasions during a calendar year, the creditor or servicer may thereafter charge a reasonable fee for providing such information during the remainder of the calendar year.

"(2) PROMPT DELIVERY.—Payoff balances shall be provided within 5 business days after receiving a request by a consumer or a person authorized by the consumer to obtain such information.".

(e) PRE-LOAN COUNSELING REQUIRED.—Section 129 of the Truth in Lending Act (15 U.S.C. 1639) is amended by inserting after subsection t) (as added by subsection (d) of this section) the following new subsection:

"(u) PRE-LOAN COUNSELING.—

"(1) IN GENERAL.—A creditor may not extend credit to a consumer under a high-cost mortgage without first receiving certification from a counselor that is approved by the Secretary of Housing and Urban Development, or at the discretion of the Secretary, a State housing finance authority, that the consumer has received counseling on the advisability of the mortgage. Such counselor shall not be employed by the creditor or an affiliate of the creditor or be affiliated with the creditor.

"(2) DISCLOSURES REQUIRED PRIOR TO COUNSELING.—No counselor may certify that a consumer has received counseling on the advisability of the high-cost mortgage unless the counselor can verify that the consumer has received each statement required (in connection with such loan) by this section or the Real Estate Settlement Procedures Act of 1974 with respect to the transaction.

"(3) REGULATIONS.—The Board may prescribe such regulations as the Board determines to be appropriate to carry out the requirements of paragraph (1).".

(f) CORRECTIONS AND UNINTENTIONAL VIOLATIONS.—Section 129 of the Truth in Lending Act (15 U.S.C. 1639) is amended by inserting after subsection (u) (as added by subsection (e)) the following new subsection:

"(v) CORRECTIONS AND UNINTENTIONAL VIOLATIONS.—A creditor or assignee in a high-cost mortgage who, when acting in good faith, fails to comply with any requirement under this section will not be deemed to have violated such requirement if the creditor or assignee establishes that either—

"(1) within 30 days of the loan closing and prior to the institution of any action, the consumer is notified of or discovers the violation, appropriate restitution is made, and whatever adjustments are necessary are made to the loan to either, at the choice of the consumer—

"(A) make the loan satisfy the requirements of this chapter; or

"(B) in the case of a high-cost mortgage, change the terms of the loan in a manner beneficial to the consumer so that the loan will no longer be a high-cost mortgage; or

"(2) within 60 days of the creditor's discovery or receipt of notification of an unintentional violation or bona fide error and prior to the institution of any action, the consumer is notified of the compliance failure, appropriate restitution is made, and whatever adjustments are necessary are made to the loan to either, at the choice of the consumer—

"(A) make the loan satisfy the requirements of this chapter; or

"(B) in the case of a high-cost mortgage, change the terms of the loan in a manner beneficial so that the loan will no longer be a high-cost mortgage.".

Subtitle D—Office of Housing Counseling

SEC. 1441. SHORT TITLE.

This subtitle may be cited as the "Expand and Preserve Home Ownership Through Counseling Act".

SEC. 1442. ESTABLISHMENT OF OFFICE OF HOUSING COUNSELING.

Section 4 of the Department of Housing and Urban Development Act (42 U.S.C. 3533) is amended by adding at the end the following new subsection:

"(g) OFFICE OF HOUSING COUNSELING.—

"(1) ESTABLISHMENT.—There is established, in the Department, the Office of Housing Counseling.

"(2) DIRECTOR.—There is established the position of Director of Housing Counseling. The Director shall be the head of the Office of Housing Counseling and shall be appointed by, and shall report to, the Secretary. Such position shall be a career-reserved position in the Senior Executive Service.

"(3) FUNCTIONS.—

"(A) IN GENERAL.—The Director shall have primary responsibility within the Department for all activities and matters relating to homeownership counseling and rental housing counseling, including—

"(i) research, grant administration, public outreach, and policy development relating to such counseling; and

"(ii) establishment, coordination, and administration of all regulations, requirements, standards, and performance measures under programs and laws administered by the Department that relate to housing counseling, homeownership counseling (including maintenance of homes), mortgage-related counseling (including home equity conversion mortgages and credit protection options to avoid foreclosure), and rental housing counseling, including the requirements, standards, and performance measures relating to housing counseling.

"(B) SPECIFIC FUNCTIONS.—The Director shall carry out the functions assigned to the Director and the Office under this section and any other provisions of law. Such functions shall include establishing rules necessary for—

"(i) the counseling procedures under section 106(g)(1) of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x(h)(1));

"(ii) carrying out all other functions of the Secretary under section 106(g) of the Housing and Urban Development Act of 1968, including the establishment, operation, and publication of the availability of the toll-free telephone number under paragraph (2) of such section;

"(iii) contributing to the distribution of home buying information booklets pursuant to section 5 of the Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2604);

"(iv) carrying out the certification program under section 106(e) of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x(e));

"(v) carrying out the assistance program under section 106(a)(4) of the Housing and Urban Development Act of 1968, including criteria for selection of applications to receive assistance;

"(vi) carrying out any functions regarding abusive, deceptive, or unscrupulous lending practices relating to residential mortgage loans that the Secretary considers appropriate, which shall include conducting the study under section 6 of the Expand and Preserve Home Ownership Through Counseling Act;

"(vii) providing for operation of the advisory committee established under paragraph (4) of this subsection;

"(viii) collaborating with community-based organizations with expertise in the field of housing counseling; and

"(ix) providing for the building of capacity to provide housing counseling services in areas that lack sufficient services, including underdeveloped areas that lack basic water and sewer systems, electricity services, and safe, sanitary housing.

"(4) ADVISORY COMMITTEE.—

"(A) IN GENERAL.—The Secretary shall appoint an advisory committee to provide advice regarding the carrying out of the functions of the Director.

"(B) MEMBERS.—Such advisory committee shall consist of not more than 12 individuals, and the membership of the committee shall equally represent the mortgage and real estate industry, including consumers and housing counseling agencies certified by the Secretary.

"(C) TERMS.—Except as provided in subparagraph (D), each member of the advisory committee shall be appointed for a term of 3 years. Members may be reappointed at the discretion of the Secretary.

"(D) TERMS OF INITIAL APPOINTEES.—As designated by the Secretary at the time of appointment, of the members first appointed to the advisory committee, 4 shall be appointed for a term of 1 year and 4 shall be appointed for a term of 2 years.

"(E) PROHIBITION OF PAY; TRAVEL EXPENSES.—Members of the advisory committee shall serve without pay, but shall receive travel expenses, including per diem in lieu of subsistence, in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

"(F) ADVISORY ROLE ONLY.—The advisory committee shall have no role in reviewing or awarding housing counseling grants.

"(5) SCOPE OF HOMEOWNERSHIP COUNSELING.—In carrying out the responsibilities of the Director, the Director shall ensure that homeownership counseling provided by, in connection with, or pursuant to any function, activity, or program of the Department addresses the entire process of homeownership, including the decision to purchase a home, the selection and purchase of a home, issues arising during or affecting the period of ownership of a home (including refinancing, default and foreclosure, and other financial decisions), and the sale or other disposition of a home.".

SEC. 1443. COUNSELING PROCEDURES.

(a) IN GENERAL.—Section 106 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x) is amended by adding at the end the following new subsection:

"(g) PROCEDURES AND ACTIVITIES.—

"(1) COUNSELING PROCEDURES.—

"(A) In general.—The Secretary shall establish, coordinate, and monitor the administration by the Department of Housing and Urban Development of the counseling procedures for homeownership counseling and rental housing counseling provided in connection with any program of the Department, including all requirements, standards, and performance measures that relate to homeownership and rental housing counseling.

"(B) Homeownership counseling.—For purposes of this subsection and as used in the provisions referred to in this subparagraph, the term 'homeownership counseling' means counseling related to homeownership and residential mortgage loans. Such term includes counseling related to homeownership and residential mortgage loans that is provided pursuant to—

"(i) section 105(a)(20) of the Housing and Community Development Act of 1974 (42 U.S.C. 5305(a)(20));

"(ii) in the United States Housing Act of 1937—

"(I) section 9(e) (42 U.S.C. 1437g(e));

"(II) section 8(y)(1)(D) (42 U.S.C. 1437f(y)(1)(D));

"(III) section 18(a)(4)(D) (42 U.S.C. 1437p(a)(4)(D));

"(IV) section 23(c)(4) (42 U.S.C. 1437u(c)(4));

"(V) section 32(e)(4) (42 U.S.C. 1437z–4(e)(4));

"(VI) section 33(d)(2)(B) (42 U.S.C. 1437z–5(d)(2)(B));

"(VII) sections 302(b)(6) and 303(b)(7) (42 U.S.C. 1437aaa–1(b)(6), 1437aaa–2(b)(7)); and

"(VIII) section 304(c)(4) (42 U.S.C. 1437aaa–3(c)(4));

"(iii) section 302(a)(4) of the American Homeownership and Economic Opportunity Act of 2000 (42 U.S.C. 1437f note);

"(iv) sections 233(b)(2) and 258(b) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12773(b)(2), 12808(b));

"(v) this section and section 101(e) of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x, 1701w(e));

"(vi) section 220(d)(2)(G) of the Low-Income Housing Preservation and Resident Homeownership Act of 1990 (12 U.S.C. 4110(d)(2)(G));

"(vii) sections 422(b)(6), 423(b)(7), 424(c)(4), 442(b)(6), and 443(b)(6) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12872(b)(6), 12873(b)(7), 12874(c)(4), 12892(b)(6), and 12893(b)(6));

"(viii) section 491(b)(1)(F)(iii) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11408(b)(1)(F)(iii));

"(ix) sections 202(3) and 810(b)(2)(A) of the Native American Housing and Self-Determination Act of 1996 (25 U.S.C. 4132(3), 4229(b)(2)(A));

"(x) in the National Housing Act—

"(I) in section 203 (12 U.S.C. 1709), the penultimate undesignated paragraph of paragraph (2) of subsection (b), subsection (c)(2)(A), and subsection (r)(4);

"(II) subsections (a) and (c)(3) of section 237 (12 U.S.C. 1715z–2); and

"(III) subsections (d)(2)(B) and (m)(1) of section 255 (12 U.S.C. 1715z–20);

"(xi) section 502(h)(4)(B) of the Housing Act of 1949 (42 U.S.C. 1472(h)(4)(B));

"(xii) section 508 of the Housing and Urban Development Act of 1970 (12 U.S.C. 1701z–7); and

"(xiii) section 106 of the Energy Policy Act of 1992 (42 U.S.C. 12712 note).

"(C) RENTAL HOUSING COUNSELING.—For purposes of this subsection, the term 'rental housing counseling' means counseling related to rental of residential property, which may include counseling regarding future homeownership opportunities and providing referrals for renters and prospective renters to entities providing counseling and shall include counseling related to such topics that is provided pursuant to—

"(i) section 105(a)(20) of the Housing and Community Development Act of 1974 (42 U.S.C. 5305(a)(20));

"(ii) in the United States Housing Act of 1937—

"(I) section 9(e) (42 U.S.C. 1437g(e));

"(II) section 18(a)(4)(D) (42 U.S.C. 1437p(a)(4)(D));

"(III) section 23(c)(4) (42 U.S.C. 1437u(c)(4));

"(IV) section 32(e)(4) (42 U.S.C. 1437z–4(e)(4));

"(V) section 33(d)(2)(B) (42 U.S.C. 1437z–5(d)(2)(B)); and

"(VI) section 302(b)(6) (42 U.S.C. 1437aaa–1(b)(6));

"(iii) section 233(b)(2) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12773(b)(2));

"(iv) section 106 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x);

"(v) section 422(b)(6) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12872(b)(6));

"(vi) section 491(b)(1)(F)(iii) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11408(b)(1)(F)(iii));

"(vii) sections 202(3) and 810(b)(2)(A) of the Native American Housing and Self-Determination Act of 1996 (25 U.S.C. 4132(3), 4229(b)(2)(A)); and

"(viii) the rental assistance program under section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f).

"(2) STANDARDS FOR MATERIALS.—The Secretary, in consultation with the advisory committee established under subsection (g)(4) of the Department of Housing and Urban Development Act, shall establish standards for materials and forms to be used, as appropriate, by organizations providing homeownership counseling services, including any recipients of assistance pursuant to subsection (a)(4).

"(3) MORTGAGE SOFTWARE SYSTEMS.—

"(A) CERTIFICATION.—The Secretary shall provide for the certification of various computer software programs for consumers to use in evaluating different residential mortgage loan proposals. The Secretary shall require, for such certification, that the mortgage software systems take into account—

"(i) the consumer's financial situation and the cost of maintaining a home, including insurance, taxes, and utilities;

"(ii) the amount of time the consumer expects to remain in the home or expected time to maturity of the loan; and

"(iii) such other factors as the Secretary considers appropriate to assist the consumer in evaluating whether to pay points, to lock in an interest rate, to select an adjustable or fixed rate loan, to select a conventional or government-insured or guaranteed loan and to make other choices during the loan application process.

If the Secretary determines that available existing software is inadequate to assist consumers during the residential mortgage loan application process, the Secretary shall arrange for the development by private sector software companies of new mortgage software systems that meet the Secretary's specifications.

"(B) USE AND INITIAL AVAILABILITY.—Such certified computer software programs shall be used to supplement, not replace, housing counseling. The Secretary shall provide that such programs are initially used only in connection with the assistance of housing counselors certified pursuant to subsection (e).

"(C) AVAILABILITY.—After a period of initial availability under subparagraph (B) as the Secretary considers appropriate, the Secretary shall take reasonable steps to make mortgage software systems certified pursuant to this paragraph widely available through the Internet and at public locations, including public libraries, senior-citizen centers, public housing sites, offices of public housing agencies that administer rental housing assistance vouchers, and housing counseling centers.

"(D) BUDGET COMPLIANCE.—This paragraph shall be effective only to the extent that amounts to carry out this paragraph are made available in advance in appropriations Acts.

"(4) NATIONAL PUBLIC SERVICE MULTIMEDIA CAMPAIGNS TO PROMOTE HOUSING COUNSELING.—

"(A) IN GENERAL.—The Director of Housing Counseling shall develop, implement, and conduct national public service multimedia campaigns designed to make persons facing mortgage foreclosure, persons considering a subprime mortgage loan to purchase a home, elderly persons, persons who face language barriers, low-income persons, minorities, and other potentially vulnerable consumers aware that it is advisable, before seeking or maintaining a residential mortgage loan, to obtain homeownership counseling from an unbiased and reliable sources and that such homeownership counseling is available, including through programs sponsored by the Secretary of Housing and Urban Development.

"(B) CONTACT INFORMATION.—Each segment of the multimedia campaign under subparagraph (A) shall publicize the toll-free telephone number and website of the Department of Housing and Urban Development through which persons seeking housing counseling can locate a housing counseling agency in their State that is certified by the Secretary of Housing and Urban Development and can provide advice on buying a home, renting, defaults, foreclosures, credit issues, and reverse mortgages.

"(C) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary, not to exceed $3,000,000 for fiscal years 2009, 2010, and 2011, for the development, implementation, and conduct of national public service multimedia campaigns under this paragraph.

"(D) FORECLOSURE RESCUE EDUCATION PROGRAMS.—

"(i) IN GENERAL.—Ten percent of any funds appropriated pursuant to the authorization under subparagraph (C) shall be used by the Director of Housing Counseling to conduct an education program in areas that have a high density of foreclosure. Such program shall involve direct mailings to persons living in such areas describing—

"(I) tips on avoiding foreclosure rescue scams;

"(II) tips on avoiding predatory lending mortgage agreements;

"(III) tips on avoiding for-profit foreclosure counseling services; and

"(IV) local counseling resources that are approved by the Department of Housing and Urban Development.

"(ii) PROGRAM EMPHASIS.—In conducting the education program described under clause (i), the Director of Housing Counseling shall also place an emphasis on serving communities that have a high percentage of retirement communities or a high percentage of low-income minority communities.

"(iii) TERMS DEFINED.—For purposes of this subparagraph:

"(I) HIGH DENSITY OF FORECLOSURES.—An area has a 'high density of foreclosures' if such area is one of the metropolitan statistical areas (as that term is defined by the Director of the Office of Management and Budget) with the highest home foreclosure rates.

"(II) HIGH PERCENTAGE OF RETIREMENT COMMUNITIES.—An area has a 'high percentage of retirement communities' if such area is one of the metropolitan statistical areas (as that term is defined by the Director of the Office of Management and Budget) with the highest percentage of residents aged 65 or older.

"(III) HIGH PERCENTAGE OF LOW-INCOME MINORITY COMMUNITIES.—An area has a 'high percentage of low-income minority communities' if such area contains a higher-than-normal percentage of residents who are both minorities and low-income, as defined by the Director of Housing Counseling.

"(5) EDUCATION PROGRAMS.—The Secretary shall provide advice and technical assistance to States, units of general local government, and nonprofit organizations regarding the establishment and operation of, including assistance with the development of content and materials for, educational programs to inform and educate consumers, particularly those most vulnerable with respect to residential mortgage loans (such as elderly persons, persons facing language barriers, low-income persons, minorities, and other potentially vulnerable consumers), regarding home mortgages, mortgage refinancing, home equity loans, home repair loans, and where appropriate by region, any requirements and costs associated with obtaining flood or other disaster-specific insurance coverage.".

(b) CONFORMING AMENDMENTS TO GRANT PROGRAM FOR HOMEOWNERSHIP COUNSELING ORGANIZATIONS.—Section 106(c)(5)(A)(ii) of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x(c)(5)(A)(ii)) is amended—

(1) in subclause (III), by striking "and" at the end;

(2) in subclause (IV) by striking the period at the end and inserting "; and"; and

(3) by inserting after subclause (IV) the following new subclause:

"(V) notify the housing or mortgage applicant of the availability of mortgage software systems provided pursuant to subsection (g)(3).".

SEC. 1444. GRANTS FOR HOUSING COUNSELING ASSISTANCE.

Section 106(a) of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x(a)) is amended by adding at the end the following new paragraph:

"(4) HOMEOWNERSHIP AND RENTAL COUNSELING ASSISTANCE.—

"(A) IN GENERAL.—The Secretary shall make financial assistance available under this paragraph to HUD-approved housing counseling agencies and State housing finance agencies.

"(B) QUALIFIED ENTITIES.—The Secretary shall establish standards and guidelines for eligibility of organizations (including governmental and nonprofit organizations) to receive assistance under this paragraph, in accordance with subparagraph (D).

"(C) DISTRIBUTION.—Assistance made available under this paragraph shall be distributed in a manner that encourages efficient and successful counseling programs and that ensures adequate distribution of amounts for rural areas having traditionally low levels of access to such counseling services, including areas with insufficient access to the Internet. In distributing such assistance, the Secretary may give priority consideration to entities serving areas with the highest home foreclosure rates.

"(D) LIMITATION ON DISTRIBUTION OF ASSISTANCE.—

"(i) IN GENERAL.—None of the amounts made available under this paragraph shall be distributed to—

"(I) any organization which has been convicted for a violation under Federal law relating to an election for Federal office; or

"(II) any organization which employs applicable individuals.

"(ii) DEFINITION OF APPLICABLE INDIVIDUALS.—In this subparagraph, the term 'applicable individual' means an individual who—

"(I) is—

"(aa) employed by the organization in a permanent or temporary capacity;

"(bb) contracted or retained by the organization; or

"(cc) acting on behalf of, or with the express or apparent authority of, the organization; and

"(II) has been convicted for a violation under Federal law relating to an election for Federal office.

"(E) GRANTMAKING PROCESS.—In making assistance available under this paragraph, the Secretary shall consider appropriate ways of streamlining and improving the processes for grant application, review, approval, and award.

"(F) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $45,000,000 for each of fiscal years 2009 through 2012 for—

"(i) the operations of the Office of Housing Counseling of the Department of Housing and Urban Development;

"(ii) the responsibilities of the Director of Housing Counseling under paragraphs (2) through (5) of subsection (g); and

"(iii) assistance pursuant to this paragraph for entities providing homeownership and rental counseling.".

SEC. 1445. REQUIREMENTS TO USE HUD-CERTIFIED COUNSELORS UNDER HUD PROGRAMS.

Section 106(e) of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x(e)) is amended—

(1) by striking paragraph (1) and inserting the following new paragraph:

"(1) REQUIREMENT FOR ASSISTANCE.—An organization may not receive assistance for counseling activities under subsection (a)(1)(iii), (a)(2), (a)(4), (c), or (d) of this section, or under section 101(e), unless the organization, or the individuals through which the organization provides such counseling, has been certified by the Secretary under this subsection as competent to provide such counseling.";

(2) in paragraph (2)—

(A) by inserting "and for certifying organizations" before the period at the end of the first sentence; and

(B) in the second sentence by striking "for certification" and inserting ", for certification of an organization, that each individual through which the organization provides counseling shall demonstrate, and, for certification of an individual,";

(3) in paragraph (3), by inserting "organizations and" before "individuals";

(4) by redesignating paragraph (3) as paragraph (5); and

(5) by inserting after paragraph (2) the following new paragraphs:

"(3) REQUIREMENT UNDER HUD PROGRAMS.—Any homeownership counseling or rental housing counseling (as such terms are defined in subsection (g)(1)) required under, or provided in connection with, any program administered by the Department of Housing and Urban Development shall be provided only by organizations or counselors certified by the Secretary under this subsection as competent to provide such counseling.

"(4) OUTREACH.—The Secretary shall take such actions as the Secretary considers appropriate to ensure that individuals and organizations providing homeownership or rental housing counseling are aware of the certification requirements and standards of this subsection and of the training and certification programs under subsection (f).".

SEC. 1446. STUDY OF DEFAULTS AND FORECLOSURES.

The Secretary of Housing and Urban Development shall conduct an extensive study of the root causes of default and foreclosure of home loans, using as much empirical data as are available. The study shall also examine the role of escrow accounts in helping prime and nonprime borrowers to avoid defaults and foreclosures, and the role of computer registries of mortgages, including those used for trading mortgage loans. Not later than 12 months after the date of the enactment of this Act, the Secretary shall submit to the Congress a preliminary report regarding the study. Not later than 24 months after such date of enactment, the Secretary shall submit a final report regarding the results of the study, which shall include any recommended legislation relating to the study, and recommendations for best practices and for a process to identify populations that need counseling the most.

SEC. 1447. DEFAULT AND FORECLOSURE DATABASE.

(a) ESTABLISHMENT.—The Secretary of Housing and Urban Development and the Director of the Bureau, in consultation with the Federal agencies responsible for regulation of banking and financial institutions involved in residential mortgage lending and servicing, shall establish and maintain a database of information on foreclosures and defaults on mortgage loans for one- to four-unit residential properties and shall make such information publicly available, subject to subsection (e).

(b) CENSUS TRACT DATA.—Information in the database may be collected, aggregated, and made available on a census tract basis.

(c) REQUIREMENTS.—Information collected and made available through the database shall include—

(1) the number and percentage of such mortgage loans that are delinquent by more than 30 days;

(2) the number and percentage of such mortgage loans that are delinquent by more than 90 days;

(3) the number and percentage of such properties that are real estate-owned;

(4) number and percentage of such mortgage loans that are in the foreclosure process;

(5) the number and percentage of such mortgage loans that have an outstanding principal obligation amount that is greater than the value of the property for which the loan was made; and

(6) such other information as the Secretary of Housing and Urban Development and the Director of the Bureau consider appropriate.

(d) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to encourage discriminatory or unsound allocation of credit or lending policies or practices.

(e) PRIVACY AND CONFIDENTIALITY.—In establishing and maintaining the database described in subsection (a), the Secretary of Housing and Urban Development and the Director of the Bureau shall—

(1) be subject to the standards applicable to Federal agencies for the protection of the confidentiality of personally identifiable information and for data security and integrity;

(2) implement the necessary measures to conform to the standards for data integrity and security described in paragraph (1); and

(3) collect and make available information under this section, in accordance with paragraphs (5) and (6) of section 1022(c) and the rules prescribed under such paragraphs, in order to protect privacy and confidentiality.

SEC. 1448. DEFINITIONS FOR COUNSELING-RELATED PROGRAMS.

Section 106 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x), as amended by the preceding provisions of this subtitle, is amended by adding at the end the following new subsection:

"(h) DEFINITIONS.—For purposes of this section:

"(1) NONPROFIT ORGANIZATION.—The term 'nonprofit organization' has the meaning given such term in section 104(5) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12704(5)), except that subparagraph (D) of such section shall not apply for purposes of this section.

"(2) STATE.—The term 'State' means each of the several States, the Commonwealth of Puerto Rico, the District of Columbia, the Commonwealth of the Northern Mariana Islands, Guam, the Virgin Islands, American Samoa, the Trust Territories of the Pacific, or any other possession of the United States.

"(3) UNIT OF GENERAL LOCAL GOVERNMENT.—The term 'unit of general local government' means any city, county, parish, town, township, borough, village, or other general purpose political subdivision of a State.

"(4) HUD-APPROVED COUNSELING AGENCY.—The term 'HUD-approved counseling agency' means a private or public nonprofit organization that is—

"(A) exempt from taxation under section 501(c) of the Internal Revenue Code of 1986; and

"(B) certified by the Secretary to provide housing counseling services.

"(5) STATE HOUSING FINANCE AGENCY.—The term 'State housing finance agency' means any public body, agency, or instrumentality specifically created under State statute that is authorised to finance activities designed to provide housing and related facilities throughout an entire State through land acquisition, construction, or rehabilitation.".

SEC. 1449. ACCOUNTABILITY AND TRANSPARENCY FOR GRANT RECIPIENTS.

Section 106 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x), as amended by the preceding provisions of this subtitle, is amended by adding at the end the following:

"(i) ACCOUNTABILITY FOR RECIPIENTS OF COVERED ASSISTANCE.—

"(1) TRACKING OF FUNDS.—The Secretary shall—

"(A) develop and maintain a system to ensure that any organization or entity that receives any covered assistance uses all amounts of covered assistance in accordance with this section, the regulations issued under this section, and any requirements or conditions under which such amounts were provided; and

"(B) require any organization or entity, as a condition of receipt of any covered assistance, to agree to comply with such requirements regarding covered assistance as the Secretary shall establish, which shall include—

"(i) appropriate periodic financial and grant activity reporting, record retention, and audit requirements for the duration of the covered assistance to the organization or entity to ensure compliance with the limitations and requirements of this section, the regulations under this section, and any requirements or conditions under which such amounts were provided; and

"(ii) any other requirements that the Secretary determines are necessary to ensure appropriate administration and compliance.

"(2) MISUSE OF FUNDS.—If any organization or entity that receives any covered assistance is determined by the Secretary to have used any covered assistance in a manner that is materially in violation of this section, the regulations issued under this section, or any requirements or conditions under which such assistance was provided—

"(A) the Secretary shall require that, within 12 months after the determination of such misuse, the organization or entity shall reimburse the Secretary for such misused amounts and return to the Secretary any such amounts that remain unused or uncommitted for use; and

"(B) such organization or entity shall be ineligible, at any time after such determination, to apply for or receive any further covered assistance.

The remedies under this paragraph are in addition to any other remedies that may be available under law.

"(3) COVERED ASSISTANCE.—For purposes of this subsection, the term 'covered assistance' means any grant or other financial assistance provided under this section.".

SEC. 1450. UPDATING AND SIMPLIFICATION OF MORTGAGE INFORMATION BOOKLET.

Section 5 of the Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2604) is amended—

(1) in the section heading, by striking "SPECIAL" and inserting "HOME BUYING";

(2) by striking subsections (a) and (b) and inserting the following new subsections:

"(a) PREPARATION AND DISTRIBUTION.—The Director of the Bureau of Consumer Financial Protection (hereafter in this section referred to as the 'Director') shall prepare, at least once every 5 years, a booklet to help consumers applying for federally related mortgage loans to understand the nature and costs of real estate settlement services. The Director shall prepare the booklet in various languages and cultural styles, as the Director determines to be appropriate, so that the booklet is understandable and accessible to homebuyers of different ethnic and cultural backgrounds. The Director shall distribute such booklets to all lenders that make federally related mortgage loans. The Director shall also distribute to such lenders lists, organized by location, of homeownership counselors certified under section 106(e) of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x(e)) for use in complying with the requirement under subsection (c) of this section.

"(b) CONTENTS.—Each booklet shall be in such form and detail as the Director shall prescribe and, in addition to such other information as the Director may provide, shall include in plain and understandable language the following information:

"(1) A description and explanation of the nature and purpose of the costs incident to a real estate settlement or a federally related mortgage loan. The description and explanation shall provide general information about the mortgage process as well as specific information concerning, at a minimum—

"(A) balloon payments;

"(B) prepayment penalties;

"(C) the advantages of prepayment; and

"(D) the trade-off between closing costs and the interest rate over the life of the loan.

"(2) An explanation and sample of the uniform settlement statement required by section 4.

"(3) A list and explanation of lending practices, including those prohibited by the Truth in Lending Act or other applicable Federal law, and of other unfair practices and unreasonable or unnecessary charges to be avoided by the prospective buyer with respect to a real estate settlement.

"(4) A list and explanation of questions a consumer obtaining a federally related mortgage loan should ask regarding the loan, including whether the consumer will have the ability to repay the loan, whether the consumer sufficiently shopped for the loan, whether the loan terms include prepayment penalties or balloon payments, and whether the loan will benefit the borrower.

"(5) An explanation of the right of rescission as to certain transactions provided by sections 125 and 129 of the Truth in Lending Act.

"(6) A brief explanation of the nature of a variable rate mortgage and a reference to the booklet entitled 'Consumer Handbook on Adjustable Rate Mortgages', published by the Director, or to any suitable substitute of such booklet that the Director may subsequently adopt pursuant to such section.

"(7) A brief explanation of the nature of a home equity line of credit and a reference to the pamphlet required to be provided under section 127A of the Truth in Lending Act.

"(8) Information about homeownership counseling services made available pursuant to section 106(a)(4) of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x(a)(4)), a recommendation that the consumer use such services, and notification that a list of certified providers of homeownership counseling in the area, and their contact information, is available.

"(9) An explanation of the nature and purpose of escrow accounts when used in connection with loans secured by residential real estate and the requirements under section 10 of this Act regarding such accounts.

"(10) An explanation of the choices available to buyers of residential real estate in selecting persons to provide necessary services incidental to a real estate settlement.

"(11) An explanation of a consumer's responsibilities, liabilities, and obligations in a mortgage transaction.

"(12) An explanation of the nature and purpose of real estate appraisals, including the difference between an appraisal and a home inspection.

"(13) Notice that the Office of Housing of the Department of Housing and Urban Development has made publicly available a brochure regarding loan fraud and a World Wide Web address and toll-free telephone number for obtaining the brochure.

The booklet prepared pursuant to this section shall take into consideration differences in real estate settlement procedures that may exist among the several States and territories of the United States and among separate political subdivisions within the same State and territory.";

(3) in subsection (c), by inserting at the end the following new sentence: "Each lender shall also include with the booklet a reasonably complete or updated list of homeownership counselors who are certified pursuant to section 106(e) of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x(e)) and located in the area of the lender."; and

(4) in subsection (d), by inserting after the period at the end of the first sentence the following: "The lender shall provide the booklet in the version that is most appropriate for the person receiving it.".

SEC. 1451. HOME INSPECTION COUNSELING.

(a) PUBLIC OUTREACH.—

(1) IN GENERAL.—The Secretary of Housing and Urban Development (in this section referred to as the "Secretary") shall take such actions as may be necessary to inform potential homebuyers of the availability and importance of obtaining an independent home inspection. Such actions shall include—

(A) publication of the HUD/FHA form HUD 92564–CN entitled "For Your Protection: Get a Home Inspection", in both English and Spanish languages;

(B) publication of the HUD/FHA booklet entitled "For Your Protection: Get a Home Inspection", in both English and Spanish languages;

(C) development and publication of a HUD booklet entitled "For Your Protection—Get a Home Inspection" that does not reference FHA-insured homes, in both English and Spanish languages; and

(D) publication of the HUD document entitled "Ten Important Questions To Ask Your Home Inspector", in both English and Spanish languages.

(2) AVAILABILITY.—The Secretary shall make the materials specified in paragraph (1) available for electronic access and, where appropriate, inform potential homebuyers of such availability through home purchase counseling public service announcements and toll-free telephone hotlines of the Department of Housing and Urban Development. The Secretary shall give special emphasis to reaching first-time and low-income homebuyers with these materials and efforts.

(3) UPDATING.—The Secretary may periodically update and revise such materials, as the Secretary determines to be appropriate.

(b) REQUIREMENT FOR FHA-APPROVED LENDERS.—Each mortgagee approved for participation in the mortgage insurance programs under title II of the National Housing Act shall provide prospective homebuyers, at first contact, whether upon pre-qualification, pre-approval, or initial application, the materials specified in subparagraphs (A), (B), and (D) of subsection (a)(1).

(c) REQUIREMENTS FOR HUD-APPROVED COUNSELING AGENCIES.—Each counseling agency certified pursuant by the Secretary to provide housing counseling services shall provide each of their clients, as part of the home purchase counseling process, the materials specified in subparagraphs (C) and (D) of subsection (a)(1).

(d) TRAINING.—Training provided the Department of Housing and Urban Development for housing counseling agencies, whether such training is provided directly by the Department or otherwise, shall include—

(1) providing information on counseling potential homebuyers of the availability and importance of getting an independent home inspection;

(2) providing information about the home inspection process, including the reasons for specific inspections such as radon and lead-based paint testing;

(3) providing information about advising potential homebuyers on how to locate and select a qualified home inspector; and

(4) review of home inspection public outreach materials of the Department.

SEC. 1452. WARNINGS TO HOMEOWNERS OF FORECLOSURE RESCUE SCAMS.

(a) ASSISTANCE TO NRC.—Notwithstanding any other provision of law, of any amounts made available for any fiscal year pursuant to section 106(a)(4)(F) of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x(a)(4)(F)) (as added by section 1444), 10 percent shall be used only for assistance to the Neighborhood Reinvestment Corporation for activities, in consultation with servicers of residential mortgage loans, to provide notice to borrowers under such loans who are delinquent with respect to payments due under such loans that makes such borrowers aware of the dangers of fraudulent activities associated with foreclosure.

(b) NOTICE.—The Neighborhood Reinvestment Corporation, in consultation with servicers of residential mortgage loans, shall use the amounts provided pursuant to subsection (a) to carry out activities to inform borrowers under residential mortgage loans—

(1) that the foreclosure process is complex and can be confusing;

(2) that the borrower may be approached during the foreclosure process by persons regarding saving their home and they should use caution in any such dealings;

(3) that there are Federal Government and nonprofit agencies that may provide information about the foreclosure process, including the Department of Housing and Urban Development;

(4) that they should contact their lender immediately, contact the Department of Housing and Urban Development to find a housing counseling agency certified by the Department to assist in avoiding foreclosure, or visit the Department's website regarding tips for avoiding foreclosure; and

(5) of the telephone number of the loan servicer or successor, the telephone number of the Department of Housing and Urban Development housing counseling line, and the Uniform Resource Locators (URLs) for the Department of Housing and Urban Development Web sites for housing counseling and for tips for avoiding foreclosure.

Subtitle E—Mortgage Servicing

SEC. 1461. ESCROW AND IMPOUND ACCOUNTS RELATING TO CERTAIN CONSUMER CREDIT TRANSACTIONS.

(a) IN GENERAL.—Chapter 2 of the Truth in Lending Act (15 U.S.C. 1631 et seq.) is amended by inserting after section 129C (as added by section 1411) the following new section:

"§ 129D. Escrow or impound accounts relating to certain consumer credit transactions

"(a) IN GENERAL.—Except as provided in subsection (b), (c), (d), or (e), a creditor, in connection with the consummation of a consumer credit transaction secured by a first lien on the principal dwelling of the consumer, other than a consumer credit transaction under an open end credit plan or a reverse mortgage, shall establish, before the consummation of such transaction, an escrow or impound account for the payment of taxes and hazard insurance, and, if applicable, flood insurance, mortgage insurance, ground rents, and any other required periodic payments or premiums with respect to the property or the loan terms, as provided in, and in accordance with, this section.

"(b) WHEN REQUIRED.—No impound, trust, or other type of account for the payment of property taxes, insurance premiums, or other purposes relating to the property may be required as a condition of a real property sale contract or a loan secured by a first deed of trust or mortgage on the principal dwelling of the consumer, other than a consumer credit transaction under an open end credit plan or a reverse mortgage, except when—

"(1) any such impound, trust, or other type of escrow or impound account for such purposes is required by Federal or State law;

"(2) a loan is made, guaranteed, or insured by a State or Federal governmental lending or insuring agency;

"(3) the transaction is secured by a first mortgage or lien on the consumer's principal dwelling having an original principal obligation amount that—

"(A) does not exceed the amount of the maximum limitation on the original principal obligation of mortgage in effect for a residence of the applicable size, as of the date such interest rate set, pursuant to the sixth sentence of section 305(a)(2) the Federal Home Loan Mortgage Corporation Act (12 U.S.C. 1454(a)(2)), and the annual percentage rate will exceed the average prime offer rate as defined in section 129C by 1.5 or more percentage points; or

"(B) exceeds the amount of the maximum limitation on the original principal obligation of mortgage in effect for a residence of the applicable size, as of the date such interest rate set, pursuant to the sixth sentence of section 305(a)(2) the Federal Home Loan Mortgage Corporation Act (12 U.S.C. 1454(a)(2)), and the annual percentage rate will exceed the average prime offer rate as defined in section 129C by 2.5 or more percentage points; or

"(4) so required pursuant to regulation.

"(c) EXEMPTIONS.—The Board may, by regulation, exempt from the requirements of subsection (a) a creditor that—

"(1) operates predominantly in rural or underserved areas;

"(2) together with all affiliates, has total annual mortgage loan originations that do not exceed a limit set by the Board;

"(3) retains its mortgage loan originations in portfolio; and

"(4) meets any asset size threshold and any other criteria the Board may establish, consistent with the purposes of this subtitle.

"(d) DURATION OF MANDATORY ESCROW OR IMPOUND ACCOUNT.—An escrow or impound account established pursuant to subsection (b) shall remain in existence for a minimum period of 5 years, beginning with the date of the consummation of the loan, unless and until—

"(1) such borrower has sufficient equity in the dwelling securing the consumer credit transaction so as to no longer be required to maintain private mortgage insurance;

"(2) such borrower is delinquent;

"(3) such borrower otherwise has not complied with the legal obligation, as established by rule; or

"(4) the underlying mortgage establishing the account is terminated.

"(e) LIMITED EXEMPTIONS FOR LOANS SECURED BY SHARES IN A COOPERATIVE OR IN WHICH AN ASSOCIATION MUST MAINTAIN A MASTER INSURANCE POLICY.—Escrow accounts need not be established for loans secured by shares in a cooperative. Insurance premiums need not be included in escrow accounts for loans secured by dwellings or units, where the borrower must join an association as a condition of ownership, and that association has an obligation to the dwelling or unit owners to maintain a master policy insuring the dwellings or units.

"(f) CLARIFICATION ON ESCROW ACCOUNTS FOR LOANS NOT MEETING STATUTORY TEST.—For mortgages not covered by the requirements of subsection (b), no provision of this section shall be construed as precluding the establishment of an impound, trust, or other type of account for the payment of property taxes, insurance premiums, or other purposes relating to the property—

"(1) on terms mutually agreeable to the parties to the loan;

"(2) at the discretion of the lender or servicer, as provided by the contract between the lender or servicer and the borrower; or

"(3) pursuant to the requirements for the escrowing of flood insurance payments for regulated lending institutions in section 102(d) of the Flood Disaster Protection Act of 1973.

"(g) ADMINISTRATION OF MANDATORY ESCROW OR IMPOUND ACCOUNTS.—

"(1) IN GENERAL.—Except as may otherwise be provided for in this title or in regulations prescribed by the Board, escrow or impound accounts established pursuant to subsection (b) shall be established in a federally insured depository institution or credit union.

"(2) ADMINISTRATION.—Except as provided in this section or regulations prescribed under this section, an escrow or impound account subject to this section shall be administered in accordance with—

"(A) the Real Estate Settlement Procedures Act of 1974 and regulations prescribed under such Act;

"(B) the Flood Disaster Protection Act of 1973 and regulations prescribed under such Act; and

"(C) the law of the State, if applicable, where the real property securing the consumer credit transaction is located.

"(3) APPLICABILITY OF PAYMENT OF INTEREST.—If prescribed by applicable State or Federal law, each creditor shall pay interest to the consumer on the amount held in any impound, trust, or escrow account that is subject to this section in the manner as prescribed by that applicable State or Federal law.

"(4) PENALTY COORDINATION WITH RESPA.—Any action or omission on the part of any person which constitutes a violation of the Real Estate Settlement Procedures Act of 1974 or any regulation prescribed under such Act for which the person has paid any fine, civil money penalty, or other damages shall not give rise to any additional fine, civil money penalty, or other damages under this section, unless the action or omission also constitutes a direct violation of this section.

"(h) DISCLOSURES RELATING TO MANDATORY ESCROW OR IMPOUND ACCOUNT.—In the case of any impound, trust, or escrow account that is required under subsection (b), the creditor shall disclose by written notice to the consumer at least 3 business days before the consummation of the consumer credit transaction giving rise to such account or in accordance with timeframes established in prescribed regulations the following information:

"(1) The fact that an escrow or impound account will be established at consummation of the transaction.

"(2) The amount required at closing to initially fund the escrow or impound account.

"(3) The amount, in the initial year after the consummation of the transaction, of the estimated taxes and hazard insurance, including flood insurance, if applicable, and any other required periodic payments or premiums that reflects, as appropriate, either the taxable assessed value of the real property securing the transaction, including the value of any improvements on the property or to be constructed on the property (whether or not such construction will be financed from the proceeds of the transaction) or the replacement costs of the property.

"(4) The estimated monthly amount payable to be escrowed for taxes, hazard insurance (including flood insurance, if applicable) and any other required periodic payments or premiums.

"(5) The fact that, if the consumer chooses to terminate the account in the future, the consumer will become responsible for the payment of all taxes, hazard insurance, and flood insurance, if applicable, as well as any other required periodic payments or premiums on the property unless a new escrow or impound account is established.

"(6) Such other information as the Board determines necessary for the protection of the consumer.

"(i) DEFINITIONS.—For purposes of this section, the following definitions shall apply:

"(1) FLOOD INSURANCE.—The term 'flood insurance' means flood insurance coverage provided under the national flood insurance program pursuant to the National Flood Insurance Act of 1968.

"(2) HAZARD INSURANCE.—The term 'hazard insurance' shall have the same meaning as provided for 'hazard insurance', 'casualty insurance', 'homeowner's insurance', or other similar term under the law of the State where the real property securing the consumer credit transaction is located.".

(b) EXEMPTIONS AND MODIFICATIONS.—The Board may prescribe rules that revise, add to, or subtract from the criteria of section 129D(b) of the Truth in Lending Act if the Board determines that such rules are in the interest of consumers and in the public interest.

(c) CLERICAL AMENDMENT.—The table of sections for chapter 2 of the Truth in Lending Act is amended by inserting after the item relating to section 129C (as added by section 1411) the following new item:

"129D. Escrow or impound accounts relating to certain consumer credit transactions.".

SEC. 1462. DISCLOSURE NOTICE REQUIRED FOR CONSUMERS WHO WAIVE ESCROW SERVICES.

Section 129D of the Truth in Lending Act (as added by section 1461) is amended by adding at the end the following new subsection:

"(j) DISCLOSURE NOTICE REQUIRED FOR CONSUMERS WHO WAIVE ESCROW SERVICES.—

"(1) IN GENERAL.—If—

"(A) an impound, trust, or other type of account for the payment of property taxes, insurance premiums, or other purposes relating to real property securing a consumer credit transaction is not established in connection with the transaction; or

"(B) a consumer chooses, and provides written notice to the creditor or servicer of such choice, at any time after such an account is established in connection with any such transaction and in accordance with any statute, regulation, or contractual agreement, to close such account,

the creditor or servicer shall provide a timely and clearly written disclosure to the consumer that advises the consumer of the responsibilities of the consumer and implications for the consumer in the absence of any such account.

"(2) DISCLOSURE REQUIREMENTS.—Any disclosure provided to a consumer under paragraph (1) shall include the following:

"(A) Information concerning any applicable fees or costs associated with either the non-establishment of any such account at the time of the transaction, or any subsequent closure of any such account.

"(B) A clear and prominent statement that the consumer is responsible for personally and directly paying the non-escrowed items, in addition to paying the mortgage loan payment, in the absence of any such account, and the fact that the costs for taxes, insurance, and related fees can be substantial.

"(C) A clear explanation of the consequences of any failure to pay non-escrowed items, including the possible requirement for the forced placement of insurance by the creditor or servicer and the potentially higher cost (including any potential commission payments to the servicer) or reduced coverage for the consumer in the event of any such creditor-placed insurance.

"(D) Such other information as the Board determines necessary for the protection of the consumer.".

SEC. 1463. REAL ESTATE SETTLEMENT PROCEDURES ACT OF 1974 AMENDMENTS.

(a) SERVICER PROHIBITIONS.—Section 6 of the Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2605) is amended by adding at the end the following new subsections:

"(k) SERVICER PROHIBITIONS.—

"(1) IN GENERAL.—A servicer of a federally related mortgage shall not—

"(A) obtain force-placed hazard insurance unless there is a reasonable basis to believe the borrower has failed to comply with the loan contract's requirements to maintain property insurance;

"(B) charge fees for responding to valid qualified written requests (as defined in regulations which the Bureau of Consumer Financial Protection shall prescribe) under this section;

"(C) fail to take timely action to respond to a borrower's requests to correct errors relating to allocation of payments, final balances for purposes of paying off the loan, or avoiding foreclosure, or other standard servicer's duties;

"(D) fail to respond within 10 business days to a request from a borrower to provide the identity, address, and other relevant contact information about the owner or assignee of the loan; or

"(E) fail to comply with any other obligation found by the Bureau of Consumer Financial Protection, by regulation, to be appropriate to carry out the consumer protection purposes of this Act.

"(2) FORCE-PLACED INSURANCE DEFINED.—For purposes of this subsection and subsections (l) and (m), the term 'force-placed insurance' means hazard insurance coverage obtained by a servicer of a federally related mortgage when the borrower has failed to maintain or renew hazard insurance on such property as required of the borrower under the terms of the mortgage.

"(l) REQUIREMENTS FOR FORCE-PLACED INSURANCE.—A servicer of a federally related mortgage shall not be construed as having a reasonable basis for obtaining force-placed insurance unless the requirements of this subsection have been met.

"(1) WRITTEN NOTICES TO BORROWER.—A servicer may not impose any charge on any borrower for force-placed insurance with respect to any property securing a federally related mortgage unless—

"(A) the servicer has sent, by first-class mail, a written notice to the borrower containing—

"(i) a reminder of the borrower's obligation to maintain hazard insurance on the property securing the federally related mortgage;

"(ii) a statement that the servicer does not have evidence of insurance coverage of such property;

"(iii) a clear and conspicuous statement of the procedures by which the borrower may demonstrate that the borrower already has insurance coverage; and

"(iv) a statement that the servicer may obtain such coverage at the borrower's expense if the borrower does not provide such demonstration of the borrower's existing coverage in a timely manner;

"(B) the servicer has sent, by first-class mail, a second written notice, at least 30 days after the mailing of the notice under subparagraph (A) that contains all the information described in each clause of such subparagraph; and

"(C) the servicer has not received from the borrower any demonstration of hazard insurance coverage for the property securing the mortgage by the end of the 15-day period beginning on the date the notice under subparagraph (B) was sent by the servicer.

"(2) SUFFICIENCY OF DEMONSTRATION.—A servicer of a federally related mortgage shall accept any reasonable form of written confirmation from a borrower of existing insurance coverage, which shall include the existing insurance policy number along with the identity of, and contact information for, the insurance company or agent, or as otherwise required by the Bureau of Consumer Financial Protection.

"(3) TERMINATION OF FORCE-PLACED INSURANCE.—Within 15 days of the receipt by a servicer of confirmation of a borrower's existing insurance coverage, the servicer shall—

"(A) terminate the force-placed insurance; and

"(B) refund to the consumer all force-placed insurance premiums paid by the borrower during any period during which the borrower's insurance coverage and the force-placed insurance coverage were each in effect, and any related fees charged to the consumer's account with respect to the force-placed insurance during such period.

"(4) CLARIFICATION WITH RESPECT TO FLOOD DISASTER PROTECTION ACT.—No provision of this section shall be construed as prohibiting a servicer from providing simultaneous or concurrent notice of a lack of flood insurance pursuant to section 102(e) of the Flood Disaster Protection Act of 1973.

"(m) LIMITATIONS ON FORCE-PLACED INSURANCE CHARGES.—All charges, apart from charges subject to State regulation as the business of insurance, related to force-placed insurance imposed on the borrower by or through the servicer shall be bona fide and reasonable.".

(b) INCREASE IN PENALTY AMOUNTS.—Section 6(f) of the Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2605(f)) is amended—

(1) in paragraphs (1)(B) and (2)(B), by striking "$1,000" each place such term appears and inserting "$2,000"; and

(2) in paragraph (2)(B)(i), by striking "$500,000" and inserting "$1,000,000".

(c) DECREASE IN RESPONSE TIMES.—Section 6(e) of the Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2605(e)) is amended—

(1) in paragraph (1)(A), by striking "20 days" and inserting "5 days";

(2) in paragraph (2), by striking "60 days" and inserting "30 days"; and

(3) by adding at the end the following new paragraph:

"(4) LIMITED EXTENSION OF RESPONSE TIME.—The 30-day period described in paragraph (2) may be extended for not more than 15 days if, before the end of such 30-day period, the servicer notifies the borrower of the extension and the reasons for the delay in responding.".

(d) PROMPT REFUND OF ESCROW ACCOUNTS UPON PAYOFF.—Section 6(g) of the Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2605(g)) is amended by adding at the end the following new sentence: "Any balance in any such account that is within the servicer's control at the time the loan is paid off shall be promptly returned to the borrower within 20 business days or credited to a similar account for a new mortgage loan to the borrower with the same lender.".

SEC. 1464. TRUTH IN LENDING ACT AMENDMENTS.

(a) REQUIREMENTS FOR PROMPT CREDITING OF HOME LOAN PAYMENTS.—Chapter 2 of the Truth in Lending Act (15 U.S.C. 1631 et seq.) is amended by inserting after section 129E (as added by section 1472) the following new section:

"§ 129F. Requirements for prompt crediting of home loan payments

"(a) IN GENERAL.—In connection with a consumer credit transaction secured by a consumer's principal dwelling, no servicer shall fail to credit a payment to the consumer's loan account as of the date of receipt, except when a delay in crediting does not result in any charge to the consumer or in the reporting of negative information to a consumer reporting agency, except as required in subsection (b).

"(b) EXCEPTION.—If a servicer specifies in writing requirements for the consumer to follow in making payments, but accepts a payment that does not conform to the requirements, the servicer shall credit the payment as of 5 days after receipt.".

(b) REQUESTS FOR PAYOFF AMOUNTS.—Chapter 2 of the Truth in Lending Act (15 U.S.C. 1631 et seq.), as amended by this title, is amended by inserting after section 129F (as added by subsection (a)) the following new section:

"§ 129G. Requests for payoff amounts of home loan

"A creditor or servicer of a home loan shall send an accurate payoff balance within a reasonable time, but in no case more than 7 business days, after the receipt of a written request for such balance from or on behalf of the borrower.".

SEC. 1465. ESCROWS INCLUDED IN REPAYMENT ANALYSIS.

Section 128(b) of the Truth in Lending Act (15 U.S.C. 1638(b)) is amended by adding at the end the following new paragraph:

"(4) REPAYMENT ANALYSIS REQUIRED TO INCLUDE ESCROW PAYMENTS.—

"(A) IN GENERAL.—In the case of any consumer credit transaction secured by a first mortgage or lien on the principal dwelling of the consumer, other than a consumer credit transaction under an open end credit plan or a reverse mortgage, for which an impound, trust, or other type of account has been or will be established in connection with the transaction for the payment of property taxes, hazard and flood (if any) insurance premiums, or other periodic payments or premiums with respect to the property, the information required to be provided under subsection (a) with respect to the number, amount, and due dates or period of payments scheduled to repay the total of payments shall take into account the amount of any monthly payment to such account for each such repayment in accordance with section 10(a)(2) of the Real Estate Settlement Procedures Act of 1974.

"(B) ASSESSMENT VALUE.—The amount taken into account under subparagraph (A) for the payment of property taxes, hazard and flood (if any) insurance premiums, or other periodic payments or premiums with respect to the property shall reflect the taxable assessed value of the real property securing the transaction after the consummation of the transaction, including the value of any improvements on the property or to be constructed on the property (whether or not such construction will be financed from the proceeds of the transaction), if known, and the replacement costs of the property for hazard insurance, in the initial year after the transaction.".

Subtitle F—Appraisal Activities

SEC. 1471. PROPERTY APPRAISAL REQUIREMENTS.

Chapter 2 of the Truth in Lending Act (15 U.S.C. 1631 et seq.) is amended by inserting after 129G (as added by section 1464(b)) the following new section:

"§ 129H. Property appraisal requirements

"(a) IN GENERAL.—A creditor may not extend credit in the form of a higher-risk mortgage to any consumer without first obtaining a written appraisal of the property to be mortgaged prepared in accordance with the requirements of this section.

"(b) APPRAISAL REQUIREMENTS.—

"(1) PHYSICAL PROPERTY VISIT.—Subject to the rules prescribed under paragraph (4), an appraisal of property to be secured by a higher-risk mortgage does not meet the requirement of this section unless it is performed by a certified or licensed appraiser who conducts a physical property visit of the interior of the mortgaged property.

"(2) SECOND APPRAISAL UNDER CERTAIN CIRCUMSTANCES.—

"(A) IN GENERAL.—If the purpose of a higher-risk mortgage is to finance the purchase or acquisition of the mortgaged property from a person within 180 days of the purchase or acquisition of such property by that person at a price that was lower than the current sale price of the property, the creditor shall obtain a second appraisal from a different certified or licensed appraiser. The second appraisal shall include an analysis of the difference in sale prices, changes in market conditions, and any improvements made to the property between the date of the previous sale and the current sale.

"(B) NO COST TO APPLICANT.—The cost of any second appraisal required under subparagraph (A) may not be charged to the applicant.

"(3) CERTIFIED OR LICENSED APPRAISER DEFINED.—For purposes of this section, the term 'certified or licensed appraiser' means a person who—

"(A) is, at a minimum, certified or licensed by the State in which the property to be appraised is located; and

"(B) performs each appraisal in conformity with the Uniform Standards of Professional Appraisal Practice and title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, and the regulations prescribed under such title, as in effect on the date of the appraisal.

"(4) REGULATIONS.—

"(A) IN GENERAL.—The Board, the Comptroller of the Currency, the Federal Deposit Insurance Corporation, the National Credit Union Administration Board, the Federal Housing Finance Agency, and the Bureau shall jointly prescribe regulations to implement this section.

"(B) EXEMPTION.—The agencies listed in subparagraph (A) may jointly exempt, by rule, a class of loans from the requirements of this subsection or subsection (a) if the agencies determine that the exemption is in the public interest and promotes the safety and soundness of creditors.

"(c) FREE COPY OF APPRAISAL.—A creditor shall provide 1 copy of each appraisal conducted in accordance with this section in connection with a higher-risk mortgage to the applicant without charge, and at least 3 days prior to the transaction closing date.

"(d) CONSUMER NOTIFICATION.—At the time of the initial mortgage application, the applicant shall be provided with a statement by the creditor that any appraisal prepared for the mortgage is for the sole use of the creditor, and that the applicant may choose to have a separate appraisal conducted at the expense of the applicant.

"(e) VIOLATIONS.—In addition to any other liability to any person under this title, a creditor found to have willfully failed to obtain an appraisal as required in this section shall be liable to the applicant or borrower for the sum of $2,000.

"(f) HIGHER-RISK MORTGAGE DEFINED.—For purposes of this section, the term 'higher-risk mortgage' means a residential mortgage loan, other than a reverse mortgage loan that is a qualified mortgage, as defined in section 129C, secured by a principal dwelling—

"(1) that is not a qualified mortgage, as defined in section 129C; and

"(2) with an annual percentage rate that exceeds the average prime offer rate for a comparable transaction, as defined in section 129C, as of the date the interest rate is set—

"(A) by 1.5 or more percentage points, in the case of a first lien residential mortgage loan having an original principal obligation amount that does not exceed the amount of the maximum limitation on the original principal obligation of mortgage in effect for a residence of the applicable size, as of the date of such interest rate set, pursuant to the sixth sentence of section 305(a)(2) the Federal Home Loan Mortgage Corporation Act (12 U.S.C. 1454(a)(2));

"(B) by 2.5 or more percentage points, in the case of a first lien residential mortgage loan having an original principal obligation amount that exceeds the amount of the maximum limitation on the original principal obligation of mortgage in effect for a residence of the applicable size, as of the date of such interest rate set, pursuant to the sixth sentence of section 305(a)(2) the Federal Home Loan Mortgage Corporation Act (12 U.S.C. 1454(a)(2)); and

"(C) by 3.5 or more percentage points for a subordinate lien residential mortgage loan.".

SEC. 1472. APPRAISAL INDEPENDENCE REQUIREMENTS.

(a) IN GENERAL.—Chapter 2 of the Truth in Lending Act (15 U.S.C. 1631 et seq.) is amended by inserting after section 129D (as added by section 1461(a)) the following new section:

"§ 129E. Appraisal independence requirements

"(a) IN GENERAL.—It shall be unlawful, in extending credit or in providing any services for a consumer credit transaction secured by the principal dwelling of the consumer, to engage in any act or practice that violates appraisal independence as described in or pursuant to regulations prescribed under this section.

"(b) APPRAISAL INDEPENDENCE.—For purposes of subsection (a), acts or practices that violate appraisal independence shall include—

"(1) any appraisal of a property offered as security for repayment of the consumer credit transaction that is conducted in connection with such transaction in which a person with an interest in the underlying transaction compensates, coerces, extorts, colludes, instructs, induces, bribes, or intimidates a person, appraisal management company, firm, or other entity conducting or involved in an appraisal, or attempts, to compensate, coerce, extort, collude, instruct, induce, bribe, or intimidate such a person, for the purpose of causing the appraised value assigned, under the appraisal, to the property to be based on any factor other than the independent judgment of the appraiser;

"(2) mischaracterizing, or suborning any mischaracterization of, the appraised value of the property securing the extension of the credit;

"(3) seeking to influence an appraiser or otherwise to encourage a targeted value in order to facilitate the making or pricing of the transaction; and

"(4) withholding or threatening to withhold timely payment for an appraisal report or for appraisal services rendered when the appraisal report or services are provided for in accordance with the contract between the parties.

"(c) EXCEPTIONS.—The requirements of subsection (b) shall not be construed as prohibiting a mortgage lender, mortgage broker, mortgage banker, real estate broker, appraisal management company, employee of an appraisal management company, consumer, or any other person with an interest in a real estate transaction from asking an appraiser to undertake 1 or more of the following:

"(1) Consider additional, appropriate property information, including the consideration of additional comparable properties to make or support an appraisal.

"(2) Provide further detail, substantiation, or explanation for the appraiser's value conclusion.

"(3) Correct errors in the appraisal report.

"(d) PROHIBITIONS ON CONFLICTS OF INTEREST.—No certified or licensed appraiser conducting, and no appraisal management company procuring or facilitating, an appraisal in connection with a consumer credit transaction secured by the principal dwelling of a consumer may have a direct or indirect interest, financial or otherwise, in the property or transaction involving the appraisal.

"(e) MANDATORY REPORTING.—Any mortgage lender, mortgage broker, mortgage banker, real estate broker, appraisal management company, employee of an appraisal management company, or any other person involved in a real estate transaction involving an appraisal in connection with a consumer credit transaction secured by the principal dwelling of a consumer who has a reasonable basis to believe an appraiser is failing to comply with the Uniform Standards of Professional Appraisal Practice, is violating applicable laws, or is otherwise engaging in unethical or unprofessional conduct, shall refer the matter to the applicable State appraiser certifying and licensing agency.

"(f) NO EXTENSION OF CREDIT.—In connection with a consumer credit transaction secured by a consumer's principal dwelling, a creditor who knows, at or before loan consummation, of a violation of the appraisal independence standards established in subsections (b) or (d) shall not extend credit based on such appraisal unless the creditor documents that the creditor has acted with reasonable diligence to determine that the appraisal does not materially misstate or misrepresent the value of such dwelling.

"(g) RULES AND INTERPRETIVE GUIDELINES.—

"(1) IN GENERAL.—Except as provided under paragraph (2), the Board, the Comptroller of the Currency, the Federal Deposit Insurance Corporation, the National Credit Union Administration Board, the Federal Housing Finance Agency, and the Bureau may jointly issue rules, interpretive guidelines, and general statements of policy with respect to acts or practices that violate appraisal independence in the provision of mortgage lending services for a consumer credit transaction secured by the principal dwelling of the consumer and mortgage brokerage services for such a transaction, within the meaning of subsections (a), (b), (c), (d), (e), (f), (h), and (i).

"(2) INTERIM FINAL REGULATIONS.—The Board shall, for purposes of this section, prescribe interim final regulations no later than 90 days after the date of enactment of this section defining with specificity acts or practices that violate appraisal independence in the provision of mortgage lending services for a consumer credit transaction secured by the principal dwelling of the consumer or mortgage brokerage services for such a transaction and defining any terms in this section or such regulations. Rules prescribed by the Board under this paragraph shall be deemed to be rules prescribed by the agencies jointly under paragraph (1).

"(h) APPRAISAL REPORT PORTABILITY.—Consistent with the requirements of this section, the Board, the Comptroller of the Currency, the Federal Deposit Insurance Corporation, the National Credit Union Administration Board, the Federal Housing Finance Agency, and the Bureau may jointly issue regulations that address the issue of appraisal report portability, including regulations that ensure the portability of the appraisal report between lenders for a consumer credit transaction secured by a 1-4 unit single family residence that is the principal dwelling of the consumer, or mortgage brokerage services for such a transaction.

"(i) CUSTOMARY AND REASONABLE FEE.—

"(1) IN GENERAL.—Lenders and their agents shall compensate fee appraisers at a rate that is customary and reasonable for appraisal services performed in the market area of the property being appraised. Evidence for such fees may be established by objective third-party information, such as government agency fee schedules, academic studies, and independent private sector surveys. Fee studies shall exclude assignments ordered by known appraisal management companies.

"(2) FEE APPRAISER DEFINITION.—For purposes of this section, the term 'fee appraiser' means a person who is not an employee of the mortgage loan originator or appraisal management company engaging the appraiser and is—

"(A) a State licensed or certified appraiser who receives a fee for performing an appraisal and certifies that the appraisal has been prepared in accordance with the Uniform Standards of Professional Appraisal Practice; or

"(B) a company not subject to the requirements of section 1124 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3331 et seq.) that utilizes the services of State licensed or certified appraisers and receives a fee for performing appraisals in accordance with the Uniform Standards of Professional Appraisal Practice.

"(3) EXCEPTION FOR COMPLEX ASSIGNMENTS.—In the case of an appraisal involving a complex assignment, the customary and reasonable fee may reflect the increased time, difficulty, and scope of the work required for such an appraisal and include an amount over and above the customary and reasonable fee for non-complex assignments.

"(j) SUNSET.—Effective on the date the interim final regulations are promulgated pursuant to subsection (g), the Home Valuation Code of Conduct announced by the Federal Housing Finance Agency on December 23, 2008, shall have no force or effect.

"(k) PENALTIES.—

"(1) FIRST VIOLATION.—In addition to the enforcement provisions referred to in section 130, each person who violates this section shall forfeit and pay a civil penalty of not more than $10,000 for each day any such violation continues.

"(2) SUBSEQUENT VIOLATIONS.—In the case of any person on whom a civil penalty has been imposed under paragraph (1), paragraph (1) shall be applied by substituting '$20,000' for '$10,000' with respect to all subsequent violations.

"(3) ASSESSMENT.—The agency referred to in subsection (a) or (c) of section 108 with respect to any person described in paragraph (1) shall assess any penalty under this subsection to which such person is subject.".

(b) CLERICAL AMENDMENT.—The table of sections for chapter 2 of the Truth in Lending Act is amended by inserting after the item relating to section 129D (as added by section 1461(c)) the following new items:

"129E. Appraisal independence requirements.
"129F. Requirements for prompt crediting of home loan payments.
"129G. Requests for payoff amounts of home loan.
"129H. Property appraisal requirements.".

(c) DEFERENCE.—Section 105 of the Truth in Lending Act (15 U.S.C. 1604) is amended by adding at the end the following:

"(h) DEFERENCE.—Notwithstanding any power granted to any Federal agency under this title, the deference that a court affords to the Bureau with respect to a determination made by the Bureau relating to the meaning or interpretation of any provision of this title, other than section 129E or 129H, shall be applied as if the Bureau were the only agency authorized to apply, enforce, interpret, or administer the provisions of this title.".

(d) CONFORMING AMENDMENTS IN TITLE X NOT APPLICABLE TO SECTIONS 129E AND 129H.—Notwithstanding section 1099A, the term "Board" in sections 129E and 129H, as added by this subtitle, shall not be substituted by the term "Bureau".

SEC. 1473. AMENDMENTS RELATING TO APPRAISAL SUBCOMMITTEE OF FFIEC, APPRAISER INDEPENDENCE MONITORING, APPROVED APPRAISER EDUCATION, APPRAISAL MANAGEMENT COMPANIES, APPRAISER COMPLAINT HOTLINE, AUTOMATED VALUATION MODELS, AND BROKER PRICE OPINIONS.

(a) THRESHOLD LEVELS.—Section 1112(b) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3341(b)) is amended by inserting before the period the following: ", and receives concurrence from the Bureau of Consumer Financial Protection that such threshold level provides reasonable protection for consumers who purchase 1–4 unit single-family residences".

(b) ANNUAL REPORT OF APPRAISAL SUBCOMMITTEE.—Section 1103(a) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3332(a)) is amended at the end by inserting the following new paragraph:

"(5) transmit an annual report to the Congress not later than June 15 of each year that describes the manner in which each function assigned to the Appraisal Subcommittee has been carried out during the preceding year. The report shall also detail the activities of the Appraisal Subcommittee, including the results of all audits of State appraiser regulatory agencies, and provide an accounting of disapproved actions and warnings taken in the previous year, including a description of the conditions causing the disapproval and actions taken to achieve compliance.".

(c) OPEN MEETINGS.—Section 1104(b) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3333(b)) is amended—

(1) by inserting "in public session after notice in the Federal Register, but may close certain portions of these meetings related to personnel and review of preliminary State audit reports," after "shall meet"; and

(2) by adding after the final period the following: "The subject matter discussed in any closed or executive session shall be described in the Federal Register notice of the meeting.".

(d) REGULATIONS.—Section 1106 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3335) is amended—

(1) by inserting "prescribe regulations in accordance with chapter 5 of title 5, United States Code (commonly referred to as the Administrative Procedures Act) after notice and opportunity for comment," after "hold hearings"; and

(2) at the end by inserting "Any regulations prescribed by the Appraisal Subcommittee shall (unless otherwise provided in this title) be limited to the following functions: temporary practice, national registry, information sharing, and enforcement. For purposes of prescribing regulations, the Appraisal Subcommittee shall establish an advisory committee of industry participants, including appraisers, lenders, consumer advocates, real estate agents, and government agencies, and hold meetings as necessary to support the development of regulations.".

(e) APPRAISAL REVIEWS AND COMPLEX APPRAISALS.—

(1) SECTION 1110.—Section 1110 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3339) is amended—

(A) in paragraph (1), by striking "and";

(B) in paragraph (2), by striking the period at the end and inserting "; and"; and

(C) by inserting after paragraph (2) the following:

"(3) that such appraisals shall be subject to appropriate review for compliance with the Uniform Standards of Professional Appraisal Practice.".

(2) SECTION 1113.—Section 1113 of the Financial Institutions and Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3342) is amended by inserting before the period the following: ", where a complex 1-to-4 unit single family residential appraisal means an appraisal for which the property to be appraised, the form of ownership, the property characteristics, or the market conditions are atypical".

(f) APPRAISAL MANAGEMENT SERVICES.—

(1) SUPERVISION OF THIRD PARTY PROVIDERS OF APPRAISAL MANAGEMENT SERVICES.—Section 1103(a) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3332(a)) (as previously amended by this section) is amended—

(A) by amending paragraph (1) to read as follows: "(1) monitor the requirements established by States—

"(A) for the certification and licensing of individuals who are qualified to perform appraisals in connection with federally related transactions, including a code of professional responsibility; and

"(B) for the registration and supervision of the operations and activities of an appraisal management company;"; and

(B) by adding at the end the following new paragraph:

"(6) maintain a national registry of appraisal management companies that either are registered with and subject to supervision of a State appraiser certifying and licensing agency or are operating subsidiaries of a Federally regulated financial institution.".

(2) APPRAISAL MANAGEMENT COMPANY MINIMUM REQUIREMENTS.—Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3331 et seq.) is amended by adding at the end the following new section (and amending the table of contents accordingly):

"SEC. 1124. APPRAISAL MANAGEMENT COMPANY MINIMUM REQUIREMENTS.

"(a) IN GENERAL.—The Board of Governors of the Federal Reserve System, the Comptroller of the Currency, the Federal Deposit Insurance Corporation, the National Credit Union Administration Board, the Federal Housing Finance Agency, and the Bureau of Consumer Financial Protection shall jointly, by rule, establish minimum requirements to be applied by a State in the registration of appraisal management companies. Such requirements shall include a requirement that such companies—

"(1) register with and be subject to supervision by a State appraiser certifying and licensing agency in each State in which such company operates;

"(2) verify that only licensed or certified appraisers are used for federally related transactions;

"(3) require that appraisals coordinated by an appraisal management company comply with the Uniform Standards of Professional Appraisal Practice; and

"(4) require that appraisals are conducted independently and free from inappropriate influence and coercion pursuant to the appraisal independence standards established under section 129E of the Truth in Lending Act.

"(b) RELATION TO STATE LAW.—Nothing in this section shall be construed to prevent States from establishing requirements in addition to any rules promulgated under subsection (a).

"(c) FEDERALLY REGULATED FINANCIAL INSTITUTIONS.—The requirements of subsection (a) shall apply to an appraisal management company that is a subsidiary owned and controlled by a financial institution and regulated by a Federal financial institution regulatory agency. An appraisal management company that is a subsidiary owned and controlled by a financial institution regulated by a Federal financial institution regulatory agency shall not be required to register with a State.

"(d) REGISTRATION LIMITATIONS.—An appraisal management company shall not be registered by a State or included on the national registry if such company, in whole or in part, directly or indirectly, is owned by any person who has had an appraiser license or certificate refused, denied, cancelled, surrendered in lieu of revocation, or revoked in any State. Additionally, each person that owns more than 10 percent of an appraisal management company shall be of good moral character, as determined by the State appraiser certifying and licensing agency, and shall submit to a background investigation carried out by the State appraiser certifying and licensing agency.

"(e) REPORTING.—The Board of Governors of the Federal Reserve System, the Comptroller of the Currency, the Federal Deposit Insurance Corporation, the National Credit Union Administration Board, the Federal Housing Finance Agency, and the Bureau of Consumer Financial Protection shall jointly promulgate regulations for the reporting of the activities of appraisal management companies to the Appraisal Subcommittee in determining the payment of the annual registry fee.

"(f) EFFECTIVE DATE.—

"(1) IN GENERAL.—No appraisal management company may perform services related to a federally related transaction in a State after the date that is 36 months after the date on which the regulations required to be prescribed under subsection (a) are prescribed in final form unless such company is registered with such State or subject to oversight by a Federal financial institutions regulatory agency.

"(2) EXTENSION OF EFFECTIVE DATE.—Subject to the approval of the Council, the Appraisal Subcommittee may extend by an additional 12 months the requirements for the registration and supervision of appraisal management companies if it makes a written finding that a State has made substantial progress in establishing a State appraisal management company registration and supervision system that appears to conform with the provisions of this title.".

(3) STATE APPRAISER CERTIFYING AND LICENSING AGENCY AUTHORITY.—Section 1117 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3346) is amended by adding at the end the following: "The duties of such agency may additionally include the registration and supervision of appraisal management companies and the addition of information about the appraisal management company to the national registry.".

(4) APPRAISAL MANAGEMENT COMPANY DEFINITION.—Section 1121 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3350) is amended by adding at the end the following:

"(11) APPRAISAL MANAGEMENT COMPANY.—The term 'appraisal management company' means, in connection with valuing properties collateralizing mortgage loans or mortgages incorporated into a securitization, any external third party authorized either by a creditor of a consumer credit transaction secured by a consumer's principal dwelling or by an underwriter of or other principal in the secondary mortgage markets, that oversees a network or panel of more than 15 certified or licensed appraisers in a State or 25 or more nationally within a given year—

"(A) to recruit, select, and retain appraisers;

"(B) to contract with licensed and certified appraisers to perform appraisal assignments;

"(C) to manage the process of having an appraisal performed, including providing administrative duties such as receiving appraisal orders and appraisal reports, submitting completed appraisal reports to creditors and underwriters, collecting fees from creditors and underwriters for services provided, and reimbursing appraisers for services performed; or

"(D) to review and verify the work of appraisers.".

(g) STATE AGENCY REPORTING REQUIREMENT.—Section 1109(a) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3338(a)) is amended—

(1) by striking "and" after the semicolon in paragraph (1);

(2) by redesignating paragraph (2) as paragraph (4); and

(3) by inserting after paragraph (1) the following new paragraphs:

"(2) transmit reports on the issuance and renewal of licenses and certifications, sanctions, disciplinary actions, license and certification revocations, and license and certification suspensions on a timely basis to the national registry of the Appraisal Subcommittee;

"(3) transmit reports on a timely basis of supervisory activities involving appraisal management companies or other third-party providers of appraisals and appraisal management services, including investigations initiated and disciplinary actions taken; and".

(h) REGISTRY FEES MODIFIED.—

(1) IN GENERAL.—Section 1109(a) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3338(a)) is amended—

(A) by amending paragraph (4) (as modified by section 1473(g)) to read as follows:

"(4) collect—

"(A) from such individuals who perform or seek to perform appraisals in federally related transactions, an annual registry fee of not more than $40, such fees to be transmitted by the State agencies to the Council on an annual basis; and

"(B) from an appraisal management company that either has registered with a State appraiser certifying and licensing agency in accordance with this title or operates as a subsidiary of a federally regulated financial institution, an annual registry fee of—

"(i) in the case of such a company that has been in existence for more than a year, $25 multiplied by the number of appraisers working for or contracting with such company in such State during the previous year, but where such $25 amount may be adjusted, up to a maximum of $50, at the discretion of the Appraisal Subcommittee, if necessary to carry out the Subcommittee's functions under this title; and

"(ii) in the case of such a company that has not been in existence for more than a year, $25 multiplied by an appropriate number to be determined by the Appraisal Subcommittee, and where such number will be used for determining the fee of all such companies that were not in existence for more than a year, but where such $25 amount may be adjusted, up to a maximum of $50, at the discretion of the Appraisal Subcommittee, if necessary to carry out the Subcommittee's functions under this title."; and

(B) by amending the matter following paragraph (4), as redesignated, to read as follows:

"Subject to the approval of the Council, the Appraisal Subcommittee may adjust the dollar amount of registry fees under paragraph (4)(A), up to a maximum of $80 per annum, as necessary to carry out its functions under this title. The Appraisal Subcommittee shall consider at least once every 5 years whether to adjust the dollar amount of the registry fees to account for inflation. In implementing any change in registry fees, the Appraisal Subcommittee shall provide flexibility to the States for multi-year certifications and licenses already in place, as well as a transition period to implement the changes in registry fees. In establishing the amount of the annual registry fee for an appraisal management company, the Appraisal Subcommittee shall have the discretion to impose a minimum annual registry fee for an appraisal management company to protect against the under reporting of the number of appraisers working for or contracted by the appraisal management company.".

(2) INCREMENTAL REVENUES.—Incremental revenues collected pursuant to the increases required by this subsection shall be placed in a separate account at the United States Treasury, entitled the "Appraisal Subcommittee Account".

(i) GRANTS AND REPORTS.—Section 1109(b) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3338(b)) is amended—

(1) by striking "and" after the semicolon in paragraph (3);

(2) by striking the period at the end of paragraph (4) and inserting a semicolon;

(3) by adding at the end the following new paragraphs:

"(5) to make grants to State appraiser certifying and licensing agencies, in accordance with policies to be developed by the Appraisal Subcommittee, to support the efforts of such agencies to comply with this title, including—

"(A) the complaint process, complaint investigations, and appraiser enforcement activities of such agencies; and

"(B) the submission of data on State licensed and certified appraisers and appraisal management companies to the National appraisal registry, including information affirming that the appraiser or appraisal management company meets the required qualification criteria and formal and informal disciplinary actions; and

"(6) to report to all State appraiser certifying and licensing agencies when a license or certification is surrendered, revoked, or suspended.".

Obligations authorized under this subsection may not exceed 75 percent of the fiscal year total of incremental increase in fees collected and deposited in the "Appraisal Subcommittee Account" pursuant to subsection (h).

(j) CRITERIA.—Section 1116 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3345) is amended—

(1) in subsection (c), by inserting "whose criteria for the licensing of a real estate appraiser currently meet or exceed the minimum criteria issued by the Appraisal Qualifications Board of The Appraisal Foundation for the licensing of real estate appraisers" before the period at the end; and

(2) by striking subsection (e) and inserting the following new subsection:

"(e) MINIMUM QUALIFICATION REQUIREMENTS.—Any requirements established for individuals in the position of 'Trainee Appraiser' and 'Supervisory Appraiser' shall meet or exceed the minimum qualification requirements of the Appraiser Qualifications Board of The Appraisal Foundation. The Appraisal Subcommittee shall have the authority to enforce these requirements.".

(k) MONITORING OF STATE APPRAISER CERTIFYING AND LICENSING AGENCIES.—Section 1118 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3347) is amended—

(1) by amending subsection (a) to read as follows:

"(a) IN GENERAL.—The Appraisal Subcommittee shall monitor each State appraiser certifying and licensing agency for the purposes of determining whether such agency—

"(1) has policies, practices, funding, staffing, and procedures that are consistent with this title;

"(2) processes complaints and completes investigations in a reasonable time period;

"(3) appropriately disciplines sanctioned appraisers and appraisal management companies;

"(4) maintains an effective regulatory program; and

"(5) reports complaints and disciplinary actions on a timely basis to the national registries on appraisers and appraisal management companies maintained by the Appraisal Subcommittee.

The Appraisal Subcommittee shall have the authority to remove a State licensed or certified appraiser or a registered appraisal management company from a national registry on an interim basis, not to exceed 90 days, pending State agency action on licensing, certification, registration, and disciplinary proceedings. The Appraisal Subcommittee and all agencies, instrumentalities, and Federally recognized entities under this title shall not recognize appraiser certifications and licenses from States whose appraisal policies, practices, funding, staffing, or procedures are found to be inconsistent with this title. The Appraisal Subcommittee shall have the authority to impose sanctions, as described in this section, against a State agency that fails to have an effective appraiser regulatory program. In determining whether such a program is effective, the Appraisal Subcommittee shall include an analysis of the licensing and certification of appraisers, the registration of appraisal management companies, the issuance of temporary licenses and certifications for appraisers, the receiving and tracking of submitted complaints against appraisers and appraisal management companies, the investigation of complaints, and enforcement actions against appraisers and appraisal management companies. The Appraisal Subcommittee shall have the authority to impose interim actions and suspensions against a State agency as an alternative to, or in advance of, the derecognition of a State agency.".

(2) in subsection (b)(2), by inserting after "authority" the following: "or sufficient funding".

(l) RECIPROCITY.—Subsection (b) of section 1122 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3351(b)) is amended to read as follows:

"(b) RECIPROCITY.—Notwithstanding any other provisions of this title, a federally related transaction shall not be appraised by a certified or licensed appraiser unless the State appraiser certifying or licensing agency of the State certifying or licensing such appraiser has in place a policy of issuing a reciprocal certification or license for an individual from another State when—

"(1) the appraiser licensing and certification program of such other State is in compliance with the provisions of this title; and

"(2) the appraiser holds a valid certification from a State whose requirements for certification or licensing meet or exceed the licensure standards established by the State where an individual seeks appraisal licensure.".

(m) CONSIDERATION OF PROFESSIONAL APPRAISAL DESIGNATIONS.—Section 1122(d) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3351(d)) is amended by striking "shall not exclude" and all that follows through the end of the subsection and inserting the following: "may include education achieved, experience, sample appraisals, and references from prior clients. Membership in a nationally recognized professional appraisal organization may be a criteria considered, though lack of membership therein shall not be the sole bar against consideration for an assignment under these criteria.".

(n) APPRAISER INDEPENDENCE.—Section 1122 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3351) is amended by adding at the end the following new subsection:

"(g) APPRAISER INDEPENDENCE MONITORING.—The Appraisal Subcommittee shall monitor each State appraiser certifying and licensing agency for the purpose of determining whether such agency's policies, practices, and procedures are consistent with the purposes of maintaining appraiser independence and whether such State has adopted and maintains effective laws, regulations, and policies aimed at maintaining appraiser independence.".

(o) APPRAISER EDUCATION.—Section 1122 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3351) is amended by inserting after subsection (g) (as added by subsection (l) of this section) the following new subsection:

"(h) APPROVED EDUCATION.—The Appraisal Subcommittee shall encourage the States to accept courses approved by the Appraiser Qualification Board's Course Approval Program.".

(p) APPRAISAL COMPLAINT HOTLINE.—Section 1122 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3351), as amended by this section, is amended by adding at the end the following new subsection:

"(i) APPRAISAL COMPLAINT NATIONAL HOTLINE.—If, 6 months after the date of the enactment of this subsection, the Appraisal Subcommittee determines that no national hotline exists to receive complaints of non-compliance with appraisal independence standards and Uniform Standards of Professional Appraisal Practice, including complaints from appraisers, individuals, or other entities concerning the improper influencing or attempted improper influencing of appraisers or the appraisal process, the Appraisal Subcommittee shall establish and operate such a national hotline, which shall include a toll-free telephone number and an email address. If the Appraisal Subcommittee operates such a national hotline, the Appraisal Subcommittee shall refer complaints for further action to appropriate governmental bodies, including a State appraiser certifying and licensing agency, a financial institution regulator, or other appropriate legal authorities. For complaints referred to State appraiser certifying and licensing agencies or to Federal regulators, the Appraisal Subcommittee shall have the authority to follow up such complaint referrals in order to determine the status of the resolution of the complaint.''.

(q) AUTOMATED VALUATION MODELS.—Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3331 et seq.), as amended by this section, is amended by adding at the end the following new section (and amending the table of contents accordingly):

''SEC. 1125. AUTOMATED VALUATION MODELS USED TO ESTIMATE COLLATERAL VALUE FOR MORTGAGE LENDING PURPOSES.

''(a) IN GENERAL.—Automated valuation models shall adhere to quality control standards designed to—

''(1) ensure a high level of confidence in the estimates produced by automated valuation models;

''(2) protect against the manipulation of data;

''(3) seek to avoid conflicts of interest;

''(4) require random sample testing and reviews; and

''(5) account for any other such factor that the agencies listed in subsection (b) determine to be appropriate.

''(b) ADOPTION OF REGULATIONS.—The Board, the Comptroller of the Currency, the Federal Deposit Insurance Corporation, the National Credit Union Administration Board, the Federal Housing Finance Agency, and the Bureau of Consumer Financial Protection, in consultation with the staff of the Appraisal Subcommittee and the Appraisal Standards Board of the Appraisal Foundation, shall promulgate regulations to implement the quality control standards required under this section.

''(c) ENFORCEMENT.—Compliance with regulations issued under this subsection shall be enforced by—

''(1) with respect to a financial institution, or subsidiary owned and controlled by a financial institution and regulated by a Federal financial institution regulatory agency, the Federal financial institution regulatory agency that acts as the primary Federal supervisor of such financial institution or subsidiary; and

''(2) with respect to other participants in the market for appraisals of 1-to-4 unit single family residential real estate, the Federal Trade Commission, the Bureau of Consumer Financial Protection, and a State attorney general.

''(d) AUTOMATED VALUATION MODEL DEFINED.—For purposes of this section, the term 'automated valuation model' means any computerized model used by mortgage originators and secondary market issuers to determine the collateral worth of a mortgage secured by a consumer's principal dwelling.''.

(r) BROKER PRICE OPINIONS.—Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3331 et seq.), as amended by this section, is amended by adding at the end the following new section (and amending the table of contents accordingly):

''SEC. 1126. BROKER PRICE OPINIONS.

''(a) GENERAL PROHIBITION.—In conjunction with the purchase of a consumer's principal dwelling, broker price opinions may not be used as the primary basis to determine the value of a piece of property for the purpose of a loan origination of a residential mortgage loan secured by such piece of property.

"(b) BROKER PRICE OPINION DEFINED.—For purposes of this section, the term 'broker price opinion' means an estimate prepared by a real estate broker, agent, or sales person that details the probable selling price of a particular piece of real estate property and provides a varying level of detail about the property's condition, market, and neighborhood, and information on comparable sales, but does not include an automated valuation model, as defined in section 1125(c).".

(s) AMENDMENTS TO APPRAISAL SUBCOMMITTEE.—Section 1011 of the Federal Financial Institutions Examination Council Act of 1978 (12 U.S.C. 3310) is amended—

(1) in the first sentence, by adding before the period the following: ", the Bureau of Consumer Financial Protection, and the Federal Housing Finance Agency"; and

(2) by inserting at the end the following: "At all times at least one member of the Appraisal Subcommittee shall have demonstrated knowledge and competence through licensure, certification, or professional designation within the appraisal profession.".

(t) TECHNICAL CORRECTIONS.—

(1) Section 1119(a)(2) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3348(a)(2)) is amended by striking "council," and inserting "Council,".

(2) Section 1121(6) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3350(6)) is amended by striking "Corporations," and inserting "Corporation,".

(3) Section 1121(8) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3350(8)) is amended by striking "council" and inserting "Council".

(4) Section 1122 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3351) is amended—

(A) in subsection (a)(1) by moving the left margin of subparagraphs (A), (B), and (C) 2 ems to the right; and

(B) in subsection (c)—

(i) by striking "Federal Financial Institutions Examination Council" and inserting "Financial Institutions Examination Council"; and

(ii) by striking "the council's functions" and inserting "the Council's functions".

SEC. 1474. EQUAL CREDIT OPPORTUNITY ACT AMENDMENT.

Subsection (e) of section 701 of the Equal Credit Opportunity Act (15 U.S.C. 1691) is amended to read as follows:

"(e) COPIES FURNISHED TO APPLICANTS.—

"(1) IN GENERAL.—Each creditor shall furnish to an applicant a copy of any and all written appraisals and valuations developed in connection with the applicant's application for a loan that is secured or would have been secured by a first lien on a dwelling promptly upon completion, but in no case later than 3 days prior to the closing of the loan, whether the creditor grants or denies the applicant's request for credit or the application is incomplete or withdrawn.

"(2) WAIVER.—The applicant may waive the 3 day requirement provided for in paragraph (1), except where otherwise required in law.

"(3) REIMBURSEMENT.—The applicant may be required to pay a reasonable fee to reimburse the creditor for the cost of the appraisal, except where otherwise required in law.

"(4) FREE COPY.—Notwithstanding paragraph (3), the creditor shall provide a copy of each written appraisal or valuation at no additional cost to the applicant.

"(5) NOTIFICATION TO APPLICANTS.—At the time of application, the creditor shall notify an applicant in writing of the right to receive a copy of each written appraisal and valuation under this subsection.

"(6) VALUATION DEFINED.—For purposes of this subsection, the term 'valuation' shall include any estimate of the value of a dwelling developed in connection with a creditor's decision to provide credit, including those values developed pursuant to a policy of a government sponsored enterprise or by an automated valuation model, a broker price opinion, or other methodology or mechanism.".

SEC. 1475. REAL ESTATE SETTLEMENT PROCEDURES ACT OF 1974 AMENDMENT RELATING TO CERTAIN APPRAISAL FEES.

Section 4 of the Real Estate Settlement Procedures Act of 1974 is amended by adding at the end the following new subsection:

"(c) The standard form described in subsection (a) may include, in the case of an appraisal coordinated by an appraisal management company (as such term is defined in section 1121(11) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3350(11))), a clear disclosure of—

"(1) the fee paid directly to the appraiser by such company; and

"(2) the administration fee charged by such company.".

SEC. 1476. GAO STUDY ON THE EFFECTIVENESS AND IMPACT OF VARIOUS APPRAISAL METHODS, VALUATION MODELS AND DISTRIBUTIONS CHANNELS, AND ON THE HOME VALUATION CODE OF CONDUCT AND THE APPRAISAL SUBCOMMITTEE.

(a) IN GENERAL.—The Government Accountability Office shall conduct a study on—

(1) the effectiveness and impact of—

(A) appraisal methods, including the cost approach, the comparative sales approach, the income approach, and others that may be available;

(B) appraisal valuation models, including licensed and certified appraisals, broker-priced opinions, and automated valuation models; and

(C) appraisal distribution channels, including appraisal management companies, independent appraisal operations within mortgage originators, and fee-for-service appraisers;

(2) the Home Valuation Code of Conduct; and

(3) the Appraisal Subcommittee's functions pursuant to title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989.

(b) STUDY.—Not later than—

(1) 12 months after the date of enactment of this Act, the Government Accountability Office shall submit a study

to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives; and

(2) 90 days after the date of enactment of this Act, the Government Accountability Office shall provide a report on the status of the study and any preliminary findings to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives.

(c) CONTENT OF STUDY.—The study required by this section shall include an examination of the following:

(1) APPRAISAL APPROACHES, VALUATION MODELS, AND DISTRIBUTION CHANNELS.—

(A) The prevalence, alone or in combination, of certain appraisal approaches, models, and channels in purchase-money and refinance mortgage transactions.

(B) The accuracy of these approaches, models, and channels in assessing the property as collateral.

(C) Whether and how these approaches, models, and channels contributed to price speculation during the previous cycle.

(D) The costs to consumers of these approaches, models, and channels.

(E) The disclosure of fees to consumers in the appraisal process.

(F) To what extent the usage of these approaches, models, and channels may be influenced by a conflict of interest between the mortgage lender and the appraiser and the mechanism by which the lender selects and compensates the appraiser.

(G) The suitability of these approaches, models, and channels in rural versus urban areas.

(2) HOME VALUATION CODE OF CONDUCT (HVCC).—

(A) How the HVCC affects mortgage lenders' selection of appraisers.

(B) How the HVCC affects State regulation of appraisers and appraisal distribution channels.

(C) How the HVCC affects the quality and cost of appraisals and the length of time to obtain an appraisal.

(D) How the HVCC affects mortgage brokers, small businesses, and consumers.

(d) ADDITIONAL STUDY REQUIRED.—

(1) IN GENERAL.—Not later than 18 months after the date of enactment of this Act, the Government Accountability Office shall submit a study to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives.

(2) CONTENT OF ADDITIONAL STUDY.—The study required under paragraph (1) shall include—

(A) an examination of—

(i) the Appraisal Subcommittee's ability to monitor and enforce State and Federal certification requirements and standards, including by providing a summary with a statistical breakdown of enforcement actions taken during the last 10 years;

(ii) whether existing Federal financial institutions regulatory agency exemptions on appraisals for federally related transactions needs to be revised; and

(iii) whether new means of data collection, such as the establishment of a national repository, would benefit the Appraisal Subcommittee's ability to perform its functions; and

(B) recommendations from this examination for administrative and legislative action at the Federal and State level.

Subtitle G—Mortgage Resolution and Modification

SEC. 1481. MULTIFAMILY MORTGAGE RESOLUTION PROGRAM.

(a) ESTABLISHMENT.—The Secretary of Housing and Urban Development shall develop a program under this subsection to ensure the protection of current and future tenants and at-risk multifamily properties, where feasible, based on criteria that may include—

(1) creating sustainable financing of such properties, that may take into consideration such factors as—

(A) the rental income generated by such properties; and

(B) the preservation of adequate operating reserves;

(2) maintaining the level of Federal, State, and city subsidies in effect as of the date of the enactment of this Act;

(3) providing funds for rehabilitation; and

(4) facilitating the transfer of such properties, when appropriate and with the agreement of owners, to responsible new owners and ensuring affordability of such properties.

(b) COORDINATION.—The Secretary of Housing and Urban Development may, in carrying out the program developed under this section, coordinate with the Secretary of the Treasury, the Federal Deposit Insurance Corporation, the Board of Governors of the Federal Reserve System, the Federal Housing Finance Agency, and any other Federal Government agency that the Secretary considers appropriate.

(c) DEFINITION.—For purposes of this section, the term "multifamily properties" means a residential structure that consists of 5 or more dwelling units.

(d) PREVENTION OF QUALIFICATION FOR CRIMINAL APPLICANTS.—

(1) IN GENERAL.—No person shall be eligible to begin receiving assistance from the Making Home Affordable Program authorized under the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5201 et seq.), or any other mortgage assistance program authorized or funded by that Act, on or after 60 days after the date of the enactment of this Act, if such person, in connection with a mortgage or real estate transaction, has been convicted, within the last 10 years, of any one of the following:

(A) Felony larceny, theft, fraud, or forgery.

(B) Money laundering.

(C) Tax evasion.

(2) PROCEDURES.—The Secretary shall establish procedures to ensure compliance with this subsection.

(3) REPORT.—The Secretary shall report to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate regarding the implementation of this provision. The report shall also describe the steps taken to implement this subsection.

SEC. 1482. HOME AFFORDABLE MODIFICATION PROGRAM GUIDELINES.

(a) NET PRESENT VALUE INPUT DATA.—The Secretary of the Treasury (in this section referred to as the "Secretary") shall revise the supplemental directives and other guidelines for the Home Affordable Modification Program of the Making Home Affordable initiative of the Secretary of the Treasury, authorized under the Emergency Economic Stabilization Act of 2008 (Public Law 110–343), to require each mortgage servicer participating in such program to provide each borrower under a mortgage whose request for a mortgage modification under the Program is denied with all borrower-related and mortgage-related input data used in any net present value (NPV) analyses performed in connection with the subject mortgage. Such input data shall be provided to the borrower at the time of such denial.

(b) WEB-BASED SITE FOR NPV CALCULATOR AND APPLICATION.—

(1) NPV CALCULATOR.—In carrying out the Home Affordable Modification Program, the Secretary shall establish and maintain a site on the World Wide Web that provides a calculator for net present value analyses of a mortgage, based on the Secretary's methodology for calculating such value, that mortgagors can use to enter information regarding their own mortgages and that provides a determination after entering such information regarding a mortgage of whether such mortgage would be accepted or rejected for modification under the Program, using such methodology.

(2) DISCLOSURE.—Such Web site shall also prominently disclose that each mortgage servicer participating in such Program may use a method for calculating net present value of a mortgage that is different than the method used by such calculator.

(3) APPLICATION.—The Secretary shall make a reasonable effort to include on such World Wide Web site a method for homeowners to apply for a mortgage modification under the Home Affordable Modification Program.

(c) PUBLIC AVAILABILITY OF NPV METHODOLOGY, COMPUTER MODEL, AND VARIABLES.—The Secretary shall make publicly available, including by posting on a World Wide Web site of the Secretary—

(1) the Secretary's methodology and computer model, including all formulae used in such computer model, used for calculating net present value of a mortgage that is used by the calculator established pursuant to subsection (b); and

(2) all non-proprietary variables used in such net present value analysis.

SEC. 1483. PUBLIC AVAILABILITY OF INFORMATION OF MAKING HOME AFFORDABLE PROGRAM.

(a) REVISIONS TO PROGRAM GUIDELINES.—The Secretary of the Treasury (in this section referred to as the "Secretary") shall revise the guidelines for the Home Affordable Modification Program of the Making Home Affordable initiative of the Secretary of the

Treasury, authorized under the Emergency Economic Stabilization Act of 2008 (Public Law 110–343), to provide that the data being collected by the Secretary from each mortgage servicer and lender participating in the Program is made public in accordance with subsection (b).

(b) PUBLIC AVAILABILITY.—Data shall be made available according to the following guidelines:

(1) Not more than 14 days after each monthly deadline for submission of data by mortgage servicers and lenders participating in the Program, reports shall be made publicly available by means of a World Wide Web site of the Secretary, and by submitting a report to the Congress, that shall includes the following information:

(A) The number of requests for mortgage modifications under the Program that the servicer or lender has received.

(B) The number of requests for mortgage modifications under the Program that the servicer or lender has processed.

(C) The number of requests for mortgage modifications under the Program that the servicer or lender has approved.

(D) The number of requests for mortgage modifications under the Program that the servicer or lender has denied.

(2) Not more than 60 days after each monthly deadline for submission of data by mortgage servicers and lenders participating in the Program, the Secretary shall make data tables available to the public at the individual record level. The Secretary shall issue regulations prescribing—

(A) the procedures for disclosing such data to the public; and

(B) such deletions as the Secretary may determine to be appropriate to protect any privacy interest of any mortgage modification applicant, including the deletion or alteration of the applicant's name and identification number.

SEC. 1484. PROTECTING TENANTS AT FORECLOSURE EXTENSION AND CLARIFICATION.

The Protecting Tenants at Foreclosure Act is amended—

(1) in section 702 (12 U.S.C. 5220 note)—

(A) in subsection (a)(2), by striking ", as of the date of such notice of foreclosure"; and

(B) in subsection (c), by inserting after the period the following: "For purposes of this section, the date of a notice of foreclosure shall be deemed to be the date on which complete title to a property is transferred to a successor entity or person as a result of an order of a court or pursuant to provisions in a mortgage, deed of trust, or security deed."; and

(2) in section 704 (12 U.S.C. 5201 note), by striking "2012" and inserting "2014".

Subtitle H—Miscellaneous Provisions

SEC. 1491. SENSE OF CONGRESS REGARDING THE IMPORTANCE OF GOVERNMENT-SPONSORED ENTERPRISES REFORM TO ENHANCE THE PROTECTION, LIMITATION, AND REGULATION OF THE TERMS OF RESIDENTIAL MORTGAGE CREDIT.

(a) FINDINGS.—The Congress finds as follows:

(1) The Government-sponsored enterprises, Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac), were chartered by Congress to ensure a reliable and affordable supply of mortgage funding, but enjoy a dual legal status as privately owned corporations with Government mandated affordable housing goals.

(2) In 1996, the Department of Housing and Urban Development required that 42 percent of Fannie Mae's and Freddie Mac's mortgage financing should go to borrowers with income levels below the median for a given area.

(3) In 2004, the Department of Housing and Urban Development revised those goals, increasing them to 56 percent of their overall mortgage purchases by 2008, and additionally mandated that 12 percent of all mortgage purchases by Fannie Mae and Freddie Mac be "special affordable" loans made to borrowers with incomes less than 60 percent of an area's median income, a target that ultimately increased to 28 percent for 2008.

(4) To help fulfill those mandated affordable housing goals, in 1995 the Department of Housing and Urban Development authorized Fannie Mae and Freddie Mac to purchase subprime securities that included loans made to low-income borrowers.

(5) After this authorization to purchase subprime securities, subprime and near-prime loans increased from 9 percent of securitized mortgages in 2001 to 40 percent in 2006, while the market share of conventional mortgages dropped from 78.8 percent in 2003 to 50.1 percent by 2007 with a corresponding increase in subprime and Alt-A loans from 10.1 percent to 32.7 percent over the same period.

(6) In 2004 alone, Fannie Mae and Freddie Mac purchased $175,000,000,000 in subprime mortgage securities, which accounted for 44 percent of the market that year, and from 2005 through 2007, Fannie Mae and Freddie Mac purchased approximately $1,000,000,000,000 in subprime and Alt-A loans, while Fannie Mae's acquisitions of mortgages with less than 10 percent down payments almost tripled.

(7) According to data from the Federal Housing Finance Agency (FHFA) for the fourth quarter of 2008, Fannie Mae and Freddie Mac own or guarantee 75 percent of all newly originated mortgages, and Fannie Mae and Freddie Mac currently own 13.3 percent of outstanding mortgage debt in the United States and have issued mortgage-backed securities for 31.0 percent of the residential debt market, a combined total of 44.3 percent of outstanding mortgage debt in the United States.

(8) On September 7, 2008, the FHFA placed Fannie Mae and Freddie Mac into conservatorship, with the Treasury

Department subsequently agreeing to purchase at least $200,000,000,000 of preferred stock from each enterprise in exchange for warrants for the purchase of 79.9 percent of each enterprise's common stock.

(9) The conservatorship for Fannie Mae and Freddie Mac has potentially exposed taxpayers to upwards of $5,300,000,000,000 worth of risk.

(10) The hybrid public-private status of Fannie Mae and Freddie Mac is untenable and must be resolved to assure that consumers are offered and receive residential mortgage loans on terms that reasonably reflect their ability to repay the loans and that are understandable and not unfair, deceptive, or abusive.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that efforts to enhance by the protection, limitation, and regulation of the terms of residential mortgage credit and the practices related to such credit would be incomplete without enactment of meaningful structural reforms of Fannie Mae and Freddie Mac.

SEC. 1492. GAO STUDY REPORT ON GOVERNMENT EFFORTS TO COMBAT MORTGAGE FORECLOSURE RESCUE SCAMS AND LOAN MODIFICATION FRAUD.

(a) STUDY.—The Comptroller General of the United States shall conduct a study of the current inter-agency efforts of the Secretary of the Treasury, the Secretary of Housing and Urban Development, the Attorney General, and the Federal Trade Commission to crackdown on mortgage foreclosure rescue scams and loan modification fraud in order to advise the Congress to the risks and vulnerabilities of emerging schemes in the loan modification arena.

(b) REPORT.—

(1) IN GENERAL.—The Comptroller General shall submit a report to the Congress on the study conducted under subsection (a) containing such recommendations for legislative and administrative actions as the Comptroller General may determine to be appropriate in addition to the recommendations required under paragraph (2).

(2) SPECIFIC TOPICS.—The report made under paragraph (1) shall include—

(A) an evaluation of the effectiveness of the interagency task force current efforts to combat mortgage foreclosure rescue scams and loan modification fraud scams;

(B) specific recommendations on agency or legislative action that are essential to properly protect homeowners from mortgage foreclosure rescue scams and loan modification fraud scams; and

(C) the adequacy of financial resources that the Federal Government is allocating to—

(i) crackdown on loan modification and foreclosure rescue scams; and

(ii) the education of homeowners about fraudulent scams relating to loan modification and foreclosure rescues.

SEC. 1493. REPORTING OF MORTGAGE DATA BY STATE.

(a) IN GENERAL.—Section 104(a) of the Helping Families Save Their Homes Act of 2009 (division A of Public Law 111–22) is amended—

(1) in paragraph (2), by striking "resulting" and inserting "in each State that result";

(2) in paragraph (3), by inserting "each State for" after "modifications in"; and

(3) in paragraph (4), by inserting "in each State" after "total number of loans".

(b) CONFORMING AMENDMENT.—Section 104(b)(1)(A) of such Act is amended by adding at the end the following sentence: "Not later than 60 days after the date of the enactment of the Dodd-Frank Wall Street Reform and Consumer Protection Act, the Comptroller of the Currency and the Director of the Office of Thrift Supervision shall update such requirements to reflect amendments made to this section by such Act.".

SEC. 1494. STUDY OF EFFECT OF DRYWALL PRESENCE ON FORECLOSURES.

(a) STUDY.—The Secretary of Housing and Urban Development, in consultation with the Secretary of the Treasury, shall conduct a study of the effect on residential mortgage loan foreclosures of—

(1) the presence in residential structures subject to such mortgage loans of drywall that was imported from China during the period beginning with 2004 and ending at the end of 2007; and

(2) the availability of property insurance for residential structures in which such drywall is present.

(b) REPORT.—Not later than the expiration of the 120-day period beginning on the date of the enactment of this Act, the Secretary of Housing and Urban Development shall submit to the Congress a report on the study conducted under subsection (a) containing its findings, conclusions, and recommendations.

SEC. 1495. DEFINITION.

For purposes of this title, the term "designated transfer date" means the date established under section 1062 of this Act.

SEC. 1496. EMERGENCY MORTGAGE RELIEF.

(a) EMERGENCY HOMEOWNERS' RELIEF FUND.—Effective October 1, 2010, and notwithstanding any other provision of law, there is hereby made available to the Secretary of Housing and Urban Development such sums as are necessary to provide $1,000,000,000 in assistance through the Emergency Homeowners' Relief Fund, which such Secretary shall establish pursuant to section 107 of the Emergency Housing Act of 1975 (12 U.S.C. 2706), as such Act is amended by this section, for use for emergency mortgage assistance in accordance with title I of such Act.

(b) REAUTHORIZATION OF EMERGENCY MORTGAGE RELIEF PROGRAM.—Title I of the Emergency Housing Act of 1975 is amended—

(1) in section 103 (12 U.S.C. 2702)—

(A) in paragraph (2)—

(i) by striking "have indicated" and all that follows through "regulation of the holder" and insert "have certified";

(ii) by striking "(such as the volume of delinquent loans in its portfolio)"; and

(iii) by striking ", except that such statement" and all that follows through "purposes of this title"; and

(B) in paragraph (4), by inserting “or medical conditions” after “adverse economic conditions”;

(2) in section 104 (12 U.S.C. 2703)—

(A) in subsection (b), by striking “, but such assistance” and all that follows through the period at the end and inserting the following: “. The amount of assistance provided to a homeowner under this title shall be an amount that the Secretary determines is reasonably necessary to supplement such amount as the homeowner is capable of contributing toward such mortgage payment, except that the aggregate amount of such assistance provided for any homeowner shall not exceed $50,000.”;

(B) in subsection (d), by striking “interest on a loan or advance” and all that follows through the end of the subsection and inserting the following: “(1) the rate of interest on any loan or advance of credit insured under this title shall be fixed for the life of the loan or advance of credit and shall not exceed the rate of interest that is generally charged for mortgages on single-family housing insured by the Secretary of Housing and Urban Development under title II of the National Housing Act at the time such loan or advance of credit is made, and (2) no interest shall be charged on interest which is deferred on a loan or advance of credit made under this title. In establishing rates, terms and conditions for loans or advances of credit made under this title, the Secretary shall take into account a homeowner’s ability to repay such loan or advance of credit.”; and

(C) in subsection (e), by inserting after the period at the end of the first sentence the following: “Any eligible homeowner who receives a grant or an advance of credit under this title may repay the loan in full, without penalty, by lump sum or by installment payments at any time before the loan becomes due and payable.”;

(3) in section 105 (12 U.S.C. 2704)—

(A) by striking subsection (b);

(B) in subsection (e)—

(i) by inserting “and emergency mortgage relief payments made under section 106” after “insured under this section”; and

(ii) by striking “$1,500,000,000 at any one time” and inserting “$3,000,000,000”;

(C) by redesignating subsections (c), (d), and (e) as subsections (b), (c), and (d), respectively; and

(D) by adding at the end the following new subsection:

“(e) The Secretary shall establish underwriting guidelines or procedures to allocate amounts made available for loans and advances insured under this section and for emergency relief payments made under section 106 based on the likelihood that a mortgagor will be able to resume mortgage payments, pursuant to the requirement under section 103(5).”;

(4) in section 107—

(A) by striking “(a)”; and

(B) by striking subsection (b);

(5) in section 108 (12 U.S.C. 2707), by adding at the end the following new subsection:

"(d) COVERAGE OF EXISTING PROGRAMS.—The Secretary shall allow funds to be administered by a State that has an existing program that is determined by the Secretary to provide substantially similar assistance to homeowners. After such determination is made such State shall not be required to modify such program to comply with the provisions of this title.";

(6) in section 109 (12 U.S.C. 2708)—

(A) in the section heading, by striking "AUTHORIZATION AND";

(B) by striking subsection (a);

(C) by striking "(b)"; and

(D) by striking "1977" and inserting "2011";

(7) by striking sections 110, 111, and 113 (12 U.S.C. 2709, 2710, 2712); and

(8) by redesignating section 112 (12 U.S.C. 2711) as section 110.

SEC. 1497. ADDITIONAL ASSISTANCE FOR NEIGHBORHOOD STABILIZATION PROGRAM.

(a) IN GENERAL.—Effective October 1, 2010, out of funds in the Treasury not otherwise appropriated, there is hereby made available to the Secretary of Housing and Urban Development $1,000,000,000, and the Secretary of Housing and Urban Development shall use such amounts for assistance to States and units of general local government for the redevelopment of abandoned and foreclosed homes, in accordance with the same provisions applicable under the second undesignated paragraph under the heading "Community Planning and Development—Community Development Fund" in title XII of division A of the American Recovery and Reinvestment Act of 2009 (Public Law 111–5; 123 Stat. 217) to amounts made available under such second undesignated paragraph, except as follows:

(1) Notwithstanding the matter of such second undesignated paragraph that precedes the first proviso, amounts made available by this section shall remain available until expended.

(2) The 3rd, 4th, 5th, 6th, 7th, and 15th provisos of such second undesignated paragraph shall not apply to amounts made available by this section.

(3) Amounts made available by this section shall be allocated based on a funding formula for such amounts established by the Secretary in accordance with section 2301(b) of the Housing and Economic Recovery Act of 2008 (42 U.S.C. 5301 note), except that—

(A) notwithstanding paragraph (2) of such section 2301(b), the formula shall be established not later than 30 days after the date of the enactment of this Act;

(B) notwithstanding such section 2301(b), each State shall receive, at a minimum, not less than 0.5 percent of funds made available under this section;

(C) the Secretary may establish a minimum grant amount for direct allocations to units of general local government located within a State, which shall not exceed $1,000,000;

(D) each State and local government receiving grant amounts shall establish procedures to create preferences for the development of affordable rental housing for properties assisted with amounts made available by this section; and

(E) the Secretary may use not more than 2 percent of the funds made available under this section for technical assistance to grantees.

(4) Paragraph (1) of section 2301(c) of the Housing and Economic Recovery Act of 2008 shall not apply to amounts made available by this section.

(5) The fourth proviso from the end of such second undesignated paragraph shall be applied to amounts made available by this section by substituting "2013" for "2012".

(6) Notwithstanding section 2301(a) of the Housing and Economic Recovery Act of 2008, the term "State" means any State, as defined in section 102 of the Housing and Community Development Act of 1974 (42 U.S.C. 5302), and the District of Columbia, for purposes of this section and this title, as applied to amounts made available by this section.

(7)(A) None of the amounts made available by this section shall be distributed to—

(i) any organization which has been convicted for a violation under Federal law relating to an election for Federal office; or

(ii) any organization which employs applicable individuals.

(B) In this paragraph, the term "applicable individual" means an individual who—

(i) is—

(I) employed by the organization in a permanent or temporary capacity;

(II) contracted or retained by the organization; or

(III) acting on behalf of, or with the express or apparent authority of, the organization; and

(ii) has been convicted for a violation under Federal law relating to an election for Federal office.

(8) An eligible entity receiving a grant under this section shall, to the maximum extent feasible, provide for the hiring of employees who reside in the vicinity, as such term is defined by the Secretary, of projects funded under this section or contract with small businesses that are owned and operated by persons residing in the vicinity of such projects.

(b) ADDITIONAL AMENDMENTS.—

(1) SECTION 2301.—Section 2301(f)(3)(A)(ii) of the Housing and Economic Recovery Act of 2008 (42 U.S.C. 5301(f)(3)(A)(ii))—

(A) is amended by striking "for the purchase and redevelopment of abandoned and foreclosed upon homes or residential properties that will be used"; and

(B) shall apply with respect to any unexpended or unobligated balances, including recaptured and reallocated funds made available under this Act, section 2301 of the Housing and Economic Recovery Act of 2008 (42 U.S.C. 5301), and the heading "Community Planning and Development—Community Development Fund" in title XII of division A of the American Recovery and Reinvestment Act of 2009 (Public Law 111-5; 123 Stat. 217).

(2) NOTICE OF FORECLOSURE.—For any amounts made available under this section, under division B, title III of the Housing and Economic Recovery Act of 2008 (42 U.S.C. 5301), or under the heading "Community Planning and Development—Community Development Fund" in title XII of division A of the American Recovery and Reinvestment Act of 2009 (Public Law 111-5; 123 Stat. 217), the date of a notice of foreclosure shall be deemed to be the date on which complete title to a property is transferred to a successor entity or person as a result of an order of a court or pursuant to provisions in a mortgage, deed of trust, or security deed.

SEC. 1498. LEGAL ASSISTANCE FOR FORECLOSURE-RELATED ISSUES.

(a) ESTABLISHMENT.—The Secretary of Housing and Urban Development (hereafter in this section referred to as the "Secretary") shall establish a program for making grants for providing a full range of foreclosure legal assistance to low- and moderate-income homeowners and tenants related to home ownership preservation, home foreclosure prevention, and tenancy associated with home foreclosure.

(b) COMPETITIVE ALLOCATION.—The Secretary shall allocate amounts made available for grants under this section to State and local legal organizations on the basis of a competitive process. For purposes of this subsection "State and local legal organizations" are those State and local organizations whose primary business or mission is to provide legal assistance.

(c) PRIORITY TO CERTAIN AREAS.—In allocating amounts in accordance with subsection (b), the Secretary shall give priority consideration to State and local legal organizations that are operating in the 125 metropolitan statistical areas (as that term is defined by the Director of the Office of Management and Budget) with the highest home foreclosure rates.

(d) LEGAL ASSISTANCE.—

(1) IN GENERAL.—Any State or local legal organization that receives financial assistance pursuant to this section may use such amounts only to assist—

(A) homeowners of owner-occupied homes with mortgages in default, in danger of default, or subject to or at risk of foreclosure; and

(B) tenants at risk of or subject to eviction as a result of foreclosure of the property in which such tenant resides.

(2) COMMENCE USE WITHIN 90 DAYS.—Any State or local legal organization that receives financial assistance pursuant to this section shall begin using any financial assistance received under this section within 90 days after receipt of the assistance.

(3) PROHIBITION ON CLASS ACTIONS.—No funds provided to a State or local legal organization under this section may be used to support any class action litigation.

(4) LIMITATION ON LEGAL ASSISTANCE.—Legal assistance funded with amounts provided under this section shall be limited to mortgage-related default, eviction, or foreclosure proceedings, without regard to whether such foreclosure is judicial or nonjudicial.

(5) EFFECTIVE DATE.—Notwithstanding any other provision of this Act, this subsection shall take effect on the date of the enactment of this Act.

(e) LIMITATION ON DISTRIBUTION OF ASSISTANCE.—

(1) IN GENERAL.—None of the amounts made available under this section shall be distributed to—

(A) any organization which has been convicted for a violation under Federal law relating to an election for Federal office; or

(B) any organization which employs applicable individuals.

(2) DEFINITION OF APPLICABLE INDIVIDUALS.—In this subsection, the term "applicable individual" means an individual who—

(A) is—

(i) employed by the organization in a permanent or temporary capacity;

(ii) contracted or retained by the organization; or

(iii) acting on behalf of, or with the express or apparent authority of, the organization; and

(B) has been convicted for a violation under Federal law relating to an election for Federal office.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary $35,000,000 for each of fiscal years 2011 through 2012 for grants under this section.

TITLE XV—MISCELLANEOUS PROVISIONS

SEC. 1501. RESTRICTIONS ON USE OF UNITED STATES FUNDS FOR FOREIGN GOVERNMENTS; PROTECTION OF AMERICAN TAXPAYERS.

The Bretton Woods Agreements Act (22 U.S.C. 286 et seq.) is amended by adding at the end the following:

"SEC. 68. RESTRICTIONS ON USE OF UNITED STATES FUNDS FOR FOREIGN GOVERNMENTS; PROTECTION OF AMERICAN TAXPAYERS.

"(a) IN GENERAL.—The Secretary of the Treasury shall instruct the United States Executive Director at the International Monetary Fund—

"(1) to evaluate, prior to consideration by the Board of Executive Directors of the Fund , any proposal submitted to the Board for the Fund to make a loan to a country if—

"(A) the amount of the public debt of the country exceeds the gross domestic product of the country as of the most recent year for which such information is available; and

"(B) the country is not eligible for assistance from the International Development Association.

"(2) OPPOSITION TO LOANS UNLIKELY TO BE REPAID IN FULL.—If any such evaluation indicates that the proposed loan is not likely to be repaid in full, the Secretary of the Treasury shall instruct the United States Executive Director at the Fund to use the voice and vote of the United States to oppose the proposal.

"(b) REPORTS TO CONGRESS.—Within 30 days after the Board of Executive Directors of the Fund approves a proposal described in subsection (a), and annually thereafter by June 30, for the duration of any program approved under such proposals, the Secretary of the Treasury shall report in writing to the Committee on Financial Services of the House of Representatives and the Committee on Foreign Relations and the Committee on Banking, Housing, and Urban Affairs of the Senate assessing the likelihood that loans made pursuant to such proposals will be repaid in full, including—

"(1) the borrowing country's current debt status, including, to the extent possible, its maturity structure, whether it has fixed or floating rates, whether it is indexed, and by whom it is held;

"(2) the borrowing country's external and internal vulnerabilities that could potentially affect its ability to repay; and

"(3) the borrowing country's debt management strategy.".

SEC. 1502. CONFLICT MINERALS.

(a) SENSE OF CONGRESS ON EXPLOITATION AND TRADE OF CONFLICT MINERALS ORIGINATING IN THE DEMOCRATIC REPUBLIC OF THE CONGO.—It is the sense of Congress that the exploitation and trade of conflict minerals originating in the Democratic Republic of the Congo is helping to finance conflict characterized by extreme levels of violence in the eastern Democratic Republic of the Congo, particularly sexual- and gender-based violence, and contributing to an emergency humanitarian situation therein, warranting the provisions of section 13(p) of the Securities Exchange Act of 1934, as added by subsection (b).

(b) DISCLOSURE RELATING TO CONFLICT MINERALS ORIGINATING IN THE DEMOCRATIC REPUBLIC OF THE CONGO.—Section 13 of the Securities Exchange Act of 1934 (15 U.S.C. 78m), as amended by this Act, is amended by adding at the end the following new subsection:

"(p) DISCLOSURES RELATING TO CONFLICT MINERALS ORIGINATING IN THE DEMOCRATIC REPUBLIC OF THE CONGO.—

"(1) REGULATIONS.—

"(A) IN GENERAL.—Not later than 270 days after the date of the enactment of this subsection, the Commission shall promulgate regulations requiring any person described in paragraph (2) to disclose annually, beginning with the person's first full fiscal year that begins after the date of promulgation of such regulations, whether conflict minerals that are necessary as described in paragraph (2)(B), in the year for which such reporting is required, did originate in the Democratic Republic of the Congo or an adjoining country and, in cases in which such conflict minerals did originate in any such country, submit to the Commission a report that includes, with respect to the period covered by the report—

"(i) a description of the measures taken by the person to exercise due diligence on the source and chain of custody of such minerals, which measures shall include an independent private sector audit of such report submitted through the Commission that is conducted in accordance with standards established by the Comptroller General of the United States, in accordance with rules promulgated by the Commission, in consultation with the Secretary of State; and "(ii) a description of the products manufactured or contracted to be manufactured that are not DRC conflict free ('DRC conflict free' is defined to mean the products that do not contain minerals that directly or indirectly finance or benefit armed groups in the Democratic Republic of the Congo or an adjoining country), the entity that conducted the independent private sector audit in accordance with clause (i), the facilities used to process the conflict minerals, the country of origin of the conflict minerals, and the efforts to determine the mine or location of origin with the greatest possible specificity.

"(B) CERTIFICATION.—The person submitting a report under subparagraph (A) shall certify the audit described in clause (i) of such subparagraph that is included in such report. Such a certified audit shall constitute a critical component of due diligence in establishing the source and chain of custody of such minerals.

"(C) UNRELIABLE DETERMINATION.—If a report required to be submitted by a person under subparagraph (A) relies on a determination of an independent private sector audit, as described under subparagraph (A)(i), or other due diligence processes previously determined by the Commission to be unreliable, the report shall not satisfy the requirements of the regulations promulgated under subparagraph (A)(i).

"(D) DRC CONFLICT FREE.—For purposes of this paragraph, a product may be labeled as 'DRC conflict free' if the product does not contain conflict minerals that directly or indirectly finance or benefit armed groups in the Democratic Republic of the Congo or an adjoining country.

"(E) INFORMATION AVAILABLE TO THE PUBLIC.—Each person described under paragraph (2) shall make available to the public on the Internet website of such person the information disclosed by such person under subparagraph (A).

"(2) PERSON DESCRIBED.—A person is described in this paragraph if—

"(A) the person is required to file reports with the Commission pursuant to paragraph (1)(A); and

"(B) conflict minerals are necessary to the functionality or production of a product manufactured by such person.

"(3) REVISIONS AND WAIVERS.—The Commission shall revise or temporarily waive the requirements described in paragraph (1) if the President transmits to the Commission a determination that—

"(A) such revision or waiver is in the national security interest of the United States and the President includes the reasons therefor; and

"(B) establishes a date, not later than 2 years after the initial publication of such exemption, on which such exemption shall expire.

"(4) TERMINATION OF DISCLOSURE REQUIREMENTS.—The requirements of paragraph (1) shall terminate on the date on which the President determines and certifies to the appropriate congressional committees, but in no case earlier than the date that is one day after the end of the 5-year period beginning on the date of the enactment of this subsection, that no armed groups continue to be directly involved and benefitting from commercial activity involving conflict minerals.

"(5) DEFINITIONS.—For purposes of this subsection, the terms 'adjoining country', 'appropriate congressional committees', 'armed group', and 'conflict mineral' have the meaning given those terms under section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.".

(c) STRATEGY AND MAP TO ADDRESS LINKAGES BETWEEN CONFLICT MINERALS AND ARMED GROUPS.—

(1) STRATEGY.—

(A) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in consultation with the Administrator of the United States Agency for International Development, shall submit to the appropriate congressional committees a strategy to address the linkages between human rights abuses, armed groups, mining of conflict minerals, and commercial products.

(B) CONTENTS.—The strategy required by subparagraph (A) shall include the following:

(i) A plan to promote peace and security in the Democratic Republic of the Congo by supporting efforts of the Government of the Democratic Republic of the Congo, including the Ministry of Mines and other relevant agencies, adjoining countries, and the international community, in particular the United Nations Group of Experts on the Democratic Republic of Congo, to—

(I) monitor and stop commercial activities involving the natural resources of the Democratic Republic of the Congo that contribute to the activities of armed groups and human rights violations in the Democratic Republic of the Congo; and

(II) develop stronger governance and economic institutions that can facilitate and improve transparency in the cross-border trade involving the natural resources of the Democratic Republic of the Congo to reduce exploitation by armed groups and promote local and regional development.

(ii) A plan to provide guidance to commercial entities seeking to exercise due diligence on and formalize the origin and chain of custody of conflict minerals used in their products and on their suppliers to ensure that conflict minerals used in the products of such suppliers do not directly or indirectly finance armed conflict or result in labor or human rights violations.

(iii) A description of punitive measures that could be taken against individuals or entities whose commercial activities are supporting armed groups and human rights violations in the Democratic Republic of the Congo.

(2) MAP.—

(A) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall, in accordance with the recommendation of the United

Nations Group of Experts on the Democratic Republic of the Congo in their December 2008 report—

(i) produce a map of mineral-rich zones, trade routes, and areas under the control of armed groups in the Democratic Republic of the Congo and adjoining countries based on data from multiple sources, including—

(I) the United Nations Group of Experts on the Democratic Republic of the Congo;

(II) the Government of the Democratic Republic of the Congo, the governments of adjoining countries, and the governments of other Member States of the United Nations; and

(III) local and international nongovernmental organizations;

(ii) make such map available to the public; and

(iii) provide to the appropriate congressional committees an explanatory note describing the sources of information from which such map is based and the identification, where possible, of the armed groups or other forces in control of the mines depicted.

(B) DESIGNATION.—The map required under subparagraph (A) shall be known as the "Conflict Minerals Map", and mines located in areas under the control of armed groups in the Democratic Republic of the Congo and adjoining countries, as depicted on such Conflict Minerals Map, shall be known as "Conflict Zone Mines".

(C) UPDATES.—The Secretary of State shall update the map required under subparagraph (A) not less frequently than once every 180 days until the date on which the disclosure requirements under paragraph (1) of section 13(p) of the Securities Exchange Act of 1934, as added by subsection (b), terminate in accordance with the provisions of paragraph (4) of such section 13(p).

(D) PUBLICATION IN FEDERAL REGISTER.—The Secretary of State shall add minerals to the list of minerals in the definition of conflict minerals under section 1502, as appropriate. The Secretary shall publish in the Federal Register notice of intent to declare a mineral as a conflict mineral included in such definition not later than one year before such declaration.

(d) REPORTS.—

(1) BASELINE REPORT.—Not later than 1 year after the date of the enactment of this Act and annually thereafter until the termination of the disclosure requirements under section 13(p) of the Securities Exchange Act of 1934, the Comptroller General of the United States shall submit to appropriate congressional committees a report that includes an assessment of the rate of sexual- and gender-based violence in war-torn areas of the Democratic Republic of the Congo and adjoining countries.

(2) REGULAR REPORT ON EFFECTIVENESS.—Not later than 2 years after the date of the enactment of this Act and annually thereafter, the Comptroller General of the United States shall submit to the appropriate congressional committees a report that includes the following:

(A) An assessment of the effectiveness of section 13(p) of the Securities Exchange Act of 1934, as added by subsection (b), in promoting peace and security in the Democratic Republic of the Congo and adjoining countries.

(B) A description of issues encountered by the Securities and Exchange Commission in carrying out the provisions of such section 13(p).

(C)(i) A general review of persons described in clause (ii) and whether information is publicly available about—

(I) the use of conflict minerals by such persons; and

(II) whether such conflict minerals originate from the Democratic Republic of the Congo or an adjoining country.

(ii) A person is described in this clause if—

(I) the person is not required to file reports with the Securities and Exchange Commission pursuant to section 13(p)(1)(A) of the Securities Exchange Act of 1934, as added by subsection (b); and

(II) conflict minerals are necessary to the functionality or production of a product manufactured by such person.

(3) REPORT ON PRIVATE SECTOR AUDITING.—Not later than 30 months after the date of the enactment of this Act, and annually thereafter, the Secretary of Commerce shall submit to the appropriate congressional committees a report that includes the following:

(A) An assessment of the accuracy of the independent private sector audits and other due diligence processes described under section 13(p) of the Securities Exchange Act of 1934.

(B) Recommendations for the processes used to carry out such audits, including ways to—

(i) improve the accuracy of such audits; and

(ii) establish standards of best practices.

(C) A listing of all known conflict mineral processing facilities worldwide.

(e) DEFINITIONS.—For purposes of this section:

(1) ADJOINING COUNTRY.—The term “adjoining country”, with respect to the Democratic Republic of the Congo, means a country that shares an internationally recognized border with the Democratic Republic of the Congo.

(2) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means—

(A) the Committee on Appropriations, the Committee on Foreign Affairs, the Committee on Ways and Means, and the Committee on Financial Services of the House of Representatives; and

(B) the Committee on Appropriations, the Committee on Foreign Relations, the Committee on Finance, and the Committee on Banking, Housing, and Urban Affairs of the Senate.

(3) ARMED GROUP.—The term “armed group” means an armed group that is identified as perpetrators of serious human rights abuses in the annual Country Reports on Human Rights Practices under sections 116(d) and 502B(b) of the Foreign Assistance Act of 1961 (22 U.S.C. 2151n(d) and 2304(b)) relating

to the Democratic Republic of the Congo or an adjoining country.

(4) CONFLICT MINERAL.—The term "conflict mineral" means—

(A) columbite-tantalite (coltan), cassiterite, gold, wolframite, or their derivatives; or

(B) any other mineral or its derivatives determined by the Secretary of State to be financing conflict in the Democratic Republic of the Congo or an adjoining country.

(5) UNDER THE CONTROL OF ARMED GROUPS.—The term "under the control of armed groups" means areas within the Democratic Republic of the Congo or adjoining countries in which armed groups—

(A) physically control mines or force labor of civilians to mine, transport, or sell conflict minerals;

(B) tax, extort, or control any part of trade routes for conflict minerals, including the entire trade route from a Conflict Zone Mine to the point of export from the Democratic Republic of the Congo or an adjoining country; or

(C) tax, extort, or control trading facilities, in whole or in part, including the point of export from the Democratic Republic of the Congo or an adjoining country.

SEC. 1503. REPORTING REQUIREMENTS REGARDING COAL OR OTHER MINE SAFETY.

(a) REPORTING MINE SAFETY INFORMATION.—Each issuer that is required to file reports pursuant to section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m, 78o) and that is an operator, or that has a subsidiary that is an operator, of a coal or other mine shall include, in each periodic report filed with the Commission under the securities laws on or after the date of enactment of this Act, the following information for the time period covered by such report:

(1) For each coal or other mine of which the issuer or a subsidiary of the issuer is an operator—

(A) the total number of violations of mandatory health or safety standards that could significantly and substantially contribute to the cause and effect of a coal or other mine safety or health hazard under section 104 of the Federal Mine Safety and Health Act of 1977 (30 U.S.C. 814) for which the operator received a citation from the Mine Safety and Health Administration;

(B) the total number of orders issued under section 104(b) of such Act (30 U.S.C. 814(b));

(C) the total number of citations and orders for unwarrantable failure of the mine operator to comply with mandatory health or safety standards under section 104(d) of such Act (30 U.S.C. 814(d));

(D) the total number of flagrant violations under section 110(b)(2) of such Act (30 U.S.C. 820(b)(2));

(E) the total number of imminent danger orders issued under section 107(a) of such Act (30 U.S.C. 817(a));

(F) the total dollar value of proposed assessments from the Mine Safety and Health Administration under such Act (30 U.S.C. 801 et seq.); and

(G) the total number of mining-related fatalities.

(2) A list of such coal or other mines, of which the issuer or a subsidiary of the issuer is an operator, that receive written notice from the Mine Safety and Health Administration of—

(A) a pattern of violations of mandatory health or safety standards that are of such nature as could have significantly and substantially contributed to the cause and effect of coal or other mine health or safety hazards under section 104(e) of such Act (30 U.S.C. 814(e)); or

(B) the potential to have such a pattern.

(3) Any pending legal action before the Federal Mine Safety and Health Review Commission involving such coal or other mine.

(b) REPORTING SHUTDOWNS AND PATTERNS OF VIOLATIONS.—Beginning on and after the date of enactment of this Act, each issuer that is an operator, or that has a subsidiary that is an operator, of a coal or other mine shall file a current report with the Commission on Form 8–K (or any successor form) disclosing the following regarding each coal or other mine of which the issuer or subsidiary is an operator:

(1) The receipt of an imminent danger order issued under section 107(a) of the Federal Mine Safety and Health Act of 1977 (30 U.S.C. 817(a)).

(2) The receipt of written notice from the Mine Safety and Health Administration that the coal or other mine has—

(A) a pattern of violations of mandatory health or safety standards that are of such nature as could have significantly and substantially contributed to the cause and effect of coal or other mine health or safety hazards under section 104(e) of such Act (30 U.S.C. 814(e)); or

(B) the potential to have such a pattern.

(c) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to affect any obligation of a person to make a disclosure under any other applicable law in effect before, on, or after the date of enactment of this Act.

(d) COMMISSION AUTHORITY.—

(1) ENFORCEMENT.—A violation by any person of this section, or any rule or regulation of the Commission issued under this section, shall be treated for all purposes in the same manner as a violation of the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.) or the rules and regulations issued thereunder, consistent with the provisions of this section, and any such person shall be subject to the same penalties, and to the same extent, as for a violation of such Act or the rules or regulations issued thereunder.

(2) RULES AND REGULATIONS.—The Commission is authorized to issue such rules or regulations as are necessary or appropriate for the protection of investors and to carry out the purposes of this section.

(e) DEFINITIONS.—In this section—

(1) the terms "issuer" and "securities laws" have the meaning given the terms in section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c);

(2) the term "coal or other mine" means a coal or other mine, as defined in section 3 of the Federal Mine Safety and Health Act of 1977 (30 U.S.C. 802), that is subject to the provisions of such Act (30 U.S.C. 801 et seq.); and

(3) the term "operator" has the meaning given the term in section 3 of the Federal Mine Safety and Health Act of 1977 (30 U.S.C. 802).

(f) EFFECTIVE DATE.—This section shall take effect on the day that is 30 days after the date of enactment of this Act.

SEC. 1504. DISCLOSURE OF PAYMENTS BY RESOURCE EXTRACTION ISSUERS.

Section 13 of the Securities Exchange Act of 1934 (15 U.S.C. 78m), as amended by this Act, is amended by adding at the end the following:

"(q) DISCLOSURE OF PAYMENTS BY RESOURCE EXTRACTION ISSUERS.—

"(1) DEFINITIONS.—In this subsection—

"(A) the term 'commercial development of oil, natural gas, or minerals' includes exploration, extraction, processing, export, and other significant actions relating to oil, natural gas, or minerals, or the acquisition of a license for any such activity, as determined by the Commission;

"(B) the term 'foreign government' means a foreign government, a department, agency, or instrumentality of a foreign government, or a company owned by a foreign government, as determined by the Commission;

"(C) the term 'payment'—

"(i) means a payment that is—

"(I) made to further the commercial development of oil, natural gas, or minerals; and

"(II) not de minimis; and

"(ii) includes taxes, royalties, fees (including license fees), production entitlements, bonuses, and other material benefits, that the Commission, consistent with the guidelines of the Extractive Industries Transparency Initiative (to the extent practicable), determines are part of the commonly recognized revenue stream for the commercial development of oil, natural gas, or minerals;

"(D) the term 'resource extraction issuer' means an issuer that—

"(i) is required to file an annual report with the Commission; and

"(ii) engages in the commercial development of oil, natural gas, or minerals;

"(E) the term 'interactive data format' means an electronic data format in which pieces of information are identified using an interactive data standard; and

"(F) the term 'interactive data standard' means standardized list of electronic tags that mark information included in the annual report of a resource extraction issuer.

"(2) DISCLOSURE.—

"(A) INFORMATION REQUIRED.—Not later than 270 days after the date of enactment of the Dodd-Frank Wall Street Reform and Consumer Protection Act, the Commission shall issue final rules that require each resource extraction issuer to include in an annual report of the resource extraction issuer information relating to any payment made by the resource extraction issuer, a subsidiary of the resource extraction issuer, or an entity under the control of the resource extraction issuer to a foreign government or the Federal Government for the purpose of the commercial development of oil, natural gas, or minerals, including—

"(i) the type and total amount of such payments made for each project of the resource extraction issuer relating to the commercial development of oil, natural gas, or minerals; and

"(ii) the type and total amount of such payments made to each government.

"(B) CONSULTATION IN RULEMAKING.—In issuing rules under subparagraph (A), the Commission may consult with any agency or entity that the Commission determines is relevant.

"(C) INTERACTIVE DATA FORMAT.—The rules issued under subparagraph (A) shall require that the information included in the annual report of a resource extraction issuer be submitted in an interactive data format.

"(D) INTERACTIVE DATA STANDARD.—

"(i) IN GENERAL.—The rules issued under subparagraph (A) shall establish an interactive data standard for the information included in the annual report of a resource extraction issuer.

"(ii) ELECTRONIC TAGS.—The interactive data standard shall include electronic tags that identify, for any payments made by a resource extraction issuer to a foreign government or the Federal Government—

"(I) the total amounts of the payments, by category;

"(II) the currency used to make the payments;

"(III) the financial period in which the payments were made;

"(IV) the business segment of the resource extraction issuer that made the payments;

"(V) the government that received the payments, and the country in which the government is located;

"(VI) the project of the resource extraction issuer to which the payments relate; and

"(VII) such other information as the Commission may determine is necessary or appropriate in the public interest or for the protection of investors.

"(E) INTERNATIONAL TRANSPARENCY EFFORTS.—To the extent practicable, the rules issued under subparagraph (A) shall support the commitment of the Federal Government to international transparency promotion efforts relating to the commercial development of oil, natural gas, or minerals.

"(F) EFFECTIVE DATE.—With respect to each resource extraction issuer, the final rules issued under subparagraph (A) shall take effect on the date on which the resource extraction issuer is required to submit an annual report relating to the fiscal year of the resource extraction issuer that ends not earlier than 1 year after the date on which the Commission issues final rules under subparagraph (A).

"(3) PUBLIC AVAILABILITY OF INFORMATION.—

"(A) IN GENERAL.—To the extent practicable, the Commission shall make available online, to the public, a compilation of the information required to be submitted under the rules issued under paragraph (2)(A).

"(B) OTHER INFORMATION.—Nothing in this paragraph shall require the Commission to make available online information other than the information required to be submitted under the rules issued under paragraph (2)(A).

"(4) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Commission such sums as may be necessary to carry out this subsection.".

SEC. 1505. STUDY BY THE COMPTROLLER GENERAL.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall issue a report assessing the relative independence, effectiveness, and expertise of presidentially appointed inspectors general and inspectors general of designated Federal entities, as such term is defined under section 8G of the Inspector General Act of 1978, and the effects on independence of the amendments to the Inspector General Act of 1978 made by this Act.

(b) REPORT.—The report required by subsection (a) shall be issued to the Committees on Financial Services and Oversight and Government Reform of the House of Representatives and the Committees on Banking, Housing, and Urban Affairs and Homeland Security and Governmental Affairs of the Senate.

SEC. 1506. STUDY ON CORE DEPOSITS AND BROKERED DEPOSITS.

(a) STUDY.—The Corporation shall conduct a study to evaluate—

(1) the definition of core deposits for the purpose of calculating the insurance premiums of banks;

(2) the potential impact on the Deposit Insurance Fund of revising the definitions of brokered deposits and core deposits to better distinguish between them;

(3) an assessment of the differences between core deposits and brokered deposits and their role in the economy and banking sector of the United States;

(4) the potential stimulative effect on local economies of redefining core deposits; and

(5) the competitive parity between large institutions and community banks that could result from redefining core deposits.

(b) REPORT TO CONGRESS.—Not later than 1 year after the date of enactment of this Act, the Corporation shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives a report on the results of the study under subsection (a) that includes legislative recommendations, if any, to address concerns arising in connection with the definitions of core deposits and brokered deposits.

TITLE XVI—SECTION 1256 CONTRACTS

SEC. 1601. CERTAIN SWAPS, ETC., NOT TREATED AS SECTION 1256 CONTRACTS.

(a) IN GENERAL.—Subsection (b) of section 1256 of the Internal Revenue Code of 1986 is amended—

(1) by redesignating paragraphs (1) through (5) as subparagraphs (A) through (E), respectively, and by indenting such subparagraphs (as so redesignated) accordingly,

(2) by striking "For purposes of" and inserting the following: "(1) IN GENERAL.—For purposes of", and

(3) by striking the last sentence and inserting the following new paragraph:

"(2) EXCEPTIONS.—The term 'section 1256 contract' shall not include—

"(A) any securities futures contract or option on such a contract unless such contract or option is a dealer securities futures contract, or

"(B) any interest rate swap, currency swap, basis swap, interest rate cap, interest rate floor, commodity swap, equity swap, equity index swap, credit default swap, or similar agreement.".

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after the date of the enactment of this Act.

Speaker of the House of Representatives.

Vice President of the United States and
President of the Senate.

Public Law 107–204
107th Congress

An Act

To protect investors by improving the accuracy and reliability of corporate disclosures made pursuant to the securities laws, and for other purposes.

July 30, 2002
[H.R. 3763]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Sarbanes-Oxley Act of 2002. Corporate responsibility. 15 USC 7201 note.

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Sarbanes-Oxley Act of 2002".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

15 USC 7201.

SEC. 2. DEFINITIONS.

(a) IN GENERAL.—In this Act, the following definitions shall apply:

(1) APPROPRIATE STATE REGULATORY AUTHORITY.—The term “appropriate State regulatory authority” means the State agency or other authority responsible for the licensure or other regulation of the practice of accounting in the State or States

having jurisdiction over a registered public accounting firm or associated person thereof, with respect to the matter in question.

(2) AUDIT.—The term "audit" means an examination of the financial statements of any issuer by an independent public accounting firm in accordance with the rules of the Board or the Commission (or, for the period preceding the adoption of applicable rules of the Board under section 103, in accordance with then-applicable generally accepted auditing and related standards for such purposes), for the purpose of expressing an opinion on such statements.

(3) AUDIT COMMITTEE.—The term "audit committee" means—

(A) a committee (or equivalent body) established by and amongst the board of directors of an issuer for the purpose of overseeing the accounting and financial reporting processes of the issuer and audits of the financial statements of the issuer; and

(B) if no such committee exists with respect to an issuer, the entire board of directors of the issuer.

(4) AUDIT REPORT.—The term "audit report" means a document or other record—

(A) prepared following an audit performed for purposes of compliance by an issuer with the requirements of the securities laws; and

(B) in which a public accounting firm either—

(i) sets forth the opinion of that firm regarding a financial statement, report, or other document; or

(ii) asserts that no such opinion can be expressed.

(5) BOARD.—The term "Board" means the Public Company Accounting Oversight Board established under section 101.

(6) COMMISSION.—The term "Commission" means the Securities and Exchange Commission.

(7) ISSUER.—The term "issuer" means an issuer (as defined in section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c)), the securities of which are registered under section 12 of that Act (15 U.S.C. 78l), or that is required to file reports under section 15(d) (15 U.S.C. 78o(d)), or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933 (15 U.S.C. 77a et seq.), and that it has not withdrawn.

(8) NON-AUDIT SERVICES.—The term "non-audit services" means any professional services provided to an issuer by a registered public accounting firm, other than those provided to an issuer in connection with an audit or a review of the financial statements of an issuer.

(9) PERSON ASSOCIATED WITH A PUBLIC ACCOUNTING FIRM.—

(A) IN GENERAL.—The terms "person associated with a public accounting firm" (or with a "registered public accounting firm") and "associated person of a public accounting firm" (or of a "registered public accounting firm") mean any individual proprietor, partner, shareholder, principal, accountant, or other professional employee of a public accounting firm, or any other independent contractor or entity that, in connection with the preparation or issuance of any audit report—

(i) shares in the profits of, or receives compensation in any other form from, that firm; or

(ii) participates as agent or otherwise on behalf of such accounting firm in any activity of that firm.

(B) EXEMPTION AUTHORITY.—The Board may, by rule, exempt persons engaged only in ministerial tasks from the definition in subparagraph (A), to the extent that the Board determines that any such exemption is consistent with the purposes of this Act, the public interest, or the protection of investors.

(10) PROFESSIONAL STANDARDS.—The term "professional standards" means—

(A) accounting principles that are—

(i) established by the standard setting body described in section 19(b) of the Securities Act of 1933, as amended by this Act, or prescribed by the Commission under section 19(a) of that Act (15 U.S.C. 17a(s)) or section 13(b) of the Securities Exchange Act of 1934 (15 U.S.C. 78a(m)); and

(ii) relevant to audit reports for particular issuers, or dealt with in the quality control system of a particular registered public accounting firm; and

(B) auditing standards, standards for attestation engagements, quality control policies and procedures, ethical and competency standards, and independence standards (including rules implementing title II) that the Board or the Commission determines—

(i) relate to the preparation or issuance of audit reports for issuers; and

(ii) are established or adopted by the Board under section 103(a), or are promulgated as rules of the Commission.

(11) PUBLIC ACCOUNTING FIRM.—The term "public accounting firm" means—

(A) a proprietorship, partnership, incorporated association, corporation, limited liability company, limited liability partnership, or other legal entity that is engaged in the practice of public accounting or preparing or issuing audit reports; and

(B) to the extent so designated by the rules of the Board, any associated person of any entity described in subparagraph (A).

(12) REGISTERED PUBLIC ACCOUNTING FIRM.—The term "registered public accounting firm" means a public accounting firm registered with the Board in accordance with this Act.

(13) RULES OF THE BOARD.—The term "rules of the Board" means the bylaws and rules of the Board (as submitted to, and approved, modified, or amended by the Commission, in accordance with section 107), and those stated policies, practices, and interpretations of the Board that the Commission, by rule, may deem to be rules of the Board, as necessary or appropriate in the public interest or for the protection of investors.

(14) SECURITY.—The term "security" has the same meaning as in section 3(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)).

(15) SECURITIES LAWS.—The term “securities laws” means the provisions of law referred to in section 3(a)(47) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(47)), as amended by this Act, and includes the rules, regulations, and orders issued by the Commission thereunder.

(16) STATE.—The term “State” means any State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, or any other territory or possession of the United States.

(b) CONFORMING AMENDMENT.—Section 3(a)(47) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(47)) is amended by inserting “the Sarbanes-Oxley Act of 2002,” before “the Public”.

SEC. 3. COMMISSION RULES AND ENFORCEMENT. 15 USC 7202.

(a) REGULATORY ACTION.—The Commission shall promulgate such rules and regulations, as may be necessary or appropriate in the public interest or for the protection of investors, and in furtherance of this Act.

(b) ENFORCEMENT.—

(1) IN GENERAL.—A violation by any person of this Act, any rule or regulation of the Commission issued under this Act, or any rule of the Board shall be treated for all purposes in the same manner as a violation of the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.) or the rules and regulations issued thereunder, consistent with the provisions of this Act, and any such person shall be subject to the same penalties, and to the same extent, as for a violation of that Act or such rules or regulations.

(2) INVESTIGATIONS, INJUNCTIONS, AND PROSECUTION OF OFFENSES.—Section 21 of the Securities Exchange Act of 1934 (15 U.S.C. 78u) is amended—

(A) in subsection (a)(1), by inserting “the rules of the Public Company Accounting Oversight Board, of which such person is a registered public accounting firm or a person associated with such a firm,” after “is a participant,”;

(B) in subsection (d)(1), by inserting “the rules of the Public Company Accounting Oversight Board, of which such person is a registered public accounting firm or a person associated with such a firm,” after “is a participant,”;

(C) in subsection (e), by inserting “the rules of the Public Company Accounting Oversight Board, of which such person is a registered public accounting firm or a person associated with such a firm,” after “is a participant,”; and

(D) in subsection (f), by inserting “or the Public Company Accounting Oversight Board” after “self-regulatory organization” each place that term appears.

(3) CEASE-AND-DESIST PROCEEDINGS.—Section 21C(c)(2) of the Securities Exchange Act of 1934 (15 U.S.C. 78u–3(c)(2)) is amended by inserting “registered public accounting firm (as defined in section 2 of the Sarbanes-Oxley Act of 2002),” after “government securities dealer,”.

(4) ENFORCEMENT BY FEDERAL BANKING AGENCIES.—Section 12(i) of the Securities Exchange Act of 1934 (15 U.S.C. 78l(i)) is amended by—

(A) striking “sections 12,” each place it appears and inserting “sections 10A(m), 12,”; and

(B) striking "and 16," each place it appears and inserting "and 16 of this Act, and sections 302, 303, 304, 306, 401(b), 404, 406, and 407 of the Sarbanes-Oxley Act of 2002,".

(c) EFFECT ON COMMISSION AUTHORITY.—Nothing in this Act or the rules of the Board shall be construed to impair or limit—

(1) the authority of the Commission to regulate the accounting profession, accounting firms, or persons associated with such firms for purposes of enforcement of the securities laws;

(2) the authority of the Commission to set standards for accounting or auditing practices or auditor independence, derived from other provisions of the securities laws or the rules or regulations thereunder, for purposes of the preparation and issuance of any audit report, or otherwise under applicable law; or

(3) the ability of the Commission to take, on the initiative of the Commission, legal, administrative, or disciplinary action against any registered public accounting firm or any associated person thereof.

TITLE I—PUBLIC COMPANY ACCOUNTING OVERSIGHT BOARD

15 USC 7211.

SEC. 101. ESTABLISHMENT; ADMINISTRATIVE PROVISIONS.

(a) ESTABLISHMENT OF BOARD.—There is established the Public Company Accounting Oversight Board, to oversee the audit of public companies that are subject to the securities laws, and related matters, in order to protect the interests of investors and further the public interest in the preparation of informative, accurate, and independent audit reports for companies the securities of which are sold to, and held by and for, public investors. The Board shall be a body corporate, operate as a nonprofit corporation, and have succession until dissolved by an Act of Congress.

(b) STATUS.—The Board shall not be an agency or establishment of the United States Government, and, except as otherwise provided in this Act, shall be subject to, and have all the powers conferred upon a nonprofit corporation by, the District of Columbia Nonprofit Corporation Act. No member or person employed by, or agent for, the Board shall be deemed to be an officer or employee of or agent for the Federal Government by reason of such service.

(c) DUTIES OF THE BOARD.—The Board shall, subject to action by the Commission under section 107, and once a determination is made by the Commission under subsection (d) of this section—

(1) register public accounting firms that prepare audit reports for issuers, in accordance with section 102;

(2) establish or adopt, or both, by rule, auditing, quality control, ethics, independence, and other standards relating to the preparation of audit reports for issuers, in accordance with section 103;

(3) conduct inspections of registered public accounting firms, in accordance with section 104 and the rules of the Board;

(4) conduct investigations and disciplinary proceedings concerning, and impose appropriate sanctions where justified upon,

registered public accounting firms and associated persons of such firms, in accordance with section 105;

(5) perform such other duties or functions as the Board (or the Commission, by rule or order) determines are necessary or appropriate to promote high professional standards among, and improve the quality of audit services offered by, registered public accounting firms and associated persons thereof, or otherwise to carry out this Act, in order to protect investors, or to further the public interest;

(6) enforce compliance with this Act, the rules of the Board, professional standards, and the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, by registered public accounting firms and associated persons thereof; and

(7) set the budget and manage the operations of the Board and the staff of the Board.

(d) COMMISSION DETERMINATION.—The members of the Board shall take such action (including hiring of staff, proposal of rules, and adoption of initial and transitional auditing and other professional standards) as may be necessary or appropriate to enable the Commission to determine, not later than 270 days after the date of enactment of this Act, that the Board is so organized and has the capacity to carry out the requirements of this title, and to enforce compliance with this title by registered public accounting firms and associated persons thereof. The Commission shall be responsible, prior to the appointment of the Board, for the planning for the establishment and administrative transition to the Board's operation.

(e) BOARD MEMBERSHIP.—

(1) COMPOSITION.—The Board shall have 5 members, appointed from among prominent individuals of integrity and reputation who have a demonstrated commitment to the interests of investors and the public, and an understanding of the responsibilities for and nature of the financial disclosures required of issuers under the securities laws and the obligations of accountants with respect to the preparation and issuance of audit reports with respect to such disclosures.

(2) LIMITATION.—Two members, and only 2 members, of the Board shall be or have been certified public accountants pursuant to the laws of 1 or more States, provided that, if 1 of those 2 members is the chairperson, he or she may not have been a practicing certified public accountant for at least 5 years prior to his or her appointment to the Board.

(3) FULL-TIME INDEPENDENT SERVICE.—Each member of the Board shall serve on a full-time basis, and may not, concurrent with service on the Board, be employed by any other person or engage in any other professional or business activity. No member of the Board may share in any of the profits of, or receive payments from, a public accounting firm (or any other person, as determined by rule of the Commission), other than fixed continuing payments, subject to such conditions as the Commission may impose, under standard arrangements for the retirement of members of public accounting firms.

(4) APPOINTMENT OF BOARD MEMBERS.—

(A) INITIAL BOARD.—Not later than 90 days after the date of enactment of this Act, the Commission, after consultation with the Chairman of the Board of Governors Deadline.

of the Federal Reserve System and the Secretary of the Treasury, shall appoint the chairperson and other initial members of the Board, and shall designate a term of service for each.

(B) VACANCIES.—A vacancy on the Board shall not affect the powers of the Board, but shall be filled in the same manner as provided for appointments under this section.

(5) TERM OF SERVICE.—

(A) IN GENERAL.—The term of service of each Board member shall be 5 years, and until a successor is appointed, except that—

(i) the terms of office of the initial Board members (other than the chairperson) shall expire in annual increments, 1 on each of the first 4 anniversaries of the initial date of appointment; and

(ii) any Board member appointed to fill a vacancy occurring before the expiration of the term for which the predecessor was appointed shall be appointed only for the remainder of that term.

(B) TERM LIMITATION.—No person may serve as a member of the Board, or as chairperson of the Board, for more than 2 terms, whether or not such terms of service are consecutive.

(6) REMOVAL FROM OFFICE.—A member of the Board may be removed by the Commission from office, in accordance with section 107(d)(3), for good cause shown before the expiration of the term of that member.

(f) POWERS OF THE BOARD.—In addition to any authority granted to the Board otherwise in this Act, the Board shall have the power, subject to section 107—

(1) to sue and be sued, complain and defend, in its corporate name and through its own counsel, with the approval of the Commission, in any Federal, State, or other court;

(2) to conduct its operations and maintain offices, and to exercise all other rights and powers authorized by this Act, in any State, without regard to any qualification, licensing, or other provision of law in effect in such State (or a political subdivision thereof);

(3) to lease, purchase, accept gifts or donations of or otherwise acquire, improve, use, sell, exchange, or convey, all of or an interest in any property, wherever situated;

(4) to appoint such employees, accountants, attorneys, and other agents as may be necessary or appropriate, and to determine their qualifications, define their duties, and fix their salaries or other compensation (at a level that is comparable to private sector self-regulatory, accounting, technical, supervisory, or other staff or management positions);

(5) to allocate, assess, and collect accounting support fees established pursuant to section 109, for the Board, and other fees and charges imposed under this title; and

Contracts.

(6) to enter into contracts, execute instruments, incur liabilities, and do any and all other acts and things necessary, appropriate, or incidental to the conduct of its operations and the exercise of its obligations, rights, and powers imposed or granted by this title.

(g) RULES OF THE BOARD.—The rules of the Board shall, subject to the approval of the Commission—

(1) provide for the operation and administration of the Board, the exercise of its authority, and the performance of its responsibilities under this Act;

(2) permit, as the Board determines necessary or appropriate, delegation by the Board of any of its functions to an individual member or employee of the Board, or to a division of the Board, including functions with respect to hearing, determining, ordering, certifying, reporting, or otherwise acting as to any matter, except that—

(A) the Board shall retain a discretionary right to review any action pursuant to any such delegated function, upon its own motion;

(B) a person shall be entitled to a review by the Board with respect to any matter so delegated, and the decision of the Board upon such review shall be deemed to be the action of the Board for all purposes (including appeal or review thereof); and

(C) if the right to exercise a review described in subparagraph (A) is declined, or if no such review is sought within the time stated in the rules of the Board, then the action taken by the holder of such delegation shall for all purposes, including appeal or review thereof, be deemed to be the action of the Board;

(3) establish ethics rules and standards of conduct for Board members and staff, including a bar on practice before the Board (and the Commission, with respect to Board-related matters) of 1 year for former members of the Board, and appropriate periods (not to exceed 1 year) for former staff of the Board; and

(4) provide as otherwise required by this Act.

(h) ANNUAL REPORT TO THE COMMISSION.—The Board shall submit an annual report (including its audited financial statements) to the Commission, and the Commission shall transmit a copy of that report to the Committee on Banking, Housing, and Urban Affairs of the Senate, and the Committee on Financial Services of the House of Representatives, not later than 30 days after the date of receipt of that report by the Commission. Deadline.

SEC. 102. REGISTRATION WITH THE BOARD. 15 USC 7212.

(a) MANDATORY REGISTRATION.—Beginning 180 days after the date of the determination of the Commission under section 101(d), it shall be unlawful for any person that is not a registered public accounting firm to prepare or issue, or to participate in the preparation or issuance of, any audit report with respect to any issuer.

(b) APPLICATIONS FOR REGISTRATION.—

(1) FORM OF APPLICATION.—A public accounting firm shall use such form as the Board may prescribe, by rule, to apply for registration under this section.

(2) CONTENTS OF APPLICATIONS.—Each public accounting firm shall submit, as part of its application for registration, in such detail as the Board shall specify—

(A) the names of all issuers for which the firm prepared or issued audit reports during the immediately preceding calendar year, and for which the firm expects to prepare or issue audit reports during the current calendar year;

(B) the annual fees received by the firm from each such issuer for audit services, other accounting services, and non-audit services, respectively;

(C) such other current financial information for the most recently completed fiscal year of the firm as the Board may reasonably request;

(D) a statement of the quality control policies of the firm for its accounting and auditing practices;

(E) a list of all accountants associated with the firm who participate in or contribute to the preparation of audit reports, stating the license or certification number of each such person, as well as the State license numbers of the firm itself;

(F) information relating to criminal, civil, or administrative actions or disciplinary proceedings pending against the firm or any associated person of the firm in connection with any audit report;

(G) copies of any periodic or annual disclosure filed by an issuer with the Commission during the immediately preceding calendar year which discloses accounting disagreements between such issuer and the firm in connection with an audit report furnished or prepared by the firm for such issuer; and

(H) such other information as the rules of the Board or the Commission shall specify as necessary or appropriate in the public interest or for the protection of investors.

(3) CONSENTS.—Each application for registration under this subsection shall include—

(A) a consent executed by the public accounting firm to cooperation in and compliance with any request for testimony or the production of documents made by the Board in the furtherance of its authority and responsibilities under this title (and an agreement to secure and enforce similar consents from each of the associated persons of the public accounting firm as a condition of their continued employment by or other association with such firm); and

(B) a statement that such firm understands and agrees that cooperation and compliance, as described in the consent required by subparagraph (A), and the securing and enforcement of such consents from its associated persons, in accordance with the rules of the Board, shall be a condition to the continuing effectiveness of the registration of the firm with the Board.

(c) ACTION ON APPLICATIONS.—

Deadline.

(1) TIMING.—The Board shall approve a completed application for registration not later than 45 days after the date of receipt of the application, in accordance with the rules of the Board, unless the Board, prior to such date, issues a written notice of disapproval to, or requests more information from, the prospective registrant.

(2) TREATMENT.—A written notice of disapproval of a completed application under paragraph (1) for registration shall be treated as a disciplinary sanction for purposes of sections 105(d) and 107(c).

(d) PERIODIC REPORTS.—Each registered public accounting firm shall submit an annual report to the Board, and may be required to report more frequently, as necessary to update the information contained in its application for registration under this section, and to provide to the Board such additional information as the Board or the Commission may specify, in accordance with subsection (b)(2).

(e) PUBLIC AVAILABILITY.—Registration applications and annual reports required by this subsection, or such portions of such applications or reports as may be designated under rules of the Board, shall be made available for public inspection, subject to rules of the Board or the Commission, and to applicable laws relating to the confidentiality of proprietary, personal, or other information contained in such applications or reports, provided that, in all events, the Board shall protect from public disclosure information reasonably identified by the subject accounting firm as proprietary information.

(f) REGISTRATION AND ANNUAL FEES.—The Board shall assess and collect a registration fee and an annual fee from each registered public accounting firm, in amounts that are sufficient to recover the costs of processing and reviewing applications and annual reports.

SEC. 103. AUDITING, QUALITY CONTROL, AND INDEPENDENCE STANDARDS AND RULES. 15 USC 7213.

(a) AUDITING, QUALITY CONTROL, AND ETHICS STANDARDS.—

(1) IN GENERAL.—The Board shall, by rule, establish, including, to the extent it determines appropriate, through adoption of standards proposed by 1 or more professional groups of accountants designated pursuant to paragraph (3)(A) or advisory groups convened pursuant to paragraph (4), and amend or otherwise modify or alter, such auditing and related attestation standards, such quality control standards, and such ethics standards to be used by registered public accounting firms in the preparation and issuance of audit reports, as required by this Act or the rules of the Commission, or as may be necessary or appropriate in the public interest or for the protection of investors.

(2) RULE REQUIREMENTS.—In carrying out paragraph (1), the Board—

(A) shall include in the auditing standards that it adopts, requirements that each registered public accounting firm shall—

(i) prepare, and maintain for a period of not less than 7 years, audit work papers, and other information related to any audit report, in sufficient detail to support the conclusions reached in such report;

(ii) provide a concurring or second partner review and approval of such audit report (and other related information), and concurring approval in its issuance, by a qualified person (as prescribed by the Board) associated with the public accounting firm, other than the person in charge of the audit, or by an independent reviewer (as prescribed by the Board); and

(iii) describe in each audit report the scope of the auditor's testing of the internal control structure and procedures of the issuer, required by section 404(b), and present (in such report or in a separate report)—

(I) the findings of the auditor from such testing;

(II) an evaluation of whether such internal control structure and procedures—

(aa) include maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the issuer;

(bb) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the issuer are being made only in accordance with authorizations of management and directors of the issuer; and

(III) a description, at a minimum, of material weaknesses in such internal controls, and of any material noncompliance found on the basis of such testing.

(B) shall include, in the quality control standards that it adopts with respect to the issuance of audit reports, requirements for every registered public accounting firm relating to—

(i) monitoring of professional ethics and independence from issuers on behalf of which the firm issues audit reports;

(ii) consultation within such firm on accounting and auditing questions;

(iii) supervision of audit work;

(iv) hiring, professional development, and advancement of personnel;

(v) the acceptance and continuation of engagements;

(vi) internal inspection; and

(vii) such other requirements as the Board may prescribe, subject to subsection (a)(1).

(3) AUTHORITY TO ADOPT OTHER STANDARDS.—

(A) IN GENERAL.—In carrying out this subsection, the Board—

(i) may adopt as its rules, subject to the terms of section 107, any portion of any statement of auditing standards or other professional standards that the Board determines satisfy the requirements of paragraph (1), and that were proposed by 1 or more professional groups of accountants that shall be designated or recognized by the Board, by rule, for such purpose, pursuant to this paragraph or 1 or more advisory groups convened pursuant to paragraph (4); and

(ii) notwithstanding clause (i), shall retain full authority to modify, supplement, revise, or subsequently amend, modify, or repeal, in whole or in part, any portion of any statement described in clause (i).

(B) INITIAL AND TRANSITIONAL STANDARDS.—The Board shall adopt standards described in subparagraph (A)(i) as initial or transitional standards, to the extent the Board determines necessary, prior to a determination of the

Commission under section 101(d), and such standards shall be separately approved by the Commission at the time of that determination, without regard to the procedures required by section 107 that otherwise would apply to the approval of rules of the Board.

(4) ADVISORY GROUPS.—The Board shall convene, or authorize its staff to convene, such expert advisory groups as may be appropriate, which may include practicing accountants and other experts, as well as representatives of other interested groups, subject to such rules as the Board may prescribe to prevent conflicts of interest, to make recommendations concerning the content (including proposed drafts) of auditing, quality control, ethics, independence, or other standards required to be established under this section.

(b) INDEPENDENCE STANDARDS AND RULES.—The Board shall establish such rules as may be necessary or appropriate in the public interest or for the protection of investors, to implement, or as authorized under, title II of this Act.

(c) COOPERATION WITH DESIGNATED PROFESSIONAL GROUPS OF ACCOUNTANTS AND ADVISORY GROUPS.—

(1) IN GENERAL.—The Board shall cooperate on an ongoing basis with professional groups of accountants designated under subsection (a)(3)(A) and advisory groups convened under subsection (a)(4) in the examination of the need for changes in any standards subject to its authority under subsection (a), recommend issues for inclusion on the agendas of such designated professional groups of accountants or advisory groups, and take such other steps as it deems appropriate to increase the effectiveness of the standard setting process.

(2) BOARD RESPONSES.—The Board shall respond in a timely fashion to requests from designated professional groups of accountants and advisory groups referred to in paragraph (1) for any changes in standards over which the Board has authority.

(d) EVALUATION OF STANDARD SETTING PROCESS.—The Board shall include in the annual report required by section 101(h) the results of its standard setting responsibilities during the period to which the report relates, including a discussion of the work of the Board with any designated professional groups of accountants and advisory groups described in paragraphs (3)(A) and (4) of subsection (a), and its pending issues agenda for future standard setting projects.

SEC. 104. INSPECTIONS OF REGISTERED PUBLIC ACCOUNTING FIRMS. 15 USC 7214.

(a) IN GENERAL.—The Board shall conduct a continuing program of inspections to assess the degree of compliance of each registered public accounting firm and associated persons of that firm with this Act, the rules of the Board, the rules of the Commission, or professional standards, in connection with its performance of audits, issuance of audit reports, and related matters involving issuers.

(b) INSPECTION FREQUENCY.—

(1) IN GENERAL.—Subject to paragraph (2), inspections required by this section shall be conducted—

(A) annually with respect to each registered public accounting firm that regularly provides audit reports for more than 100 issuers; and

(B) not less frequently than once every 3 years with respect to each registered public accounting firm that regularly provides audit reports for 100 or fewer issuers.

(2) ADJUSTMENTS TO SCHEDULES.—The Board may, by rule, adjust the inspection schedules set under paragraph (1) if the Board finds that different inspection schedules are consistent with the purposes of this Act, the public interest, and the protection of investors. The Board may conduct special inspections at the request of the Commission or upon its own motion.

(c) PROCEDURES.—The Board shall, in each inspection under this section, and in accordance with its rules for such inspections—

(1) identify any act or practice or omission to act by the registered public accounting firm, or by any associated person thereof, revealed by such inspection that may be in violation of this Act, the rules of the Board, the rules of the Commission, the firm's own quality control policies, or professional standards;

(2) report any such act, practice, or omission, if appropriate, to the Commission and each appropriate State regulatory authority; and

(3) begin a formal investigation or take disciplinary action, if appropriate, with respect to any such violation, in accordance with this Act and the rules of the Board.

(d) CONDUCT OF INSPECTIONS.—In conducting an inspection of a registered public accounting firm under this section, the Board shall—

(1) inspect and review selected audit and review engagements of the firm (which may include audit engagements that are the subject of ongoing litigation or other controversy between the firm and 1 or more third parties), performed at various offices and by various associated persons of the firm, as selected by the Board;

(2) evaluate the sufficiency of the quality control system of the firm, and the manner of the documentation and communication of that system by the firm; and

(3) perform such other testing of the audit, supervisory, and quality control procedures of the firm as are necessary or appropriate in light of the purpose of the inspection and the responsibilities of the Board.

(e) RECORD RETENTION.—The rules of the Board may require the retention by registered public accounting firms for inspection purposes of records whose retention is not otherwise required by section 103 or the rules issued thereunder.

(f) PROCEDURES FOR REVIEW.—The rules of the Board shall provide a procedure for the review of and response to a draft inspection report by the registered public accounting firm under inspection. The Board shall take such action with respect to such response as it considers appropriate (including revising the draft report or continuing or supplementing its inspection activities before issuing a final report), but the text of any such response, appropriately redacted to protect information reasonably identified by the accounting firm as confidential, shall be attached to and made part of the inspection report.

(g) REPORT.—A written report of the findings of the Board for each inspection under this section, subject to subsection (h), shall be—

(1) transmitted, in appropriate detail, to the Commission and each appropriate State regulatory authority, accompanied by any letter or comments by the Board or the inspector, and any letter of response from the registered public accounting firm; and

(2) made available in appropriate detail to the public (subject to section 105(b)(5)(A), and to the protection of such confidential and proprietary information as the Board may determine to be appropriate, or as may be required by law), except that no portions of the inspection report that deal with criticisms of or potential defects in the quality control systems of the firm under inspection shall be made public if those criticisms or defects are addressed by the firm, to the satisfaction of the Board, not later than 12 months after the date of the inspection report.

(h) INTERIM COMMISSION REVIEW.—

(1) REVIEWABLE MATTERS.—A registered public accounting firm may seek review by the Commission, pursuant to such rules as the Commission shall promulgate, if the firm—

(A) has provided the Board with a response, pursuant to rules issued by the Board under subsection (f), to the substance of particular items in a draft inspection report, and disagrees with the assessments contained in any final report prepared by the Board following such response; or

(B) disagrees with the determination of the Board that criticisms or defects identified in an inspection report have not been addressed to the satisfaction of the Board within 12 months of the date of the inspection report, for purposes of subsection (g)(2).

(2) TREATMENT OF REVIEW.—Any decision of the Commission with respect to a review under paragraph (1) shall not be reviewable under section 25 of the Securities Exchange Act of 1934 (15 U.S.C. 78y), or deemed to be "final agency action" for purposes of section 704 of title 5, United States Code.

(3) TIMING.—Review under paragraph (1) may be sought during the 30-day period following the date of the event giving rise to the review under subparagraph (A) or (B) of paragraph (1).

SEC. 105. INVESTIGATIONS AND DISCIPLINARY PROCEEDINGS. 15 USC 7215.

Establishment.

(a) IN GENERAL.—The Board shall establish, by rule, subject to the requirements of this section, fair procedures for the investigation and disciplining of registered public accounting firms and associated persons of such firms.

(b) INVESTIGATIONS.—

(1) AUTHORITY.—In accordance with the rules of the Board, the Board may conduct an investigation of any act or practice, or omission to act, by a registered public accounting firm, any associated person of such firm, or both, that may violate any provision of this Act, the rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under this Act, or professional standards, regardless of how the act, practice, or omission is brought to the attention of the Board.

(2) TESTIMONY AND DOCUMENT PRODUCTION.—In addition to such other actions as the Board determines to be necessary or appropriate, the rules of the Board may—

(A) require the testimony of the firm or of any person associated with a registered public accounting firm, with respect to any matter that the Board considers relevant or material to an investigation;

(B) require the production of audit work papers and any other document or information in the possession of a registered public accounting firm or any associated person thereof, wherever domiciled, that the Board considers relevant or material to the investigation, and may inspect the books and records of such firm or associated person to verify the accuracy of any documents or information supplied;

(C) request the testimony of, and production of any document in the possession of, any other person, including any client of a registered public accounting firm that the Board considers relevant or material to an investigation under this section, with appropriate notice, subject to the needs of the investigation, as permitted under the rules of the Board; and

(D) provide for procedures to seek issuance by the Commission, in a manner established by the Commission, of a subpoena to require the testimony of, and production of any document in the possession of, any person, including any client of a registered public accounting firm, that the Board considers relevant or material to an investigation under this section.

(3) NONCOOPERATION WITH INVESTIGATIONS.—

(A) IN GENERAL.—If a registered public accounting firm or any associated person thereof refuses to testify, produce documents, or otherwise cooperate with the Board in connection with an investigation under this section, the Board may—

(i) suspend or bar such person from being associated with a registered public accounting firm, or require the registered public accounting firm to end such association;

(ii) suspend or revoke the registration of the public accounting firm; and

(iii) invoke such other lesser sanctions as the Board considers appropriate, and as specified by rule of the Board.

(B) PROCEDURE.—Any action taken by the Board under this paragraph shall be subject to the terms of section 107(c).

(4) COORDINATION AND REFERRAL OF INVESTIGATIONS.—

Notification.

(A) COORDINATION.—The Board shall notify the Commission of any pending Board investigation involving a potential violation of the securities laws, and thereafter coordinate its work with the work of the Commission's Division of Enforcement, as necessary to protect an ongoing Commission investigation.

(B) REFERRAL.—The Board may refer an investigation under this section—

(i) to the Commission;

(ii) to any other Federal functional regulator (as defined in section 509 of the Gramm-Leach-Bliley Act (15 U.S.C. 6809)), in the case of an investigation that concerns an audit report for an institution that is subject to the jurisdiction of such regulator; and

(iii) at the direction of the Commission, to—

(I) the Attorney General of the United States;

(II) the attorney general of 1 or more States; and

(III) the appropriate State regulatory authority.

(5) USE OF DOCUMENTS.—

(A) CONFIDENTIALITY.—Except as provided in subparagraph (B), all documents and information prepared or received by or specifically for the Board, and deliberations of the Board and its employees and agents, in connection with an inspection under section 104 or with an investigation under this section, shall be confidential and privileged as an evidentiary matter (and shall not be subject to civil discovery or other legal process) in any proceeding in any Federal or State court or administrative agency, and shall be exempt from disclosure, in the hands of an agency or establishment of the Federal Government, under the Freedom of Information Act (5 U.S.C. 552a), or otherwise, unless and until presented in connection with a public proceeding or released in accordance with subsection (c).

(B) AVAILABILITY TO GOVERNMENT AGENCIES.—Without the loss of its status as confidential and privileged in the hands of the Board, all information referred to in subparagraph (A) may—

(i) be made available to the Commission; and

(ii) in the discretion of the Board, when determined by the Board to be necessary to accomplish the purposes of this Act or to protect investors, be made available to—

(I) the Attorney General of the United States;

(II) the appropriate Federal functional regulator (as defined in section 509 of the Gramm-Leach-Bliley Act (15 U.S.C. 6809)), other than the Commission, with respect to an audit report for an institution subject to the jurisdiction of such regulator;

(III) State attorneys general in connection with any criminal investigation; and

(IV) any appropriate State regulatory authority,

each of which shall maintain such information as confidential and privileged.

(6) IMMUNITY.—Any employee of the Board engaged in carrying out an investigation under this Act shall be immune from any civil liability arising out of such investigation in the same manner and to the same extent as an employee of the Federal Government in similar circumstances.

(c) DISCIPLINARY PROCEDURES.—

(1) NOTIFICATION; RECORDKEEPING.—The rules of the Board shall provide that in any proceeding by the Board to determine

whether a registered public accounting firm, or an associated person thereof, should be disciplined, the Board shall—

(A) bring specific charges with respect to the firm or associated person;

(B) notify such firm or associated person of, and provide to the firm or associated person an opportunity to defend against, such charges; and

(C) keep a record of the proceedings.

(2) PUBLIC HEARINGS.—Hearings under this section shall not be public, unless otherwise ordered by the Board for good cause shown, with the consent of the parties to such hearing.

(3) SUPPORTING STATEMENT.—A determination by the Board to impose a sanction under this subsection shall be supported by a statement setting forth—

(A) each act or practice in which the registered public accounting firm, or associated person, has engaged (or omitted to engage), or that forms a basis for all or a part of such sanction;

(B) the specific provision of this Act, the securities laws, the rules of the Board, or professional standards which the Board determines has been violated; and

(C) the sanction imposed, including a justification for that sanction.

(4) SANCTIONS.—If the Board finds, based on all of the facts and circumstances, that a registered public accounting firm or associated person thereof has engaged in any act or practice, or omitted to act, in violation of this Act, the rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under this Act, or professional standards, the Board may impose such disciplinary or remedial sanctions as it determines appropriate, subject to applicable limitations under paragraph (5), including—

(A) temporary suspension or permanent revocation of registration under this title;

(B) temporary or permanent suspension or bar of a person from further association with any registered public accounting firm;

(C) temporary or permanent limitation on the activities, functions, or operations of such firm or person (other than in connection with required additional professional education or training);

(D) a civil money penalty for each such violation, in an amount equal to—

(i) not more than $100,000 for a natural person or $2,000,000 for any other person; and

(ii) in any case to which paragraph (5) applies, not more than $750,000 for a natural person or $15,000,000 for any other person;

(E) censure;

(F) required additional professional education or training; or

(G) any other appropriate sanction provided for in the rules of the Board.

(5) INTENTIONAL OR OTHER KNOWING CONDUCT.—The sanctions and penalties described in subparagraphs (A) through (C) and (D)(ii) of paragraph (4) shall only apply to—

(A) intentional or knowing conduct, including reckless conduct, that results in violation of the applicable statutory, regulatory, or professional standard; or

(B) repeated instances of negligent conduct, each resulting in a violation of the applicable statutory, regulatory, or professional standard.

(6) FAILURE TO SUPERVISE.—

(A) IN GENERAL.—The Board may impose sanctions under this section on a registered accounting firm or upon the supervisory personnel of such firm, if the Board finds that—

(i) the firm has failed reasonably to supervise an associated person, either as required by the rules of the Board relating to auditing or quality control standards, or otherwise, with a view to preventing violations of this Act, the rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission under this Act, or professional standards; and

(ii) such associated person commits a violation of this Act, or any of such rules, laws, or standards.

(B) RULE OF CONSTRUCTION.—No associated person of a registered public accounting firm shall be deemed to have failed reasonably to supervise any other person for purposes of subparagraph (A), if—

(i) there have been established in and for that firm procedures, and a system for applying such procedures, that comply with applicable rules of the Board and that would reasonably be expected to prevent and detect any such violation by such associated person; and

(ii) such person has reasonably discharged the duties and obligations incumbent upon that person by reason of such procedures and system, and had no reasonable cause to believe that such procedures and system were not being complied with.

(7) EFFECT OF SUSPENSION.—

(A) ASSOCIATION WITH A PUBLIC ACCOUNTING FIRM.—It shall be unlawful for any person that is suspended or barred from being associated with a registered public accounting firm under this subsection willfully to become or remain associated with any registered public accounting firm, or for any registered public accounting firm that knew, or, in the exercise of reasonable care should have known, of the suspension or bar, to permit such an association, without the consent of the Board or the Commission.

(B) ASSOCIATION WITH AN ISSUER.—It shall be unlawful for any person that is suspended or barred from being associated with an issuer under this subsection willfully to become or remain associated with any issuer in an accountancy or a financial management capacity, and for any issuer that knew, or in the exercise of reasonable care should have known, of such suspension or bar, to permit such an association, without the consent of the Board or the Commission.

(d) REPORTING OF SANCTIONS.—

(1) RECIPIENTS.—If the Board imposes a disciplinary sanction, in accordance with this section, the Board shall report the sanction to—

(A) the Commission;

(B) any appropriate State regulatory authority or any foreign accountancy licensing board with which such firm or person is licensed or certified; and

(C) the public (once any stay on the imposition of such sanction has been lifted).

(2) CONTENTS.—The information reported under paragraph (1) shall include—

(A) the name of the sanctioned person;

(B) a description of the sanction and the basis for its imposition; and

(C) such other information as the Board deems appropriate.

(e) STAY OF SANCTIONS.—

(1) IN GENERAL.—Application to the Commission for review, or the institution by the Commission of review, of any disciplinary action of the Board shall operate as a stay of any such disciplinary action, unless and until the Commission orders (summarily or after notice and opportunity for hearing on the question of a stay, which hearing may consist solely of the submission of affidavits or presentation of oral arguments) that no such stay shall continue to operate.

(2) EXPEDITED PROCEDURES.—The Commission shall establish for appropriate cases an expedited procedure for consideration and determination of the question of the duration of a stay pending review of any disciplinary action of the Board under this subsection.

15 USC 7216.

SEC. 106. FOREIGN PUBLIC ACCOUNTING FIRMS.

(a) APPLICABILITY TO CERTAIN FOREIGN FIRMS.—

(1) IN GENERAL.—Any foreign public accounting firm that prepares or furnishes an audit report with respect to any issuer, shall be subject to this Act and the rules of the Board and the Commission issued under this Act, in the same manner and to the same extent as a public accounting firm that is organized and operates under the laws of the United States or any State, except that registration pursuant to section 102 shall not by itself provide a basis for subjecting such a foreign public accounting firm to the jurisdiction of the Federal or State courts, other than with respect to controversies between such firms and the Board.

(2) BOARD AUTHORITY.—The Board may, by rule, determine that a foreign public accounting firm (or a class of such firms) that does not issue audit reports nonetheless plays such a substantial role in the preparation and furnishing of such reports for particular issuers, that it is necessary or appropriate, in light of the purposes of this Act and in the public interest or for the protection of investors, that such firm (or class of firms) should be treated as a public accounting firm

(or firms) for purposes of registration under, and oversight by the Board in accordance with, this title.

(b) PRODUCTION OF AUDIT WORKPAPERS.—

(1) CONSENT BY FOREIGN FIRMS.—If a foreign public accounting firm issues an opinion or otherwise performs material services upon which a registered public accounting firm relies in issuing all or part of any audit report or any opinion contained in an audit report, that foreign public accounting firm shall be deemed to have consented—

(A) to produce its audit workpapers for the Board or the Commission in connection with any investigation by either body with respect to that audit report; and

(B) to be subject to the jurisdiction of the courts of the United States for purposes of enforcement of any request for production of such workpapers.

(2) CONSENT BY DOMESTIC FIRMS.—A registered public accounting firm that relies upon the opinion of a foreign public accounting firm, as described in paragraph (1), shall be deemed—

(A) to have consented to supplying the audit workpapers of that foreign public accounting firm in response to a request for production by the Board or the Commission; and

(B) to have secured the agreement of that foreign public accounting firm to such production, as a condition of its reliance on the opinion of that foreign public accounting firm.

(c) EXEMPTION AUTHORITY.—The Commission, and the Board, subject to the approval of the Commission, may, by rule, regulation, or order, and as the Commission (or Board) determines necessary or appropriate in the public interest or for the protection of investors, either unconditionally or upon specified terms and conditions exempt any foreign public accounting firm, or any class of such firms, from any provision of this Act or the rules of the Board or the Commission issued under this Act.

(d) DEFINITION.—In this section, the term "foreign public accounting firm" means a public accounting firm that is organized and operates under the laws of a foreign government or political subdivision thereof.

SEC. 107. COMMISSION OVERSIGHT OF THE BOARD. 15 USC 7217.

(a) GENERAL OVERSIGHT RESPONSIBILITY.—The Commission shall have oversight and enforcement authority over the Board, as provided in this Act. The provisions of section 17(a)(1) of the Securities Exchange Act of 1934 (15 U.S.C. 78q(a)(1)), and of section 17(b)(1) of the Securities Exchange Act of 1934 (15 U.S.C. 78q(b)(1)) shall apply to the Board as fully as if the Board were a "registered securities association" for purposes of those sections 17(a)(1) and 17(b)(1).

(b) RULES OF THE BOARD.—

(1) DEFINITION.—In this section, the term "proposed rule" means any proposed rule of the Board, and any modification of any such rule.

(2) PRIOR APPROVAL REQUIRED.—No rule of the Board shall become effective without prior approval of the Commission in accordance with this section, other than as provided in section 103(a)(3)(B) with respect to initial or transitional standards.

(3) APPROVAL CRITERIA.—The Commission shall approve a proposed rule, if it finds that the rule is consistent with the requirements of this Act and the securities laws, or is necessary or appropriate in the public interest or for the protection of investors.

(4) PROPOSED RULE PROCEDURES.—The provisions of paragraphs (1) through (3) of section 19(b) of the Securities Exchange Act of 1934 (15 U.S.C. 78s(b)) shall govern the proposed rules of the Board, as fully as if the Board were a "registered securities association" for purposes of that section 19(b), except that, for purposes of this paragraph—

(A) the phrase "consistent with the requirements of this title and the rules and regulations thereunder applicable to such organization" in section 19(b)(2) of that Act shall be deemed to read "consistent with the requirements of title I of the Sarbanes-Oxley Act of 2002, and the rules and regulations issued thereunder applicable to such organization, or as necessary or appropriate in the public interest or for the protection of investors"; and

(B) the phrase "otherwise in furtherance of the purposes of this title" in section 19(b)(3)(C) of that Act shall be deemed to read "otherwise in furtherance of the purposes of title I of the Sarbanes-Oxley Act of 2002".

(5) COMMISSION AUTHORITY TO AMEND RULES OF THE BOARD.—The provisions of section 19(c) of the Securities Exchange Act of 1934 (15 U.S.C. 78s(c)) shall govern the abrogation, deletion, or addition to portions of the rules of the Board by the Commission as fully as if the Board were a "registered securities association" for purposes of that section 19(c), except that the phrase "to conform its rules to the requirements of this title and the rules and regulations thereunder applicable to such organization, or otherwise in furtherance of the purposes of this title" in section 19(c) of that Act shall, for purposes of this paragraph, be deemed to read "to assure the fair administration of the Public Company Accounting Oversight Board, conform the rules promulgated by that Board to the requirements of title I of the Sarbanes-Oxley Act of 2002, or otherwise further the purposes of that Act, the securities laws, and the rules and regulations thereunder applicable to that Board".

(c) COMMISSION REVIEW OF DISCIPLINARY ACTION TAKEN BY THE BOARD.—

(1) NOTICE OF SANCTION.—The Board shall promptly file notice with the Commission of any final sanction on any registered public accounting firm or on any associated person thereof, in such form and containing such information as the Commission, by rule, may prescribe.

(2) REVIEW OF SANCTIONS.—The provisions of sections 19(d)(2) and 19(e)(1) of the Securities Exchange Act of 1934 (15 U.S.C. 78s (d)(2) and (e)(1)) shall govern the review by the Commission of final disciplinary sanctions imposed by the Board (including sanctions imposed under section 105(b)(3) of this Act for noncooperation in an investigation of the Board), as fully as if the Board were a self-regulatory organization and the Commission were the appropriate regulatory agency for such organization for purposes of those sections 19(d)(2) and 19(e)(1), except that, for purposes of this paragraph—

(A) section 105(e) of this Act (rather than that section 19(d)(2)) shall govern the extent to which application for, or institution by the Commission on its own motion of, review of any disciplinary action of the Board operates as a stay of such action;

(B) references in that section 19(e)(1) to "members" of such an organization shall be deemed to be references to registered public accounting firms;

(C) the phrase "consistent with the purposes of this title" in that section 19(e)(1) shall be deemed to read "consistent with the purposes of this title and title I of the Sarbanes-Oxley Act of 2002";

(D) references to rules of the Municipal Securities Rulemaking Board in that section 19(e)(1) shall not apply; and

(E) the reference to section 19(e)(2) of the Securities Exchange Act of 1934 shall refer instead to section 107(c)(3) of this Act.

(3) COMMISSION MODIFICATION AUTHORITY.—The Commission may enhance, modify, cancel, reduce, or require the remission of a sanction imposed by the Board upon a registered public accounting firm or associated person thereof, if the Commission, having due regard for the public interest and the protection of investors, finds, after a proceeding in accordance with this subsection, that the sanction—

(A) is not necessary or appropriate in furtherance of this Act or the securities laws; or

(B) is excessive, oppressive, inadequate, or otherwise not appropriate to the finding or the basis on which the sanction was imposed.

(d) CENSURE OF THE BOARD; OTHER SANCTIONS.—

(1) RESCISSION OF BOARD AUTHORITY.—The Commission, by rule, consistent with the public interest, the protection of investors, and the other purposes of this Act and the securities laws, may relieve the Board of any responsibility to enforce compliance with any provision of this Act, the securities laws, the rules of the Board, or professional standards.

(2) CENSURE OF THE BOARD; LIMITATIONS.—The Commission may, by order, as it determines necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of this Act or the securities laws, censure or impose limitations upon the activities, functions, and operations of the Board, if the Commission finds, on the record, after notice and opportunity for a hearing, that the Board—

(A) has violated or is unable to comply with any provision of this Act, the rules of the Board, or the securities laws; or

(B) without reasonable justification or excuse, has failed to enforce compliance with any such provision or rule, or any professional standard by a registered public accounting firm or an associated person thereof.

(3) CENSURE OF BOARD MEMBERS; REMOVAL FROM OFFICE.—The Commission may, as necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of this Act or the securities laws, remove

from office or censure any member of the Board, if the Commission finds, on the record, after notice and opportunity for a hearing, that such member—

(A) has willfully violated any provision of this Act, the rules of the Board, or the securities laws;

(B) has willfully abused the authority of that member; or

(C) without reasonable justification or excuse, has failed to enforce compliance with any such provision or rule, or any professional standard by any registered public accounting firm or any associated person thereof.

15 USC 7218.

SEC. 108. ACCOUNTING STANDARDS.

(a) AMENDMENT TO SECURITIES ACT OF 1933.—Section 19 of the Securities Act of 1933 (15 U.S.C. 77s) is amended—

(1) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively; and

(2) by inserting after subsection (a) the following:

"(b) RECOGNITION OF ACCOUNTING STANDARDS.—

"(1) IN GENERAL.—In carrying out its authority under subsection (a) and under section 13(b) of the Securities Exchange Act of 1934, the Commission may recognize, as 'generally accepted' for purposes of the securities laws, any accounting principles established by a standard setting body—

"(A) that—

"(i) is organized as a private entity;

"(ii) has, for administrative and operational purposes, a board of trustees (or equivalent body) serving in the public interest, the majority of whom are not, concurrent with their service on such board, and have not been during the 2-year period preceding such service, associated persons of any registered public accounting firm;

"(iii) is funded as provided in section 109 of the Sarbanes-Oxley Act of 2002;

"(iv) has adopted procedures to ensure prompt consideration, by majority vote of its members, of changes to accounting principles necessary to reflect emerging accounting issues and changing business practices; and

"(v) considers, in adopting accounting principles, the need to keep standards current in order to reflect changes in the business environment, the extent to which international convergence on high quality accounting standards is necessary or appropriate in the public interest and for the protection of investors; and

"(B) that the Commission determines has the capacity to assist the Commission in fulfilling the requirements of subsection (a) and section 13(b) of the Securities Exchange Act of 1934, because, at a minimum, the standard setting body is capable of improving the accuracy and effectiveness of financial reporting and the protection of investors under the securities laws.

"(2) ANNUAL REPORT.—A standard setting body described in paragraph (1) shall submit an annual report to the Commission and the public, containing audited financial statements of that standard setting body.".

(b) COMMISSION AUTHORITY.—The Commission shall promulgate such rules and regulations to carry out section 19(b) of the Securities Act of 1933, as added by this section, as it deems necessary or appropriate in the public interest or for the protection of investors. Regulations.

(c) NO EFFECT ON COMMISSION POWERS.—Nothing in this Act, including this section and the amendment made by this section, shall be construed to impair or limit the authority of the Commission to establish accounting principles or standards for purposes of enforcement of the securities laws.

(d) STUDY AND REPORT ON ADOPTING PRINCIPLES-BASED ACCOUNTING.—

(1) STUDY.—

(A) IN GENERAL.—The Commission shall conduct a study on the adoption by the United States financial reporting system of a principles-based accounting system.

(B) STUDY TOPICS.—The study required by subparagraph (A) shall include an examination of—

(i) the extent to which principles-based accounting and financial reporting exists in the United States;

(ii) the length of time required for change from a rules-based to a principles-based financial reporting system;

(iii) the feasibility of and proposed methods by which a principles-based system may be implemented; and

(iv) a thorough economic analysis of the implementation of a principles-based system.

(2) REPORT.—Not later than 1 year after the date of enactment of this Act, the Commission shall submit a report on the results of the study required by paragraph (1) to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives.

SEC. 109. FUNDING. 15 USC 7219.

(a) IN GENERAL.—The Board, and the standard setting body designated pursuant to section 19(b) of the Securities Act of 1933, as amended by section 108, shall be funded as provided in this section.

(b) ANNUAL BUDGETS.—The Board and the standard setting body referred to in subsection (a) shall each establish a budget for each fiscal year, which shall be reviewed and approved according to their respective internal procedures not less than 1 month prior to the commencement of the fiscal year to which the budget pertains (or at the beginning of the Board's first fiscal year, which may be a short fiscal year). The budget of the Board shall be subject to approval by the Commission. The budget for the first fiscal year of the Board shall be prepared and approved promptly following the appointment of the initial five Board members, to permit action by the Board of the organizational tasks contemplated by section 101(d).

(c) SOURCES AND USES OF FUNDS.—

(1) RECOVERABLE BUDGET EXPENSES.—The budget of the Board (reduced by any registration or annual fees received under section 102(e) for the year preceding the year for which the budget is being computed), and all of the budget of the standard setting body referred to in subsection (a), for each fiscal year of each of those 2 entities, shall be payable from annual accounting support fees, in accordance with subsections (d) and (e). Accounting support fees and other receipts of the Board and of such standard-setting body shall not be considered public monies of the United States.

(2) FUNDS GENERATED FROM THE COLLECTION OF MONETARY PENALTIES.—Subject to the availability in advance in an appropriations Act, and notwithstanding subsection (i), all funds collected by the Board as a result of the assessment of monetary penalties shall be used to fund a merit scholarship program for undergraduate and graduate students enrolled in accredited accounting degree programs, which program is to be administered by the Board or by an entity or agent identified by the Board.

(d) ANNUAL ACCOUNTING SUPPORT FEE FOR THE BOARD.—

(1) ESTABLISHMENT OF FEE.—The Board shall establish, with the approval of the Commission, a reasonable annual accounting support fee (or a formula for the computation thereof), as may be necessary or appropriate to establish and maintain the Board. Such fee may also cover costs incurred in the Board's first fiscal year (which may be a short fiscal year), or may be levied separately with respect to such short fiscal year.

(2) ASSESSMENTS.—The rules of the Board under paragraph (1) shall provide for the equitable allocation, assessment, and collection by the Board (or an agent appointed by the Board) of the fee established under paragraph (1), among issuers, in accordance with subsection (g), allowing for differentiation among classes of issuers, as appropriate.

(e) ANNUAL ACCOUNTING SUPPORT FEE FOR STANDARD SETTING BODY.—The annual accounting support fee for the standard setting body referred to in subsection (a)—

(1) shall be allocated in accordance with subsection (g), and assessed and collected against each issuer, on behalf of the standard setting body, by 1 or more appropriate designated collection agents, as may be necessary or appropriate to pay for the budget and provide for the expenses of that standard setting body, and to provide for an independent, stable source of funding for such body, subject to review by the Commission; and

(2) may differentiate among different classes of issuers.

(f) LIMITATION ON FEE.—The amount of fees collected under this section for a fiscal year on behalf of the Board or the standards setting body, as the case may be, shall not exceed the recoverable budget expenses of the Board or body, respectively (which may include operating, capital, and accrued items), referred to in subsection (c)(1).

(g) ALLOCATION OF ACCOUNTING SUPPORT FEES AMONG ISSUERS.—Any amount due from issuers (or a particular class of issuers) under this section to fund the budget of the Board or the standard setting body referred to in subsection (a) shall be allocated among and payable by each issuer (or each issuer in a particular class, as applicable) in an amount equal to the total of such amount, multiplied by a fraction—

(1) the numerator of which is the average monthly equity market capitalization of the issuer for the 12-month period immediately preceding the beginning of the fiscal year to which such budget relates; and

(2) the denominator of which is the average monthly equity market capitalization of all such issuers for such 12-month period.

(h) CONFORMING AMENDMENTS.—Section 13(b)(2) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(b)(2)) is amended—

(1) in subparagraph (A), by striking "and" at the end; and

(2) in subparagraph (B), by striking the period at the end and inserting the following: "; and

"(C) notwithstanding any other provision of law, pay the allocable share of such issuer of a reasonable annual accounting support fee or fees, determined in accordance with section 109 of the Sarbanes-Oxley Act of 2002.".

(i) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to render either the Board, the standard setting body referred to in subsection (a), or both, subject to procedures in Congress to authorize or appropriate public funds, or to prevent such organization from utilizing additional sources of revenue for its activities, such as earnings from publication sales, provided that each additional source of revenue shall not jeopardize, in the judgment of the Commission, the actual and perceived independence of such organization.

(j) START-UP EXPENSES OF THE BOARD.—From the unexpended balances of the appropriations to the Commission for fiscal year 2003, the Secretary of the Treasury is authorized to advance to the Board not to exceed the amount necessary to cover the expenses of the Board during its first fiscal year (which may be a short fiscal year).

TITLE II—AUDITOR INDEPENDENCE

SEC. 201. SERVICES OUTSIDE THE SCOPE OF PRACTICE OF AUDITORS.

(a) PROHIBITED ACTIVITIES.—Section 10A of the Securities Exchange Act of 1934 (15 U.S.C. 78j–1) is amended by adding at the end the following:

"(g) PROHIBITED ACTIVITIES.—Except as provided in subsection (h), it shall be unlawful for a registered public accounting firm (and any associated person of that firm, to the extent determined appropriate by the Commission) that performs for any issuer any audit required by this title or the rules of the Commission under this title or, beginning 180 days after the date of commencement of the operations of the Public Company Accounting Oversight Board established under section 101 of the Sarbanes-Oxley Act of 2002 (in this section referred to as the 'Board'), the rules of the Board, to provide to that issuer, contemporaneously with the audit, any non-audit service, including—

"(1) bookkeeping or other services related to the accounting records or financial statements of the audit client;

"(2) financial information systems design and implementation;

"(3) appraisal or valuation services, fairness opinions, or contribution-in-kind reports;

"(4) actuarial services;

"(5) internal audit outsourcing services;

"(6) management functions or human resources;

"(7) broker or dealer, investment adviser, or investment banking services;

"(8) legal services and expert services unrelated to the audit; and

"(9) any other service that the Board determines, by regulation, is impermissible.

"(h) PREAPPROVAL REQUIRED FOR NON-AUDIT SERVICES.—A registered public accounting firm may engage in any non-audit service, including tax services, that is not described in any of paragraphs (1) through (9) of subsection (g) for an audit client, only if the activity is approved in advance by the audit committee of the issuer, in accordance with subsection (i).".

15 USC 7231.

(b) EXEMPTION AUTHORITY.—The Board may, on a case by case basis, exempt any person, issuer, public accounting firm, or transaction from the prohibition on the provision of services under section 10A(g) of the Securities Exchange Act of 1934 (as added by this section), to the extent that such exemption is necessary or appropriate in the public interest and is consistent with the protection of investors, and subject to review by the Commission in the same manner as for rules of the Board under section 107.

SEC. 202. PREAPPROVAL REQUIREMENTS.

Section 10A of the Securities Exchange Act of 1934 (15 U.S.C. 78j–1), as amended by this Act, is amended by adding at the end the following:

"(i) PREAPPROVAL REQUIREMENTS.—

"(1) IN GENERAL.—

"(A) AUDIT COMMITTEE ACTION.—All auditing services (which may entail providing comfort letters in connection with securities underwritings or statutory audits required for insurance companies for purposes of State law) and non-audit services, other than as provided in subparagraph (B), provided to an issuer by the auditor of the issuer shall be preapproved by the audit committee of the issuer.

"(B) DE MINIMUS EXCEPTION.—The preapproval requirement under subparagraph (A) is waived with respect to the provision of non-audit services for an issuer, if—

"(i) the aggregate amount of all such non-audit services provided to the issuer constitutes not more than 5 percent of the total amount of revenues paid by the issuer to its auditor during the fiscal year in which the nonaudit services are provided;

"(ii) such services were not recognized by the issuer at the time of the engagement to be non-audit services; and

"(iii) such services are promptly brought to the attention of the audit committee of the issuer and approved prior to the completion of the audit by the audit committee or by 1 or more members of the audit committee who are members of the board of directors to whom authority to grant such approvals has been delegated by the audit committee.

"(2) DISCLOSURE TO INVESTORS.—Approval by an audit committee of an issuer under this subsection of a non-audit service to be performed by the auditor of the issuer shall be disclosed to investors in periodic reports required by section 13(a).

"(3) DELEGATION AUTHORITY.—The audit committee of an issuer may delegate to 1 or more designated members of the audit committee who are independent directors of the board of directors, the authority to grant preapprovals required by this subsection. The decisions of any member to whom authority is delegated under this paragraph to preapprove an activity under this subsection shall be presented to the full audit committee at each of its scheduled meetings.

"(4) APPROVAL OF AUDIT SERVICES FOR OTHER PURPOSES.—In carrying out its duties under subsection (m)(2), if the audit committee of an issuer approves an audit service within the scope of the engagement of the auditor, such audit service shall be deemed to have been preapproved for purposes of this subsection.".

SEC. 203. AUDIT PARTNER ROTATION.

Section 10A of the Securities Exchange Act of 1934 (15 U.S.C. 78j–1), as amended by this Act, is amended by adding at the end the following:

"(j) AUDIT PARTNER ROTATION.—It shall be unlawful for a registered public accounting firm to provide audit services to an issuer if the lead (or coordinating) audit partner (having primary responsibility for the audit), or the audit partner responsible for reviewing the audit, has performed audit services for that issuer in each of the 5 previous fiscal years of that issuer.".

SEC. 204. AUDITOR REPORTS TO AUDIT COMMITTEES.

Section 10A of the Securities Exchange Act of 1934 (15 U.S.C. 78j–1), as amended by this Act, is amended by adding at the end the following:

"(k) REPORTS TO AUDIT COMMITTEES.—Each registered public accounting firm that performs for any issuer any audit required by this title shall timely report to the audit committee of the issuer—

"(1) all critical accounting policies and practices to be used;

"(2) all alternative treatments of financial information within generally accepted accounting principles that have been discussed with management officials of the issuer, ramifications of the use of such alternative disclosures and treatments, and the treatment preferred by the registered public accounting firm; and

"(3) other material written communications between the registered public accounting firm and the management of the issuer, such as any management letter or schedule of unadjusted differences.".

SEC. 205. CONFORMING AMENDMENTS.

(a) DEFINITIONS.—Section 3(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)) is amended by adding at the end the following:

"(58) AUDIT COMMITTEE.—The term 'audit committee' means—

"(A) a committee (or equivalent body) established by and amongst the board of directors of an issuer for the purpose of overseeing the accounting and financial reporting processes of the issuer and audits of the financial statements of the issuer; and

"(B) if no such committee exists with respect to an issuer, the entire board of directors of the issuer.

"(59) REGISTERED PUBLIC ACCOUNTING FIRM.—The term 'registered public accounting firm' has the same meaning as in section 2 of the Sarbanes-Oxley Act of 2002.".

(b) AUDITOR REQUIREMENTS.—Section 10A of the Securities Exchange Act of 1934 (15 U.S.C. 78j–1) is amended—

(1) by striking "an independent public accountant" each place that term appears and inserting "a registered public accounting firm";

(2) by striking "the independent public accountant" each place that term appears and inserting "the registered public accounting firm";

(3) in subsection (c), by striking "No independent public accountant" and inserting "No registered public accounting firm"; and

(4) in subsection (b)—

(A) by striking "the accountant" each place that term appears and inserting "the firm";

(B) by striking "such accountant" each place that term appears and inserting "such firm"; and

(C) in paragraph (4), by striking "the accountant's report" and inserting "the report of the firm".

(c) OTHER REFERENCES.—The Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.) is amended—

(1) in section 12(b)(1) (15 U.S.C. 78l(b)(1)), by striking "independent public accountants" each place that term appears and inserting "a registered public accounting firm"; and

(2) in subsections (e) and (i) of section 17 (15 U.S.C. 78q), by striking "an independent public accountant" each place that term appears and inserting "a registered public accounting firm".

(d) CONFORMING AMENDMENT.—Section 10A(f) of the Securities Exchange Act of 1934 (15 U.S.C. 78k(f)) is amended—

15 USC 78j–1.

(1) by striking "DEFINITION" and inserting "DEFINITIONS"; and

(2) by adding at the end the following: "As used in this section, the term 'issuer' means an issuer (as defined in section 3), the securities of which are registered under section 12, or that is required to file reports pursuant to section 15(d), or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933 (15 U.S.C. 77a et seq.), and that it has not withdrawn.".

SEC. 206. CONFLICTS OF INTEREST.

Section 10A of the Securities Exchange Act of 1934 (15 U.S.C. 78j–1), as amended by this Act, is amended by adding at the end the following:

"(l) CONFLICTS OF INTEREST.—It shall be unlawful for a registered public accounting firm to perform for an issuer any audit service required by this title, if a chief executive officer, controller, chief financial officer, chief accounting officer, or any person serving in an equivalent position for the issuer, was employed by that registered independent public accounting firm and participated in any capacity in the audit of that issuer during the 1-year period preceding the date of the initiation of the audit.".

SEC. 207. STUDY OF MANDATORY ROTATION OF REGISTERED PUBLIC ACCOUNTING FIRMS. 15 USC 7232.

(a) STUDY AND REVIEW REQUIRED.—The Comptroller General of the United States shall conduct a study and review of the potential effects of requiring the mandatory rotation of registered public accounting firms.

(b) REPORT REQUIRED.—Not later than 1 year after the date of enactment of this Act, the Comptroller General shall submit a report to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives on the results of the study and review required by this section. Deadline.

(c) DEFINITION.—For purposes of this section, the term "mandatory rotation" refers to the imposition of a limit on the period of years in which a particular registered public accounting firm may be the auditor of record for a particular issuer.

SEC. 208. COMMISSION AUTHORITY. 15 USC 7233.

(a) COMMISSION REGULATIONS.—Not later than 180 days after the date of enactment of this Act, the Commission shall issue final regulations to carry out each of subsections (g) through (l) of section 10A of the Securities Exchange Act of 1934, as added by this title. Deadline.

(b) AUDITOR INDEPENDENCE.—It shall be unlawful for any registered public accounting firm (or an associated person thereof, as applicable) to prepare or issue any audit report with respect to any issuer, if the firm or associated person engages in any activity with respect to that issuer prohibited by any of subsections (g) through (l) of section 10A of the Securities Exchange Act of 1934, as added by this title, or any rule or regulation of the Commission or of the Board issued thereunder.

SEC. 209. CONSIDERATIONS BY APPROPRIATE STATE REGULATORY AUTHORITIES. 15 USC 7234.

In supervising nonregistered public accounting firms and their associated persons, appropriate State regulatory authorities should make an independent determination of the proper standards applicable, particularly taking into consideration the size and nature of the business of the accounting firms they supervise and the size and nature of the business of the clients of those firms. The standards applied by the Board under this Act should not be presumed to be applicable for purposes of this section for small and medium sized nonregistered public accounting firms.

TITLE III—CORPORATE RESPONSIBILITY

SEC. 301. PUBLIC COMPANY AUDIT COMMITTEES.

Section 10A of the Securities Exchange Act of 1934 (15 U.S.C. 78f) is amended by adding at the end the following: 15 USC 78j–1.

"(m) STANDARDS RELATING TO AUDIT COMMITTEES.—

"(1) COMMISSION RULES.—

Deadline.

"(A) IN GENERAL.—Effective not later than 270 days after the date of enactment of this subsection, the Commission shall, by rule, direct the national securities exchanges and national securities associations to prohibit the listing of any security of an issuer that is not in compliance with the requirements of any portion of paragraphs (2) through (6).

"(B) OPPORTUNITY TO CURE DEFECTS.—The rules of the Commission under subparagraph (A) shall provide for appropriate procedures for an issuer to have an opportunity to cure any defects that would be the basis for a prohibition under subparagraph (A), before the imposition of such prohibition.

"(2) RESPONSIBILITIES RELATING TO REGISTERED PUBLIC ACCOUNTING FIRMS.—The audit committee of each issuer, in its capacity as a committee of the board of directors, shall be directly responsible for the appointment, compensation, and oversight of the work of any registered public accounting firm employed by that issuer (including resolution of disagreements between management and the auditor regarding financial reporting) for the purpose of preparing or issuing an audit report or related work, and each such registered public accounting firm shall report directly to the audit committee.

"(3) INDEPENDENCE.—

"(A) IN GENERAL.—Each member of the audit committee of the issuer shall be a member of the board of directors of the issuer, and shall otherwise be independent.

"(B) CRITERIA.—In order to be considered to be independent for purposes of this paragraph, a member of an audit committee of an issuer may not, other than in his or her capacity as a member of the audit committee, the board of directors, or any other board committee—

"(i) accept any consulting, advisory, or other compensatory fee from the issuer; or

"(ii) be an affiliated person of the issuer or any subsidiary thereof.

"(C) EXEMPTION AUTHORITY.—The Commission may exempt from the requirements of subparagraph (B) a particular relationship with respect to audit committee members, as the Commission determines appropriate in light of the circumstances.

"(4) COMPLAINTS.—Each audit committee shall establish procedures for—

"(A) the receipt, retention, and treatment of complaints received by the issuer regarding accounting, internal accounting controls, or auditing matters; and

"(B) the confidential, anonymous submission by employees of the issuer of concerns regarding questionable accounting or auditing matters.

"(5) AUTHORITY TO ENGAGE ADVISERS.—Each audit committee shall have the authority to engage independent counsel and other advisers, as it determines necessary to carry out its duties.

"(6) FUNDING.—Each issuer shall provide for appropriate funding, as determined by the audit committee, in its capacity as a committee of the board of directors, for payment of compensation—

"(A) to the registered public accounting firm employed by the issuer for the purpose of rendering or issuing an audit report; and

"(B) to any advisers employed by the audit committee under paragraph (5).".

SEC. 302. CORPORATE RESPONSIBILITY FOR FINANCIAL REPORTS. 15 USC 7241.

(a) REGULATIONS REQUIRED.—The Commission shall, by rule, require, for each company filing periodic reports under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m, 78o(d)), that the principal executive officer or officers and the principal financial officer or officers, or persons performing similar functions, certify in each annual or quarterly report filed or submitted under either such section of such Act that—

(1) the signing officer has reviewed the report;

(2) based on the officer's knowledge, the report does not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which such statements were made, not misleading;

(3) based on such officer's knowledge, the financial statements, and other financial information included in the report, fairly present in all material respects the financial condition and results of operations of the issuer as of, and for, the periods presented in the report;

(4) the signing officers—

(A) are responsible for establishing and maintaining internal controls;

(B) have designed such internal controls to ensure that material information relating to the issuer and its consolidated subsidiaries is made known to such officers by others within those entities, particularly during the period in which the periodic reports are being prepared;

(C) have evaluated the effectiveness of the issuer's internal controls as of a date within 90 days prior to the report; and

(D) have presented in the report their conclusions about the effectiveness of their internal controls based on their evaluation as of that date;

(5) the signing officers have disclosed to the issuer's auditors and the audit committee of the board of directors (or persons fulfilling the equivalent function)—

(A) all significant deficiencies in the design or operation of internal controls which could adversely affect the issuer's ability to record, process, summarize, and report financial data and have identified for the issuer's auditors any material weaknesses in internal controls; and

(B) any fraud, whether or not material, that involves management or other employees who have a significant role in the issuer's internal controls; and

(6) the signing officers have indicated in the report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

(b) FOREIGN REINCORPORATIONS HAVE NO EFFECT.—Nothing in this section 302 shall be interpreted or applied in any way to allow any issuer to lessen the legal force of the statement required under this section 302, by an issuer having reincorporated or having engaged in any other transaction that resulted in the transfer of the corporate domicile or offices of the issuer from inside the United States to outside of the United States.

(c) DEADLINE.—The rules required by subsection (a) shall be effective not later than 30 days after the date of enactment of this Act.

15 USC 7242.

SEC. 303. IMPROPER INFLUENCE ON CONDUCT OF AUDITS.

(a) RULES TO PROHIBIT.—It shall be unlawful, in contravention of such rules or regulations as the Commission shall prescribe as necessary and appropriate in the public interest or for the protection of investors, for any officer or director of an issuer, or any other person acting under the direction thereof, to take any action to fraudulently influence, coerce, manipulate, or mislead any independent public or certified accountant engaged in the performance of an audit of the financial statements of that issuer for the purpose of rendering such financial statements materially misleading.

(b) ENFORCEMENT.—In any civil proceeding, the Commission shall have exclusive authority to enforce this section and any rule or regulation issued under this section.

(c) NO PREEMPTION OF OTHER LAW.—The provisions of subsection (a) shall be in addition to, and shall not supersede or preempt, any other provision of law or any rule or regulation issued thereunder.

(d) DEADLINE FOR RULEMAKING.—The Commission shall—

(1) propose the rules or regulations required by this section, not later than 90 days after the date of enactment of this Act; and

(2) issue final rules or regulations required by this section, not later than 270 days after that date of enactment.

15 USC 7243.

SEC. 304. FORFEITURE OF CERTAIN BONUSES AND PROFITS.

(a) ADDITIONAL COMPENSATION PRIOR TO NONCOMPLIANCE WITH COMMISSION FINANCIAL REPORTING REQUIREMENTS.—If an issuer is required to prepare an accounting restatement due to the material noncompliance of the issuer, as a result of misconduct, with any financial reporting requirement under the securities laws, the chief executive officer and chief financial officer of the issuer shall reimburse the issuer for—

(1) any bonus or other incentive-based or equity-based compensation received by that person from the issuer during the 12-month period following the first public issuance or filing with the Commission (whichever first occurs) of the financial document embodying such financial reporting requirement; and

(2) any profits realized from the sale of securities of the issuer during that 12-month period.

(b) COMMISSION EXEMPTION AUTHORITY.—The Commission may exempt any person from the application of subsection (a), as it deems necessary and appropriate.

SEC. 305. OFFICER AND DIRECTOR BARS AND PENALTIES.

(a) UNFITNESS STANDARD.—

(1) SECURITIES EXCHANGE ACT OF 1934.—Section 21(d)(2) of the Securities Exchange Act of 1934 (15 U.S.C. 78u(d)(2)) is amended by striking "substantial unfitness" and inserting "unfitness".

(2) SECURITIES ACT OF 1933.—Section 20(e) of the Securities Act of 1933 (15 U.S.C. 77t(e)) is amended by striking "substantial unfitness" and inserting "unfitness".

(b) EQUITABLE RELIEF.—Section 21(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78u(d)) is amended by adding at the end the following:

"(5) EQUITABLE RELIEF.—In any action or proceeding brought or instituted by the Commission under any provision of the securities laws, the Commission may seek, and any Federal court may grant, any equitable relief that may be appropriate or necessary for the benefit of investors.".

SEC. 306. INSIDER TRADES DURING PENSION FUND BLACKOUT PERIODS. 15 USC 7244.

(a) PROHIBITION OF INSIDER TRADING DURING PENSION FUND BLACKOUT PERIODS.—

(1) IN GENERAL.—Except to the extent otherwise provided by rule of the Commission pursuant to paragraph (3), it shall be unlawful for any director or executive officer of an issuer of any equity security (other than an exempted security), directly or indirectly, to purchase, sell, or otherwise acquire or transfer any equity security of the issuer (other than an exempted security) during any blackout period with respect to such equity security if such director or officer acquires such equity security in connection with his or her service or employment as a director or executive officer.

(2) REMEDY.—

(A) IN GENERAL.—Any profit realized by a director or executive officer referred to in paragraph (1) from any purchase, sale, or other acquisition or transfer in violation of this subsection shall inure to and be recoverable by the issuer, irrespective of any intention on the part of such director or executive officer in entering into the transaction.

(B) ACTIONS TO RECOVER PROFITS.—An action to recover profits in accordance with this subsection may be instituted at law or in equity in any court of competent jurisdiction by the issuer, or by the owner of any security of the issuer in the name and in behalf of the issuer if the issuer fails or refuses to bring such action within 60 days after the date of request, or fails diligently to prosecute the action thereafter, except that no such suit shall be brought more than 2 years after the date on which such profit was realized.

(3) RULEMAKING AUTHORIZED.—The Commission shall, in consultation with the Secretary of Labor, issue rules to clarify the application of this subsection and to prevent evasion thereof. Such rules shall provide for the application of the requirements of paragraph (1) with respect to entities treated as a single employer with respect to an issuer under section 414(b), (c), (m), or (o) of the Internal Revenue Code of 1986 to the extent necessary to clarify the application of such requirements and to prevent evasion thereof. Such rules may also provide for

appropriate exceptions from the requirements of this subsection, including exceptions for purchases pursuant to an automatic dividend reinvestment program or purchases or sales made pursuant to an advance election.

(4) BLACKOUT PERIOD.—For purposes of this subsection, the term "blackout period", with respect to the equity securities of any issuer—

(A) means any period of more than 3 consecutive business days during which the ability of not fewer than 50 percent of the participants or beneficiaries under all individual account plans maintained by the issuer to purchase, sell, or otherwise acquire or transfer an interest in any equity of such issuer held in such an individual account plan is temporarily suspended by the issuer or by a fiduciary of the plan; and

(B) does not include, under regulations which shall be prescribed by the Commission—

(i) a regularly scheduled period in which the participants and beneficiaries may not purchase, sell, or otherwise acquire or transfer an interest in any equity of such issuer, if such period is—

(I) incorporated into the individual account plan; and

(II) timely disclosed to employees before becoming participants under the individual account plan or as a subsequent amendment to the plan; or

(ii) any suspension described in subparagraph (A) that is imposed solely in connection with persons becoming participants or beneficiaries, or ceasing to be participants or beneficiaries, in an individual account plan by reason of a corporate merger, acquisition, divestiture, or similar transaction involving the plan or plan sponsor.

(5) INDIVIDUAL ACCOUNT PLAN.—For purposes of this subsection, the term "individual account plan" has the meaning provided in section 3(34) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1002(34), except that such term shall not include a one-participant retirement plan (within the meaning of section 101(i)(8)(B) of such Act (29 U.S.C. 1021(i)(8)(B))).

(6) NOTICE TO DIRECTORS, EXECUTIVE OFFICERS, AND THE COMMISSION.—In any case in which a director or executive officer is subject to the requirements of this subsection in connection with a blackout period (as defined in paragraph (4)) with respect to any equity securities, the issuer of such equity securities shall timely notify such director or officer and the Securities and Exchange Commission of such blackout period.

(b) NOTICE REQUIREMENTS TO PARTICIPANTS AND BENEFICIARIES UNDER ERISA.—

(1) IN GENERAL.—Section 101 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1021) is amended by redesignating the second subsection (h) as subsection (j), and by inserting after the first subsection (h) the following new subsection:

"(i) NOTICE OF BLACKOUT PERIODS TO PARTICIPANT OR BENEFICIARY UNDER INDIVIDUAL ACCOUNT PLAN.—

"(1) DUTIES OF PLAN ADMINISTRATOR.—In advance of the commencement of any blackout period with respect to an individual account plan, the plan administrator shall notify the plan participants and beneficiaries who are affected by such action in accordance with this subsection.

"(2) NOTICE REQUIREMENTS.—

"(A) IN GENERAL.—The notices described in paragraph (1) shall be written in a manner calculated to be understood by the average plan participant and shall include—

"(i) the reasons for the blackout period,

"(ii) an identification of the investments and other rights affected,

"(iii) the expected beginning date and length of the blackout period,

"(iv) in the case of investments affected, a statement that the participant or beneficiary should evaluate the appropriateness of their current investment decisions in light of their inability to direct or diversify assets credited to their accounts during the blackout period, and

"(v) such other matters as the Secretary may require by regulation.

"(B) NOTICE TO PARTICIPANTS AND BENEFICIARIES.—Except as otherwise provided in this subsection, notices described in paragraph (1) shall be furnished to all participants and beneficiaries under the plan to whom the blackout period applies at least 30 days in advance of the blackout period.

"(C) EXCEPTION TO 30-DAY NOTICE REQUIREMENT.—In any case in which—

"(i) a deferral of the blackout period would violate the requirements of subparagraph (A) or (B) of section 404(a)(1), and a fiduciary of the plan reasonably so determines in writing, or

"(ii) the inability to provide the 30-day advance notice is due to events that were unforeseeable or circumstances beyond the reasonable control of the plan administrator, and a fiduciary of the plan reasonably so determines in writing,

subparagraph (B) shall not apply, and the notice shall be furnished to all participants and beneficiaries under the plan to whom the blackout period applies as soon as reasonably possible under the circumstances unless such a notice in advance of the termination of the blackout period is impracticable.

"(D) WRITTEN NOTICE.—The notice required to be provided under this subsection shall be in writing, except that such notice may be in electronic or other form to the extent that such form is reasonably accessible to the recipient.

"(E) NOTICE TO ISSUERS OF EMPLOYER SECURITIES SUBJECT TO BLACKOUT PERIOD.—In the case of any blackout period in connection with an individual account plan, the plan administrator shall provide timely notice of such blackout period to the issuer of any employer securities subject to such blackout period.

"(3) EXCEPTION FOR BLACKOUT PERIODS WITH LIMITED APPLICABILITY.—In any case in which the blackout period applies only to 1 or more participants or beneficiaries in connection with a merger, acquisition, divestiture, or similar transaction involving the plan or plan sponsor and occurs solely in connection with becoming or ceasing to be a participant or beneficiary under the plan by reason of such merger, acquisition, divestiture, or transaction, the requirement of this subsection that the notice be provided to all participants and beneficiaries shall be treated as met if the notice required under paragraph (1) is provided to such participants or beneficiaries to whom the blackout period applies as soon as reasonably practicable.

"(4) CHANGES IN LENGTH OF BLACKOUT PERIOD.—If, following the furnishing of the notice pursuant to this subsection, there is a change in the beginning date or length of the blackout period (specified in such notice pursuant to paragraph (2)(A)(iii)), the administrator shall provide affected participants and beneficiaries notice of the change as soon as reasonably practicable. In relation to the extended blackout period, such notice shall meet the requirements of paragraph (2)(D) and shall specify any material change in the matters referred to in clauses (i) through (v) of paragraph (2)(A).

"(5) REGULATORY EXCEPTIONS.—The Secretary may provide by regulation for additional exceptions to the requirements of this subsection which the Secretary determines are in the interests of participants and beneficiaries.

"(6) GUIDANCE AND MODEL NOTICES.—The Secretary shall issue guidance and model notices which meet the requirements of this subsection.

"(7) BLACKOUT PERIOD.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'blackout period' means, in connection with an individual account plan, any period for which any ability of participants or beneficiaries under the plan, which is otherwise available under the terms of such plan, to direct or diversify assets credited to their accounts, to obtain loans from the plan, or to obtain distributions from the plan is temporarily suspended, limited, or restricted, if such suspension, limitation, or restriction is for any period of more than 3 consecutive business days.

"(B) EXCLUSIONS.—The term 'blackout period' does not include a suspension, limitation, or restriction—

"(i) which occurs by reason of the application of the securities laws (as defined in section 3(a)(47) of the Securities Exchange Act of 1934),

"(ii) which is a change to the plan which provides for a regularly scheduled suspension, limitation, or restriction which is disclosed to participants or beneficiaries through any summary of material modifications, any materials describing specific investment alternatives under the plan, or any changes thereto, or

"(iii) which applies only to 1 or more individuals, each of whom is the participant, an alternate payee (as defined in section 206(d)(3)(K)), or any other beneficiary pursuant to a qualified domestic relations order (as defined in section 206(d)(3)(B)(i)).

"(8) INDIVIDUAL ACCOUNT PLAN.—

"(A) IN GENERAL.—For purposes of this subsection, the term 'individual account plan' shall have the meaning provided such term in section 3(34), except that such term shall not include a one-participant retirement plan.

"(B) ONE-PARTICIPANT RETIREMENT PLAN.—For purposes of subparagraph (A), the term 'one-participant retirement plan' means a retirement plan that—

"(i) on the first day of the plan year—

"(I) covered only the employer (and the employer's spouse) and the employer owned the entire business (whether or not incorporated), or

"(II) covered only one or more partners (and their spouses) in a business partnership (including partners in an S or C corporation (as defined in section 1361(a) of the Internal Revenue Code of 1986)),

"(ii) meets the minimum coverage requirements of section 410(b) of the Internal Revenue Code of 1986 (as in effect on the date of the enactment of this paragraph) without being combined with any other plan of the business that covers the employees of the business,

"(iii) does not provide benefits to anyone except the employer (and the employer's spouse) or the partners (and their spouses),

"(iv) does not cover a business that is a member of an affiliated service group, a controlled group of corporations, or a group of businesses under common control, and

"(v) does not cover a business that leases employees.".

(2) ISSUANCE OF INITIAL GUIDANCE AND MODEL NOTICE.— Deadlines.
The Secretary of Labor shall issue initial guidance and a model notice pursuant to section 101(i)(6) of the Employee Retirement Income Security Act of 1974 (as added by this subsection) not later than January 1, 2003. Not later than 75 days after Regulations. the date of the enactment of this Act, the Secretary shall promulgate interim final rules necessary to carry out the amendments made by this subsection.

(3) CIVIL PENALTIES FOR FAILURE TO PROVIDE NOTICE.— Section 502 of such Act (29 U.S.C. 1132) is amended—

(A) in subsection (a)(6), by striking "(5), or (6)" and inserting "(5), (6), or (7)";

(B) by redesignating paragraph (7) of subsection (c) as paragraph (8); and

(C) by inserting after paragraph (6) of subsection (c) the following new paragraph:

"(7) The Secretary may assess a civil penalty against a plan administrator of up to $100 a day from the date of the plan administrator's failure or refusal to provide notice to participants and beneficiaries in accordance with section 101(i). For purposes of this paragraph, each violation with respect to any single participant or beneficiary shall be treated as a separate violation.".

(3) PLAN AMENDMENTS.—If any amendment made by this subsection requires an amendment to any plan, such plan amendment shall not be required to be made before the first plan year beginning on or after the effective date of this section, if—

(A) during the period after such amendment made by this subsection takes effect and before such first plan year, the plan is operated in good faith compliance with the requirements of such amendment made by this subsection, and

(B) such plan amendment applies retroactively to the period after such amendment made by this subsection takes effect and before such first plan year.

(c) EFFECTIVE DATE.—The provisions of this section (including the amendments made thereby) shall take effect 180 days after the date of the enactment of this Act. Good faith compliance with the requirements of such provisions in advance of the issuance of applicable regulations thereunder shall be treated as compliance with such provisions.

15 USC 7245.

SEC. 307. RULES OF PROFESSIONAL RESPONSIBILITY FOR ATTORNEYS.

Deadline.

Not later than 180 days after the date of enactment of this Act, the Commission shall issue rules, in the public interest and for the protection of investors, setting forth minimum standards of professional conduct for attorneys appearing and practicing before the Commission in any way in the representation of issuers, including a rule—

(1) requiring an attorney to report evidence of a material violation of securities law or breach of fiduciary duty or similar violation by the company or any agent thereof, to the chief legal counsel or the chief executive officer of the company (or the equivalent thereof); and

(2) if the counsel or officer does not appropriately respond to the evidence (adopting, as necessary, appropriate remedial measures or sanctions with respect to the violation), requiring the attorney to report the evidence to the audit committee of the board of directors of the issuer or to another committee of the board of directors comprised solely of directors not employed directly or indirectly by the issuer, or to the board of directors.

15 USC 7246.

SEC. 308. FAIR FUNDS FOR INVESTORS.

(a) CIVIL PENALTIES ADDED TO DISGORGEMENT FUNDS FOR THE RELIEF OF VICTIMS.—If in any judicial or administrative action brought by the Commission under the securities laws (as such term is defined in section 3(a)(47) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(47)) the Commission obtains an order requiring disgorgement against any person for a violation of such laws or the rules or regulations thereunder, or such person agrees in settlement of any such action to such disgorgement, and the Commission also obtains pursuant to such laws a civil penalty against such person, the amount of such civil penalty shall, on the motion or at the direction of the Commission, be added to and become part of the disgorgement fund for the benefit of the victims of such violation.

(b) ACCEPTANCE OF ADDITIONAL DONATIONS.—The Commission is authorized to accept, hold, administer, and utilize gifts, bequests and devises of property, both real and personal, to the United

States for a disgorgement fund described in subsection (a). Such gifts, bequests, and devises of money and proceeds from sales of other property received as gifts, bequests, or devises shall be deposited in the disgorgement fund and shall be available for allocation in accordance with subsection (a).

(c) STUDY REQUIRED.—

(1) SUBJECT OF STUDY.—The Commission shall review and analyze—

(A) enforcement actions by the Commission over the five years preceding the date of the enactment of this Act that have included proceedings to obtain civil penalties or disgorgements to identify areas where such proceedings may be utilized to efficiently, effectively, and fairly provide restitution for injured investors; and

(B) other methods to more efficiently, effectively, and fairly provide restitution to injured investors, including methods to improve the collection rates for civil penalties and disgorgements.

(2) REPORT REQUIRED.—The Commission shall report its findings to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate within 180 days after of the date of the enactment of this Act, and shall use such findings to revise its rules and regulations as necessary. The report shall include a discussion of regulatory or legislative actions that are recommended or that may be necessary to address concerns identified in the study. Deadline.

(d) CONFORMING AMENDMENTS.—Each of the following provisions is amended by inserting ", except as otherwise provided in section 308 of the Sarbanes-Oxley Act of 2002" after "Treasury of the United States":

(1) Section 21(d)(3)(C)(i) of the Securities Exchange Act of 1934 (15 U.S.C. 78u(d)(3)(C)(i)).

(2) Section 21A(d)(1) of such Act (15 U.S.C. 78u-1(d)(1)).

(3) Section 20(d)(3)(A) of the Securities Act of 1933 (15 U.S.C. 77t(d)(3)(A)).

(4) Section 42(e)(3)(A) of the Investment Company Act of 1940 (15 U.S.C. 80a–41(e)(3)(A)).

(5) Section 209(e)(3)(A) of the Investment Advisers Act of 1940 (15 U.S.C. 80b–9(e)(3)(A)).

(e) DEFINITION.—As used in this section, the term "disgorgement fund" means a fund established in any administrative or judicial proceeding described in subsection (a).

TITLE IV—ENHANCED FINANCIAL DISCLOSURES

SEC. 401. DISCLOSURES IN PERIODIC REPORTS. 15 USC 7261.

(a) DISCLOSURES REQUIRED.—Section 13 of the Securities Exchange Act of 1934 (15 U.S.C. 78m) is amended by adding at the end the following:

"(i) ACCURACY OF FINANCIAL REPORTS.—Each financial report that contains financial statements, and that is required to be prepared in accordance with (or reconciled to) generally accepted accounting principles under this title and filed with the Commission shall reflect all material correcting adjustments that have been identified by a registered public accounting firm in accordance with generally accepted accounting principles and the rules and regulations of the Commission.

Deadline. Regulations.

"(j) OFF-BALANCE SHEET TRANSACTIONS.—Not later than 180 days after the date of enactment of the Sarbanes-Oxley Act of 2002, the Commission shall issue final rules providing that each annual and quarterly financial report required to be filed with the Commission shall disclose all material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the issuer with unconsolidated entities or other persons, that may have a material current or future effect on financial condition, changes in financial condition, results of operations, liquidity, capital expenditures, capital resources, or significant components of revenues or expenses.".

Deadline.

(b) COMMISSION RULES ON PRO FORMA FIGURES.—Not later than 180 days after the date of enactment of the Sarbanes-Oxley Act fo 2002, the Commission shall issue final rules providing that pro forma financial information included in any periodic or other report filed with the Commission pursuant to the securities laws, or in any public disclosure or press or other release, shall be presented in a manner that—

(1) does not contain an untrue statement of a material fact or omit to state a material fact necessary in order to make the pro forma financial information, in light of the circumstances under which it is presented, not misleading; and

(2) reconciles it with the financial condition and results of operations of the issuer under generally accepted accounting principles.

(c) STUDY AND REPORT ON SPECIAL PURPOSE ENTITIES.—

Deadline.

(1) STUDY REQUIRED.—The Commission shall, not later than 1 year after the effective date of adoption of off-balance sheet disclosure rules required by section 13(j) of the Securities Exchange Act of 1934, as added by this section, complete a study of filings by issuers and their disclosures to determine—

(A) the extent of off-balance sheet transactions, including assets, liabilities, leases, losses, and the use of special purpose entities; and

(B) whether generally accepted accounting rules result in financial statements of issuers reflecting the economics of such off-balance sheet transactions to investors in a transparent fashion.

Deadline.

(2) REPORT AND RECOMMENDATIONS.—Not later than 6 months after the date of completion of the study required by paragraph (1), the Commission shall submit a report to the President, the Committee on Banking, Housing, and Urban Affairs of the Senate, and the Committee on Financial Services of the House of Representatives, setting forth—

(A) the amount or an estimate of the amount of off-balance sheet transactions, including assets, liabilities, leases, and losses of, and the use of special purpose entities by, issuers filing periodic reports pursuant to section 13 or 15 of the Securities Exchange Act of 1934;

(B) the extent to which special purpose entities are used to facilitate off-balance sheet transactions;

(C) whether generally accepted accounting principles or the rules of the Commission result in financial statements of issuers reflecting the economics of such transactions to investors in a transparent fashion;

(D) whether generally accepted accounting principles specifically result in the consolidation of special purpose entities sponsored by an issuer in cases in which the issuer has the majority of the risks and rewards of the special purpose entity; and

(E) any recommendations of the Commission for improving the transparency and quality of reporting off-balance sheet transactions in the financial statements and disclosures required to be filed by an issuer with the Commission.

SEC. 402. ENHANCED CONFLICT OF INTEREST PROVISIONS.

(a) PROHIBITION ON PERSONAL LOANS TO EXECUTIVES.—Section 13 of the Securities Exchange Act of 1934 (15 U.S.C. 78m), as amended by this Act, is amended by adding at the end the following:

"(k) PROHIBITION ON PERSONAL LOANS TO EXECUTIVES.—

"(1) IN GENERAL.—It shall be unlawful for any issuer (as defined in section 2 of the Sarbanes-Oxley Act of 2002), directly or indirectly, including through any subsidiary, to extend or maintain credit, to arrange for the extension of credit, or to renew an extension of credit, in the form of a personal loan to or for any director or executive officer (or equivalent thereof) of that issuer. An extension of credit maintained by the issuer on the date of enactment of this subsection shall not be subject to the provisions of this subsection, provided that there is no material modification to any term of any such extension of credit or any renewal of any such extension of credit on or after that date of enactment.

"(2) LIMITATION.—Paragraph (1) does not preclude any home improvement and manufactured home loans (as that term is defined in section 5 of the Home Owners' Loan Act (12 U.S.C. 1464)), consumer credit (as defined in section 103 of the Truth in Lending Act (15 U.S.C. 1602)), or any extension of credit under an open end credit plan (as defined in section 103 of the Truth in Lending Act (15 U.S.C. 1602)), or a charge card (as defined in section 127(c)(4)(e) of the Truth in Lending Act (15 U.S.C. 1637(c)(4)(e)), or any extension of credit by a broker or dealer registered under section 15 of this title to an employee of that broker or dealer to buy, trade, or carry securities, that is permitted under rules or regulations of the Board of Governors of the Federal Reserve System pursuant to section 7 of this title (other than an extension of credit that would be used to purchase the stock of that issuer), that is—

"(A) made or provided in the ordinary course of the consumer credit business of such issuer;

"(B) of a type that is generally made available by such issuer to the public; and

"(C) made by such issuer on market terms, or terms that are no more favorable than those offered by the issuer to the general public for such extensions of credit.

"(3) RULE OF CONSTRUCTION FOR CERTAIN LOANS.—Paragraph (1) does not apply to any loan made or maintained by an insured depository institution (as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813)), if the loan is subject to the insider lending restrictions of section 22(h) of the Federal Reserve Act (12 U.S.C. 375b).''.

SEC. 403. DISCLOSURES OF TRANSACTIONS INVOLVING MANAGEMENT AND PRINCIPAL STOCKHOLDERS.

(a) AMENDMENT.—Section 16 of the Securities Exchange Act of 1934 (15 U.S.C. 78p) is amended by striking the heading of such section and subsection (a) and inserting the following:

''SEC. 16. DIRECTORS, OFFICERS, AND PRINCIPAL STOCKHOLDERS.

''(a) DISCLOSURES REQUIRED.—

''(1) DIRECTORS, OFFICERS, AND PRINCIPAL STOCKHOLDERS REQUIRED TO FILE.—Every person who is directly or indirectly the beneficial owner of more than 10 percent of any class of any equity security (other than an exempted security) which is registered pursuant to section 12, or who is a director or an officer of the issuer of such security, shall file the statements required by this subsection with the Commission (and, if such security is registered on a national securities exchange, also with the exchange).

''(2) TIME OF FILING.—The statements required by this subsection shall be filed—

''(A) at the time of the registration of such security on a national securities exchange or by the effective date of a registration statement filed pursuant to section 12(g);

''(B) within 10 days after he or she becomes such beneficial owner, director, or officer;

''(C) if there has been a change in such ownership, or if such person shall have purchased or sold a security-based swap agreement (as defined in section 206(b) of the Gramm-Leach-Bliley Act (15 U.S.C. 78c note)) involving such equity security, before the end of the second business day following the day on which the subject transaction has been executed, or at such other time as the Commission shall establish, by rule, in any case in which the Commission determines that such 2-day period is not feasible.

''(3) CONTENTS OF STATEMENTS.—A statement filed—

''(A) under subparagraph (A) or (B) of paragraph (2) shall contain a statement of the amount of all equity securities of such issuer of which the filing person is the beneficial owner; and

''(B) under subparagraph (C) of such paragraph shall indicate ownership by the filing person at the date of filing, any such changes in such ownership, and such purchases and sales of the security-based swap agreements as have occurred since the most recent such filing under such subparagraph.

Deadline.

''(4) ELECTRONIC FILING AND AVAILABILITY.—Beginning not later than 1 year after the date of enactment of the Sarbanes-Oxley Act of 2002—

''(A) a statement filed under subparagraph (C) of paragraph (2) shall be filed electronically;

Deadline.

''(B) the Commission shall provide each such statement on a publicly accessible Internet site not later than the end of the business day following that filing; and

"(C) the issuer (if the issuer maintains a corporate website) shall provide that statement on that corporate website, not later than the end of the business day following that filing.". Deadline.

(b) EFFECTIVE DATE.—The amendment made by this section shall be effective 30 days after the date of the enactment of this Act. 15 USC 78p note.

SEC. 404. MANAGEMENT ASSESSMENT OF INTERNAL CONTROLS. 15 USC 7262.

(a) RULES REQUIRED.—The Commission shall prescribe rules requiring each annual report required by section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78o(d)) to contain an internal control report, which shall—

(1) state the responsibility of management for establishing and maintaining an adequate internal control structure and procedures for financial reporting; and

(2) contain an assessment, as of the end of the most recent fiscal year of the issuer, of the effectiveness of the internal control structure and procedures of the issuer for financial reporting.

(b) INTERNAL CONTROL EVALUATION AND REPORTING.—With respect to the internal control assessment required by subsection (a), each registered public accounting firm that prepares or issues the audit report for the issuer shall attest to, and report on, the assessment made by the management of the issuer. An attestation made under this subsection shall be made in accordance with standards for attestation engagements issued or adopted by the Board. Any such attestation shall not be the subject of a separate engagement.

SEC. 405. EXEMPTION. 15 USC 7263.

Nothing in section 401, 402, or 404, the amendments made by those sections, or the rules of the Commission under those sections shall apply to any investment company registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a–8).

SEC. 406. CODE OF ETHICS FOR SENIOR FINANCIAL OFFICERS. 15 USC 7264.

(a) CODE OF ETHICS DISCLOSURE.—The Commission shall issue rules to require each issuer, together with periodic reports required pursuant to section 13(a) or 15(d) of the Securities Exchange Act of 1934, to disclose whether or not, and if not, the reason therefor, such issuer has adopted a code of ethics for senior financial officers, applicable to its principal financial officer and comptroller or principal accounting officer, or persons performing similar functions. Regulations.

(b) CHANGES IN CODES OF ETHICS.—The Commission shall revise its regulations concerning matters requiring prompt disclosure on Form 8–K (or any successor thereto) to require the immediate disclosure, by means of the filing of such form, dissemination by the Internet or by other electronic means, by any issuer of any change in or waiver of the code of ethics for senior financial officers. Regulations.

(c) DEFINITION.—In this section, the term "code of ethics" means such standards as are reasonably necessary to promote—

(1) honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;

(2) full, fair, accurate, timely, and understandable disclosure in the periodic reports required to be filed by the issuer; and

(3) compliance with applicable governmental rules and regulations.

(d) DEADLINE FOR RULEMAKING.—The Commission shall—

(1) propose rules to implement this section, not later than 90 days after the date of enactment of this Act; and

(2) issue final rules to implement this section, not later than 180 days after that date of enactment.

15 USC 7265.

SEC. 407. DISCLOSURE OF AUDIT COMMITTEE FINANCIAL EXPERT.

(a) RULES DEFINING "FINANCIAL EXPERT".—The Commission shall issue rules, as necessary or appropriate in the public interest and consistent with the protection of investors, to require each issuer, together with periodic reports required pursuant to sections 13(a) and 15(d) of the Securities Exchange Act of 1934, to disclose whether or not, and if not, the reasons therefor, the audit committee of that issuer is comprised of at least 1 member who is a financial expert, as such term is defined by the Commission.

(b) CONSIDERATIONS.—In defining the term "financial expert" for purposes of subsection (a), the Commission shall consider whether a person has, through education and experience as a public accountant or auditor or a principal financial officer, comptroller, or principal accounting officer of an issuer, or from a position involving the performance of similar functions—

(1) an understanding of generally accepted accounting principles and financial statements;

(2) experience in—

(A) the preparation or auditing of financial statements of generally comparable issuers; and

(B) the application of such principles in connection with the accounting for estimates, accruals, and reserves;

(3) experience with internal accounting controls; and

(4) an understanding of audit committee functions.

(c) DEADLINE FOR RULEMAKING.—The Commission shall—

(1) propose rules to implement this section, not later than 90 days after the date of enactment of this Act; and

(2) issue final rules to implement this section, not later than 180 days after that date of enactment.

15 USC 7266.

SEC. 408. ENHANCED REVIEW OF PERIODIC DISCLOSURES BY ISSUERS.

(a) REGULAR AND SYSTEMATIC REVIEW.—The Commission shall review disclosures made by issuers reporting under section 13(a) of the Securities Exchange Act of 1934 (including reports filed on Form 10–K), and which have a class of securities listed on a national securities exchange or traded on an automated quotation facility of a national securities association, on a regular and systematic basis for the protection of investors. Such review shall include a review of an issuer's financial statement.

(b) REVIEW CRITERIA.—For purposes of scheduling the reviews required by subsection (a), the Commission shall consider, among other factors—

(1) issuers that have issued material restatements of financial results;

(2) issuers that experience significant volatility in their stock price as compared to other issuers;

(3) issuers with the largest market capitalization;

(4) emerging companies with disparities in price to earning ratios;

(5) issuers whose operations significantly affect any material sector of the economy; and

(6) any other factors that the Commission may consider relevant.

(c) MINIMUM REVIEW PERIOD.—In no event shall an issuer required to file reports under section 13(a) or 15(d) of the Securities Exchange Act of 1934 be reviewed under this section less frequently than once every 3 years.

SEC. 409. REAL TIME ISSUER DISCLOSURES.

Section 13 of the Securities Exchange Act of 1934 (15 U.S.C. 78m), as amended by this Act, is amended by adding at the end the following:

"(l) REAL TIME ISSUER DISCLOSURES.—Each issuer reporting under section 13(a) or 15(d) shall disclose to the public on a rapid and current basis such additional information concerning material changes in the financial condition or operations of the issuer, in plain English, which may include trend and qualitative information and graphic presentations, as the Commission determines, by rule, is necessary or useful for the protection of investors and in the public interest.".

TITLE V—ANALYST CONFLICTS OF INTEREST

SEC. 501. TREATMENT OF SECURITIES ANALYSTS BY REGISTERED SECURITIES ASSOCIATIONS AND NATIONAL SECURITIES EXCHANGES.

(a) RULES REGARDING SECURITIES ANALYSTS.—The Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.) is amended by inserting after section 15C the following new section:

"SEC. 15D. SECURITIES ANALYSTS AND RESEARCH REPORTS. 15 USC 78*o*–6.

"(a) ANALYST PROTECTIONS.—The Commission, or upon the authorization and direction of the Commission, a registered securities association or national securities exchange, shall have adopted, not later than 1 year after the date of enactment of this section, rules reasonably designed to address conflicts of interest that can arise when securities analysts recommend equity securities in research reports and public appearances, in order to improve the objectivity of research and provide investors with more useful and reliable information, including rules designed— Deadline.

"(1) to foster greater public confidence in securities research, and to protect the objectivity and independence of securities analysts, by—

"(A) restricting the prepublication clearance or approval of research reports by persons employed by the broker or dealer who are engaged in investment banking activities, or persons not directly responsible for investment research, other than legal or compliance staff;

"(B) limiting the supervision and compensatory evaluation of securities analysts to officials employed by the broker or dealer who are not engaged in investment banking activities; and

"(C) requiring that a broker or dealer and persons employed by a broker or dealer who are involved with investment banking activities may not, directly or indirectly, retaliate against or threaten to retaliate against any securities analyst employed by that broker or dealer or its affiliates as a result of an adverse, negative, or otherwise unfavorable research report that may adversely affect the present or prospective investment banking relationship of the broker or dealer with the issuer that is the subject of the research report, except that such rules may not limit the authority of a broker or dealer to discipline a securities analyst for causes other than such research report in accordance with the policies and procedures of the firm;

"(2) to define periods during which brokers or dealers who have participated, or are to participate, in a public offering of securities as underwriters or dealers should not publish or otherwise distribute research reports relating to such securities or to the issuer of such securities;

"(3) to establish structural and institutional safeguards within registered brokers or dealers to assure that securities analysts are separated by appropriate informational partitions within the firm from the review, pressure, or oversight of those whose involvement in investment banking activities might potentially bias their judgment or supervision; and

"(4) to address such other issues as the Commission, or such association or exchange, determines appropriate.

"(b) DISCLOSURE.—The Commission, or upon the authorization and direction of the Commission, a registered securities association or national securities exchange, shall have adopted, not later than 1 year after the date of enactment of this section, rules reasonably designed to require each securities analyst to disclose in public appearances, and each registered broker or dealer to disclose in each research report, as applicable, conflicts of interest that are known or should have been known by the securities analyst or the broker or dealer, to exist at the time of the appearance or the date of distribution of the report, including—

"(1) the extent to which the securities analyst has debt or equity investments in the issuer that is the subject of the appearance or research report;

"(2) whether any compensation has been received by the registered broker or dealer, or any affiliate thereof, including the securities analyst, from the issuer that is the subject of the appearance or research report, subject to such exemptions as the Commission may determine appropriate and necessary to prevent disclosure by virtue of this paragraph of material non-public information regarding specific potential future investment banking transactions of such issuer, as is appropriate in the public interest and consistent with the protection of investors;

"(3) whether an issuer, the securities of which are recommended in the appearance or research report, currently is, or during the 1-year period preceding the date of the appearance or date of distribution of the report has been, a client of the registered broker or dealer, and if so, stating the types of services provided to the issuer;

"(4) whether the securities analyst received compensation with respect to a research report, based upon (among any other factors) the investment banking revenues (either generally or specifically earned from the issuer being analyzed) of the registered broker or dealer; and

"(5) such other disclosures of conflicts of interest that are material to investors, research analysts, or the broker or dealer as the Commission, or such association or exchange, determines appropriate.

"(c) DEFINITIONS.—In this section—

"(1) the term 'securities analyst' means any associated person of a registered broker or dealer that is principally responsible for, and any associated person who reports directly or indirectly to a securities analyst in connection with, the preparation of the substance of a research report, whether or not any such person has the job title of 'securities analyst'; and

"(2) the term 'research report' means a written or electronic communication that includes an analysis of equity securities of individual companies or industries, and that provides information reasonably sufficient upon which to base an investment decision.".

(b) ENFORCEMENT.—Section 21B(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78u–2(a)) is amended by inserting "15D," before "15B".

(c) COMMISSION AUTHORITY.—The Commission may promulgate and amend its regulations, or direct a registered securities association or national securities exchange to promulgate and amend its rules, to carry out section 15D of the Securities Exchange Act of 1934, as added by this section, as is necessary for the protection of investors and in the public interest. 15 USC 78*o*–6 note.

TITLE VI—COMMISSION RESOURCES AND AUTHORITY

SEC. 601. AUTHORIZATION OF APPROPRIATIONS.

Section 35 of the Securities Exchange Act of 1934 (15 U.S.C. 78kk) is amended to read as follows:

"SEC. 35. AUTHORIZATION OF APPROPRIATIONS.

"In addition to any other funds authorized to be appropriated to the Commission, there are authorized to be appropriated to carry out the functions, powers, and duties of the Commission, $776,000,000 for fiscal year 2003, of which—

"(1) $102,700,000 shall be available to fund additional compensation, including salaries and benefits, as authorized in the Investor and Capital Markets Fee Relief Act (Public Law 107–123; 115 Stat. 2390 et seq.);

"(2) $108,400,000 shall be available for information technology, security enhancements, and recovery and mitigation activities in light of the terrorist attacks of September 11, 2001; and

"(3) $98,000,000 shall be available to add not fewer than an additional 200 qualified professionals to provide enhanced oversight of auditors and audit services required by the Federal securities laws, and to improve Commission investigative and disciplinary efforts with respect to such auditors and services, as well as for additional professional support staff necessary to strengthen the programs of the Commission involving Full Disclosure and Prevention and Suppression of Fraud, risk management, industry technology review, compliance, inspections, examinations, market regulation, and investment management.''.

SEC. 602. APPEARANCE AND PRACTICE BEFORE THE COMMISSION.

The Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.) is amended by inserting after section 4B the following:

15 USC 78d–3.

''SEC. 4C. APPEARANCE AND PRACTICE BEFORE THE COMMISSION.

''(a) AUTHORITY TO CENSURE.—The Commission may censure any person, or deny, temporarily or permanently, to any person the privilege of appearing or practicing before the Commission in any way, if that person is found by the Commission, after notice and opportunity for hearing in the matter—

''(1) not to possess the requisite qualifications to represent others;

''(2) to be lacking in character or integrity, or to have engaged in unethical or improper professional conduct; or

''(3) to have willfully violated, or willfully aided and abetted the violation of, any provision of the securities laws or the rules and regulations issued thereunder.

''(b) DEFINITION.—With respect to any registered public accounting firm or associated person, for purposes of this section, the term 'improper professional conduct' means—

''(1) intentional or knowing conduct, including reckless conduct, that results in a violation of applicable professional standards; and

''(2) negligent conduct in the form of—

''(A) a single instance of highly unreasonable conduct that results in a violation of applicable professional standards in circumstances in which the registered public accounting firm or associated person knows, or should know, that heightened scrutiny is warranted; or

''(B) repeated instances of unreasonable conduct, each resulting in a violation of applicable professional standards, that indicate a lack of competence to practice before the Commission.''.

SEC. 603. FEDERAL COURT AUTHORITY TO IMPOSE PENNY STOCK BARS.

(a) SECURITIES EXCHANGE ACT OF 1934.—Section 21(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78u(d)), as amended by this Act, is amended by adding at the end the following:

''(6) AUTHORITY OF A COURT TO PROHIBIT PERSONS FROM PARTICIPATING IN AN OFFERING OF PENNY STOCK.—

''(A) IN GENERAL.—In any proceeding under paragraph (1) against any person participating in, or, at the time of the alleged misconduct who was participating in, an offering of penny stock, the court may prohibit that person from participating in an offering of penny stock, conditionally or unconditionally, and permanently or for such period of time as the court shall determine.

''(B) DEFINITION.—For purposes of this paragraph, the term 'person participating in an offering of penny stock' includes any person engaging in activities with a broker, dealer, or issuer for purposes of issuing, trading, or inducing or attempting to induce the purchase or sale of, any penny stock. The Commission may, by rule or regulation, define such term to include other activities, and may, by rule, regulation, or order, exempt any person or class of persons, in whole or in part, conditionally or unconditionally, from inclusion in such term.".

(b) SECURITIES ACT OF 1933.—Section 20 of the Securities Act of 1933 (15 U.S.C. 77t) is amended by adding at the end the following:

"(g) AUTHORITY OF A COURT TO PROHIBIT PERSONS FROM PARTICIPATING IN AN OFFERING OF PENNY STOCK.—

"(1) IN GENERAL.—In any proceeding under subsection (a) against any person participating in, or, at the time of the alleged misconduct, who was participating in, an offering of penny stock, the court may prohibit that person from participating in an offering of penny stock, conditionally or unconditionally, and permanently or for such period of time as the court shall determine.

"(2) DEFINITION.—For purposes of this subsection, the term 'person participating in an offering of penny stock' includes any person engaging in activities with a broker, dealer, or issuer for purposes of issuing, trading, or inducing or attempting to induce the purchase or sale of, any penny stock. The Commission may, by rule or regulation, define such term to include other activities, and may, by rule, regulation, or order, exempt any person or class of persons, in whole or in part, conditionally or unconditionally, from inclusion in such term.".

SEC. 604. QUALIFICATIONS OF ASSOCIATED PERSONS OF BROKERS AND DEALERS.

(a) BROKERS AND DEALERS.—Section 15(b)(4) of the Securities Exchange Act of 1934 (15 U.S.C. 78o) is amended—

(1) by striking subparagraph (F) and inserting the following:

"(F) is subject to any order of the Commission barring or suspending the right of the person to be associated with a broker or dealer;"; and

(2) in subparagraph (G), by striking the period at the end and inserting the following: "; or

"(H) is subject to any final order of a State securities commission (or any agency or officer performing like functions), State authority that supervises or examines banks, savings associations, or credit unions, State insurance commission (or any agency or office performing like functions), an appropriate Federal banking agency (as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813(q))), or the National Credit Union Administration, that—

"(i) bars such person from association with an entity regulated by such commission, authority, agency, or officer, or from engaging in the business of securities, insurance, banking, savings association activities, or credit union activities; or "(ii) constitutes a final order based on violations of any laws or regulations that prohibit fraudulent, manipulative, or deceptive conduct.".

(b) INVESTMENT ADVISERS.—Section 203(e) of the Investment Advisers Act of 1940 (15 U.S.C. 80b–3(e)) is amended—

(1) by striking paragraph (7) and inserting the following:

"(7) is subject to any order of the Commission barring or suspending the right of the person to be associated with an investment adviser;";

(2) in paragraph (8), by striking the period at the end and inserting "; or"; and

(3) by adding at the end the following:

"(9) is subject to any final order of a State securities commission (or any agency or officer performing like functions), State authority that supervises or examines banks, savings associations, or credit unions, State insurance commission (or any agency or office performing like functions), an appropriate Federal banking agency (as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813(q))), or the National Credit Union Administration, that—

"(A) bars such person from association with an entity regulated by such commission, authority, agency, or officer, or from engaging in the business of securities, insurance, banking, savings association activities, or credit union activities; or

"(B) constitutes a final order based on violations of any laws or regulations that prohibit fraudulent, manipulative, or deceptive conduct.".

(c) CONFORMING AMENDMENTS.—

(1) SECURITIES EXCHANGE ACT OF 1934.—The Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.) is amended—

(A) in section 3(a)(39)(F) (15 U.S.C. 78c(a)(39)(F))—

(i) by striking "or (G)" and inserting "(H), or (G)"; and

(ii) by inserting ", or is subject to an order or finding," before "enumerated";

(B) in each of section 15(b)(6)(A)(i) (15 U.S.C. 78o(b)(6)(A)(i)), paragraphs (2) and (4) of section 15B(c) (15 U.S.C. 78o–4(c)), and subparagraphs (A) and (C) of section 15C(c)(1) (15 U.S.C. 78o–5(c)(1))—

(i) by striking "or (G)" each place that term appears and inserting "(H), or (G)"; and

(ii) by striking "or omission" each place that term appears, and inserting ", or is subject to an order or finding,"; and

(C) in each of paragraphs (3)(A) and (4)(C) of section 17A(c) (15 U.S.C. 78q–1(c))—

(i) by striking "or (G)" each place that term appears and inserting "(H), or (G)"; and

(ii) by inserting ", or is subject to an order or finding," before "enumerated" each place that term appears.

(2) INVESTMENT ADVISERS ACT OF 1940.—Section 203(f) of the Investment Advisers Act of 1940 (15 U.S.C. 80b–3(f)) is amended—

(A) by striking "or (8)" and inserting "(8), or (9)"; and

(B) by inserting "or (3)" after "paragraph (2)".

TITLE VII—STUDIES AND REPORTS

SEC. 701. GAO STUDY AND REPORT REGARDING CONSOLIDATION OF PUBLIC ACCOUNTING FIRMS.

15 USC 7201 note.

(a) STUDY REQUIRED.—The Comptroller General of the United States shall conduct a study—

(1) to identify—

(A) the factors that have led to the consolidation of public accounting firms since 1989 and the consequent reduction in the number of firms capable of providing audit services to large national and multi-national business organizations that are subject to the securities laws;

(B) the present and future impact of the condition described in subparagraph (A) on capital formation and securities markets, both domestic and international; and

(C) solutions to any problems identified under subparagraph (B), including ways to increase competition and the number of firms capable of providing audit services to large national and multinational business organizations that are subject to the securities laws;

(2) of the problems, if any, faced by business organizations that have resulted from limited competition among public accounting firms, including—

(A) higher costs;

(B) lower quality of services;

(C) impairment of auditor independence; or

(D) lack of choice; and

(3) whether and to what extent Federal or State regulations impede competition among public accounting firms.

(b) CONSULTATION.—In planning and conducting the study under this section, the Comptroller General shall consult with—

(1) the Commission;

(2) the regulatory agencies that perform functions similar to the Commission within the other member countries of the Group of Seven Industrialized Nations;

(3) the Department of Justice; and

(4) any other public or private sector organization that the Comptroller General considers appropriate.

(c) REPORT REQUIRED.—Not later than 1 year after the date of enactment of this Act, the Comptroller General shall submit a report on the results of the study required by this section to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives. Deadline.

SEC. 702. COMMISSION STUDY AND REPORT REGARDING CREDIT RATING AGENCIES.

(a) STUDY REQUIRED.—

(1) IN GENERAL.—The Commission shall conduct a study of the role and function of credit rating agencies in the operation of the securities market.

(2) AREAS OF CONSIDERATION.—The study required by this subsection shall examine—

(A) the role of credit rating agencies in the evaluation of issuers of securities;

(B) the importance of that role to investors and the functioning of the securities markets;

(C) any impediments to the accurate appraisal by credit rating agencies of the financial resources and risks of issuers of securities;

(D) any barriers to entry into the business of acting as a credit rating agency, and any measures needed to remove such barriers;

(E) any measures which may be required to improve the dissemination of information concerning such resources and risks when credit rating agencies announce credit ratings; and

(F) any conflicts of interest in the operation of credit rating agencies and measures to prevent such conflicts or ameliorate the consequences of such conflicts.

Deadline.

(b) REPORT REQUIRED.—The Commission shall submit a report on the study required by subsection (a) to the President, the Committee on Financial Services of the House of Representatives, and the Committee on Banking, Housing, and Urban Affairs of the Senate not later than 180 days after the date of enactment of this Act.

SEC. 703. STUDY AND REPORT ON VIOLATORS AND VIOLATIONS.

(a) STUDY.—The Commission shall conduct a study to determine, based upon information for the period from January 1, 1998, to December 31, 2001—

(1) the number of securities professionals, defined as public accountants, public accounting firms, investment bankers, investment advisers, brokers, dealers, attorneys, and other securities professionals practicing before the Commission—

(A) who have been found to have aided and abetted a violation of the Federal securities laws, including rules or regulations promulgated thereunder (collectively referred to in this section as "Federal securities laws"), but who have not been sanctioned, disciplined, or otherwise penalized as a primary violator in any administrative action or civil proceeding, including in any settlement of such an action or proceeding (referred to in this section as "aiders and abettors"); and

(B) who have been found to have been primary violators of the Federal securities laws;

(2) a description of the Federal securities laws violations committed by aiders and abettors and by primary violators, including—

(A) the specific provision of the Federal securities laws violated;

(B) the specific sanctions and penalties imposed upon such aiders and abettors and primary violators, including the amount of any monetary penalties assessed upon and collected from such persons;

(C) the occurrence of multiple violations by the same person or persons, either as an aider or abettor or as a primary violator; and

(D) whether, as to each such violator, disciplinary sanctions have been imposed, including any censure, suspension, temporary bar, or permanent bar to practice before the Commission; and

(3) the amount of disgorgement, restitution, or any other fines or payments that the Commission has assessed upon and collected from, aiders and abettors and from primary violators.

(b) REPORT.—A report based upon the study conducted pursuant to subsection (a) shall be submitted to the Committee on Banking, Housing, and Urban Affairs of the Senate, and the Committee on Financial Services of the House of Representatives not later than 6 months after the date of enactment of this Act.

SEC. 704. STUDY OF ENFORCEMENT ACTIONS.

(a) STUDY REQUIRED.—The Commission shall review and analyze all enforcement actions by the Commission involving violations of reporting requirements imposed under the securities laws, and restatements of financial statements, over the 5-year period preceding the date of enactment of this Act, to identify areas of reporting that are most susceptible to fraud, inappropriate manipulation, or inappropriate earnings management, such as revenue recognition and the accounting treatment of off-balance sheet special purpose entities.

(b) REPORT REQUIRED.—The Commission shall report its findings to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate, not later than 180 days after the date of enactment of this Act, and shall use such findings to revise its rules and regulations, as necessary. The report shall include a discussion of regulatory or legislative steps that are recommended or that may be necessary to address concerns identified in the study. Deadline.

SEC. 705. STUDY OF INVESTMENT BANKS.

(a) GAO STUDY.—The Comptroller General of the United States shall conduct a study on whether investment banks and financial advisers assisted public companies in manipulating their earnings and obfuscating their true financial condition. The study should address the rule of investment banks and financial advisers—

(1) in the collapse of the Enron Corporation, including with respect to the design and implementation of derivatives transactions, transactions involving special purpose vehicles, and other financial arrangements that may have had the effect of altering the company's reported financial statements in ways that obscured the true financial picture of the company;

(2) in the failure of Global Crossing, including with respect to transactions involving swaps of fiberoptic cable capacity, in the designing transactions that may have had the effect of altering the company's reported financial statements in ways that obscured the true financial picture of the company; and

(3) generally, in creating and marketing transactions which may have been designed solely to enable companies to manipulate revenue streams, obtain loans, or move liabilities off balance sheets without altering the economic and business risks faced by the companies or any other mechanism to obscure a company's financial picture.

(b) REPORT.—The Comptroller General shall report to Congress not later than 180 days after the date of enactment of this Act on the results of the study required by this section. The report shall include a discussion of regulatory or legislative steps that Deadline.

are recommended or that may be necessary to address concerns identified in the study.

Corporate and Criminal Fraud Accountability Act of 2002.

TITLE VIII—CORPORATE AND CRIMINAL FRAUD ACCOUNTABILITY

18 USC 1501 note.

SEC. 801. SHORT TITLE.

This title may be cited as the "Corporate and Criminal Fraud Accountability Act of 2002".

SEC. 802. CRIMINAL PENALTIES FOR ALTERING DOCUMENTS.

(a) IN GENERAL.—Chapter 73 of title 18, United States Code, is amended by adding at the end the following:

"§ 1519. Destruction, alteration, or falsification of records in Federal investigations and bankruptcy

"Whoever knowingly alters, destroys, mutilates, conceals, covers up, falsifies, or makes a false entry in any record, document, or tangible object with the intent to impede, obstruct, or influence the investigation or proper administration of any matter within the jurisdiction of any department or agency of the United States or any case filed under title 11, or in relation to or contemplation of any such matter or case, shall be fined under this title, imprisoned not more than 20 years, or both.

"§ 1520. Destruction of corporate audit records

"(a)(1) Any accountant who conducts an audit of an issuer of securities to which section 10A(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78j–1(a)) applies, shall maintain all audit or review workpapers for a period of 5 years from the end of the fiscal period in which the audit or review was concluded.

Regulations.

"(2) The Securities and Exchange Commission shall promulgate, within 180 days, after adequate notice and an opportunity for comment, such rules and regulations, as are reasonably necessary, relating to the retention of relevant records such as workpapers, documents that form the basis of an audit or review, memoranda, correspondence, communications, other documents, and records (including electronic records) which are created, sent, or received in connection with an audit or review and contain conclusions, opinions, analyses, or financial data relating to such an audit or review, which is conducted by any accountant who conducts an audit of an issuer of securities to which section 10A(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78j–1(a)) applies. The Commission may, from time to time, amend or supplement the rules and regulations that it is required to promulgate under this section, after adequate notice and an opportunity for comment, in order to ensure that such rules and regulations adequately comport with the purposes of this section.

"(b) Whoever knowingly and willfully violates subsection (a)(1), or any rule or regulation promulgated by the Securities and Exchange Commission under subsection (a)(2), shall be fined under this title, imprisoned not more than 10 years, or both.

"(c) Nothing in this section shall be deemed to diminish or relieve any person of any other duty or obligation imposed by Federal or State law or regulation to maintain, or refrain from destroying, any document.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 73 of title 18, United States Code, is amended by adding at the end the following new items:

"1519. Destruction, alteration, or falsification of records in Federal investigations and bankruptcy.

"1520. Destruction of corporate audit records.".

SEC. 803. DEBTS NONDISCHARGEABLE IF INCURRED IN VIOLATION OF SECURITIES FRAUD LAWS.

Section 523(a) of title 11, United States Code, is amended—

(1) in paragraph (17), by striking "or" after the semicolon;

(2) in paragraph (18), by striking the period at the end and inserting "; or"; and

(3) by adding at the end, the following:

"(19) that—

"(A) is for—

"(i) the violation of any of the Federal securities laws (as that term is defined in section 3(a)(47) of the Securities Exchange Act of 1934), any of the State securities laws, or any regulation or order issued under such Federal or State securities laws; or

"(ii) common law fraud, deceit, or manipulation in connection with the purchase or sale of any security; and

"(B) results from—

"(i) any judgment, order, consent order, or decree entered in any Federal or State judicial or administrative proceeding;

"(ii) any settlement agreement entered into by the debtor; or

"(iii) any court or administrative order for any damages, fine, penalty, citation, restitutionary payment, disgorgement payment, attorney fee, cost, or other payment owed by the debtor.".

SEC. 804. STATUTE OF LIMITATIONS FOR SECURITIES FRAUD.

(a) IN GENERAL.—Section 1658 of title 28, United States Code, is amended—

(1) by inserting "(a)" before "Except"; and

(2) by adding at the end the following:

"(b) Notwithstanding subsection (a), a private right of action that involves a claim of fraud, deceit, manipulation, or contrivance in contravention of a regulatory requirement concerning the securities laws, as defined in section 3(a)(47) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(47)), may be brought not later than the earlier of—

"(1) 2 years after the discovery of the facts constituting the violation; or

"(2) 5 years after such violation.".

(b) EFFECTIVE DATE.—The limitations period provided by section 1658(b) of title 28, United States Code, as added by this section, shall apply to all proceedings addressed by this section that are commenced on or after the date of enactment of this Act. 28 USC 1658 note.

(c) NO CREATION OF ACTIONS.—Nothing in this section shall create a new, private right of action. 28 USC 1658 note.

28 USC 994 note.

SEC. 805. REVIEW OF FEDERAL SENTENCING GUIDELINES FOR OBSTRUCTION OF JUSTICE AND EXTENSIVE CRIMINAL FRAUD.

(a) ENHANCEMENT OF FRAUD AND OBSTRUCTION OF JUSTICE SENTENCES.—Pursuant to section 994 of title 28, United States Code, and in accordance with this section, the United States Sentencing Commission shall review and amend, as appropriate, the Federal Sentencing Guidelines and related policy statements to ensure that—

(1) the base offense level and existing enhancements contained in United States Sentencing Guideline 2J1.2 relating to obstruction of justice are sufficient to deter and punish that activity;

(2) the enhancements and specific offense characteristics relating to obstruction of justice are adequate in cases where—

(A) the destruction, alteration, or fabrication of evidence involves—

(i) a large amount of evidence, a large number of participants, or is otherwise extensive;

(ii) the selection of evidence that is particularly probative or essential to the investigation; or

(iii) more than minimal planning; or

(B) the offense involved abuse of a special skill or a position of trust;

(3) the guideline offense levels and enhancements for violations of section 1519 or 1520 of title 18, United States Code, as added by this title, are sufficient to deter and punish that activity;

(4) a specific offense characteristic enhancing sentencing is provided under United States Sentencing Guideline 2B1.1 (as in effect on the date of enactment of this Act) for a fraud offense that endangers the solvency or financial security of a substantial number of victims; and

(5) the guidelines that apply to organizations in United States Sentencing Guidelines, chapter 8, are sufficient to deter and punish organizational criminal misconduct.

Deadline.

(b) EMERGENCY AUTHORITY AND DEADLINE FOR COMMISSION ACTION.—The United States Sentencing Commission is requested to promulgate the guidelines or amendments provided for under this section as soon as practicable, and in any event not later than 180 days after the date of enactment of this Act, in accordance with the prcedures set forth in section 219(a) of the Sentencing Reform Act of 1987, as though the authority under that Act had not expired.

SEC. 806. PROTECTION FOR EMPLOYEES OF PUBLICLY TRADED COMPANIES WHO PROVIDE EVIDENCE OF FRAUD.

(a) IN GENERAL.—Chapter 73 of title 18, United States Code, is amended by inserting after section 1514 the following:

"§ 1514A. Civil action to protect against retaliation in fraud cases

"(a) WHISTLEBLOWER PROTECTION FOR EMPLOYEES OF PUBLICLY TRADED COMPANIES.—No company with a class of securities registered under section 12 of the Securities Exchange Act of 1934 (15 U.S.C. 78l), or that is required to file reports under section 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78o(d)), or any officer, employee, contractor, subcontractor, or agent of such company, may discharge, demote, suspend, threaten, harass, or in any other manner discriminate against an employee in the terms and conditions of employment because of any lawful act done by the employee—

"(1) to provide information, cause information to be provided, or otherwise assist in an investigation regarding any conduct which the employee reasonably believes constitutes a violation of section 1341, 1343, 1344, or 1348, any rule or regulation of the Securities and Exchange Commission, or any provision of Federal law relating to fraud against shareholders, when the information or assistance is provided to or the investigation is conducted by—

"(A) a Federal regulatory or law enforcement agency;

"(B) any Member of Congress or any committee of Congress; or

"(C) a person with supervisory authority over the employee (or such other person working for the employer who has the authority to investigate, discover, or terminate misconduct); or

"(2) to file, cause to be filed, testify, participate in, or otherwise assist in a proceeding filed or about to be filed (with any knowledge of the employer) relating to an alleged violation of section 1341, 1343, 1344, or 1348, any rule or regulation of the Securities and Exchange Commission, or any provision of Federal law relating to fraud against shareholders.

"(b) ENFORCEMENT ACTION.—

"(1) IN GENERAL.—A person who alleges discharge or other discrimination by any person in violation of subsection (a) may seek relief under subsection (c), by—

"(A) filing a complaint with the Secretary of Labor; or

"(B) if the Secretary has not issued a final decision within 180 days of the filing of the complaint and there is no showing that such delay is due to the bad faith of the claimant, bringing an action at law or equity for de novo review in the appropriate district court of the United States, which shall have jurisdiction over such an action without regard to the amount in controversy.

"(2) PROCEDURE.—

"(A) IN GENERAL.—An action under paragraph (1)(A) shall be governed under the rules and procedures set forth in section 42121(b) of title 49, United States Code.

"(B) EXCEPTION.—Notification made under section 42121(b)(1) of title 49, United States Code, shall be made to the person named in the complaint and to the employer.

"(C) BURDENS OF PROOF.—An action brought under paragraph (1)(B) shall be governed by the legal burdens of proof set forth in section 42121(b) of title 49, United States Code.

"(D) STATUTE OF LIMITATIONS.—An action under paragraph (1) shall be commenced not later than 90 days after the date on which the violation occurs. Deadline.

"(c) REMEDIES.—

"(1) IN GENERAL.—An employee prevailing in any action under subsection (b)(1) shall be entitled to all relief necessary to make the employee whole.

"(2) COMPENSATORY DAMAGES.—Relief for any action under paragraph (1) shall include—

"(A) reinstatement with the same seniority status that the employee would have had, but for the discrimination;

"(B) the amount of back pay, with interest; and

"(C) compensation for any special damages sustained as a result of the discrimination, including litigation costs, expert witness fees, and reasonable attorney fees.

"(d) RIGHTS RETAINED BY EMPLOYEE.—Nothing in this section shall be deemed to diminish the rights, privileges, or remedies of any employee under any Federal or State law, or under any collective bargaining agreement.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 73 of title 18, United States Code, is amended by inserting after the item relating to section 1514 the following new item:

"1514A. Civil action to protect against retaliation in fraud cases.".

SEC. 807. CRIMINAL PENALTIES FOR DEFRAUDING SHAREHOLDERS OF PUBLICLY TRADED COMPANIES.

(a) IN GENERAL.—Chapter 63 of title 18, United States Code, is amended by adding at the end the following:

"§ 1348. Securities fraud

"Whoever knowingly executes, or attempts to execute, a scheme or artifice—

"(1) to defraud any person in connection with any security of an issuer with a class of securities registered under section 12 of the Securities Exchange Act of 1934 (15 U.S.C. 78l) or that is required to file reports under section 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78o(d)); or

"(2) to obtain, by means of false or fraudulent pretenses, representations, or promises, any money or property in connection with the purchase or sale of any security of an issuer with a class of securities registered under section 12 of the Securities Exchange Act of 1934 (15 U.S.C. 78l) or that is required to file reports under section 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78o(d));

shall be fined under this title, or imprisoned not more than 25 years, or both.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 63 of title 18, United States Code, is amended by adding at the end the following new item:

"1348. Securities fraud.".

White-Collar Crime Penalty Enhancement Act of 2002.

TITLE IX—WHITE-COLLAR CRIME PENALTY ENHANCEMENTS

18 USC 1341 note.

SEC. 901. SHORT TITLE.

This title may be cited as the "White-Collar Crime Penalty Enhancement Act of 2002".

SEC. 902. ATTEMPTS AND CONSPIRACIES TO COMMIT CRIMINAL FRAUD OFFENSES.

(a) IN GENERAL.—Chapter 63 of title 18, United States Code, is amended by inserting after section 1348 as added by this Act the following:

"§ 1349. Attempt and conspiracy

"Any person who attempts or conspires to commit any offense under this chapter shall be subject to the same penalties as those prescribed for the offense, the commission of which was the object of the attempt or conspiracy.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 63 of title 18, United States Code, is amended by adding at the end the following new item:

"1349. Attempt and conspiracy.".

SEC. 903. CRIMINAL PENALTIES FOR MAIL AND WIRE FRAUD.

(a) MAIL FRAUD.—Section 1341 of title 18, United States Code, is amended by striking "five" and inserting "20".

(b) WIRE FRAUD.—Section 1343 of title 18, United States Code, is amended by striking "five" and inserting "20".

SEC. 904. CRIMINAL PENALTIES FOR VIOLATIONS OF THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974.

Section 501 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1131) is amended—

(1) by striking "$5,000" and inserting "$100,000";

(2) by striking "one year" and inserting "10 years"; and

(3) by striking "$100,000" and inserting "$500,000".

SEC. 905. AMENDMENT TO SENTENCING GUIDELINES RELATING TO CERTAIN WHITE-COLLAR OFFENSES. 28 USC 994 note.

(a) DIRECTIVE TO THE UNITED STATES SENTENCING COMMISSION.—Pursuant to its authority under section 994(p) of title 18, United States Code, and in accordance with this section, the United States Sentencing Commission shall review and, as appropriate, amend the Federal Sentencing Guidelines and related policy statements to implement the provisions of this Act.

(b) REQUIREMENTS.—In carrying out this section, the Sentencing Commission shall—

(1) ensure that the sentencing guidelines and policy statements reflect the serious nature of the offenses and the penalties set forth in this Act, the growing incidence of serious fraud offenses which are identified above, and the need to modify the sentencing guidelines and policy statements to deter, prevent, and punish such offenses;

(2) consider the extent to which the guidelines and policy statements adequately address whether the guideline offense levels and enhancements for violations of the sections amended by this Act are sufficient to deter and punish such offenses, and specifically, are adequate in view of the statutory increases in penalties contained in this Act;

(3) assure reasonable consistency with other relevant directives and sentencing guidelines;

(4) account for any additional aggravating or mitigating circumstances that might justify exceptions to the generally applicable sentencing ranges;

(5) make any necessary conforming changes to the sentencing guidelines; and

(6) assure that the guidelines adequately meet the purposes of sentencing, as set forth in section 3553(a)(2) of title 18, United States Code.

(c) EMERGENCY AUTHORITY AND DEADLINE FOR COMMISSION ACTION.—The United States Sentencing Commission is requested to promulgate the guidelines or amendments provided for under this section as soon as practicable, and in any event not later than 180 days after the date of enactment of this Act, in accordance with the procedures set forth in section 219(a) of the Sentencing Reform Act of 1987, as though the authority under that Act had not expired.

SEC. 906. CORPORATE RESPONSIBILITY FOR FINANCIAL REPORTS.

(a) IN GENERAL.—Chapter 63 of title 18, United States Code, is amended by inserting after section 1349, as created by this Act, the following:

"§ 1350. Failure of corporate officers to certify financial reports

(a) CERTIFICATION OF PERIODIC FINANCIAL REPORTS.—Each periodic report containing financial statements filed by an issuer with the Securities Exchange Commission pursuant to section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a) or 78o(d)) shall be accompanied by a written statement by the chief executive officer and chief financial officer (or equivalent thereof) of the issuer.

"(b) CONTENT.—The statement required under subsection (a) shall certify that the periodic report containing the financial statements fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act pf 1934 (15 U.S.C. 78m or 78o(d)) and that information contained in the periodic report fairly presents, in all material respects, the financial condition and results of operations of the issuer.

"(c) CRIMINAL PENALTIES.—Whoever—

"(1) certifies any statement as set forth in subsections (a) and (b) of this section knowing that the periodic report accompanying the statement does not comport with all the requirements set forth in this section shall be fined not more than $1,000,000 or imprisoned not more than 10 years, or both; or

"(2) willfully certifies any statement as set forth in subsections (a) and (b) of this section knowing that the periodic report accompanying the statement does not comport with all the requirements set forth in this section shall be fined not more than $5,000,000, or imprisoned not more than 20 years, or both.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 63 of title 18, United States Code, is amended by adding at the end the following:

"1350. Failure of corporate officers to certify financial reports.".

TITLE X—CORPORATE TAX RETURNS

SEC. 1001. SENSE OF THE SENATE REGARDING THE SIGNING OF CORPORATE TAX RETURNS BY CHIEF EXECUTIVE OFFICERS.

It is the sense of the Senate that the Federal income tax return of a corporation should be signed by the chief executive officer of such corporation.

TITLE XI—CORPORATE FRAUD ACCOUNTABILITY

Corporate Fraud Accountability Act of 2002.

SEC. 1101. SHORT TITLE.

15 USC 78a note.

This title may be cited as the "Corporate Fraud Accountability Act of 2002".

SEC. 1102. TAMPERING WITH A RECORD OR OTHERWISE IMPEDING AN OFFICIAL PROCEEDING.

Section 1512 of title 18, United States Code, is amended—

(1) by redesignating subsections (c) through (i) as subsections (d) through (j), respectively; and

(2) by inserting after subsection (b) the following new subsection:

"(c) Whoever corruptly—

"(1) alters, destroys, mutilates, or conceals a record, document, or other object, or attempts to do so, with the intent to impair the object's integrity or availability for use in an official proceeding; or

"(2) otherwise obstructs, influences, or impedes any official proceeding, or attempts to do so,

shall be fined under this title or imprisoned not more than 20 years, or both.".

SEC. 1103. TEMPORARY FREEZE AUTHORITY FOR THE SECURITIES AND EXCHANGE COMMISSION.

(a) IN GENERAL.—Section 21C(c) of the Securities Exchange Act of 1934 (15 U.S.C. 78u–3(c)) is amended by adding at the end the following:

"(3) TEMPORARY FREEZE.—

"(A) IN GENERAL.—

"(i) ISSUANCE OF TEMPORARY ORDER.—Whenever, during the course of a lawful investigation involving possible violations of the Federal securities laws by an issuer of publicly traded securities or any of its directors, officers, partners, controlling persons, agents, or employees, it shall appear to the Commission that it is likely that the issuer will make extraordinary payments (whether compensation or otherwise) to any of the foregoing persons, the Commission may petition a Federal district court for a temporary order requiring the issuer to escrow, subject to court supervision, those payments in an interest-bearing account for 45 days.

"(ii) STANDARD.—A temporary order shall be entered under clause (i), only after notice and opportunity for a hearing, unless the court determines that notice and hearing prior to entry of the order would be impracticable or contrary to the public interest.

"(iii) EFFECTIVE PERIOD.—A temporary order issued under clause (i) shall—

"(I) become effective immediately;

"(II) be served upon the parties subject to it; and

"(III) unless set aside, limited or suspended by a court of competent jurisdiction, shall remain effective and enforceable for 45 days.

"(iv) EXTENSIONS AUTHORIZED.—The effective period of an order under this subparagraph may be extended by the court upon good cause shown for not longer than 45 additional days, provided that the combined period of the order shall not exceed 90 days.

"(B) PROCESS ON DETERMINATION OF VIOLATIONS.—

"(i) VIOLATIONS CHARGED.—If the issuer or other person described in subparagraph (A) is charged with any violation of the Federal securities laws before the expiration of the effective period of a temporary order under subparagraph (A) (including any applicable extension period), the order shall remain in effect, subject to court approval, until the conclusion of any legal proceedings related thereto, and the affected issuer or other person, shall have the right to petition the court for review of the order.

"(ii) VIOLATIONS NOT CHARGED.—If the issuer or other person described in subparagraph (A) is not charged with any violation of the Federal securities laws before the expiration of the effective period of a temporary order under subparagraph (A) (including any applicable extension period), the escrow shall terminate at the expiration of the 45-day effective period (or the expiration of any extension period, as applicable), and the disputed payments (with accrued interest) shall be returned to the issuer or other affected person.".

(b) TECHNICAL AMENDMENT.—Section 21C(c)(2) of the Securities Exchange Act of 1934 (15 U.S.C. 78u–3(c)(2)) is amended by striking "This" and inserting "paragraph (1)".

28 USC 994 note.

SEC. 1104. AMENDMENT TO THE FEDERAL SENTENCING GUIDELINES.

(a) REQUEST FOR IMMEDIATE CONSIDERATION BY THE UNITED STATES SENTENCING COMMISSION.—Pursuant to its authority under section 994(p) of title 28, United States Code, and in accordance with this section, the United States Sentencing Commission is requested to—

(1) promptly review the sentencing guidelines applicable to securities and accounting fraud and related offenses;

(2) expeditiously consider the promulgation of new sentencing guidelines or amendments to existing sentencing guidelines to provide an enhancement for officers or directors of publicly traded corporations who commit fraud and related offenses; and

(3) submit to Congress an explanation of actions taken by the Sentencing Commission pursuant to paragraph (2) and

any additional policy recommendations the Sentencing Commission may have for combating offenses described in paragraph (1).

(b) CONSIDERATIONS IN REVIEW.—In carrying out this section, the Sentencing Commission is requested to—

(1) ensure that the sentencing guidelines and policy statements reflect the serious nature of securities, pension, and accounting fraud and the need for aggressive and appropriate law enforcement action to prevent such offenses;

(2) assure reasonable consistency with other relevant directives and with other guidelines;

(3) account for any aggravating or mitigating circumstances that might justify exceptions, including circumstances for which the sentencing guidelines currently provide sentencing enhancements;

(4) ensure that guideline offense levels and enhancements for an obstruction of justice offense are adequate in cases where documents or other physical evidence are actually destroyed or fabricated;

(5) ensure that the guideline offense levels and enhancements under United States Sentencing Guideline 2B1.1 (as in effect on the date of enactment of this Act) are sufficient for a fraud offense when the number of victims adversely involved is significantly greater than 50;

(6) make any necessary conforming changes to the sentencing guidelines; and

(7) assure that the guidelines adequately meet the purposes of sentencing as set forth in section 3553 (a)(2) of title 18, United States Code.

(c) EMERGENCY AUTHORITY AND DEADLINE FOR COMMISSION ACTION.—The United States Sentencing Commission is requested to promulgate the guidelines or amendments provided for under this section as soon as practicable, and in any event not later than the 180 days after the date of enactment of this Act, in accordance with the procedures sent forth in section 21(a) of the Sentencing Reform Act of 1987, as though the authority under that Act had not expired. Deadline.

SEC. 1105. AUTHORITY OF THE COMMISSION TO PROHIBIT PERSONS FROM SERVING AS OFFICERS OR DIRECTORS.

(a) SECURITIES EXCHANGE ACT OF 1934.—Section 21C of the Securities Exchange Act of 1934 (15 U.S.C. 78u–3) is amended by adding at the end the following:

"(f) AUTHORITY OF THE COMMISSION TO PROHIBIT PERSONS FROM SERVING AS OFFICERS OR DIRECTORS.—In any cease-and-desist proceeding under subsection (a), the Commission may issue an order to prohibit, conditionally or unconditionally, and permanently or for such period of time as it shall determine, any person who has violated section 10(b) or the rules or regulations thereunder, from acting as an officer or director of any issuer that has a class of securities registered pursuant to section 12, or that is required to file reports pursuant to section 15(d), if the conduct of that person demonstrates unfitness to serve as an officer or director of any such issuer.".

(b) SECURITIES ACT OF 1933.—Section 8A of the Securities Act of 1933 (15 U.S.C. 77h–1) is amended by adding at the end of the following:

"(f) AUTHORITY OF THE COMMISSION TO PROHIBIT PERSONS FROM SERVING AS OFFICERS OR DIRECTORS.—In any cease-and-desist proceeding under subsection (a), the Commission may issue an order to prohibit, conditionally or unconditionally, and permanently or for such period of time as it shall determine, any person who has violated section 17(a)(1) or the rules or regulations thereunder, from acting as an officer or director of any issuer that has a class of securities registered pursuant to section 12 of the Securities Exchange Act of 1934, or that is required to file reports pursuant to section 15(d) of that Act, if the conduct of that person demonstrates unfitness to serve as an officer or director of any such issuer.".

SEC. 1106. INCREASED CRIMINAL PENALTIES UNDER SECURITIES EXCHANGE ACT OF 1934.

Section 32(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78ff(a)) is amended—

(1) by striking "$1,000,000, or imprisoned not more than 10 years" and inserting "$5,000,000, or imprisoned not more than 20 years"; and

(2) by striking "$2,500,000" and inserting "$25,000,000".

SEC. 1107. RETALIATION AGAINST INFORMANTS.

(a) IN GENERAL.—Section 1513 of title 18, United States Code, is amended by adding at the end the following:

Penalties.

"(e) Whoever knowingly, with the intent to retaliate, takes any action harmful to any person, including interference with the lawful employment or livelihood of any person, for providing to a law enforcement officer any truthful information relating to the commission or possible commission of any Federal offense, shall be fined under this title or imprisoned not more than 10 years, or both.".

Approved July 30, 2002.

LEGISLATIVE HISTORY—H.R. 3763 (S. 2673):

HOUSE REPORTS: Nos. 107–414 (Comm. on Financial Services) and 107–610 (Comm. of Conference).
SENATE REPORTS: No. 107–205 accompanying S. 2673 (Comm. on Banking, Housing, and Urban Affairs).
CONGRESSIONAL RECORD, Vol. 148 (2002):
Apr. 24, considered and passed House.
July 15, considered and passed Senate, amended, in lieu of S. 2673.
July 25, House and Senate agreed to conference report.
WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS, Vol. 38 (2002):
July 30, Presidential remarks and statement.

COMMITTEE ON

IMF GOVERNANCE REFORM

Final Report

March 24, 2009

CONTENTS PAGE

EXECUTIVE SUMMARY

The global economy has entered a period of unprecedented turmoil, with the prospect of a prolonged economic downturn, heightened financial volatility, and social instability. Weakly coordinated macroeconomic policies among major world economies, deficient financial regulation, and insufficient commitment to financial stability as a public good have each contributed to the current global economic conditions.

The world needs a multilateral institution at the center of the world economy to help anchor global financial stability. Achieving that aim depends on the monitoring of risks, coordinated policy responses, and agreed norms and standards to which all countries subscribe. To be effective, the institution requires a strong and respected voice, human and financial resources appropriate to its mission, and it must be accountable to its members. It must also work closely with other international organizations and standard setters, and provide a focal point for discussions on crisis management and the macroeconomics of financial regulation.

The International Monetary Fund is well placed to be this institution, but it needs a re-energized multilateral mandate to reflect the evolution of the world economy and to increase its legitimacy and effectiveness in addressing today's global challenges. Few of the conditions outlined above are currently being met.

This report puts forth recommendations for governance reforms. A recomposition of the Executive Board to reflect economic realities by allowing greater representation of emerging market economies, more timely and effective decision-making by a ministerial-level body, and a more precise delineation of responsibilities between management and the Executive Board are central objectives.

We recommend a series of governance reform measures that should be agreed as a single package. That package comprises the following:

- An accelerated quota revision process, to be concluded by April 2010, and an amendment to the Articles of Agreement that would eliminate appointed chairs, thereby allowing for the needed consolidation of chairs, including those of EU countries. This is critical to facilitate the rapid reconfiguration of the composition of the Council (see below) and the Executive Board to reflect current economic realities;

- The activation of a Council of ministers and governors to provide a forum for coordination and to take strategic decisions critical to global stability, as provided for in the Articles of Agreement;

- The expansion of the Fund's surveillance mandate beyond exchange rates to provide appropriate coverage of macroeconomic policies, prudential issues and financial spillovers. The capital account would fall within the mandate;

- The adoption of a troika leadership model for the Council, with regular rotation, and agenda-setting by the leadership, with input from the Executive Board and management;

- The giving of most authority for conducting and completing member-specific surveillance to Fund management, together with strengthened accountability;

- The elevation of the Executive Board from day-to-day operational decisions to giving advice on strategic issues to the Council and to delivering a critical supervisory function, including oversight and review of surveillance. The Board would retain responsibility over lending and financial decisions, and with greater accountability;

- The lowering of the voting threshold on critical decisions from 85 percent to 70–75 percent, and consideration given to extending double majorities to a wider range of decisions, thus ensuring that decisions affecting key aspects of the institution command the support of the majority of members; and

- The introduction of an open, transparent and merit-based system for the appointment of the Managing Director and Deputy Managing Directors.

Governance reforms are necessary but not sufficient to enhance the Fund's legitimacy, effectiveness and accountability. Achieving the aim of a multilateral institution that is able to secure global financial stability needs to be supported with complementary measures. These include steps to progress rapidly on adjustments to quota and voice of members, additions to the Fund's available financial resources, and enhancing its expertise, capabilities and role in macroeconomic coordination, financial and capital account issues. These measures are as important as our governance reform recommendations.

I. INTRODUCTION

This section summarizes the Committee's point of departure on Fund governance.

1. ***Global financial stability***. The world needs a strong multilateral institution at the center of the global financial system that with the support of various groupings and standard setters secures a critical public good, namely, global financial stability, with the benefits of smoothly functioning financial markets accruing to the entire global community.[1] This good could be attained through effective action addressing macroeconomic policy and its coordination, financial regulation, and provision of liquidity.

2. ***Fragmented responsibility***. In recent years, the responsibility for securing global financial stability has become fragmented and the Fund's advice has lost traction and influence.

- Some advanced countries have preferred to seek resolution of monetary and financial issues in other, smaller international fora implying a diminished commitment to multilateral solutions to international economic and financial challenges.

- Emerging markets and developing countries have perceived their voice and quota shares at the Fund to be far short of their role in the global economy, and believe they receive unfair treatment (more intensive surveillance and heavy conditionality) and insufficient attention to their needs (loan size and instruments, policy advice).

- Their engagement at the Fund has been further diminished by the failure of the Fund's financial resources to keep pace with private capital flows; many economies are simply too large to benefit greatly from the financial support that is presently available.

- At the same time, the Fund's powers and advice in areas of increasing importance to the sustainability of economic growth such as the capital account have not kept up with members' needs. The lack of an explicit mandate to oversee global financial stability in all its dimensions—financial sector, domestic macroeconomic policies, and currency arrangements—has reduced the effectiveness of Fund surveillance.

The result has been a Fund that is ineffective in critical areas and struggles with a lack of ownership by the main actors in the global economy. This has reduced the Fund's relevance, and resulted in a de facto delegation of core financial sector work to a range of narrower and specialized agencies, networks, and working groups—all of which can claim expertise on selected issues, but no recognized responsibility for the overall stability of the global system. Naturally, all these bodies should play a fundamental role in a new

---

[1] The International Task Force on Global Public Goods defines global public goods as "issues that are broadly conceived as important to the international community, that for the most part cannot or will not be adequately addressed by individual countries acting alone and that are defined through a broad international consensus or a legitimate process of decision-making" (p. 13 of the Final Report).

international financial architecture. However, a stronger IMF and greater collaboration with these bodies would be helpful for the discharge of the obligations of both.

3. ***Need for a multilateral solution***. The upheaval in the world economy is a reminder of two stark realities. First, financial and macroeconomic instability is not limited to just emerging market and developing countries, but a risk to all countries, with today's crisis originating in the most advanced part of the world economy and spreading to its various corners. Second, an effective mechanism for discussing risks to global financial and macroeconomic stability irrespective of their sources, and for coordinating policy responses, has been lacking. The need for greater coordination demonstrates the importance of multilateral solutions and assistance – both technical and financial – to countries in an integrated world. A multilateral institution at the center of the global financial system would have responsibility for the overall stability of the system, providing a forum for discussion, analysis and action on macroeconomic policy, financial regulation, and liquidity provision.

4. ***Global role***. Fulfilling the global role we have in mind requires a set of basic criteria:

a) Such an institution must have a global membership and an agreed set of norms and standards to which all countries subscribe.

b) It must have a legitimate and effective voice to establish and defend the norms and standards needed to deliver financial stability.

c) It needs to articulate a clear view of the global situation and play a guardian role, providing a platform for those countries less represented, but deeply affected by problems at the core.

d) It should seek to ensure compliance with norms to prevent financial instability, and have the courage to speak truth to power.

e) It should work in cooperation with other international bodies and standard setters (e.g. the Financial Stability Forum).

f) It must be respected for its expertise and capable of adjusting its skill mix in line with changes in the global financial markets.

g) It should have the financial resources appropriate to its mission of delivering global financial stability over time.

5. ***Role of governance reform***. The Fund has structural strengths that make it well-placed to play this multilateral role. First, its universal membership is the basis of the multilateral framework currently in place and could provide an effective global forum for the resolution of global problems. Second, its professional staff and management are able to provide high quality technical advice. However, until the Fund is viewed as legitimate and appropriate for the discussion and resolution of global macroeconomic issues, it will remain peripheral and unable to achieve the overall stability mandate envisaged by its founders and shareholders.

6. Having an effective voice, articulating a clear view of the global situation and playing a guardian role, monitoring compliance with norms to prevent financial instability, and working with other inter-governmental institutions involves having an appropriate governance framework. With higher-level and more balanced political representation, better strategic guidance and policy direction, clearer executive authority, as well as an expanded mandate to cover issues beyond a narrow conception of external stability, the Fund's strengths could be enhanced to enable the institution to deliver effective multilateral solutions to global financial, monetary and economic problems.

II. Drawbacks in the Fund's Current Governance Framework

The world has changed dramatically since the Fund's founding, yet the key features of the Fund's governance structures have not.

7. ***Legitimacy and Effectiveness***. The governance of the Fund has two dimensions.

- The first is that pertaining to power-sharing ("chairs and shares"). The Resolution on Quota and Voice Reform approved by the Board of Governors on April 28, 2008 reflected some adjustment to the current dispensation, with a commitment to adjust shares further over time as part of an ongoing process. However, the changes in voting power have thus far been marginal compared with the changes that have occurred globally, and the process of periodic adjustments is painfully slow—the next installment is not until 2013!

- This process needs to be accelerated and brought forward. Given the time commitments involved for negotiations, we urge that the current agreement be ratified immediately, and that members build on their pledge of last April to make quota reform an ongoing dynamic process by bringing forward the next quota exercise for completion by the Spring Meetings in 2010.

- The second dimension of governance covers the decision-making process itself; i.e. how members actually exercise their voting power (Box 1 provides an overview of the existing decision-making structure of the Fund).

- While this dimension of governance of the Fund has received less attention than the quota and voice issues, it is equally important. Current decision making structures have not helped build trust, confidence or legitimacy across the membership. Some shareholders, particularly advanced economies, have avoided some of the responsibilities and standards that others have found important. As part of a multilateral system, external evaluation and peer review should not be optional for any member.

- Existing governance bodies and formalistic procedures have impeded timely and effective responses, and have generated the systematic use of more informal processes that undermines good governance.

Box 1: An Overview of the Existing Decision-Making Framework of the IMF

A resident Executive Board, comprising of civil servants appointed or elected by member countries, currently takes many key decisions of the Fund, whether they are of a strategic or operational nature. These decisions are normally taken up by the Executive Board at the initiative of the Managing Director, based on the recommendations of staff and the institution's work program. The IMFC formed of the most senior political authorities in the areas of finance and monetary policy provides broad guidance to the institution through meetings and communiqués issued twice yearly.

As a financial institution, with resources derived from subscriptions, members control decisions regarding the use of resources, in proportion to their subscription. *As a regulatory institution*, the concept of "peer review" has been an important feature of the Fund's assessment of members' observance of their economic policy obligations under the Articles of Agreement.

For the most part, members exercise control over the decision-making process through the Fund's Executive Board. The Executive Board currently consists of 24 Executive Directors, who are either elected or appointed by members, and is in continuous session at Fund headquarters. With some exceptions, it is responsible for taking both strategic and operational decisions of the Fund – and therefore performs both a legislative and executive role.[2]

Strategic decisions cover broad financial issues (e.g., approval of general terms of credit facilities, such as access limits and repayment periods) and regulatory issues (e.g., the 2007 Surveillance decision that guides Fund assessments of member country policies).

Operational decisions cover the day-to-day application of strategic decisions, be it in the financial area (e.g. the approval of a specific credit arrangement for a member) or on the regulatory side (e.g. the Fund's assessment of a particular member's policies under the Article IV Consultation).

As a general matter, the Managing Director exercises the power of initiative. Most decisions taken by the Executive Board are proposed by the Managing Director and supported by the staff's technical analysis. Similar initiative is exercised in terms of individual Fund programs and the technical discussions that provide the basis for Article IV Consultations.

The Managing Director also has the authority to take a limited number of operational decisions. The allocation of authority between the Executive Board and the Managing Director with respect to operational decisions has been fluid in some respects, reflecting the changing needs and priorities of the Fund. In some circumstances, the Executive Board has ceded authority to the Managing Director (since 1991, for example, requests for technical assistance from members no longer require Executive Board approval). In other cases, the Board has placed additional limitations on the authority of the Managing Director (e.g. requiring consultation with the Board while negotiating a financial arrangement with a member that exceed the access limits prescribed by policies on the use of Fund resources).

[2] The exceptions relate to powers reserved for the Board of Governors, the supreme decision-making organ of the Fund—such as decisions on changes to members' quota subscriptions—and certain operational decisions taken by the Managing Director.

8. ***Political voice***. High-level political representation on a decision-making body that provides strategic and policy direction, and discusses macroeconomic and financial policy coordination, is needed.[3] The absence of such a body not only contributes to the perception of a "democratic deficit" but also limits engagement of senior policymakers on critical and systemic issues. These shortcomings are not entirely corrected for by the current International Monetary and Financial Committee (IMFC), which is an advisory body. In the absence of any institutional imperative to take concrete decisions, the outcome of high-level global deliberations are of too general a nature to come to grips with emerging systemic problems.

9. ***Executive Board***. The Executive Board is a body with high technical and professional capacity, but its members have tended to be viewed as international civil servants, rather than political representatives, and are often removed from actual policy-making at the national level. The Board is also not always well-placed to exercise genuine oversight over management. In practice, the Board's mandate conflates too many governance objectives (political voice, day-to-day operational decisions, broad oversight of the institution, and strategic vision), diluting its ability to give strategic direction and undermining the technical value of its operational decisions.[4]

10. ***Overlaps and gaps***. Best practice in corporate governance requires clarity of roles and responsibilities, which the Fund's current governance framework does not accomplish. Components of institutional decision-making—namely, the legislative function, the executive function, and a means of measuring performance and holding the executive accountable—are insufficiently delineated and assigned. The IMFC lacks the mandate to take strategic decisions; the Board is too stretched in day-to-day operational decisions to be able to set broad strategic directions; and there are few explicit systems for measuring management and board performance and holding them accountable.

11. ***Mandate***. Governance reforms to address the above drawbacks need to be complemented with other measures. The ongoing crisis confirms the extent to which financial stability has become a global public good and the need for updating the Fund's mandate. While the Fund is mandated to exercise firm surveillance over exchange rates, addressing this crisis and future ones also implies more attention to financial sector issues and how they intersect with macroeconomic policies (see Box 2). The Fund's relationship

---

[3] The need for a decision-making body made up of senior policy makers was recognized when the Fund's Articles were amended in 1978. The amended Articles allow for the activation of a Council made up of governors, ministers, or "persons of comparable rank" that would be appointed on the same basis as Executive Directors are appointed or elected. Since 1978, calls have been made—notably after the Mexican and Asian crisis of the 90s—for the creation of the Council. Most recently, the Independent Evaluation Office of the IMF also recommended activating the Council in its evaluation of corporate governance of the Fund (Independent Evaluation Office, 2008, "Governance of the IMF: An Evaluation," IMF, Washington, DC).

[4] As noted in the IMF's IEO report on corporate governance, "the Board has played only a reactive role in strategy formulation and it has not been effective in monitoring policy implementation. The Board's involvement in day-to-day operations has deflected its attention from these needed oversight functions and constrained its ability to perform them in an independent manner." (IEO, 2008, "Governance of the IMF: An Evaluation," IMF.)

with the Financial Stability Forum (FSF) as central regulatory standard setter will be crucially important, and we welcome the enhanced collaboration already embarked on, especially on early warning.

Box 2. The IMF's Mandate

According to Article IV of the Articles of Agreement, members have a general obligation "to collaborate with the Fund and other members to assure orderly exchange arrangements and to promote a stable system of exchange rates". To that end, the Fund is charged with exercising firm surveillance over the exchange rate policies of its members. As a result, domestic and financial sector policies are, in large measure, assessed in as much as they impinge upon the external account.

Domestic policies

The current global financial crisis shows that domestic policies, and in particular financial sector policies, cannot be assessed only in terms of the balance of payments impact. In this crisis, the hit to the financial sector was not transmitted to the rest of the world through a collapse in currencies and forced adjustments of the global imbalances. For example, while the U.S. had been one of the largest deficit countries entering the crisis, the U.S. dollar strengthened in a global flight to safety; and the U.S. deleveraging process prompted a "sudden stop" of capital flows from major money centers to emerging market and developing countries. Thus, a narrow focus on external stability can be highly misleading. An amendment of the Articles that would provide the Fund with a broader mandate for effective surveillance would give equal importance to macroeconomic and prudential policies and financial spillovers.

Capital account

Our Committee considered the issue of oversight of cross-border financial policies and spillovers. A way forward would be to extend the Fund's jurisdiction over the current account to also cover international capital movements by amending the Articles; a recommendation made by the advisory Interim Committee urged the Executive Board to do so in 1997/98. The objective was to ensure that changes to capital account policies were pursued within a multilateral framework in a manner that took into account macroeconomic stability and the regulatory capacity of members. The objective was never to champion the liberalization of capital movements per se, but rather to ensure that countries adequately assess domestic macroeconomic and financial risks ahead of liberalization. If the proposal were taken up now, it would require the Fund to establish the capacity to effectively monitor capital account policies of members and ensure that restrictions imposed (as allowed under Article VI, Section 3) are non-discriminatory.

Article IV reports should in any event take up capital account issues where they are relevant, and address spillovers and linkages across borders. Multilateral surveillance, exercised principally through the WEO and the GFSR, should also take up these issues in greater depth than has been the case so far.

III. TOWARDS A NEW GOVERNANCE FRAMEWORK

12. ***Key recommendation***. We propose a new governance framework to harness the Fund's strengths to work effectively in pursuit of the overall aims of the institution. The central objectives of governance reforms must be to enhance clear leadership, enable effective executive decision making, and increase accountability to the membership.

13. ***Approach***. Each of the main governance bodies needs change with a view to enhancing its effectiveness. A major impact on governance comes from activating the Council and amending the remit of the Executive Board. Freeing the Board from day-to-day and routine decisions would not only be consistent with best practices in the corporate context, but would create the basis for truly effective oversight and the capacity to provide more substantive strategic advice to the Council and Management. A refocusing of the Board would also facilitate greater focus by Management on outputs and create greater efficiencies and accountability in the overall operation of the Fund.

- Political representation at the strategic level—a ministerial-level Council to provide more direct political voice to the Fund's decisions. Representation on the Council would be enhanced by "direct" voting that enables splitting of constituency votes, which is allowed under the Articles of Agreement.

- Since the Council would have legal powers, it should take strategic decisions, which would constitute the general "legislative" decisions; e.g. the adoption of the Surveillance Decision and the establishment of new financial facilities. It should also among other functions engage in policy coordination and react to emerging risks.

- The Managing Director would be responsible for operational decisions, notably the application of the surveillance "legislation" in country-specific cases.

- The Executive Board would have four functions: (i) it would oversee the work of the Managing Director and staff, including surveillance, thus enforcing accountability; (ii) it would advise the Council on strategic decisions and prepare its work; (iii) it would be responsible for decisions on use of Fund resources; and (iv) it would take decisions on internal matters with major financial implications, including setting the medium-term budget and the staff compensation framework.

14. ***Fundamental leadership reform***. We want to be clear that we are calling for a fundamental reform of the IMF's governance structures, not a mere re-labeling of existing ones. Changing the name of the IMFC to the IMF Council and giving it *de jure* decision making authority is unlikely to accomplish much. As discussed below, changing the composition of the Council, with a membership that reflects global economic realities, is essential for legitimacy. As recognized under the Articles, the members of the Council must be at a sufficiently high level of authority, namely, the finance ministerial level, to discuss core global macroeconomic and financial issues, if there is to be traction. Furthermore, devolving responsibilities (e.g., the surveillance function) to management and staff, must lead to greater agility and accountability, not a weakening of peer review.

15. ***Engagement***. The reform package is far reaching and requires the personal involvement of Ministers and Governors, preserving as much as possible consensus as the predominant pattern of decision making. This will require from all a spirit of multilateralism, leadership, and ownership. The reforms will improve decision-making in the Fund, enhance capacity to engage in critical economic and financial issues of the day, and improve the effectiveness of the institution's advice and financial support to its members.

IV. Enhancing Political Voice in Decision Making

Since the management of globalization demands a strong multilateral framework, one core element of a governance reform package should be a high-level political voice in the Fund's decision making. The Fund's Articles of Agreement already provide for such a voice.

16. ***A Council***. The Articles of Agreement empower the Fund's Board of Governors to establish, by an eighty five percent voting majority, a Council to be composed of ministers, governors, or "persons of comparable rank". This Council would be responsible for strategic issues, namely, to "supervise the management and adaptation of the international monetary system, including the continuing operation of the adjustment process and developments in global liquidity."

17. ***Scope***. The Articles provide for flexibility in determining the scope of the Council's functions, which can be determined by the Board of Governors on an ongoing basis and should be responsive to changing circumstances. It seems critical to us that the Council should embody and practice a reinvigorated spirit of multilateralism, realized by an explicitly forward-looking agenda covering global and regional macroeconomic and financial issues.

18. ***Weight***. A Council would enhance the gravitas of decisions made and the speed of response so addressing two common sets of complaints about Fund decision making.

19. ***Functions***. Given that a high-level Council would take decisions on issues that are strategic in nature, it should be composed of ministers and governors. We propose that the functions include:

a) Discussing when needed policy coordination;

b) Establishing new financing facilities and other decisions of general application (i.e., the legislative function; see Box 2 for an example);

c) Building consensus on the set of norms and standards to which all members subscribe and providing for their adoption;

d) Launching and completing new rounds of multilateral consultations, including regional surveillance;

e) Reviewing developments, identifying emerging risks, and providing a forum for discussing and coordinating systemic macro and financial policies;

f) Reviewing key Management and Board decisions, particularly surveillance of systemically important issues or countries, and increased accountability (Box 3); and

g) Appointing the Managing Director through an open, transparent and merit-based selection process.

20. ***Operations***. The Council needs to operate with a high degree of peer review, mutual accountability, and consensus. This would be facilitated by the following proposals for deciding its leadership and agenda.

- ***Leadership and participation***. The adoption of informal understandings or conventions concerning its leadership would enhance further the legitimacy of the Council, both in terms of securing broader regional representation in its leadership and ensuring systematic turnover. The chairperson, selected every two years, should be assisted by two additional Councillors in a "troika"-type arrangement—i.e., the former chair and the following chair, which has the benefit of enhancing ownership and allowing for sufficient continuity.

- ***Agenda***. The leadership should set the agenda, taking input from Fund management and the Board. The Board in particular should assist in distilling research and policy discussions into actionable format for the Council's deliberations. This would enable the Council to hold meetings focused on a specific set of systemic, strategic or policy issues, on the basis of brief background notes.

- ***Meetings***. The Council should meet at least twice a year, during the Annual and Spring meetings, with ad hoc meetings as needed. Such flexibility would allow the Council to act rapidly and effectively. In addition to receiving input from the Executive Board, management would be expected to make periodic reports to the Council, as is the case with the IMFC.

21. ***Configuration***. Getting right the composition and size of the Council and Board is critical to the governance reform project. The Council must be of the highest possible legitimacy and representation, and aimed at enhancing the role and effectiveness of the Fund. It must, thanks to an appropriate and effective system of constituency, represent all 185 Fund members. Representation in the Council should reflect current economic realities and be adjustable over time.

22. ***Size and composition***. The Council and the Board need to be small enough to be workable but large enough to be representative. The Fund's Board of 24 warrants consolidation. The easiest approach is to move to 20 seats, as envisaged in the Articles of Agreement, to ensure effective representation without loss of efficiency. Since the size and composition of the Council and Board, according to the Articles, need to mirror each other, steps will need to be taken in the near term to allow for greater representation of emerging and developing economies at the Board, so that the Council is established with as much legitimacy as possible right from the beginning.

23. ***Relationship to quotas***. Bringing forward the quota review to realign existing shares with members' global economic weights is fundamental to achieve the optimal composition. The current quota and voice reform will lead to a realignment of existing shares, primarily through redistribution among the group of emerging market and developing economies. Further realignments of shares are expected in the context of future general quota reviews, beginning with the 14th general review currently scheduled for 2013. This process is far too gradual. A more thorough and far-reaching revision to the quota formula will help to improve

the political legitimacy of the Council. As noted earlier, we recognize that quota negotiations are difficult and time consuming, and recommend approving the current reform resolution and bringing forward the next quota review to 2010.

24. ***Appointed chairs***. Additionally, achieving the right composition can be facilitated by eliminating the requirement of appointing five chairs for the largest quota-holders. Instead, all chairs should be elected, which would also help consolidate European Union member countries and so achieve a better balance between advanced and emerging market/developing countries.[5]

25. ***Voting***. Voting in the Council provides for a more direct political voice and representation. According to the Articles, the Councillor appointed by a group of members *may* cast separately the votes allotted to each member in the group, unlike at the Executive Board, where Executive Directors elected by multi-country constituencies must cast the votes of their constituencies as a block. Votes at the Council do not have to be split, and the rules for each constituency could make clear when splitting would occur. This is an important safeguard for countries that by virtue of their constituency rules, size, or interests will not be present on the Council.

26. ***Broad majority***. We believe nevertheless that it is important for the Council to operate as fully as possible by consensus, as it is with the Board and the present IMFC. In this respect, voting rules have a way of helping participants move towards consensus by maintaining the underlying prospect of moving to a vote. To strengthen the democratic process, we suggest lowering the voting threshold on critical decisions from 85 percent to 70–75 percent. Additionally, consideration could be given to extending double majorities to a wider range of decisions thus ensuring that those decisions affecting key aspects of the institution command the support of the majority of members of the organization. [6]

[5] Providing for the election of all Executive Directors would require an amendment of the Fund's Articles. Currently, there are 10 European Directors on the Board, 8 of whom are from EU countries. Consolidating European chairs—8 EU chairs going for instance to 2 or 3—would enhance the voice of the region while making more space for emerging market and developing country directors and allowing for a reduction in the total number of chairs.

[6] We recognize that these changes would involve amendments to the Fund's Articles. A double majority is used already at the Fund – Article XXVIII, Section A provides that an amendment of the Articles requires support by three-fifths of the members, having 85 percent of the total voting power.

Box 3. Increased Accountability

An important advantage of our proposed delineation of responsibilities is enhanced accountability of Management and the Executive Board. The Council would be able to identify more clearly successes and failures in the fulfillment of the Fund's mandate and the meeting of strategic priorities. For instance, if important IMF programs fail to deliver results, Councillors may want to ask what role Fund advice and conditionality played—or failed to play—in this outcome.

Management would be held accountable by the Board through ex ante goal setting and ex post performance assessments. The Board in turn would be held accountable by the Council, who may commission reports on the Board's performance as and when desired.

V. RECONFIGURING GOVERNANCE RESPONSIBILITIES

The clear demarcation of responsibilities between the Board and Management is a central objective of governance reforms. Should the Board continue to take the vast majority of day-to-day operational decisions with Fund management, should Fund management be responsible for operational decisions and the Board have mainly a supervisory and an advisory function, or should there be a blend of responsibilities with some delegation of operational responsibilities to management? We recommend the blended option.

27. ***The Board as an executive body***. With the Council making key strategic decisions, one option is for the Board to be responsible for applying these decisions in individual cases and retaining a far-reaching executive function with respect to key operational matters. While this governance framework would ensure that members maintain close political control over the key operational decisions of the Fund, such as the approval of Fund financing to individual member countries, it would not establish a clear delineation of responsibilities between the Executive Board and the Managing Director that is critical to enhancing accountability. Moreover, once the responsibility for taking strategic decisions is transferred to the Council, it is likely that the Executive Board's involvement in the day-to-day management of the Fund will increase. This form of Board operation would involve high costs, reduce accountability, and generally slow decision making. It would also do little to improve representation of emerging markets and developing countries in the Fund's operational decisions.

28. ***Clear delineation of responsibilities***. An alternative framework is to give the responsibility for all operational decisions to the Managing Director. In this conception, the Board would be responsible for (a) exercising independent oversight over the Managing Director, and (b) making recommendations with respect to the strategic decisions to be made by the Council. This option delineates responsibilities clearly and enables the exercise of oversight in an independent manner, consistent with the best practices in the corporate governance context. The Board would perform ex post oversight as opposed to ex ante checks and balances. The main drawback, however, is that there would be limited member involvement in programs and the use of Fund resources.

29. ***A blend***. Our recommendation is a blended approach, wherein operational decisions involving Fund financing are retained by the Executive Board. It is only natural that members control decisions regarding the use of the Fund's resources. In this vein, the Board would also be responsible for internal decisions with major financial implications, including setting the medium-term budget and general compensation framework. Management would conduct surveillance, continue to have the responsibility to make staff appointments, and would have the discretion—within the framework of strategic priorities, Fund policies and the medium-term budget—to conduct surveillance and allocate resources to achieve the given priorities. Table 1 summarizes our proposed delineation of responsibilities. This greater delineation of responsibilities would permit increased accountability of management and the Board, which in turn would allow members to clearly identify successes as well as failures.

Table 1. Delineation of Responsibilities among the Council, Board, and Management

Council	**Board**	**Management**
Legislative functions in "critical" areas (which are defined responsively over time) - e.g. surveillance mandate, establishment of financing instruments and facilities	*Legislative functions in "non-critical" areas*, such as: - Routine reviews of and non-critical amendments to existing Fund policies and lending instruments - e.g. review of data provision to the Fund	Exercises initiative (status quo)
	Advisory role to Council: - provides input on preliminary policy papers on the critical legislative issues	Exercises initiative (status quo)
Regulatory function—surveillance: - early warnings and policy responses - concludes multilateral consultations	*Regulatory Function – Surveillance* - quarterly review of themes from Articles IVs	*Surveillance:* - concludes all Article IVs - however, the concerned ED/ group of EDs (at least 5) could ask for discussion - WEO/GFSR/early warnings
Financing decisions Legislative function for key financial policies and instruments	*Financing Function #1 Arrangements* - approval of arrangements - completion of reviews - waivers of PCs Advisory role in recommending new policies and instruments to the Council	Exercises initiative (status quo)

Strategic Priorities : - defines medium-term priorities	*Financing function #2: Budget* Sets medium-term budget and general compensation framework	*Operational autonomy on allocating resources to achieve priorities:* - develops and implements annual budget consistent with medium-term priorities and framework - free to appoint, organize, and dismiss staff (status quo)
Selection of MD: Sets out criteria for MD selection and conducts open, transparent, and merit-based selection process. MD remains Chair of the Board.		- MD appoints DMDs on approval of the Board (status quo)
	Supervision over management: - Review of management's performance including ex post assessment (on Article IVs and meeting medium term priorities)	- In matters of oversight over the MD, the dean (or another Board member) chairs the Board (status quo)
Supervision/accountability of Board: - reviews report on Board, prepared by the Council or by a subset of Councillors (as and when desired)		

VI. Delegating Responsibilities to Management

Responsibilities given to management include the authority to ordinarily conclude Article IV consultations with members and develop and implement annual budgets to meet the institution's strategic priorities. An open, transparent, and merit-based system for the selection of the Managing Director is essential.

30. ***Devolve some decision making***. A more modern structure of the Fund, with a more accountable Managing Director to oversee the work of a professional staff, is sorely needed. Our sense is that the Board is too involved in the day-to-day running of the institution. Accordingly, we propose a devolution of decision-making authority to management from the Board in the areas of surveillance and resource allocation:

31. ***Surveillance***. As reported in the recent Triennial Surveillance Review of the IMF, most country authorities note that IMF surveillance adds significant value, as an integrated macroeconomic assessment from a global perspective, as a test against the authorities' own judgments, as a transparent source of standardized information, and as a source of specific

policy advice. However, this added value tends to come at the conclusion of the Article IV consultation missions during briefings of senior officials.

32. ***Candor***. A greater measure of devolution, moreover, would help to alleviate political constraints imposed on staff's technical analysis. Where surveillance includes advice on multilateral issues, the candor and value of staff's assessments and early warnings could be significantly enhanced.

33. ***Functions***. Management should continue to exercise the power of initiative in the legislative and financing areas. It should also continue to have autonomy in the appointment, organization, and dismissal of staff. In addition, management should conduct surveillance under Article IV. The Board should have the option of requesting a discussion if asked for by the relevant ED or a group of EDs (at least five). Management should have the flexibility to allocate resources—within the overarching policy framework and strategic decisions—to best achieve the surveillance mandate. Accordingly, management should be given the authority to develop and implement annual budgets, within the medium-term budgetary and general compensation framework set by the Board.

34. ***Selection of the MD***. If the Fund is to provide leadership in the global financial system, then the Managing Director must be a world figure or symbol representing global financial stability and a credible and effective spokesman for these values. As such, the selection of the MD should occur through a transparent, open, and merit-based system.[7] The participation of the Council in the MD's selection process is essential. According to the Articles, the Board selects the MD, who serves as its chair. We propose that the MD be appointed by the Council and continue to serve as the chair of the Executive Board. The Articles would need to be amended accordingly.

35. ***Selection of the DMDs***. Although the three Deputy Managing Directors (DMDs) are members of the staff and chosen by the MD, there is a clear perception—confirmed by practice—of reserving the position of first DMD to the U.S. The selection of the DMDs should occur through a transparent, open, and merit-based system.

36. ***Accountability***. As the scope of responsibilities of management increases, so too does the need for effective accountability. A key function of the Board will be to review management's performance and hold it responsible for the conduct of surveillance and fulfillment of strategic priorities and for the effectiveness of the Fund's technical assistance to countries. All members of the management team should be subject to an assessment of their performance by the Board according to clear benchmarks, including taking into consideration the opinion of the staff.[8]

---

[7] A selection process for the Managing Director was adopted by the Executive Board in July 2007; see Press Release No. 07/159 (http://www.imf.org/external/np/sec/pr/2007/pr07159.htm).

[8] A Working Group of Executive Directors on the Framework of the Managing Director's Performance Evaluation, chaired by the Dean of the Executive Board, was established in January 2008 to establish an accountability framework for the Managing Director.

VII. STRENGTHENING THE EXECUTIVE BOARD

The role of the Board needs to adjust to the institution's evolving needs. It is too "in the weeds" of day-to-day operations and pro-forma commentary to provide meaningful oversight of the Fund.[9] *It should be strengthened to serve as advisor to the Council, given its intimate knowledge of the institution; becoming more supervisory—as Fund management takes on more operational duties—but also retaining fiduciary/financing responsibilities. The Board should be made more representative of the membership.*[10]

37. ***Functions***. A new role for the Board is essential to the success of the Fund. With an intimate knowledge of the institution, the Board can assist the Council on strategy by providing perspective and advice and in taking policy decisions in areas of a lesser systemic importance. It should continue to decide on the use of Fund resources, with streamlined work practices, and it should perform a more supervisory role over Management.

- *Advising the Council*: the Board should advise the Council on emerging issues and decisions, and provide input in the preparatory stages of new Fund policies in critical areas. It should also provide quarterly or semi-annual reports to the Council on cross-cutting themes that emerge during Article IV consultations.

- *Legislative*: the Board should legislate in ordinary areas of Fund policy review and formulation, such as reviews of access policies.

- *Financial*: the Board should continue to decide on the financing arrangements. It should formulate the medium-term budget and compensation framework.

- *Oversight*: clearly delineating the responsibilities of the Board and management in the area of surveillance allows the Board to supervise management's performance, without a conflict of interest. This oversight function is critical to ensure that the Council's strategic priorities and the surveillance mandate are being fulfilled. The Board could conduct select ex post reviews of surveillance reports, and construct and implement a framework for management accountability, providing an overall assessment every 12 months.

---

[9] The Board currently reviews over 80,000 pages of paper annually. Board offices are about 10 percent of total Fund personnel, taking up 8 percent of the budget—over $57 million for the Board offices, and nearly $12 million for the Secretary's Department to service the Board.

[10] In its evaluation of IMF governance reform, the IEO recommended that the Board take on more supervisory responsibilities, with improved representation to ensure a more equal voice of members in strategy formulation. It also recommended delegating authority to management on "certain non-systemic" country issues such as program reviews and some Article IV consultations. The IEO considered the merits of a non-resident Board, though it concluded that the IMF Board should remain resident. See "Governance of the IMF: An Evaluation"; Martinez-Diaz, Leonardo, "Executive Boards in International Organizations: Lessons for Strengthening IMF Governance," IEO, BP/08/08; and Chelsky, Jeff, "The Role and Evolution of Executive Board Standing Committees in IMF Corporate Governance," BP/08/04.

38. ***Structure and staffing***. The functional reform of the Board implies changes to its structure, meetings, and staffing. A lower day-to-day workload from a reduced surveillance function could help to lower overhead costs as offices are made smaller. Lower costs would also derive from less frequent meetings implied by a more supervisory and advisory role.

39. ***Resident or non-resident Board?*** The current practice of meeting thrice a week increases the tendency to micromanage, blunting the Board's efficiency and effectiveness. While a non-resident Board could be considered, it may be preferable to maintain a resident Board, but with fewer meetings and a lighter presence.

- A restructured workload for the Board has implications for the frequency of meetings and the need to delve into minutiae. A non-resident Board would create even greater scope for the Board to provide Management and the Council with the strategic advice that we believe is an important function for the Board.[11]

- A resident Board, however, allows members' concerns to be heard at an early stage, and allows for members to build specific human capital on the institution's complexity and advise Councillors. It enables it to take decisions in a timely manner that relate to the use of the Fund's resources. For these reasons, we recommend maintaining a resident Board, albeit with significantly smaller offices.

- Consideration could also be given to another configuration based on the appointment of a high-level, non-resident Executive Director, such as a minister's deputy or sherpa, who attends meetings in the Fund's headquarters for a week every two months and participates via video/teleconference as necessary. This would have the effect of upgrading the Board. A resident alternate Executive Director would then take decisions in the Executive Director's absence and would handle only urgent or unexpected business. Key to the success of this configuration would be the determination of the highest national authority to preserve the seniority of the appointed Directors, avoiding the practice of delegating downward.

40. ***Composition***. The composition of the Board should be improved to reflect the current economic realities. [12] This is a fundamental issue to enhance Fund legitimacy. Emerging market economies are clearly underrepresented at the Board. Furthermore, we

---

[11] Both Bank of England Governor Mervyn King and US Treasury Secretary Henry Paulson recommended consideration of a non-resident board. Governor King said, "serious consideration should be given to a non-resident Board, meeting some six to eight times a year with directors comprising senior finance ministry or central bank officials" (speech on the "Reform of the International Monetary Fund," Indian Council for Research on International Economic Relations, New Delhi, India, February 20, 2006). Secretary Paulson remarked, "a non-resident board could free-up resources and enable management to focus on issues of more strategic importance" (http://www.treas.gov/press/releases/hp1285.htm).

[12] The Articles provide that the minimum number of Executive Directors must be 20 (5 appointed plus 15 elected). The Board of Governors may, by an 85 percent majority, increase the number of elected Executive Directors (and has done so over the years) or decrease the number.

recommend moving towards electing all chairs, which would allow for consolidation. Constituencies at the Board could make their own rules, within reasonable bounds.

VIII. Implementing the Reform Package

41. ***Package***. Restoring the Fund to the center of the international financial system is a daunting yet urgent task involving issues that have been left to the side for too long. Fortunately, there is a considerable amount of work underway, both within the Fund and in the G-20. We believe that immediate changes to the mandate of the Fund and its governance present the approach most likely to result in significant benefits for the effectiveness of the Fund. The required amendments to the Articles of Agreement and a new timetable for quota reform need to be set in motion in the very near future to facilitate the establishment of the Council and associated governance reforms as soon as possible. We believe that an explicit package should be composed of the following actions:

a) That a revised timetable be set out as soon as possible for further quota and voice reform, with the intention of completing a new round of revisions no later than the 2010 Spring Meetings.

b) That the composition of the Executive Board be adjusted to reflect economic realities and allow for greater representation of emerging market economies.

c) That the Council be activated through a vote of the Board of Governors and its composition adjusted in line with quota revisions proposed above.

d) That the Articles of Agreement be amended to remove the requirement that the five countries with the largest quotas are required to appoint their own Executive Directors, and that constituency reforms be made to achieve the needed consolidation of chairs, including of European countries, and for whatever other adjustment which could be seen as appropriate.

e) That the Articles be amended to expand the Fund's surveillance mandate beyond exchange rates to provide equal coverage of macroeconomic policies, prudential issues and financial spillovers. The capital account would also fall within the mandate.

f) That decision-making authority on surveillance and resource allocation be devolved as suggested to Fund management shortly after the creation of the Council, while the Board take on advisory responsibility to the Council and oversight responsibilities over management.

g) That the Articles be amended to lower the voting threshold on critical decisions from 85 percent to 70–75 percent, and consideration given to extending double majorities to a wider range of decisions, thus ensuring that decisions affecting key aspects of the institution command the support of the majority of members.

h) That the Articles be amended to provide for the appointment of the MD by the Council, and that the criteria for selecting the Managing Director and the Deputy Managing Directors be modified to allow for an open, transparent and merit based selection process.

42. ***Preferred timing***. Deferring this package of reforms at a critical time for the global economy has major drawbacks. The best way forward would be to implement the package as a whole in 2010, requiring speedy implementation of all measures. The Board of Governors would need to approve resolutions to amend the Articles by fall 2009.[13] The next round of quota revisions would need to be concluded by Spring 2010, and all necessary amendments to the Articles (for example, eliminating appointed chairs) ratified. The Council would be activated by mid 2010 by a resolution of the Board of Governors.[14]

43. ***Logistical support for Council***. The Council would require a support mechanism. The Fund's Secretary would be well placed to provide this support, to help ensure consistency and coherence among the different organs of the Fund.

IX. Conclusions

44. ***Defining moment***. We are at a defining moment for the global financial system and, by implication, for the relationships among countries. The institutional and policy-making landscape is changing in a rapid and unpredictable manner, driven not by a coherent global approach, but instead by separate reactions to the global financial crisis. As a result, the inadequacy of today's multilateral coordination is evident, multiplying the market accidents and policy mistakes.

45. ***Need for urgent and bold modernization***. Crises provide the opportunity and momentum for reform and radical change. We need to grasp this moment to put in place arrangements that forestall their recurrence. There is no decision-making body with the requisite political heft, national policy-making authority, flexibility, and widely acknowledged legitimacy to provide an effective mechanism for collaboration and response to early warnings and global financial problems.

46. ***Fundamental reforms***. To sustainably deliver the much needed public good of global financial stability, a broad package of IMF reforms is needed to its governance framework. This needs to be supported by adjustment to the Fund's mandate. Strategic direction and oversight of the global financial and monetary system needs to be imparted by a high-level political body that reflects global economic realities. A process for the

[13] Including but not necessarily limited to: eliminating appointed chairs; expanding the surveillance mandate including over domestic macroeconomic policies, financial spillovers and the capital account; lowering the voting threshold and possibly extending double majorities; and the appointing of the MD.

[14] In addition, the IMFC would need to be abolished through a vote of the Board of Governors. The By-Laws, Rules, and Regulations would need to be amended.

adjustment of quotas to facilitate better representation of emerging and developing economies should be set out, the composition of the Executive Board modified accordingly, and the decision-making Council of ministers and governors provided for in the Articles of Agreement activated. The Council must be small enough to be effective and representative, in addition to being highly representative of the world as we know it. All other governance tasks should be delegated to the Executive Board and Management, with greater delineation of responsibilities to further enhance the efficiency and effectiveness of decision making at the Fund. And while these reforms form a coherent package, it is necessary to bear in mind that implementation of some reforms will necessarily take longer than others. We urge members of the Fund to accept them as a package of reforms at this time, and to move speedily to implementation.

47. ***Fund resources***. The question of the adequacy of Fund resources remains a central concern of the Committee, although not strictly within its mandate. We appreciate the readiness of Japan to provide the IMF with an important bilateral loan, providing fresh and much needed resources at a critical time. This contribution and others that may be forthcoming may not suffice in the current global crisis, and so we conclude this report with an appeal for a substantial SDR allocation to be considered urgently.

APPENDIX I. COMMITTEE MEMBERS

- Trevor Manuel (Chairman), Minister of Finance, Republic of South Africa
- Michel Camdessus, Former Managing Director of the IMF and Honorary Governor, Banque de France
- Kenneth Dam, Professor of Law, University of Chicago
- Mohamed El-Erian, CEO, Pacific Investment Management Company
- Sri Mulyani Indrawati, Minister of Finance and Coordinating Minister of the Economy, Republic of Indonesia
- Guillermo Ortiz, Governor, Banco de Mexico
- Robert Rubin, Council on Foreign Relations
- Amartya Sen, Lamont University Professor, Harvard University
- Zhou Xiaochuan, Governor, People's Bank of China

APPENDIX II. TERMS OF REFERENCE

1. Over the past few months, significant progress has been made in the reform of the Fund's governance framework. The Fund's Board of Governors has initiated a process designed to realign members' voting power within the Fund in a manner that will enhance the Fund's effectiveness and legitimacy. Notwithstanding the importance of this initiative, a question remains as to whether the institutional framework of the Fund—through which members' voting power is actually exercised—also requires reform, taking into account the significant changes that have taken place since the Fund's establishment.

2. As a means of addressing this important question, the Managing Director is establishing a Committee that will assess the adequacy of the Fund's existing institutional framework and advise the Managing Director as to what, if any, modifications to this framework may be necessary to enable the Fund to fulfill its mandate more effectively. The Committee will be chaired by Trevor Manuel and will also consist of Michel Camdessus, Kenneth Dam, Mohamed El-Erian, Sri Mulyani Indrawati, Guillermo Ortiz, Robert Rubin, Amartya Sen, and Xiaochuan Zhou.

3. In conducting its work, the Committee is expected to consult broadly among the Fund's various shareholders and others, taking into account the need to obtain broad support from the Fund's membership for possible changes to the Fund's existing institutional framework. In that context, the Committee shall take into account the valuable report of the Fund's Independent Evaluation Office entitled "Aspects of IMF Governance—Including the Role of the Executive Board" and the views of the Fund's Executive Directors with respect to this report.

4. The Committee is expected to present its report to the Managing Director by the 2009 Spring Meetings. The Committee's work will be supported by a small secretariat selected from Fund staff.

APPENDIX III. PRESS RELEASE NO. 08/200: MANAGING DIRECTOR STRAUSS-KAHN APPOINTS COMMITTEE ON IMF GOVERNANCE REFORM

September 4, 2008

Managing Director Dominique Strauss-Kahn of the International Monetary Fund (IMF) today announced the appointment of a committee of eminent persons to assess the adequacy of the Fund's current framework for decision making and advise on any modifications that might enable the institution to fulfill its global mandate more effectively.

The committee, chaired by Trevor Manuel, Minister of Finance of South Africa, includes: Michel Camdessus, former Managing Director of the IMF; Kenneth Dam, Max Pam Professor at the University of Chicago; Mohamed El-Erian, co-CEO and co-CIO of Pacific Investment Management Co.; Sri Mulyani Indrawati, Minister of Finance of Indonesia; Guillermo Ortíz, Governor of the Bank of Mexico; Robert Rubin, Senior Counselor at Citigroup; and Amartya Sen, Lamont University Professor at Harvard University.

"Important progress has been made in the reform of the Fund's governance, including the initiation of a process to realign members' voting power within the Fund. However, the task of enhancing the Fund's legitimacy and effectiveness must also come to grips with the question of whether the significant changes since the establishment of the Fund require reform of the institutional framework through which members' voting power is actually exercised. Among other things, this requires careful consideration of the respective roles and responsibilities of the Board of Governors, the International Monetary and Financial Committee (IMFC), the Executive Board, and Fund Management," Mr. Strauss-Kahn stated.

"The committee's perspective, which I hope to have by next April, will provide yet another important input to our reform efforts, which have benefited recently from important work by many groups and individuals, including the Fund's Independent Evaluation Office; the Fund's Executive Directors, who have formed a working group to focus on these issues; numerous academics and analysts; and civil society groups. I want to thank these eminent persons for agreeing to bring their experience, expertise, and wisdom to bear on the on-going reform of IMF governance. It is my hope that concrete proposals can be distilled from this large body of work by September 2009," Mr. Strauss-Kahn added.

Background

The IMF is governed by, and is accountable to, its member countries through its Board of Governors. There is one Governor from each member country, typically the finance minister or central bank governor. The Governors usually meet once a year, in September or October, at the Annual Meetings of the IMF and the World Bank.

Key policy issues related to the international monetary system are considered twice a year by a committee of Governors called the International Monetary and Financial Committee, or the IMFC. A joint committee of the Boards of Governors of the IMF and the World Bank—the Development Committee—advises and reports to the Governors on development policy and other matters of concern to developing countries.

The day-to-day work of the IMF is carried out by the Executive Board, which receives its powers from the Board of Governors, and the IMF's internationally recruited staff. The Executive Board makes key decisions as well as selects the IMF's Managing Director, who is appointed for a renewable five-year term. The Managing Director reports to the Board, serves as its chair and is the chief of the IMF's staff, is responsible for ordinary business subject to the direction of the Board, and is assisted by a First Deputy Managing Director and two other Deputy Managing Directors.

INTERNATIONAL MONETARY FUND

IMF POLICY PAPER

December 2017

EXTENSION OF THE PERIODS FOR CONSENT TO AND PAYMENT OF QUOTA INCREASES

IMF staff regularly produces papers proposing new IMF policies, exploring options for reform, or reviewing existing IMF policies and operations. The following documents have been released and are included in this package:

- The **Staff Report** on Extension of the Periods for Consent to and Payment of Quota Increases, prepared by IMF staff. The proposed decision in the paper was approved by the Executive Board on December 27, 2017.

The IMF's transparency policy allows for the deletion of market-sensitive information and premature disclosure of the authorities' policy intentions in published staff reports and other documents.

Electronic copies of IMF Policy Papers

INTERNATIONAL MONETARY FUND

December 20, 2017

EXTENSION OF THE PERIODS FOR CONSENT TO AND PAYMENT OF QUOTA INCREASES

Approved By
Andrew Tweedie

Prepared by the Finance Department
(In consultation with the Legal and Secretary's Departments)

1. This paper proposes a further six-month extension of the period for members to consent to an increase in their quotas under the Fourteenth General Review of Quotas ("Fourteenth Review") through June 29, 2018.[1] The current deadline is due to expire on December 29, 2017.[2] However, Board of Governors Resolution No. 66-2 provides that the Executive Board may extend the period for consent as it may determine. An extension under Resolution No. 66-2 will also extend the periods of consent for quota increases under the 2008 Reform of Quota and Voice (Resolution No. 63-2) and the Eleventh General Review of Quotas (Resolution No. 53-2).[3]

2. This paper also proposes a further six-month extension of the period for payment of quota increases under the Fourteenth Review, and an extension for the payment of the quota increases under the 2008 Reform, through June 29, 2018.

3. As of December 18, 2017, five members had not yet consented to their proposed quota increases under Resolution No. 66-2 (see Appendix I).[4] Two of those members (Somalia and Sudan) are currently not eligible to consent to their quota increases under the Eleventh and Fourteenth General Reviews due to protracted arrears to the Fund in General Resources Account.[5,6]

---

[1] See Board of Governors Resolution No. 66-2, *Fourteenth General Review of Quotas and Reform of the Executive Board*, which can be found at: http://www.imf.org/external/pubs/ft/sd/index.asp?decision=66-2.

[2] See *Extension of the Periods for Consent to and Payment of Quota Increases* (06/22/2017).

[3] Paragraph 7 of Resolution No. 66-2 states: "For members that have not yet consented to their increases in quotas under the Eleventh General Review and under Board of Governors Resolution No. 63-2, the deadline for consent to such quota increases shall be the date determined by or under paragraph 4 above."

[4] Palau has not consented to its quota increase under the 2008 Reform. It has, however, consented to its quota increase under the Fourteenth Review but has not made payment of its quota increase.

[5] Resolutions No. 53-2 and 66-2 provide that no member with overdue repurchases, charges, or assessments to the General Resources Account may consent to, or pay for, its quota increase until it becomes current with respect to these obligations.

[6] See *Review of the Fund's Strategy on Overdue Financial Obligations* (8/20/2012), www.imf.org/external/np/pp/eng/2012/082012.pdf.

4. For the Fourteenth Review, under Board of Governors Resolution No. 66-2, each member shall pay to the Fund the increase in its quota within 30 days after the later of (a) the date on which it notifies the Fund of its consent, or (b) the date on which all of the general effectiveness conditions for the quota increases under the Fourteenth Review are met, provided that the Executive Board may extend the payment period as it may determine.[7] The initial 30-day period for payments has been extended seven times, most recently through December 29, 2017.[8] Continued progress is being made in implementing the quota payments.[9] However, some members have indicated that they require additional time to complete internal procedures for the payment of quota increases. Staff is following up with the authorities in each of these cases to facilitate timely arrangements for payments.

5. With respect to the 2008 Reform, among members that have consented to their ad hoc quota increases under the 2008 Reform, two members – Eritrea and the Syrian Arab Republic – require additional time to complete the payments for their ad hoc quota increases. The Executive Board has previously extended the payment deadline for these countries, most recently in June 2017.[10] Their deadline for payment is currently December 29, 2017.

6. While it is important to emphasize that all members who have not yet consented to their Fourteenth Review quota increases should do so without further delay, and that members who have consented to their quota increases should make their quota payments in a timely manner, a further six-month extension in the periods for consent to and payment of quota increases would seem appropriate.

7. In these circumstances, it is proposed to extend the period for consent under Resolution No. 66-2 to end at 6:00 p.m., Washington D.C. time, on June 29, 2018. It is also proposed that the Executive Board extend the period for payment of the quota increases under the Fourteenth General Review of Quotas through June 29, 2018 for those members whose quota payments would otherwise be due earlier. It is also proposed that the Executive Board extend the period for payment of the quota increases under the 2008 Reform for Eritrea and the Syrian Arab Republic through June 29, 2018.

[7] See paragraph 5 in Board of Governors Resolution No. 66-2, *Fourteenth General Review of Quotas and Reform of the Executive Board*.

[8] See *Extension of the Periods for Consent to and Payment of Quota Increases* (06/22/2017).

[9] As of December 18, of the 184 members that had consented to their quota increases under the Fourteenth Review, 181 members had paid their quota increases.

[10] See *Extension of the Periods for Consent to and Payment of Quota Increases* (06/22/2017).

Proposed Decisions

Accordingly, the following decisions, each of which may be adopted by a majority of the votes cast, are proposed for adoption by the Executive Board:

Decision 1: Extension of the Period for Consent to Increase Quotas Under the Fourteenth General Review of Quotas

Pursuant to paragraph 4 of Resolution No. 66-2, *Fourteenth General Review of Quotas and Reform of the Executive Board*, the Executive Board decides that notices of consent from members to increases in their quotas must be received in the Fund by 6:00 p.m., Washington D.C. time, on June 29, 2018.

Decision 2: Extension of the Period of Payment of Quota Increase Under the Fourteenth General Review of Quotas

Pursuant to paragraph 5 of Board of Governors Resolution No. 66-2, *Fourteenth General Review of Quotas and Reform of the Executive Board*, the Executive Board decides that each member shall pay to the Fund the increase in its quota under the Fourteenth General Review by the later of (a) June 29, 2018, or (b) 30 days after the date on which it notifies the Fund of its consent.

Decision 3: Extension of the Period of Payment of Quota Increase Under the 2008 Reform

Pursuant to Paragraph 4 of the Resolution of the Board of Governors No. 63-2, *Reform of Quota and Voice in the International Monetary Fund,* the Executive Board decides to extend the period for payment of quota increase by Eritrea and the Syrian Arab Republic through June 29, 2018.

Appendix I. Status of Members' Consents to Increases in Quotas Under the Fourteenth General Review of Quotas

(as of December 15, 2017)

The five members listed below have not yet consented to their respective quota increases under the Board of Governors Resolution No. 66-2:

Eritrea	Sudan
Micronesia, Federated States of	Syrian Arab Republic
Somalia	

IMF Quotas

Quota subscriptions are central to the IMF's financial resources. Each member country of the IMF is assigned a quota, based broadly on its relative position in the world economy. A member country's quota determines its maximum financial commitment to the IMF, its voting power, and has a bearing on its access to IMF financing.

When a country joins the IMF, it is assigned an initial quota in the same range as the quotas of existing members of broadly comparable economic size and characteristics. The IMF uses a quota formula to help assess a member's relative position.

The current quota formula is a weighted average of GDP (weight of 50 percent), openness (30 percent), economic variability (15 percent), and international reserves (5 percent). For this purpose, GDP is measured through a blend of GDP—based on market exchange rates (weight of 60 percent) and on PPP exchange rates (40 percent). The formula also includes a "compression factor" that reduces the dispersion in calculated quota shares across members.

Quotas are denominated in Special Drawing Rights (SDRs), the IMF's unit of account. The largest member of the IMF is the United States, with a current quota (as of March 2017) of SDR82.99 billion (about US$118 billion), and the smallest member is Tuvalu, with a quota of SDR2.5 million (about US$3.5 million).

The conditions for implementing the quota increases agreed under the 14th General Quota Review were met on January 26, 2016. As a result, the quotas of each of the IMF's 189 members will increase to a combined SDR477 billion (about US$677 billion) from about SDR238.5 billion (about US$339 billion). As of September 2017, 181 of the 189 members had made their quota payments, accounting for over 99 percent of the total quota increases, and total quotas stood at SDR475 billion (about US$675 billion).

Quotas play several key roles in the IMF

A member's quota determines that country's financial and organizational relationship with the IMF, including:

Subscriptions. A member's quota subscription determines the maximum amount of financial resources the member is obliged to provide to the IMF. A member must pay its subscription in full upon joining the IMF: up to 25 percent must be paid in SDRs or foreign currencies acceptable to the IMF (such as the US dollar, the euro, the Chinese renminbi, the Japanese yen, or the British pound sterling), while the rest is paid in the member's own currency.

Voting power. The quota largely determines a member's voting power in IMF decisions. Each IMF member's votes are comprised of basic votes plus one additional vote for each SDR100,000 of quota. The 2008 reforms fixed the number of basic votes at 5.502 percent of total votes. The current share of basic votes in total votes represents close to a tripling of their share prior to the implementation of the 2008 reforms.

Access to financing. The amount of financing a member can obtain from the IMF (its access limit) is based on its quota. For example, under Stand-By and Extended Arrangements, a member can borrow up to 145 percent of its quota annually and 435 percent cumulatively. However, access may be higher in exceptional circumstances.

How quota reviews work

The IMF's Board of Governors conducts general quota reviews at regular intervals (usually every five years). Any changes in quotas must be approved by an 85 percent majority of the total voting power, and a member's quota cannot be changed without its consent. There are two main issues addressed in a general quota review: the size of an overall increase and the distribution of the increase among the members.

First, a general quota review allows the IMF to assess the adequacy of quotas both in terms of members' balance of payments financing needs and in terms of its own ability to help meet those needs. Second, a general review allows for increases in members' quotas to reflect changes in their relative positions in the world economy. Ad hoc increases outside general reviews do not occur often, but the increases in quotas for 54 member countries approved under the 2008 Reform are a recent example.

General Quota Reviews

Quota Review	Resolution Adopted	Overall Quota Increase (percent)
First Quinquennial	No increase proposed	---
Second Quinquennial	No increase proposed	---
1958/59[1]	February and April 1959	60.7
Third Quinquennial	No increase proposed	---
Fourth Quinquennial	March 1965	30.7
Fifth General	February 1970	35.4
Sixth General	March 1976	33.6
Seventh General	December 1978	50.9
Eighth General	March 1983	47.5
Ninth General	June 1990	50.0
Tenth General	No increase proposed	---
Eleventh General	January 1998	45.0
Twelfth General	No increase proposed	---
Thirteenth General	No increase proposed	---
Fourteenth General	December 2010	100.0

2010 Reforms: Doubling of quotas and major realignment of quota shares

On December 15, 2010, the Board of Governors, the IMF's highest decision-making body, completed the 14th General Review of Quotas, which involved a package of far-reaching reforms of the IMF's quotas and governance. This reform package, which became effective on January 26, 2016, delivers an unprecedented 100 percent increase in total quotas and a major realignment of quota shares. This will better reflect the changing relative weights of the IMF's member countries in the global economy.

[1] This review was conducted outside the five-year cycle.

The reform package built on earlier reforms from 2008, which had become effective on March 3, 2011. The 2008 reforms strengthened the representation of dynamic economies—many of which are emerging market countries—through ad hoc quota increases for 54 member countries. They also enhanced the voice and participation of low-income countries through a near tripling of basic votes.

Building on the 2008 reforms, the 14th General Review of Quotas:

- doubled quotas from approximately SDR238.5 billion to approximately SDR477 billion (about $677 billion at current exchange rates),
- shifted more than 6 percent of quota shares from over-represented to under-represented member countries,
- shifted more than 6 percent of quota shares to dynamic emerging market and developing countries (EMDCs),
- significantly realigned quota shares. China became the third largest member country in the IMF, and there are now four EMDCs (Brazil, China, India, and Russia) among the 10 largest shareholders in the IMF, and
- preserved the quota and voting share of the poorest member countries. This group of countries was defined as those eligible for the low-income Poverty Reduction and Growth Trust (PRGT) and whose per capita income fell below $1,135 in 2008 (the threshold set by the International Development Association) or twice that amount for small countries.

A comprehensive review of the current quota formula was completed in January 2013, when the Executive Board submitted its report to the Board of Governors. Work on a new quota formula will continue in the context of the 15th General Review of Quotas.

Next steps

The 15th General Quota Review provides an opportunity to assess the appropriate size and composition of the IMF's resources and to continue the process of governance reforms. On December 5, 2016, the Board of Governors adopted a Resolution calling on the Executive Board to work expeditiously on the 15th Review in line with existing Executive Board understandings and the guidance provided by the IMFC, and with the aim of completing the 15th Review by the 2019 Spring Meetings or no later than the 2019 Annual Meetings.

Report of the Executive Board to the Board of Governors on the Outcome of the Quota Formula Review

I. INTRODUCTION

1. In completing the Fourteenth General Review of Quotas and approving the Proposed Amendment on the Reform of the Executive Board, the Board of Governors requested that the Executive Board complete a comprehensive review of the quota formula by January 2013.[1] The Executive Board was also requested to bring forward the timetable for completion of the Fifteenth General Review of Quotas (hereafter the 15th Review) to January 2014. These forward-looking elements were part of an agreed package of 2010 quota and governance reforms. With regard to the 15th Review, Board of Governors' Resolution 66-2 noted that any realignment is expected to result in increases in the quota shares of dynamic economies in line with their relative positions in the world economy, and hence likely in the share of emerging market and developing countries as a whole. It also called for steps to be taken to protect the voice and representation of the poorest members.

2. The Executive Board reaffirmed the urgency of ratifying the 2010 reform, underscoring the importance of quota and governance reform for enhancing the credibility, legitimacy, and effectiveness of the Fund.

3. The Executive Board has held extensive discussions on the quota formula review. The Board met formally to discuss the quota formula review on four occasions during 2012 and has also held two informal meetings. The Board was guided in its work by the views expressed by the International Monetary and Financial Committee (IMFC), and also received inputs from IMFC Deputies, who met in March and September 2012, and January 2013, to discuss the review and support consensus building among the membership.

4. Important progress has been made in identifying key elements that could form the basis for a final agreement on a new quota formula. It was agreed that achieving broad consensus on a new quota formula will best be done in the context of the 15th Review rather than on a stand-alone basis. Thus, the discussions on this issue will be integrated and move in parallel with the discussion on the 15th Review.

5. This report responds to the Board of Governors' request and summarizes the outcome of the quota formula review. It identifies areas of common ground as well as areas where views differ among Board members and further discussions are needed. It is recognized that views on the key elements of the quota formula have evolved during the review and will

[1] See *IMF Quota and Governance Reform—Elements of an Agreement—Report of the Executive Board to the Board of Governors*, and Board of Governors' Resolution 66-2, adopted December 15, 2010.

continue to evolve as further work is undertaken as part of the 15th Review and new data become available. It is further recognized that all these elements are inter-connected and that eventual agreement will require an integrated package that reflects a spirit of cooperation and compromise across the membership.

II. Outcome of the Quota Formula Review

6. The Executive Board's discussions covered a wide range of issues. These included, inter alia, the principles that should guide the review, the role and measurement of the existing quota formula variables, the relative weights of the variables, the scope for further simplifying the formula, and the merits of adding new variables. The discussions were informed by a wide range of simulations of alternative possible reforms and by extensive technical work prepared by staff, including on how to capture potential need for Fund resources, openness and interconnectedness, alternative measures of financial openness, and measuring members' financial contributions to the Fund.[2]

7. The Executive Board took note of the results of updating the quota data through 2010. These showed that the aggregate calculated quota share of emerging market and developing countries had increased by 7.7 percentage points in the 5-year period since 2005, the data used for the 2008 reform. Some saw this shift as providing evidence that the current formula adequately captures dynamic developments in the world economy and is not in need of radical reform. Others considered that the formula remains seriously flawed, producing results that do not adequately reflect members' relative positions in the global economy, including the increased importance of emerging market and developing countries.[3]

8. It was agreed that the principles that underpinned the 2008 reform remained valid as a guide for the quota formula review. Thus, the formula should be simple and transparent, consistent with the multiple roles of quotas,[4] produce results that are broadly acceptable to the membership, and be feasible to implement statistically based on timely, high quality and widely available data.

9. It was agreed that GDP should remain the most important variable, with the largest weight in the formula and scope to further increase its weight. GDP is generally seen as the

---

[2] Public Information Notices for all Executive Board discussions and the background papers prepared by staff are available on the Fund's external website at www.imf.org.

[3] The current formula, agreed in 2008, includes four variables: GDP (consisting of market GDP with a 30 percent weight and PPP GDP with a 20 percent weight), openness (30 percent weight), variability (15 percent weight), and reserves (5 percent weight). A compression factor of 0.95 is applied to the weighted sum of these variables.

[4] These include their key role in determining the Fund's financial resources, their role in decisions on members' access to Fund resources, their role in determining members' shares in a general allocation of SDRs, and their close link with members' voting rights.

most comprehensive measure of economic size. Considerable support was expressed for increasing its weight, particularly if variability is dropped (see below), but others preferred to either keep the current weight or maintain it relative to that of openness.

10. Consideration will be given to whether or not the weight of PPP GDP in the GDP blend variable should be adjusted. Two broad views were expressed in the discussions under the review. One view was to retain the current blend, noting that it had been a difficult compromise that should not be reopened. Some who supported this view nevertheless continued to see various problems with using PPP GDP. Others favored increasing the weight of PPP GDP in the blend variable, noting that these data are widely used and that this would increase the share of emerging market and developing countries, including that of low-income countries.

11. It was agreed that openness should continue to play an important role in the formula, and concerns regarding this variable need to be thoroughly examined and addressed. Openness seeks to capture members' integration into the world economy. One view was to keep the openness variable as currently defined, with some favoring increasing its weight if variability is dropped. Another view was that the current measure is seriously flawed reflecting both conceptual and measurement issues, including its reliance on gross flows and given the challenges posed by intra-currency union trade. Several options were examined to bridge these differences, including the possible use of a cap on openness in relation to GDP, but views remained divided. Some also favored increasing the weight of financial openness, but this did not attract sufficient support.

12. There was considerable support for dropping variability from the formula. Extensive consideration was given to the role of variability, which seeks to capture members' potential need for Fund resources. The Executive Board took note of the staff's finding that there is little empirical evidence of a relationship between variability and actual demand for Fund resources and the difficulties of identifying a superior measure. Some conditioned their support for dropping variability on other elements of an integrated reform package, including how its weight is reallocated and the adequacy of measures to protect the poorest members. Some continued to see a role for variability.

13. There was considerable support for retaining reserves with its current weight. The reserves variable provides an indicator of members' financial strength and ability to contribute to the Fund's finances. Views were also expressed in favor of either increasing its weight to better capture members' ability to contribute to global safety nets, or eliminating it given the concern that it could reward excessive reserve accumulation.

14. Options were considered for including a new measure of financial contributions in the formula, with arguments made for and against such a reform. Views diverged on the merits of such an approach. It was agreed to consider whether and how to take into account very

significant voluntary financial contributions through ad hoc adjustments as part of the 15th Review.

15. Consideration will be given to whether or not the current level of compression should be adjusted. It was generally agreed that the quota formula should continue to include a compression factor to help moderate the influence of size in the quota formula. One view was to retain the current compression factor, noting that it had been a difficult compromise that should not be reopened. Others favored increasing the level of compression to give greater voice to small members, as well as to emerging market and developing countries as a group.

16. It was agreed that measures should be taken to protect the voice and representation of the poorest members. Considerable support was expressed for addressing this issue as part of the 15th Review.

17. In sum, the Executive Board's discussions under the review have provided important building blocks for agreement on a new quota formula that better reflects members' relative positions in the global economy. The outcome of this comprehensive review of the quota formula will form a good basis for the Executive Board to agree on a new quota formula as part of its work on the 15th Review, and building the needed consensus among the membership on a reform package that can garner the broadest possible support.

This factsheet is no longer being updated. As a result, the information it contains may not be current.

The IMF's Response to the Global Economic Crisis

The IMF responded to the global economic crisis by mobilizing resources on many fronts to support its member countries. The IMF increased and deployed its lending firepower, used its cross-country experience to offer policy solutions, and introduced reforms that better equipped it to respond to countries' needs.

Creating a crisis firewall. To meet ever increasing financing needs of countries hit by the global financial crisis and to help strengthen global economic and financial stability, the Fund greatly bolstered its lending capacity after the onset of the global crisis in 2008. This was done by increasing quota subscriptions of member countries—the IMF's main source of financing—and securing large borrowing agreements.

Stepping up crisis lending. The IMF overhauled its lending framework to make it better suited to country needs, giving greater emphasis to crisis prevention, and streamlined program conditionality. Since the start of the crisis, the IMF committed well over $700 billion in financing to its member countries.

Helping the world's poorest. The IMF undertook an unprecedented reform of its policies toward low-income countries and quadrupled resources devoted to concessional lending.

Sharpening IMF analysis and policy advice. The IMF provided risk analysis and policy advice to help member countries overcome the challenges and spillovers from the global economic crisis. It also implemented several major initiatives to strengthen and adapt surveillance to a more globalized and interconnected world, taking into account lessons learned from the crisis.

Reforming the IMF's governance. To strengthen its legitimacy, in April 2008 and November 2010, the IMF agreed on wide-ranging governance reforms to reflect the increasing importance of emerging market countries. The reforms also ensured that smaller developing countries would retain their influence in the IMF.

Creating a crisis firewall

Increasing the financial resources available for IMF support to member countries was a key part of the efforts to overcome the global financial crisis. In 2009 and 2010, members provided additional financial resources to the Fund through bilateral borrowing agreements for about SDR 170 billion (about US$250 billion at current exchange rates). These resources were subsequently incorporated into expanded New Arrangements to Borrow (NAB), increasing their size from SDR 34 billion to SDR 370 billion (about $510 billion). In 2012, to respond to worsening global financial conditions, a number of members pledged to further enhance IMF resources through a new round of bilateral borrowing. By the end of 2015, 35 agreements for a total of about SDR 280 billion ($390 billion) were finalized.

The 14th General Review of Quotas, approved in December 2010, doubled the IMF's permanent resources to SDR 477 billion (about $663 billion). The conditions for implementing the increases were met in January 2016. Subsequently, the NAB credit arrangements were rolled back from SDR 370 billion to SDR 182 billion in conjunction with the payments for the 14th Review quota increases, while remaining an important backstop to quota resources.

Currently, the Fund's total lending capacity (comprising quotas, the NAB, and the 2012 Borrowing Agreements after prudential balances) stands at about SDR 690 billion (about $950 billion).

In addition to increasing the Fund's own lending capacity, in 2009, the membership agreed to make a general allocation of SDRs equivalent at the time to $250 billion, resulting in a near ten-fold increase in SDRs. This represented a significant increase in reserves for many countries, in particular low-income countries.

Reforming the IMF's lending framework

To better support countries during the global economic crisis, the IMF beefed up its lending capacity and approved a major overhaul of how it lends money by offering higher and more frontloaded amounts and tailoring loan terms to countries' varying strengths and circumstances.

Credit line for strong performers. The Flexible Credit Line (FCL), introduced in April 2009 and further enhanced in August 2010, is a lending tool for countries with very strong fundamentals that provides large and upfront access to IMF resources, mainly as a form of insurance for crisis prevention. There are no policy conditions to be met once a country has been approved for the credit line. Colombia, Mexico, and Poland have been provided combined access up to about $100 billion under the FCL (no drawings have been made under these arrangements). FCL approval has been found to lead to lower borrowing costs and increased room for policy maneuver.

Access to liquidity on flexible terms. Heightened regional or global stress can affect countries that under normal circumstances would not likely be at risk of crisis. Providing rapid and adequate short-term liquidity to such crisis bystanders during periods of stress could bolster market confidence, limit contagion, and reduce the overall cost of crises. The Precautionary and Liquidity Line (PLL), which was established in 2011, is designed to meet the liquidity needs of member countries with sound economic fundamentals but with some remaining vulnerabilities—Macedonia and Morocco used the PLL.

Reformed terms for IMF lending. Structural performance criteria were discontinued for all IMF loans, including for programs with low-income countries. Structural reforms continue to be part of IMF-supported programs, but have become more focused on areas critical to a country's recovery.

Emphasis on social protection. The IMF helped governments protect and even increase social spending, including social assistance. In particular, the IMF promoted measures to increase spending on, and improve the targeting of social safety net programs that can mitigate the impact of the crisis on the most vulnerable in society.

Crisis Program Review. The IMF conducted several reviews to learn from Fund-supported programs that began after the 2008 global crisis. The reviews found that Fund-supported programs helped chart a path through the global financial crisis that avoided the counterfactual scenario many initially feared, involving a cataclysmic meltdown of the global economic system. Given the radical differences between the 2008 crisis and its predecessors, decisions were made amid significant uncertainty about shocks, transmission channels, and policy responses. Program outcomes helped inform the design of later programs, and contributed to broadening the array of feasible policies over time by strengthening frameworks and reducing the risk of contagion.

Helping the world's poorest

In response to the global financial crisis, the IMF undertook an unprecedented reform of its policies toward low-income countries. As a result, IMF programs are now more flexible and tailored to the individual needs of low-income countries—with streamlined conditionality, higher concessionality, and more emphasis on safeguarding social spending.

Increased access to resources. Concessional resources available to low-income countries through the Poverty Reduction and Growth Trust (PRGT) were substantially increased in 2009, consistent with a call from G20 leaders, while average access limits under the IMF's concessional loan facilities were doubled to enhance the financial safety net for low-income countries.

Sharpening IMF analysis and policy advice

The IMF undertook major initiatives to strengthen surveillance to respond to a more globalized and interconnected world. These initiatives included revamping the legal framework for surveillance to cover spillovers (when economic policies in one country can affect others), deepening analysis of risks and financial systems, stepping up assessments of members' external positions, and responding more promptly to concerns of the membership.

As part of these efforts, in July 2012 the Executive Board adopted a new Integrated Surveillance Decision to strengthen the underlying legal framework for surveillance. In September 2012, the Executive Board endorsed a new Financial Surveillance Strategy that included concrete and prioritized steps to further strengthen financial surveillance. In response to the growing importance of capital flows in the international monetary system, the Board also endorsed an institutional view on the liberalization and management of capital flows to guide Fund surveillance and policy advice to member countries.

External Sector Reports that present a broad and multilaterally consistent analysis of the external sector for the world's largest economies were introduced for annual discussion by the Executive Board. Moreover, risk analysis was enhanced, including by taking a cross-country perspective, including through an early-warning exercise carried out jointly with the Financial Stability Board. Analyses on linkages between the real economy, the financial sector, and external stability were also strengthened. Other work included mapping and understanding the implications of rising financial and trade interconnectedness for surveillance (including through spillover reports) and for lending to strengthen the global financial safety net.

The 2014 Triennial Surveillance Review (TSR), completed in September 2014, focused on building on these reforms and ensuring that IMF surveillance continues to best support sustainable growth in a deeply interconnected post-crisis world. It identified five operational priorities going forward: integrating and deepening risk and spillover analysis; mainstreaming macro-financial surveillance; paying more attention to structural policies, including labor market issues; delivering cohesive and expert policy advice; and having a client-focused approach to surveillance, supported by clear and candid communication. The Managing Director's Action Plan for Strengthening Surveillance published subsequently outlines concrete measures to take forward work in these priority areas, with initial steps already in the process of implementation. A review of the Financial Sector Assessment Program was also completed in September 2014.

With more than 200 million people unemployed across the world, and income inequality on the rise in many countries, the Fund set up an internal "Working Group on Jobs and Growth," which recommended steps and provided guidance to enhance the Fund's effectiveness in helping member countries achieve their growth, employment creation, and income distribution goals.

Reforming IMF governance to better reflect the global economy

A top priority for the IMF's legitimacy and effectiveness has been the completion of governance reform.

On December 15, 2010, the Board of Governors approved far-reaching governance reforms under the 14th General Review of Quotas. The package included a doubling of quotas, with a more than a 6 percentage point shift in quota share to dynamic emerging market and developing countries while protecting the voting shares of the poorest member countries. The reform also included a move to a more representative, fully elected Executive Board and advanced European countries committed to reduce their combined Executive Board representation by two chairs.

The reforms became effective on January 26, 2016, with the entry into force of the amendment to the IMF's Articles of Agreement that created an all-elected Executive Board, after it had been accepted by three-fifths (or 113) of the 189 member countries having 85 percent of the total voting power.

The 2010 reforms built on quota and voice reforms agreed in April 2008 and became effective on March 3, 2011. Under these reforms, 54 members received an increase in their quotas—with China, Korea, India, Brazil, and Mexico as the largest beneficiaries. Another 135 members, including low-income countries, saw an increase in their voting power as a result of the increase in basic votes, which will remain a fixed percentage of total votes. Combined with the 14th Review, the shift in quota share to dynamic emerging market and developing countries is 9 percentage points.

Articles of Association of the Financial Stability Board (FSB)

(of 28 January 2013)[1]

Article 1 Name and headquarters

(1) An association by the name of “Financial Stability Board” (“FSB”) (hereinafter “the Association”) is hereby established pursuant to Article 60 of the Swiss Civil Code.

(2) The Association is domiciled in Basel, Switzerland.

Article 2 Purposes

The Association shall have as its purpose to promote international financial stability. In particular, it has the purpose to further the objectives stipulated in the FSB Charter in its respective current version.

Article 3 Members

(1) The following are eligible to be a Member of the Association:

a. Authorities from jurisdictions that are responsible for maintaining financial stability, such as ministries of finance, central banks, supervisory and regulatory authorities;

b. International Financial Institutions; and

c. international standard setting, regulatory, supervisory and central bank bodies.

(2) The Association’s members are set out in the Annex to these Articles of Association.

(3) Members participate in the Association in accordance with their respective legal and policy frameworks, which may not be modified or superseded by these Articles or any decision of the Association.

(4) Any Member may withdraw at any time from the Association.

---

1 An amendment to the Annex to these Articles of Association was adopted by a meeting of the Plenary held on 26 March 2015 in Frankfurt.

Article 4 Plenary

(1) The Plenary is the Association's sole decision-making body.

(2) The Plenary consists of representatives of all Members.

(3) Its responsibilities include all decisions relating to the affairs of the Association, including:

a. amendments to the Articles of Association;

b. the budget of the Association;

c. the appointment of the Executive;

d. the appointment of an external auditor;

e. approval of the audited financial statements; and

f. the dissolution of the Association.

(4) The Plenary is presided over by the Chair of the FSB.

Article 5 The Executive

(1) The Chair of the FSB and the Secretary General of the FSB shall constitute the Executive of the Association.

(2) The Chair of the FSB may concurrently serve in and fulfill the duties of a different role for a Member while serving as Chair of the FSB.

(3) The Secretary General of the FSB shall owe duty entirely to the FSB and to no other authorities or institutions.

(4) The Chair of the FSB and the Secretary General of the FSB shall be authorised to represent the Association in its dealing with third parties. They shall commit the Association legally only with the approval of the Plenary.

Article 6 Decision making

Decisions of the Plenary are taken by consensus.

Article 7 Funding and Resources

The Association will be funded by the Bank for International Settlements (BIS) on the basis of and in accordance with the terms of a renewable “Multi-Year Funding Agreement” and by voluntary contributions from Members.

Article 8 External audit

(1) The accounts and the annual financial statements of the Association shall be audited by external auditors.

(2) The financial year of the Association will begin on 1st April and end on 31st March. The first financial period will end on 31st March 2014.

Article 9 Liability

(1) The liability of the Association shall be limited to the extent of its assets.

(2) Members and their representatives shall not be responsible for the liabilities of the Association.

(3) Membership in the Association shall not constitute a waiver of the sovereign immunity of any Member or the privileges and immunities of international financial institutions participating as Members as provided for by their respective constitutive texts and as provided for under international law and national law.

Article 10 Policy making and related activities

The policy making and related activities of the Association shall be governed by the FSB Charter. These activities, including any decisions reached in their context, shall not be binding or give rise to any legal rights or obligations under the present Articles. Members can recuse themselves at any time from these activities or decision-making where such activities or decision-making are not consistent with their legal or policy frameworks.

The present Articles of Association have been approved and adopted at the Plenary Meeting of the Financial Stability Board held on 28 January 2013 in Zurich. The Annex to the Articles of Association (List of Members) was revised at the Plenary Meeting of the Financial Stability Board held on 26 March 2015 in Frankfurt.

For the Association

Chair	Secretary General
Mark Carney	Svein Andresen

<u>CANNES SUMMIT FINAL DECLARATION</u>

"BUILDING OUR COMMON FUTURE: RENEWED COLLECTIVE ACTION FOR THE BENEFIT OF ALL"

4 NOVEMBER 2011

1. Since our last meeting, global recovery has weakened, particularly in advanced countries, leaving unemployment at unacceptable levels. Tensions in the financial markets have increased due mostly to sovereign risks in Europe. Signs of vulnerabilities are appearing in emerging markets. Increased commodity prices have harmed growth and hit the most vulnerable. Exchange rate volatility creates a risk to growth and financial stability. Global imbalances persist. Today, we reaffirm our commitment to work together and we have taken decisions to reinvigorate economic growth, create jobs, ensure financial stability, promote social inclusion and make globalization serve the needs of our people.

A global strategy for growth and jobs

2. To address the immediate challenges faced by the global economy, we commit to coordinate our actions and policies. We have agreed on an *Action plan for Growth and Jobs*. Each of us will play their part.

Fostering Employment and Social Protection

3. We firmly believe that employment must be at the heart of the actions and policies to restore growth and confidence that we undertake under the Framework for strong, sustainable and balanced growth. We are committed to renew our efforts to combat unemployment and promote decent jobs, especially for youth and others who have been most affected by the economic crisis. We therefore decide to set up a G20 Task-Force on Employment, with a focus on youth employment, that will provide input to the G20 Labour and Employment Ministerial Meeting to be held under the Mexican Presidency in 2012. We have tasked International organizations (IMF, OECD, ILO, World Bank) to report to Finance Ministers on a global employment outlook and how our economic reform agenda under the G20 Framework will contribute to job creation.

4. We recognize the importance of investing in nationally determined social protection floors in each of our countries, such as access to health care, income security for the elderly and persons with disabilities, child benefits and income security for the unemployed and assistance for the working poor. They will foster growth resilience, social justice and cohesion. In this respect, we note the report of the Social Protection Floor Advisory Group, chaired by Ms Michelle Bachelet.
5. We commit to promote and ensure full respect of the fundamental principles and rights at work. We welcome and encourage the ILO to continue promoting ratification and implementation of the eight ILO Fundamental Conventions.

6. We are determined to strengthen the social dimension of globalisation. Social and employment issues, alongside economic, monetary and financial issues, will remain an integral part of the G20 agenda. We call on international organisations to intensify their coordination and make it more effective. In view of a greater coherence of multilateral action, we encourage the WTO, the ILO, the OECD, the World Bank and the IMF to enhance their dialogue and cooperation.

7. We are convinced of the essential role of social dialogue. In this regard we welcome the B20 and L20 Meetings that took place under the French presidency and the willingness of these fora to work together as witnessed in their joint statement.

8. Our Labour and Employment Ministers met in Paris on September 26-27, 2011 to tackle these issues. We endorse their conclusions, annexed to this Declaration. We ask our Ministers to meet again next year to review progress made on this agenda.

Building a more stable and resilient International Monetary System

9. In 2010, the G20 committed to working towards a more stable and resilient IMS and to ensure systemic stability in the global economy, improve the global economic adjustment, as well as an appropriate transition towards an IMS which better reflects the increased weight of emerging market economies. In 2011, we are taking concrete steps to achieve these goals.

Increasing the benefits from financial integration and resilience against volatile capital flows to foster growth and development

10. We agreed on coherent conclusions to guide us in the management of capital flows drawing on country experiences, in order to reap the benefits from financial globalization, while preventing and managing risks that could undermine financial stability and sustainable growth at the national and global levels.

11. To pursue these objectives, we adopted an action plan to support the development and deepening of local currency bond markets, scaling up technical assistance from different international institutions, improving the data base and preparing joint annual progress reports to the G20. We call on the World Bank, Regional Development Banks, IMF, UNCTAD, OECD, BIS and FSB to work together to support the delivery of this plan and to report back by the time of our next meeting about progress made.

Reflecting the changing economic equilibrium and the emergence of new international currencies

12. We affirm our commitment to move more rapidly toward more market-determined exchange rate systems and enhance exchange rate flexibility to reflect underlying economic fundamentals, avoid persistent exchange rate misalignments and refrain from competitive devaluation of currencies. We are determined to act on our commitments to exchange rate reform articulated in our Action plan for Growth and Jobs to address short term vulnerabilities, restore financial stability and strengthen the medium-term foundations for

growth. Our actions will help address the challenges created by developments in global liquidity and capital flows volatility, thus facilitating further progress on exchange rate reforms and reducing excessive accumulation of reserves.

13. We agreed that the SDR basket composition should continue to reflect the role of currencies in the global trading and financial system and be adjusted over time to reflect currencies' changing role and characteristics. The SDR composition assessment should be based on existing criteria, and we ask the IMF to further clarify them. A broader SDR basket will be an important determinant of its attractiveness, and in turn influence its role as a global reserve asset. This will serve as a reference for appropriate reforms. We look forward to reviewing the composition of the SDR basket in 2015, and earlier if warranted, as currencies meet the criteria, and call for further analytical work of the IMF in this regard, including on potential evolution. We will continue our work on the role of the SDR.

Strengthening our capacity to cope with crises

14. As a contribution to a more structured approach, we agreed to further strengthen global financial safety nets in which national governments, central banks, regional financial arrangements and international financial institutions will each play a role according to and within their respective mandate. We agreed to continue these efforts to this end. We recognize that central banks play a major role in addressing liquidity shocks at a global and regional level, as shown by the recent improvements in regional swap lines such as in East Asia. We agreed on common principles for cooperation between the IMF and Regional Financial Arrangements, which will strengthen crisis prevention and resolution efforts.

15. As a contribution to this structured approach and building on existing instruments and facilities, we support the IMF in putting forward the new Precautionary and Liquidity Line (PLL). This would enable the provision, on a case by case basis, of increased and more flexible short-term liquidity to countries with strong policies and fundamentals facing exogenous, including systemic, shocks. We also support the IMF in putting forward a single emergency facility to provide non-concessional financing for emergency needs such as natural disasters, emergency situations in fragile and post-conflict states, and also other disruptive events. We call on the IMF to expeditiously discuss and finalize both proposals.

16. We welcome the euro area's comprehensive plan and urge rapid elaboration and implementation, including of country reforms. We welcome the euro area's determination to bring its full resources and entire institutional capacity to bear in restoring confidence and financial stability, and in ensuring the proper functioning of money and financial markets.

    We will ensure the IMF continues to have resources to play its systemic role to the benefit of its whole membership, building on the substantial resources we have already mobilized since London in 2009. We stand ready to ensure additional resources could be mobilised in a timely manner and ask our finance ministers by their next meeting to work on deploying a range of various options including bilateral contributions to the IMF, SDRs, and voluntary contributions to an IMF special structure such as an administered account. We will expeditiously implement in full the 2010 quota and governance reform of the IMF.

Strengthening IMF surveillance

17. We agreed that effective and strengthened IMF surveillance will be crucial to the efficiency and stability of the IMS. In this context, a strengthening of multilateral surveillance and a better integration with bilateral surveillance will be important, as well as enhanced monitoring of interlinkages across sectors, countries and regions. Against this background, we welcome the recent improvements to the IMF surveillance toolkit including the consolidated multilateral surveillance report and spillover reports and ask the IMF to continue to improve upon these exercises and methodology.

18. We call on the IMF to make further progress towards a more integrated, even-handed and effective IMF surveillance, taking into account the Independent Evaluation Office report on surveillance, covering in particular financial sector, fiscal, monetary, exchange rate policies and an enhanced analysis of their impact on external stability. We call on the IMF to regularly monitor cross-border capital flows and their transmission channels and update capital flow management measures applied by countries. We also call on the IMF to continue its work on drivers and metrics of reserve accumulation taking into account country circumstances, and, along with the BIS, their work on global liquidity indicators, with a view to future incorporation in the IMF surveillance and other monitoring processes, on the basis of reliable indicators. We will avoid persistent exchange rate misalignments and we asked the IMF to continue to improve its assessment of exchange rates and to publish its assessments as appropriate.

19. While continuing with our efforts to strengthen surveillance, we recognize the need for better integration of bilateral and multilateral surveillance, and we look forward to IMF proposals for a new integrated decision on surveillance early next year.

20. We agreed on the need to increase the ownership and traction of IMF surveillance, which are key components of its effectiveness. We agreed to ensure greater involvement of Ministers and Governors, by providing greater strategic guidance through the IMFC. To increase the transparency of IMF surveillance, we reaffirm the importance of all IMF members to contribute to improve data availability, support the Managing Director's proposal to publish multilateral assessments of external balances, and we recommend timely publication of surveillance reports. We welcome the publication of Art. IV reports by most members of the G20 and look forward to further progress.

Next steps

21. Building a more stable and resilient IMS is a long-term endeavor. We commit to continue working to ensure systemic stability in the global economy and an appropriate transition towards an IMS which better reflects the increased weight of emerging market economies. In 2012, we will continue to take concrete steps in this direction.

Implementing and deepening Financial sector reforms

22. We are determined to fulfill the commitment we made in Washington in November 2008 to ensure that all financial markets, products and participants are regulated or subject to oversight as appropriate to their circumstances in an internationally consistent and non-discriminatory way.

Meeting our commitments notably on banks, OTC derivatives, compensation practices and credit rating agencies, and intensifying our monitoring to track deficiencies

23. We are committed to improve banks' resilience to financial and economic shocks. Building on progress made to date, we call on jurisdictions to meet their commitment to implement fully and consistently the Basel II risk-based framework as well as the Basel II-5 additional requirements on market activities and securitization by end 2011 and the Basel III capital and liquidity standards, while respecting observation periods and review clauses, starting in 2013 and completing full implementation by 1 January 2019.

24. Reforming the over the counter derivatives markets is crucial to build a more resilient financial system. All standardized over-the-counter derivatives contracts should be traded on exchanges or electronic trading platforms, where appropriate, and centrally cleared, by the end of 2012; OTC derivatives contracts should be reported to trade repositories, and non-centrally cleared contracts should be subject to higher capital requirements. We agree to cooperate further to avoid loopholes and overlapping regulations. A coordination group is being established by the FSB to address some of these issues, complementing the existing OTC derivatives working group. We endorse the FSB progress report on implementation and ask the CPSS and IOSCO to work with FSB to carry forward work on identifying data that could be provided by and to trade repositories, and to define principles or guidance on regulators' and supervisors' access to data held by trade repositories. We call on the Basel Committee on Banking Supervision (BCBS), the International Organization for Securities Commission (IOSCO) together with other relevant organizations to develop for consultation standards on margining for non-centrally cleared OTC derivatives by June 2012, and on the FSB to continue to report on progress towards meeting our commitments on OTC derivatives.

25. We reaffirm our commitment to discourage compensation practices that lead to excessive risk taking by implementing the agreed FSB principles and standards on compensation. While good progress has been made, impediments to full implementation remain in some jurisdictions. We therefore call on the FSB to undertake an ongoing monitoring and public reporting on compensation practices focused on remaining gaps and impediments to full implementation of these standards and carry out an on-going bilateral complaint handling process to address level playing field concerns of individual firms. Based on the findings of this ongoing monitoring, we call on the FSB to consider any additional guidance on the definition of material risk takers and the scope and timing of peer review process.

26. We reaffirm our commitment to reduce authorities' and financial institutions' reliance on external credit ratings, and call on standard setters, market participants, supervisors and

central banks to implement the agreed FSB principles and end practices that rely mechanistically on these ratings. We ask the FSB to report to our Finance Ministers and Central Bank Governors at their February meeting on progress made in this area by standard setters and jurisdictions against these principles.

27. We agree to intensify our monitoring of financial regulatory reforms, report on our progress and track our deficiencies. To do so, we endorse the FSB coordination framework for implementation monitoring, notably on key areas such as the Basel capital and liquidity frameworks, OTC derivatives reforms, compensation practices, G-SIFI policies, resolution frameworks, and shadow banking. This work will build on the monitoring activities conducted by standard setting bodies to the extent possible. We stress the need to report the results of this monitoring to the public including on an annual basis through a traffic lights scoreboard prepared by the FSB. We welcome its first publication today and commit to take all necessary actions to progress in the areas where deficiencies have been identified.

Addressing the too big to fail issue

28. We are determined to make sure that no financial firm is “too big to fail” and that taxpayers should not bear the costs of resolution. To this end, we endorse the FSB comprehensive policy framework, comprising a new international standard for resolution regimes, more intensive and effective supervision, and requirements for cross-border cooperation and recovery and resolution planning as well as, from 2016, additional loss absorbency for those banks determined as global systemically important financial institutions (G-SIFIs). The FSB publishes today an initial list of G-SIFIs, to be updated each year in November. We will implement the FSB standards and recommendations within the agreed timelines and commit to undertake the necessary legislative changes, step up cooperation amongst authorities and strengthen supervisory mandates and powers.

29. We ask the FSB in consultation with the BCBS, to deliver a progress report by the G20 April Finance meeting on the definition of the modalities to extend expeditiously the G SIFI framework to domestic systemically important banks. We also ask the IAIS to continue its work on a common framework for the supervision of internationally active insurance groups, call on CPSS and IOSCO to continue their work on systemically important market infrastructures and the FSB in consultation with IOSCO to prepare methodologies to identify systemically important non-bank financial entities by end-2012.

Filling in the gaps in the regulation and supervision of the financial sector

30. Bank-like activities. The shadow banking system can create opportunities for regulatory arbitrage and cause the build-up of systemic risk outside the scope of the regulated banking sector. To this end, we agree to strengthen the regulation and oversight of the shadow banking system and endorse the FSB initial eleven recommendations with a work-plan to further develop them in the course of 2012, building on a balanced approach between indirect regulation of shadow banking through banks and direct regulation of shadow banking activities, including money markets funds, securitization, securities lending and repo

activities, and other shadow banking entities. We ask Finance Ministers and Central Bank Governors to review the progress made in this area at their April meeting.

31. Markets. We must ensure that markets serve efficient allocation of investments and savings in our economies and do not pose risks to financial stability. To this end, we commit to implement initial recommendations by IOSCO on market integrity and efficiency, including measures to address the risks posed by high frequency trading and dark liquidity, and call for further work by mid-2012. We also call on IOSCO to assess the functioning of credit default swap (CDS) markets and the role of those markets in price formation of underlying assets by our next Summit. We support the creation of a global legal entity identifier (LEI) which uniquely identifies parties to financial transactions. We call on the FSB to take the lead in helping coordinate work among the regulatory community to prepare recommendations for the appropriate governance framework, representing the public interest, for such a global LEI by our next Summit.

32. Commodity markets. We welcome the G20 study group report on commodities and endorse IOSCO's report and its common principles for the regulation and supervision of commodity derivatives markets. We need to ensure enhanced market transparency, both on cash and financial commodity markets, including OTC, and achieve appropriate regulation and supervision of participants in these markets. Market regulators and authorities should be granted effective intervention powers to address disorderly markets and prevent market abuses. In particular, market regulators should have, and use formal position management powers, including the power to set ex-ante position limits, particularly in the delivery month where appropriate, among other powers of intervention. We call on IOSCO to report on the implementation of its recommendations by the end of 2012.

33. Consumer protection. We agree that integration of financial consumer protection policies into regulatory and supervisory frameworks contributes to strengthening financial stability, endorse the FSB report on consumer finance protection and the high level principles on financial consumer protection prepared by the OECD together with the FSB. We will pursue the full application of these principles in our jurisdictions and ask the FSB and OECD along with other relevant bodies, to report on progress on their implementation to the upcoming Summits and develop further guidelines if appropriate.

34. Other regulatory issues. We are developing macro-prudential policy frameworks and tools to limit the build-up of risks in the financial sector, building on the ongoing work of the FSB-BIS-IMF on this subject. We endorse the joint report by FSB, IMF and World Bank on issues of particular interest to emerging market and developing economies and call international bodies to take into account emerging market and developing economies' specific considerations and concerns in designing new international financial standards and policies where appropriate. We reaffirm our objective to achieve a single set of high quality global accounting standards and meet the objectives set at the London summit in April 2009, notably as regards the improvement of standards for the valuation of financial instruments. We call on the IASB and the FASB to complete their convergence project and look forward to a progress report at the Finance Ministers and Central Bank governors meeting in April

2012. We look forward to the completion of proposals to reform the IASB governance framework.

Tackling tax havens and non-cooperative jurisdictions

35. We are committed to protect our public finances and the global financial system from the risks posed by tax havens and non cooperative jurisdictions. The damage caused is particularly important for the least developed countries. Today we reviewed progress made in the three following areas:

    - In the tax area, the Global Forum has now 105 members. More than 700 information exchange agreements have been signed and the Global Forum is leading an extensive peer review process of the legal framework (phase 1) and implementation of standards (phase 2). We ask the Global Forum to complete the first round of phase 1 reviews and substantially advance the phase 2 reviews by the end of next year. We will review progress at our next Summit. Many of the 59 jurisdictions which have been reviewed by the Global Forum are fully or largely compliant or are making progress through the implementation of the 379 relevant recommendations. We urge all the jurisdictions to take the necessary action to tackle the deficiencies identified in the course of their reviews, in particular the 11 jurisdictions whose framework does not allow them at this stage to qualify to phase 2. We underline in particular the importance of comprehensive tax information exchange and encourage competent authorities to continue their work in the Global Forum to assess and better define the means to improve it. We welcome the commitment made by all of us to sign the Multilateral Convention on Mutual Administrative Assistance in Tax Matters and strongly encourage other jurisdictions to join this Convention. In this context, we will consider exchanging information automatically on a voluntary basis as appropriate and as provided for in the convention;

    - In the prudential area, the FSB has led a process and published a statement to evaluate adherence to internationally agreed information exchange and cooperation standards. Out of 61 jurisdictions selected for their importance on several economic and financial indicators, we note with satisfaction that 41 jurisdictions have already demonstrated sufficiently strong adherence to these standards and that 18 others are committing to join them. We urge the identified non-cooperative jurisdictions to take the actions requested by the FSB;

    - In the anti-money laundering and combating the financing of terrorism area, the FATF has recently published an updated list of jurisdictions with strategic deficiencies. We urge all jurisdictions and in particular those identified as not complying or making sufficient progress to strengthen their AML/CFT systems in cooperation with the FATF.

36. We urge all jurisdictions to adhere to the international standards in the tax, prudential and AML/CFT areas. We stand ready, if needed, to use our existing countermeasures to deal with jurisdictions which fail to meet these standards. The FATF, the Global Forum and other international organizations should work closely together to enhance transparency and facilitate cooperation between tax and law enforcement agencies in the implementation of

these standards. We also call on FATF and OECD to do further work to prevent misuse of corporate vehicles.

Strengthening the FSB capacity resources and governance

37. The FSB has played a key role in promoting development and implementation of regulation of the financial sector.

38. To keep pace with this growing role, we agreed to strengthen FSB's capacity, resources and governance, building on its Chair's proposals. These include:

    - the establishment of the FSB on an enduring organizational footing: we have given the FSB a strong political mandate and need to give it a corresponding institutional standing, with legal personality and greater financial autonomy, while preserving the existing and well-functioning strong links with the BIS;

    - the reconstitution of the steering committee: as we move into a phase of policy development and implementation that in many cases will require significant legislative changes, we agree that the upcoming changes to the FSB steering committee should include the executive branch of governments of the G20 Chair and the larger financial systems as well as the geographic regions and financial centers not currently represented, in a balanced manner consistent with the FSB Charter;

    - the strengthening of its coordination role vis-à-vis other standard setting bodies (SSB) on policy development and implementation monitoring, avoiding any functional overlaps and recognizing the independence of the SSBs.

39. We call for first steps to be implemented by the end of this year and will review the implementation of the reform at our next Summit.

Addressing Food Price Volatility and Increasing Agriculture Production and Productivity

40. Increasing agricultural production and productivity is essential to promote food security and foster sustainable economic growth. A more stable, predictable, distortion free, open and transparent trading system allows more investment in agriculture and has a critical role to play in this regard. Mitigating excessive food and agricultural commodity price volatility is also an important endeavour. These are necessary conditions for stable access to sufficient, safe and nutritious food for everyone. We agreed to mobilize the G20 capacities to address these key challenges, in close cooperation with all relevant international organisations and in consultation with producers, civil society and the private sector.

41. Our Agriculture Ministers met for the first time in Paris on 22-23 June 2011 and adopted the Action Plan on Food Price Volatility and Agriculture. We welcome this Action Plan, annexed to this Declaration.

42. We have decided to act on the five objectives of this Action Plan: (i) improving agricultural production and productivity, (ii) increasing market information and transparency, (iii) reducing the effects of price volatility for the most vulnerable, (iv) strengthening international policy coordination and (v) improving the functioning of agricultural commodity derivatives' markets.

43. We commit to sustainably increase agricultural production and productivity. To feed a world population expected to reach more than 9 billion people by 2050, it is estimated that agricultural production will have to increase by 70% over the same period. We agree to further invest in agriculture, in particular in the poorest countries, and bearing in mind the importance of smallholders, through responsible public and private investment. In this regard, we decide to:

   - Urge multilateral development banks to finalise their joint action plan on water, food and agriculture and provide an update on its implementation by our next Summit;

   - Invest in research and development of agricultural productivity. As a first step, we support the "International Research Initiative for Wheat Improvement" (Wheat Initiative), launched in Paris on September 15, 2011 and we welcome the G20 Seminar on Agricultural Productivity held in Brussels on 13 October 2011 and the first G20 Conference on Agricultural Research for Development, held in Montpellier on 12-13 September 2011, designed to foster innovation-sharing with and among developing countries.

44. We commit to improve market information and transparency in order to make international markets for agricultural commodities more effective. To that end, we launched:

   - The "Agricultural Market Information System" (AMIS) in Rome on September 15, 2011, to improve information on markets. It will enhance the quality, reliability, accuracy, timeliness and comparability of food market outlook information. As a first step, AMIS will focus its work on four major crops: wheat, maize, rice and soybeans. AMIS involves G20 countries and, at this stage, Egypt, Vietnam, Thailand, the Philippines, Nigeria, Ukraine and Kazakhstan. It will be managed by a secretariat located in FAO;
   - The "Global Agricultural Geo-monitoring Initiative" in Geneva on September 22-23, 2011. This initiative will coordinate satellite monitoring observation systems in different regions of the world in order to enhance crop production projections and weather forecasting data.

45. We recognize that appropriately regulated and transparent agricultural financial markets are a key for well-functioning physical markets and risk management. We welcome IOSCO recommendations on commodity derivatives endorsed by our Finance Ministers.

46. We commit to mitigate the adverse effects of excessive price volatility for the most vulnerable through the development of appropriate risk-management instruments. These actions are detailed in the development section of this final Declaration.

47. According to the Action Plan, we agree to remove food export restrictions or extraordinary taxes for food purchased for non-commercial humanitarian purposes by the World Food Program and agree not to impose them in the future. In this regard, we encourage the adoption of a declaration by the WTO for the Ministerial Conference in December 2011.

48. We have launched a “Rapid Response Forum” in Rome on September 16, 2011 to improve the international community’s capacity to coordinate policies and develop common responses in time of market crises.

49. We welcome the production of a report by the international organizations on how water scarcity and related issues could be addressed in the appropriate fora.

50. We commend the joint work undertaken by FAO, OECD, The World Bank Group, IFAD, UNCTAD, WFP, WTO, IMF, IFPRI and the UN HLTF to support our agenda and we request that they continue working closely together.

51. We will keep progress on the implementation of the Action Plan on Food Price Volatility and Agriculture.

Improving the functioning of Energy Markets

52. We stress the importance of well-functioning and transparent physical and financial energy markets, reduced excessive price volatility, improved energy efficiency and better access to clean technologies, to achieve strong growth that is both sustainable and inclusive. We are committed to promote sustainable development and green growth and to continue our efforts to face the challenge of climate change.

53. We commit to more transparent physical and financial energy markets. Commodity derivatives are being addressed as part of our financial regulation reform agenda. We have made progress and reaffirm our commitment to improve the timeliness, completeness and reliability of the JODI-Oil database as soon as possible. We also commit to support the IEF – JODI work in order to improve the reliability of JODI-Oil and look forward to receiving their recommendations. We will regularly review and assess progress made on this front.

54. We welcome the IEF Charter’s commitment to improve dialogue between oil producer and consumer countries, as well as the holding on January 24, 2011 of the Riyadh Symposium on short, medium and long term outlook and forecasts for oil markets. We call for those meetings to be held on an annual basis and for the IEF, the IEA and OPEC to release a joint communiqué and a report highlighting their outcomes.

55. We note the new JODI-Gas database and commit to work on contributing to it on the basis of the same principles as the JODI-Oil database. We also call for annual symposiums and communiqués on short, medium and long term outlook and forecasts for gas and coal. We call for further work on gas and coal market transparency and ask the IEA, IEF and OPEC, to provide recommendations in this field by mid-2012.

56. Recognizing the role of Price Reporting Agencies for the proper functioning of oil markets, we ask IOSCO, in collaboration with the IEF, the IEA and OPEC, to prepare recommendations to improve their functioning and oversight to our Finance Ministers by mid-2012.

57. We reaffirm our commitment to rationalise and phase-out over the medium term inefficient fossil fuel subsidies that encourage wasteful consumption, while providing targeted support for the poorest. We welcome the country progress reports on implementing strategies for rationalizing and phasing out inefficient fossil fuel subsidies, as well as the joint report from the IEA, OPEC, OECD and the World Bank on fossil fuels and other energy support measures. We ask our Finance Ministers and other relevant officials to press ahead with reforms and report back next year.

Protecting Marine Environment

58. We decide to take further action to protect the marine environment, in particular to prevent accidents related to offshore oil and gas exploration and development, as well as marine transportation, and to deal with their consequences. We welcome the establishment of a mechanism to share best practices and information on legal frameworks, experiences in preventing and managing accidents and disasters relating to offshore oil and gas drilling, production and maritime transportation. We ask the Global Marine Environment Protection working group, in cooperation with the OECD, the International Regulators Forum and OPEC, to report next year on progress made and to establish this mechanism in order to disseminate these best practices by mid-2012, at which point it will be reviewed. We also commit to foster dialogue with international organisations and relevant stakeholders.

Fostering Clean energy, Green Growth and Sustainable Development

59. We will promote low-carbon development strategies in order to optimize the potential for green growth and ensure sustainable development in our countries and beyond. We commit to encouraging effective policies that overcome barriers to efficiency, or otherwise spur innovation and deployment of clean and efficient energy technologies. We welcome the UN Secretary General's "Sustainable Energy for All" initiative. We support the development and deployment of clean energy and energy efficiency (C3E) technologies. We welcome the assessment of the countries' current situation regarding the deployment of these technologies as well as the on-going exercise of sharing best practices, as a basis for better policy making.

60. We are committed to the success of the United Nations Conference on Sustainable Development in Rio de Janeiro in 2012. "Rio + 20" will be an opportunity to mobilize the political will needed to reinsert sustainable development at the heart of the international agenda, as a long term solution to growth, job creation, poverty reduction and environment protection. A green and inclusive growth will create a broad spectrum of opportunities in new industries and in areas such as environmental services, renewable energy and new ways to provide basic services to the poor.

Pursuing the Fight against Climate Change

61. We are committed to the success of the upcoming Durban Conference on Climate Change on 28 November - 9 December 2011. We support South Africa as the incoming President of the Conference. We call for the implementation of the Cancun agreements and further progress in all areas of negotiation in Durban.

62. We stand ready to work towards operationalization of the Green Climate Fund as part of a balanced outcome in Durban, building upon the report of the Transitional Committee.

63. Financing the fight against climate change is one of our main priorities. In Copenhagen, developed countries have committed to the goal of mobilizing jointly USD 100 billion per year from all sources by 2020 to assist developing countries to mitigate and adapt to the impact of climate change, in the context of meaningful mitigation actions and transparency. We discussed the World Bank – IMF – OECD – regional development banks report on climate finance and call for continued work taking into account the objectives, provisions and principles of the UNFCCC by international financial institutions and the relevant UN organizations. We ask our Finance Ministers to report to us at our next Summit on progress made on climate finance.

64. We reaffirm that climate finance will come from a wide variety of sources, public and private, bilateral and multilateral, including innovative sources of finance. We recognize the role of public finance and public policy in supporting climate-related investments in developing countries. We underline the role of the private sector in supporting climate-related investments globally, particularly through various market-based mechanisms and also call on the MDBs to develop new and innovative financial instruments to increase their leveraging effect on private flows.

Avoiding protectionism and reinforcing the Multilateral Trading System

65. At this critical time for the global economy, it is important to underscore the merits of the multilateral trading system as a way to avoid protectionism and not turn inward. We reaffirm our standstill commitments until the end of 2013, as agreed in Toronto, commit to roll back any new protectionist measure that may have risen, including new export restrictions and WTO-inconsistent measures to stimulate exports and ask the WTO, OECD and UNCTAD to continue monitoring the situation and to report publicly on a semi-annual basis.

66. We stand by the Doha Development Agenda (DDA) mandate. However, it is clear that we will not complete the DDA if we continue to conduct negotiations as we have in the past. We recognize the progress achieved so far. To contribute to confidence, we need to pursue in 2012 fresh, credible approaches to furthering negotiations, including the issues of concern for Least Developed Countries and, where they can bear fruit, the remaining elements of the DDA mandate. We direct our Ministers to work on such approaches at the upcoming Ministerial meeting in Geneva and also to engage into discussions on challenges and opportunities to the multilateral trading system in a globalised economy and to report back by the Mexico Summit.

67. Furthermore, as a contribution to a more effective, rules-based trading system, we support a strengthening of the WTO, which should play a more active role in improving transparency on trade relations and policies and enhancing the functioning of the dispute settlement mechanism.

68. We look forward to welcoming Russia as a WTO member by the end of the year.

Development: Investing for Global Growth

69. As part of our overall objective for growth and jobs, we commit to maximise growth potential and economic resilience in developing countries, in particular in Low-Income Countries (LICs). Development is a key element of our agenda for global recovery and investment for future growth. It is also critical to creating the jobs needed to improve people's living standards worldwide. Recognizing that development is a concern and duty to all G20 countries, our Ministers met for the first time on Development in Washington on September 23, 2011.

70. We support the report of the Development Working Group, annexed to this Declaration, implementing the G20's Seoul Development Consensus for Shared Growth, and call for prompt implementation of our Multi-Year Action Plan.

71. We take actions to overcome the most critical bottlenecks and constraints hampering growth in developing countries. In this regard, we decided to focus on two priorities, food security and infrastructure, and to address the issue of financing for development.

72. The humanitarian crisis in the Horn of Africa underscores the urgent need to strengthen emergency and long-term responses to food insecurity. In accordance with our Multi-Year "Action Plan on Food Price Volatility and Agriculture", we:

    - welcome the initiative of the Economic Community of Western African States (ECOWAS) to set up a targeted regional emergency humanitarian food reserve system, as a pilot project, and the "ASEAN+3" emergency rice reserve initiative;

    - Urge multilateral development banks to finalise their joint action plan on water, food and agriculture and provide an update on its implementation by our next Summit;

    - Support, for those involved, the implementation of the L'Aquila Food Security Initiative and other initiatives, including the Global Agriculture and Food Security Program;

    - Launch a platform for tropical agriculture to enhance capacity-building and knowledge sharing to improve agricultural production and productivity;

    - Foster smallholder sensitive investments in agriculture and explore opportunities for market inclusion and empowerment of small producers in value chains;

- Support risk-management instruments, such as commodity hedging instruments, weather index insurances and contingent financing tools, to protect the most vulnerable against excessive price volatility, including the expansion of the Agricultural Price Risk-Management Product developed by the World Bank Group (IFC). We ask international organisations to work together to provide expertise and advice to low-income countries on risk-management and we welcome the NEPAD initiative to integrate risk management in agricultural policies in Africa;

- Encourage all countries to support the Principles of Responsible Agricultural Investment (PRAI) to ensure sustained investment in agriculture;

- Confirm our commitment to scaling-up nutrition through a combination of direct nutrition interventions and the incorporation of nutrition in all relevant policies.

73. Investing in infrastructure in developing countries, especially in LICs and, whilst not exclusively, with a special emphasis on sub-Saharan Africa, will unlock new sources of growth, contribute to the achievement of the Millennium Development Goals and sustainable development. We support efforts to improve capacities and facilitate the mobilization of resources for infrastructure projects initiated by public and private sectors.

74. We commissioned a High Level Panel (HLP), chaired by Mr Tidjane Thiam, to identify measures to scale-up and diversify sources of financing for infrastructure and we requested the MDBs to develop a joint action plan to address bottlenecks. We welcome both the HLP's report and the MDB Action Plan. In this regard, we support the following recommendations to :

    - Support the development of local capacities to improve supply and quality of projects and make them bankable and enhance knowledge sharing on skills for employment in low income countries. In this regard, we welcome the High Level Panel fellowship program and MDB's efforts to develop and strengthen regional public-private partnerships practitioner's networks;

    - Increase quality of information available to investors, through the establishment of online regional marketplace platforms to better link project sponsors and financiers, such as the "Sokoni Africa Infrastructure Marketplace", and the extension of the Africa Infrastructure Country Diagnosis, which aim at benchmarking infrastructure data;

    - Prioritize project preparation financing, encouraging the MDBs to dedicate a greater share of their funds to preparation facilities that can operate on a revolving basis and call on MDBs to improve effectiveness of the existing preparation facilities;

    - Contribute to building an enabling environment for private and public infrastructure financing, especially for regional projects. We support increased transparency in the construction sector, the review of the Debt Sustainability Framework taking into account the investment-growth nexus. We call on MDBs to harmonize their procurement rules and practices and we support move towards mutual recognition of procedures and eligibility rules;

- Improve access to funding, notably through the strengthening of local intermediaries and financial markets, more effective use of MDBs capital, including through use of credit enhancement and guarantee instruments.

75. We commissioned the HLP to establish criteria to identify exemplary investment projects in cooperation with multilateral development banks. We highlight the 11 projects mentioned in the HLP report annexed to this Declaration, which have the potential to have a transformational regional impact by leading to increased integration and access to global markets, with due consideration to environmental sustainability. We call on the MDBs, working with countries involved and in accordance with regional priorities (in particular the Program for Infrastructure Development in Africa), to pursue the implementation of such projects that meet the HLP criteria and to prioritize project preparation financing, notably the NEPAD Infrastructure Projects Preparation Facility.

76. We stress the importance of following-up on these concrete actions and invite MDBs to provide regular updates on the progress achieved.

77. Recognizing that economic shocks affect disproportionately the most vulnerable, we commit to ensure a more inclusive and resilient growth. We therefore decide to support the implementation and expansion of nationally-designed social protection floors in developing countries, especially low income countries. We will work to reduce the average cost of transferring remittances from 10% to 5% by 2014, contributing to release an additional 15 billion USD per year for recipient families.

78. Recognizing that 2.5 billion people and millions of Small and Medium Enterprises (SMEs) throughout the world lack access to formal financial services, and the crucial importance for developing countries to overcome this challenge, we launched in Seoul an ambitious Global Partnership for Financial Inclusion (GPFI). We commend the ongoing work by the GPFI to foster the development of SME finance and to include financial inclusion principles in international financial standards. We endorse the five recommendations put forward in its report, annexed to this Declaration, and commit to pursue our efforts under the Mexican Presidency.

79. We welcome the presentation of the report by Mr Bill Gates on financing for development. We recognize the importance of the involvement of all actors, both public and private, and the mobilisation of domestic, external and innovative sources of finance.

80. Consistent with the Multi-Year Action Plan agreed in Seoul, we strongly support developing countries' mobilization of domestic resources and their effective management as the main driver for development. This includes technical assistance and capacity building for designing and efficient managing of tax administrations and revenue systems and greater transparency, particularly in mineral and natural resource investment. We urge multinational enterprises to improve transparency and full compliance with applicable tax laws. We

welcome initiatives to assist developing countries, on a demand-led basis, in the drafting and implementation of their transfer pricing legislation. We encourage all countries to join the Global Forum on Transparency and exchange of information in tax purposes.

81. We stress the pivotal role of ODA. Aid commitments made by developed countries should be met. Emerging G20 countries will engage or continue to extend their level of support to other developing countries. We welcome the emphasis on ensuring that poor countries benefit rapidly from innovation and technological advances, and agree to encourage triangular partnerships to drive priority innovations forward. We commit to raise the quality and efficiency of aid by concentrating on the highest impact interventions and increase the focus on concrete results and overall impact on development.

82. We agree that, over time, new sources of funding need to be found to address development needs. We discussed a set of options for innovative financing highlighted by Mr Bill Gates, such as Advance Market Commitments, Diaspora Bonds, taxation regime for bunker fuels, tobacco taxes, and a range of different financial taxes. Some of us have implemented or are prepared to explore some of these options. We acknowledge the initiatives in some of our countries to tax the financial sector for various purposes, including a financial transaction tax, inter alia to support development.

83. We welcome the upcoming 4^{th} High-Level Forum on aid effectiveness to be held in Busan, Korea (29 November-1st December 2011). The Forum will be an opportunity to establish a more inclusive partnership to address development effectiveness.

84. We look forward to a successful replenishment of the Asian Development Fund and of the International Fund for Agriculture Development.

Intensifying our Fight against Corruption

85. Corruption is a major impediment to economic growth and development. We have made significant progress to implement the G20 Anti-Corruption Action Plan. We endorse our experts' report, annexed to this Declaration, which outlines the major steps taken both by individual countries and the G20 collectively, and sets out further actions required to ensure that G20 countries continue to make positive progress against the Action Plan.

86. In this context:

- We welcome the ratification by India of the United Nations Convention against Corruption (UNCAC). We also welcome the decision made by Russia to join the OECD Convention on Combating Bribery of Foreign Public Officials in International Business Transactions. We commit to accelerate the ratification and implementation of UNCAC and to have a more active engagement within the OECD Working Group on Bribery on a voluntary basis. We further commend the member countries which are taking steps in the spirit of the Action Plan;

- We commend the first reviews on the implementation of UNCAC. We commit to lead by example in ensuring the transparency and inclusivity of UNCAC reviews by considering the voluntary options in accordance with the Terms of Reference of the Mechanism, notably with regards to the participation of civil society and transparency;

- We support the work of the Financial Action Task Force (FATF) to continue to identify and engage those jurisdictions with strategic Anti-Money Laundering/Counter-Financing of Terrorism (AML/CFT) deficiencies and update and implement the FATF standards calling for transparency of cross-border wires, beneficial ownership, customer due diligence and enhanced due diligence;

- We agree on a work program which includes a framework for asset recovery, building on the World Bank's Stolen Asset Recovery (StAR) Initiative, whistle-blowers' protection, denial of entry to corrupt officials and public sector transparency, including fair and transparent public procurement, with concrete results by the end of 2012.

87. We welcome initiatives aimed at increasing transparency in the relationship between private sector and government, including voluntary participation in the Extractive Industries Transparency Initiative (EITI). We also acknowledge the steps taken by some of us to request companies in the extractive industry to publish what they pay in countries of operation and to support the Construction Sector Transparency Initiative (CoST).

88. We commend the enhanced engagement of the private sector to fight against corruption. We welcome the commitments by the B20 to build on our Action Plan and urge them to take concrete action.

89. We hold ourselves accountable for our commitments and will review progress at our next Summit.

Governance

90. We welcome the report of UK Prime Minister David Cameron on global governance.

91. As our premier Forum for international economic cooperation, the G20 is unique in bringing together the major economies, advanced and emerging alike, to coordinate their policies and generate the political agreement necessary to tackle the challenges of global economic interdependence. It is a Leader-led and informal group and it should remain so. The G20 is part of the overall framework of international governance.

92. We agree that, in order to strengthen its ability to build and sustain the political consensus needed to respond to challenges, the G20 must remain efficient, transparent and accountable. To achieve this, we decide to:

    - Maintain our focus on the broad global economic challenges;

- Bolster our ability to deliver our agenda and work program effectively. We decide to formalise the Troika, made of past, present and future Presidencies to steer the work of the G20 in consultation with its members. We ask our Sherpas to develop working practices for the G20 under the Mexican Presidency;

- Pursue consistent and effective engagement with non-members, regional and international organisations, including the United Nations, and other actors, and we welcome their contribution to our work as appropriate. We also encourage engagement with civil society. We request our Sherpas to make us proposals for the next meeting.

93. We reaffirm that the G20's founding spirit of bringing together the major economies on an equal footing to catalyse action is fundamental and therefore agree to put our collective political will behind our economic and financial agenda, and the reform and more effective working of relevant international institutions.

94. On December 1st. 2011, Mexico will start chairing the G20. We will convene in Los Cabos, Baja California, in June 2012, under the Chairmanship of Mexico. Russia will chair the G20 in 2013, Australia in 2014 and Turkey in 2015. We have also agreed, as part of our reforms to the G20, that after 2015, annual presidencies of the G20 will be chosen from rotating regional groups, starting with the Asian grouping comprising of China, Indonesia, Japan and Korea. Details of the regional groups are attached.

95. We thank France for its G20 Presidency and for hosting the successful Cannes Summit.

<u>The Global Plan for Recovery and Reform</u>
<u>2 April 2009</u>

1. We, the Leaders of the Group of Twenty, met in London on 2 April 2009.

2. We face the greatest challenge to the world economy in modern times; a crisis which has deepened since we last met, which affects the lives of women, men, and children in every country, and which all countries must join together to resolve. A global crisis requires a global solution.

3. We start from the belief that prosperity is indivisible; that growth, to be sustained, has to be shared; and that our global plan for recovery must have at its heart the needs and jobs of hard-working families, not just in developed countries but in emerging markets and the poorest countries of the world too; and must reflect the interests, not just of today's population, but of future generations too. We believe that the only sure foundation for sustainable globalisation and rising prosperity for all is an open world economy based on market principles, effective regulation, and strong global institutions.

4. We have today therefore pledged to do whatever is necessary to:

   - restore confidence, growth, and jobs;
   - repair the financial system to restore lending;
   - strengthen financial regulation to rebuild trust;
   - fund and reform our international financial institutions to overcome this crisis and prevent future ones;
   - promote global trade and investment and reject protectionism, to underpin prosperity; and
   - build an inclusive, green, and sustainable recovery.

   By acting together to fulfil these pledges we will bring the world economy out of recession and prevent a crisis like this from recurring in the future.

5. The agreements we have reached today, to treble resources available to the IMF to $750 billion, to support a new SDR allocation of $250 billion, to support at least $100 billion of additional lending by the MDBs, to ensure $250 billion of support for trade finance, and to use the additional resources from agreed IMF gold sales for concessional finance for the poorest countries, constitute an additional $1.1 trillion programme of support to restore credit, growth and jobs in the world economy. Together with the measures we have each taken nationally, this constitutes a global plan for recovery on an unprecedented scale.

Restoring growth and jobs

6. We are undertaking an unprecedented and concerted fiscal expansion, which will save or create millions of jobs which would otherwise have been destroyed, and that will, by the end of next year, amount to $5 trillion, raise output by 4 per cent, and accelerate the transition to a green economy. We are committed to deliver the scale of sustained fiscal effort necessary to restore growth.

7. Our central banks have also taken exceptional action. Interest rates have been cut aggressively in most countries, and our central banks have pledged to maintain expansionary policies for as long as needed and to use the full range of monetary policy instruments, including unconventional instruments, consistent with price stability.

8. Our actions to restore growth cannot be effective until we restore domestic lending and international capital flows. We have provided significant and comprehensive support to our banking systems to provide liquidity, recapitalise financial institutions, and address decisively the problem of impaired assets. We are committed to take all necessary actions to restore the normal flow of credit through the financial system and ensure the soundness of systemically important institutions, implementing our policies in line with the agreed G20 framework for restoring lending and repairing the financial sector.

9. Taken together, these actions will constitute the largest fiscal and monetary stimulus and the most comprehensive support programme for the financial sector in modern times. Acting together strengthens the impact and the exceptional policy actions announced so far must be implemented without delay. Today, we have further agreed over $1 trillion of additional resources for the world economy through our international financial institutions and trade finance.

10. Last month the IMF estimated that world growth in real terms would resume and rise to over 2 percent by the end of 2010. We are confident that the actions we have agreed today, and our unshakeable commitment to work together to restore growth and jobs, while preserving long-term fiscal sustainability, will accelerate the return to trend growth. We commit today to taking whatever action is necessary to secure that outcome, and we call on the IMF to assess regularly the actions taken and the global actions required.

11. We are resolved to ensure long-term fiscal sustainability and price stability and will put in place credible exit strategies from the measures that need to be taken now to support the financial sector and restore global demand. We are convinced that by implementing our agreed policies we will limit the longer-term costs to

our economies, thereby reducing the scale of the fiscal consolidation necessary over the longer term.

12. We will conduct all our economic policies cooperatively and responsibly with regard to the impact on other countries and will refrain from competitive devaluation of our currencies and promote a stable and well-functioning international monetary system. We will support, now and in the future, to candid, even-handed, and independent IMF surveillance of our economies and financial sectors, of the impact of our policies on others, and of risks facing the global economy.

Strengthening financial supervision and regulation

13. Major failures in the financial sector and in financial regulation and supervision were fundamental causes of the crisis. Confidence will not be restored until we rebuild trust in our financial system. We will take action to build a stronger, more globally consistent, supervisory and regulatory framework for the future financial sector, which will support sustainable global growth and serve the needs of business and citizens.

14. We each agree to ensure our domestic regulatory systems are strong. But we also agree to establish the much greater consistency and systematic cooperation between countries, and the framework of internationally agreed high standards, that a global financial system requires. Strengthened regulation and supervision must promote propriety, integrity and transparency; guard against risk across the financial system; dampen rather than amplify the financial and economic cycle; reduce reliance on inappropriately risky sources of financing; and discourage excessive risk-taking. Regulators and supervisors must protect consumers and investors, support market discipline, avoid adverse impacts on other countries, reduce the scope for regulatory arbitrage, support competition and dynamism, and keep pace with innovation in the marketplace.

15. To this end we are implementing the Action Plan agreed at our last meeting, as set out in the attached progress report. We have today also issued a Declaration, *Strengthening the Financial System*. In particular we agree:

    - to establish a new Financial Stability Board (FSB) with a strengthened mandate, as a successor to the Financial Stability Forum (FSF), including all G20 countries, FSF members, Spain, and the European Commission;

    - that the FSB should collaborate with the IMF to provide early warning of macroeconomic and financial risks and the actions needed to address them;

- to reshape our regulatory systems so that our authorities are able to identify and take account of macro-prudential risks;

- to extend regulation and oversight to all systemically important financial institutions, instruments and markets. This will include, for the first time, systemically important hedge funds;

- to endorse and implement the FSF's tough new principles on pay and compensation and to support sustainable compensation schemes and the corporate social responsibility of all firms;

- to take action, once recovery is assured, to improve the quality, quantity, and international consistency of capital in the banking system. In future, regulation must prevent excessive leverage and require buffers of resources to be built up in good times;

- to take action against non-cooperative jurisdictions, including tax havens. We stand ready to deploy sanctions to protect our public finances and financial systems. The era of banking secrecy is over. We note that the OECD has today published a list of countries assessed by the Global Forum against the international standard for exchange of tax information;

- to call on the accounting standard setters to work urgently with supervisors and regulators to improve standards on valuation and provisioning and achieve a single set of high-quality global accounting standards; and

- to extend regulatory oversight and registration to Credit Rating Agencies to ensure they meet the international code of good practice, particularly to prevent unacceptable conflicts of interest.

16. We instruct our Finance Ministers to complete the implementation of these decisions in line with the timetable set out in the Action Plan. We have asked the FSB and the IMF to monitor progress, working with the Financial Action Taskforce and other relevant bodies, and to provide a report to the next meeting of our Finance Ministers in Scotland in November.

Strengthening our global financial institutions

17. Emerging markets and developing countries, which have been the engine of recent world growth, are also now facing challenges which are adding to the current downturn in the global economy. It is imperative for global confidence and economic recovery that capital continues to flow to them. This will require a substantial strengthening of the international financial institutions, particularly the

IMF. We have therefore agreed today to make available an additional $850 billion of resources through the global financial institutions to support growth in emerging market and developing countries by helping to finance counter-cyclical spending, bank recapitalisation, infrastructure, trade finance, balance of payments support, debt rollover, and social support. To this end:

- we have agreed to increase the resources available to the IMF through immediate financing from members of $250 billion, subsequently incorporated into an expanded and more flexible New Arrangements to Borrow, increased by up to $500 billion, and to consider market borrowing if necessary; and

- we support a substantial increase in lending of at least $100 billion by the Multilateral Development Banks (MDBs), including to low income countries, and ensure that all MDBs have the appropriate capital.

18. It is essential that these resources can be used effectively and flexibly to support growth. We welcome in this respect the progress made by the IMF with its new Flexible Credit Line (FCL) and its reformed lending and conditionality framework which will enable the IMF to ensure that its facilities address effectively the underlying causes of countries' balance of payments financing needs, particularly the withdrawal of external capital flows to the banking and corporate sectors. We support Mexico's decision to seek an FCL arrangement.

19. We have agreed to support a general SDR allocation which will inject $250 billion into the world economy and increase global liquidity, and urgent ratification of the Fourth Amendment.

20. In order for our financial institutions to help manage the crisis and prevent future crises we must strengthen their longer term relevance, effectiveness and legitimacy. So alongside the significant increase in resources agreed today we are determined to reform and modernise the international financial institutions to ensure they can assist members and shareholders effectively in the new challenges they face. We will reform their mandates, scope and governance to reflect changes in the world economy and the new challenges of globalisation, and that emerging and developing economies, including the poorest, must have greater voice and representation. This must be accompanied by action to increase the credibility and accountability of the institutions through better strategic oversight and decision making. To this end:

- we commit to implementing the package of IMF quota and voice reforms agreed in April 2008 and call on the IMF to complete the next review of quotas by January 2011;

- we agree that, alongside this, consideration should be given to greater involvement of the Fund's Governors in providing strategic direction to the IMF and increasing its accountability;

- we commit to implementing the World Bank reforms agreed in October 2008. We look forward to further recommendations, at the next meetings, on voice and representation reforms on an accelerated timescale, to be agreed by the 2010 Spring Meetings;

- we agree that the heads and senior leadership of the international financial institutions should be appointed through an open, transparent, and merit-based selection process; and

- building on the current reviews of the IMF and World Bank we asked the Chairman, working with the G20 Finance Ministers, to consult widely in an inclusive process and report back to the next meeting with proposals for further reforms to improve the responsiveness and adaptability of the IFIs.

21. In addition to reforming our international financial institutions for the new challenges of globalisation we agreed on the desirability of a new global consensus on the key values and principles that will promote sustainable economic activity. We support discussion on such a charter for sustainable economic activity with a view to further discussion at our next meeting. We take note of the work started in other fora in this regard and look forward to further discussion of this charter for sustainable economic activity.

Resisting protectionism and promoting global trade and investment

22. World trade growth has underpinned rising prosperity for half a century. But it is now falling for the first time in 25 years. Falling demand is exacerbated by growing protectionist pressures and a withdrawal of trade credit. Reinvigorating world trade and investment is essential for restoring global growth. We will not repeat the historic mistakes of protectionism of previous eras. To this end:

    - we reaffirm the commitment made in Washington: to refrain from raising new barriers to investment or to trade in goods and services, imposing new export restrictions, or implementing World Trade Organisation (WTO) inconsistent measures to stimulate exports. In addition we will rectify promptly any such measures. We extend this pledge to the end of 2010;

- we will minimise any negative impact on trade and investment of our domestic policy actions including fiscal policy and action in support of the financial sector. We will not retreat into financial protectionism, particularly measures that constrain worldwide capital flows, especially to developing countries;

- we will notify promptly the WTO of any such measures and we call on the WTO, together with other international bodies, within their respective mandates, to monitor and report publicly on our adherence to these undertakings on a quarterly basis;

- we will take, at the same time, whatever steps we can to promote and facilitate trade and investment; and

- we will ensure availability of at least $250 billion over the next two years to support trade finance through our export credit and investment agencies and through the MDBs. We also ask our regulators to make use of available flexibility in capital requirements for trade finance.

23. We remain committed to reaching an ambitious and balanced conclusion to the Doha Development Round, which is urgently needed. This could boost the global economy by at least $150 billion per annum. To achieve this we are committed to building on the progress already made, including with regard to modalities.

24. We will give renewed focus and political attention to this critical issue in the coming period and will use our continuing work and all international meetings that are relevant to drive progress.

Ensuring a fair and sustainable recovery for all

25. We are determined not only to restore growth but to lay the foundation for a fair and sustainable world economy. We recognise that the current crisis has a disproportionate impact on the vulnerable in the poorest countries and recognise our collective responsibility to mitigate the social impact of the crisis to minimise long-lasting damage to global potential. To this end:

    - we reaffirm our historic commitment to meeting the Millennium Development Goals and to achieving our respective ODA pledges, including commitments on Aid for Trade, debt relief, and the Gleneagles commitments, especially to sub-Saharan Africa;

    - the actions and decisions we have taken today will provide $50 billion to support social protection, boost trade and safeguard development in low income countries, as part of the significant increase in crisis support for these and other developing countries and emerging markets;

- we are making available resources for social protection for the poorest countries, including through investing in long-term food security and through voluntary bilateral contributions to the World Bank's Vulnerability Framework, including the Infrastructure Crisis Facility, and the Rapid Social Response Fund;

- we have committed, consistent with the new income model, that additional resources from agreed sales of IMF gold will be used, together with surplus income, to provide $6 billion additional concessional and flexible finance for the poorest countries over the next 2 to 3 years. We call on the IMF to come forward with concrete proposals at the Spring Meetings;

- we have agreed to review the flexibility of the Debt Sustainability Framework and call on the IMF and World Bank to report to the IMFC and Development Committee at the Annual Meetings; and

- we call on the UN, working with other global institutions, to establish an effective mechanism to monitor the impact of the crisis on the poorest and most vulnerable.

26. We recognise the human dimension to the crisis. We commit to support those affected by the crisis by creating employment opportunities and through income support measures. We will build a fair and family-friendly labour market for both women and men. We therefore welcome the reports of the London Jobs Conference and the Rome Social Summit and the key principles they proposed. We will support employment by stimulating growth, investing in education and training, and through active labour market policies, focusing on the most vulnerable. We call upon the ILO, working with other relevant organisations, to assess the actions taken and those required for the future.

27. We agreed to make the best possible use of investment funded by fiscal stimulus programmes towards the goal of building a resilient, sustainable, and green recovery. We will make the transition towards clean, innovative, resource efficient, low carbon technologies and infrastructure. We encourage the MDBs to contribute fully to the achievement of this objective. We will identify and work together on further measures to build sustainable economies.

28. We reaffirm our commitment to address the threat of irreversible climate change, based on the principle of common but differentiated responsibilities, and to reach

agreement at the UN Climate Change conference in Copenhagen in December 2009.

Delivering our commitments

29. We have committed ourselves to work together with urgency and determination to translate these words into action. We agreed to meet again before the end of this year to review progress on our commitments.

LEADERS' STATEMENT
THE PITTSBURGH SUMMIT
SEPTEMBER 24 – 25 2009

PREAMBLE

1. We meet in the midst of a critical transition from crisis to recovery to turn the page on an era of irresponsibility and to adopt a set of policies, regulations and reforms to meet the needs of the 21st century global economy.

2. When we last gathered in April, we confronted the greatest challenge to the world economy in our generation.

3. Global output was contracting at pace not seen since the 1930s. Trade was plummeting. Jobs were disappearing rapidly. Our people worried that the world was on the edge of a depression.

4. At that time, our countries agreed to do everything necessary to ensure recovery, to repair our financial systems and to maintain the global flow of capital.

5. It worked.

6. Our forceful response helped stop the dangerous, sharp decline in global activity and stabilize financial markets. Industrial output is now rising in nearly all our economies. International trade is starting to recover. Our financial institutions are raising needed capital, financial markets are showing a willingness to invest and lend, and confidence has improved.

7. Today, we reviewed the progress we have made since the London Summit in April. Our national commitments to restore growth resulted in the largest and most coordinated fiscal and monetary stimulus ever undertaken. We acted together to increase dramatically the resources necessary to stop the crisis from spreading around the world. We took steps to fix the broken regulatory system and started to implement sweeping reforms to reduce the risk that financial excesses will again destabilize the global economy.

8. A sense of normalcy should not lead to complacency.

9. The process of recovery and repair remains incomplete. In many countries, unemployment remains unacceptably high. The conditions for a recovery of private demand are not yet fully in place. We cannot rest until the global economy is restored to full health, and hard-working families the world over can find decent jobs.

10. We pledge today to sustain our strong policy response until a durable recovery is secured. We will act to ensure that when growth returns, jobs do too. We will avoid

any premature withdrawal of stimulus. At the same time, we will prepare our exit strategies and, when the time is right, withdraw our extraordinary policy support in a cooperative and coordinated way, maintaining our commitment to fiscal responsibility.

11. Even as the work of recovery continues, we pledge to adopt the policies needed to lay the foundation for strong, sustained and balanced growth in the 21^{st} century. We recognize that we have to act forcefully to overcome the legacy of the recent, severe global economic crisis and to help people cope with the consequences of this crisis. We want growth without cycles of boom and bust and markets that foster responsibility not recklessness.

12. Today we agreed:

13. *To launch a framework that lays out the policies and the way we act together to generate strong, sustainable and balanced global growth*. We need a durable recovery that creates the good jobs our people need.

14. We need to shift from public to private sources of demand, establish a pattern of growth across countries that is more sustainable and balanced, and reduce development imbalances. We pledge to avoid destabilizing booms and busts in asset and credit prices and adopt macroeconomic policies, consistent with price stability, that promote adequate and balanced global demand. We will also make decisive progress on structural reforms that foster private demand and strengthen long-run growth potential.

15. Our Framework for Strong, Sustainable and Balanced Growth is a compact that commits us to work together to assess how our policies fit together, to evaluate whether they are collectively consistent with more sustainable and balanced growth, and to act as necessary to meet our common objectives.

16. *To make sure our regulatory system for banks and other financial firms reins in the excesses that led to the crisis*. Where reckless behavior and a lack of responsibility led to crisis, we will not allow a return to banking as usual.

17. We committed to act together to raise capital standards, to implement strong international compensation standards aimed at ending practices that lead to excessive risk-taking, to improve the over-the-counter derivatives market and to create more powerful tools to hold large global firms to account for the risks they take. Standards for large global financial firms should be commensurate with the cost of their failure. For all these reforms, we have set for ourselves strict and precise timetables.

18. *To reform the global architecture to meet the needs of the 21^{st} century*. After this crisis, critical players need to be at the table and fully vested in our institutions to

allow us to cooperate to lay the foundation for strong, sustainable and balanced growth.

19. We designated the G-20 to be the premier forum for our international economic cooperation. We established the Financial Stability Board (FSB) to include major emerging economies and welcome its efforts to coordinate and monitor progress in strengthening financial regulation.

20. We are committed to a shift in International Monetary Fund (IMF) quota share to dynamic emerging markets and developing countries of at least 5% from over-represented countries to under-represented countries using the current quota formula as the basis to work from. Today we have delivered on our promise to contribute over $500 billion to a renewed and expanded IMF New Arrangements to Borrow (NAB).

21. We stressed the importance of adopting a dynamic formula at the World Bank which primarily reflects countries' evolving economic weight and the World Bank's development mission, and that generates an increase of at least 3% of voting power for developing and transition countries, to the benefit of under-represented countries. While recognizing that over-represented countries will make a contribution, it will be important to protect the voting power of the smallest poor countries. We called on the World Bank to play a leading role in responding to problems whose nature requires globally coordinated action, such as climate change and food security, and agreed that the World Bank and the regional development banks should have sufficient resources to address these challenges and fulfill their mandates.

22. *To take new steps to increase access to food, fuel and finance among the world's poorest while clamping down on illicit outflows*. Steps to reduce the development gap can be a potent driver of global growth.

23. Over four billion people remain undereducated, ill-equipped with capital and technology, and insufficiently integrated into the global economy. We need to work together to make the policy and institutional changes needed to accelerate the convergence of living standards and productivity in developing and emerging economies to the levels of the advanced economies. To start, we call on the World Bank to develop a new trust fund to support the new Food Security Initiative for low-income countries announced last summer. We will increase, on a voluntary basis, funding for programs to bring clean affordable energy to the poorest, such as the Scaling Up Renewable Energy Program.

24. *To phase out and rationalize over the medium term inefficient fossil fuel subsidies while providing targeted support for the poorest*. Inefficient fossil fuel subsidies encourage wasteful consumption, reduce our energy security, impede investment in clean energy sources and undermine efforts to deal with the threat of climate change.

25. We call on our Energy and Finance Ministers to report to us their implementation strategies and timeline for acting to meet this critical commitment at our next meeting.

26. We will promote energy market transparency and market stability as part of our broader effort to avoid excessive volatility.

27. *To maintain our openness and move toward greener, more sustainable growth*.

28. We will fight protectionism. We are committed to bringing the Doha Round to a successful conclusion in 2010.

29. We will spare no effort to reach agreement in Copenhagen through the United Nations Framework Convention on Climate Change (UNFCCC) negotiations.

30. We warmly welcome the report by the Chair of the London Summit commissioned at our last meeting and published today.

31. Finally, we agreed to meet in Canada in June 2010 and in Korea in November 2010. We expect to meet annually thereafter and will meet in France in 2011.

* * *

1. We assessed the progress we have made together in addressing the global crisis and agreed to maintain our steps to support economic activity until recovery is assured. We further committed to additional steps to ensure strong, sustainable, and balanced growth, to build a stronger international financial system, to reduce development imbalances, and to modernize our architecture for international economic cooperation.

A Framework for Strong, Sustainable, and Balanced Growth

2. The growth of the global economy and the success of our coordinated effort to respond to the recent crisis have increased the case for more sustained and systematic international cooperation. In the short-run, we must continue to implement our stimulus programs to support economic activity until recovery clearly has taken hold. We also need to develop a transparent and credible process for withdrawing our extraordinary fiscal, monetary and financial sector support, to be implemented when recovery becomes fully secured. We task our Finance Ministers, working with input from the IMF and FSB, at their November meeting to continue developing cooperative and coordinated exit strategies recognizing that the scale, timing, and sequencing of this process will vary across countries or regions and across the type of policy measures. Credible exit strategies should be designed and communicated clearly to anchor expectations and reinforce confidence.

3. The IMF estimates that world growth will resume this year and rise by nearly 3% by the end of 2010. Subsequently, our objective is to return the world to high, sustainable, and balanced growth, while maintaining our commitment to fiscal responsibility and sustainability, with reforms to increase our growth potential and capacity to generate jobs and policies designed to avoid both the re-creation of asset bubbles and the re-emergence of unsustainable global financial flows. We commit to put in place the necessary policy measures to achieve these outcomes.

4. We will need to work together as we manage the transition to a more balanced pattern of global growth. The crisis and our initial policy responses have already produced significant shifts in the pattern and level of growth across countries. Many countries have already taken important steps to expand domestic demand, bolstering global activity and reducing imbalances. In some countries, the rise in private saving now underway will, in time, need to be augmented by a rise in public saving. Ensuring a strong recovery will necessitate adjustments across different parts of the global economy, while requiring macroeconomic policies that promote adequate and balanced global demand as well as decisive progress on structural reforms that foster private domestic demand, narrow the global development gap, and strengthen long-run growth potential. The IMF estimates that only with such adjustments and realignments, will global growth reach a strong, sustainable, and balanced pattern. While governments have started moving in the right direction, a shared understanding and deepened dialogue will help build a more stable, lasting, and sustainable pattern of growth. Raising living standards in the emerging markets and developing

countries is also a critical element in achieving sustainable growth in the global economy.

5. Today we are launching a Framework for Strong, Sustainable, and Balanced Growth. To put in place this framework, we commit to develop a process whereby we set out our objectives, put forward policies to achieve these objectives, and together assess our progress. We will ask the IMF to help us with its analysis of how our respective national or regional policy frameworks fit together. We will ask the World Bank to advise us on progress in promoting development and poverty reduction as part of the rebalancing of global growth. We will work together to ensure that our fiscal, monetary, trade, and structural policies are collectively consistent with more sustainable and balanced trajectories of growth. We will undertake macro prudential and regulatory policies to help prevent credit and asset price cycles from becoming forces of destabilization. As we commit to implement a new, sustainable growth model, we should encourage work on measurement methods so as to better take into account the social and environmental dimensions of economic development.

6. We call on our Finance Ministers and Central Bank Governors to launch the new Framework by November by initiating a cooperative process of mutual assessment of our policy frameworks and the implications of those frameworks for the pattern and sustainability of global growth. We believe that regular consultations, strengthened cooperation on macroeconomic policies, the exchange of experiences on structural policies, and ongoing assessment will promote the adoption of sound policies and secure a healthy global economy. Our compact is that:

    - G-20 members will agree on shared policy objectives. These objectives should be updated as conditions evolve.
    - G-20 members will set out our medium-term policy frameworks and will work together to assess the collective implications of our national policy frameworks for the level and pattern of global growth and to identify potential risks to financial stability.
    - G-20 Leaders will consider, based on the results of the mutual assessment, and agree any actions to meet our common objectives.

7. This process will only be successful if it is supported by candid, even-handed, and balanced analysis of our policies. We ask the IMF to assist our Finance Ministers and Central Bank Governors in this process of mutual assessment by developing a forward-looking analysis of whether policies pursued by individual G-20 countries are collectively consistent with more sustainable and balanced trajectories for the global economy, and to report regularly to both the G-20 and the International Monetary and Financial Committee (IMFC), building on the IMF's existing bilateral and multilateral surveillance analysis, on global economic developments, patterns of growth and suggested policy adjustments. Our Finance Ministers and Central Bank Governors will elaborate this process at their November meeting and we will review the results of the first mutual assessment at our next summit.

8. These policies will help us to meet our responsibility to the community of nations to build a more resilient international financial system and to reduce development imbalances.

9. Building on Chancellor Merkel's proposed Charter, on which we will continue to work, we adopted today Core Values for Sustainable Economic Activity, which will include those of propriety, integrity, and transparency, and which will underpin the Framework.

Strengthening the International Financial Regulatory System

10. Major failures of regulation and supervision, plus reckless and irresponsible risk taking by banks and other financial institutions, created dangerous financial fragilities that contributed significantly to the current crisis. A return to the excessive risk taking prevalent in some countries before the crisis is not an option.

11. Since the onset of the global crisis, we have developed and begun implementing sweeping reforms to tackle the root causes of the crisis and transform the system for global financial regulation. Substantial progress has been made in strengthening prudential oversight, improving risk management, strengthening transparency, promoting market integrity, establishing supervisory colleges, and reinforcing international cooperation. We have enhanced and expanded the scope of regulation and oversight, with tougher regulation of over-the-counter (OTC) derivatives, securitization markets, credit rating agencies, and hedge funds. We endorse the institutional strengthening of the FSB through its Charter, following its establishment in London, and welcome its reports to Leaders and Ministers. The FSB's ongoing efforts to monitor progress will be essential to the full and consistent implementation of needed reforms. We call on the FSB to report on progress to the G-20 Finance Ministers and Central Bank Governors in advance of the next Leaders summit.

12. Yet our work is not done. Far more needs to be done to protect consumers, depositors, and investors against abusive market practices, promote high quality standards, and help ensure the world does not face a crisis of the scope we have seen. We are committed to take action at the national and international level to raise standards together so that our national authorities implement global standards consistently in a way that ensures a level playing field and avoids fragmentation of markets, protectionism, and regulatory arbitrage. Our efforts to deal with impaired assets and to encourage the raising of additional capital must continue, where needed. We commit to conduct robust, transparent stress tests as needed. We call on banks to retain a greater proportion of current profits to build capital, where needed, to support lending. Securitization sponsors or originators should retain a part of the risk of the underlying assets, thus encouraging them to act prudently. It is important to ensure an adequate balance between macroprudential and microprudential regulation to control risks, and to develop the tools necessary to monitor and assess the buildup of macroprudential risks in the financial system. In addition, we have agreed to improve

the regulation, functioning, and transparency of financial and commodity markets to address excessive commodity price volatility.

13. As we encourage the resumption of lending to households and businesses, we must take care not to spur a return of the practices that led to the crisis. The steps we are taking here, when fully implemented, will result in a fundamentally stronger financial system than existed prior to the crisis. If we all act together, financial institutions will have stricter rules for risk-taking, governance that aligns compensation with long-term performance, and greater transparency in their operations. All firms whose failure could pose a risk to financial stability must be subject to consistent, consolidated supervision and regulation with high standards. Our reform is multi-faceted but at its core must be stronger capital standards, complemented by clear incentives to mitigate excessive risk-taking practices. Capital allows banks to withstand those losses that inevitably will come. It, together with more powerful tools for governments to wind down firms that fail, helps us hold firms accountable for the risks that they take. Building on their Declaration on Further Steps to Strengthen the International Financial System, we call on our Finance Ministers and Central Bank Governors to reach agreement on an international framework of reform in the following critical areas:

    - *Building high quality capital and mitigating pro-cyclicality:* We commit to developing by end-2010 internationally agreed rules to improve both the quantity and quality of bank capital and to discourage excessive leverage. These rules will be phased in as financial conditions improve and economic recovery is assured, with the aim of implementation by end-2012. The national implementation of higher level and better quality capital requirements, counter-cyclical capital buffers, higher capital requirements for risky products and off-balance sheet activities, as elements of the Basel II Capital Framework, together with strengthened liquidity risk requirements and forward-looking provisioning, will reduce incentives for banks to take excessive risks and create a financial system better prepared to withstand adverse shocks. We welcome the key measures recently agreed by the oversight body of the Basel Committee to strengthen the supervision and regulation of the banking sector. We support the introduction of a leverage ratio as a supplementary measure to the Basel II risk-based framework with a view to migrating to a Pillar 1 treatment based on appropriate review and calibration. To ensure comparability, the details of the leverage ratio will be harmonized internationally, fully adjusting for differences in accounting. All major G-20 financial centers commit to have adopted the Basel II Capital Framework by 2011.

    - *Reforming compensation practices to support financial stability:* Excessive compensation in the financial sector has both reflected and encouraged excessive risk taking. Reforming compensation policies and practices is an essential part of our effort to increase financial stability. We fully endorse the implementation standards of the FSB aimed at aligning compensation with long-term value creation, not excessive risk-taking, including by (i) avoiding multi-year guaranteed bonuses; (ii) requiring a significant portion of variable compensation to be deferred, tied to performance and subject to appropriate clawback and to be vested in the form of stock or stock-like instruments, as long as these create incentives aligned with long-term value creation and the time horizon of risk; (iii) ensuring that compensation for senior executives and other employees having a material impact on the firm's risk exposure align with performance and risk; (iv) making firms' compensation policies and structures transparent through disclosure requirements; (v) limiting variable compensation as a percentage of total net revenues when it is inconsistent with the maintenance of a sound capital base; and (vi) ensuring that compensation committees overseeing compensation policies are able to act independently. Supervisors should have the responsibility to review firms' compensation policies and structures with institutional and systemic risk in mind and, if necessary to offset additional risks, apply corrective measures, such as higher capital requirements, to those firms that fail to implement sound compensation policies and practices. Supervisors should have the ability to modify compensation structures in the case of firms that fail or require extraordinary public intervention. We call on firms to implement these sound compensation practices immediately. We task the FSB to monitor the implementation of FSB standards and propose additional measures as required by March 2010.

- *Improving over-the-counter derivatives markets:* All standardized OTC derivative contracts should be traded on exchanges or electronic trading platforms, where appropriate, and cleared through central counterparties by end-2012 at the latest. OTC derivative contracts should be reported to trade repositories. Non-centrally cleared contracts should be subject to higher capital requirements. We ask the FSB and its relevant members to assess regularly implementation and whether it is sufficient to improve transparency in the derivatives markets, mitigate systemic risk, and protect against market abuse.

- *Addressing cross-border resolutions and systemically important financial institutions by end-2010:* Systemically important financial firms should develop internationally-consistent firm-specific contingency and resolution plans. Our authorities should establish crisis management groups for the major cross-border firms and a legal framework for crisis intervention as well as improve information sharing in times of stress. We should develop resolution tools and frameworks for the effective resolution of financial groups to help mitigate the disruption of financial institution failures and reduce moral hazard in the future. Our prudential standards for systemically important institutions should be commensurate with the costs of their failure. The FSB should propose by the end of October 2010 possible measures including more intensive supervision and specific additional capital, liquidity, and other prudential requirements.

14. We call on our international accounting bodies to redouble their efforts to achieve a single set of high quality, global accounting standards within the context of their independent standard setting process, and complete their convergence project by June

2011. The International Accounting Standards Board's (IASB) institutional framework should further enhance the involvement of various stakeholders.

15. Our commitment to fight non-cooperative jurisdictions (NCJs) has produced impressive results. We are committed to maintain the momentum in dealing with tax havens, money laundering, proceeds of corruption, terrorist financing, and prudential standards. We welcome the expansion of the Global Forum on Transparency and Exchange of Information, including the participation of developing countries, and welcome the agreement to deliver an effective program of peer review. The main focus of the Forum's work will be to improve tax transparency and exchange of information so that countries can fully enforce their tax laws to protect their tax base. We stand ready to use countermeasures against tax havens from March 2010. We welcome the progress made by the Financial Action Task Force (FATF) in the fight against money laundering and terrorist financing and call upon the FATF to issue a public list of high risk jurisdictions by February 2010. We call on the FSB to report progress to address NCJs with regards to international cooperation and information exchange in November 2009 and to initiate a peer review process by February 2010.

16. We task the IMF to prepare a report for our next meeting with regard to the range of options countries have adopted or are considering as to how the financial sector could make a fair and substantial contribution toward paying for any burdens associated with government interventions to repair the banking system.

Modernizing our Global Institutions to Reflect Today's Global Economy

17. Modernizing the international financial institutions and global development architecture is essential to our efforts to promote global financial stability, foster sustainable development, and lift the lives of the poorest. We warmly welcome Prime Minister Brown's report on his review of the responsiveness and adaptability of the international financial institutions (IFIs) and ask our Finance Ministers to consider its conclusions.

Reforming the Mandate, Mission and Governance of the IMF

18. Our commitment to increase the funds available to the IMF allowed it to stem the spread of the crisis to emerging markets and developing countries. This commitment and the innovative steps the IMF has taken to create the facilities needed for its resources to be used efficiently and flexibly have reduced global risks. Capital again is flowing to emerging economies.

19. We have delivered on our promise to treble the resources available to the IMF. We are contributing over $500 billion to a renewed and expanded IMF New Arrangements to Borrow (NAB). The IMF has made Special Drawing Rights (SDR) allocations of $283 billion in total, more than $100 billion of which will supplement emerging market and developing countries' existing reserve assets. Resources from the agreed sale of IMF gold, consistent with the IMF's new income model, and funds

from internal and other sources will more than double the Fund's medium-term concessional lending capacity.

20. Our collective response to the crisis has highlighted both the benefits of international cooperation and the need for a more legitimate and effective IMF. The Fund must play a critical role in promoting global financial stability and rebalancing growth. We welcome the reform of IMF's lending facilities, including the creation of the innovative Flexible Credit Line. The IMF should continue to strengthen its capacity to help its members cope with financial volatility, reducing the economic disruption from sudden swings in capital flows and the perceived need for excessive reserve accumulation. As recovery takes hold, we will work together to strengthen the Fund's ability to provide even-handed, candid and independent surveillance of the risks facing the global economy and the international financial system. We ask the IMF to support our effort under the Framework for Strong, Sustainable and Balanced Growth through its surveillance of our countries' policy frameworks and their collective implications for financial stability and the level and pattern of global growth.

21. Modernizing the IMF's governance is a core element of our effort to improve the IMF's credibility, legitimacy, and effectiveness. We recognize that the IMF should remain a quota-based organization and that the distribution of quotas should reflect the relative weights of its members in the world economy, which have changed substantially in view of the strong growth in dynamic emerging market and developing countries. To this end, we are committed to a shift in quota share to dynamic emerging market and developing countries of at least five percent from over-represented to under-represented countries using the current IMF quota formula as the basis to work from. We are also committed to protecting the voting share of the poorest in the IMF. On this basis and as part of the IMF's quota review, to be completed by January 2011, we urge an acceleration of work toward bringing the review to a successful conclusion. As part of that review, we agree that a number of other critical issues will need to be addressed, including: the size of any increase in IMF quotas, which will have a bearing on the ability to facilitate change in quota shares; the size and composition of the Executive Board; ways of enhancing the Board's effectiveness; and the Fund Governors' involvement in the strategic oversight of the IMF. Staff diversity should be enhanced. As part of a comprehensive reform package, we agree that the heads and senior leadership of all international institutions should be appointed through an open, transparent and merit-based process. We must urgently implement the package of IMF quota and voice reforms agreed in April 2008.

Reforming the Mission, Mandate and Governance of Our Development banks

22. The Multilateral Development Banks (MDBs) responded to our April call to accelerate and expand lending to mitigate the impact of the crisis on the world's poorest with streamlined facilities, new tools and facilities, and a rapid increase in their lending. They are on track to deliver the promised $100 billion in additional

lending. We welcome and encourage the MDBs to continue making full use of their balance sheets. We also welcome additional measures such as the temporary use of callable capital contributions from a select group of donors as was done at the InterAmerican Development Bank (IaDB). Our Finance Ministers should consider how mechanisms such as temporary callable and contingent capital could be used in the future to increase MDB lending at times of crisis. We reaffirm our commitment to ensure that the Multilateral Development Banks and their concessional lending facilities, especially the International Development Agency (IDA) and the African Development Fund, are appropriately funded.

23. Even as we work to mitigate the impact of the crisis, we must strengthen and reform the global development architecture for responding to the world's long-term challenges.

24. We agree that development and reducing global poverty are central to the development banks' core mission. The World Bank and other multilateral development banks are also critical to our ability to act together to address challenges, such as climate change and food security, which are global in nature and require globally coordinated action. The World Bank, working with the regional development banks and other international organizations, should strengthen:

- its focus on food security through enhancements in agricultural productivity and access to technology, and improving access to food, in close cooperation with relevant specialized agencies;
- its focus on human development and security in the poorest and most challenging environments;
- support for private-sector led growth and infrastructure to enhance opportunities for the poorest, social and economic inclusion, and economic growth; and
- contributions to financing the transition to a green economy through investment in sustainable clean energy generation and use, energy efficiency and climate resilience; this includes responding to countries needs to integrate climate change concerns into their core development strategies, improved domestic policies, and to access new sources of climate finance.

25. To enhance their effectiveness, the World Bank and the regional development banks should strengthen their coordination, when appropriate, with other bilateral and multilateral institutions. They should also strengthen recipient country ownership of strategies and programs and allow adequate policy space.

26. We will help ensure the World Bank and the regional development banks have sufficient resources to fulfill these four challenges and their development mandate, including through a review of their general capital increase needs to be completed by the first half of 2010. Additional resources must be joined to key institutional reforms to ensure effectiveness: greater coordination and a clearer division of labor; an increased commitment to transparency, accountability, and good corporate

governance; an increased capacity to innovate and achieve demonstrable results; and greater attention to the needs of the poorest populations.

27. We commit to pursue governance and operational effectiveness reform in conjunction with voting reform to ensure that the World Bank is relevant, effective, and legitimate. We stress the importance of moving towards equitable voting power in the World Bank over time through the adoption of a dynamic formula which primarily reflects countries' evolving economic weight and the World Bank's development mission, and that generates in the next shareholding review a significant increase of at least 3% of voting power for developing and transition countries, in addition to the 1.46% increase under the first phase of this important adjustment, to the benefit of under-represented countries. While recognizing that over-represented countries will make a contribution, it will be important to protect the voting power of the smallest poor countries. We recommit to reaching agreement by the 2010 Spring Meetings.

Energy Security and Climate Change

28. Access to diverse, reliable, affordable and clean energy is critical for sustainable growth. Inefficient markets and excessive volatility negatively affect both producers and consumers. Noting the St. Petersburg Principles on Global Energy Security, which recognize the shared interest of energy producing, consuming and transiting countries in promoting global energy security, we individually and collectively commit to:

    - Increase energy market transparency and market stability by publishing complete, accurate, and timely data on oil production, consumption, refining and stock levels, as appropriate, on a regular basis, ideally monthly, beginning by January 2010. We note the Joint Oil Data Initiative as managed by the International Energy Forum (IEF) and welcome their efforts to examine the expansion of their data collection to natural gas. We will improve our domestic capabilities to collect energy data and improve energy demand and supply forecasting and ask the International Energy Agency (IEA) and the Organization of Petroleum Exporting Countries (OPEC) to ramp up their efforts to assist interested countries in developing those capabilities. We will strengthen the producer-consumer dialogue to improve our understanding of market fundamentals, including supply and demand trends, and price volatility, and note the work of the IEF experts group.

    - Improve regulatory oversight of energy markets by implementing the International Organization of Securities Commissions (IOSCO) recommendations on commodity futures markets and calling on relevant regulators to collect data on large concentrations of trader positions on oil in our national commodities futures markets. We ask our relevant regulators to report back at our next meeting on progress towards implementation. We will direct relevant regulators to also collect related data on over-the-counter oil markets and to take steps to combat market manipulation leading to excessive price volatility. We call for further refinement and improvement of commodity market information, including through the publication of more detailed and disaggregated data, coordinated as far as possible internationally. We ask IOSCO to help national governments design and implement these policies, conduct further analysis including with regard with to excessive volatility, make specific recommendations, and to report regularly on our progress.

29. Enhancing our energy efficiency can play an important, positive role in promoting energy security and fighting climate change. Inefficient fossil fuel subsidies encourage wasteful consumption, distort markets, impede investment in clean energy sources and undermine efforts to deal with climate change. The Organization for Economic Cooperation and Development (OECD) and the IEA have found that eliminating fossil fuel subsidies by 2020 would reduce global greenhouse gas emissions in 2050 by ten percent. Many countries are reducing fossil fuel subsidies while preventing adverse impact on the poorest. Building on these efforts and recognizing the challenges of populations suffering from energy poverty, we commit to:

- Rationalize and phase out over the medium term inefficient fossil fuel subsidies that encourage wasteful consumption. As we do that, we recognize the importance of providing those in need with essential energy services, including through the use of targeted cash transfers and other appropriate mechanisms. This reform will not apply to our support for clean energy, renewables, and technologies that dramatically reduce greenhouse gas emissions. We will have our Energy and Finance Ministers, based on their national circumstances, develop implementation strategies and timeframes, and report back to Leaders at the next Summit. We ask the international financial institutions to offer support to countries in this process. We call on all nations to adopt policies that will phase out such subsidies worldwide.

30. We request relevant institutions, such as the IEA, OPEC, OECD, and World Bank, provide an analysis of the scope of energy subsidies and suggestions for the implementation of this initiative and report back at the next summit.

31. Increasing clean and renewable energy supplies, improving energy efficiency, and promoting conservation are critical steps to protect our environment, promote sustainable growth and address the threat of climate change. Accelerated adoption of economically sound clean and renewable energy technology and energy efficiency measures diversifies our energy supplies and strengthens our energy security. We commit to:

- Stimulate investment in clean energy, renewables, and energy efficiency and provide financial and technical support for such projects in developing countries.

- Take steps to facilitate the diffusion or transfer of clean energy technology including by conducting joint research and building capacity. The reduction or elimination of barriers to trade and investment in this area are being discussed and should be pursued on a voluntary basis and in appropriate fora.

32. As leaders of the world's major economies, we are working for a resilient, sustainable, and green recovery. We underscore anew our resolve to take strong action to address the threat of dangerous climate change. We reaffirm the objective, provisions, and principles of the United Nations Framework Convention on Climate Change (UNFCCC), including common but differentiated responsibilities. We note the principles endorsed by Leaders at the Major Economies Forum in L'Aquila, Italy. We will intensify our efforts, in cooperation with other parties, to reach agreement in Copenhagen through the UNFCCC negotiation. An agreement must include mitigation, adaptation, technology, and financing.

33. We welcome the work of the Finance Ministers and direct them to report back at their next meeting with a range of possible options for climate change financing to be provided as a resource to be considered in the UNFCCC negotiations at Copenhagen.

Strengthening Support for the Most Vulnerable

34. Many emerging and developing economies have made great strides in raising living standards as their economies converge toward the productivity levels and living standards of advanced economies. This process was interrupted by the crisis and is still far from complete. The poorest countries have little economic cushion to protect vulnerable populations from calamity, particularly as the financial crisis followed close on the heels of a global spike in food prices. We note with concern the adverse impact of the global crisis on low income countries' (LICs) capacity to protect critical core spending in areas such as health, education, safety nets, and infrastructure. The UN's new Global Impact Vulnerability Alert System will help our efforts to monitor the impact of the crisis on the most vulnerable. We share a collective responsibility to mitigate the social impact of the crisis and to assure that all parts of the globe participate in the recovery.

35. The MDBs play a key role in the fight against poverty. We recognize the need for accelerated and additional concessional financial support to LICs to cushion the impact of the crisis on the poorest, welcome the increase in MDB lending during the crisis and support the MDBs having the resources needed to avoid a disruption of concessional financing to the most vulnerable countries. The IMF also has increased its concessional lending to LICs during the crisis. Resources from the sale of IMF gold, consistent with the new income model, and funds from internal and other sources will double the Fund's medium-term concessional lending capacity.

36. Several countries are considering creating, on a voluntary basis, mechanisms that could allow, consistent with their national circumstances, the mobilization of existing SDR resources to support the IMF's lending to the poorest countries. Even as we

work to mitigate the impact of the crisis, we must strengthen and reform the global development architecture for responding to the world's long-term challenges. We ask our relevant ministers to explore the benefits of a new crisis support facility in IDA to protect LICs from future crises and the enhanced use of financial instruments in protecting the investment plans of middle income countries from interruption in times of crisis, including greater use of guarantees.

37. We reaffirm our historic commitment to meet the Millennium Development Goals and our respective Official Development Assistance (ODA) pledges, including commitments on Aid for Trade, debt relief, and those made at Gleneagles, especially to sub-Saharan Africa, to 2010 and beyond.

38. Even before the crisis, too many still suffered from hunger and poverty and even more people lack access to energy and finance. Recognizing that the crisis has exacerbated this situation, we pledge cooperation to improve access to food, fuel, and finance for the poor.

39. Sustained funding and targeted investments are urgently needed to improve long-term food security. We welcome and support the food security initiative announced in L'Aquila and efforts to further implement the Global Partnership for Agriculture and Food Security and to address excessive price volatility. We call on the World Bank to work with interested donors and organizations to develop a multilateral trust fund to scale-up agricultural assistance to low-income countries. This will help support innovative bilateral and multilateral efforts to improve global nutrition and build sustainable agricultural systems, including programs like those developed through the Comprehensive African Agricultural Development Program (CAADP). It should be designed to ensure country ownership and rapid disbursement of funds, fully respecting the aid effectiveness principles agreed in Accra, and facilitate the participation of private foundations, businesses, and non-governmental organizations (NGOs) in this historic effort. These efforts should complement the UN Comprehensive Framework for Agriculture. We ask the World Bank, the African Development Bank, UN, Food and Agriculture Organization (FAO), International Fund for Agricultural Development (IFAD), World Food Programme (WFP) and other stakeholders to coordinate their efforts, including through country-led mechanisms, in order to complement and reinforce other existing multilateral and bilateral efforts to tackle food insecurity.

40. To increase access to energy, we will promote the deployment of clean, affordable energy resources to the developing world. We commit, on a voluntary basis, to funding programs that achieve this objective, such as the Scaling Up Renewable Energy Program and the Energy for the Poor Initiative, and to increasing and more closely harmonizing our bilateral efforts.

41. We commit to improving access to financial services for the poor. We have agreed to support the safe and sound spread of new modes of financial service delivery capable of reaching the poor and, building on the example of micro finance, will scale up the

successful models of small and medium-sized enterprise (SME) financing. Working with the Consultative Group to Assist the Poor (CGAP), the International Finance Corporation (IFC) and other international organizations, we will launch a G-20 Financial Inclusion Experts Group. This group will identify lessons learned on innovative approaches to providing financial services to these groups, promote successful regulatory and policy approaches and elaborate standards on financial access, financial literacy, and consumer protection. We commit to launch a *G-20 SME Finance Challenge*, a call to the private sector to put forward its best proposals for how public finance can maximize the deployment of private finance on a sustainable and scalable basis.

42. As we increase the flow of capital to developing countries, we also need to prevent its illicit outflow. We will work with the World Bank's Stolen Assets Recovery (StAR) program to secure the return of stolen assets to developing countries, and support other efforts to stem illicit outflows. We ask the FATF to help detect and deter the proceeds of corruption by prioritizing work to strengthen standards on customer due diligence, beneficial ownership and transparency. We note the principles of the Paris Declaration on Aid Effectiveness and the Accra Agenda for Action and will work to increase the transparency of international aid flows by 2010. We call for the adoption and enforcement of laws against transnational bribery, such as the OECD Anti-Bribery Convention, and the ratification by the G-20 of the UN Convention against Corruption (UNCAC) and the adoption during the third Conference of the Parties in Doha of an effective, transparent, and inclusive mechanism for the review of its implementation. We support voluntary participation in the Extractive Industries Transparency Initiative, which calls for regular public disclosure of payments by extractive industries to governments and reconciliation against recorded receipt of those funds by governments.

Putting Quality Jobs at the Heart of the Recovery

43. The prompt, vigorous and sustained response of our countries has saved or created millions of jobs. Based on International Labour Organization (ILO) estimates, our efforts will have created or saved at least 7 – 11 million jobs by the end of this year. Without sustained action, unemployment is likely to continue rising in many of our countries even after economies stabilize, with a disproportionate impact on the most vulnerable segments of our population. As growth returns, every country must act to ensure that employment recovers quickly. We commit to implementing recovery plans that support decent work, help preserve employment, and prioritize job growth. In addition, we will continue to provide income, social protection, and training support for the unemployed and those most at risk of unemployment. We agree that the current challenges do not provide an excuse to disregard or weaken internationally recognized labor standards. To assure that global growth is broadly beneficial, we should implement policies consistent with ILO fundamental principles and rights at work.

44. Our new Framework for Strong, Sustainable, and Balanced Growth requires structural reforms to create more inclusive labor markets, active labor market policies, and quality education and training programs. Each of our countries will need, through its own national policies, to strengthen the ability of our workers to adapt to changing market demands and to benefit from innovation and investments in new technologies, clean energy, environment, health, and infrastructure. It is no longer sufficient to train workers to meet their specific current needs; we should ensure access to training programs that support lifelong skills development and focus on future market needs. Developed countries should support developing countries to build and strengthen their capacities in this area. These steps will help to assure that the gains from new inventions and lifting existing impediments to growth are broadly shared.

45. We pledge to support robust training efforts in our growth strategies and investments. We recognize successful employment and training programs are often designed together with employers and workers, and we call on the ILO, in partnership with other organizations, to convene its constituents and NGOs to develop a training strategy for our consideration.

46. We agree on the importance of building an employment-oriented framework for future economic growth. In this context, we reaffirm the importance of the London Jobs Conference and Rome Social Summit. We also welcome the recently-adopted ILO Resolution on Recovering from the Crisis: A Global Jobs Pact, and we commit our nations to adopt key elements of its general framework to advance the social dimension of globalization. The international institutions should consider ILO standards and the goals of the Jobs Pact in their crisis and post-crisis analysis and policy-making activities.

47. To ensure our continued focus on employment policies, the Chair of the Pittsburgh Summit has asked his Secretary of Labor to invite our Employment and Labor Ministers to meet as a group in early 2010 consulting with labor and business and building on the upcoming OECD Labour and Employment Ministerial meeting on the jobs crisis. We direct our Ministers to assess the evolving employment situation, review reports from the ILO and other organizations on the impact of policies we have adopted, report on whether further measures are desirable, and consider medium-term employment and skills development policies, social protection programs, and best practices to ensure workers are prepared to take advantage of advances in science and technology.

An Open Global Economy

48. Continuing the revival in world trade and investment is essential to restoring global growth. It is imperative we stand together to fight against protectionism. We welcome the swift implementation of the $250 billion trade finance initiative. We will keep markets open and free and reaffirm the commitments made in Washington and London: to refrain from raising barriers or imposing new barriers to investment or to trade in goods and services, imposing new export restrictions or implementing

World Trade Organization (WTO) inconsistent measures to stimulate exports and commit to rectify such measures as they arise. We will minimize any negative impact on trade and investment of our domestic policy actions, including fiscal policy and action to support the financial sector. We will not retreat into financial protectionism, particularly measures that constrain worldwide capital flows, especially to developing countries. We will notify promptly the WTO of any relevant trade measures. We welcome the latest joint report from the WTO, OECD, IMF, and United Nations Conference on Trade and Development (UNCTAD) and ask them to continue to monitor the situation within their respective mandates, reporting publicly on these commitments on a quarterly basis.

49. We remain committed to further trade liberalization. We are determined to seek an ambitious and balanced conclusion to the Doha Development Round in 2010, consistent with its mandate, based on the progress already made, including with regard to modalities. We understand the need for countries to directly engage with each other, within the WTO bearing in mind the centrality of the multilateral process, in order to evaluate and close the remaining gaps. We note that in order to conclude the negotiations in 2010, closing those gaps should proceed as quickly as possible. We ask our ministers to take stock of the situation no later than early 2010, taking into account the results of the work program agreed to in Geneva following the Delhi Ministerial, and seek progress on Agriculture, Non-Agricultural Market Access, as well as Services, Rules, Trade Facilitation and all other remaining issues. We will remain engaged and review the progress of the negotiations at our next meeting.

The Path from Pittsburgh

50. Today, we designated the G-20 as the premier forum for our international economic cooperation. We have asked our representatives to report back at the next meeting with recommendations on how to maximize the effectiveness of our cooperation. We agreed to have a G-20 Summit in Canada in June 2010, and in Korea in November 2010. We expect to meet annually thereafter, and will meet in France in 2011.

ANNEX: Core Values for Sustainable Economic Activity

1. The economic crisis demonstrates the importance of ushering in a new era of sustainable global economic activity grounded in responsibility. The current crisis has once again confirmed the fundamental recognition that our growth and prosperity are interconnected, and that no region of the globe can wall itself off in a globalized world economy.

2. We, the Leaders of the countries gathered for the Pittsburgh Summit, recognize that concerted action is needed to help our economies get back to stable ground and prosper tomorrow. We commit to taking responsible actions to ensure that every stakeholder – consumers, workers, investors, entrepreneurs – can participate in a balanced, equitable, and inclusive global economy.

3. We share the overarching goal to promote a broader prosperity for our people through balanced growth within and across nations; through coherent economic, social, and environmental strategies; and through robust financial systems and effective international collaboration.

4. We recognize that there are different approaches to economic development and prosperity, and that strategies to achieve these goals may vary according to countries' circumstances.

5. We also agree that certain key principles are fundamental, and in this spirit we commit to respect the following core values:

   - We have a responsibility to ensure sound macroeconomic policies that serve long-term economic objectives and help avoid unsustainable global imbalances.

   - We have a responsibility to reject protectionism in all its forms, support open markets, foster fair and transparent competition, and promote entrepreneurship and innovation across countries.

   - We have a responsibility to ensure, through appropriate rules and incentives, that financial and other markets function based on propriety, integrity and transparency and to encourage businesses to support the efficient allocation of resources for sustainable economic performance.

   - We have a responsibility to provide for financial markets that serve the needs of households, businesses and productive investment by strengthening oversight, transparency, and accountability.

   - We have a responsibility to secure our future through sustainable consumption, production and use of resources that conserve our environment and address the challenge of climate change.

- We have a responsibility to invest in people by providing education, job training, decent work conditions, health care and social safety net support, and to fight poverty, discrimination, and all forms of social exclusion.

- We have a responsibility to recognize that all economies, rich and poor, are partners in building a sustainable and balanced global economy in which the benefits of economic growth are broadly and equitably shared. We also have a responsibility to achieve the internationally agreed development goals.

- We have a responsibility to ensure an international economic and financial architecture that reflects changes in the world economy and the new challenges of globalization.

G-20 Framework for Strong, Sustainable, and Balanced Growth

1. Our countries have a shared responsibility to adopt policies to achieve strong, sustainable and balanced growth, to promote a resilient international financial system, and to reap the benefits of an open global economy. To this end, we recognize that our strategies will vary across countries. In our Framework for Strong, Sustainable and Balanced Growth, we will:

   - implement responsible fiscal policies, attentive to short-term flexibility considerations and longer-run sustainability requirements.
   - strengthen financial supervision to prevent the re-emergence in the financial system of excess credit growth and excess leverage and undertake macro prudential and regulatory policies to help prevent credit and asset price cycles from becoming forces of destabilization.
   - promote more balanced current accounts and support open trade and investment to advance global prosperity and growth sustainability, while actively rejecting protectionist measures.
   - undertake monetary policies consistent with price stability in the context of market oriented exchange rates that reflect underlying economic fundamentals.
   - undertake structural reforms to increase our potential growth rates and, where needed, improve social safety nets.
   - promote balanced and sustainable economic development in order to narrow development imbalances and reduce poverty.

2. We recognize that the process to ensure more balanced global growth must be undertaken in an orderly manner. All G-20 members agree to address the respective weaknesses of their economies.

   - G-20 members with sustained, significant external deficits pledge to undertake policies to support private savings and undertake fiscal consolidation while maintaining open markets and strengthening export sectors.
   - G-20 members with sustained, significant external surpluses pledge to strengthen domestic sources of growth. According to national circumstances this could include increasing investment, reducing financial markets distortions, boosting productivity in service sectors, improving social safety nets, and lifting constraints on demand growth.

3. Each G-20 member bears primary responsibility for the sound management of its economy. The G-20 members also have a responsibility to the community of nations to assure the overall health of the global economy. Regular consultations, strengthened cooperation on macroeconomic policies, the exchange of experiences on structural policies, and ongoing assessment can strengthen our cooperation and promote the adoption of sound policies. As part of our process of mutual assessment:

   - G-20 members will agree on shared policy objectives. These objectives should be updated as conditions evolve.

- G-20 members will set out their medium-term policy frameworks and will work together to assess the collective implications of our national policy frameworks for the level and pattern of global growth, and to identify potential risks to financial stability.
- G-20 leaders will consider, based on the results of the mutual assessment, and agree any actions to meet our common objectives.

4. We call on our Finance Ministers to develop our process of mutual assessment to evaluate the collective implications of national policies for the world economy. To accomplish this, our Finance Ministers should, with the assistance of the IMF:

   - Develop a forward looking assessment of G-20 economic developments to help analyze whether patterns of demand and supply, credit, debt and reserves growth are supportive of strong, sustainable and balanced growth.
   - Assess the implications and consistency of fiscal and monetary policies, credit growth and asset markets, foreign exchange developments, commodity and energy prices, and current account imbalances.
   - Report regularly to both the G-20 and the IMFC on global economic developments, key risks, and concerns with respect to patterns of growth and suggested G-20 policy adjustments, individually and collectively.

THE G-20 TORONTO SUMMIT
DECLARATION
June 26 – 27, 2010

Preamble

1. In Toronto, we held our first Summit of the G-20 in its new capacity as the premier forum for our international economic cooperation.

2. Building on our achievements in addressing the global economic crisis, we have agreed on the next steps we should take to ensure a full return to growth with quality jobs, to reform and strengthen financial systems, and to create strong, sustainable and balanced global growth.

3. Our efforts to date have borne good results. Unprecedented and globally coordinated fiscal and monetary stimulus is playing a major role in helping to restore private demand and lending. We are taking strong steps toward increasing the stability and strength of our financial systems. Significantly increased resources for international financial institutions are helping stabilise and address the impact of the crisis on the world's most vulnerable. Ongoing governance and management reforms, which must be completed, will also enhance the effectiveness and relevance of these institutions. We have successfully maintained our strong commitment to resist protectionism.

4. But serious challenges remain. While growth is returning, the recovery is uneven and fragile, unemployment in many countries remains at unacceptable levels, and the social impact of the crisis is still widely felt. Strengthening the recovery is key. To sustain recovery, we need to follow through on delivering existing stimulus plans, while working to create the conditions for robust private demand. At the same time, recent events highlight the importance of sustainable public finances and the need for our countries to put in place credible, properly phased and growth-friendly plans to deliver fiscal sustainability, differentiated for and tailored to national circumstances. Those countries with serious fiscal challenges need to accelerate the pace of consolidation. This should be combined with efforts to rebalance global demand to help ensure global growth continues on a sustainable path. Further progress is also required on financial repair and reform to increase the transparency and strengthen the balance sheets of our financial institutions, and support credit availability and rapid growth, including in the real economy. We took new steps to build a better regulated and more resilient financial system that serves the needs of our citizens. There is also a pressing need to complete the reforms of the international financial institutions.

5. Recognizing the importance of achieving strong job growth and providing social protection to our citizens, particularly our most vulnerable, we welcome the recommendations of our

Labour and Employment Ministers, who met in April 2010, and the training strategy prepared by the International Labour Organization (ILO) in collaboration with the Organisation for Economic Co-operation and Development (OECD).

6. We are determined to be accountable for the commitments we have made, and have instructed our Ministers and officials to take all necessary steps to implement them fully within agreed timelines.

The Framework for Strong, Sustainable and Balanced Growth

7. The G-20's highest priority is to safeguard and strengthen the recovery and lay the foundation for strong, sustainable and balanced growth, and strengthen our financial systems against risks. We therefore welcome the actions taken and commitments made by a number of G-20 countries to boost demand and rebalance growth, strengthen our public finances, and make our financial systems stronger and more transparent. These measures represent substantial contributions to our collective well-being and build on previous actions. We will continue to co-operate and undertake appropriate actions to bolster economic growth and foster a strong and lasting recovery.

8. The Framework for Strong, Sustainable and Balanced Growth that we launched in Pittsburgh is the means to achieving our shared objectives, by assessing the collective consistency of policy actions and strengthening policy frameworks.

9. We have completed the first stage of our Mutual Assessment Process and we concluded that we can do much better. The IMF and World Bank estimate that if we choose a more ambitious path of reforms, over the medium term:
    - global output would be higher by almost $4 trillion;
    - tens of millions more jobs would be created;
    - even more people would be lifted out of poverty; and
    - global imbalances would be significantly reduced.

    Increasing global growth on a sustainable basis is the most important step we can take in improving the lives of all of our citizens, including those in the poorest countries.

10. We are committed to taking concerted actions to sustain the recovery, create jobs and to achieve stronger, more sustainable and more balanced growth. These will be differentiated and tailored to national circumstances. We agreed today on:
    - Following through on fiscal stimulus and communicating "growth friendly" fiscal consolidation plans in advanced countries that will be implemented going forward. Sound fiscal finances are essential to sustain recovery, provide flexibility to respond to new shocks, ensure the capacity to meet the challenges of aging populations, and avoid leaving future generations with a legacy of deficits and debt. The path of adjustment must be carefully calibrated to sustain the recovery in private demand.

There is a risk that synchronized fiscal adjustment across several major economies could adversely impact the recovery. There is also a risk that the failure to implement consolidation where necessary would undermine confidence and hamper growth. Reflecting this balance, advanced economies have committed to fiscal plans that will at least halve deficits by 2013 and stabilize or reduce government debt-to-GDP ratios by 2016. Recognizing the circumstances of Japan, we welcome the Japanese government's fiscal consolidation plan announced recently with their growth strategy. Those with serious fiscal challenges need to accelerate the pace of consolidation. Fiscal consolidation plans will be credible, clearly communicated, differentiated to national circumstances, and focused on measures to foster economic growth.

- Strengthening social safety nets, enhancing corporate governance reform, financial market development, infrastructure spending, and greater exchange rate flexibility in some emerging markets;
- Pursuing structural reforms across the entire G-20 membership to increase and sustain our growth prospects; and
- Making more progress on rebalancing global demand.

Monetary policy will continue to be appropriate to achieve price stability and thereby contribute to the recovery.

11. Advanced deficit countries should take actions to boost national savings while maintaining open markets and enhancing export competitiveness.

12. Surplus economies will undertake reforms to reduce their reliance on external demand and focus more on domestic sources of growth.

13. We are committed to narrowing the development gap and that we must consider the impact of our policy actions on low-income countries. We will continue to support development financing, including through new approaches that encourage development financing from both public and private sources.

14. We recognize that these measures will need to be implemented at the national level and will need to be tailored to individual country circumstances. To facilitate this process, we have agreed that the second stage of our country-led and consultative mutual assessment will be conducted at the country and European level and that we will each identify additional measures, as necessary, that we will take toward achieving strong, sustainable, and balanced growth.

Financial Sector Reform

15. We are building a more resilient financial system that serves the needs of our economies, reduces moral hazard, limits the build up of systemic risk, and supports strong and stable economic growth. We have strengthened the global financial system by fortifying

G20 TORONTO CANADA 2010

prudential oversight, improving risk management, promoting transparency, and reinforcing international cooperation. A great deal has been accomplished. We welcome the full implementation of the European Stabilization Mechanism and Facility, the EU decision to publicly release the results of ongoing tests on European banks, and the recent US financial reform bill.

16. But more work is required. Accordingly, we pledge to act together to achieve the commitments to reform the financial sector made at the Washington, London and Pittsburgh Summits by the agreed or accelerated timeframes. The transition to new standards will take into account the cumulative macroeconomic impact of the reforms in advanced and emerging economies. We are committed to international assessment and peer review to ensure that all our decisions are fully implemented.

17. Our reform agenda rests on four pillars.

18. The first pillar is a strong regulatory framework. We took stock of the progress of the Basel Committee on Banking Supervision (BCBS) towards a new global regime for bank capital and liquidity and we welcome and support its work. Substantial progress has been made on reforms that will materially raise levels of resilience of our banking systems. The amount of capital will be significantly higher and the quality of capital will be significantly improved when the new reforms are fully implemented. This will enable banks to withstand – without extraordinary government support – stresses of a magnitude associated with the recent financial crisis. We support reaching agreement at the time of the Seoul Summit on the new capital framework. We agreed that all members will adopt the new standards and these will be phased in over a timeframe that is consistent with sustained recovery and limits market disruption, with the aim of implementation by end-2012, and a transition horizon informed by the macroeconomic impact assessment of the Financial Stability Board (FSB) and BCBS. Phase-in arrangements will reflect different national starting points and circumstances, with initial variance around the new standards narrowing over time as countries converge to the new global standard.

19. We agreed to strengthen financial market infrastructure by accelerating the implementation of strong measures to improve transparency and regulatory oversight of hedge funds, credit rating agencies and over-the-counter derivatives in an internationally consistent and non-discriminatory way. We re-emphasized the importance of achieving a single set of high quality improved global accounting standards and the implementation of the FSB's standards for sound compensation.

20. The second pillar is effective supervision. We agreed that new, stronger rules must be complemented with more effective oversight and supervision. We tasked the FSB, in consultation with the IMF, to report to our Finance Ministers and Central Bank Governors in October 2010 on recommendations to strengthen oversight and supervision, specifically

relating to the mandate, capacity and resourcing of supervisors and specific powers which should be adopted to proactively identify and address risks, including early intervention.

21. The third pillar is resolution and addressing systemic institutions. We are committed to design and implement a system where we have the powers and tools to restructure or resolve all types of financial institutions in crisis, without taxpayers ultimately bearing the burden, and adopted principles that will guide implementation. We called upon the FSB to consider and develop concrete policy recommendations to effectively address problems associated with, and resolve, systemically important financial institutions by the Seoul Summit. To reduce moral hazard risks, there is a need to have a policy framework including effective resolution tools, strengthened prudential and supervisory requirements, and core financial market infrastructures. We agreed the financial sector should make a fair and substantial contribution towards paying for any burdens associated with government interventions, where they occur, to repair the financial system or fund resolution, and reduce risks from the financial system. We recognized that there are a range of policy approaches to this end. Some countries are pursuing a financial levy. Other countries are pursuing different approaches.

22. The fourth pillar is transparent international assessment and peer review. We have strengthened our commitment to the IMF/World Bank Financial Sector Assessment Program (FSAP) and pledge to support robust and transparent peer review through the FSB. We are addressing non-cooperative jurisdictions based on comprehensive, consistent, and transparent assessment with respect to tax havens, the fight against money laundering and terrorist financing and the adherence to prudential standards.

International Financial Institutions and Development

23. The International Financial Institutions (IFIs) have been a central part of the global response to the financial and economic crisis, mobilizing critical financing, including $750 billion by the IMF and $235 billion by the Multilateral Development Banks (MDBs). This has underscored the value of these institutions as platforms for our global cooperation.

24. We commit to strengthening the legitimacy, credibility and effectiveness of the IFIs to make them even stronger partners for us in the future.

25. Towards this end, we have fulfilled our Pittsburgh Summit commitment on the MDBs. This includes $350 billion in capital increases for the MDBs, allowing them to nearly double their lending. This new capital is joined to ongoing and important reforms to make these institutions more transparent, accountable and effective, and to strengthen their focus on lifting the lives of the poor, underwriting growth, and addressing climate change and food security.

26. We will fulfill our commitment to ensure an ambitious replenishment for the concessional lending facilities of the MDBs, especially the International Development Association and the African Development Fund.

27. We have endorsed the important voice reforms agreed by shareholders at the World Bank, which will increase the voting power of developing and transition countries by 4.59% since 2008.

28. We underscore our resolve to ensure ratification of the 2008 IMF Quota and Voice Reforms and expansion of the New Arrangements to Borrow (NAB).

29. We called for an acceleration of the substantial work still needed for the IMF to complete the quota reform by the Seoul Summit and in parallel deliver on other governance reforms, in line with commitments made in Pittsburgh.

30. Today we build on our earlier commitment to open, transparent and merit-based selection processes for the heads and senior leadership of all the IFIs. We will strengthen the selection processes in the lead up to the Seoul Summit in the context of broader reform.

31. We agreed to task our Finance Ministers and Central Bank Governors to prepare policy options to strengthen global financial safety nets for our consideration at the Seoul Summit. Our goal is to build a more stable and resilient international monetary system.

32. We stand united with the people of Haiti and are providing much-needed reconstruction assistance, including the full cancellation of all of Haiti's IFI debt. We welcome the launching of the Haiti Reconstruction Fund.

33. We have launched the SME Finance Challenge and commit to mobilizing funding for implementation of winning proposals, including through the strong support of the MDBs. We have developed a set of principles for innovative financial inclusion.

34. We welcome the launch of the Global Agriculture and Food Security Program in fulfillment of our Pittsburgh commitment on food security, an important step to further implement the Global Partnership for Agriculture and Food Security, and invite further contributions. Looking ahead, we commit to exploring innovative, results-based mechanisms to harness the private sector for agricultural innovation. We call for the full implementation of the L'Aquila Initiative and the application of its principles.

Fighting Protectionism and Promoting Trade and Investment

35. While the global economic crisis led to the sharpest decline of trade in more than seventy years, G-20 countries chose to keep markets open to the opportunities that trade and investment offer. It was the right choice.

36. As such, we renew for a further three years, until the end of 2013, our commitment to refrain from raising barriers or imposing new barriers to investment or trade in goods and services, imposing new export restrictions or implementing World Trade Organization (WTO)-inconsistent measures to stimulate exports, and commit to rectify such measures as they arise. We will minimize any negative impact on trade and investment of our domestic policy actions, including fiscal policy and action to support the financial sector. We ask the WTO, OECD and UNCTAD to continue to monitor the situation within their respective mandates, reporting publicly on these commitments on a quarterly basis.

37. Open markets play a pivotal role in supporting growth and job creation, and in achieving our goals under the G-20 Framework for Strong, Sustainable and Balanced Growth. We ask the OECD, the ILO, World Bank, and the WTO to report on the benefits of trade liberalization for employment and growth at the Seoul Summit.

38. We therefore reiterate our support for bringing the WTO Doha Development Round to a balanced and ambitious conclusion as soon as possible, consistent with its mandate and based on the progress already made. We direct our representatives, using all negotiating avenues, to pursue this objective, and to report on progress at our next meeting in Seoul, where we will discuss the status of the negotiations and the way forward.

39. We commit to maintain momentum for Aid for Trade. We also ask international agencies, including the World Bank and other Multilateral Development Banks to step up their capacity and support trade facilitation which will boost world trade.

Other Issues and Forward Agenda

40. We agree that corruption threatens the integrity of markets, undermines fair competition, distorts resource allocation, destroys public trust and undermines the rule of law. We call for the ratification and full implementation by all G-20 members of the United Nations Convention against Corruption (UNCAC) and encourage others to do the same. We will fully implement the reviews in accordance with the provisions of UNCAC. Building on the progress made since Pittsburgh to address corruption, we agree to establish a Working Group to make comprehensive recommendations for consideration by Leaders in Korea on how the G-20 could continue to make practical and valuable contributions to international efforts to combat corruption and lead by example, in key areas that include, but are not limited to, adopting and enforcing strong and effective anti-bribery rules, fighting corruption

in the public and private sectors, preventing access of corrupt persons to global financial systems, cooperation in visa denial, extradition and asset recovery, and protecting whistleblowers who stand-up against corruption.

41. We reiterate our commitment to a green recovery and to sustainable global growth. Those of us who have associated with the Copenhagen Accord reaffirm our support for it and its implementation and call on others to associate with it. We are committed to engage in negotiations under the UNFCCC on the basis of its objective provisions and principles including common but differentiated responsibilities and respective capabilities and are determined to ensure a successful outcome through an inclusive process at the Cancun Conferences. We thank Mexico for undertaking to host the sixteenth Conference of the Parties (COP 16) in Cancun from November 29 to December 20, 2010 and express our appreciation for its efforts to facilitate negotiations. We look forward to the outcome of the UN Secretary-General's High-Level Advisory Group on Climate Change Financing which is, *inter alia*, exploring innovative finance.

42. We note with appreciation the report on energy subsidies from the International Energy Agency (IEA), Organization of the Petroleum Exporting Countries (OPEC), OECD and World Bank. We welcome the work of Finance and Energy Ministers in delivering implementation strategies and timeframes, based on national circumstances, for the rationalization and phase out over the medium term of inefficient fossil fuel subsidies that encourage wasteful consumption, taking into account vulnerable groups and their development needs. We also encourage continued and full implementation of country-specific strategies and will continue to review progress towards this commitment at upcoming summits.

43. Following the recent oil spill in the Gulf of Mexico we recognize the need to share best practices to protect the marine environment, prevent accidents related to offshore exploration and development, as well as transportation, and deal with their consequences.

44. We recognize that 2010 marks an important year for development issues. The September 2010 Millennium Development Goals (MDG) High Level Plenary will be a crucial opportunity to reaffirm the global development agenda and global partnership, to agree on actions for all to achieve the MDGs by 2015, and to reaffirm our respective commitments to assist the poorest countries.

45. In this regard it is important to work with Least Developed Countries (LDCs) to make them active participants in and beneficiaries of the global economic system. Accordingly we thank Turkey for its decision to host the 4th United Nations Conference on the LDCs in June 2011.

46. We welcome the Global Pulse Initiative interim report and look forward to an update.

47. Narrowing the development gap and reducing poverty are integral to our broader objective of achieving strong, sustainable and balanced growth and ensuring a more robust and resilient global economy for all. In this regard, we agree to establish a Working Group on Development and mandate it to elaborate, consistent with the G-20's focus on measures to promote economic growth and resilience, a development agenda and multi-year action plans to be adopted at the Seoul Summit.

48. We will meet next in Seoul, Korea, on November 11-12, 2010. We will convene in November 2011 under the Chairmanship of France and in 2012 under the Chairmanship of Mexico.

49. We thank Canada for hosting the successful Toronto Summit.

ANNEX I

The Framework for Strong, Sustainable and Balanced Growth

1. As a result of the extraordinary and highly coordinated policy actions agreed to at the Washington, London and Pittsburgh G-20 Summits, the global economy is recovering faster than was expected. Our decisive and unprecedented actions over the past two years have limited the downturn and spurred recovery.

2. Yet risks remain. Unemployment remains unacceptably high in many G-20 economies. The recovery is uneven across G-20 members both across advanced economies and between advanced and emerging economies. This poses risks to the continued economic expansion. There is a risk that global current account imbalances will widen again, absent further policy action. While considerable progress has been made in moving ahead on our financial sector repair and reform agenda, financial markets remain fragile and credit flows restrained. Concerns over large fiscal deficits and rising debt levels in some countries have also become a source of uncertainty and financial market volatility.

3. The G-20's highest priority is to safeguard and strengthen the recovery and lay the foundation for strong, sustainable and balanced growth, including strengthening our financial systems against risks. We therefore welcome the actions taken and commitments made by a number of G-20 countries. Among more recent measures, we particularly welcome the full implementation of the European Financial Stability Mechanism and Facility; the EU decision to publicly release the results of ongoing tests on European banks; and the recent announcements of fiscal consolidation plans and targets by a number of G-20 countries. These represent substantial contributions to our collective well-being and build on our previous actions. We will continue to cooperate and undertake appropriate actions to bolster economic growth and foster a strong and lasting recovery.

4. The Framework for Strong, Sustainable and Balanced Growth we launched in Pittsburgh is the means to achieving our shared objectives. G-20 members have a responsibility to the community of nations to assure the overall health of the global economy. We committed to assess the collective consistency of our policy actions and to strengthen our policy frameworks in order to meet our common objectives. Through our collective policy action, we will ensure growth is sustained, more balanced, shared across all countries and regions of the world, and consistent with our development goals.

5. We have completed the first stage of our Mutual Assessment Process. As we requested in Pittsburgh, G-20 Finance Ministers and Central Bank Governors, with the support of the IMF, World Bank, OECD, ILO and other international organisations, have assessed the collective consistency of our individual policy frameworks and global prospects under alternative policy scenarios.

6. The assessment is that in the absence of a coordinated policy response: global output is likely to remain below its pre-crisis trend; unemployment remains above pre-crisis levels in most countries; fiscal deficits and debt in some advanced economies reach unacceptably high levels; and, global current account imbalances, which narrowed during the crisis, widen again. Moreover, this outlook is subject to considerable downside risks.

7. We concluded that we can do much better. The IMF and World Bank estimate that if we choose a more ambitious path of reforms, over the medium term, we could:
   - raise global output by up to $4 trillion;
   - create an estimated 52 million jobs;
   - lift up to 90 million people out of poverty; and
   - significantly reduce global current account balances.

   If we act in a coordinated manner, all regions are better off, now and in the future. Moreover, increasing global growth on a sustainable basis is the most important step we can take in improving the lives of all, including those in the poorest countries.

8. We are committed to taking concerted actions to sustain the recovery, create jobs and to achieve stronger, more sustainable and more balanced growth. These will be differentiated and tailored to national circumstances. We agreed today on:
   - Following through on fiscal stimulus and communicating "growth-friendly" fiscal consolidation plans in advanced countries and that will be implemented going forward;
   - strengthening social safety nets, enhancing corporate governance reform, financial market development, infrastructure spending, and increasing exchange rate flexibility in some emerging markets;
   - pursuing structural reforms across the entire G-20 membership to increase and sustain our growth prospects; and
   - Making further progress on rebalancing global demand.

   Monetary policy will continue to be appropriate to achieve price stability and thereby contribute to the recovery.

9. We agreed to follow through on fiscal stimulus and communicating "growth friendly" fiscal consolidation plans in advanced countries that will be implemented going forward. Sound fiscal finances are essential to sustain recovery, provide flexibility to respond to new shocks, ensure the capacity to meet the challenges of aging populations, and avoid leaving future generations with a legacy of deficits and debt. The path of adjustment must be carefully calibrated to sustain the recovery in private demand. There is a risk that synchronized fiscal adjustment across several major economies could adversely impact the recovery. There is also a risk that the failure to implement consolidation where necessary would undermine confidence and hamper growth. Reflecting this balance, advanced economies have

committed to fiscal plans that will at least halve deficits by 2013 and stabilize or reduce government debt-to-GDP ratios by 2016. Recognizing the circumstances of Japan, we welcome the Japanese government's fiscal consolidation plan announced recently with their growth strategy. Those with serious fiscal challenges need to accelerate the pace of consolidation. Fiscal consolidation plans will be credible, clearly communicated, differentiated to national circumstances, and focused on measures to foster economic growth.

10. We have agreed on a set of principles to guide these fiscal consolidation plans by advanced economies:
    - *Fiscal consolidation plans will be credible*. They will be based on prudent assumptions with respect to economic growth and our respective fiscal positions, and they will identify specific measures to achieve a target path that ensures fiscal sustainability. Strengthened budgetary frameworks and institutions can help underpin the credibility of consolidation strategies.
    - *The time to communicate our medium-term fiscal plans is now.* We will elaborate clear and credible plans that put our fiscal finances on a sustainable footing. The speed and timing of withdrawing fiscal stimulus and reducing deficits and debt will be differentiated for and tailored to national circumstances, and the needs of the global economy. However, it is clear that consolidation will need to begin in advanced economies in 2011, and earlier for countries experiencing significant fiscal challenges at present.
    - *Fiscal consolidation will focus on measures that will foster economic growth*. We will look at ways to use our fiscal resources more efficiently, to help reduce the overall cost of our interventions while targeting resources to where they are most needed. In addition, we will focus on structural reforms that will promote long-term growth.

11. Advanced deficit countries should take actions to boost national savings while maintaining open markets and enhancing export competitiveness.

12. Surplus economies will undertake reforms to reduce their reliance on the external demand and focus more on domestic sources of growth. This will help strengthen their resilience to external shocks and promote more stable growth. To do this, advanced surplus economies will focus on structural reforms that support increased domestic demand. Emerging surplus economies will undertake reforms tailored to country circumstances to:
    - Strengthen social safety nets (such as public health care and pension plans), corporate governance and financial market development to help reduce precautionary savings and stimulate private spending;
    - Increase infrastructure spending to help boost productive capacity and reduce supply bottlenecks; and

- Enhance exchange rate flexibility to reflect underlying economic fundamentals. Excess volatility and disorderly movements in exchange rates can have adverse implications for economic and financial stability. Market-oriented exchange rates that reflect underlying economic fundamentals contribute to global economic stability.

13. Across all G-20 members, we recognise that structural reforms can have a substantial impact on economic growth and global welfare. We will implement measures that will enhance the growth potential of our economies in a manner that pays particular attention to the most vulnerable. Reforms could support the broadly-shared expansion of demand if wages grow in line with productivity. It will be important to strike the right balance between policies that support greater market competition and economic growth and policies that preserve social safety nets consistent with national circumstances. Together these measures will also help unlock demand. These include:
    - Product, service and labour market reforms in advanced economies, particularly those economies that may have lost some productive capacity during the crisis. Labour market reforms might include: better targeted unemployment benefits and more effective active labour market policies (such as job retraining, job search and skills development programs, and raising labour mobility). It might also include putting in place the right conditions for wage bargaining systems to support employment. Product and service market reforms might include strengthening competition in the service sector; reducing barriers to competition in network industries, professional services and retail sectors, encouraging innovation and further reducing the barriers to foreign competition.
    - Reducing restrictions on labour mobility, enhancing foreign investment opportunities and simplifying product market regulation in emerging market economies.
    - Avoiding new protectionist measures.
    - Completing the Doha Round to accelerate global growth through trade flows. Open trade will yield significant benefits for all and can facilitate global rebalancing.
    - Actions to accelerate financial repair and reform. Weaknesses in financial sector regulation and supervision in advanced economies led to the recent crisis. We will implement the G-20 financial reform agenda and ensure a stronger financial system serves the needs of the real economy. While not at the centre of the crisis, financial sectors in some emerging economies need to be developed further so that they can provide the depth and breadth of services required to promote and sustain high rates of economic growth and development. It is important that financial reforms in advanced economies take into account any adverse effects on financial flows to emerging and developing economies. Vigilance is also needed to ensure open capital markets and avoid financial protectionism.

14. We welcome the recommendations of our Labour and Employment Ministers, who met in April 2010, on the employment impacts of the global economic crisis. We reaffirm our

commitment to achieving strong job growth and providing social protection to our most vulnerable citizens. An effective employment policy should place quality jobs at the heart of the recovery. We appreciate the work done by the International Labour Organization in collaboration with the OECD on a training strategy that will help equip the workforce with the skills required for the jobs of today and those of tomorrow.

15. We are committed to narrowing the development gap and that we must consider the impact of our policy actions on low-income countries. We will continue support development financing, including through new approaches that encourage development financing from both public and private sources. The crisis will have long lasting impact on the development trajectories of poor countries in every region of the world. Among these effects, developing countries are likely to face increased challenges in securing financing from both public and private sources. Many of us have already taken steps to help address this shortfall by implementing innovative approaches to financing, such as advance market commitments, the SME challenge and recent progress with respect to financial inclusion. Low-income countries have the potential to contribute to stronger and more balanced global growth, and should be viewed as markets for investment.

16. These measures need to be implemented at the national level and tailored to individual country circumstances. We welcome additional measures announced by some G-20 members aimed at meeting our shared objectives.

17. To facilitate this process, the second stage of our country-led, consultative mutual assessment will be conducted at the country and European level. Each G-20 member will identify the measures it is taking to implement the policies we have agreed upon today to ensure stronger, more sustainable and balanced growth. We ask our Finance Ministers and Central Bank Governors to elaborate on these measures and report on them when we next meet. We will continue to draw on the expertise of the IMF, World Bank, OECD, ILO and other international organisations, as necessary. These measures will form the basis of our comprehensive action plan that will be announced in the Seoul Summit. As we pursue strong, sustainable and more balanced growth, we continue to encourage work on measurement methods to take into account social and environmental dimensions of economic development.

18. The policy commitments we are making today, along with the significant policy measures we have already taken, will allow us to reach our objective of strong, sustainable and balanced growth, the benefits of which will be felt both within the G-20 and across the globe.

G20 TORONTO
CANADA 2010

ANNEX II

Financial Sector Reform

1. The financial crisis has imposed huge costs. This must not be allowed to happen again. The recent financial volatility has strengthened our resolve to work together to complete financial repair and reform. We need to build a more resilient financial system that serves the needs of our economies, reduces moral hazard, limits the build-up of systemic risk and supports strong and stable economic growth.

2. Collectively we have made considerable progress toward strengthening the global financial system by fortifying prudential oversight, improving risk management, promoting transparency and continuously reinforcing international cooperation. We welcome the strong financial regulatory reform bill in the United States.

3. But there is more to be done. Further repair to the financial sector is critical to achieving sustainable global economic recovery. More work is required to restore the soundness and enhance the transparency of banks' balance sheets and markets; and improve the corporate governance and risk management of financial firms in order to strengthen the global financial system and restore the credit needed to fuel sustainable economic growth. We welcome the decision of EU leaders to publish the results of ongoing tests on European banks to reassure markets of the resilience and transparency of the European banking system.

4. We pledge to act together to achieve the commitments to reform the financial sector made at the Washington, London and Pittsburgh Summits by the agreed or accelerated timeframes. Transition horizons will take into account the cumulative macroeconomic impact of the reforms in advanced and emerging economies

Capital and Liquidity

5. We agreed that the core of the financial sector reform agenda rests on improving the strength of capital and liquidity and discouraging excessive leverage. We agreed to increase the quality, quantity, and international consistency of capital, to strengthen liquidity standards, to discourage excessive leverage and risk taking, and reduce procyclicality.

6. We took stock of the progress of the Basel Committee on Banking Supervision (BCBS) towards a new global regime for bank capital and liquidity and we welcome and support its work. Substantial progress has been made on reforms that will materially raise levels of resilience of our banking systems.
    - The amount of capital will be significantly higher when the new reforms are fully implemented.

- The quality of capital will be significantly improved to reinforce banks' ability to absorb losses.

7. We support reaching agreement, at the time of the Seoul Summit, on a new capital framework that would raise capital requirements by:
    - establishing a new requirement that each bank hold in Tier 1 capital, at a minimum, an increasing share of common equity, after deductions, measured as a percentage of risk-weighted assets, that enables them to withstand with going concern fully-loss-absorbing capital – without extraordinary government support – stresses of a magnitude associated with the recent financial crisis.
    - moving to a globally consistent and transparent set of conservative deductions generally applied at the level of common equity, or its equivalent in the case of non-joint stock companies, over a suitable globally-consistent transition period.

8. Based on our agreement at the Pittsburgh Summit that Basel II will be adopted in all major centers by 2011, we agreed that all members will adopt the new standards and these will be phased in over a timeframe that is consistent with sustained recovery and limits market disruption, with the aim of implementation by end-2012, and a transition horizon informed by the macroeconomic impact assessment of the Financial Stability Board (FSB) and BCBS.

9. Phase-in arrangements will reflect different national starting points and circumstances, with initial variance around the new standards narrowing over time as countries converge to the new global standard. Existing public sector capital injections will be grandfathered for the extent of the transition.

10. We reiterated support for the introduction of a leverage ratio as a supplementary measure to the Basel II risk-based framework with a view to migrating to Pillar I treatment after an appropriate transition period based on appropriate review and calibration. To ensure comparability, the details of the leverage ratio will be harmonized internationally, fully adjusting for differences in accounting.

11. We acknowledged the importance of the quantitative impact study currently being conducted by the BCBS that measures the potential impact of the new Basel standards and will ensure that the new capital and liquidity standards are of high quality and adequately calibrated. The BCBS- FSB macroeconomic impact study will inform the development of the phase-in period of the new standards.

12. We welcomed the BCBS agreement on a coordinated start date not later than 31 December 2011 for all elements of the revised trading book rules.

13. We support the BCBS' work to consider the role of contingent capital in strengthening market discipline and helping to bring about a financial system where the private sector

fully bears the losses on their investments. Consideration of contingent capital should be included as part of the 2010 reform package.

14. We called upon the FSB and the BCBS to report on progress of the full package of reform measures by the Seoul Summit. We recognize the critical role of the financial sector in driving a robust economy. We are committed to design a financial system which is resilient, stable and ensures the continued availability of credit.

More Intensive Supervision

15. We agreed that new, stronger rules must be complemented with more effective oversight and supervision. We are committed to the Basel Committee's Core Principles for Effective Banking Supervision and tasked the FSB, in consultation with the International Monetary Fund (IMF), to report to our Finance Ministers and Central Bank Governors in October 2010 on recommendations to strengthen oversight and supervision, specifically relating to the mandate, capacity and resourcing of supervisors and specific powers which should be adopted to proactively identify and address risks, including early intervention.

Resolution of Financial Institutions

16. We are following through on our commitment to reduce moral hazard in the financial system. We are committed to design and implement a system where we have the powers and tools to restructure or resolve all types of financial institutions in crisis, without taxpayers ultimately bearing the burden. These powers should facilitate "going concern" capital and liquidity restructuring as well as "gone concern" restructuring and wind-down measures. We endorsed and have committed to implement our domestic resolution powers and tools in a manner that preserves financial stability and are committed to implement the ten key recommendations on cross-border bank resolution issued by the BCBS in March 2010. In this regard, we support changes to national resolution and insolvency processes and laws where needed to provide the relevant national authorities with the capacity to cooperate and coordinate resolution actions across borders.

17. We agree that resolution regimes should provide for:
    - Proper allocation of losses to reduce moral hazard and protect taxpayers;
    - Continuity of critical financial services, including uninterrupted service for insured depositors;
    - Credibility of the resolution regime in the market;
    - Minimization of contagion;
    - Advanced planning for orderly resolution and transfer of contractual relationships; and,

- Effective cooperation and information exchange domestically and among jurisdictions in the event of a failure of a cross-border institution.

Addressing Systemically Important Financial Institutions

18. We welcomed the FSB's interim report on reducing the moral hazard risks posed by systemically important financial institutions. We recognized that more must be done to address these risks. Prudential requirements for such firms should be commensurate with the cost of their failure. We called upon the FSB to consider and develop concrete policy recommendations to effectively address problems associated with and resolve systemically important financial institutions by the Seoul Summit. This should include more intensive supervision along with consideration of financial instruments and mechanisms to encourage market discipline, including contingent capital, bail-in options, surcharges, levies, structural constraints, and methods to haircut unsecured creditors.

19. We welcomed the substantial progress that has been made regarding the development of supervisory colleges and crisis management groups for the major complex financial institutions identified by the FSB.

20. We continue to work together to develop robust agreed-upon institution-specific recovery and rapid resolution plans for major cross-border institutions by the end of 2010. We further committed to continue working on ensuring cooperation among jurisdictions in financial institution resolution proceedings.

Financial Sector Responsibility

21. We agreed the financial sector should make a fair and substantial contribution towards paying for any burdens associated with government interventions, where they occur, to repair the financial system or fund resolution.

22. To that end, we recognized that there is a range of policy approaches. Some countries are pursuing a financial levy. Other countries are pursuing different approaches. We agreed the range of approaches would follow these principles:
    - Protect taxpayers;
    - Reduce risks from the financial system;
    - Protect the flow of credit in good times and bad times;
    - Take into account individual countries' circumstances and options; and,
    - Help promote a level playing field.

23. We thanked the IMF for its work in this area.

Financial Market Infrastructure and Scope of Regulation

24. We agreed on the need to strengthen financial market infrastructure in order to reduce systemic risk, improve market efficiency, transparency and integrity. Global action is important to minimize regulatory arbitrage, promote a level playing field, and foster the widespread application of the principles of propriety, integrity, and transparency.

25. We pledged to work in a coordinated manner to accelerate the implementation of over-the-counter (OTC) derivatives regulation and supervision and to increase transparency and standardization. We reaffirm our commitment to trade all standardized OTC derivatives contracts on exchanges or electronic trading platforms, where appropriate, and clear through central counterparties (CCPs) by end-2012 at the latest. OTC derivative contracts should be reported to trade repositories (TRs). We will work towards the establishment of CCPs and TRs in line with global standards and ensure that national regulators and supervisors have access to all relevant information. In addition we agreed to pursue policy measures with respect to haircut-setting and margining practices for securities financing and OTC derivatives transactions that will reduce procyclicality and enhance financial market resilience. We recognized that much work has been done in this area. We will continue to support further progress in implementing these measures.

26. We committed to accelerate the implementation of strong measures to improve transparency and regulatory oversight of hedge funds, credit rating agencies and over-the-counter derivatives in an internationally consistent and non-discriminatory way. We also committed to improve the functioning and transparency of commodities markets. We call on credit rating agencies to increase transparency and improve quality and avoid conflicts of interest, and on national supervisors to continue to focus on these issues in conducting their oversight.

27. We committed to reduce reliance on external ratings in rules and regulations. We acknowledged the work underway at the BCBS to address adverse incentives arising from the use of external ratings in the regulatory capital framework, and at the FSB to develop general principles to reduce authorities' and financial institutions' reliance on external ratings. We called on them to report to our Finance Ministers and Central Bank Governors in October 2010.

28. We acknowledged the significant work of the International Organization of Securities Commission (IOSCO) to facilitate the exchange of information amongst regulators and supervisors, as well as IOSCO's principles regarding the oversight of hedge funds aimed at addressing related regulatory and systemic risks.

29. We called on the FSB to review national and regional implementation of prior G-20 commitments in these areas and promote global policy cohesion and to assess and report to

our Finance Ministers and Central Bank Governors in October 2010 if further work is required.

Accounting Standards

30. We re-emphasized the importance we place on achieving a single set of high quality improved global accounting standards. We urged the International Accounting Standards Board and the Financial Accounting Standards Board to increase their efforts to complete their convergence project by the end of 2011.

31. We encouraged the International Accounting Standards Board to further improve the involvement of stakeholders, including outreach to emerging market economies, within the framework of the independent accounting standard setting process.

Assessment and Peer Review

32. We pledged to support robust and transparent independent international assessment and peer review of our financial systems through the IMF and World Bank's Financial Sector Assessment Program and the FSB peer review process. The mutual dependence and integrated nature of our financial system requires that we all live up to our commitments. Weak financial systems in some countries pose a threat to the stability of the international financial system. International assessment and peer review are fundamental in making the financial sector safer for all.

33. We reaffirmed the FSB's principal role in the elaboration of international financial sector supervisory and regulatory policies and standards, co-ordination across various standard-setting bodies, and ensuring accountability for the reform agenda by conducting thematic and country peer reviews and fostering a level playing field through coherent implementation across sectors and jurisdictions. To that end, we encourage the FSB to look at ways to strengthen its capacity to keep pace with growing demands.

34. We called upon the FSB to expand upon and formalize its outreach activities beyond the membership of the G-20 to reflect the global nature of our financial system. We recognized the prominent role of the FSB, along with other important organizations including, the IMF and World Bank. These organizations, along with other international standard setters and supervisory authorities, play a central role to the health and well-being of our financial system.

35. We fully support the FSB's thematic peer reviews as a means of fostering consistent cross-country implementation of financial and regulatory policies and to assess their effectiveness in achieving their intended results. We welcomed the FSB's first thematic peer review report on compensation, which showed progress in the implementation of the FSB's

standards for sound compensation, but full implementation is far from complete. We encouraged all countries and financial institutions to fully implement the FSB principles and standards by year-end. We call on the FSB to undertake ongoing monitoring in this area and conduct a second thorough peer review in the second quarter of 2011. We also look forward to the results of the FSB's thematic review of risk disclosures.

36. We acknowledged the significant progress in the FSB's country review program. These reviews are an important complement to the IMF/World Bank Financial Sector Assessment Program and provide a forum for peer learning and dialogue to address challenges. Three reviews will be completed this year.

Other International Standards and Non-cooperative Jurisdictions

37. We agreed to consider measures and mechanisms to address non-cooperative jurisdictions based on comprehensive, consistent and transparent assessment, and encourage adherence, including by providing technical support, with the support of the international financial institutions (IFIs).

38. We fully support the work of the Global Forum on Transparency and Exchange of Information for Tax Purposes, and welcomed progress on their peer review process, and the development of a multilateral mechanism for information exchange which will be open to all interested countries. Since our meeting in London in April 2009, the number of signed tax information agreements has increased by almost 500. We encourage the Global Forum to report to Leaders by November 2011 on progress countries have made in addressing the legal framework required to achieve an effective exchange of information. We also welcome progress on the Stolen Asset Recovery Program, and support its efforts to monitor progress to recover the proceeds of corruption. We stand ready to use countermeasures against tax havens.

39. We fully support the work of the Financial Action Task Force (FATF) and FATF-Style Regional Bodies in their fight against money laundering and terrorist financing and regular updates of a public list on jurisdictions with strategic deficiencies. We also encourage the FATF to continue monitoring and enhancing global compliance with the anti-money laundering and counter-terrorism financing international standards.

40. We welcomed the implementation of the FSB's evaluation process on the adherence to prudential information exchange and international cooperation standards in all jurisdictions.

ANNEX III

Enhancing the Legitimacy, Credibility and Effectiveness of the IFIs and Further Supporting the Needs of the Most Vulnerable

1. The global economic and financial crisis has demonstrated the value of the International Financial Institutions (IFIs) as instruments for coordinating multilateral action. These institutions were on the front-line in responding to the crisis, mobilizing $985 billion in critical financing. In addition, the international community and the IFIs mobilized over $250 billion in trade finance.

2. The crisis also demonstrated the importance of delivering further reforms. As key platforms for our cooperation, we are committed to strengthening the legitimacy, credibility and effectiveness of the IFIs, to ensure that they are capable of helping us maintain global financial and economic stability and supporting the growth and development of all their members.

3. To enhance the legitimacy and effectiveness of the IFIs, we committed in London and Pittsburgh to support new open, transparent and merit-based selection processes for the heads and senior leadership of all International Financial Institutions. We will strengthen these processes in the lead up to the Seoul Summit in the context of broader reform.

MDB Financing

4. Since the start of the global financial crisis, the MDBs have been playing an important role in the global response by exceeding our London commitment, in providing $235 billion in lending, more than half of which has come from the World Bank Group. At a time when private sector sources of finance were diminished, this lending was critical to global stabilization. Now more than ever, the MDBs are key development partners for many countries.

5. We have fulfilled our commitment to ensure that the MDBs have appropriate resources through capital increases for the major MDBs, including the Asian Development Bank (AsDB), the African Development Bank (AfDB), the Inter-American Development Bank (IADB), the European Bank for Reconstruction and Development (EBRD), the World Bank Group, notably the International Bank for Reconstruction and Development (IBRD) and the International Finance Corporation (IFC). As major shareholders at these institutions, we have worked together with other members to increase their capital base by 85%, or approximately $350 billion. Overall, their total lending to developing countries will grow from $37 billion per year to $71 billion per year. This will improve their ability to address the increasing demand in the short and medium terms and to have enough resources to

support their members. We support efforts to implement these agreements as quickly as possible.

MDB	Capital Increase	Pre-Crisis Annual Lending[a]	New Annual Lending[b]
AfDB	200% increase	$1.8 B	$6 B
AsDB	200% increase	$5.8 B	$10 B
EBRD[c]	50% increase	$5.3 B	$11 B
IADB[d]	70% increase	$6.7 B	$12 B
IBRD	30% increase	$12.1 B	$15 B
IFC	$200M selective capital increase	$5.4 B	$17 B
Total	**85% increase in MDB capital**	**$37 B**	**$71 B**

***All dollar figures USD**

[a] 2000-2008. [b] 2012-2020. [c] mostly callable, of a temporary nature, for CRR4; [d] Includes agreement to relieve Haiti's debt to the IADB

6. We recognize the acute development needs in Africa, the region the furthest behind on the Millennium Development Goals. For this reason, the African Development Bank will be capitalized for substantial growth, with a 200% increase in its capital and corresponding tripling of its annual lending levels, to strengthen capacity to support the region's long-term growth and development.

7. To ensure that the IFC has the resources necessary for its continued growth, we will consider a long-term hybrid instrument to shareholders and earnings retention, to complement the recent selective capital increase linked to voice reforms.

8. In order to support low income countries, given their need to borrow at more concessional terms, we will fulfill our commitment to ensure an ambitious replenishment for the concessional lending facilities of the MDBs, especially the International Development Association (IDA) and the African Development Fund, which are undergoing financial replenishments this year. We welcome the fact that many G-20 members have taken important steps to join as donors to these institutions. We reiterated our support for fairer and wider burden sharing.

MDB Reforms

9. We have also fulfilled our commitment to ensure that these capital increases are joined to ongoing and important institutional reforms to make the MDBs more effective, efficient and accountable. These include:

- Commitments to further support the poorest countries in a financially prudent way, including by transferring resources, where feasible, from MDB net income to their respective lending facilities for low income countries and increasing their investment activities in low income countries and frontier regions. This will ensure that the new capital resources benefit both low income and middle income countries.
- Specific actions for greater transparency, stronger accountability, improved institutional governance deeper country ownership, more decentralization and use of country systems where appropriate, and enhanced procurement guidelines, new ways of managing and tracking results and financial contributions, strengthen knowledge management, ensuring the right human resources with appropriate diversity, better implementing environmental and social safeguards, sound risk management, and ensuring financial sustainability with pricing linked to expenses, and a commitment to continue to reduce administrative expenses and make them more transparent.
- Deeper support for private sector development, including through more private sector operations and investment, as a vital component of sustainable and inclusive development.
- Recommitting to their core development mandates and taking up a greater role in the provision of global solutions to transnational problems, such as climate change and food security.

10. With these reform commitments, we are building not just bigger MDBs, but better MDBs, with more strategic focus on lifting the lives of the poor, underwriting growth, promoting security, and addressing the global challenges of climate change and food security. Implementation of these reforms has already begun, and we will continue to ensure that this work is completed and that further reforms are undertaken where necessary.

World Bank Group Voice Reforms

11. We welcomed the agreement on the World Bank's voice reform to increase the voting power of developing and transition countries by 3.13% consistent with the agreement at the Pittsburgh Summit. When combined with the 1.46% increase agreed in the previous phase of the reforms, this will provide a total shift of 4.59% to DTCs, bringing their overall voting power to 47.19%. We committed to continue moving over time towards equitable voting power, while protecting the smallest nations, by arriving at a dynamic formula which primarily reflects countries' evolving economic weight and the World Bank's development mission. We also endorsed voice reforms at the IFC which will provide a total shift of 6.07%, to bring DTC voting power to 39.48%.

Debt Relief for Haiti

12. We stand united with the people of Haiti as they struggle to recover from the devastation wrought by the earthquake in January, and we join other donors in providing assistance in

this difficult time, including through the Haiti Reconstruction Fund set up by the World Bank, the Inter-American Development Bank and the United Nations. To ensure that Haiti's recovery efforts can focus on its reconstruction action plan, rather than the debt obligations of its past, our Finance Ministers agreed last April to support full cancellation of Haiti's debts to all IFIs, including through burden sharing of the associated costs, where necessary. We are pleased that an agreement on a framework for cancelling such debt has been reached at the IMF; the World Bank, the International Fund for Agriculture Development, and soon at the Inter-American Development Bank. We will contribute our fair shares of the associated costs as soon as possible. We will report on progress at the Seoul Summit.

IMF Reforms

13. We are committed to strengthening the legitimacy, credibility and effectiveness of the IMF to ensure it succeeds in carrying out its mandate. Important actions have been taken by the G-20 and the international community since the onset of the crisis, including the mobilization of $750 billion to support IMF members' needs for crisis financing. The IMF raised $250 billion in new resources through immediate bilateral loans and note purchase agreements, to be subsequently incorporated into a $500 billion expansion of the New Arrangements to Borrow (NAB). The IMF also implemented a $250 billion new general allocation of SDRs to bolster the foreign exchange reserves of all members. Along with important surveillance and lending reforms, including a new early-warning exercise and the creation of new precautionary instruments such as the Flexible Credit Line, these actions have significantly increased the IMF's crisis response capacity. However, important work remains to be completed to fully reform the IMF.

14. We called for an acceleration of the substantial work still needed for the IMF to complete the quota reform by the Seoul Summit and in parallel deliver on other governance reforms, in line with commitments made in Pittsburgh. Modernizing the IMF's governance is a core element of our effort to improve the IMF's credibility, legitimacy, and effectiveness. We recognize that the IMF should remain a quota-based organization and that the distribution of quotas should reflect the relative weights of its members in the world economy, which have changed substantially in view of the strong growth in dynamic emerging market and developing countries. To this end, we are committed to a shift in quota share to dynamic emerging market and developing countries of at least five percent from over-represented to under-represented countries using the current IMF quota formula as the basis to work from. We are also committed to protecting the voting share of the poorest in the IMF. As part of this process, we agree that a number of other critical issues will need to be addressed, including: the size of any increase in IMF quotas, which will have a bearing on the ability to facilitate change in quota shares; the size and composition of the Executive Board; ways of enhancing the Board's effectiveness; and the Fund Governors' involvement in the strategic oversight of the IMF. Staff diversity should be enhanced.

15. We underscored our resolve to ensure the IMF has the resources it needs so that it can play its important role in the world economy. The majority of G-20 members have ratified the 2008 IMF Quota and Voice Reforms, fulfilling an important commitment made in London. Those members who have yet to ratify commit to doing so by the Seoul Summit. This action will not just enhance the legitimacy of the IMF by increasing the voice and participation of developing countries, it will also provide the IMF with $30 billion in new quota resources. We call on all IMF members to ratify the agreement this year.

16. A number of G-20 members have already formally accepted the recently agreed reforms to the expanded NAB, which will provide a significant back-stop to IMF quota resources, consolidating over $500 billion for IMF lending to countries in crisis. Other participating G-20 members will complete the acceptance process by the next meeting of G-20 Finance Ministers and Central Bank Governors. We call on all existing and new NAB participants to do the same.

17. G-20 members committed to ensure that the IMF's concessional financing for the poorest countries be expanded by $6 billion through the proceeds from the agreed sale of IMF gold, consistent with the IMF's new income model, and the employment of internal and other resources. We are delivering. Some G-20 members have supported this commitment with additional loan and subsidy resources for the Poverty Reduction and Growth Trust (PRGT) and some others plan to contribute in the coming months.

18. We acknowledged a need for national, regional and international efforts to deal with capital flow volatility, financial fragility, and prevent crisis contagion. We task our Finance Ministers and Central Bank Governors to prepare policy options, based on sound incentives, to strengthen global financial safety nets for our consideration at the Seoul Summit. In line with these efforts, we also call on the IMF to make rapid progress in reviewing its lending instruments, with a view to further reforming them as appropriate. In parallel, IMF surveillance should be enhanced to focus on systemic risks and vulnerabilities wherever they may lie. Our goal is to build a more stable and resilient international monetary system.

Further Supporting the Needs of the Most Vulnerable

19. We have made significant progress in supporting the poorest countries during the crisis and must continue to take measures to assist the most vulnerable and must ensure that the poorest countries benefit from our efforts to restore global growth. We recognize the urgency of this, and are committed to meeting the Millennium Development Goals by 2015 and will reinforce our efforts to this end, including through the use of Official Development Assistance.

20. We have made concrete progress on our commitment to improving access to financial services for the poor and to increasing financing available to small- and medium-sized enterprises (SMEs) in developing countries.

21. Adequately financed small and medium-sized businesses are vital to job creation and a growing economy, particularly in emerging economies. We have launched the SME Finance Challenge aimed at finding the most promising models for public-private partnerships that catalyze finance for SMEs. We are committed to mobilizing the funding needed to implement winning proposals, including through the strong support of the MDBs. We welcome the strong support of the MDBs for scalable and sustainable SME financing proposals, including those from the Challenge in partnership with the private sector. We look forward to announcing the winning proposals of the SME Finance Challenge and to receiving recommendations to scale-up successful SME finance models at the Seoul Summit.

22. We have developed a set of principles for innovative financial inclusion, which will form the basis of a concrete and pragmatic action plan for improving access to financial services amongst the poor. This action plan will be released at the Seoul Summit.

23. At the Pittsburgh Summit, we recognised the importance of sustained funding and targeted investments to improve long-term food security in low income countries. We welcome the launch of the Global Agriculture and Food Security Program (GAFSP), which will provide predictable financing for low income countries to improve agricultural productivity, raise rural incomes, and build sustainable agricultural systems. We are particularly pleased that the fund has approved inaugural grants totalling $224 million for Bangladesh, Rwanda, Haiti, Togo, and Sierra Leone. We also support the development of the private sector window of the GAFSP, which will increase private sector investments to support small and medium sized agri-businesses and farmers in poor countries. We welcome the support already received, and encourage additional donor contributions to both the public and private sector windows of the GAFSP.

24. There is still an urgency to accelerate research and development to close agricultural productivity gaps, including through regional and South-South cooperation, amidst growing demands and mounting environmental stresses, particularly in Africa. The private sector will be critical in the development and deployment of innovative solutions that provide concrete results on the ground. We commit to exploring the potential of innovative, results-based mechanisms such as advance market commitments to harness the creativity and resources of the private sector in achieving breakthrough innovations in food security and agriculture development in poor countries. We will report on progress at the Seoul Summit.

DECLARATION
SUMMIT ON FINANCIAL MARKETS AND THE WORLD ECONOMY
November 15, 2008

1. We, the Leaders of the Group of Twenty, held an initial meeting in Washington on November 15, 2008, amid serious challenges to the world economy and financial markets. We are determined to enhance our cooperation and work together to restore global growth and achieve needed reforms in the world's financial systems.

2. Over the past months our countries have taken urgent and exceptional measures to support the global economy and stabilize financial markets. These efforts must continue. At the same time, we must lay the foundation for reform to help to ensure that a global crisis, such as this one, does not happen again. Our work will be guided by a shared belief that market principles, open trade and investment regimes, and effectively regulated financial markets foster the dynamism, innovation, and entrepreneurship that are essential for economic growth, employment, and poverty reduction.

Root Causes of the Current Crisis

3. During a period of strong global growth, growing capital flows, and prolonged stability earlier this decade, market participants sought higher yields without an adequate appreciation of the risks and failed to exercise proper due diligence. At the same time, weak underwriting standards, unsound risk management practices, increasingly complex and opaque financial products, and consequent excessive leverage combined to create vulnerabilities in the system. Policy-makers, regulators and supervisors, in some advanced countries, did not adequately appreciate and address the risks building up in financial markets, keep pace with financial innovation, or take into account the systemic ramifications of domestic regulatory actions.

4. Major underlying factors to the current situation were, among others, inconsistent and insufficiently coordinated macroeconomic policies, inadequate structural reforms, which led to unsustainable global macroeconomic outcomes. These developments, together, contributed to excesses and ultimately resulted in severe market disruption.

Actions Taken and to Be Taken

5. We have taken strong and significant actions to date to stimulate our economies, provide liquidity, strengthen the capital of financial institutions, protect savings and deposits, address regulatory deficiencies, unfreeze credit markets, and are working to ensure that international financial institutions (IFIs) can provide critical support for the global economy.

6. But more needs to be done to stabilize financial markets and support economic growth. Economic momentum is slowing substantially in major economies and the global outlook has weakened. Many emerging market economies, which helped sustain

the world economy this decade, are still experiencing good growth but increasingly are being adversely impacted by the worldwide slowdown.

7. Against this background of deteriorating economic conditions worldwide, we agreed that a broader policy response is needed, based on closer macroeconomic cooperation, to restore growth, avoid negative spillovers and support emerging market economies and developing countries. As immediate steps to achieve these objectives, as well as to address longer-term challenges, we will:

- Continue our vigorous efforts and take whatever further actions are necessary to stabilize the financial system.
- Recognize the importance of monetary policy support, as deemed appropriate to domestic conditions.
- Use fiscal measures to stimulate domestic demand to rapid effect, as appropriate, while maintaining a policy framework conducive to fiscal sustainability.
- Help emerging and developing economies gain access to finance in current difficult financial conditions, including through liquidity facilities and program support. We stress the International Monetary Fund's (IMF) important role in crisis response, welcome its new short-term liquidity facility, and urge the ongoing review of its instruments and facilities to ensure flexibility.
- Encourage the World Bank and other multilateral development banks (MDBs) to use their full capacity in support of their development agenda, and we welcome the recent introduction of new facilities by the World Bank in the areas of infrastructure and trade finance.
- Ensure that the IMF, World Bank and other MDBs have sufficient resources to continue playing their role in overcoming the crisis.

Common Principles for Reform of Financial Markets

8. In addition to the actions taken above, we will implement reforms that will strengthen financial markets and regulatory regimes so as to avoid future crises. Regulation is first and foremost the responsibility of national regulators who constitute the first line of defense against market instability. However, our financial markets are global in scope, therefore, intensified international cooperation among regulators and strengthening of international standards, where necessary, and their consistent implementation is necessary to protect against adverse cross-border, regional and global developments affecting international financial stability. Regulators must ensure that their actions support market discipline, avoid potentially adverse impacts on other countries, including regulatory arbitrage, and support competition, dynamism and innovation in the marketplace. Financial institutions must also bear their responsibility for the turmoil and should do their part to overcome it including by recognizing losses, improving disclosure and strengthening their governance and risk management practices.

9. We commit to implementing policies consistent with the following common principles for reform.

- **Strengthening Transparency and Accountability:** We will strengthen financial market transparency, including by enhancing required disclosure on complex financial products and ensuring complete and accurate disclosure by firms of their financial conditions. Incentives should be aligned to avoid excessive risk-taking.

- **Enhancing Sound Regulation:** We pledge to strengthen our regulatory regimes, prudential oversight, and risk management, and ensure that all financial markets, products and participants are regulated or subject to oversight, as appropriate to their circumstances. We will exercise strong oversight over credit rating agencies, consistent with the agreed and strengthened international code of conduct. We will also make regulatory regimes more effective over the economic cycle, while ensuring that regulation is efficient, does not stifle innovation, and encourages expanded trade in financial products and services. We commit to transparent assessments of our national regulatory systems.

- **Promoting Integrity in Financial Markets:** We commit to protect the integrity of the world's financial markets by bolstering investor and consumer protection, avoiding conflicts of interest, preventing illegal market manipulation, fraudulent activities and abuse, and protecting against illicit finance risks arising from non-cooperative jurisdictions. We will also promote information sharing, including with respect to jurisdictions that have yet to commit to international standards with respect to bank secrecy and transparency.

- **Reinforcing International Cooperation:** We call upon our national and regional regulators to formulate their regulations and other measures in a consistent manner. Regulators should enhance their coordination and cooperation across all segments of financial markets, including with respect to cross-border capital flows. Regulators and other relevant authorities as a matter of priority should strengthen cooperation on crisis prevention, management, and resolution.

- **Reforming International Financial Institutions:** We are committed to advancing the reform of the Bretton Woods Institutions so that they can more adequately reflect changing economic weights in the world economy in order to increase their legitimacy and effectiveness. In this respect, emerging and developing economies, including the poorest countries, should have greater voice and representation. The Financial Stability Forum (FSF) must expand urgently to a broader membership of emerging economies, and other major standard setting bodies should promptly review their membership. The IMF, in collaboration with the expanded FSF and other bodies, should work to better identify vulnerabilities, anticipate potential stresses, and act swiftly to play a key role in crisis response.

Tasking of Ministers and Experts

10. We are committed to taking rapid action to implement these principles. We instruct our Finance Ministers, as coordinated by their 2009 G-20 leadership (Brazil, UK, Republic of Korea), to initiate processes and a timeline to do so. An initial list of specific measures is set forth in the attached Action Plan, including high priority actions to be completed prior to March 31, 2009.

In consultation with other economies and existing bodies, drawing upon the recommendations of such eminent independent experts as they may appoint, we request our Finance Ministers to formulate additional recommendations, including in the following specific areas:

- Mitigating against pro-cyclicality in regulatory policy;
- Reviewing and aligning global accounting standards, particularly for complex securities in times of stress;
- Strengthening the resilience and transparency of credit derivatives markets and reducing their systemic risks, including by improving the infrastructure of over-the-counter markets;
- Reviewing compensation practices as they relate to incentives for risk taking and innovation;
- Reviewing the mandates, governance, and resource requirements of the IFIs; and
- Defining the scope of systemically important institutions and determining their appropriate regulation or oversight.

11. In view of the role of the G-20 in financial systems reform, we will meet again by April 30, 2009, to review the implementation of the principles and decisions agreed today.

Commitment to an Open Global Economy

12. We recognize that these reforms will only be successful if grounded in a commitment to free market principles, including the rule of law, respect for private property, open trade and investment, competitive markets, and efficient, effectively regulated financial systems. These principles are essential to economic growth and prosperity and have lifted millions out of poverty, and have significantly raised the global standard of living. Recognizing the necessity to improve financial sector regulation, we must avoid over-regulation that would hamper economic growth and exacerbate the contraction of capital flows, including to developing countries.

13. We underscore the critical importance of rejecting protectionism and not turning inward in times of financial uncertainty. In this regard, within the next 12 months, we will refrain from raising new barriers to investment or to trade in goods and services, imposing new export restrictions, or implementing World Trade Organization (WTO) inconsistent measures to stimulate exports. Further, we shall strive to reach agreement

this year on modalities that leads to a successful conclusion to the WTO's Doha Development Agenda with an ambitious and balanced outcome. We instruct our Trade Ministers to achieve this objective and stand ready to assist directly, as necessary. We also agree that our countries have the largest stake in the global trading system and therefore each must make the positive contributions necessary to achieve such an outcome.

14. We are mindful of the impact of the current crisis on developing countries, particularly the most vulnerable. We reaffirm the importance of the Millennium Development Goals, the development assistance commitments we have made, and urge both developed and emerging economies to undertake commitments consistent with their capacities and roles in the global economy. In this regard, we reaffirm the development principles agreed at the 2002 United Nations Conference on Financing for Development in Monterrey, Mexico, which emphasized country ownership and mobilizing all sources of financing for development.

15. We remain committed to addressing other critical challenges such as energy security and climate change, food security, the rule of law, and the fight against terrorism, poverty and disease.

16. As we move forward, we are confident that through continued partnership, cooperation, and multilateralism, we will overcome the challenges before us and restore stability and prosperity to the world economy.

Action Plan to Implement Principles for Reform

This Action Plan sets forth a comprehensive work plan to implement the five agreed principles for reform. Our finance ministers will work to ensure that the taskings set forth in this Action Plan are fully and vigorously implemented. They are responsible for the development and implementation of these recommendations drawing on the ongoing work of relevant bodies, including the International Monetary Fund (IMF), an expanded Financial Stability Forum (FSF), and standard setting bodies.

Strengthening Transparency and Accountability

Immediate Actions by March 31, 2009

- The key global accounting standards bodies should work to enhance guidance for valuation of securities, also taking into account the valuation of complex, illiquid products, especially during times of stress.
- Accounting standard setters should significantly advance their work to address weaknesses in accounting and disclosure standards for off-balance sheet vehicles.
- Regulators and accounting standard setters should enhance the required disclosure of complex financial instruments by firms to market participants.
- With a view toward promoting financial stability, the governance of the international accounting standard setting body should be further enhanced, including by undertaking a review of its membership, in particular in order to ensure transparency, accountability, and an appropriate relationship between this independent body and the relevant authorities.
- Private sector bodies that have already developed best practices for private pools of capital and/or hedge funds should bring forward proposals for a set of unified best practices. Finance Ministers should assess the adequacy of these proposals, drawing upon the analysis of regulators, the expanded FSF, and other relevant bodies.

Medium-term actions

- The key global accounting standards bodies should work intensively toward the objective of creating a single high-quality global standard.
- Regulators, supervisors, and accounting standard setters, as appropriate, should work with each other and the private sector on an ongoing basis to ensure consistent application and enforcement of high-quality accounting standards.
- Financial institutions should provide enhanced risk disclosures in their reporting and disclose all losses on an ongoing basis, consistent with international best practice, as appropriate. Regulators should work to ensure that a financial institution' financial statements include a complete, accurate, and timely picture of the firm's activities (including off-balance sheet activities) and are reported on a consistent and regular basis.

Enhancing Sound Regulation

Regulatory Regimes

Immediate Actions by March 31, 2009

- The IMF, expanded FSF, and other regulators and bodies should develop recommendations to mitigate pro-cyclicality, including the review of how valuation and leverage, bank capital, executive compensation, and provisioning practices may exacerbate cyclical trends.

Medium-term actions

- To the extent countries or regions have not already done so, each country or region pledges to review and report on the structure and principles of its regulatory system to ensure it is compatible with a modern and increasingly globalized financial system. To this end, all G-20 members commit to undertake a Financial Sector Assessment Program (FSAP) report and support the transparent assessments of countries' national regulatory systems.
- The appropriate bodies should review the differentiated nature of regulation in the banking, securities, and insurance sectors and provide a report outlining the issue and making recommendations on needed improvements. A review of the scope of financial regulation, with a special emphasis on institutions, instruments, and markets that are currently unregulated, along with ensuring that all systemically-important institutions are appropriately regulated, should also be undertaken.
- National and regional authorities should review resolution regimes and bankruptcy laws in light of recent experience to ensure that they permit an orderly wind-down of large complex cross-border financial institutions.
- Definitions of capital should be harmonized in order to achieve consistent measures of capital and capital adequacy.

Prudential Oversight

Immediate Actions by March 31, 2009

- Regulators should take steps to ensure that credit rating agencies meet the highest standards of the international organization of securities regulators and that they avoid conflicts of interest, provide greater disclosure to investors and to issuers, and differentiate ratings for complex products. This will help ensure that credit rating agencies have the right incentives and appropriate oversight to enable them to perform their important role in providing unbiased information and assessments to markets.
- The international organization of securities regulators should review credit rating agencies' adoption of the standards and mechanisms for monitoring compliance.
- Authorities should ensure that financial institutions maintain adequate capital in amounts necessary to sustain confidence. International standard setters should set out strengthened capital requirements for banks' structured credit and securitization activities.

- Supervisors and regulators, building on the imminent launch of central counterparty services for credit default swaps (CDS) in some countries, should: speed efforts to reduce the systemic risks of CDS and over-the-counter (OTC) derivatives transactions; insist that market participants support exchange traded or electronic trading platforms for CDS contracts; expand OTC derivatives market transparency; and ensure that the infrastructure for OTC derivatives can support growing volumes.

Medium-term actions

- Credit Ratings Agencies that provide public ratings should be registered.
- Supervisors and central banks should develop robust and internationally consistent approaches for liquidity supervision of, and central bank liquidity operations for, cross-border banks.

Risk Management

Immediate Actions by March 31, 2009

- Regulators should develop enhanced guidance to strengthen banks' risk management practices, in line with international best practices, and should encourage financial firms to reexamine their internal controls and implement strengthened policies for sound risk management.
- Regulators should develop and implement procedures to ensure that financial firms implement policies to better manage liquidity risk, including by creating strong liquidity cushions.
- Supervisors should ensure that financial firms develop processes that provide for timely and comprehensive measurement of risk concentrations and large counterparty risk positions across products and geographies.
- Firms should reassess their risk management models to guard against stress and report to supervisors on their efforts.
- The Basel Committee should study the need for and help develop firms' new stress testing models, as appropriate.
- Financial institutions should have clear internal incentives to promote stability, and action needs to be taken, through voluntary effort or regulatory action, to avoid compensation schemes which reward excessive short-term returns or risk taking.
- Banks should exercise effective risk management and due diligence over structured products and securitization.

Medium -term actions

- International standard setting bodies, working with a broad range of economies and other appropriate bodies, should ensure that regulatory policy makers are aware and able to respond rapidly to evolution and innovation in financial markets and products.
- Authorities should monitor substantial changes in asset prices and their implications for the macroeconomy and the financial system.

Promoting Integrity in Financial Markets

Immediate Actions by March 31, 2009

- Our national and regional authorities should work together to enhance regulatory cooperation between jurisdictions on a regional and international level.
- National and regional authorities should work to promote information sharing about domestic and cross-border threats to market stability and ensure that national (or regional, where applicable) legal provisions are adequate to address these threats.
- National and regional authorities should also review business conduct rules to protect markets and investors, especially against market manipulation and fraud and strengthen their cross-border cooperation to protect the international financial system from illicit actors. In case of misconduct, there should be an appropriate sanctions regime.

Medium -term actions

- National and regional authorities should implement national and international measures that protect the global financial system from uncooperative and non-transparent jurisdictions that pose risks of illicit financial activity.
- The Financial Action Task Force should continue its important work against money laundering and terrorist financing, and we support the efforts of the World Bank - UN Stolen Asset Recovery (StAR) Initiative.
- Tax authorities, drawing upon the work of relevant bodies such as the Organization for Economic Cooperation and Development (OECD), should continue efforts to promote tax information exchange. Lack of transparency and a failure to exchange tax information should be vigorously addressed.

Reinforcing International Cooperation

Immediate Actions by March 31, 2009

- Supervisors should collaborate to establish supervisory colleges for all major cross-border financial institutions, as part of efforts to strengthen the surveillance of cross-border firms. Major global banks should meet regularly with their supervisory college for comprehensive discussions of the firm's activities and assessment of the risks it faces.
- Regulators should take all steps necessary to strengthen cross-border crisis management arrangements, including on cooperation and communication with each other and with appropriate authorities, and develop comprehensive contact lists and conduct simulation exercises, as appropriate.

Medium -term actions

- Authorities, drawing especially on the work of regulators, should collect information on areas where convergence in regulatory practices such as accounting standards, auditing, and deposit insurance is making progress, is in need of accelerated progress, or where there may be potential for progress.

- Authorities should ensure that temporary measures to restore stability and confidence have minimal distortions and are unwound in a timely, well-sequenced and coordinated manner.

Reforming International Financial Institutions

Immediate Actions by March 31, 2009

- The FSF should expand to a broader membership of emerging economies.
- The IMF, with its focus on surveillance, and the expanded FSF, with its focus on standard setting, should strengthen their collaboration, enhancing efforts to better integrate regulatory and supervisory responses into the macro-prudential policy framework and conduct early warning exercises.
- The IMF, given its universal membership and core macro-financial expertise, should, in close coordination with the FSF and others, take a leading role in drawing lessons from the current crisis, consistent with its mandate.
- We should review the adequacy of the resources of the IMF, the World Bank Group and other multilateral development banks and stand ready to increase them where necessary. The IFIs should also continue to review and adapt their lending instruments to adequately meet their members' needs and revise their lending role in the light of the ongoing financial crisis.
- We should explore ways to restore emerging and developing countries' access to credit and resume private capital flows which are critical for sustainable growth and development, including ongoing infrastructure investment.
- In cases where severe market disruptions have limited access to the necessary financing for counter-cyclical fiscal policies, multilateral development banks must ensure arrangements are in place to support, as needed, those countries with a good track record and sound policies.

Medium -term actions

- We underscored that the Bretton Woods Institutions must be comprehensively reformed so that they can more adequately reflect changing economic weights in the world economy and be more responsive to future challenges. Emerging and developing economies should have greater voice and representation in these institutions.
- The IMF should conduct vigorous and even-handed surveillance reviews of all countries, as well as giving greater attention to their financial sectors and better integrating the reviews with the joint IMF/World Bank financial sector assessment programs. On this basis, the role of the IMF in providing macro-financial policy advice would be strengthened.
- Advanced economies, the IMF, and other international organizations should provide capacity-building programs for emerging market economies and developing countries on the formulation and the implementation of new major regulations, consistent with international standards.

DECLARATION ON STRENGTHENING THE FINANCIAL SYSTEM – LONDON SUMMIT, 2 APRIL 2009

We, the Leaders of the G20, have taken, and will continue to take, action to strengthen regulation and supervision in line with the commitments we made in Washington to reform the regulation of the financial sector. Our principles are strengthening transparency and accountability, enhancing sound regulation, promoting integrity in financial markets and reinforcing international cooperation. The material in this declaration expands and provides further detail on the commitments in our statement. We published today a full progress report against each of the 47 actions set out in the Washington Action Plan. In particular, we have agreed the following major reforms.

<u>Financial Stability Board</u>

We have agreed that the Financial Stability Forum should be expanded, given a broadened mandate to promote financial stability, and re-established with a stronger institutional basis and enhanced capacity as the Financial Stability Board (FSB).
The FSB will:

- assess vulnerabilities affecting the financial system, identify and oversee action needed to address them;
- promote co-ordination and information exchange among authorities responsible for financial stability;
- monitor and advise on market developments and their implications for regulatory policy;
- advise on and monitor best practice in meeting regulatory standards;
- undertake joint strategic reviews of the policy development work of the international Standard Setting Bodies to ensure their work is timely, coordinated, focused on priorities, and addressing gaps;
- set guidelines for, and support the establishment, functioning of, and participation in, supervisory colleges, including through ongoing identification of the most systemically important cross-border firms;
- support contingency planning for cross-border crisis management, particularly with respect to systemically important firms; and
- collaborate with the IMF to conduct Early Warning Exercises to identify and report to the IMFC and the G20 Finance Ministers and Central Bank Governors on the build up of macroeconomic and financial risks and the actions needed to address them.

Members of the FSB commit to pursue the maintenance of financial stability, enhance the openness and transparency of the financial sector, and implement international financial standards (including the 12 key International Standards and Codes), and agree to undergo periodic peer reviews, using among other evidence IMF / World Bank public Financial Sector Assessment Program reports. The FSB will elaborate and report on these commitments and the evaluation process.

We welcome the FSB's and IMF's commitment to intensify their collaboration, each complementing the other's role and mandate.

International cooperation

To strengthen international cooperation we have agreed:

- to establish the remaining supervisory colleges for significant cross-border firms by June 2009, building on the 28 already in place;
- to implement the FSF principles for cross-border crisis management immediately, and that home authorities of each major international financial institution should ensure that the group of authorities with a common interest in that financial institution meet at least annually;
- to support continued efforts by the IMF, FSB, World Bank, and BCBS to develop an international framework for cross-border bank resolution arrangements;
- the importance of further work and international cooperation on the subject of exit strategies;
- that the IMF and FSB should together launch an Early Warning Exercise at the 2009 Spring Meetings.

Prudential regulation

We have agreed to strengthen international frameworks for prudential regulation:

- until recovery is assured the international standard for the minimum level of capital should remained unchanged;
- where appropriate, capital buffers above the required minima should be allowed to decline to facilitate lending in deteriorating economic conditions;
- once recovery is assured, prudential regulatory standards should be strengthened. Buffers above regulatory minima should be increased and the quality of capital should be enhanced. Guidelines for harmonisation of the definition of capital should be produced by end 2009. The BCBS should review minimum levels of capital and develop recommendations in 2010;
- the FSB, BCBS, and CGFS, working with accounting standard setters, should take forward, with a deadline of end 2009, implementation of the recommendations published today to mitigate procyclicality, including a requirement for banks to build buffers of resources in good times that they can draw down when conditions deteriorate;
- risk-based capital requirements should be supplemented with a simple, transparent, non-risk based measure which is internationally comparable, properly takes into account off-balance sheet exposures, and can help contain the build-up of leverage in the banking system;
- the BCBS and authorities should take forward work on improving incentives for risk management of securitisation, including considering due diligence and quantitative retention requirements, by 2010;
- all G20 countries should progressively adopt the Basel II capital framework; and

- the BCBS and national authorities should develop and agree by 2010 a global framework for promoting stronger liquidity buffers at financial institutions, including cross-border institutions.

The scope of regulation

We have agreed that all systemically important financial institutions, markets, and instruments should be subject to an appropriate degree of regulation and oversight. In particular:

- we will amend our regulatory systems to ensure authorities are able to identify and take account of macro-prudential risks across the financial system including in the case of regulated banks, shadow banks, and private pools of capital to limit the build up of systemic risk. We call on the FSB to work with the BIS and international standard setters to develop macro-prudential tools and provide a report by autumn 2009;
- large and complex financial institutions require particularly careful oversight given their systemic importance;
- we will ensure that our national regulators possess the powers for gathering relevant information on all material financial institutions, markets, and instruments in order to assess the potential for their failure or severe stress to contribute to systemic risk. This will be done in close coordination at international level in order to achieve as much consistency as possible across jurisdictions;
- in order to prevent regulatory arbitrage, the IMF and the FSB will produce guidelines for national authorities to assess whether a financial institution, market, or an instrument is systemically important by the next meeting of our Finance Ministers and Central Bank Governors. These guidelines should focus on what institutions do rather than their legal form;
- hedge funds or their managers will be registered and will be required to disclose appropriate information on an ongoing basis to supervisors or regulators, including on their leverage, necessary for assessment of the systemic risks that they pose individually or collectively. Where appropriate, registration should be subject to a minimum size. They will be subject to oversight to ensure that they have adequate risk management. We ask the FSB to develop mechanisms for cooperation and information sharing between relevant authorities in order to ensure that effective oversight is maintained where a fund is located in a different jurisdiction from the manager. We will, cooperating through the FSB, develop measures that implement these principles by the end of 2009. We call on the FSB to report to the next meeting of our Finance Ministers and Central Bank Governors;
- supervisors should require that institutions which have hedge funds as their counterparties have effective risk management. This should include mechanisms to monitor the funds' leverage and set limits for single counterparty exposures;
- we will promote the standardisation and resilience of credit derivatives markets, in particular through the establishment of central clearing counterparties subject to effective regulation and supervision. We call on the industry to develop an action plan on standardisation by autumn 2009; and

- we will each review and adapt the boundaries of the regulatory framework regularly to keep pace with developments in the financial system and promote good practices and consistent approaches at the international level.

Compensation

We have endorsed the principles on pay and compensation in significant financial institutions developed by the FSF to ensure compensation structures are consistent with firms' long-term goals and prudent risk taking. We have agreed that our national supervisors should ensure significant progress in the implementation of these principles by the 2009 remuneration round. The BCBS should integrate these principles into their risk management guidance by autumn 2009. The principles, which have today been published, require:

- firms' boards of directors to play an active role in the design, operation, and evaluation of compensation schemes;
- compensation arrangements, including bonuses, to properly reflect risk and the timing and composition of payments to be sensitive to the time horizon of risks. Payments should not be finalised over short periods where risks are realised over long periods; and
- firms to publicly disclose clear, comprehensive, and timely information about compensation. Stakeholders, including shareholders, should be adequately informed on a timely basis on compensation policies to exercise effective monitoring.

Supervisors will assess firms' compensation policies as part of their overall assessment of their soundness. Where necessary they will intervene with responses that can include increased capital requirements.

Tax havens and non-cooperative jurisdictions

It is essential to protect public finances and international standards against the risks posed by non-cooperative jurisdictions. We call on all jurisdictions to adhere to the international standards in the prudential, tax, and AML/CFT areas. To this end, we call on the appropriate bodies to conduct and strengthen objective peer reviews, based on existing processes, including through the FSAP process.

We call on countries to adopt the international standard for information exchange endorsed by the G20 in 2004 and reflected in the UN Model Tax Convention. We note that the OECD has today published a list of countries assessed by the Global Forum against the international standard for exchange of information. We welcome the new commitments made by a number of jurisdictions and encourage them to proceed swiftly with implementation.

We stand ready to take agreed action against those jurisdictions which do not meet international standards in relation to tax transparency. To this end we have agreed to develop a toolbox of effective counter measures for countries to consider, such as:

- increased disclosure requirements on the part of taxpayers and financial institutions to report transactions involving non-cooperative jurisdictions;
- withholding taxes in respect of a wide variety of payments;
- denying deductions in respect of expense payments to payees resident in a non-cooperative jurisdiction;
- reviewing tax treaty policy;
- asking international institutions and regional development banks to review their investment policies; and,
- giving extra weight to the principles of tax transparency and information exchange when designing bilateral aid programs.

We also agreed that consideration should be given to further options relating to financial relations with these jurisdictions

We are committed to developing proposals, by end 2009, to make it easier for developing countries to secure the benefits of a new cooperative tax environment.

We are also committed to strengthened adherence to international prudential regulatory and supervisory standards. The IMF and the FSB in cooperation with international standard-setters will provide an assessment of implementation by relevant jurisdictions, building on existing FSAPs where they exist. We call on the FSB to develop a toolbox of measures to promote adherence to prudential standards and cooperation with jurisdictions.

We agreed that the FATF should revise and reinvigorate the review process for assessing compliance by jurisdictions with AML/CFT standards, using agreed evaluation reports where available.

We call upon the FSB and the FATF to report to the next G20 Finance Ministers and Central Bank Governors' meeting on adoption and implementation by countries.

Accounting standards

We have agreed that the accounting standard setters should improve standards for the valuation of financial instruments based on their liquidity and investors' holding horizons, while reaffirming the framework of fair value accounting.

We also welcome the FSF recommendations on procyclicality that address accounting issues. We have agreed that accounting standard setters should take action by the end of 2009 to:

- reduce the complexity of accounting standards for financial instruments;
- strengthen accounting recognition of loan-loss provisions by incorporating a broader range of credit information;
- improve accounting standards for provisioning, off-balance sheet exposures and valuation uncertainty;

- achieve clarity and consistency in the application of valuation standards internationally, working with supervisors;
- make significant progress towards a single set of high quality global accounting standards; and,
- within the framework of the independent accounting standard setting process, improve involvement of stakeholders, including prudential regulators and emerging markets, through the IASB's constitutional review.

Credit Rating Agencies

We have agreed on more effective oversight of the activities of Credit Rating Agencies, as they are essential market participants. In particular, we have agreed that:

- all Credit Rating Agencies whose ratings are used for regulatory purposes should be subject to a regulatory oversight regime that includes registration. The regulatory oversight regime should be established by end 2009 and should be consistent with the IOSCO Code of Conduct Fundamentals. IOSCO should coordinate full compliance;
- national authorities will enforce compliance and require changes to a rating agency's practices and procedures for managing conflicts of interest and assuring the transparency and quality of the rating process. In particular, Credit Rating Agencies should differentiate ratings for structured products and provide full disclosure of their ratings track record and the information and assumptions that underpin the ratings process. The oversight framework should be consistent across jurisdictions with appropriate sharing of information between national authorities, including through IOSCO; and,
- the Basel Committee should take forward its review on the role of external ratings in prudential regulation and determine whether there are any adverse incentives that need to be addressed.

Next Steps

We instruct our Finance Ministers to complete the implementation of these decisions and the attached action plan. We have asked the FSB and the IMF to monitor progress, working with the FATF and the Global Forum, and to provide a report to the next meeting of our Finance Ministers and Central Bank Governors.

G20 GERMANY 2017
HAMBURG

G20 Leaders´ Declaration

Shaping an interconnected world

Hamburg, 7/8 July 2017

Preamble:

We, the Leaders of the G20, met in Hamburg, Germany on 7-8 July 2017 to address major global economic challenges and to contribute to prosperity and well-being.

Mastering the challenges of our age and shaping an interconnected world is the common goal of the G20 as our premier forum for international economic cooperation. The G20 revealed its strength during the global economic and financial crisis some ten years ago when it played a crucial role in stabilising economies and financial markets. What was true then continues to hold: We can achieve more together than by acting alone.

Progressing our joint objective in the G20 – strong, sustainable, balanced and inclusive growth – remains our highest priority.

Globalisation and technological change have contributed significantly to driving economic growth and raising living standards across the globe. However, globalisation has created challenges and its benefits have not been shared widely enough. By bringing together developed and emerging market economies, the G20 is determined to shape globalisation to benefit all people. Most importantly, we need to better enable our people to seize its opportunities.

We are resolved to tackle common challenges to the global community, including terrorism, displacement, poverty, hunger and health threats, job creation, climate change, energy security, and inequality including gender inequality, as a basis for sustainable development and stability. We will continue to work together with others, including developing countries, to address these challenges, building on the rules-based international order.

Expanding on the results of previous presidencies, in particular the 2016 G20 Summit in Hangzhou, we decide today to take concrete actions to advance the three aims of building resilience, improving sustainability and assuming responsibility.

Sharing the Benefits of Globalisation

1. Prospering Global Economy: Current growth prospects are encouraging, though the pace of growth is still weaker than desirable. We reaffirm our commitment to international economic and financial cooperation to further strengthen growth and safeguard against downside risks. We will continue to use all policy tools – monetary, fiscal and structural – individually and collectively to achieve our goal of strong, sustainable, balanced and inclusive growth, while enhancing economic and financial resilience. Monetary policy will continue to support economic activity and ensure price stability, consistent with central banks' mandates. Fiscal policy will be used flexibly and be growth-friendly while ensuring debt as a share of GDP is on a sustainable path. We reinforce our commitment to structural reforms. We reaffirm our previous exchange rate commitments. We will strive to reduce excessive global imbalances in a way that supports global growth. We will promote greater inclusiveness, fairness and equality in our pursuit of economic growth and job creation. To these ends, we endorse the Hamburg Action Plan.

2. Trade and Investment: International trade and investment are important engines of growth, productivity, innovation, job creation and development. We will keep markets open noting the importance of reciprocal and mutually advantageous trade and investment frameworks and the principle of non-discrimination, and continue to fight protectionism including all unfair trade practices and recognise the role of legitimate trade defence instruments in this regard. We will strive to ensure a level playing field, in particular by promoting a favourable environment for trade and investment in this regard. We further reaffirm the importance of transparency for predictable and mutually beneficial trade relations. To this end, we value the monitoring activities by the WTO, UNCTAD and OECD within their existing mandates. We commit to further strengthen G20 trade and investment cooperation. We call on the OECD, WTO, World Bank Group and IMF to continue their work to better understand trade impacts and report back to G20 Leaders in 2018.

3. We recognise that the benefits of international trade and investment have not been shared widely enough. We need to better enable our people to seize the opportunities and benefits of economic globalisation. We agree to exchange experiences on the mitigation of the adjustment costs of trade and investment liberalisation and technological change, and on appropriate domestic policies, as well as to enhance international cooperation towards inclusive and sustainable global growth.

4. We underline the crucial role of the rules-based international trading system. We note the importance of bilateral, regional and plurilateral agreements being open, transparent, inclusive and WTO-consistent, and commit to working to ensure they complement the multilateral trade agreements. We welcome the entry into force of the WTO Trade Facilitation Agreement and call for its full implementation including technical assistance to developing countries. We commit to work together with all WTO members to make the eleventh WTO Ministerial Conference a success. To further improve the functioning of the WTO, we will cooperate to ensure the effective and timely enforcement of trade rules and commitments as well as improve its negotiating, monitoring and dispute settlement functions.

5. International investment can play an important role in promoting inclusive economic growth, job creation and sustainable development, and requires an open, transparent and conducive global policy environment. We will seek to identify strategies to facilitate and retain foreign direct investment.

6. Excess Capacities: Recognising the sustained negative impacts on domestic production, trade and workers due to excess capacity in industrial sectors, we commit to further strengthening our cooperation to find collective solutions to tackle this global challenge. We urgently call for the removal of market-distorting subsidies and other types of support by governments and related entities. Each of us commits to take the necessary actions to deliver the collective solutions that foster a truly level playing field. Therefore, we call on the members of the Global Forum on Steel Excess Capacity, facilitated by the OECD, as mandated by the Hangzhou Summit, to fulfil their commitments on enhancing information sharing and cooperation by August 2017, and to rapidly develop concrete policy solutions that reduce steel excess capacity. We look forward to a substantive report with concrete policy solutions by November 2017, as a basis for tangible and swift policy action, and follow-up progress reporting in 2018.

7. Sustainable Global Supply Chains: Global Supply Chains can be an important source of job creation and balanced economic growth. However challenges for achieving an inclusive, fair and sustainable globalisation remain. In order to achieve sustainable and inclusive supply chains, we commit to fostering the implementation of labour, social and environmental standards and human rights in line with internationally recognised frameworks, such as the UN Guiding Principles on Business and Human Rights and the ILO Tripartite Declaration of Principles concerning Multinational Enterprises and Social Policy. Those countries that adhere to the OECD Guidelines for Multinational Enterprises (OECD MNE Guidelines) commit to fostering them and welcome others to follow.

8. We will work towards establishing adequate policy frameworks in our countries such as national action plans on business and human rights and underline the responsibility of businesses to exercise due diligence. We will take immediate and effective measures to eliminate child labour by 2025, forced labour, human trafficking and all forms of modern slavery. We welcome the Vision Zero Fund for to prevent work-place related deaths and injuries and encourage enterprises and others to join.

9. We emphasise that fair and decent wages as well as social dialogue are other key components of sustainable and inclusive global supply chains. We support access to remedy and, where applicable, non-judicial grievance mechanisms, such as the National Contact Points for the OECD MNE Guidelines (NCPs). We will encourage multinational companies to conclude international framework agreements as appropriate. Recognising the ongoing work of the Global Partnership for Financial Inclusion (GPFI), we promote better access to financing, technology, and training facilities that help improve the capacity of micro, small and medium enterprises to integrate into sustainable and inclusive global supply chains.

10. Harnessing Digitalisation: Digital transformation is a driving force of global, innovative, inclusive and sustainable growth and can contribute to reducing inequality and achieving the goals of the 2030 Agenda for Sustainable Development. To this end, we need to bridge digital divides along multiple dimensions, including income, age, geography and gender. We will strive to ensure that all our citizens are digitally connected by 2025 and especially welcome infrastructure development in low-income countries in that regard. We will promote digital literacy and digital skills in all forms of education and life-long learning. We recognise that information and communication technology (ICT) plays a crucial role in modernizing and increasing efficiency in public administration. We recognise the important role that SMEs and start-ups play in the development of a full range of new and innovative business models and will promote better access to financial resources and services and a more entrepreneurial friendly environment.

11. We aim to foster favourable conditions for the development of the digital economy and recognise the need to ensure effective competition to foster investment and innovation. We will continue to promote effective cooperation of all stakeholders and encourage the development and use of market- and industry-led international standards for digitised production, products and services that are based on the principles of openness, transparency and consensus and standards should not act as barriers to trade, competition or innovation. They can promote interoperability and security in the use of ICT.

12. Trust in digital technologies requires effective consumer protection, intellectual property rights, transparency, and security in the use of ICT. We support the free flow of information while respecting applicable legal frameworks for privacy, data protection and intellectual property rights. The G20 Roadmap for Digitalisation will help us guide our future work.

13. We are committed to help ensure a secure ICT environment in which all sectors are able to enjoy its benefits and reaffirm the importance of collectively addressing issues of security in the use of ICTs.

14. We will constructively engage in WTO discussions relating to E-commerce and in other international fora with responsibilities related to various aspects of digital trade to foster digital economy development and trade. We will sustain and improve, as appropriate, predictable and transparent frameworks on digital trade. Intensified and concerted action is needed to enhance the ability of developing and least developed countries to more fully engage in digital trade.

15. Boosting Employment: Well-functioning labour markets contribute to inclusive and cohesive societies and resilient economies. Digitalisation offers the opportunity for creating new and better jobs, while at the same time raising challenges regarding skills, social protection and job quality. We therefore recognise the need to educate and train people with the necessary skills for the future of work, the importance of opportunities to re- and upskill throughout their working lives, and assist them to successfully adapt to change, in accordance with each member´s domestic social framework.

16. Acknowledging the increasing diversity of employment, we will assess its impact on social protection and working conditions and continue to monitor global trends, including the impact of new technologies, demographic transition, globalisation and changing working relationships on labour markets. We will promote decent work opportunities during the transition of the labour market. We look forward to a continuous exchange on national experiences and practices.

17. We recognise the important role of vocational education and training, including quality apprenticeship in integrating young people into the labour market. In this regard, we acknowledge that it is particularly effective when it provides coordinated high quality school- and work-based learning and when it is built on cooperation among governments, business communities and social partners.

Building Resilience

18. Resilient Global Financial System: An open and resilient financial system, grounded in agreed international standards, is crucial to supporting sustainable growth. We remain committed to the finalisation and timely, full and consistent implementation of the agreed G20 financial sector reform agenda. We will work to finalise the Basel III framework without further significantly increasing overall capital requirements across the banking sector, while promoting a level playing field. We will continue to closely monitor and, if necessary, address emerging risks and vulnerabilities in the financial system. We emphasise the considerable progress made towards transforming shadow banking into resilient market based finance since the financial crisis and welcome the FSB assessment of the monitoring and policy tools available to address risks from shadow banking. We support the FSB's work to analyse the effects of financial regulatory reforms and the structured framework for post-implementation evaluation. Acknowledging that malicious use of ICT could endanger financial stability, we welcome the progress of the FSB's work and look forward to a stock-take report in October 2017.

19. International Financial Architecture: We need strong, effective and representative global economic and financial institutions to underpin growth and sustainable development. As laid out in the Hamburg Action Plan, we will continue to improve the system underpinning international capital flows and emphasise the need to promote sound and sustainable financing practices. We will enhance the international financial architecture and the global financial safety net with a strong, quota-based and adequately resourced IMF at its centre. We look forward to the completion of the 15th General Review of IMF Quotas, including a new quota formula, by the Spring Meetings 2019 and no later than the Annual Meetings 2019, and support ongoing work to further enhance the effectiveness of its lending toolkit. We endorse the MDBs' Joint Principles and Ambitions on Crowding-In Private Finance ("Hamburg Principles and Ambitions") and welcome their work on optimising balance sheets and boosting investment in infrastructure and connectivity.

20. International Tax Cooperation and Financial Transparency: We will continue our work for a globally fair and modern international tax system and welcome international cooperation on pro-growth tax policies. We remain committed to the implementation of the Base Erosion and Profit Shifting (BEPS) package and encourage all relevant jurisdictions to join the Inclusive Framework. We look forward to the first automatic exchange of financial account information under the Common Reporting Standard (CRS) in September 2017. We call on all relevant jurisdictions to begin exchanges by

September 2018 at the latest. We commend the recent progress made by jurisdictions to meet a satisfactory level of implementation of the agreed international standards on tax transparency and look forward to an updated list by the OECD by our next Summit reflecting further progress made towards implementation. Defensive measures will be considered against listed jurisdictions. We continue to support assistance to developing countries in building their tax capacity. We are also working on enhancing tax certainty and with the OECD on the tax challenges raised by digitalisation of the economy. As an important tool in our fight against corruption, tax evasion, terrorist financing and money laundering, we will advance the effective implementation of the international standards on transparency and beneficial ownership of legal persons and legal arrangements, including the availability of information in the domestic and cross-border context.

21. Safeguarding against Health Crises and Strengthening Health Systems: The G20 has a crucial role in advancing preparedness and responsiveness against global health challenges. With reference to the results of the G20 health emergency simulation exercise, we emphasise the value of our ongoing, trust-building, cross-sectoral cooperation. We recall universal health coverage is a goal adopted in the 2030 Agenda and recognize that strong health systems are important to effectively address health crises. We call on the UN to keep global health high on the political agenda and we strive for cooperative action to strengthen health systems worldwide, including through developing the health workforce. We recognise that implementation of and compliance with the International Health Regulations (IHR 2005) is critical for efficient prevention, preparedness and response efforts. We strive to fully eradicate polio. We also acknowledge that mass movement of people can pose significant health challenges and encourage countries and International Organisations to strengthen cooperation on the topic. We support the WHO´s central coordinating role, especially for capacity building and response to health emergencies, and we encourage full implementation of its emergency reform. We advocate for sufficient and sustainable funding to strengthen global health capacities, including for rapid financing mechanisms and the WHO’s Health Emergencies Programme. Furthermore, we see a need to foster R&D preparedness through globally coordinated models as guided by the WHO R&D Blueprint, such as the Coalition for Epidemic Preparedness Innovations (CEPI).

22. Combatting Antimicrobial Resistance (AMR): AMR represents a growing threat to public health and economic growth. To tackle the spread of AMR in humans, animals and the environment, we aim to have implementation of our National Action Plans, based on a One-Health approach, well under way by the end of 2018. We will promote the prudent use of antibiotics[1] in all sectors and strive to restrict their use in veterinary medicine to therapeutic uses alone. Responsible and prudent use of antibiotics in food producing animals does not include the use for growth promotion in the absence of risk analysis. We underline that treatments should be available through prescription or the veterinary equivalent only. We will strengthen public awareness, infection prevention and control and improve the understanding of the issue of antimicrobials in the environment. We will promote access to affordable and quality antimicrobials, vaccines and diagnostics, including through efforts to preserve existing therapeutic options. We highlight the importance of fostering R&D, in particular for priority pathogens as identified by the WHO and tuberculosis. We call for a new international R&D Collaboration Hub to maximise the impact of existing and new anti-microbial basic and clinical research initiatives as well as product development. We invite all interested countries and partners to join this new initiative. Concurrently, in collaboration with relevant experts including from the OECD and the WHO, we will further examine practical market incentive options.

Improving Sustainable Livelihoods

23. Energy and Climate: A strong economy and a healthy planet are mutually reinforcing. We recognise the opportunities for innovation, sustainable growth, competitiveness, and job creation of increased investment into sustainable energy sources and clean energy technologies and infrastructure. We remain collectively committed to mitigate greenhouse gas emissions through, among others, increased innovation on sustainable and clean energies and energy efficiency, and work towards low greenhouse-gas emission energy systems. In facilitating well-balanced and economically viable long-term strategies in order to transform and enhance our economies and energy systems consistent with the 2030 Agenda for Sustainable Development, G20 members will collaborate closely. Recalling the G20 Principles on Energy Collaboration, we regard energy security as one of the guiding principles for the transformation of our energy systems, and we will continue to work on open, flexible, and transparent markets for energy commodities and technologies. We welcome international cooperation on the development, deployment, and commercialisation of sustainable and clean energy technologies and support financing by Multilateral Development Banks to promote universal access to affordable, reliable, sustainable and clean energy.

[1] Noting differences in the G20 country definitions of the term "antibiotics" and referring here to those antibiotics with an impact on human health, including those antimicrobials that are critically important for human medicine as defined by the WHO.

24. We take note of the decision of the United States of America to withdraw from the Paris Agreement. The United States of America announced it will immediately cease the implementation of its current nationally-determined contribution and affirms its strong commitment to an approach that lowers emissions while supporting economic growth and improving energy security needs. The United States of America states it will endeavour to work closely with other countries to help them access and use fossil fuels more cleanly and efficiently and help deploy renewable and other clean energy sources, given the importance of energy access and security in their nationally-determined contributions.

25. The Leaders of the other G20 members state that the Paris Agreement is irreversible. We reiterate the importance of fulfilling the UNFCCC commitment by developed countries in providing means of implementation including financial resources to assist developing countries with respect to both mitigation and adaptation actions in line with Paris outcomes and note the OECD's report "Investing in Climate, Investing in Growth". We reaffirm our strong commitment to the Paris Agreement, moving swiftly towards its full implementation in accordance with the principle of common but differentiated responsibilities and respective capabilities, in the light of different national circumstances and, to this end, we agree to the G20 Hamburg Climate and Energy Action Plan for Growth as set out in the Annex.

26. Leading the Way towards Sustainable Development: The adoption of the 2030 Agenda represented a milestone towards global sustainable development. We call on countries to work with stakeholders to strive towards its ambitious and integrated implementation and timely realisation in accordance with national circumstances. We commit to further align our actions with the 2030 Agenda for Sustainable Development and its integral part, the Addis Ababa Action Agenda on Financing for Development, domestically and internationally, including in support of developing countries and the provision of public goods.

27. Building on the G20's Action Plan on the 2030 Agenda for Sustainable Development, the Hamburg Update emphasises our collective and concrete commitments. We support the central role of the high-level political forum on sustainable development and other key UN processes towards achieving the Sustainable Development Goals. We will also engage in voluntary peer learning on the implementation of the 2030 Agenda and call upon others to join this important exercise as a complementary action towards Voluntary National Reviews.

28. The Annual Progress Report documents for the first time progress on selected prior G20 commitments on the implementation of the 2030 Agenda. Recognising the importance of financial inclusion as a multiplier for poverty eradication, job creation, gender equality, and women's empowerment, we support the ongoing work of the Global Partnership for Financial Inclusion and welcome the 2017 G20 Financial Inclusion Action Plan. We note the UN Secretary-General´s proposal to establish an International Finance Facility for education taking into account other existing initiatives, such as the Global Partnership for Education and Education Cannot Wait, and look forward to examining it in further detail under Argentina's Presidency with a view to making recommendations on it.

29. Women's Empowerment: Enhanced equal access to the labour market, property, quality employment and financial services for women and men are fundamental for achieving gender equality and full realisation of their rights as well as a prerequisite for sustainable and inclusive growth. We are making progress in achieving our 2014 Brisbane commitment to reduce the gender gap in labour force participation by 25 percent by 2025 but agree that more needs to be done. We also commit to take further action to improve the quality of female employment and eliminate employment discrimination, and reduce gender compensation gaps and provide women with protection from all forms of violence. We will improve women´s access to labour markets through provision of quality education and training, supporting infrastructure, public services and social protection policies and legal reforms, where appropriate.

30. Digitalisation and access to ICT serve as powerful catalysts for the economic empowerment and inclusion of women and girls. Access to STEM (Science, Technology, Engineering and Mathematics) related trainings and occupations is therefore key to establish an enabling environment for women's empowerment. We welcome the launch of the #eSkills4Girls initiative to promote opportunities and equal participation for women and girls in the digital economy, in particular in low income and developing countries (see Annex).

31. In order to scale up support for women´s entrepreneurship, we welcome the launch of the Women Entrepreneurs Financing Initiative (We-Fi), housed at the World Bank Group (see Annex). The We-Fi will support ongoing G20 efforts to reduce barriers to financial inclusion and increase women´s access to capital, markets and technical assistance as well as contribute to achieving the goals of the G20 Africa Partnership and the G20 Entrepreneurship Action Plan. We will also establish a Business Women Leaders' Taskforce, which will, in close cooperation with the W20 and B20, bring together business women from G20 countries to examine ways to increase women´s

participation in the economy and will make recommendations at next year's summit on the implementation of G20 commitments regarding the economic empowerment of women.

32. Towards Food Security, Water Sustainability and Rural Youth Employment: Water is an essential and precious resource. In order to achieve food security, we are committed to increase agricultural productivity and resilience in a sustainable manner, while aiming to protect, manage and use efficiently water and water-related ecosystems. In order to harness the potential of ICT, we stress the need for strengthened cooperation on ICT in agriculture and underline the importance of access to high-speed digital services for farmers and of adequately serving rural areas. To enhance transparency in global food markets, we call for a strengthening of the Agricultural Market Information System (AMIS) and an active engagement of its entire membership. We underline that making markets function better can contribute to reducing food price volatility and enhance food security. It is vital for farmers to be profitable and, along with consumers, have access to national, regional and international markets.

33. We launch the G20 Initiative for Rural Youth Employment in developing countries with a focus on Africa. This Initiative will, in alignment with developing countries' strategies, contribute to creating 1.1 million new jobs by 2022 and to providing innovative skills development programmes for at least 5 million young people over the next five years. Recognising the famine in some areas of South Sudan and risk of famine in Somalia, Yemen and North-Eastern Nigeria, we are more than ever committed to act with the required urgency, supporting UN agencies and other humanitarian and development organisations in a coordinated and comprehensive response to save lives and support conditions for sustainable development. We recognise the contributions made by different G20 members in line with the UN appeal for humanitarian assistance which represents over two thirds of the funding received for immediate requirements. We will further strengthen our humanitarian engagement and reaffirm our commitment to addressing the underlying causes of recurrent and protracted crises.

34. Resource Efficiency and Marine Litter: We launch two initiatives to contribute to the implementation of the 2030 Agenda and to reflect our commitment to sustainable development, as outlined in the Annexes. The G20 Resource Efficiency Dialogue will exchange good practices and national experiences to improve the efficiency and sustainability of natural resource use across the entire life cycle, and to promote sustainable consumption and production patterns. The G20 Marine Litter Action Plan seeks to prevent and reduce marine litter, including by considering its socio-economic aspects.

Assuming Responsibility

35. Africa Partnership: We launch the G20 Africa Partnership in recognition of the opportunities and challenges in African countries as well as the goals of the 2030 Agenda. Our joint efforts will foster sustainable and inclusive economic growth and development, in response to the needs and aspirations of African countries, contributing to create decent employment particularly for women and youth, thus helping to address poverty and inequality as root causes of migration. The Partnership includes related initiatives, such as #eSkills4Girls, Rural Youth Employment, African Renewable Energy and facilitates investment Compacts, as outlined in the Annex.

36. We welcome the outcomes of the G20 Africa Partnership Conference in Berlin, which highlighted the need for joint measures to enhance sustainable infrastructure, improve investment frameworks as well as support education and capacity building. Individual priorities for "Investment Compacts" were put forward by Côte d'Ivoire, Ethiopia, Ghana, Morocco, Rwanda, Senegal and Tunisia. Led by the respective African countries, the African Development Bank, IMF and WBG as well as the G20 and other partners, these Compacts aim to mobilise private investment as well as promote efficient use of public funding.

37. We are ready to help interested African countries and call on other partners to join the initiative. We support the goals of the Partnership through complementary initiatives as well as encourage the private sector to seize African economic opportunities in supporting sustainable growth and employment creation.

38. Based on equal partnership, we strongly welcome African ownership and commit to align our joint measures with regional strategies and priorities, in particular the African Union's Agenda 2063 and its Programme for Infrastructure Development in Africa (PIDA). The African Union and its specialised agency, the New Partnership for Africa's Development (NEPAD), are important partners in its implementation and monitoring.

39. Stepping up Coordination and Cooperation on Displacement and Migration: The world is experiencing historic levels of migration and forced displacement. While migration is influenced by many political, social and economic developments, the main drivers of forced displacement include conflicts, natural disasters as well as human rights violations and abuses. Migration and forced displacement trends are of major relevance for countries of origin, transit and destination. The social and economic benefits and opportunities of safe, orderly and regular migration can be substantial. Forced displacement and irregular migration in large movements, on the other hand, often present complex challenges.

40. We support those countries that choose to develop pathways for migration, underline the importance of nationally determined integration and endorse the G20 Policy Practices for the Fair and Effective Labour Market Integration of Regular Migrants and Recognised Refugees. We emphasise the sovereign right of states to manage and control their borders and in this regard to establish policies in their own national interests and national security, as well as the importance that repatriation and reintegration of migrants who are not eligible to remain be safe and humane. We commit to countering migrant smuggling and trafficking in human beings and we are determined to take action against people smugglers and traffickers.

41. We seek to address the root causes of displacement. We call for concerted global efforts and coordinated and shared actions, in particular with respect to countries and communities that are under high social, political and financial pressure, and for combining both an emergency approach and a long-term one. To this end, we acknowledge the importance of establishing partnerships with countries of origin and transit. We will promote sustainable economic development in those countries.

42. We commit to addressing the distinct needs of refugees and migrants, in particular close to their region of origin and, when applicable, to enable them to return home safely. At the same time, we place special emphasis on vulnerable groups, including women at risk and children, particularly those unaccompanied, and to protecting the human rights of all persons regardless of their status.

43. We call for improving the governance of migration and providing comprehensive responses to displacement and recognise the need to develop tools and institutional structures accordingly. Therefore, we look forward to the outcome of the UN process towards Global Compacts on Refugees and for Safe, Orderly and Regular Migration, both envisaged to be adopted in 2018. We emphasise the need for monitoring global displacement and migration, as well as its economic consequences. To this end, we ask the OECD, in cooperation with ILO, IOM and UNHCR, to update us annually on trends and policy challenges.

44. Fighting Corruption: We remain committed to fighting corruption, including through practical international cooperation and technical assistance, and will continue to fully implement the G20 Anti-Corruption Action Plan 2017-18. We endorse four sets of High Level Principles aimed at fostering integrity in the public and private sector. By endorsing the High Level Principles on the Liability of Legal Persons, we commit to ensuring that not only individual perpetrators but also companies benefitting from corruption can be held liable. We commit to organising our public administrations to be more resilient against corruption. We will intensify our fight against corruption related to illegal trade in wildlife and wildlife products. Wildlife trafficking is a threat to the planet's biodiversity, economic development, and, among others, health and security, and is facilitated by high levels of corruption, which the G20 cannot tolerate. We also endorse the High Level Principles on Countering Corruption in Customs and publish a guide on requesting international cooperation in civil and administrative proceedings. We will continue our work to address integrity in sports and urge international sports organisations to intensify their fight against corruption by achieving the highest global integrity and anti-corruption standards. In this respect, we strive for a common understanding regarding corruption risks in bids to host major sport events. We are also committed to fighting corruption in contracts, including in the natural resources sector. We call for ratification and implementation by all G20 members of the UN Convention against Corruption and for a strong involvement in its review process.

45. We thank Germany for hosting a successful Hamburg Summit and its contribution to the G20 process, and look forward to meeting again in Argentina in 2018, in Japan in 2019 and in Saudi Arabia in 2020.

THE G20 SEOUL SUMMIT
LEADERS' DECLARATION
NOVEMBER 11 – 12, 2010

1. We, the Leaders of the G20, are united in our conviction that by working together we can secure a more prosperous future for the citizens of all countries.

2. When we first gathered in November 2008 to address the most severe world recession our generation has ever confronted, we pledged to support and stabilize the global economy, and at the same time, to lay the foundation for reform, to ensure the world would never face such upheaval again.

3. Over the past four Summits, we have worked with unprecedented cooperation to break the dramatic fall in the global economy to establish the basis for recovery and renewed growth.

4. The concrete steps we have taken will help ensure we are better prepared to prevent and, if necessary, to withstand future crises. We pledge to continue our coordinated efforts and act together to generate strong, sustainable and balanced growth.

5. We recognize the importance of addressing the concerns of the most vulnerable. To this end, we are determined to put jobs at the heart of the recovery, to provide social protection, decent work and also to ensure accelerated growth in low income countries (LICs).

6. Our relentless and cooperative efforts over the last two years have delivered strong results. However, we must stay vigilant.

7. Risks remain. Some of us are experiencing strong growth, while others face high levels of unemployment and sluggish recovery. Uneven growth and widening imbalances are fueling the temptation to diverge from global solutions into uncoordinated actions. However, uncoordinated policy actions will only lead to worse outcomes for all.

8. Since 2008, a common view of the challenges of the world economy, the necessary responses and our determination to resist protectionism has enabled us to both address the root causes of the crisis and safeguard the recovery. We are agreed today to develop our common view to meet these new challenges and a path to strong, sustainable and balanced growth beyond the crisis.

9. Today, the Seoul Summit delivers:

   - the Seoul Action Plan composed of comprehensive, cooperative and country-specific policy actions to move closer to our shared objective. The Plan includes our commitment to:

     - undertake macroeconomic policies, including fiscal consolidation where necessary, to ensure ongoing recovery and sustainable growth and enhance the stability of financial markets, in particular moving toward more market-determined exchange rate systems, enhancing exchange rate flexibility to reflect underlying economic fundamentals, and refraining from competitive devaluation of currencies. Advanced economies, including those with reserve currencies, will be vigilant against excess volatility and disorderly movements in exchange rates. These actions will help mitigate the risk of excessive volatility in capital flows facing some emerging countries;

- implement a range of structural reforms that boost and sustain global demand, foster job creation, and increase the potential for growth; and

- enhance the Mutual Assessment Process (MAP) to promote external sustainability. We will strengthen multilateral cooperation to promote external sustainability and pursue the full range of policies conducive to reducing excessive imbalances and maintaining current account imbalances at sustainable levels. Persistently large imbalances, assessed against indicative guidelines to be agreed by our Finance Ministers and Central Bank Governors, warrant an assessment of their nature and the root causes of impediments to adjustment as part of the MAP, recognizing the need to take into account national or regional circumstances, including large commodity producers. These indicative guidelines composed of a range of indicators would serve as a mechanism to facilitate timely identification of large imbalances that require preventive and corrective actions to be taken. To support our efforts toward meeting these commitments, we call on our Framework Working Group, with technical support from the IMF and other international organizations, to develop these indicative guidelines, with progress to be discussed by our Finance Ministers and Central Bank Governors in the first half of 2011; and, in Gyeongju, our Finance Ministers and Central Bank Governors called on the IMF to provide an assessment as part of the MAP on the progress toward external sustainability and the consistency of fiscal, monetary, financial sector, structural, exchange rate and other policies. In light of this, the first such assessment, to be based on the above mentioned indicative guidelines, will be initiated and undertaken in due course under the French Presidency.

- a modernized IMF that better reflects the changes in the world economy through greater representation of dynamic emerging markets and developing countries. These comprehensive quota and governance reforms, as outlined in the Seoul Summit Document, will enhance the IMF's legitimacy, credibility and effectiveness, making it an even stronger institution for promoting global financial stability and growth.

- instruments to strengthen global financial safety nets, which help countries cope with financial volatility by providing them with practical tools to overcome sudden reversals of international capital flows.

- core elements of a new financial regulatory framework, including bank capital and liquidity standards, as well as measures to better regulate and effectively resolve systemically important financial institutions, complemented by more effective oversight and supervision. This new framework, complemented by other achievements as outlined in the Seoul Summit Document, will ensure a more resilient financial system by reining in the past excesses of the financial sector and better serving the needs of our economies.

- the Seoul Development Consensus for Shared Growth that sets out our commitment to work in partnership with other developing countries, and LICs in particular, to help them build the capacity to achieve and maximize their growth potential, thereby contributing to global rebalancing. The Seoul Consensus complements our commitment to achieve the Millennium Development Goals (MDGs) and focuses on concrete measures as summarized in our Multi-Year Action Plan on Development to make a tangible and significant difference in people's lives, including in particular through the development of infrastructure in developing countries.

- the Financial Inclusion Action Plan, the Global Partnership for Financial Inclusion and a flexible SME Finance Framework, all of which will significantly contribute to improving access to financial services and expanding opportunities for poor households and small and medium enterprises.

- our strong commitment to direct our negotiators to engage in across-the-board negotiations to promptly bring the Doha Development Round to a successful, ambitious, comprehensive, and balanced conclusion consistent with the mandate of the Doha Development Round and built on the progress already achieved. We recognize that 2011 is a critical window of opportunity, albeit narrow, and that engagement among our representatives must intensify and expand. We now need to complete the end game. Once such an outcome is reached, we commit to seek ratification, where necessary, in our respective systems. We are also committed to resisting all forms of protectionist measures.

10. We will continue to monitor and assess ongoing implementation of the commitments made today and in the past in a transparent and objective way. We hold ourselves accountable. What we promise, we will deliver.

11. Building on our achievements to date, we have agreed to work further on macro-prudential policy frameworks; better reflect the perspective of emerging market economies in financial regulatory reforms; strengthen regulation and oversight of shadow banking; further work on regulation and supervision of commodity derivatives markets; improve market integrity and efficiency; enhance consumer protection; pursue all outstanding governance reform issues at the IMF and World Bank; and build a more stable and resilient international monetary system, including by further strengthening global financial safety nets. We will also expand our MAP based on the indicative guidelines to be agreed.

12. To promote resilience, job creation and mitigate risks for development, we will prioritize action under the Seoul Consensus on addressing critical bottlenecks, including infrastructure deficits, food market volatility, and exclusion from financial services.

13. To provide broader, forward-looking leadership in the post-crisis economy, we will also continue our work to prevent and tackle corruption through our Anti-Corruption Action Plan; rationalize and phase-out over the medium term inefficient fossil fuel subsidies; mitigate excessive fossil fuel price volatility; safeguard the global marine environment; and combat the challenges of global climate change.

14. We reaffirm our resolute commitment to fight climate change, as reflected in the Leaders' Seoul Summit Document. We appreciate President Felipe Calderón's briefing on the status of the UN Framework Convention on Climate Change negotiations, as well as

Prime Minister Meles Zenawi's briefing on the report of the High-Level Advisory Group on Climate Change Financing submitted to the UN Secretary-General. We will spare no effort to reach a balanced and successful outcome in Cancun.

15. We welcome the Fourth UN LDC Summit in Turkey and the Fourth High-Level Forum on Aid Effectiveness in Korea, both to be held in 2011.

16. Recognizing the importance of private sector-led growth and job creation, we welcome the Seoul G20 Business Summit and look forward to continuing the G20 Business Summit in upcoming Summits.

17. The actions agreed today will help to further strengthen the global economy, accelerate job creation, ensure more stable financial markets, narrow the development gap and promote broadly shared growth beyond crisis.

18. We look forward to our next meeting in 2011 in France, and subsequent meeting in 2012 in Mexico.

19. We thank Korea for its G20 Presidency and for hosting the successful Seoul Summit.

20. The **Seoul Summit Document**, which we have agreed, follows.

G20 Leaders Declaration

1. We, the Leaders of the G20, convened in Los Cabos on 18-19 June 2012.
2. We are united in our resolve to promote growth and jobs.
3. Since we last met, the global recovery has continued to face a number of challenges. Financial market tensions are high. External, fiscal and financial imbalances are still prevalent, having a major impact on growth and employment prospects and confidence. Clearly, the global economy remains vulnerable, with a negative impact on the everyday lives of people all over the world, affecting jobs, trade, development, and the environment.
4. We will act together to strengthen recovery and address financial market tensions.
5. We will work collectively to strengthen demand and restore confidence with a view to support growth and foster financial stability in order to create high quality jobs and opportunities for all of our citizens. We have agreed today on a coordinated Los Cabos Growth and Jobs Action Plan to achieve those goals.
6. Euro Area members of the G20 will take all necessary policy measures to safeguard the integrity and stability of the area, improve the functioning of financial markets and break the feedback loop between sovereigns and banks. We look forward to the Euro Area working in partnership with the next Greek government to ensure they remain on the path to reform and sustainability within the Euro Area.
7. We are implementing our structural and regulatory reform agenda to enhance medium-term growth prospects and build more resilient financial systems. We remain committed to reduce imbalances by strengthening deficit countries' public finances with sound and sustainable policies that take into account evolving economic conditions and, in countries with large current account surpluses, by strengthening domestic demand and moving toward greater exchange rate flexibility.
8. Despite the challenges we all face domestically, we have agreed that multilateralism is of even greater importance in the current climate, and remains our best asset to resolve the global economy's difficulties.
9. Recognizing the impact of the continuing crisis on developing countries, particularly low income countries, we will intensify our efforts to create a more conducive environment for development, including supporting infrastructure investment. Our policy actions will improve living conditions across the globe and protect the most vulnerable. In particular, by stabilizing global markets and promoting stronger growth, we will generate significant positive effects on development and poverty reduction across the globe.

Supporting economic stabilization and the global recovery

10. Strong, sustainable and balanced growth remains the top priority of the G20, as it leads to higher job creation and increases the welfare of people across the world. We are committed to adopting all necessary policy measures to strengthen demand, support global growth and restore confidence, address short and medium-term risks, enhance job creation and reduce unemployment, as reflected in the Los Cabos Growth and Jobs Action Plan (see Annex). We will implement all our commitments in a timely manner and rigorously monitor their implementation.

11. Against the background of renewed market tensions, Euro Area members of the G20 will take all necessary measures to safeguard the integrity and stability of the area, improve the functioning of financial markets and break the feedback loop between sovereigns and banks. We welcome the significant actions taken since the last summit by the Euro Area to support growth, ensure financial stability and promote fiscal responsibility as a contribution to the G20 framework for strong, sustainable and balanced growth. In this context, we welcome Spain's plan to recapitalize its banking system and the Eurogroup's announcement of support for Spain's financial restructuring authority. The adoption of the Fiscal Compact and its ongoing implementation, together with growth-enhancing policies and structural reform and financial stability measures, are important steps towards greater fiscal and economic integration that lead to sustainable borrowing costs. The imminent establishment of the European Stability Mechanism is a substantial strengthening of the European firewalls. We fully support the actions of the Euro Area in moving forward with the completion of the Economic and Monetary Union. Towards that end, we support the intention to consider concrete steps towards a more integrated financial architecture, encompassing banking supervision, resolution and recapitalization, and deposit insurance. Euro Area members will foster intra Euro Area adjustment through structural reforms to strengthen competitiveness in deficit countries and to promote demand and growth in surplus countries. The European Union members of the G20 are determined to move forward expeditiously on measures to support growth including through completing the European Single Market and making better use of European financial means, such as the European Investment Bank (EIB), pilot project bonds, and structural and cohesion funds, for more targeted investment, employment, growth and competitiveness, while maintaining the firm commitment to implement fiscal consolidation to be assessed on a structural basis. We look forward to the Euro Area working in partnership with the next Greek government to ensure they remain on the path to reform and sustainability within the Euro Area.

12. All G20 members will take the necessary actions to strengthen global growth and restore confidence. Advanced economies will ensure that the pace of fiscal consolidation is appropriate to support the recovery, taking country-specific circumstances into account and, in line with the Toronto commitments, address concerns about medium term fiscal sustainability. Those advanced and emerging economies which have fiscal space will let the automatic fiscal stabilizers to operate taking into account national circumstances and current demand conditions. Should economic conditions deteriorate significantly further, those countries with sufficient fiscal space stand ready to coordinate and implement discretionary fiscal actions to support domestic demand, as appropriate. In many countries, higher investment in education, innovation and infrastructure can support the creation of jobs now while raising productivity and future growth prospects. Recognizing the need to pursue growth-oriented policies that support demand and recovery, the United States will calibrate the pace of its fiscal consolidation by ensuring that its public finances are placed on a sustainable long-run path so that a sharp fiscal contraction in 2013 is avoided.

13. Monetary policy will maintain price stability over the medium term while continuing to support the economic recovery. We will strengthen confidence in our banks, maintaining momentum on the financial sector reforms needed to safeguard our financial systems over the medium term while taking appropriate actions to protect credit channels and the integrity of the global payment and settlement systems. Healthy banks, with an ability to lend, are critical to the global recovery.

14. G20 members will remain vigilant of the evolution of oil prices and will stand ready to carry out additional actions as needed, including the commitment by producing countries to continue to

ensure an appropriate level of supply consistent with demand. We welcome Saudi Arabia's readiness to mobilize, as necessary, existing spare capacity to ensure adequate supply. We will also remain vigilant of other commodity prices.

15. A number of emerging markets are now also experiencing a slowdown in growth. In response, these countries are appropriately directing monetary and fiscal policies to support growth while ensuring stability and, in some cases, introducing new measures to boost their economies, in particular through strengthening domestic demand in a context of weaker external demand.

16. We welcome progress by countries with large current account surpluses to increase domestic demand and actions by countries with large current account deficits to increase national savings. Emerging surplus economies will carry out further actions to increase domestic consumption, including by removing price and tax distortions and strengthening social safety nets, while advanced surplus economies or those with relatively weak private demand will promote domestic demand, notably through the liberalization of service sectors and the promotion of investment, including through the removal of inefficiencies. Higher national savings in countries with current account deficits will contribute to a lasting reduction in global imbalances. We recognize the special circumstances of large commodity exporters with regard to current account surpluses. We reaffirm our commitment to move more rapidly toward market-determined exchange rate systems and exchange rate flexibility to reflect underlying fundamentals, avoid persistent exchange rate misalignments, and refrain from competitive devaluation of currencies. We also welcome the commitment by China to allow market forces to play a larger role in determining movements in the Remnimbi (RMB), continue to reform its exchange rate regime, and to increase the transparency of its exchange rate policy.

17. All G20 members have put forward structural reform commitments to strengthen and sustain global demand, foster job creation, contribute to global rebalancing and increase growth potential. These include product market reforms to increase competition, measures to stabilize the housing sector, labor market reforms to boost competitiveness and employment, as well as steps to strengthen social safety nets in a way that is fiscally responsible, advance tax reform to raise productivity, increase investment in infrastructure, and promote inclusive green growth and sustainable development as appropriate to country circumstances. We ask Finance Ministers and Central Bank Governors to consider ways in which the G20 can foster investment in infrastructure and ensure the availability of sufficient funding for infrastructure projects, including Multilateral Development Banks' (MDBs) financing and technical support.

18. In all policy areas, we commit to minimize the negative spillovers on other countries of policies implemented for domestic purposes. We reaffirm our shared interest in a strong and stable international financial system. While capital flows can be beneficial to recipient economies, we reiterate that excess volatility of financial flows and disorderly movements in exchange rates have adverse implications for economic and financial stability.

19. Recognizing the importance of transparency and accountability in reinforcing credibility and confidence, we have agreed on the Los Cabos Accountability Assessment Framework that accompanies the Growth and Jobs Action Plan. This Framework establishes the procedures we will follow to report on progress in implementing our policy commitments. We welcome the first Accountability Report under this new framework. We task our Finance Ministers and Central Bank Governors to present the second Accountability Report for the Leaders' Summit in St. Petersburg in 2013.

Employment and Social Protection

20. Quality employment is at the heart of our macroeconomic policies. Jobs with labor rights, social security coverage and decent income contribute to more stable growth, enhance social inclusion and reduce poverty. We therefore endorse the recommendations of our Labor and Employment Ministers to urgently combat unemployment through appropriate labor market measures and fostering the creation of decent work and quality jobs, particularly for youth and other vulnerable groups, who have been severely hit by the economic crisis. We reaffirm our commitment to youth to facilitate their access to quality jobs, which will boost their life prospects. We welcome the work of the G20 Task Force on Employment and extend its mandate for an additional year in the terms proposed by our Ministers. Consistent with the Los Cabos Growth and Jobs Action Plan, we consider that structural reforms, in full respect of the fundamental principles and rights at work, can play an important role in lifting economic growth to generate labor market opportunities, mobility and jobs. We also commit to intensify our efforts to strengthen cooperation in education, skills development and training policies, including internship and on-the-job training, which support a successful school-to-work transition.

21. Creating jobs and reducing unemployment, particularly among our youth and those most affected by the crisis, is central to all our countries. We welcome the report by the International Labour Organization (ILO), Organisation for Economic Cooperation and Development (OECD), International Monetary Fund (IMF) and World Bank on boosting jobs and living standards in G20 countries. We will continue to focus on measures to accelerate the pace of the recovery in jobs and the reduction in unemployment.

22. We recognize the importance of establishing nationally determined social protection floors. We will continue to foster inter-agency and international policy coherence, coordination, cooperation and knowledge sharing to assist low-income countries in capacity building for implementing nationally determined social protection floors. We ask international organizations to identify policy options with low-income countries on how to develop effective sustainable protection floors.

23. We commit to take concrete actions to overcome the barriers hindering women's full economic and social participation and to expand economic opportunities for women in G20 economies. We also express our firm commitment to advance gender equality in all areas, including skills training, wages and salaries, treatment in the workplace, and responsibilities in care-giving.

24. We ask our Labor Ministers to review progress made on this agenda and we welcome consultations with social partners. In this regard, we appreciate the contribution of the Business-20 (B20) and Labor-20 (L20) to the process of the G20 under the Mexican Presidency.

25. We recognize the role of travel and tourism as a vehicle for job creation, economic growth and development, and, while recognizing the sovereign right of States to control the entry of foreign nationals, we will work towards developing travel facilitation initiatives in support of job creation, quality work, poverty reduction and global growth.

Trade

26. We are firmly committed to open trade and investment, expanding markets and resisting protectionism in all its forms, which are necessary conditions for sustained global economic recovery, jobs and development. We underline the importance of an open, predictable, rules-based, transparent multilateral trading system and are committed to ensure the centrality of the World Trade Organization (WTO).

27. Recognizing the importance of investment for boosting economic growth, we commit to maintaining a supportive business environment for investors.

28. We are deeply concerned about rising instances of protectionism around the world. Following up our commitment made in Cannes, we reaffirm our standstill commitment until the end of 2014

with regard to measures affecting trade and investment, and our pledge to roll back any new protectionist measure that may have arisen, including new export restrictions and WTO-inconsistent measures to stimulate exports. We also undertake to notify in a timely manner trade and investment restrictive measures. We uphold the inventory and monitoring work of the WTO, OECD and United Nations Conference on Trade and Development (UNCTAD) on trade and investment measures and encourage them to reinforce and deepen the work in these areas, consistent with their respective mandates.

29. We value the discussion held by our Trade Ministers in Puerto Vallarta on the relevance of regional and global value chains to world trade, recognizing their role in fostering economic growth, employment and development and emphasizing the need to enhance the participation of developing countries in such value chains. We encourage a deepening of these discussions in the WTO, UNCTAD and OECD within their respective mandates, and we call on them to accelerate their work on analyzing the functioning of global value chains and their relationship with trade and investment flows, development and jobs, as well as on how to measure trade flows, to better understand how our actions affect our countries and others, and to report on progress under Russia's Presidency.

30. In line with the Cannes Communiqué, we stand by the Doha Development Agenda mandate and reaffirm our commitment to pursue fresh, credible approaches to furthering trade negotiations across the board. We will continue to work towards concluding the Doha Round negotiations, including outcomes in specific areas where progress is possible, such as trade facilitation, and other issues of concern for least developed countries. We urge progress in streamlining WTO accession procedures for the world's poorest countries.

31. We support strengthening the WTO through improving the way it conducts its regular business, and its dispute settlement system. We also direct our representatives to further discussions on challenges and opportunities for the multilateral trading system in a globalized economy.

Strengthening the international financial architecture

32. We recognize the importance of effective global and regional safety nets. We welcome the firm commitments to increase the resources available to the IMF. This is the result of a broad international cooperative effort that includes a significant number of countries. The commitments exceed $450 billion and are in addition to the quota increase under the 2010 Reform. These resources will be available for the whole membership of the IMF, and not earmarked for any particular region. These resources, which qualify as reserve assets, would be channeled through bilateral loans and investments such as note purchase agreements to the IMF's General Resources Account under the modalities which have been approved by the IMF Executive Board. This effort shows the G20 and the international community's commitment to take the steps needed to safeguard global financial stability and enhance the IMF's role in crisis prevention and resolution.

33. We reaffirm our commitment to implement in full the 2010 Quota and Governance Reform by the agreed date of the 2012 IMF/World Bank Annual Meetings. These reforms are crucial to enhancing the IMF's legitimacy, relevance and effectiveness, and will support efforts to further strengthen Fund surveillance and to ensure that the IMF is adequately resourced to play its systemic role. As part of these reforms, we are committed to completing the comprehensive review of the quota formula, to address deficiencies and weaknesses in the current quota formula, by January 2013 and to complete the next general review of quotas by January 2014. We agree that the formula should be simple and transparent, consistent with the multiple roles of quotas, result in calculated shares that are broadly acceptable to the membership, and be feasible to implement based on timely, high quality and widely available data. We reaffirm that the

distribution of quotas based on the formula should better reflect the relative weights of IMF members in the world economy, which have changed substantially in view of strong GDP growth in dynamic emerging markets and developing countries. We reaffirm the importance of continuing to protect the voice and representation of the poorest members of the IMF. We ask our Finance Ministers and Central Bank Governors to review progress on this issue when they meet in November.

34. We agreed that the current surveillance framework should be significantly enhanced, including through a better integration of bilateral and multilateral surveillance with a focus on global, domestic and financial stability, including spillovers from countries' policies. We welcome the work of the IMF to advance considerations for a proposed integrated surveillance decision and commit to support the decision process. We underscore the importance of rigorous surveillance on exchange rate policies and support a more ample coverage of surveillance activities, where relevant, including global liquidity, capital flows, capital account measures, reserve and fiscal, monetary and financial sector policies that could have an impact on external stability. We welcome the IMF's ongoing work to produce an external sector report, which would strengthen multilateral analysis and enhance the transparency of surveillance. We also recognize that political ownership and traction is critical to effective surveillance, and that the International Monetary and Financial Committee (IMFC) has a role in facilitating the active involvement of all IMF members. We look forward to substantial progress by the next IMF/World Bank Annual Meetings.

35. We welcome the interim progress report and look forward to the joint annual progress report to support the development of local currency bond markets to be prepared by the World Bank, Regional Development Banks, IMF, OECD and the Bank of International Settlements (BIS). The full report will be presented at the November meeting of G20 Finance Ministers and Central Bank Governors. This issue is of great importance to emerging markets and developing countries, recognizing that the liquidity, efficiency and operation of these markets are being challenged by the current global financial situation.

Reforming the financial sector and fostering financial inclusion

36. We welcome the progress report by the Financial Stability Board (FSB) on taking forward the G20 commitments for strengthening financial stability and the FSB's enhanced monitoring of implementation at the national level. We are committed to the timely, full and consistent implementation of agreed policies in order to support a stable and integrated global financial system and to prevent future crises.

37. We welcome the publication of the traffic lights scoreboard to track progress in the implementation of all our financial reform recommendations and pledge to take all necessary actions to make progress in the areas where difficulties in policy development or implementation have been identified.

38. In particular, we recognize the substantial progress to date in the priority reform areas identified by the FSB's Coordination Framework for Implementation Monitoring (CFIM): the Basel capital and liquidity framework; the framework for global systemically important financial institutions (G-SIFIs), resolution regimes, over-the-counter (OTC) derivatives reforms, shadow banking, and compensation practices. We commit to complete work in these important areas to achieve full implementation of reforms.

39. We reaffirm our commitment that all standardized OTC derivative contracts should be traded on exchanges or electronic trading platforms, where appropriate, and cleared through central counterparties by end-2012, OTC derivative contracts should be reported to trade repositories and non-centrally cleared contracts should be subject to higher capital requirements. We

welcome the FSB progress report on implementation. Now that substantial progress has been achieved in the four safeguards for a resilient and efficient global framework for central clearing, jurisdictions should rapidly finalize their decision-making and put in place the needed legislation and regulations to meet the G20 commitment for central clearing. We acknowledge the progress made to develop the key principles to promote internationally consistent minimum standards for the margining of non-centrally cleared derivatives and encourage international standard setters to finalize the proposed global margin standards by the end of this year, to match the implementation deadline for other OTC derivatives reforms and for the Basel capital framework.

40. We welcome progress in implementing Basel II, 2.5 and III and urge jurisdictions to fully implement the standards according to the agreed timelines. We welcome the Basel Committee's consultative proposals for a fundamental review of the market risk framework. We welcome the FSB's progress report on the implementation of the principles and standards for sound compensation practices, reaffirm our commitment to ensure that these are followed and ask the FSB to continue its ongoing monitoring.

41. We reiterate our commitment to make our national resolution regimes consistent with the FSB Key Attributes of Effective Resolution Regimes so that no bank or other financial institution is "too big to fail". To this end, we also support the ongoing elaboration of recovery and resolution plans and institution-specific cross-border cooperation agreements for all G-SIFIs. We reiterate our commitment to strengthen the intensity and effectiveness of the supervision of SIFIs and ask the FSB to report on further progress in this area to the November 2012 G20 Finance Ministers and Central Bank Governors' meeting.

42. We welcome progress on developing a set of principles as a common framework for the identification of, and policy measures relating to, domestic systemically important banks (D-SIBs) and ask our Finance Ministers and Central Bank Governors to review recommendations in these areas at their meeting in November. We support continuing work for the strengthening of the oversight and regulation of the shadow banking system, and look forward to our Finance Ministers and Central Bank Governors reviewing recommendations in these areas at their meeting in November. We ask the FSB in consultation with the International Association of Insurance Supervisors (IAIS) to complete their work on identification and policy measures for global systemically important insurers by April 2013. Towards reducing systemic risk, we look forward to the preparation by the FSB in consultation with International Organization of Securities Commissions (IOSCO) of methodologies to identify other systemically important non-bank financial entities by end-2012 and call on Committee on Payment and Settlement Systems (CPSS) and IOSCO to continue their work on systemically important market infrastructures. We also ask the IAIS to continue its work to develop a common framework for the supervision of internationally active insurance groups by end-2013.

43. We call for accelerated progress by national authorities and standard setting bodies in ending the mechanistic reliance on credit ratings and encourage steps that would enhance transparency of and competition among credit rating agencies. We support continuing work to achieve convergence to a single set of high-quality accounting standards. We welcome IOSCO's report on the functioning of the credit default swap markets and ask IOSCO to report on next steps by the November 2012 Finance Ministers and Central Bank Governors' meeting.

44. We endorse the FSB recommendations regarding the framework for development of a global legal entity identifier (LEI) system for parties to financial transactions, with a global governance framework representing the public interest. The LEI system will be launched by March 2013 and we ask the FSB to report on implementation progress by the November 2012 Finance Ministers and Central Bank Governors' meeting. We encourage global adoption of the LEI to support authorities and market participants in identifying and managing financial risks.

45. We welcome the FSB study, prepared in coordination with the IMF and the World Bank, to identify potential unintended consequences of the agreed financial regulatory reforms for Emerging Markets and Developing Economies (EMDEs). We encourage continued monitoring analysis and reporting by the FSB and dialogue among the FSB, standard-setters, international financial institutions and national authorities of EMDEs, to address material unintended consequences as appropriate without prejudice to our commitment to implement the agreed reforms.

46. We endorse the recommendations and the revised FSB Charter for placing the FSB on an enduring organizational footing, with legal personality, strengthened governance, greater financial autonomy and enhanced capacity to coordinate the development and implementation of financial regulatory policies, while maintaining strong links with the BIS. We call for a full implementation of the recommendations by our next meeting and substantial progress by the November 2012 Finance Ministers and Central Bank Governors' meeting. We call on the FSB to continue to keep under review the structure of its representation.

47. We welcome the ongoing work by the FSB on adherence to supervisory and regulatory information exchange and cooperation standards and look forward to a further public statement on progress under the initiative ahead of the Finance Ministers and Central Bank Governors' meeting in November 2012.

48. In the tax area, we reiterate our commitment to strengthen transparency and comprehensive exchange of information. We commend the progress made as reported by the Global Forum and urge all countries to fully comply with the standard and implement the recommendations identified in the course of the reviews, in particular the 13 jurisdictions whose framework does not allow them to qualify to phase 2 at this stage. We expect the Global Forum to quickly start examining the effectiveness of information exchange practices and to report to us and our finance ministers. We welcome the OECD report on the practice of automatic information exchange, where we will continue to lead by example in implementing this practice. We call on countries to join this growing practice as appropriate and strongly encourage all jurisdictions to sign the Multilateral Convention on Mutual Administrative Assistance. We also welcome the efforts to enhance interagency cooperation to tackle illicit flows including the outcomes of the Rome meeting of the Oslo Dialogue. We reiterate the need to prevent base erosion and profit shifting and we will follow with attention the ongoing work of the OECD in this area.

49. We support the renewal of the Financial Action Task Force (FATF) mandate, thereby sustaining global efforts to combat money laundering and the financing of terrorism and proliferation of weapons of mass destruction. G20 members also welcome the adoption of the revised FATF standards and look forward to their implementation. We welcome the progress made by FATF in identifying and monitoring high-risk jurisdictions with strategic Anti-Money Laundering/Counter-Terrorist Financing (AML/CFT) deficiencies, using AML/CFT tools in the fight against corruption, improving transparency of corporate vehicles and increasing cooperation against tax crimes, addressing the risks posed by tax havens, as well as in increasing the reach and the effectiveness of AML/CFT measures by also considering financial inclusion efforts. We look forward to the completion in 2013 of the update of the FATF assessment process for the next round of mutual evaluations.

50. We welcome the progress made by the Global Partnership for Financial Inclusion (GPFI) on implementing the five recommendations set out in its 2011 report and call on the GPFI to continue working towards their full implementation. We endorse the G20 Basic Set of financial inclusion indicators developed by the GPFI. Recognizing the key role that SMEs play in economic development, and poverty reduction, we welcome the launch of the SME Finance Compact that will support developing innovative models and approaches to address the specific access to

finance challenges and constraints faced by developing countries with regards to SME finance. We welcome the forthcoming GPFI conference on standard setting bodies and financial inclusion as a means of helping to create an enabling regulatory environment, and we call on the GPFI to report progress to our Finance Ministers and Central Bank Governors in November. Finally, we support the ongoing effort to create a fourth GPFI subgroup that will focus on consumer protection and financial literacy issues.

51. We acknowledge the efforts of those G20 and non-G20 countries committed to national coordination platforms and strategies for financial inclusion under the "G20 Financial Inclusion Peer Learning Program" and encourage similar efforts to advance effective implementation of the G20 Principles for Innovative Financial Inclusion such as the commitments to concrete actions to promote financial inclusion made by developing and emerging countries under the Maya Declaration, recognizing the ongoing efforts and the support by the World Bank Group and the Alliance for Financial Inclusion, and other stakeholders including the United Nations (UN), and bilateral donors to foster financial inclusion.

52. On financial education, we endorse the OECD/International Network on Financial Education (INFE) High Level Principles on National Strategies for Financial Education, and call on the OECD/INFE and the World Bank in cooperation with the GPFI to deliver further tools to promote financial education, with a progress report to the next Summit. For advancing the financial consumer protection agenda, we take note of the discussion on the Statutes of the International Financial Consumer Protection Network (FinCoNet) and on the issues of formal structure and financial support to ensure the exchange of best practices. We also endorse the Action Plan presented by the G20/OECD Task Force on Financial Consumer Protection to develop effective approaches to support the implementation of the High Level Principles on Financial Consumer Protection, and look forward to an update report by the Leaders' Summit in St. Petersburg in 2013.

53. We recognize the need for women and youth to gain access to financial services and financial education, ask the GPFI, the OECD/INFE, and the World Bank to identify barriers they may face and call for a progress report to be delivered by the next Summit.

54. We welcome the launch of the Mexico Financial Inclusion Challenge: Innovative Solutions for Unlocking Access, a call for innovations that address barriers to financial inclusion through the creation of valuable, affordable, secure, and comprehensive financial services.

Enhancing food security and addressing commodity price volatility

55. The Action Plan on Food Price Volatility and Agriculture adopted by the Ministers of Agriculture in 2011 underlined that to feed a world population expected to exceed 9.3 billion by 2050, agricultural production will have to increase between 50 and 70 percent, and by almost 100 percent in developing countries. We recognize that increasing production and productivity on a sustainable basis while considering the diversity of agricultural conditions is one of the most important challenges that the world faces today. The crisis in the Sahel and the Horn of Africa also underscores that strengthening emergency and long-term responses to food insecurity remains a pressing challenge. We also note that chronic malnutrition is an enormous drain on a country's human resources, and we therefore support the Scaling Up Nutrition movement and encourage wider involvement of G20 members.

56. We welcome the considerable progress made in implementing the Action Plan and the food security pillar of the Seoul Multi-Year Action Plan on Development. We support the G20 Agriculture Vice-Ministers' Report annexed to this Declaration, on the progress made on previous commitments and key recommendations on sustainably increasing agricultural productivity, containing inputs from several international organizations coordinated by the Food and

Agriculture Organization (FAO) and the OECD, in addition to other recommendations from B20 and civil society.

57. To fight hunger, we commit to continue our efforts on our initiatives, including the Tropical Agriculture Platform, the Platform for Agricultural Risk Management, the GEO Global Agriculture Monitoring, research initiatives for wheat, rice and corn, the Rapid Response Forum, regional emergency food reserves, the Global Agriculture and Food Security Program and support for the Principles of Responsible Agriculture Investment. Recognizing the important contribution of greater transparency to reducing food price volatility, we welcome the progress made in the implementation of the Agricultural Market Information System (AMIS). We recognize that a more stable, predictable, distortion-free, open and transparent trading system, including as regards agriculture, has a critical role to play to promote food security.

58. We reaffirm our commitment to remove export restrictions and extraordinary taxes on food purchased for non-commercial humanitarian purposes by the World Food Programme (WFP). We encourage the implementation of the Voluntary Guidelines on the Responsible Governance of Tenure of Land, Fisheries and Forests in the Context of National Food Security.

59. We strongly welcome the launch of the “AgResults” Initiative, aimed at improving food security for the poor and vulnerable by encouraging private sector innovation of new agricultural products and systems constrained by market failures in agriculture. We look forward to the launch of the pilot projects focused on innovations in nutrient-fortified crops, post-harvest waste-reducing storage solutions and crop quality technologies in Sub-Saharan Africa. We commend those who have already committed or signaled their intention to commit funding to this initiative and encourage broader participation.

60. We recognize the need to adapt agriculture to climate change and we recognize the importance of improving the efficiency of water and soil use in a sustainable manner. To this end, we support the development of and a greater use of available technologies, well-known practices and techniques such as soil fertility enhancement, minimum tillage and agroforestry, and call upon international organizations to provide a report on science-based options to improve the efficiency of water use in agriculture including in ways particularly suitable for small farms.

61. We recognize the importance to the global economic recovery of maintaining stability in international commodity markets. We stress the importance of well-functioning and transparent physical and financial commodities’ markets and reduced excessive price volatility to achieve food security and strong growth that is both sustainable and inclusive. We recognize that excessive commodity price volatility has significant implications for all countries, increasing uncertainty for actors in the economy and potentially hampering stability of the budgets, and predictability of economic planning. We recognize that mitigating the negative effects of commodity price volatility on the most vulnerable is an important component of reducing poverty and boosting economic growth. We therefore endorse the conclusions of the G20 report on the macroeconomic impacts of excessive commodity price volatility on growth and its identification of policy options that countries could consider, taking account of national circumstances to mitigate any such effect. We also acknowledge and appreciate the participation and valuable inputs of the IMF, World Bank and UNCTAD. We ask our Finance Ministers to report in 2013 on progress on the G20’s contribution to facilitate better functioning of these physical markets, taking note of possible areas of further work outlined in the report. We reaffirm our commitment to enhance transparency and avoid abuse in financial commodity markets, including OTC, with effective intervention powers for market regulators and authorities and an appropriate regulation and supervisory framework. In this regard we look forward to IOSCO’s report on the implementation of its recommendations on commodity derivatives markets by November 2012.

62. We recognize that excessive price volatility in energy commodities is also an important source of economic instability. We remain committed to well-functioning and transparent energy markets. We will continue to work to improve the timeliness, completeness and reliability of JODI-Oil and look forward to a progress report next year. We will work on the JODI-Gas database on the same principles. We expect the International Energy Forum (IEF) report on improving the reliability of the JODI-Oil database and the report on transparency in international gas and coal markets submitted by the International Energy Agency (IEA), IEF, and Organization of the Petroleum Exporting Countries (OPEC) to be discussed by our Finance Ministers in November. We also look forward to IOSCO's recommendations to improve the functioning and oversight of Price Reporting Agencies in November 2012, which will be produced in collaboration with other mandated organizations (IEF, IEA and OPEC), and task Finance Ministers to take concrete measures in this area as necessary.

Meeting the Challenges of Development

63. Eradicating poverty and achieving strong, inclusive, sustainable and balanced growth remain core objectives of the G20 development agenda. We reaffirm our commitment to work with developing countries, particularly low income countries, and to support them in implementing the nationally driven policies and priorities which are needed to fulfill internationally agreed development goals, particularly the Millennium Development Goals (MDGs) and beyond.

64. We welcome the initiative of the Development Working Group to build upon the work of previous G20 presidencies, and its focus on three priorities during the Mexican Presidency - food security, infrastructure and inclusive green growth. We commend the progress achieved against our commitments in the Seoul Multi-Year Action Plan, and support the 2012 Development Working Group progress report annexed to this Declaration. We invite the Development Working Group to explore putting in place a process for ensuring assessment and accountability for G20 development actions by the next Summit.

65. Investment in infrastructure is critical for sustained economic growth, poverty reduction, and job creation. We therefore welcome the strong progress made under the Multi-Year Action Plan, including in implementing the recommendations of the Multilateral Development Banks' (MDBs) Action Plan and the High Level Panel on Infrastructure.

66. While recognizing that public financing of infrastructure development projects in developing countries remains essential, we consider it should be complemented by private sector investment. We encourage MDBs to continue progress under the Action Plan, and welcome the report on addressing Misperception of Risk and Return in Low Income Countries. This contains important messages about properly perceiving the risks posed, as well as the opportunities offered, by long-term infrastructure investment in low income countries. Recognizing the challenge that rapid urbanization poses and the need to make cities more sustainable, we welcome the report on Best Practices for Urban Mass Transport Infrastructure Projects in Medium and Large Cities in Developing Countries, and support the follow-up actions as set out in the Development Working Group report.

67. We reaffirm our commitments to the global partnership for development, as set out in the MDGs, and welcome efforts to contribute to this end, including the Global Partnership for Effective Development Cooperation to be launched with voluntary participation under the auspices of the broad consensus achieved at the 4th High Level Forum on Aid Effectiveness held in Busan, Korea.

68. We recognize the value of Disaster Risk Management (DRM) tools and strategies to better prevent disasters, protect populations and assets, and financially manage their economic impacts. We appreciate World Bank and OECD combined efforts, with the UN's support, to

provide inputs and broaden participation in the discussion on DRM. We welcome the World Bank's and Mexico's joint publication on country experiences in this area with the support of G20 members, and look forward to the OECD voluntary framework to facilitate implementation of DRM strategies, to be completed by November.

<u>Promoting longer-term prosperity through inclusive green growth</u>

69. The long-term development and prosperity of current and future generations requires us to look beyond the immediate economic crisis. We acknowledge the importance of finding ways in which economic growth, environmental protection and social inclusion can complement and reinforce each other. Inclusive green growth in the context of sustainable development and poverty eradication can help achieve our development and economic goals, while protecting our environment, and improving social well-being on which our future depends. Inclusive green growth should not be used to introduce protectionist measures.

70. We commit to continue to help developing countries sustain and strengthen their development through appropriate measures, including those that encourage inclusive green growth. We will reaffirm our commitment to sustainable development at the 2012 United Nations Conference on Sustainable Development (Rio+20). We commit to maintaining a focus on inclusive green growth as part of our G20 agenda and in the light of agreements reached at Rio+20 and the United Nations Framework Convention on Climate Change (UNFCCC).

71. Climate change will continue to have a significant impact on the world economy, and costs will be higher to the extent we delay additional action. We reiterate our commitment to fight climate change and welcome the outcome of the 17th Conference of the Parties to the UN climate change conferences. We are committed to the full implementation of the outcomes of Cancun and Durban and will work with Qatar as the incoming Presidency towards achieving a successful and balanced outcome at COP-18. We emphasize the need to structurally transform economies towards a climate-friendly path over the medium term. We welcome the creation of the G20 study group on climate finance, in order to consider ways to effectively mobilize resources taking into account the objectives, provisions and principles of the UNFCCC in line with the Cancun Agreement and ask to provide a progress report to Finance Ministers in November. We support the operationalization of the Green Climate Fund.

72. The Development Working Group discussed a broad set of practical, voluntary measures and actions that have the potential to help countries define their paths towards sustainable development based on their own circumstances and priorities. We believe that developing countries should have access to institutions and mechanisms that can facilitate knowledge sharing, resource mobilization and building technical and institutional capacity to design and implement inclusive green growth strategies and policies. We welcome international efforts in launching the Green Growth Knowledge Platform and will continue exploring options to provide appropriate support to interested developing countries. We welcome the delivery of a non-prescriptive, voluntary toolkit of policy options for inclusive green growth and encourage efforts to promote its implementation. We encourage further exploration of effective mechanisms to mobilize public and private funds for inclusive green growth investment in developing countries, including through the public-private Dialogue Platform on Inclusive Green Investments. We welcome the B20's Green Growth Action Alliance.

73. We highlight that green growth and sustainable development have strong potential to stimulate long term prosperity and well being. We welcome the report prepared by the OECD, the World Bank and the UN on incorporating green growth and sustainable development policies into structural reform agendas, tailored to specific country conditions and level of development. We also acknowledge the G20 efforts to voluntarily self-report on current actions taken to integrate

green growth and sustainable development into structural reform agendas. We will self-report again in 2013, on a voluntary basis, and ask appropriate officials to report back on countries' efforts and progress on incorporating green growth policies in structural reform agendas and in relevant national plans to promote sustainable development.

74. We welcome the progress report on fossil fuel subsidies, and we reaffirm our commitment to rationalize and phase out inefficient fossil fuel subsides that encourage wasteful consumption over the medium term while providing targeted support for the poorest. We ask Finance Ministers to report back by the next Summit on progress made, and acknowledging the relevance of accountability and transparency, to explore options for a voluntary peer review process for G20 members by their next meeting. We also welcome a dialogue on fossil fuel subsidies with other groups already engaged in this work.

75. In Cannes we committed to promote low-carbon development strategies in order to optimize the potential for green growth and ensure sustainable development in our countries and beyond. We therefore welcome the report on clean energy and energy efficiency technologies and acknowledge the G20 countries' efforts to foster investment in these technologies through the sharing of national experiences regarding challenges for technology deployment.

76. We welcome the establishment of a Global Marine Environment Protection Best Practices Sharing Mechanism website, and look forward to its launch in accordance with the Cannes mandate.

Intensifying the fight against corruption

77. Corruption impedes economic growth, threatens the integrity of markets, undermines fair competition, distorts resource allocation, destroys public trust and undermines the rule of law. We call on all relevant stakeholders to play an active role in fighting corruption.

78. Closing the implementation and enforcement gap remains an important priority, and we continue to make significant progress towards the full implementation of the Seoul G20 Anti-Corruption Action Plan, and the commitments made in the Cannes Monitoring Report. We reiterate our commitment to the ratification and full implementation of the United Nations Convention against Corruption (UNCAC), and to more active engagement with the OECD working group on bribery on a voluntary basis. We welcome continuing engagement from the B20 in the fight against corruption and, in accordance with the Terms of Reference of the review mechanism, will involve the private sector and civil society in the UNCAC review process on a voluntary basis. We endorse today the G20 Anti-Corruption Working Group principles for denial of entry to our countries of corrupt officials, and those who corrupt them, and will continue to develop frameworks for cooperation. We also endorse the Working Group's principles for financial and asset disclosure systems for relevant officials to prevent, identify and appropriately manage conflicts of interest.

79. We commit to enforcing anti-corruption legislation, and we will pursue those who receive and solicit bribes as well as those who pay them in line with our countries' legislation. To help facilitate international cooperation among G20 and non-G20 governments in their investigation and prosecution of corruption, we will publish a guide on Mutual Legal Assistance from G20 countries, as well as information on tracing assets in G20 jurisdictions. We renew our commitment to deny safe haven to the proceeds of corruption and to the recovery and restitution of stolen assets.

80. We extend the mandate of the Anti-Corruption Working Group for two years to the end of 2014 and request the Working Group to prepare a comprehensive action plan, as well as a second Working Group Monitoring Report, both to be presented for consideration and adoption by Sherpas by the end of 2012.

Other paragraphs

81. In light of the interconnectedness of the world economy, the G20 has led to a new paradigm of multilateral co-operation that is necessary in order to tackle current and future challenges effectively. The informal and flexible character of the G20 enables it to facilitate international economic and financial cooperation, and address the challenges confronting the global economy. It is important that we continue to further improve the transparency and effectiveness of the G20, and ensure that it is able to respond to pressing needs. As a contribution to this, in line with the commitment made in Cannes, Sherpas have developed a set of evolving G20 working practices.

82. An informal meeting of G20 Ministers of Foreign Affairs was held in Los Cabos in February, which explored the ways in which G20 member countries could contribute more effectively to address key challenges in global governance.

83. Recognizing the far-reaching impact of G20 decisions, we welcome the extensive outreach efforts undertaken by the Mexican Presidency, including the meetings of Business-20, Labor-20, Youth-20, and Think-20. We will continue developing efforts with non-members, regional and international organizations, including the UN and other actors. In line with the Cannes mandate, in order to ensure our outreach remains consistent and effective, we welcome a set of principles in this area, developed by Sherpas.

84. We thank international organizations, including the UN, IMF, World Bank, WTO, FSB, ILO, FAO, and OECD, as well as civil society, for their input into the G20 process. Their reports and recommendations have provided valuable inputs to G20 discussions, in areas ranging from sustainable development to financial regulation.

Conclusion

85. We look forward to the rest of the work that will take place during Mexico's Presidency until November 30. On 1 December, 2012, Russia will start chairing the G20. We will convene in St. Petersburg, under the Chairmanship of Russia. We thank Mexico for hosting a successful Los Cabos Summit.

G20 LEADERS' DECLARATION

September, 2013

Table of Contents

G20 LEADERS' DECLARATION

Saint Petersburg Summit

5-6 September 2013

Preamble

1. We, the Leaders of the G20, met in St Petersburg on 5-6 September 2013, united by our continued commitment to work together to strengthen the global economy.

2. Strengthening growth and creating jobs is our top priority and we are fully committed to taking decisive actions to return to a job-rich, strong, sustainable and balanced growth path.

3. In the five years since we first met, coordinated action by the G20 has been critical to tackling the financial crisis and putting the world economy on a path to recovery. But our work is not yet complete and we agreed that it remains critical for G20 countries to focus all our joint efforts on engineering a durable exit from the longest and most protracted crisis in modern history.

4. Our most urgent need is to increase the momentum of the global recovery, generate higher growth and better jobs, while strengthening the foundations for long-term growth and avoiding policies that could cause the recovery to falter or promote growth at other countries' expense.

5. We understand that sound and sustainable economic growth will be firmly based on increased and predictable investments, trust and transparency, as well as on effective regulation as part of the market policy and practice.

6. As Leaders of the world's largest economies, we share responsibility for reinforcing the open and rules-based global economic system. We are committed to working cooperatively to address key global economic challenges:

- Achieving a stronger recovery while ensuring fiscal sustainability. We have today agreed the St Petersburg Action Plan, which sets out our strategies to achieve strong, sustainable and balanced growth.

- Unemployment and underemployment, particularly among young people. We are united in the resolve to achieve better quality and more productive jobs. Coordinated and integrated public policies (macroeconomic, financial, fiscal, education, skills development, innovation, employment and social protection) are key to reach this goal. We today committed to continue our efforts to support inclusive labour markets, with the exchange of country-specific plans or sets of actions, developed as appropriate according to our different constitutional circumstances.

- Importance of long-term financing for investment, including for infrastructure and SMEs to boost economic growth, job creation and development. Today we endorsed the work plan that helped us to assess factors affecting the availability and accessibility of long-term financing for investment and committed to identify and start to implement a set of collective and country-specific measures that tangibly improve our domestic investment environments.

- Free and rules-based trade fosters economic opportunities. We stress the crucial importance of strong multilateral trading system and call on all the WTO members to show the necessary flexibility and reach a successful outcome in this year's multilateral trade negotiations. We extend our commitment to refrain from protectionist measures and aim at enhancing transparency in trade, including in regional trade agreements.

- Cross-border tax evasion and avoidance undermine our public finances and our people's trust in the fairness of the tax system. Today, we endorsed plans to address these problems and committed to take steps to change our rules to tackle tax avoidance, harmful practices, and aggressive tax planning.

- We have agreed and are implementing a broad range of financial reforms to address the major fault lines that caused the crisis. We are building more resilient financial institutions, making substantial progress towards ending too-big-to-fail, increasing transparency and market integrity, filling regulatory gaps and addressing the risks from shadow banking. We will pursue our work to build a safe, reliable financial system responsive to the needs of our citizens.

- G20 countries have a responsibility to ensure that all people have an opportunity to gain from strong, sustainable and balanced growth. We endorse the St Petersburg Development Outlook to focus our efforts on concrete steps to improve food security, financial inclusion, infrastructure, human resource development and domestic resource mobilization.

- Corruption impedes sustainable economic growth and poverty reduction, threatening financial stability and economy as a whole. We will hold ourselves to our commitment to implement the G20 Anti-Corruption Action Plan, combating domestic and foreign bribery, tackling corruption in high-risk sectors, strengthening international cooperation and promoting public integrity and transparency in the fight against corruption. Recognizing the need for sustained and concerted efforts we endorse the St Petersburg Strategic Framework.

- We share a common interest in developing cleaner, more efficient and reliable energy supplies, as well as more transparent physical and financial commodity markets. We commit to enhance energy cooperation, to make energy market data more accurate and available and to take steps to support the development of cleaner and more efficient energy technologies to enhance the efficiency of markets and shift towards a more sustainable energy future. We underscore our commitment to work together to address climate change and environment protection, which is a global problem that requires a global solution.

- We will continue to develop comprehensive growth strategies to achieve stronger, more sustainable and balanced growth in the context of fiscal sustainability.

7. Too many of our citizens have yet to participate in the economic global recovery that is underway. The G20 must strive not only for strong, sustainable and balanced growth but also for a more inclusive pattern of growth that will better mobilize the talents of our entire populations.

8. Cooperation, Coordination and Confidence is what we will continue to strive for.

Global Economy and G20 Framework for Strong, Sustainable and Balanced Growth

9. We have taken a number of important policy actions that have helped to contain key tail risks, improve financial market conditions and sustain the recovery. Private demand has strengthened in the U.S. and growth has picked up in Japan and the U.K. There are signs of recovery in the euro area. While growth has continued in emerging market economies, it has slowed down in some of them. Global growth prospects for 2013 have been marked down repeatedly over the last year, global rebalancing is incomplete, regional growth disparities remain wide, and unemployment, particularly among youth, remains unacceptably high. Despite our actions, the recovery is too weak, and risks remain tilted to the downside. In the last months financial market volatility has increased.

10. We consider the main challenges to the global economy to be:

- Weak growth and persistently high unemployment, particularly among youth, and the need for more inclusive growth in many economies;

- Financial market fragmentation in Europe and the decisive implementation of banking union;

- Slower growth in some emerging market economies, reflecting in some cases the effect of volatile capital flows, tighter financial conditions and commodity price volatility, as well as domestic structural challenges;

- Insufficient levels of private investment in many countries, in part due to continuing market uncertainties, as well as internal rigidities;

- High public debt and its sustainability in some countries that need to be addressed while properly supporting the recovery in the near-term, especially in countries with the highest actual and projected debt to GDP levels;

- Volatility of capital flows as growth strengthens and there are expectations of eventual monetary policy recalibration in advanced economies;

- An incomplete rebalancing of global demand; and

- Continued uncertainties about fiscal policy deliberations.

11. To address these challenges and to place the global economy on a stronger, more sustainable and balanced growth path, we have built on our previous actions with new measures as set out in the St Petersburg Action Plan (Annex). The Action Plan is designed to boost economic activity and job creation, support the recovery, and address near-term risks to the outlook, while strengthening the foundations for strong, sustainable and balanced growth through ambitious and well-targeted reforms. We will act together and implement all our commitments in a timely manner and rigorously monitor this process.

12. Our immediate focus is on creating the conditions to increase growth and employment with timely actions that build on the signs of a recovery in advanced economies to make it durable to the benefit of the whole global economy.

13. In this respect, the euro area commits to strengthen the foundations for economic and monetary union, including through further efforts to strengthen bank balance sheets, reduce financial fragmentation and moving ahead decisively and without delay toward a banking union. Advanced G20 countries agree to maintain a flexible approach in implementing their fiscal strategies, while remaining committed to sustainable public finances. Facing increased financial volatility, emerging markets agree to take the necessary actions to support growth and maintain stability, including efforts to improve fundamentals, increase resilience to external shocks and strengthen financial systems.

14. Monetary policy will continue to be directed towards domestic price stability and supporting the economic recovery according to the respective mandates of central banks. We recognize the support that has been provided to the global economy in recent years from accommodative monetary policies, including unconventional monetary policies. We remain mindful of the risks and unintended negative side effects of extended periods of monetary easing. We recognize that strengthened and sustained growth will be accompanied by an eventual transition toward the normalization of monetary policies. Our central banks have committed that future changes to monetary policy settings will continue to be carefully calibrated and clearly communicated.

15. We reiterate that excess volatility of financial flows and disorderly movements in exchange rates can have adverse implications for economic and financial stability, as observed recently in some emerging markets. Generally stronger policy frameworks in these countries allow them to better deal with these challenges. Sound macroeconomic policies, structural reforms and strong prudential frameworks will help address an increase in volatility. We will continue to monitor financial market conditions carefully.

16. We commit to cooperate to ensure that policies implemented to support domestic growth also support global growth and financial stability and to manage their spillovers on other countries.

17. We reiterate our commitments to move more rapidly toward more market-determined exchange rate systems and exchange rate flexibility to reflect underlying fundamentals, and avoid persistent exchange rate misalignments. We will refrain from competitive devaluation and will not target our exchange rates for competitive purposes. We will resist all forms of protectionism and keep our markets open.

18. We are also committed to strengthening the foundations for long-term growth through implementing ambitious and targeted reforms designed to ensure fiscal sustainability, boost investment, increase productivity and labor force participation, and address internal and external imbalances.

19. Achieving a stronger and sustainable recovery, while ensuring fiscal sustainability in advanced economies remains critical. As agreed, all advanced economies have developed credible, ambitious, and country-specific medium-term fiscal strategies. These strategies will be implemented flexibly to take into account near-term economic conditions, so as to support economic growth and job creation, while putting debt as a share of GDP on a sustainable path. A number of emerging market economies have also laid out key elements of their strategies to promote fiscal sustainability.

20. Recognizing the need to push ahead more urgently with important structural reforms, we have reset our reform agenda along more relevant, concrete and well-targeted lines. Members have committed to a wide range of reforms to strengthen the foundations for strong, sustainable and balanced growth over the long term by boosting investment, addressing fundamental weaknesses, enhancing productivity and competitiveness, increasing labour force participation, improving financial stability and credit access, and addressing internal and external imbalances. These reforms are key to achieving a lasting improvement in potential growth, job creation and rebalancing demand.

21. We are determined to achieve more progress toward broad based rebalancing of global demand. While global current account imbalances have declined, reflecting in part important reforms in a number of countries, a substantial part of this progress has occurred due to demand compression. In order to ensure a durable improvement as global growth strengthens, we are determined to undertake further policy adjustments toward rebalancing global demand between surplus and deficit countries, as well as internal rebalancing. In this respect, it is essential to achieve stronger domestic demand growth in large surplus economies, increased savings and enhanced competitiveness in deficit economies and more flexible exchange rates. We are committed to actions in all these areas and will regularly assess progress.

22. The St Petersburg Action Plan sets forth our reforms for achieving strong, sustainable and balanced growth. Further, our Accountability Assessment describes the progress we have made on past commitments. We will identify the remaining key obstacles to be addressed and reforms needed to achieve stronger, more sustainable and balanced growth in our economies. We ask our Finance Ministers to develop further the comprehensive growth strategies for presentation to the Brisbane Summit.

Growth through Quality Jobs

23. We remain united in our resolve to promote inclusive growth and more and better jobs.

24. Unemployment and underemployment in many countries, particularly among young people, remains one of the key challenges confronting the global economy and a top priority for the G20.

25. Creating more productive and better quality jobs is at the heart of our countries' policies aimed at achieving strong sustainable and balanced growth, poverty reduction and increasing social cohesion. We agree that strong and supportive macroeconomic, trade, investment, and labour market policies, sustainable public finance, a sound and well-regulated financial system, and resilient and effective social protection systems are the foundation for sustainable job-creating economic growth.

26. Policy reforms to support higher employment and facilitate job creation and better matching of skills with job opportunities are central in our growth strategies. We commit to take a broad-ranged action, tailored to national circumstances, to promote more and better jobs:

- Improve business environment and stimulate the creation of formal, more productive and rewarding jobs, through pro-growth structural reforms in product and labour markets, including by promoting labour market adaptability and efficiency, ensuring adequate labour protection, as well as appropriate tax regimes and other government initiatives that may be required according to national circumstances.

- Invest in our people's skills, quality education and life-long learning programs to give them skill portability and better prospects, to facilitate mobility and enhance employability.

- Foster targeted investments to ensure that labour market infrastructure and effective labour activation policies are in place to help jobseekers find work and bring under-represented and vulnerable groups into the labour market and reduce informality.

- Improve job quality, including through working conditions, wage bargaining frameworks, national wage-setting systems, and access to social protection.

- Develop country-specific plans or sets of actions on employment and we will discuss the progress in Brisbane.

27. Coordinated and integrated public policies are crucial to achieving strong, sustainable, and balanced growth, and restoring confidence in the global economy. We endorse the recommendations of our Labour and Employment and Finance Ministers to mobilize, coordinate and integrate, our national policies (macroeconomic, financial, fiscal, education, skills development, innovation, employment, social protection) to promote the creation of quality jobs, while increasing productivity with full respect for Fundamental Principles and Rights at Work, to ensure higher employment levels and a sustained decline in unemployment, underemployment and informal employment.

28. The joint meeting of our Labour and Employment and Finance Ministers, organized for the first time, was a welcome step towards coordination and integration of labour, employment and social policies with our macroeconomic and financial policies. We call upon our Ministers of Labour and Employment and our Ministers of Economy and Finance to continue to collaborate to promote quality job creation and job-rich and sustained growth. We encourage relevant international organizations including the ILO, the OECD, and the World Bank Group to analyze the recent experiences of the G20 countries and identify best practices that have been most successful in creating more and better jobs, promoting labour formalization, reducing inequality, ensuring effective social protection and labour market adaptability, as inputs to future deliberations of the G20 Labour and Employment Ministers.

29. Promoting youth employment is a global priority. We are committed to quality apprenticeship and vocational training programmes, finding innovative ways to encourage firms to hire youth for example by, where appropriate, reducing non-wage labour costs, moving towards early intervention measures and effective job-search assistance for different groups of youth, and motivating youth entrepreneurship and business start-ups. Tailored strategies including youth guarantee approaches, developing school and university curricula that support entrepreneurship, and facilitating exchange of best practices among the G20 countries and the social partners are crucial in this respect.

30. We commit to increase our efforts to support inclusive labour markets, better labour market information and effective employment services, which will contribute to higher employment levels along with a sustained decline in unemployment, underemployment and informal employment. We agree that appropriate labour market and social policies can ensure better social cohesion, economic stabilization, support aggregate demand and medium to longer-term growth. Sound national social protection floors are needed, which are affordable, effective, efficient, and socially adequate. Our social protection policies should encourage employment and job-search, providing help if necessary. We commit to encourage the private sector, including small and medium sized enterprises as one of our most important partners, in fostering inclusive economic growth including for job creation and labour absorption. We encourage the IMF as well as other relevant international organizations to continue their research in the area of growth, employment and income distribution.

31. We recognize the importance of ensuring that underrepresented and vulnerable groups are given both incentives and support to find productive and rewarding jobs. Special attention must be given to those groups facing the greatest barriers to finding or remaining in employment such as youth, women, long-term unemployed, low skilled workers, single parents, people with disabilities and older workers. We are committed therefore to develop and strengthen tailored activation strategies for these groups that combine income support for those out of work with measures to improve their employability through job search assistance, work experience, public employment programs, hiring subsidies, conditional transfers and training as well as reduced obstacles for employment as per country's circumstances. These measures should be linked to more general efforts to provide better opportunities to gain formal employment. We call upon our Ministers of Labour and Employment and Ministers of Finance to work together to exchange best practices and to deliver on implementation of this commitment with the support of the ILO, the OECD and the World Bank Group in identifying good practices and effective measures for more inclusive labour markets.

32. We confirm the importance of reporting progress in meeting our commitments and of sharing our experience of effective policies and measures. We consider the database prepared by the G20 Task Force on Employment as an important tool, which allows sharing best practices and ways to address labour market and employment challenges, and serves as an important source of information for the economic analyses and decision-making. This is particularly important for the employment and skills development of young people. We commit to continue to work and to broaden this approach including the scope of the database, to develop country owned and country specific monitoring methodologies, where necessary, and use the database when building upon our country owned and country specific policies.

33. We appreciate the contribution of the B20 and the L20 and acknowledge the crucial role of social dialogue as a means to achieve the G20 objectives of fostering growth, employment, and social cohesion.

34. We thank the G20 Task Force on Employment for its work, and extend its mandate for another year. We ask the G20 Task Force on Employment to continue exploring the issues related to economic and labour and employment policies, and to focus on strategies to address structural unemployment, especially among youth and the long-term unemployed, and on national social protection systems. This will build on the terms proposed by our Labour and Employment Ministers including for sharing of

best practices and reviewing progress on the key elements identified on quality apprenticeships. We ask the Task Force to coordinate the exchange of country-specific plans or sets of actions on employment, developed as appropriate according to our different constitutional circumstances, working with the ILO, OECD and the World Bank Group. These reports should include information on the mix of policies and programs that will be used by participating G20 members to address their respective employment challenges. In addition, given the recurring loss to human life and assets across the world on account of unsafe working places, we direct the Task Force to partner with ILO in consultation with countries, and to consider how the G20 might contribute to safer workplaces. We encourage further cooperation and coordination between the Task Force on Employment and Framework and Development Working Groups on the activities related to the labour issues under the G20.

Financing for Investment

35. We recognize the key role of long-term investment for sustainable growth and job creation, as well as the importance of putting in place conditions that could promote long-term financing for investment, including in infrastructure and small and medium-sized enterprises (SMEs), taking into consideration country-specific circumstances. In particular, we recognize the paramount importance of the investment climate in attracting long-term financing and will take a comprehensive approach to identifying and addressing impediments to the mobilization of private capital and improving underlying investment conditions and the efficiency of public investment.

36. To lift growth and create jobs by boosting investment, we commit to identify and start to implement by the Brisbane Summit a set of collective and country-specific actions that tangibly improve our domestic investment environments such that they are more favorable to long-term investment financing and can lead to an effective increase of implemented projects, particularly in infrastructure and for SMEs. These actions will be part of our country-growth strategies.

37. We endorse the Work plan prepared by the G20 Study Group on Financing for Investment (Annex). We call on our Finance Ministers and Central Bank Governors with input from relevant international organizations and in cooperation with other relevant G20 working groups to extend the analysis of the challenges associated with the availability of financing for long-term investment to drive well-founded, evidence-based policy initiatives. We look forward to the recommendations by our Finance Ministers at our next Summit informed by the reports of the relevant international organizations.

38. We agree in particular on the need for governments to promote policies that facilitate and encourage institutional investors to finance long-term investment consistent with their mandates and prudent risk-taking. We endorse the G20/OECD High-Level Principles of Long-Term Investment Financing by Institutional Investors (Annex) and ask our Finance Ministers and Central Bank Governors to identify approaches to their implementation working with the OECD and other interested participants by the next Summit. We look forward to the FSB's ongoing monitoring of the impact of financial regulatory reforms on the supply of long-term investment financing.

39. We call on our Finance Ministers to identify measures by the next Summit to facilitate domestic capital market development and improve the intermediation of global savings for productive long-term investments, including in infrastructure, and to improve access to financing for SMEs. We ask Finance Ministers and Central Bank Governors to explore the ways in which private financing and capital markets can be better mobilized. We also look forward to building on the ongoing work of the Multilateral Development Banks to develop new approaches in order to optimize the use of existing resources, including through leveraging private capital, and to strengthen their lending capacity. We take note of the work underway by the World Bank Group and Regional Development Banks to mobilize and catalyze additional financing for infrastructure investment, particularly in emerging markets and developing countries.

40. We recognize the importance of improving processes and transparency in the prioritization, planning, and funding of investment projects, especially in infrastructure, and in making better use of project preparation funds. Particular attention will also be given to ways to improve the design of and conditions for productive public-private partnership (PPP) arrangements.

Enhancing Multilateral Trade

41. Free trade and investment, and achieving the open, rules-based, transparent and non-discriminatory WTO-based trading system are crucial for restoring global growth. We underline the importance of trade as a key to economic growth, sustainable development and job creation globally and at national level.

42. We reaffirm the significance of the successful functioning of the multilateral trading system and its importance in ensuring proper rules enforcement. A successful outcome at the WTO Ministerial Conference (MC9) in Bali in December 2013 on trade facilitation, and some elements of agriculture and development issues, would be a stepping stone to further multilateral trade liberalization and progress in Doha Development Agenda negotiations, providing new confidence in successful post-Bali Doha round negotiations.

43. We call on all WTO members to show the necessary flexibilities in order to bridge existing gaps and deliver positive and balanced results at MC9. We stand ready to make significant contributions in these negotiations to achieve such results, delivering an early harvest at MC9 and demonstrating the credibility of the negotiating function of the WTO.

44. We recognize the risks of economic slowdown and trade weakening posed by protectionism. We extend until the end of 2016 our standstill commitment; being fully committed to further progress in removing barriers and impediments to global trade and investment, we reaffirm commitment to roll back new protectionist measures. With these commitments we stress the importance of further curbing protectionism through the WTO, and to this end we will endeavor to make MC9 successful as a step towards a successful conclusion of the Doha Development Round and as an impetus for negotiations on a roadmap to reach this goal.

45. We value monitoring of trade and investment restrictive/opening measures by the WTO, the OECD and the UNCTAD. We call on them to continue and reinforce this work

consistent with their respective mandates so as to better resist protectionism and promote liberalization of global trade and investment. We welcome the WTO's public website providing transparency over these measures for the benefit of governments, private sector, and civil society.

46. Transparency is a cornerstone of the multilateral trading system. We are committed to timely complying with WTO notification requirements and enhancing transparency through the existing WTO rules.

47. We understand the importance of regional trade agreements (RTAs) and their contribution to trade and investment liberalization. We commit to ensure that RTAs support the multilateral trading system. Realizing that enhancing transparency in RTAs and understanding of RTAs and their effects on the further development of multilateral rules are of systemic interest to all G20 members, we are committed to continue our work on RTAs in the WTO, and share our approach for Advancing Transparency in Regional Trade Agreements (Annex).

48. We support the Transparency in Trade (TNT) Initiative, a partnership between the African Development Bank, the International Trade Centre (ITC), the United Nations Conference on Trade and Development (UNCTAD), and the World Bank, which will provide for open use of the trade policy data and analysis system to identify new trade opportunities and facilitate trade flows. We also welcome the WTO's Integrated Trade Information Portal (I-TIP).

49. We recognize the importance of better understanding the rapid expansion of global value chains (GVCs) and impacts of participation in GVCs for growth, industrial structure, development and job creation. In this regard, we welcome the work done by the OECD, the WTO and the UNCTAD and ask them to seek the views of governments and continue their research on the impact of GVCs, particularly in relation to the influence of GVCs on trade, economic growth, development, job creation and distribution of value-added along GVCs. Identifying the opportunities and challenges of participation in GVCs and making available value-added trade statistics may help countries in due course to decide upon appropriate policymaking options to benefit from GVCs. . We call for the OECD in cooperation with the WTO and the UNCTAD to deliver a report in the first half of 2014.

Addressing Base Erosion and Profit Shifting, Tackling Tax Avoidance, and Promoting Tax Transparency and Automatic Exchange of Information

50. In a context of severe fiscal consolidation and social hardship, in many countries ensuring that all taxpayers pay their fair share of taxes is more than ever a priority. Tax avoidance, harmful practices and aggressive tax planning have to be tackled. The growth of the digital economy also poses challenges for international taxation. We fully endorse the ambitious and comprehensive Action Plan – originated in the OECD – aimed at addressing base erosion and profit shifting with mechanism to enrich the Plan as appropriate. We welcome the establishment of the G20/OECD BEPS project and we encourage all interested countries to participate. Profits should be taxed where economic activities deriving the profits are performed and where value is created. In order to minimize BEPS, we call on member countries to examine how our own

domestic laws contribute to BEPS and to ensure that international and our own tax rules do not allow or encourage multinational enterprises to reduce overall taxes paid by artificially shifting profits to low-tax jurisdictions. We acknowledge that effective taxation of mobile income is one of the key challenges. We look forward to regular reporting on the development of proposals and recommendations to tackle the 15 issues identified in the Action Plan and commit to take the necessary individual and collective action with the paradigm of sovereignty taken into consideration.

51. We commend the progress recently achieved in the area of tax transparency and we fully endorse the OECD proposal for a truly global model for multilateral and bilateral automatic exchange of information. Calling on all other jurisdictions to join us by the earliest possible date, we are committed to automatic exchange of information as the new global standard, which must ensure confidentiality and the proper use of information exchanged, and we fully support the OECD work with G20 countries aimed at presenting such a new single global standard for automatic exchange of information by February 2014 and to finalizing technical modalities of effective automatic exchange by mid-2014. In parallel, we expect to begin to exchange information automatically on tax matters among G20 members by the end of 2015. We call on all countries to join the Multilateral Convention on Mutual Administrative Assistance in Tax Matters without further delay. We look forward to the practical and full implementation of the new standard on a global scale. We encourage the Global Forum to complete the allocation of comprehensive country ratings regarding the effective implementation of information exchange upon request and ensure that the implementation of the standards are monitored on a continuous basis. We urge all jurisdictions to address the Global Forum recommendations in particular those 14 that have not yet moved to Phase 2. We invite the Global Forum to draw on the work of the FATF with respect to beneficial ownership. We also ask the Global Forum to establish a mechanism to monitor and review the implementation of the new global standard on automatic exchange of information.

52. Developing countries should be able to reap the benefits of a more transparent international tax system, and to enhance their revenue capacity, as mobilizing domestic resources is critical to financing development. We recognize the importance of all countries benefitting from greater tax information exchange. We are committed to make automatic exchange of information attainable by all countries, including LICs, and will seek to provide capacity building support to them. We call on the Development Working Group in conjunction with the Finance Track, to work with the OECD, the Global Forum and other IOs to develop a roadmap showing how developing countries can overcome obstacles to participation in the emerging new standard in automatic exchange of information, and to assist them in meeting the standard in accordance with the action envisaged in the St Petersburg Development Outlook. The Working Group should report back by our next meeting. Working with international organizations, we will continue to share our expertise, help build capacity, and engage in long-term partnership programmes to secure success. In this respect, we welcome the OECD Tax Inspectors without Borders initiative, which aims to share knowledge and increase domestic capacities in developing countries in the tax area. Finally, we are committed to continue to assist developing countries, including through the IOs, in identifying individual country needs and building capacity in the area of tax administration (in addition to automatic exchange of information) and encourage such support to be developing country led.

International Financial Architecture

53. Completing the ongoing reforms of IMF governance is indispensable for enhancing the Fund's credibility, legitimacy and effectiveness. For this reason, the ratification of the 2010 IMF Quota and Governance Reform is urgently needed. We continue to support the IMF Executive Board's decision to integrate the process of reaching a final agreement on a new quota formula with the 15th General Review of Quotas. We remain committed, together with the whole IMF membership, to agree on the quota formula and complete the 15th General Quota Review by January 2014 as agreed at the Seoul Summit and reiterated in Cannes and Los Cabos. We attach high importance to securing continued progress in meeting this objective, including by the time of the October 2013 G20 Ministerial and IMFC meetings. We reaffirm our previous commitment that the distribution of quotas based on the formula should better reflect the relative weights of IMF members in the world economy, which have changed substantially in view of strong GDP growth in dynamic emerging market and developing countries. We reaffirm the need to protect the voice and representation of the IMF poorest members as part of this General Review of Quotas.

54. Recognizing the importance of effective global safety nets, in Los Cabos we welcomed the commitments to increase temporary resources available to the IMF by US$ 461 billion made by a significant number of countries. Today we are pleased to announce that the vast majority of these committed resources have been made available to the IMF through bilateral loan or note purchase agreements. This broad cooperative effort demonstrates the international community's determination to enhance the IMF's role in crisis prevention and resolution and thus contribute to safeguarding global financial stability.

55. We also reiterate that Regional Financing Arrangements (RFAs) can play an important role in the existing global financial safety net. We reaffirm the common principles for cooperation between the IMF and RFAs that we adopted in Cannes, which emphasize the importance of cooperation while safeguarding the mandate and independence of the respective institutions. Recognizing recent work undertaken in this area by both the IMF and G20, we look forward to a flexible and voluntary dialogue between the IMF and RFAs on an ongoing basis through well-established communication channels. We take note of the importance of a dialogue among RFAs to foster an informal exchange of views and experiences in a flexible and voluntary way. In this context, we ask our Finance Ministers and Central Bank Governors to follow the developments and progress in the IMF-RFA cooperation, as well as the dialogue among RFAs.

56. Strengthening existing public debt management practices is important to achieve more resilient public finances. We welcome the ongoing work by the IMF and World Bank Group to review and update the "Guidelines for Public Debt Management" in light of recent experiences. We ask our Finance Ministers to consider, at their October meeting, progress in updating the Guidelines, and review the OECD's interim report on updating its leading practices for raising, managing, and retiring public debt, including on state guarantees.

57. Events in recent years have shown the importance of debt sustainability for all. We, therefore, endorse continued attention to this issue by the IMF and the World Bank. We also support the implementation of the IMF-World Bank Debt Sustainability

Framework for Low-Income Countries and will take the Framework into consideration in order to better inform our practices and promote sustainable financing and sustainable growth and development through appropriate channels. We agree that further inclusive discussions with low-income countries are needed on these issues, including on the possibility of developing guidelines for sustainable financing. We ask the IMF and the World Bank to continue assisting low-income countries at their request in developing prudent medium-term debt management strategies and enhancing their debt management capacity.

58. We note the work undertaken by the IMF and BIS in developing indicators that reflect global liquidity conditions, looking both at price and quantity-based measures. We call on the Fund to carry out further research with a view to develop proposals on how to incorporate global liquidity indicators more broadly into the Fund's surveillance work.

59. We reiterate that well developed local currency bond markets (LCBMs) play an important role in improving the resilience of the domestic economy and financial systems. We welcome the work of the IMF, the World Bank Group, the EBRD OECD and other IOs to implement the G20 Action Plan on the Development of LCBMs, including through the creation of a Diagnostic Framework on LCBM. We encourage International Organizations, other technical assistance providers, and country authorities to consider the use of the Diagnostic Framework in identifying and setting reform and capacity building priorities in support of LCBM development.

60. We will fulfill our commitment to contribute to a successful International Development Association (IDA) 17 Replenishment, as well as African Development Fund (AfDF) 13 Replenishment.

Financial Regulation

Achievements to date and a road ahead

61. In the past five years, we have made substantial progress in implementing internationally consistent reforms to our financial systems. All major jurisdictions, in part or in full, have:

- implemented new global capital standards (Basel 3);
- completed the necessary frameworks for OTC derivatives to be traded on exchanges or electronic trading platforms, centrally cleared, and reported;
- identified global systemically important banks and insurers, and agreed to subject them to heightened prudential standards to mitigate the risks they pose;
- implemented agreed tools and procedures for the orderly resolution of large, complex financial institutions without taxpayer loss; and
- progressed in addressing potential systemic risks to financial stability emanating from the shadow-banking system.

The international coordination and commitment to the implementation of these reforms is unprecedented. But we have more work to do. We are committed to maintain the momentum of reform until the job is done.

Towards a financial system that supports strong, sustainable and balanced economic growth

62. Since our commitments in Washington in November 2008 we have agreed and are implementing a broad range of policy reforms that address the major fault lines that caused the crisis, and ensure that all financial institutions, markets and participants are regulated or subject to oversight appropriate to their circumstances in an internationally consistent and non-discriminatory way. Our work has advanced substantially, but is not yet complete. We are fully committed to tackling systemic risk. We are building more resilient financial institutions, making substantial progress towards ending too-big-to-fail, increasing transparency and market integrity, filling regulatory gaps and addressing the risks from shadow banking. We are promoting continuously functioning financial markets by making derivatives markets safer, strengthening market infrastructure and reforming credit rating agencies.

63. We are committed to fully realizing the benefits of an open, integrated and resilient global financial system. To this end, we will continue to take necessary actions in each of our jurisdictions to fully implement the agreed reforms in a consistent and non-discriminatory way. We will enhance cooperation and information sharing.

64. We are promoting financial regulatory reforms targeted at reducing moral hazard and systemic risk and fostering a stable financial system that supports sustainable and balanced economic growth. Thus, we welcome the establishment this year of the FSB as a legal entity with greater financial autonomy and enhanced capacity to coordinate the development and implementation of financial regulatory policies. We also welcome the FSB overall and narrative progress reports on financial regulatory reform, prepared for our Summit, and the substantial progress achieved to date. We support the FSB's intention to review the structure of its representation and ask the FSB to report on this review to our next Summit.

65. We commend the progress made by the FSB together with standard setting bodies and the IMF and the World Bank Group in monitoring the effects of evolving regulatory reforms on emerging markets and developing economies (EMDEs) with the view to address material unintended consequences without prejudice to our commitment to implement the agreed reforms. We ask the IMF, the World Bank Group and standard setting bodies to step up their monitoring, analysis and assistance in this area. Lastly, we encourage the FSB to continue to monitor, analyze and report on the effects of evolving regulatory reforms on EMDEs as a part of its overall implementation monitoring framework.

66. We are resolved to see the financial reform agenda through to its completion in a manner that avoids fragmenting the global financial system. We will continue to cooperate on all financial regulation issues and look forward to further progress by our Finance Ministers, Central Bank Governors and the FSB when we next meet. We will also continue to monitor and assess the impact of financial regulatory reforms on the robustness of the financial system, stability and on economic growth, and on the availability of long-term finance for investment.

Building resilient financial institutions and ending "too-big-to-fail"

67. We reiterate our commitment to implement Basel III according to internationally agreed timelines and welcome the progress that has been made since Los Cabos. It is imperative that the Basel III standards are consistently applied. We therefore welcome the work of the Basel Committee on Banking Supervision (BCBS) to assess the consistency of jurisdictions' rules with Basel III and their updated progress report on Basel III implementation. We also welcome the recent BCBS report on the regulatory consistency of risk-weighted assets. We look forward to the work by the BCBS to improve comparability of regulatory capital ratios. We expect the BCBS to finalize its proposals on the remaining components agreed to in the Basel III framework – the internationally harmonized leverage ratio and the net stable funding ratio - in line with agreed timelines and procedures.

68. We welcome the FSB report on the progress made and next steps towards ending "too big to fail". We renew our commitment to make any necessary reforms to implement fully the FSB's Key Attributes of Effective Resolution Regimes for all parts of the financial sector that could cause systemic problems. We will undertake the necessary actions to remove obstacles to cross-border resolution. We reaffirm our commitment to ensure that supervisors have strong mandates, adequate resources and independence to act. We call on the FSB, in consultation with standard setting bodies, to assess and develop proposals by end-2014 on the adequacy of global systemically important financial institutions' loss absorbing capacity when they fail. We recognize that structural banking reforms can facilitate resolvability and call on the FSB, in collaboration with the IMF and the OECD, to assess cross-border consistencies and global financial stability implications, taking into account country-specific circumstances, and report to our next Summit.

69. We welcome the publication of the initial list of global systemically important insurers (G-SIIs), to which resolution planning and enhanced group-wide supervision will initially apply. We look forward to its annual update and to the finalization of a straightforward, group-wide capital requirement by the International Association of Insurance Supervisors by the next G20 Summit in 2014 that will serve as a foundation for higher loss absorbency requirements for G-SIIs. In addition, we look forward to its further work to develop a comprehensive, group-wide supervisory and regulatory framework for internationally active insurance groups, including a quantitative capital standard.

70. We ask the FSB, in consultation with the International Organization of Securities Commissions (IOSCO) and other standard setting bodies, to develop for public consultation methodologies for identifying global systemically important non-bank non-insurance financial institutions by end-2013. We call on the Committee on Payment and Settlement Systems and IOSCO to continue their work on systemically important market infrastructures.

Promoting transparent, continuously functioning financial markets

71. We welcome the FSB's report on progress in over-the-counter (OTC) derivatives reforms, including members' confirmed actions and committed timetables to put the agreed OTC derivatives reforms into practice. We also welcome the recent set of understandings by key regulators on cross-border issues related to OTC derivatives reforms, as a major constructive step forward for resolving remaining conflicts,

inconsistencies, gaps and duplicative requirements globally, and look forward to speedy implementation of these understandings once regimes are in force and available for assessment. We agree that jurisdictions and regulators should be able to defer to each other when it is justified by the quality of their respective regulatory and enforcement regimes, based on similar outcomes, in a non-discriminatory way, paying due respect to home country regulation regimes. We call on regulators in cooperation with the FSB and the OTC Derivatives Regulators Group to report on their timeline to settle the remaining issues related to overlapping cross-border regulatory regimes, and regulatory arbitrage.

72. We note the outcomes of the G20 high-level seminar on benchmarks and credit rating agencies. We call on national authorities and standard setting bodies to accelerate progress in reducing reliance on credit rating agencies, in accordance with the FSB roadmap. We encourage further steps to enhance transparency and competition among credit rating agencies and look forward to IOSCO's review of its

Code of Conduct for credit rating agencies. We support the establishment of the FSB's Official Sector Steering Group to coordinate work on the necessary reforms of financial benchmarks. We endorse IOSCO's Principles for Financial Benchmarks and look forward to reform as necessary of the benchmarks used internationally in the banking industry and financial markets, consistent with the IOSCO Principles.

73. We welcome the FSB's progress report on the implementation of the principles and standards for sound compensation practices. We reaffirm our commitment to ensure that these principles and standards are implemented in a consistent manner and ask the FSB to continue its ongoing monitoring.

74. We underline the importance of continuing work on accounting standards convergence in order to enhance resilience of financial system. We urge the International Accounting Standards Board and the US Financial Accounting Standards Board to complete by the end of 2013 their work on key outstanding projects for achieving a single set of high-quality accounting standards. We encourage further efforts by the public and private sector to enhance financial institutions' disclosures of the risks they face, including the ongoing work of the Enhanced Disclosure Task Force.

75. We reiterate our call for further progress and encourage adherence to international cooperation and information exchange standards for financial supervision and regulation.

Addressing risks posed by the shadow banking

76. We welcome the progress achieved in developing policy recommendations for the oversight and regulation of the shadow banking system, as an important step in mitigating the potential systemic risks associated with this market while recognizing that nonbank financial intermediation can provide an alternative to banks in extending credit to support the economy. We will work towards timely implementation of the recommendations while taking into account country specific circumstances. We welcome the respective FSB reports and agreed on a straightforward roadmap (Annex) for work on relevant shadow banking entities and activities with clear deadlines and actions to progress rapidly towards strengthened and comprehensive oversight and regulation appropriate to the systemic risks posed.

Tackling money laundering and terrorism financing

77. We reiterate our commitment to FATF's work in fighting money laundering and terrorism financing and its key contribution into tackling other crimes such as tax crimes, corruption, terrorism, and drug trafficking. In particular, we support the identification and monitoring of high-risk jurisdictions with strategic anti-money laundering (AML)/countering the financing of terrorism (CFT) deficiencies while recognizing the countries' positive progress in fulfilling the FATF's standards. We encourage all countries to tackle the risks raised by opacity of legal persons and legal arrangements, and we commit to take measures to ensure that we meet the FATF standards regarding the identification of the beneficial owners of companies and other legal arrangements such as trusts that are also relevant for tax purposes We will ensure that this information is available in a timely fashion to law enforcement, tax collection agencies and other relevant authorities in accordance with the confidentiality legal requirements, for example through central registries or other appropriate mechanisms. We ask our Finance Ministers to update us by our next meeting on the steps taken to meet FATF standards regarding the beneficial ownership of companies and other legal arrangements such as trusts by G20 countries leading by example.

Financial Inclusion, Financial Education, Consumer Protection

78. We welcome the progress made by the Global Partnership for Financial Inclusion (GPFI) on advancing financial inclusion and integrating consumer empowerment and protection, particularly through the establishment of the GPFI subgroup focused on Financial Consumer Protection and Financial Literacy. We endorse the extension of the G20 Basic Set into a more holistic set of the G20 Financial Inclusion Indicators, thereby enabling more informed financial inclusion target setting and monitoring. We acknowledge the support from the implementing partners, including the Alliance for Financial Inclusion (AFI), Consultative Group to Assist the Poor (CGAP), IFC, OECD and the World Bank. We endorse the recommendations laid out in the GPFI's report, annexed to this Declaration, and commit to further pursue these efforts under the Australian Presidency. We welcome the discussions of the AFI members to establish the organization as an independent international institution.

79. Recognizing the key role of small- and medium-size enterprises (SMEs) for promoting growth, job creation and poverty reduction, we welcome the progress made at the country level to address the specific challenges in access to finance faced by SMEs through the implementation of the SME Finance Challenge and the SME finance Initiative as well as the support for peer learning through the SME Finance Compact in cooperation with the Working Group on SME Finance of the AFI. As the SME finance gap remains large worldwide, we call upon the IFI/DFIs to further improve financial market infrastructure and to support the development of innovative tools to address the SMEs finance challenges and constraints.

80. We welcome practical tools to measure financial literacy and evaluate financial education programs, developed by the OECD/International Network for Financial Education (INFE) and the World Bank Group, support their widespread use in countries along with instruments to measure youth financial literacy such as the Programme for International Student Assessment (PISA). We also look forward to the development of international core competencies frameworks for adults and youth on financial literacy by

the OECD/INFE by our next Summit. We welcome progress reports on barriers for women and youth in financial inclusion and education prepared by the OECD/INFE and the World Bank Group and endorse the OECD/INFE policy guidance on addressing women and girls' needs for financial education. We endorse the recommendations of the progress report on women and finance, including that the GPFI, the OECD and the World Bank Group conduct a stocktaking of promising and successful initiatives to enhance women's financial inclusion. We welcome the G20 Russia's Presidency and the OECD publication on national strategies for financial education and look forward to the development by the OECD/INFE of a Policy Handbook on the Implementation of National Strategies for Financial Education by our next Summit. We support the work done by the G20/OECD Task Force on Financial Consumer Protection on the first set of effective approaches to support the implementation of the G20 High-Level Principles on Financial Consumer Protection and look forward to their report on other principles in 2014. We take note of the formalization process of the FinCoNet and look forward to its conclusion.

•

Promoting Development for All

81. Supporting strong, sustainable, inclusive and resilient growth and narrowing the development gap remain critical to our overall objective for jobs and growth. In this regard, we welcome the progress within the forum achieved this year, in particular on:

- Food Security: Support to the Secure Nutrition Knowledge Platform, exchange of best practices through the seminar on "Food Security through Social Safety Nets and Risk Management", and convening the second G20 Meeting of Agricultural Chief Scientists, along with its ongoing work to identify global research priorities and targets and support results-based agricultural research in 2014.

- Infrastructure: Completion of the Assessment of Project Preparation Facilities (PPFs) for Infrastructure in Africa; a toolkit on Urban Mass Transportation Infrastructure Projects in Medium and Large Cities by the World Bank and the ADB; and a public-private partnerships (PPP) sourcebook by the World Bank, IDB and ADB, and progress in implementing the recommendations of the High Level Panel on Infrastructure.

- Financial Inclusion: Enhanced coherence with the G20 finance track through the Global Partnership for Financial Inclusion (GPFI) to pursue efforts to strengthen financial inclusion including work to further reducing the global average cost of transferring remittances to 5% including through innovative result-based mechanisms, to enhance financial literacy and consumer protection for the poor and to foster access to finance for investment, for SMEs for growth, job creation and poverty reduction; and together with the IFC launching the Women Finance Hub.

- Human Resource Development: Launch of a global public-private knowledge sharing platform on skills for employment and the development of national actions plans on skills for employment in LICs and of a database on skills indicators.

- Inclusive Green Growth: Further development, dissemination and implementation of the non-prescriptive, voluntary toolkit of policy options for inclusive green growth in the context of sustainable development, including a workshop with developing countries, and initiation of the G20 Dialogue Platform on Inclusive Green Investments for sustainable development and poverty eradication.

- Domestic Resource Mobilization: Continued work on strengthening tax administrations in developing countries, particularly LIC's, through both bilateral and multilateral programs, such as the work of the OECD and G20 members on BEPS, automatic exchange of information, the Global Forum on Transparency and Exchange of Information for Tax Purposes and "Tax Inspectors without Borders" and the expansion of the work of the World Bank Group and the IMF to support developing countries' ability to raise domestic resources.

82. We acknowledge that food security and nutrition will remain a top priority in our agenda. We recognize the importance of boosting agricultural productivity, investment and trade to strengthen the global food system to promote economic growth and job creation. We encourage all ongoing efforts in the agricultural sector to further reduce hunger, under-nutrition and malnutrition, through increased coordination in the G20 to promote the identification and implementation of effective actions in support of production and productivity growth as well as enhancement of food security and nutrition for vulnerable population through, among others, nutrition sensitive policies and comprehensive social protection systems, with particular emphasis on low income countries. We support discussions in the WTO to respond to legitimate food security concerns, without distorting trade, including those related to carefully targeted policies to protect vulnerable populations. We recognize that the agricultural market situation needs closer attention and that the Agricultural Market Information System (AMIS) is generating better transparency and still needs more efforts to be fully implemented. We reaffirm our determination to implement all previous G20 commitments and existing initiatives including that stated in the Action Plan on Food Price Volatility and Agriculture which the G20 endorsed in 2011.

83. We welcome the Saint Petersburg Accountability Report on G20 Development Commitments, which sets out the progress achieved since we adopted the 2010 Seoul Multi-Year Action Plan on Development (MYAP) (Annex). This report demonstrates that many of our development commitments have now been implemented and identifies lessons learned and it highlights the successes achieved. The Accountability Report underlines the importance of continued monitoring and identifies areas where we must continue to work and opportunities to strengthen and streamline the G20 development agenda.

84. In this spirit, we endorse the Saint Petersburg Development Outlook, which states our core priorities, new initiatives and ongoing commitments (Annex). Building on the foundation of the 2010 Seoul Development Consensus for Shared Growth, the Outlook frames the approach to our future work. We ask the Development Working Group to focus on concrete actions under the core priorities of food security, financial inclusion and remittances, infrastructure, human resource development and domestic resource mobilization, and to deliver specific outcomes at the Brisbane summit. We commit to improve working practices for more effective outcomes by:

- concentrating on fewer key areas where action and reform remain most critical to ensure inclusive and sustainable growth in developing countries;

- enhancing policy coordination across different G20 work streams in order to ensure greater impact on developing countries;

- implementing a forward accountability process to improve monitoring and coordination, and ensure greater transparency of our work;

- continuing to expand engagement and partnerships with stakeholders, including non-G20 countries (especially LICs), international organizations, the private sector and civil society;

- ensuring flexible approaches to respond to new priorities and circumstances.

85. We welcome the substantial progress towards achieving the Millennium Development Goals (MDGs) since 2000 and the success in galvanizing global action to reach specific targets globally, as well as in individual countries, particularly in eradicating extreme poverty and promoting development. However, the prospects for achieving all of the MDGs differ sharply across and within countries and regions. We remain committed to accelerating progress towards achieving the MDGs, particularly through the implementation of our development agenda and our focus on promoting strong, sustainable, inclusive and resilient growth.

86. We support the ongoing efforts in the UN for the elaboration of the post-2015 development agenda. We commit to participate actively in this process and engage in the discussion on the direction of the new framework and its key principles and ideas and effectively contribute to the timely conclusion of the process. The final outcome will be determined through an intergovernmental process in which we will all participate, but much preparatory work is still underway. We welcome the contribution of the report prepared by the High-Level Panel of Eminent Persons on the Post-2015 Development Agenda, which sets out some illustrative goals We also welcome the ongoing work of the UN General Assembly Open Working Group on Sustainable Development Goals and Intergovernmental Committee of Experts on Sustainable Development Financing. We stress the crucial importance of collective action, including international development cooperation, based on the principles outlined in the Millennium Declaration, the 2012 Rio+20 outcome document “The Future We Want”, the Istanbul Declaration and Programme of Action of the Fourth UN Conference on Least Developed Countries and the outcomes of other relevant UN Conferences and Summits in the economic, social and environmental fields.

87. We call for an agreement on an integrated post-2015 development agenda with concise, implementable and measurable goals taking into account different national realities and levels of development and respecting national policies and priorities, focused both on the eradication of extreme poverty, promoting development and on balancing the environmental, economic and social dimensions of sustainable development. We commit to ensure that G20 activities beyond 2015 are coherent with the new development framework.

88. To improve rapid and effective responses to the outbreak of new diseases that threaten human life and disrupt economic activity, we call on countries to strengthen compliance with the World Health Organization’s International Health Regulations.

89. We acknowledge the progress already made by G20 members on duty-free and quota-free (DFQF) market access for the LDCs products.

Sustainable Energy Policy and Resilience of Global Commodity Markets

90. Access to energy is a key factor to achieve better quality of life and to improve global economic performance. Access to reliable and affordable energy is particularly critical to the development agenda, poverty eradication and social inclusion. Transparent, well-functioning, reliable energy markets and sufficient investment are needed to boost economic growth, job creation and sustainable development.

91. To promote market transparency and efficiency, we commit to strengthen Joint Organizations Data Initiative (JODI) - Oil by ensuring greater visibility, more complete and comprehensive data, enhanced access and improved availability, and by maintaining support for capacity building. We look forward to the launch of JODI-Gas at earliest date possible. We note the second report prepared by the International Energy Agency (IEA), the International Energy Forum (IEF) and the Organization of the Petroleum Exporting Countries (OPEC) in May 2013 on practical steps to increase transparency in international gas and coal markets. We ask the IEF to come back with a report on progress in these areas before the next G20 Ministers of Finance and Central Bank Governors meeting in October.

92. We welcome the Report on energy-related issues including on G20 work to facilitate better functioning of physical and financial commodity markets. We welcome Finance ministers' commitment to take actions on PRAs as set out in their Communique of July 20, 2013 with a view to improve their functioning through transparency and regulation as appropriate, and would welcome a further update in 2014. We also call on Finance ministers to monitor on a regular basis the proper implementation of IOSCO's principles for the regulation and supervision on commodity derivatives markets and encourage broader publishing and unrestricted access to aggregated open interest data.

93. We welcome efforts aimed at promoting sustainable development, energy efficiency, inclusive green growth and clean energy technologies and energy security for the long term prosperity and well being of current and future generations in our countries. We will continue in cooperation with international organisations sharing national experiences and case studies regarding sustainable development, clean energy, and energy efficiency as well as development, deployment and broader application of related technologies and will take forward work, on a voluntary basis, on corresponding policy options and technologies. We take note of the new World Bank report 'Toward a Sustainable Energy Future for All', which aims to promote access to reliable and affordable energy in developing countries and recognise the importance of the sustainable and responsible production and use of modern bioenergy and the role played by the Global Bioenergy Partnership (GBEP) in this regard.

94. We reaffirm our commitment to rationalise and phase out inefficient fossil fuel subsidies that encourage wasteful consumption over the medium term while being conscious of necessity to provide targeted support for the poorest. We welcome the efforts underway in some G20 countries as described in the country progress reports. We welcome the development of a methodology for a voluntary peer review process and the initiation of country-owned peer reviews and we encourage broad voluntary participation in reviews as a valuable means of enhanced transparency and accountability. We ask Finance Ministers to report back by the next Summit on

outcomes from the first rounds of voluntary peer reviews. Recognising the importance of providing those in need with essential energy services, we ask Finance Ministers to consider, in conjunction with the relevant international institutions, policy options for designing transitional policies including strengthening social safety nets to ensure access for the most vulnerable.

95. Sizable investment, including from private sources, will be needed in the G20 and other economies in energy infrastructure in the years ahead to support global growth and development. It is our common interest to assess existing obstacles and identify opportunities to facilitate more investment into more smart and low-carbon energy infrastructure, particularly in clean and sustainable electricity infrastructure where feasible. In this regard we encourage a closer engagement of private sector and multilateral development banks with the G20 Energy Sustainability Working Group (ESWG) and call for a dialogue to be launched on its basis in 2014 that will bring interested public sector, market players and international organizations together to discuss the factors hindering energy investment, including in clean and energy efficient technologies and to scope possible measures needed to promote sustainable, affordable, efficient and secure energy supply.

96. Regulation among other policy levers can play an important role in creating a proper context for investment. Noting that regulatory roles differ from country to country and that regulation remains a country-led process, but in some cases is shared within regional integration space, we welcome the dialogue between interested G20 national power sector regulators supported by regulatory associations and international organisations, and take note of the statement they have provided on sound regulation and promoting investment in energy infrastructure agreed at the G20 Outreach Energy Regulators Round Table in Kazan. In the context of our efforts to promote investment in energy infrastructure, notably in clean, affordable and sustainable energy, and in order to engage all interested parties, we encourage interested regulators to continue their dialogue and ask the ESWG to take note of this dialogue.

97. Many countries are trying to improve their energy mix and use, such as by promoting renewable and/or nuclear energy. Nuclear power is a low-carbon option, but it is capital intensive and comes with responsibilities for nuclear safety, security and safeguards/nonproliferation. G20 countries, whether nascent or established nuclear power producers should strive for the highest possible level of nuclear safety, to foster robust nuclear safety and nuclear security cultures and, as called for in the International Atomic Energy Agency (IAEA) Action Plan on Nuclear Safety, we encourage multilateral cooperation towards achieving a global nuclear liability regime.

98. We appreciate the progress achieved since the establishment of the G20 Global Marine Environment Protection (GMEP) Initiative and welcome the launch of the GMEP Initiative website as a key element of the GMEP Mechanism for the voluntary exchange of national best practices to protect the marine environment, in particular to prevent accidents related to offshore oil and gas exploration and development, as well as marine transportation, and to deal with their consequences. We encourage participants to make full use of the website and share relevant information under the auspices of the G20 in cooperation with relevant international organizations in accordance with the GMEP mandates.

99. We recognize the value of multilateral cooperation and coordination in advancing the global energy security agenda through resilient energy markets and welcome the

IEA's current efforts to deepen its engagement with non-members and will monitor progress in this regard.

Pursuing the Fight against Climate Change

100. Climate change will continue to have a significant impact on the world economy, and cost will be higher to the extent we delay additional actions. We reiterate our commitment to fight climate change and welcome the outcome of the 18th conference of the Parties to the UN climate change conferences. We are committed to a full implementation of the outcomes of Cancun, Durban and Doha and will work with Poland as the incoming presidency towards achieving a successful outcome at COP 19.

101. We are committed to support the full implementation of the agreed outcomes under the United Nations Framework Convention on Climate Change (UNFCCC) and its ongoing negotiations. We strongly welcome the efforts of the Secretary-General of the United Nations to mobilize political will through 2014 towards the successful adoption of a protocol, another legal instrument, or an agreed outcome with legal force under the convention applicable to all Parties by 2015, during COP-21 that France stands ready to host. We also support complementary initiatives, through multilateral approaches that include using the expertise and the institutions of the Montreal Protocol to phase down the production and consumption of hydrofluorocarbons (HFCs), based on the examination of economically viable and technically feasible alternatives. We will continue to include HFCs within the scope of UNFCCC and its Kyoto Protocol for accounting and reporting of emissions.

102. Taking note of the developments over the past year, we support the operationalization of the Green Climate Fund (GCF). We welcome the report of the G20 Climate Finance Study Group on G20 countries' experiences on ways to effectively mobilize climate finance taking into account the objectives, provisions, and principles of the UNFCCC. For the purpose of elaborating on the issues and identifying approaches to climate finance, we ask our Finance Ministers to continue the work building on the working group report and report back to us in one year.

Intensifying Fight Against Corruption

103. Corruption is a severe impediment to sustainable economic growth and poverty reduction and can threaten financial stability and the economy as a whole. Corruption is corrosive, destroying public trust, distorting the allocation of resources and undermining the rule of law. To provide a better understanding of the factors constraining the economic potential of countries affected by corruption, we make available the Issues Paper on Anti-Corruption and Economic Growth and encourage the OECD, in collaboration with the World Bank to continue work in this area.

104. As a group of the world's largest economies, the G20 has the potential to create unstoppable momentum towards a global culture of intolerance towards corruption. We will redouble our efforts to achieve this goal, in particular by enhancing transparency and closing implementation and enforcement gaps.

In this regard:

105. We warmly welcome the ratification by Saudi Arabia of the United Nations Convention against Corruption (UNCAC). We will continue to encourage all G20 member-countries to ratify and implement the UNCAC, and encourage engagement with the OECD Working Group on Bribery with a view to explore possible adherence to the OECD Anti-bribery Convention as appropriate. We commit to lead by example by enhancing the transparency and inclusivity of our UNCAC reviews by making use on a voluntary basis of the options in the Terms of Reference to the UNCAC Review Mechanism.

106. We reiterate our determination to combat domestic and foreign bribery, as well as solicitation, and endorse the non-binding Guiding Principles on Enforcement of the Foreign Bribery Offence and the Guiding Principles to Combat Solicitation.

107. We will continue to develop and strengthen frameworks to facilitate cooperation among G20 member-countries in the fight against corruption. We have established a G20 network to share information and cooperate in order to deny entry to our countries by corrupt officials and those who corrupt them, in accordance with national laws and regulations. To enhance international collaboration in the investigation and prosecution of corruption offences, as well as in the recovery of proceeds of corruption, we endorse the High-Level Principles on Mutual Legal Assistance.

108. We renew our commitment to ensure the independence of the judiciary, as well as to share best practices and enforce legislation to protect whistleblowers, ensure the effectiveness of anti-corruption authorities free from any undue influence, and promote the integrity of public officials.

109. We also place a high value on implementing and raising awareness regarding effective anti-corruption education programs to build and reinforce a culture of intolerance towards corruption.

110. We express support for the FATF's ongoing work in the anti-corruption field. Leveraging anti-money laundering (AML)/countering the financing of terrorism (CFT) measures to fight corruption will remain a significant area of growing cooperation between anti-corruption experts of the G20 and FATF as well as increasing cooperation against tax crimes, addressing the risks posed by tax havens.

111. We will pay special attention to combating corruption in high-risk sectors. We commend the efforts to fight corruption in organization of sporting, cultural and other major international events and welcome the initiative to develop a Global Alliance for Integrity in Sports. We also commit to promote integrity in buy-and-sell relations between the public and private sectors, including public procurement and privatization of state-owned property. We welcome initiatives aimed at increasing extractive transparency, including voluntary participation in the Extractives Industries Transparency Initiative (EITI) and take note of the progress. We ask the G20 Anti-Corruption Working Group to further follow this issue.

112. We recognize that a culture of intolerance towards corruption will only be achieved if we work in partnership with business and civil society. We commit to maintain and build on the enhanced dialogue between the G20 Anti-Corruption Working Group and the B20 and C20, and have taken note of the recommendations of these two groups. In particular, we welcome the business community's initiatives to enhance anti-

corruption collective actions and to develop institutional arrangements to promote anti-corruption compliance in the private sector.

113. We welcome the progress which the G20 Anti-Corruption Working Group is making to implement its 2013-14 Action Plan and commend its Progress Report which is annexed to this statement. Recognizing that the fight against corruption will require sustained, concerted effort, we endorse the St. Petersburg Strategic Framework to guide the work of the ACWG and provide a foundation for the Action Plans. In 2014, we will advance our existing commitments and consider further G20 actions on the global fight against corruption.

Conclusion

114. We thank Russia for its G20 Presidency and for hosting the successful Saint Petersburg Summit, and we look forward to our next meeting in Brisbane in November 2014 under the Australian Presidency.

Policy Note

Global governance and global rules for development in the post-2015 era

United Nations
June 2014

DESA

The Department of Economic and Social Affairs of the United Nations Secretariat is a vital interface between global policies in the economic, social and environmental spheres and national action. The Department works in three main interlinked areas: (i) it compiles, generates and analyses a wide range of economic, social and environmental data and information on which States Members of the United Nations draw to review common problems and to take stock of policy options; (ii) it facilitates the negotiations of Member States in many intergovernmental bodies on joint courses of action to address ongoing or emerging global challenges; and (iii) it advises interested Governments on the ways and means of translating policy frameworks developed in United Nations conferences and summits into programmes at the country level and, through technical assistance, helps build national capacities.

Note

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

The term “country” as used in the text also refers, as appropriate, to territories or areas.

The designations of country groups are intended solely for statistical or analytical convenience and do not necessarily express a judgment about the stage of development reached by a particular country or area in the development process.

The views expressed in this publication are those of the Committee for Development Policy and do not necessarily reflect the opinions and policies of the United Nations.

Acknowledgements

The present note reflects the collective views of the members of the Committee for Development Policy. The analysis and ideas that they contributed during its preparation are greatly appreciated. Special thanks should be extended to José Antonio Alonso, Giovanni Andrea Cornia, Ana Luiza Cortez, Diane Elson, Sakiko Fukuda-Parr, Stephan Klasen, Keun Lee, Leonce Ndikumana, José Antonio Ocampo, Tea Petrin, Claudia Sheinbaum, Madhura Swaminahan and Dzodzi Tsikata, who prepared background notes and contributed other materials that served as important inputs for both the Committee's deliberations and the present Policy Note. The publication also relied on comments from other CDP members and the substantive support from Ana Luiza Cortez, Hiroshi Kawamura and Namsuk Kim of the CDP Secretariat.

Foreword

As we quickly approach the target year for achieving the Millennium Development Goals (MDGs), Member States of the United Nations have initiated a process to identify approaches to development strategies and goals for the post-2015 era. Guided by the principles identified in the outcome document of the 2012 United Nations Conference on Sustainable Development (Rio+20), progress has been made in the intergovernmental deliberations on defining a set of sustainable development goals and on developing a financing strategy for sustainable development.

At the same time, the members of the Committee for Development Policy (CDP)—an expert body of the Economic and Social Council composed of 24 members serving in their personal capacity—have been providing intellectual leadership on the possible contours of the United Nations development agenda for the post-2015 era. Previous work of the Committee focused on the delineation of the national strategies necessary for achieving the internationally agreed development goals. At its plenary meeting in 2014, the Committee shifted its attention to the international dimensions of the development agenda. In particular, it considered how global governance and global rules could be strengthened to make them more conducive to development in the post-2015 era. For the CDP, MDG 8 on the global partnership for development—addresses global governance in an incomplete way. In the Committee's opinion, intergovernmental cooperation is at the centre of the global partnership for development, and its role in the achievement of global development goals goes beyond the resources and technical assistance it can provide. Intergovernmental cooperation is also required when global policy decisions are taken and when global rules and norms are set, especially by multinational institutions that are in need of reform. The Committee argues that strengthening global governance and global rules is necessary in order to manage the increasing interdependence among countries more efficiently, to reduce existing inequalities, and to guarantee the necessary policy space for countries to pursue their own priorities within the limits given by interdependence.

Existing proposals to reform the current global partnership are not truly comprehensive. The present Policy Note provides important input towards filling this gap. An expanded version of the 2014 report of the

Committee for Development Policy to the Economic and Social Council, the Note elaborates the arguments presented in that report and includes additional detailed information and analysis. It provides practical policy recommendations on the way forward and on strengthening the role of the United Nations in achieving sustainable development worldwide. I am confident that Member States, development practitioners and the international community at large will consider the findings contained in this Note an insightful contribution to their discussions on how to promote a sustainable world free of poverty and a life of dignity for all.

Wu Hongbo
Under-Secretary-General for Economic and Social Affairs
United Nations
May 2014

Summary

Intergovernmental cooperation is at the centre of the global partnership for development. It has a vital role to play in the achievement of global development goals, in terms not only of the resources and technical assistance it can provide, but also in the areas of policy decision-making and norm-setting. Global governance encompasses the totality of institutions, policies, norms, procedures and initiatives through which States and their citizens try to bring more predictability, stability and order to their responses to transnational challenges. Effective global governance can only be achieved with effective international cooperation. Neither the existing proposals to strengthen global governance nor the global rules to support development are fully satisfactory; they have also not received sufficient attention by the intergovernmental processes addressing the development agenda for the post-2015 era. This Note presents comprehensive yet practical recommendations on how international cooperation, through its various institutions, arrangements and rules, could be reformed and strengthened to achieve and sustain development gains beyond post-2015.

It argues that international cooperation and the resulting governance mechanisms are not working well. First, the current global governance system is not properly equipped to manage the growing economic integration and interdependence among countries, both of which are compounded by the current globalization process. Globalization tends to accentuate interdependencies among countries. Second, global governance structures and rules are characterized by severe asymmetries in terms of access, scope and outcomes. While developing countries must abide by and/or shoulder the effects of global governance rules and regulations, they have limited influence in shaping them. Meanwhile, the unbalanced nature of globalization implies that important areas of common interest are currently not covered, or sparsely covered, by global governance mechanisms, while other areas are considered to be overdetermined or overregulated by a myriad of arrangements with different rules and provisions, causing fragmentation, increased costs and reduced effectiveness. These deficiencies have contributed to the generation of asymmetric outcomes among countries and have had important implications for inequality at the national level as well. Finally, current approaches to global governance and global rules have led to a greater shrinking of policy space for national Governments, par-

ticularly in the developing countries, than necessary for the efficient management of interdependence; this also impedes the reduction of inequalities within countries.

Five principles are critical to guiding the reforms of global governance and global rules:

(i) *Common but differentiated responsibilities and respective capacities*: This principle calls for recognizing differences among countries in terms of their contribution and historical responsibilities in generating common problems, as well as divergences in financial and technical capacities, in order to address shared challenges. This principle also acknowledges the diversity of national circumstances and policy approaches—a diversity which should be embedded in the architecture of global governance as an intrinsic feature of the global community, not as an exception to general rules.

(ii) *Subsidiarity*: Issues ought to be addressed at the lowest level capable of addressing them. This principle implies that some problems can be handled well and efficiently at the local, national, subregional and regional levels reducing the number of issues that need to be tackled at the international and supranational level. Subsidiarity suggests an important role for regional cooperation in addressing issues of mutual concern.

(iii) *Inclusiveness, transparency, accountability*: Global governance institutions need to be representative of, and accountable to, the entire global community, while decision-making procedures need to be democratic, inclusive and transparent. Robust governance implies mutual accountability, verified by transparent and credible mechanisms and processes to ensure that agreed commitments and duties are fulfilled.

(iv) *Coherence*: Definitions of global rules and processes need to rest on comprehensive approaches, including the assessment of possible trade-offs, so that actions in different areas will not undermine or disrupt one another, but instead be mutually reinforcing. Enhanced coherence is also needed between the international and national spheres of policymaking. This also requires improved coordination among various stakeholders and enhanced information sharing.

(v) *Responsible sovereignty*: This principle recognizes that policy cooperation is the best way to achieve national interests in the global public domain. It also requires Governments and States to be fully respectful of the sovereignty of other nations so as to fulfil agreed policy outcomes.

After laying out these core principles, this Note then examines how the principles could be applied to strengthen key areas of international cooperation that are in need of reform. It identifies deficiencies in their respective governance structures and makes recommendations on how to address the shortcomings based on the five principles introduced above.

In the final section, the Note considers the role of the United Nations in the global governance architecture. It argues that the General Assembly, with its universal membership and democratic decision-making process, should function as the main political forum for managing global challenges, in close interaction with the Economic and Social Council and its subsidiary bodies on economic, social and environmental issues. For the Organization to utilize its distinct advantages, however, Member States need to strengthen its position in global governance. In particular, the Note suggests that the Economic and Social Council take on greater responsibility for advancing the global governance reform agenda, and that it provide guidance to the United Nations system in addressing current governance deficiencies in areas requiring improved international cooperation. These areas include the environment, international monetary and financial architecture, capital and labour flows, trade rules and inequality. Moreover, the Council's ability to coordinate and guide should be supported by appropriate follow-up and monitoring mechanisms for bridging the gap between commitments made and their implementation. The layout of such a system will require special attention in relation to the quantification of targets, data collection, and definitions and indicators measuring representativeness, inclusiveness, transparency and coherence of global governance.

The implementation of the post-2015 development agenda ultimately depends on the political will of Member States. Success will depend on whether all countries contribute to the reform of global governance and use their policy space to implement policies for achieving common goals. The probability of failing will remain high if global challenges continue to be approached from the narrow national perspective. It is therefore urgent that States cooperate in creating the conditions that will facilitate implementation of the current and future United Nations development agenda.

Global governance and global rules for development in the post-2015 era

I. Introduction

The Millennium Development Goals (MDGs) are an expression of the broader United Nations development agenda agreed to at several United Nations conferences and summits convened over many decades (United Nations, 2007). These goals, as well as the broader United Nations development agenda, underscore a global consensus, a shared vision of inclusive development, based on the three pillars of sustainable development: economic, social and environmental. They have also been instrumental in drawing attention to development as a global priority and have become reference points for development policy debates and practices worldwide. Yet, the MDGs address issues of global governance in an incomplete and limited way. Goal 8, the global partnership for development, is often recognized as the least satisfactory of the MDGs. In fact, the Committee for Development Policy (CDP) had already noted that the "MDG narrative… leaves out much of the important economic policy agenda of developing countries in international negotiations. Issues of asymmetric power and lack of voice in international rules related to trade, investments and finance as well as policy space and control over national economic policies are barely reflected in the MDGs. While they do include a specific goal on the building of a global partnership for development (Goal 8), its wording is weak and lacks quantitative targets in several aspects" (United Nations, 2012a, p.13).

Intergovernmental cooperation is at the centre of the global partnership for development and has a vital role to play in the achievement of global development goals, not only in terms of the resources and technical assistance it can provide, but also in policy decision-making and norm-setting. Existing proposals to strengthen global governance and global rules to support development do not seem to be truly comprehensive and have not received sufficient attention by the international community in discussions on the development agenda for the post-2015 era.

The “institutional view”, as embodied by various reports of the United Nations System Task Team and the Secretary-General, seems to reduce the tasks of the global partnership for development to goal setting, monitoring and the provision of means of implementation (with participation from several actors in addition to Governments), without, however, considering the adequacy of the rules and institutions that shape the environment where economies operate.

Deliberations at the General Assembly Open Working Group (OWG) on Sustainable Development Goals (SDGs) include consideration of the issue of governance, but its discussions are focused on rule of law, largely applicable to national contexts (particularly “failed” States) and in post-conflict situations. When transposed to the global level, the concept seems to apply to means of implementation, accountability and monitoring, with few isolated suggestions on the areas of technology transfer, trade and official development assistance (ODA).

Lastly, the High-level Panel of Eminent Persons on the Post-2015 Development Agenda seems to reduce the global partnership to a collection of multi-stakeholder partnerships contributing to the implementation of each specific goal.

All these conceptions are incomplete at best, and reflect the insufficient attention that current discussions on the post-2015 agenda have given to global governance. The present report aims to help fill this gap. It will look more specifically at how international cooperation, through its various institutions, arrangements and rules, could be reformed and strengthened for achieving and sustaining development gains in the post-2015 era.

The remainder of the report is organized as follows: Section II identifies the shortcomings and areas that need further strengthening in the current system of global governance. It also puts forward the necessary principles that should guide the reform process. Section III looks more closely at selected areas of global governance. On the basis of the guiding principles identified in the previous section, Section III also indicates the direction that reforms should take. Section IV examines the role of the United Nations in global governance. It recognizes key important features of the Organization in terms of its universality, inclusiveness and transparency. It stresses that the achievement of sustainable development worldwide requires a stronger and more effective United Nations at the centre of global governance, as opposed to a loosely defined, uncoordinated multi-stakeholder approach.

II. Global governance and global rules: why do they need reform?

Scholars have used the term “governance” to denote the regulation of interdependent relations in the absence of overarching political authority, such as in the international system. It encompasses the institutions, policies, norms, procedures and initiatives through which states and their citizens try to bring more predictability, stability, and order to their responses to transnational challenges. While the importance of global governance has been acknowledged, we are witnessing the increasing need to manage global problems more effectively in the face of increased interdependence.

Effective global governance cannot be achieved without effective international cooperation. Besides being a manifestation of international solidarity, international cooperation is a means to promote common interests and shared values and to reduce the vulnerabilities generated by increased interdependence. It is also a legal obligation. Already in 1945, Member States of the United Nations recognized the centrality of “international cooperation in solving international problems of an economic, social, cultural, or humanitarian character, and in promoting and encouraging respect for human rights and for fundamental freedoms for all without distinction as to race, sex, language, or religion” (United Nations , 1945, Article III). With the adoption of the Universal Declaration of Human Rights in 1948, and the subsequent international treatises that put the Declaration into effect, there is legal obligation for States to facilitate the realization of human rights by all individuals through international cooperation. While the fulfillment of human rights is the primary responsibility of individual States, there is also an international obligation for States to remove those obstacles that are beyond the reach of individual nation states and that impede the creation of the conditions and social arrangements necessary for the fulfillment of human rights (Fukuda-Parr, 2006). Meanwhile, the Declaration on the Right to Development (United Nations, General Assembly, 1986) explicitly calls on States to act collectively, as well as individually, to create an enabling environment for development, particularly by removing obstacles and creating opportunities (Ibid., Preamble, articles 1, 2, 4, and 7).

International cooperation and the resulting governance mechanisms are not working adequately or effectively. Responses to common challenges have been mostly taken at the national level, with global responses being insufficient, incomplete or simply non-existent. Moreover, there has been growing tension between decision-making processes at the national and global level as local challenges “have become an integral part of global stakes” (Severino and Roy, 2009, p. 9). Domestic policies can have significant (positive and negative) spillover effects on global well-being, depending on the weight of a given economy and the pattern of its integration into the global economy. Thus, a main question is how to reform the institutions responsible for global governance. In this regard, three main issues emerge: (i) the current global governance system is not properly equipped to manage the growing integration and interdependence among countries; (ii) the current system is characterized by marked asymmetries in terms of access, processes and outcomes; and, (iii) global rules have led to a shrinking of the policy space of national Governments, particularly of developing countries, in ways that impede the reduction of inequalities within countries and is well beyond what is necessary for an efficient management of interdependence.

Interdependence and global public goods

The current globalization process tends to accentuate interdependencies among countries, widening the scope of global public goods (GPGs). Public goods and services are characterized by their non-rival consumption—peace and security, for example—and whose consumption is non-excludable. In other words, once they are supplied, public goods, such as early warning systems, benefit everyone. Typically, social or collective net benefits accruing from the provision of public goods are larger than private or individual benefits, leading to an undersupply of these goods by the market. GPGs are public goods that generate benefits (or costs) with global reach or of a transnational nature (i.e., regional and subregional). Accordingly, GPGs require collective action among countries, coordinated by Governments, to be delivered in sufficient quantities and in an efficient manner (Kaul, Grunberg and Stern, eds., 1999; World Bank, 2008). A strong relationship exists between GPGs and development agendas: failures in one domain can produce setbacks in the other (United Nations, Committee for Development Policy, 2013).

Currently, GPGs are insufficiently supplied, creating negative consequences for all. Meanwhile, the supply of global public “bads” (emission of greenhouse gases, tax havens, biodiversity losses, human trafficking, etc.), resulting from a lack of or ineffective collective action, is not adequately constrained or properly regulated. Some areas of common interest, such as commodity markets and migration, are sparsely or not at all covered by global governance mechanisms. Others are overdetermined or overregulated by a myriad of arrangements with different rules and provisions, causing fragmentation, increased costs and reduced efficiency. International trade is a case in point with the mushrooming of bilateral and regional free trade agreements that have differing rules of origin and standards requirements.

Globalization and its asymmetries

Global governance structures and rules are characterized by severe asymmetries. There are marked *asymmetries of access* to the various decision-making processes, with developing countries having to abide by and/or shoulder the effects of rules and regulations over which they have limited influence. While resolutions by the United Nations General Assembly reflect the rule of one country, one vote, they do not create binding obligations. Representation of developing countries' shares in International Monetary Fund (IMF) quotas does not reflect their shares in the world economy today, and the moderately ambitious 2010 reform has not yet been implemented. In any case, decisions on global monetary cooperation seemed to have bypassed the IMF and taken place in the "G sphere"— the 1985 Plaza Accord, the 1987 Louvre Accord and, more recently, the Group of Seven, for example. The creation of the Group of Twenty (G20) in the aftermath of the 2008 crisis includes some major developing countries and, in principle, may be a better reflection of power distribution in the world; these countries account for about 85 per cent of global gross domestic product (GDP) and about 65 per cent of the world's population (figure 1). However, the vast majority of developing countries are excluded. In reality, the G20 represents a continuation of a pattern that could be called "elite multilateralism" (Ocampo, 2011), a framework that raises serious concerns about representativeness, inclusiveness and accountability.

An important force shaping governance at national and international levels is big corporations, which lobby for laws and policies that serve their interests. For example, in the preparation of the Transatlantic Trade and Investment Partnership, the Commission of the European Union has held at least 119 closed-door meetings with large corporations and their

Figure 1

Note: World gross product calculated on the basis of current United States dollar market exchange rates.

lobbying groups, but has only held a handful of meetings with trade unions and consumer groups (Transnational Institute, 2014). Some counterweight to corporate power is provided by public interest non-governmental organizations (NGOs). While today some NGOs have very significant influence, resources at their disposal are relatively small when compared to those of large corporations.

The current global governance structure also reflects the asymmetric character or the *unbalanced nature of globalization*. There have been important processes that facilitate the mobility of capital and of goods and services; other processes have restricted access to knowledge and innovation. There are only timid attempts to facilitate skilled-labour mobility and severe restrictions on the migration of unskilled labour. In fact, the average annual world inflows of foreign direct investment (FDI) jumped from US$ 200 billion in 1990-1995 to US$ 1500 billion in 2005-2010, a seven-fold increase. The corresponding figures for world exports of goods and services recorded a four-fold increase, from US$ 4.8 trillion to US$ 16.2 trillion. Meanwhile, the annual average net migratory outflows from developing countries are estimated to have increased from 12 million people in 1990-1995 to 17 million in 2005-2010 (figures 2.A and 2.B). The increasing mobility of capital has been associated with declining taxation on capital and corporations both in developed and emerging countries (Devereux, Lockwood and Redoano, 2008), while labour, the fixed factor of production, and consumers (most of whom are also workers) shoulder most of the tax burden. This is very costly, as tax revenues are the main source of revenue mobilization for financing delivery of public services and social protection.

Asymmetries in both decision-making and various processes related to global governance have important implications for *asymmetries of outcomes*. Within-country inequalities are primarily the responsibility of national Governments and national societies. Yet, global rules and cooperation, or the lack thereof, may facilitate or constrain government action at the national level. Thus, initiatives to promote internationally agreed minimum social standards in developing countries generate a positive effect, to the extent that they are supported by financial and technical resources provided through international cooperation. For example, international research institutions, supported by public funds, were active in agricultural innovation in developing countries in the past, leading to the Green Revolution of the 1960s and 1970s, which saved millions of people from starvation. More recently, the development of vaccines and improved medical treatments for tropical diseases as well as for global pandemics such as HIV/AIDS (United Nations, Committee for Development Policy, 2013) has greatly assisted countries in improving health conditions at the national level. At the same time, stringent patent protection increases the cost of essential medicines in developing countries, making it more difficult for them to improve the health of their populations, particularly the poor. Lack of international tax cooperation facilitates tax avoidance by transnational corporations (TNCs) and rich individuals and reduces the pool of resources available for Governments to implement poverty reduction and redistributive policies. In general, the forces pushing towards rising inequality have prevailed in recent decades, as reflected in the falling share of wage income and the rising share of capital income in most economies (figure 3), among other developments. Inequalities do not self-correct; instead, they perpetuate and reproduce over generations, cumulating and combining to recreate systematic disadvantages for particular groups and individuals.

While interdependence has increased, inequalities among countries have persisted and, in some cases, amplified. Countries and people have thus been left behind, participating at the margins of the global economy and/or unable to realize its potential benefits. At the global level, the income gap between the developed and the developing countries remains considerable; it has even deteriorated in the case of sub-Saharan Africa, Latin America and the least developed countries (LDCs) in the last two decades of the twentieth century, though with some improvement over the past decade (figure 4 and box 1). Those countries that succeeded in lowering the gap seem to have opted for strategic participation in international trade and tactical association with foreign investors, thereby promoting domestic backward and forward production linkages and the accompanying dynamic structural transformation of the economy from low- to higher-productivity sectors. These achievements often rested on the adoption of a wide range of policy instruments and innovative institutional arrangements. But many developing countries have not been able to do this, and continue to be trapped at low- or middle-income levels.

Box 1

Increased inequalities amidst increasing interdependence

Increased interdependence between countries has been accompanied by persistently high and sometimes increasing inequality—both among and within countries—in income, wealth, capabilities, voice and power.

In 2010, high-income countries, accounting for only 16 per cent of the world's population, enjoyed 55 per cent of global income (at market prices). Low-income countries enjoyed just above one per cent of global income even though they contained 72 per cent of global population. In sub-Saharan Africa, average gross domestic product (GDP) per capita was $2,014[a] in 2010, compared to GDP per capita of $27,640 in the European Union and $41,399 in North America (United Nations, 2013a).

By some measures, international inequality in income is falling. For instance, based on a population-weighted Gini coefficient (which takes each country's per capita GDP as a point in the distribution), international income inequality has been declining since the early 1980s. Statistically, most of this decline has been due to the rapid growth of China (United Nations, 2013a). However, other measures show a less rosy picture. For instance, the absolute gaps in per capita income between high-income and low-income countries have increased, from $18,525 in 1980 to close to $32,900 in 2007, before falling slightly to $32,000 in 2010 (United Nations, 2013a).

Within countries, income inequality between households deteriorated in the 1980s and 1990s in most countries (73 out of 105 developed, developing and transition economies) and persisted in the 2000s (income distribution worsened or did not change in 57 out of 105 countries) (Cornia, 2013). Rising inequality in household income (as measured by the Gini coefficient) is correlated, in both developed and developing countries, with rising globalization (as measured by indicators of foreign trade, foreign direct investment, portfolio investment, income payments to foreign nationals, import barriers, tariffs, and capital-account restrictions) (United Nations Development Programme, 2013).

The changing distribution of income between labour and capital is one of the drivers of inequality in personal and household income, as capital is much more unevenly distributed than labour. Longitudinal data on this aspect of income inequality is not so widely available, but there is evidence for 16 developed countries that the average labour share declined from about 75 per cent

(cont'd)

a All dollars ($) are United States dollars.

Box 1 (cont'd)

of national income in the mid-1970s to 65 per cent just before the 2008 financial crisis; for 16 developed and emerging economies, labour's share declined from about 62 per cent of GDP in the early 1990s to 58 per cent just before the crisis (United Nations Development Programme, 2013). Globally, the share of wages and mixed incomes (or incomes of the self-employed) in GDP has declined since 1980; the same pattern is observed in Asia, with the decline being quite sharp after 2000 in China and East Asia, particularly in high-income countries in East Asia (Malaysia, Republic of Korea) (Chandrasekhar and Ghosh, 2013). The fall in labour's share of income is correlated with increasing financial globalization and external account openness (United Nations Development Programme, 2013).

In addition to the overall fall in labour's share, the gap between top and bottom earners has increased in the majority of developed and in many developing countries, for which there is data (United Nations, 2013a; Piketty, 2014). Moreover, there are persistent gender gaps in quality of employment, with women more likely than men to be in vulnerable employment (United Nations, 2012b).

Underlying the inequality in income is an inequality in wealth. The 2013 Credit Suisse Global Wealth Report shows that global wealth has more than doubled since 2000, reaching a new record-high of $241 trillion. The average wealth per adult has reached $51,600 per adult; personal wealth for the world as a whole increased by 4.9 percent from the year 2000. However, the bottom half of the global population owns less than 1 per cent of total wealth, while the richest 10 per cent hold 86 percent of the world's wealth; the top 1 per cent alone account for 46 per cent of global assets. The countries with the most wealth per adult over $100,000 are in North America, Western Europe and among the rich Asia-Pacific and Middle-Eastern countries. Sixty-eight per cent of world population has wealth below $10,000; in 2013, 30 per cent of the population in developed countries fell into this category and more than 90 per cent of the adult population in India and Africa. In some low-income African countries, the percentage of the population with wealth below $10,000 is close to 100 per cent (Credit Suisse AG, 2013).

Inequalities in income, wealth, health, education and employment are especially pronounced for social groups with less voice and power, such as women, youth, older people, disabled people and indigenous people (United Nations, 2013a). These forms of exclusion intersect: for example, women experience disadvantage not only on the basis of their gender, but also of their ethnicity and culture, as well as their age. Thus, there are persistent inequalities in capabilities, as measured, for instance, by education and health outcomes across social groups.

Interdependence and policy space

The above discussion takes us to the third main issue underlying the need for reforms in the current global governance system—the noticeable shrinking of policy space. The policy paradigm of deregulation and liberalization that has characterized the current globalization has led to constraints on government action and has promoted market mechanisms as the best approach to resource allocation and distribution. While some constraints to national policy space are necessary to guarantee an efficient functioning of the global economy, the reduction of the policy space of developing countries seems to have been exaggerated and applied in an unequal manner.

Global trade rules, for instance, while helping to make trade flows take place and expand in a predictable manner, have not been sufficiently flexible to allow for the implementation of national policies that facilitate structural change in developing countries. Indeed, recent evidence indicates that developed countries are using industrial policy more often than developing countries, especially since the financial crisis in 2008 when the United States of America and several European countries used various forms of stimulus and protective measures to bail out private firms. Large subsidies to agricultural producers in developed countries are probably the most emblematic case of the widespread use of industrial policies to support the competitive position of specific sectors vis-à-vis foreign competitors. This situation raises the concern of possible asymmetries in the use (or abuse) of industrial policy between the developed and developing countries under the World Trade Organization (WTO) regime.

There has been a noticeable trend towards the standardization of rules and disciplines, usually those prevailing in developed countries. Standardization has coincided with and facilitated the fragmentation of production and distribution worldwide and the emergence of global value chains (GVCs) as a main business model. GVCs have also contributed to the explosion of regional and bilateral preferential trade agreements (RTAs), which often go beyond what has been agreed at the multilateral level, further constraining policy space, and spreading over areas well beyond trade flows, such as labour and environmental standards and capital-account regulations. Further policy constraints originate in bilateral investment agreements (BITs), which regulate bilateral investment flows and go well beyond the obligation of providing prompt, effective and adequate compensation in case of expropriation. By encompassing financial flows, including short-term flows, under the concept of "investment", BITs restrict the capacity of countries to regulate volatile capital flows.

Principles for reform

Moving forward, strengthened mechanisms for global collective action should be built around the principles that support the development efforts of developing countries and environmental sustainability. Key principles of global governance include the following:

Common but differentiated responsibilities in accordance with respective capabilities: This principle embodies equity in the formulation of international law. It recognizes differences in the contribution and historical responsibilities in the generation of common problems as well as the divergences in financial and technical capacity across countries in order to equitably address shared challenges. It requires all States to participate in internationally agreed response measures for tackling common problems, while each country's contribution to the solution should be compatible with its individual capabilities. The principle also implies that recognition of the diversity of national circumstances and of policy approaches should be embedded as an intrinsic feature of the global community, not as an exception to general rules. In other words, global governance should cater to the fact that countries have a variety of initial conditions, and they will adopt a variety of pathways to achieving global development goals (Girvan and Cortez, 2013). The increased divergence among developing countries and the emergence of economic powers among them may complicate the political economy of finding acceptable solutions to current problems. The difficulty in reaching an agreed solution to lowering carbon emissions is a case in point. Nonetheless, the principle of matching responsibility with capability should be at the base of global governance to ensure equity. Accepting the differences in countries' capabilities is a way of incorporating emerging powers in the sharing of responsibilities.

Subsidiarity: This principle suggests that issues ought to be addressed at the lowest level capable of addressing them. It implies that some problems can be handled well and efficiently at the local or national level, reducing the number of issues that need to be tackled at the international and supranational level. In this sense, the report of the High-level Panel of Eminent Persons on the Post-2015 Development Agenda rightly recognizes an important role for national Governments in meeting the challenges for the post-2015 development agenda. At the same time, in the case of spillover effects from one country to another, or in the case of GPGs, international cooperation is imperative for addressing these concerns. But subsidiarity also sees a role for regional cooperation to address issues of global concern. In fact, the creation of any given global governance arrangement can be based on existing regional or subregional institutions and capitalize on their experiences and approaches in policy coordination and cooperation. Regional governance structures can thus be considered as building blocks for global governance structures. A greater role of regional institutions in global governance also facilitates the participation of developing and small countries, thus enabling more democratic global structures.

Inclusiveness, transparency, accountability: Global governance institutions need to represent and be accountable to the entire global community; moreover, decision-making procedures need to be democratic, inclusive and transparent. Absent these characteristics, global governance institutions will lack universal legitimacy and their effectiveness will be compromised. As already called for in the 2002 Monterrey Consensus (United Nations, 2002), developing countries need to have greater voice in relevant decision-making processes as well as in the formulation of global standards, codes and rules. Moreover, robust governance implies mutual accountability, which can be verified by transparent and credible mechanisms and processes to ensure that agreed commitments and duties are being fulfilled. As such, accountability depends on a clear definition of commitments and on agreed indicators and targets. But effective accountability is more than that; it also implies policy change and strong follow-up mechanisms to ensure compliance. Thus, accountability is not an end in itself, and it does not stop in the review processes it entails. Rather, it is an instrument for achieving agreed results.

Coherence: This principle calls for a holistic and comprehensive approach in defining global rules and processes, including the assessment of possible trade-offs, so that actions in one area will not undermine or disrupt progress in others; indeed, processes in all areas should be designed to reinforce one another. Enhanced coherence is also needed between the international and national spheres of policymaking. Coherence requires improved coordination among various stakeholders and enhanced information sharing. The recognition that the only durable development is sustainable development, and that the ultimate goal of international cooperation is the promotion of global sustainable development reinforces the importance of enhancing coherence across economic, environmental and social governance structures at the global, regional and local levels.

Responsible sovereignty: This principle should guide Governments to better exercise their policymaking sovereignty in an increasingly interdependent world. It implies the recognition that policy cooperation is the best way of achieving national interests in the global public domain. It also requires Governments and States to be fully respectful of the sovereignty of other nations so as to fulfil agreed policy outcomes (Kaul, 2013). Responsible sovereignty is necessary for the efficient delivery of the global public goods that are relevant for the management of interdependence and the achievement of global sustainable development.

Section III below identifies deficiencies in the current global governance framework and recommends approaches for addressing these shortcomings, according to these principles, in selected areas that require improved international cooperation.

III. Strengthening global governance and global rules

Global governance and the environmental agenda

The concept of sustainable development is built around three pillars that, for many years, have been perceived as separate silos. This framework has implied that environmental policies have been settled either in isolation from economic and social policies or have been designed in a way that has not promoted important changes in the other two pillars. This approach has failed to reduce environmental damage while at the same time risks social and economic gains.

International environmental governance (IEG) is complex. It includes agreements, international organizations, policy instruments, financing mechanisms, rules, procedures and norms. IEG also impacts other areas of global governance besides the environment, such as international trade. Outside the treaty realm, institutions have voluntarily developed mechanisms, such as the environmental and quality standards of the International

Organization for Standardization and codes of conduct for corporate social responsibility developed by various corporations.

Yet, in general, environmental degradation, particularly in areas that transcend individual countries, has not stopped. The phasing out of production of ozone depleting substances under the Montreal Protocol (MP) is arguably the only example where negative impacts are reversing. Overall, however, the environment continues to show signs of degradation (United Nations Environment Programme, 2013a). Environmental indexes for biodiversity loss and desertification continue to increase, while climate change remains possibly the most dangerous of all environmental threats. Regardless of countries' commitments to reduce greenhouse gas emissions (GHG), there is a significant gap between actual GHG emission trends and the pathways needed to keep the increase in global average temperature below 2°C to prevent dangerous climate change. Clearly, international efforts to reverse and prevent environmental degradation have been inadequate, have not been developed in the right direction or do not truly address the causes of environmental decline (Afionis, 2012).

The MP is often described as the international environmental agreement par excellence. The MP successfully led to the phasing out of 95-98 per cent of all chlorofluorocarbon (CFC) use (Gareau, 2010; Andersen, Halberstadt and Borgford-Parnell, 2013). Success is often attributed to a combination of factors, including the economic opportunities for certain multinational firms that were made available in phasing out CFCs. Big chemical corporations supported the MP, once they realized the economic opportunities that could result from phasing out the use of the ozone depleting substances (ODS). This raises the question regarding whether the MP approach could be used to address other environmental problems.

The technical and socioeconomic differences between the substitution of CFC and other ODS by other substances, and the changes that are needed to reduce GHG emissions, biodiversity loss and land degradation are significantly larger in terms of the wide range of stakeholders involved, the costs, and the levels of scale and intensity of required actions. This implies that the magnitude of organizational, technological and behavioral changes needed to overturn the global environmental damage goes beyond the ones observed in the MP. Environmental sustainability requires deeper changes in current production and consumption patterns—changes that constitute important threats and challenges for the way international corporations operate in energy, mining and chemical sectors, among others. Thus, global environmental problems reveal a deeper crisis in current approaches to growth, production and consumption, and in the presumption of no limits to the exploitation of natural resources.

Moving forward

The formulation of the post-2015 development agenda requires a new international consensus to incorporate environmental sustainability as an integral part of the development process. Greater acceptance of the concepts of green economy and sustainable development emerging from the follow-up to the Rio+20 Conference seems to indicate that there is progress in moving towards this consensus. However, further efforts are needed to fully modify the current economic model of development that wrongly assumes there are no ecological limits to growth. In this regard, and based on the principles discussed above, the following is required.

First, dramatic changes in sustainable consumption and production patterns are urgently needed. Advances in technology have enabled higher efficiency in resource use, and these advances need to be available worldwide. Technological innovation is essential to creating sustainable complementarities between production and the environment. However, there is a limit to enhancing efficiency. Thus, reducing the ecological footprint of current patterns of production of goods and services will not be enough to ensure environmental sustainability. Unsustainable lifestyles, particularly among the richer segments of the population, place enormous pressures on the environment (Allwood and others, 2013). According to current estimates of the ecological footprint, it would take three to four Earths for the average consumption level of the current world population to reach the level of average individual consumption in the United States of America (Wackernagel and Reese, 1996). GHG emissions could be 3.8 times as high as the level of current emissions if developing countries were to consume the same level of fossil fuels (measured in per capita terms) as consumed in developed countries (Intergovernmental Panel on Climate Change, 2007). The poorer segments, meanwhile, are unable to meet minimally required food, health care, shelter and educational needs. Taking the principles of inclusiveness and coherence into account, changing consumption patterns will require focusing on demand, meeting the needs of the poorest, and changing lifestyles and excessive material and energy consumption by the richest. It also requires a new paradigm of success that is not based on increasing consumption.

Second, it is necessary to move from per capita GDP as the measure of development to sustainable development indicators. So long as per capita GDP is the main indicator of development, the eradication of poverty, the promotion of equity and addressing the physical limits of growth will remain of secondary importance. Development goals must include environmental sustainability, poverty eradication and the reduction of inequalities as the focus of policy attention. Agreed targets in these fields must guide the actions of international development institutions, especially international financial institutions. Actions directed towards meeting agreed targets would increase the coherence of global governance for the environment. In this regard, public policies are needed to stimulate public, social and private investments that will reduce GHG emissions and pollution, restore ecosystem services, prevent biodiversity loss, and enhance energy, material and resource efficiency. These environmental objectives need to be consistent with job creation, poverty eradication, improved equity and the recognition of the strategic role of local producers and communities in sustainable agriculture, fisheries and resource management. The economic transition also requires different methodologies for estimating the costs of practices that place social benefits ahead of private profits.

Third, it is important to recognize that environmental problems do not have frontiers. Countries compete for foreign direct investment (FDI) by lowering environmental standards, while multinational corporations look for countries in which to place their investments on the basis of lax or "business-friendly" environmental standards. The IEG needs to develop a system—recognized by the World Trade Organization (WTO) and incorporated into bilateral investment agreements and free trade agreements—that promotes and enforces internationally agreed standards, regulations and codes of conduct on FDI, thereby discouraging investment and development activities based on lack of effective environmental protection regulation. Applying the subsidiarity principle discussed above, global governance arrangements should rely on regional or subregional structures or approaches of governance that need to be coherent across regions. European Union (EU)-wide environmental policies to mitigate climate change (including emission trading as well as EU-wide regulatory approaches) can offer lessons for other regions. Such experiences could be emulated in other regions and eventually scaled up at the global level. The new international role of the United Nations Environment Programme brings enormous opportunities in this matter.

Fourth, applying the principles of inclusiveness, transparency and accountability implies that the recognition of the linkages between environmental and human well-being leads to acknowledgement that the fundamental right to a healthy environment is a human right. Environmental law, jurisprudence and environmental governance are central to resolving problems of environmental justice. The recognition of environmental problems in current international justice institutions and even the possibility of an international environmental court are key considerations in strengthening global environmental governance (United Nations Environment Programme, 2013b). Today there is no dedicated international body with delegated authority to enforce international environmental regulations. The protection of fragile ecosystems, the sustainable use of natural resources in the global commons, and the improved management of transboundary resources are areas of special concern in the development of a global mechanism for environmental governance.

Finally, the increasing differentiation among developing countries is a new feature of the current international landscape. Mechanisms of global governance for sustainable development, particularly in reaching a new international consensus in the United Nations Framework Convention on Climate Change, will have to give proper interpretation to the concept of common but differentiated responsibilities. In this regard, it is necessary to recognize the variety of development trajectories across countries and determine responsibility based on historic emissions, current and projected total and per capita emissions. In this regard, capacity to innovate and access to technology are crucial for reducing the wide developmental gaps that exist between developing and developed countries. This requires strengthening the capacity of developing countries to develop, review and implement education, science, technology and innovation systems oriented towards nationally relevant responses to the challenges they face in relation to climate change, the preservation of biodiversity and the reduction and prevention of desertification. Therefore, it is important to recognize that the increasingly globalized protection of intellectual property rights is impacting developing countries' abilities to develop the necessary capabilities in basic research, education, public health and environmental protection (Maskus and Reichman, eds., 2005). A new international system is needed based on the recognition of the links between international public goods and transfer of technology. Similarly, the principle of common but differentiated responsibilities should be taken into account in the provision and allocation of financial resources to support sustainable development strategies. While estimates vary tremendously, there is general agreement that high levels of resources are needed. Several financing mechanisms have been discussed in recent years, but serious commitments are still to be made if environmental sustainability is to be effectively integrated into a new development paradigm. In the allocation of resources, clear priority should be given to the poorest countries with greater vulnerabilities to environmental degradation, as well as to those more likely to be affected by climate change. Additionally, the allocation of resources to meet traditional development goals, such as access to water and sanitation, electrification, etc., should be made compatible with and take into account the sustainable management of natural resources, both as a policy for poverty reduction and as a strategy for adaptation to climate change.

International monetary and financial architecture

The recent financial crisis—which originated in the North Atlantic but had worldwide ramifications for both developed and developing countries—underlined the need to deepen the reforms of the international monetary and financial architecture. Several initiatives have been undertaken since the crisis to strengthen prudential financial regulation and supervision, to improve countercyclical financing and to enhance macroeconomic policy cooperation. In contrast, steps to strengthen and improve the international monetary system have been more limited, those aimed at creating an international debt workout mechanism have been entirely absent, and only small steps have been taken to reform the governance of the system.

Financial regulation and supervision

Under the leadership of the Group of Twenty (G20) and the Financial Stability Board (FSB), which was created at the London Summit in April 2009, financial regulation and supervision has been strengthened and the regulatory perimeter has been expanded to include agents and transactions poorly regulated before the crisis (D'Arista and Griffith-Jones, 2010). Countercyclical prudential regulations—now generally referred to as macroprudential—were introduced, following proposals that had been made before the crisis (Griffith-Jones and Ocampo, 2010). The principle that standardized derivative contracts should be traded in exchanges was established, thus potentially increasing the transparency and reducing the counterparty risks of these transactions. In addition, consumer protection was enhanced, particularly in the United States, among other reforms.

The reforms increased capital and liquidity requirements, including an overall (risk-unweighted) capital requirement of 3 per cent. Systemically important agents ("too-big-to-fail" institutions, for example) were made subject to stricter rules, which included the obligation to simplify the structure of financial conglomerates and to draft "living wills" that address their potential bankruptcy. Parallel to global processes, national and regional regulations have been adopted in the United States and Europe to strengthen prudential regulation and to adopt macroprudential frameworks. But the uneven progress of these reforms and inadequate coordination of reforms between the two epicentres of the crisis may lead to important differences in regulatory frameworks.

Overall, efforts so far have been incomplete and insufficient to respond to the challenges posed by the current stage of global economic interdependence. Furthermore, the introduction period for these new norms began in 2013 and extends through 2019—an excessively long transition period—and some have already been weakened under the pressure of major financial institutions.

Capital-account regulation

Absent from the reforms proposed by the FSB was any consideration of the risks associated with cross-border capital flows. The issue is particularly critical for emerging and developing countries, as capital-account volatility plays a major role in determining boom-bust financial cycles and, therefore, macroeconomic risks and fluctuations. This issue was, nonetheless, taken up by the International Monetary Fund (IMF).

The guidelines proposed by the IMF (International Monetary Fund, 2011) and the IMF institutional view on the use of these regulations (International Monetary Fund, 2012) accept that capital-account regulations are part of the toolkit of macroprudential instruments, and should be seen as a complement and not as a substitute for macroeconomic policy. However, both (particularly the guidelines) view capital-account regulations as what might be called interventions of last resort—i.e., policies that should be introduced only after all other options to manage booms have been exhausted. In contrast to this view, they should be conceived as part of a continuum that goes from regulation of domestic finance in domestic currency to domestic financial transactions in foreign currencies and cross-border flows, which should be regulated in a way that is consistent with the characteristics of different financial systems and the policy objectives of macroeconomic authorities.

Official countercyclical finance

The financial crisis generated the most ambitious response of official countercyclical financing in history, including a rapid expansion of IMF financing and that of multilateral development banks (MDBs). Both benefitted developing countries, but IMF financing also helped some developed countries. This was accompanied by the largest issuance of special drawing rights (SDRs) in history. At the regional level, these efforts were reinforced by old and new mechanisms in Europe and by the Chiang Mai Initiative of ASEAN Plus Three (comprised of the ten ASEAN countries plus China, Japan and the Republic of Korea). At the national level, these actions were complemented by the expansion of financing by the major central banks and by an unprecedented increase of swap lines among central banks; this benefitted not only developed but also a few emerging economies.

Increased IMF financing was facilitated by a major redesign of its credit facilities in 2009-2010. This included the creation of a new preventive facility, the Flexible Credit Line (FCL), for countries with solid fundamentals but with risk of contagion, doubling the size of other credit lines, facilitating the use of stand-by facilities with preventive purposes, and determining that non-compliance with structural conditionality benchmarks could not be used to stop programme disbursements. In August 2010, the Precautionary Credit Line was created for countries with sound policies but which do not meet the requirements of the FCL. It was later transformed into the Precautionary and Liquidity Line, to allow countries to use it to obtain funds of rapid disbursement for six months. The IMF also reformed its concessional facilities for low-income countries, which moved from a single design to a menu of options, based on two factors: countries' debt vulnerability, and macroeconomic and public finance management capacity.

Additional official financings benefitted high- and middle-income countries to a larger extent than low-income countries (Griffith-Jones and Ocampo, 2012). This imbalance was worsened by reductions in ODA, following their peak in 2010 (United Nations, 2013c). Moreover, the World Bank's insufficient capitalization has compromised its capacity to provide adequate external financing to developing countries in the future. Finally, the expansion of official financing was smaller than the initial contraction of private-sector financing, indicating that official resources can only moderately smooth out boom-bust cycles in private financing, and that the main instrument to reduce the volatility of external financing should be capital-account regulations, particularly regulation on inflows during the boom phase of the financial cycle.

Absence of a debt workout mechanism

A major deficiency in the response to the financial crisis was the absence of steps to create a regular institutional debt workout mechanism for sovereign debts, similar to those that help manage bankruptcies in national economies. The major mechanism currently in place is the Paris Club, but it is limited to official financing; in the case of low-income countries, it has been complemented since the late 1990s by the Heavily Indebted Poor Countries and the Multilateral Debt Relief initiatives. For private obligations, the system has relied on ad-hoc mechanisms, such as the Baker and Brady Plans of the 1980s, but has essentially depended on traumatic individual debt renegotiations. Solutions generally come too late, after over-indebtedness has had devastating effects on countries; solutions are also horizontally inequitable, as they do not treat all debtors or all creditors with uniform rules.

A major attempt at reform took place in 2001-2003, when the IMF proposed the creation of a sovereign debt restructuring mechanism. These negotiations failed, but led to the spread of collective action clauses in international debt contracts. However, experience indicates that voluntary debt renegotiations pose serious problems in terms of aggregation of credit contracts and court demands by non-participants. This major gap in the international financial architecture has, therefore, come back to the global agenda in recent years.

Macroeconomic policy cooperation

Officially, the IMF is the major multilateral instrument of macroeconomic policy dialogue and cooperation. However, most forms of macroeconomic cooperation have tended to take place in ad-hoc arrangements outside the IMF. The original Bretton Woods international monetary arrangement collapsed after the United States unilaterally abandoned the convertibility of the dollar for gold in 1971, and the later collapse of the system of adjustable parities established at Bretton Woods. It was replaced by a "non-system", characterized by the central role played by the domestic fiduciary currency of the major economies (particularly the U.S. dollar), with countries being able to adopt any exchange-rate system they choose, so long as they guarantee a stable system (rather than stable exchange rates) and avoid manipulating the exchange rates—with no agreement, however, as to what "manipulation" means.

This system has faced several problems. First of all, the monetary policy of the major reserve-issuing country is adopted without taking into account its spillover effects on the rest of the world. Second, most advanced economies have opted for a flexible exchange-rate regime. However, exchange-rate volatility increases during crises, without any clear contribution to the correction of underlying imbalances. Third, the major emerging economy, China, continues to have limited exchange-rate flexibility, most major oil-exporting countries peg their currencies to the dollar, and most European countries lack exchange-rate flexibility among themselves. As a result, the system lacks sufficient adjustment mechanisms.

The major problem of the international monetary system continues to be the asymmetry between the need for deficit countries to adjust during crises and the lack of any pressure for surplus countries to do so, which generates a deflationary (or, more properly, recessionary) bias in the adjustment process (Keynes, 1942-1943). The system faces two additional deficiencies: (i) the problems generated by the dependence of the international reserve system on a national currency; and (ii) those problems associated with the need that emerging and developing countries face to accumulate large amounts of foreign-exchange reserves as "self-insurance", in the absence of proper global regulation and insurance against capital-account volatility (Ocampo, 2010 and 2011). To the extent that reserve accumulation reflects strong current accounts, it also contributes to the generation of a global recessionary bias. Despite these problems and several proposals under consideration (see below), no steps have been taken to reform the system. The most important action was the largest issuance of SDRs in history, agreed to in 2009, for the equivalent of US$ 250 billion.

Mechanisms of macroeconomic policy cooperation have been strengthened but have not been particularly effective. G20 macroeconomic cooperation worked relatively well in the early stages of the crisis, when it assumed the form of a Keynesian consensus. But at the Toronto G20 summit in June 2010, consensus had already eroded, as several developed countries decided to give priority to public sector debt sustainability over supporting the recovery. Meanwhile, multilateral and bilateral IMF surveillance was strengthened to a level never experienced before. But peer review pressures and surveillance are weak forces; this is particularly reflected in the limited attention given to the spillover effects of developed countries' expansionary monetary policies on emerging markets (and associated currency wars), and the incapacity to prevent austerity in the euro area from generating new global imbalances.

Moving forward

Several proposals for reform of the international monetary system were placed on the global debate early in the crisis (Zhou, 2009; United Nations, 2009a; Boorman and Icard, eds., 2012). Undoubtedly, the most promising way to reform the international monetary system, and to improve its stability and equity characteristics, is to fully employ the SDRs, which remain one of the most underutilized instruments of international economic cooperation.

Placing SDRs at the centre of the international monetary system could free the system from having to depend on the monetary policy of the leading country, whose policy tends to be managed without taking its international repercussions into account. By issuing SDRs in a countercyclical way, new SDR allocations during crises would have the potential of reducing the recessionary bias associated with the asymmetric adjustments of surplus and deficit countries. SDR allocations could also reduce the need for precautionary reserve accumulation by developing countries, and would represent a lower cost than self-insurance (Erten and Ocampo, 2014).

Policy space for developing countries should be enhanced by: fuller use of capital-account regulations; further improvements in unconditional counter-financing mechanisms, including through the expansion of regional financing networks; a better system of macroeconomic policy cooperation; and the creation of an effective international debt workout mechanism.

Needless to say, these actions have to be matched by changes in the governance of the system to "broaden and strengthen" the participation of emerging and developing countries in "international economic decision-making and norm-setting", as called forth by the Monterrey Consensus (United Nations, 2002, para. 92). This issue involves at least three elements.

The first element is the design of a more representative apex organization than the G20, possibly by transforming it into the Global Economic Coordination Council proposed by the United Nations Commission of Experts on the International Monetary and Financial System (United Nations, 2009a).

The second element is further reform of the voice and participation of developing countries in the Bretton Woods institutions and the FSB. However, even the limited 2010 IMF quota reform has not been fully completed, owing to the fact that the United States contribution has not been approved by its Congress.

The third element is the design of a multilayered architecture, with active participation of regional and subregional institutions—in a sense, reproducing the denser architecture that characterizes the system of MDBs. The essential advantages of the denser architecture are that it provides both more voice and more alternative financing opportunities for emerging and developing countries.

International trade rules: fostering development and preserving policy space

Development requires dynamic structural change based on continued technological upgrading of productive capacities and economy-wide increased productivity. International trade provides opportunities for realizing economies of scale, potential for increasing the efficiency of production, and facilitating the transfer of technology. The adequacy of global trade rules has to be assessed in terms of their efficiency in maintaining stable and predictable trade flows and in providing a transparent regulatory framework to the advantage of all participants. The framework includes not only the rules negotiated multilaterally but also those disciplines agreed among regional and bilateral partners.

Overall, the system has succeeded in keeping trade open and predicable, and flows have grown steadily, with occasional sharp contractions, as in the aftermath of the 2008 crisis. As a group, developing countries have increased their participation in world trade (figure 5), a trend that is most noticeable in manufactures. However, at the individual country level, trade performance has been rather diversified, and not all countries are participating in world trade and receiving its benefits.

From the individual country perspective, integration into the global economy should not be an end in itself, but rather a strategic component of the path to development. Yet, as liberalization has progressed, the policy space of developing countries has been reduced. While both the WTO and the General Agreement on Tariffs and Trade (GATT) have recognized that countries are at different stages of development and therefore have different financial and trade needs, the pre-WTO regime included provisions that could be used to support structural change, while the WTO regime is increasingly moving towards flexibilities that facilitate the implementation of its rules, rather than supporting structural change. Moreover,

Source: UNCTADStat.

while certain flexibilities in terms of allowed policy tools are still available for developing countries, and in particular for least developed countries (LDCs), some of those currently enjoyed by developed economies (agricultural subsidies being the most notorious example) are off-limits, which introduces an important element of inequity in the system.

Preferential trade agreements and bilateral investment agreements

The increased popularity of GVCs as the preferred business model to organize production and distribution has contributed to the mushrooming of regional and bilateral preferential trade agreements (RTAs). The RTA proliferation contributes to undermining the principle of most favoured nation (MFN), one of the pillars of the multilateral trading system. As of November 2013, there are 250 RTAs in force, of which over 140 came into force after 2003 (figure 6). RTAs often go beyond what is agreed at the multilateral level. These practices raise concerns when RTAs are contracted by partners of asymmetric economic and political power. In fact, a greater number of WTO-plus and WTO-minus provisions, as well as provisions on areas beyond the current scope of WTO, are found in RTAs among partners of different levels of development than in those contracted between partners of similar levels of development (World Trade Organization, 2011). Some RTAs extend disciplines to capital flows that effectively reduce the capacity to minimize financial instability associated with cross-border capital flows. In their quest for greater market shares in developed countries, developing countries are giving up policy space beyond what is envisaged by WTO rules. But it is not clear what they actually gain in return, since RTAs tend to exclude products of export interest to developing countries, such as agricultural and food products and labour-intensive manufactures.

Further policy constraints originate in bilateral investment agreements (BITs), which regulate bilateral investment flows, and go well beyond the obligation of providing prompt, effective and adequate compensation in case of expropriation. A typical model BIT prohibits performance requirements; it defines investment not only as physical investment but also intellectual property, financial assets and, most importantly, legal and contractual rights. The latter implies that changes in the national laws (for social or environmental reasons, for instance) that may impose unanticipated costs or additional obligations on the foreign investors are considered

Figure 6

Source: World Trade Organization (2014), chart 13, p. 54.

as breach of contract and expropriation of the foreign investor's contractual rights (regulatory takings) and require compensation (Cotula, 2007).[1]

RTAs and BITs may undermine systemic consistency and increase coordination costs in view of varying and divergent requirements such as rules of origin, phytosanitary measures and other technical requirements (labelling, etc.). They may also create other difficulties for developing countries if some of the flexibilities they enjoy in WTO expire or become no longer permissible under the WTO regime, but are considered an integral part of the regulatory environment negotiated with the foreign investor. For instance, flexibilities under the WTO Agreement on Subsidies and Countervailing Measures, many of which are relevant for export processing zones, are to be phased out by December 2015 and/or when a country graduates from Annex VII status (Waters, 2013).[2] Thus, under the

1 It is interesting to note that no two developed countries have stand-alone BITs (i.e., one which is not an integral part of an RTA) with one another (excluding with the former economies in transition that joined the EU).

2 Annex VII countries are LDCs and countries whose per capita income is lower than $1,000 measured in 1990 U.S. dollars.

regulatory taking provision, a developing country may end up having to compensate foreign investors because it had to reform its subsidy system to comply with WTO disciplines.

In any case, it seems contradictory that developing countries may resist the imposition of limits to their policy space at multilateral forums to relinquish that space at the bilateral or regional levels. A possible explanation is that by resisting constraints at the multilateral level (as a group) but granting concessions at the bilateral level, a country may boost its attractiveness for FDI vis-à-vis other competing destinations.

WTO decision-making: power asymmetries?

The proliferation of RTAs also coincides with the difficulties in advancing the multilateral trade negotiations. The Doha Round has been pronounced dead several times in the past, and despite the recent Bali agreement, it has a visibly declining vigour. The Bali deliverables (trade facilitation, some items in agriculture, and development issues) are a far cry from the initial ambitious agenda and are surrounded by controversies. Overall, there is a great deal of discontent with the lack of a true development orientation in the Round. Developing countries' concerns have not been properly addressed, while tighter disciplines are being considered. These outcomes may reflect the marked asymmetry in economic and political power among members, despite the formal equality (i.e., one country, one vote) in terms of decision-making rights. Yet, decisions are not taken by vote, but by consensus, which would imply, in principle, the right by any country to block any decision. However, there are problems on how consensus is forged in some instances and there is a relative lack of transparency in some key aspects of WTO operations. In this regard, applying the principles of inclusiveness and transparency discussed above, the consensus system should be used in a manner that fully respects the views of developing-country members and procedures should be established for smaller, issue-based meetings, with authorization coming from all members and the meetings being governed by transparent rules.

Asymmetries in power and capacities are also reflected in the use of the dispute settlement mechanism (DSM), certainly not with respect to the transparency of the process and the independence of its rulings, but rather due to issues of access and actual use of remedies (retaliatory measures) against faulty parties that are unable or unwilling to act on a given ruling. Few small- and low-income countries have initiated disputes; Bangladesh is the only LDC that requested consultations. The costs of using the system are high and require a great deal of awareness and knowledge of WTO disciplines, which is lacking in many developing countries, LDCs in particular (Girvan and Cortez, 2013). In fact, the system seems to be dominated by developed countries: a total of 40 per cent of cases were between developed countries, while another 22.2 per cent of cases involved developed countries requesting the investigation of middle-income countries (Lee, Shin and Shin, 2014).

Special and differential treatment: the right approach to development?

To a large extent, trade agreements in multilateral, regional and bilateral spheres have evolved in a manner that: (i) largely reflects the needs and interests of the production sectors and big business in the dominant economies; (ii) covers new areas; and (iii) provides deeper disciplines as business models have changed, new practices have emerged and the organization of production have become increasingly complex and internationally fragmented. Development concerns in GATT/WTO legal texts are addressed through special and differential treatment measures (SDTs). There are a total of 139 SDT provisions in the agreements adopted at the conclusion of the Uruguay Round (World Trade Organization, 2013). Many more followed. But in general there is a great deal of dissatisfaction with the SDTs, and the measures have failed to deliver as anticipated. The value of preferential market access has been compromised—not only by progressive liberalization, but also by a wide range of complex rules-of-origin requirements—and greatly offset, if not reversed, when preferential treatment accorded to competitors under RTAs are also taken into account. Meanwhile, conditionalities associated with adjustment programmes by the international financial institutions have constrained the use of some SDTs by developing countries, while most of the provisions are just indicative of best endeavour, or policy guidelines, and are not subject to enforcement through dispute settlement.

Recent trends seem to indicate that the system seems to be moving away from differential treatment for developing countries as a group to preferential treatment based on specific, individual needs. While this may be a practical solution in view of greater diversity among developing countries, and in tandem with the principle of common but differentiated responsibilities, the new approach has not yet been tested. A number of problems will likely emerge, including difficulties related to country classification based on needs, the selection of needs eligible for assistance, and monitoring the extent and modalities of additional resources committed (Cortez and Arda, 2014). Moreover, there is a risk that while new disciplines will be binding, the provision of the technical assistance they require will not. This can already be seen in the recently negotiated Agreement on Trade Facilitation.

Another source of concern is the enhanced reciprocity that the new trend entails, particularly if rules are not flexible enough to accommodate different country needs. It would also imply a breach of the principle of common but differentiated responsibilities and of the very principles of WTO, as the legal texts state that developing countries should only undertake commitments that are compatible with their level of development. In fact, these trends seem to suggest that the principle of less than full reciprocity, which has been another important pillar of the multilateral trade regime, has been eroded.

Moving forward

Trade rules, at a minimum, should not perpetuate or intensify current asymmetries. Accordingly, the overall transparency and fairness of the DSM could be further improved if the trade policy reviews—which provide an assessment of the state of trade policies—of member countries with the largest shares of world trade could be geared towards the identification of WTO-incompatible practices that are harmful to the export interests of developing countries, in particular of the smaller countries and/or of those countries without established WTO legal competence. In this regard, WTO could evolve from being a members-driven organization to taking on a greater role in overseeing and enforcing the disciplines contained in its various agreements to the greater benefit of developing countries' members and in accordance with the principle of common but differentiated responsibilities.

Strengthening multilateralism offers the best option for developing countries in addressing the issue of reduced policy space and exercising their collective bargaining power to their benefit. With respect to fragmentation brought about by RTAs, two complementary initiatives are suggested: one is "bottom up", the other is "top down".

The bottom-up initiative would imply a multilateralization of RTA disciplines that would bring some order to the pattern of deeper disciplines (Bhagwati and others, 2011). Yet, not all disciplines may be best placed under global governance, and one-size-fits-all rules are not ideal in all circumstances, as discussed above. In the case of the EU, for instance, the principles of subsidiarity and proportionality have guided what has been brought under EU governance while it imposes disciplines to control for negative spillover effects from individual country actions, including beggar-thy-neighbour policies among members (the supranational level is involved to the least extent necessary) (Baldwin, 2014).

The top-down initiative would imply the negotiation of a code of conduct to anchor policy action in the negotiations of RTAs and BITs. One possibility could be a revision of GATT article XXIV, beyond what is being envisaged by the Doha Round, so as to reflect the evolving nature of RTAs (going beyond tariff liberalization). Similar observations apply to GATT article V on economic integration in the area of trade in services. This option would also entail giving WTO a stronger overseeing responsibility. In fact, reforming article XXIV has already been suggested to ensure the supremacy of WTO rules vis-à-vis RTA rules so as to improve coherence and consistency in the world trade regime (e.g., Picker, 2005; Davey, 2011) and to protect policy space in developing countries (Lang, 2006). Another option to be considered is a stand-alone agreement on basic investment rules or a code of conduct for foreign investors and host countries. The UNCTAD Investment Policy Framework for Sustainable Development, with its set of core principles for investment policy, is one step on this direction. Either way, these options may offer a much needed policy anchor to limit "unilateral investment incentives and bilateral concessions over behind-the-border policies" (Blanchard, 2013, p. 17), increase coherence and compatibility with WTO rules and offset negative consequences of existing power asymmetries in negotiating such agreements. Existing agreements would then need to be modified or adjusted to be compatible with the rules or code of conduct agreed multilaterally.

With respect to the multilateral disciplines, as WTO continues to move the liberalization frontier from "at the border" to "behind the border", further exemptions may be needed in view of the varying development levels and needs of WTO membership. If deviations are needed, then some of the rules may not necessarily be in line with developing countries' interests. Increasing participation by developing countries and LDCs in the multilateral trading system may then strengthen the system itself, but not necessarily promote the development of these countries, or, at a minimum, be developmentally neutral. Of greater concern, this tendency may give further weight to the relevance of the question whether the policy package implicit in WTO agreements is in fact appropriate for economies at an early stage of development.

Thus, the way forward is not necessarily to make the SDTs more effective and operational. SDTs are in fact the second best solution to the quest for development. What matters is not so much to have SDTs, which are deviations to the rules, but to negotiate trade rules that are sufficiently flexible and supportive of development so that no deviation is needed (Cortez and Arda, 2014). Currently, just a few developing countries are actively engaged in negotiating rules (Brazil and India being the obvious examples, among others). Many developing countries seem to concentrate their energies in negotiating SDTs, which in the current WTO context mean little more than additional implementation periods and (non-binding) provisions for technical assistance. Developing countries would be better off negotiating rules that are suitable to their development trajectory. This is one of the greatest advantages of belonging to WTO: the possibility to influence rule making. Thus, efforts need to be scaled up to improve the negotiating capacity of developing countries, particularly of the LDCs, and the more advanced or "trade-savvy" developing countries could play an active role in that direction. Moreover, treating trade as a means to development implies that developing countries should be negotiating trade disciplines with the objective of maximizing development, which would also improve the coherence of the global governance for development.

As Rodrik (2001) eloquently argued, increasing trade flows and expanding market access do not necessarily imply moving up the development ladder, particularly if greater access is obtained at the expense of policy space beyond what is necessary for the efficient management of interdependence. The development objective thus gives further weight to the idea of approaching the WTO as the institution that manages diversity and not as one that imposes uniformity.

International tax matters: enhancing cooperation in a world of high capital mobility

While the increase in trade in goods is the bedrock of globalization, the most rapid expansion has been in the area of finance. Over the span of the three decades between 1980 and 2012, capital flows grew five times faster than exports. Most capital flows have been directed towards the service sector, including banking. At the same time, while there have been substantial efforts to establish global frameworks for the regulation of trade in goods, much less has been done to coordinate trade in financial services and associated flows. The increased mobility of capital and the ease of shifting profits and savings across territories as corporations and individuals take advantage of disparities in institutional and regulatory environments, as well as the lack of transparency in international transactions, place a serious burden on national tax systems. Those systems must strike a balance in meeting the dual objective of mobilizing government revenue on the one hand, and facilitating trade and retaining and attracting investment capital and savings on the other. The proliferation of tax havens, safe havens (secrecy jurisdictions) and offshore financial centres has made matters even more complicated. It is in this context that developments in globalization become highly relevant for tax cooperation.[3] There are four issues that are relevant to this discussion.

First, there is increasing evidence that average taxation on capital income has declined over time in developed as well as emerging countries (Devereux, Lockwood and Redoano, 2008). This raises the question of whether the decline in tax on capital is the result of deliberate attempts by countries to unilaterally use their tax policy to attract foreign capital and savings—a harmful type of competition by which countries would be undercutting each other with a race-to-the-bottom approach.

Second, the increasing mobility of capital and the ease of incorporation of enterprises in foreign territories raise a concern not only about multinational corporations engaging in profit shifting, taking advantages of loopholes in tax policy and other regulatory frameworks, but also regarding the lack of coordination of taxation and regulation across countries. This has important implications for efficiency and equity. The problem is

3 The expressions "tax haven" and "safe haven" are related but have different meanings. "Tax haven" refers to low or no taxation, while "safe haven" encompasses broader aspects of secrecy and regulatory arbitrage provided to investors.

exacerbated by the lack of transparency in the global financial services, and especially in safe havens (Shaxson, 2011). Profit shifting results in substantial losses in government revenue in developing countries, which undermines their efforts to mobilize domestic revenue for development financing. Moreover, safe havens facilitate illicit flows from developing countries, which constitute a major drain on domestic saving and undermine domestic investment. More effective international cooperation on taxation and increased transparency in the global financial system can help alleviate these problems and advance the development financing agenda.

The third issue is that there is no level playing field in the globalization process, and developing countries—particularly LDCs—are at substantial disadvantage in the allocation of capital and savings. In particular, several developing countries suffer large losses owing to profit-shifting practices of multinational corporations operating in the natural resources, manufacturing and service sectors, while at the same time they face severe hemorrhaging through capital flight and other forms of illicit financial flows (African Development Bank and Global Financial Integrity, 2013; Ndikumana and Boyce, 2011; Shaxson, 2011).

Lastly, from a global perspective, taxation policy can play an important role in advancing global initiatives. In particular, taxation can generate valuable resources to finance global public goods such as mitigation and adaptation to climate change and the fight against major endemic diseases. Moreover, targeted taxation can help discipline the production of global public bads. Achieving these goals requires a high level of coordination and political commitment by national Governments.

The existing national, regional and global initiatives geared towards fighting tax evasion through improved tax cooperation and increased transparency have produced limited and uneven results. For multilateral frameworks, the implementation is especially hampered by the lack of coordination among countries, lack of mechanisms of accountability to penalize failure to cooperate, and inadequate technical capacity in the case of developing countries. In this context the work of the United Nations Committee of Experts on International Cooperation in Tax Matters (a subsidiary body of the Economic and Social Council) offers a useful framework for addressing these challenges. In particular, the Committee can play an important role in guiding the design of interventions aimed at enhancing technical capacity in developing countries with regard to complex matters in taxation, such as the handling of transfer pricing by international institutions, as provided for in the United Nations Practical Manual on Transfer Pricing for Developing Countries (United Nations, 2013b).

In addition to multilateral frameworks to advance cooperation in taxation matters, countries continue to establish bilateral agreements to promote common interests in the area of taxation. However, bilateral agreements also have their limitations. One important challenge is that operators in tax havens are able to take advantage of the complex layers of secrecy and intricate legal machinery to make detection of criminal financial activity difficult and prosecution even harder. Moreover, tax evaders are able to stay one step ahead of the regulator and the investigator. They are able to shift shell companies, bank accounts and other transactions to territories that are not yet covered by treaties. As a result, tax information exchange agreements (TIEAs) have not yet produced a significant decline in tax evasion or meaningful repatriation of funds. Their initial impact seems to be a relocation of funds or redirection of new illicit financial flows towards jurisdictions that are not party to TIEAs (Johannesen and Zucman, 2012).

Moving forward

Coordination of efforts to fight tax havens is challenging because not all tax havens are created equally. The set includes both large and small offshore financial centres, including some in poor nations (Rawlings, 2005). Determining how to sequence global action is difficult. Yet, the effectiveness of efforts to fight tax evasion is bound to be limited in the absence of a concerted global approach to take on safe havens at once through a "big-bang" style multilateral intervention (Elsayyad and Konrad, 2012). But the question remains as to how to organize such big-bang combat against all safe and tax havens, especially given the difficulties in forging a consensus among all stakeholders on a comprehensive, ranked list of safe and tax havens.

Notwithstanding the above, the limited success in combating tax evasion is largely due to lack of effective implementation and enforcement of existing frameworks; accountability needs to be improved and this is where efforts should be concentrated going forward. In this context, a few areas are worth highlighting. The first is in the area of exchange of information, which is critical to dismantling the tradition of secrecy. In this respect, in addition to efforts to establish and enforce TIEAs, countries should push for institutionalizing automatic exchanges of information on taxation (AEITs). In the same vein, countries and international institutions must swiftly endorse and enforce mechanisms to increase accountability and transparency in the corporate sector, especially with regard to large multinational corporations. Thus, the global community must rally behind efforts to institutionalize rules on country-by-country reporting, as well as unitary taxation of multinational corporations, to enable all countries to collect taxes on all taxable activities taking place in their territory by every taxpayer, regardless of geographical location. In addition to the establishment of effective monitoring mechanisms, including clear and measurable goals and targets to track progress in the area of international cooperation in taxation, action is required on two other related fronts: (i) strengthening of the role and operational capacity of the Committee of Experts on International Cooperation in Tax Matters, including its conversion into an intergovernmental subsidiary; and, (ii) the promotion of an international convention against tax avoidance and evasion.

While there are large potential gains from taxation aimed at financing global public goods and controlling global public bads, the implementation of such tools faces substantial challenges at both technical and political levels. The biggest challenge is building a global consensus and mobilizing support from individual Governments and institutions around these innovative taxation instruments. This challenge arises partly from the fact that it is difficult to quantify and apportion the benefits accruing to each member country. Individual countries may therefore avoid the first-mover disadvantage associated with the free-rider problem. Moreover, global initiatives to mobilize additional tax revenue and to use taxation as a disciplining instrument against global public bads are constrained by the lack of a global institution entrusted with coordination and execution of such initiatives. So far, proposals for the creation of an international authority in charge of global taxation have not made any headway. Here, the principle of subsidiarity can offer some guidance, as a more feasible avenue would be to work with existing institutions and capitalize on experiences at the regional level in policy coordination. In this context, the EU can offer fertile ground for implementation. Indeed, there is already a substantial degree of coordination on valued-added tax administration among EU members that could offer some lessons for the way forward. Such experiences could be emulated in other regions and eventually scaled up at the global level.

International cooperation on taxation has important implications for official development assistance (ODA) as a means of helping developing countries reach and sustain high growth rates and accelerate progress towards their social development goals. Coherence would be considerably improved if the debate on assistance to developing countries moved beyond increasing budgetary allocations to foreign aid, and considered ways to help developing countries mobilize domestic resources. In fact, international tax cooperation can help countries graduate from ODA. In particular, it can help developing countries increase their tax revenue by curbing tax evasion by multinational corporations, negotiating a fairer share in natural resource rents, stemming illicit financial flows, and collecting tax on private assets held abroad by their residents.

The donor community can help through two main interventions. The first—as with international tax cooperation in general—is to adopt and effectively implement measures aimed at preventing tax evasion and related illicit practices by multinational corporations operating in developing countries. The second action is to provide technical assistance to developing countries in the design and implementation of tax reforms, as well as the monitoring and prosecution of financial crimes, including by establishing and strengthening specialized institutions, such as national financial intelligence units. By scaling up global efforts to fight against tax evasion and other forms of financial crimes, and by supporting domestic institutional reforms in developing countries, the donor community can better help these countries reap the benefits of globalization, or at least minimize its negative effects.

Managing labour mobility: a missing pillar of global governance

One of the most visible signs of the process of globalization is the increase in international migratory flows. In 2013, there were about 232 million migrants in the world, which represents over 3.2 per cent of the world population. The percentage does not seem exceptionally high, especially when compared to the proportion of other cross-border economic transactions. However, the social and political relevance of migration goes beyond numbers: migration involves not only production factors, but people—social agents that have rights, motivations and goals.

The international mobility of people is taking place in a regulatory context that is limited and fragmented and that gives ample room for recipient countries to impose their national choices and policies; meanwhile, the room to manoeuvre is very limited for sending countries. In most cases, those policies are too restrictive when it comes to labour immigration, especially with regard to unskilled workers. This restrictive tone contrasts, first, with the increasing liberalization of other economic flows, which illustrates the unbalanced nature of the globalization process currently under way. Since globalization benefits mainly those factors that are mobile (capital over labour and skilled over unskilled workers), restrictive policies on migration tend to accentuate the asymmetries of the international order. Second, the restrictive tone of migratory policies is contrary to the need for labour in developed countries, given the countries' stagnant demographics and ageing populations; it also conflicts with the pressure on young people in developing countries to seek employment and personal growth.

Migration can potentially improve the efficiency and well-being of the overall international economic system, as both theoretical and empirical studies have confirmed (Walmsley and Winters, 2005; World Bank, 2006, among others). History shows, moreover, that migration can, in certain circumstances, be an important force in correcting international inequalities and reducing international wage differences between host and home countries (Hatton and Williamson, 1998 and 2005). In terms of a potential increase in global well-being, the effects of a more liberal regime are, even in their most modest estimates, comparable or superior to those that would result from liberalization of trade in goods (Anderson and Martin, 2005; World Bank, 2006). Additionally, migration is an effective although notably selective means of increasing the possibilities for individuals to better themselves, improving individual income, health, education and living conditions. It is, therefore, an important development factor, especially if we believe that people (not just countries) matter (Clemens, 2010). Of course, migration can also entail costs, not only for the countries of origin (breaking of family structures and loss of human capital, for example) and for the recipient countries (reducing social coherence and increasing congestion in the provision of social services), but also for the migrants themselves. All these costs need to be considered and, to the extent possible, minimized through adequate policies in both countries of origin and host countries.

The recent economic crisis has only worsened the vulnerable situation of many groups of migrants. The economic downturn has led to increased unemployment among migrants (above and beyond that of the native population), stricter conditions for new residents in countries hit by the crisis, and a containment—albeit a limited one—in remittances that migrants send to their families (Alonso, 2013). In addition, and this is the most worrying effect, the crisis has stirred up unease about immigration, causing discriminatory and xenophobic reactions even in countries with well-established democracies. All these factors confirm that international migration should be part of any development agenda and regulated by adequate global mechanisms.

A fragmented and disorderly international order

The importance of migration and the aggravation of the conditions in which it is produced suggest the need to regulate the phenomenon in a coherent way. Initiatives undertaken to date have had very limited success. As a result, what exists are a fragmented set of poorly supported rules and a group of international institutions with partial competencies, overlapping one another with informal mechanisms for dialogue and multiple and varied agreements at a bilateral and regional level (Betts, ed., 2011; Ghosh, ed., 2000).

In the specific case of labour mobility, some international conventions were promoted, but all of them harvested limited support (box 2). A few universal legal instruments also have a bearing on migration. The most important are the fundamental treaties on human rights, listed in box 2, which contain clauses against the many kinds of discrimination. These treaties oblige countries to respect, protect and fulfil human rights of all people, including migrants, regardless of their citizenship status.

In addition to these binding treaties, the status of migrants was tackled by various world summits and their programmes of action promoted by the United Nations. Among them, the Cairo Programme of Action of the International Conference on Population and Development (1994) was the one that most comprehensively considered migration; but migration was also addressed by the Vienna Declaration and Programme of Action on Human Rights (1993), the Beijing Platform of Action of the Fourth World Conference on Women (1995), and, more recently, the Durban Declaration and Programme of Action, approved by the World Conference on Racism, Racial Discrimination, Xenophobia and Related Intolerance (2001).

Box 2

Conventions and agreements relevant for labour mobility

Several international conventions have been negotiated to regulate migration, with limited success. That is the case of the International Labour Organization Convention 97 (1949), ratified by 49 countries, whose central purpose was to tackle labour discrimination against migrants; the ILO Convention 143 (1975), ratified by 23 countries, whose goal was to tackle illegal migration and the clandestine movement of people; and the United Nations International Convention on the Protection of the Rights of all Migrant Workers and Members of their Families (2003), that was endorsed by 47 countries and tries to harmonize some basic principles concerning labour migration.

Additionally, two other conventions should be mentioned, even if they are not strictly related to labour migration: first, the Convention Relating to the Status of Refugee (1954) and its Protocol (1967), which aim to regulate the forced movement of people and conditions for granting asylum; and, second, the Convention against Transnational Organized Crime (2003), with the Protocol to Prevent, Suppress and Punish Trafficking in Persons (2003); and the Protocol against Smuggling of Migrants (2004).

Human rights treaties and conventions also have implications for regulating the status and protection of migrants. The most general of all are doubtlessly the United Nations Charter of 1945 and the Universal Declaration of Human Rights of 1948. However, there are six other regulatory frameworks that are relevant to migration: the International Convention on the Elimination of All Forms of Racial Discrimination (1965, signed by 170 countries); the International Covenant on Civil and Political Rights (1966, signed by 154 countries); the International Covenant on Economic, Social and Cultural Rights (1966, signed by 151 countries); the Convention on the Elimination of All Forms of Discrimination against Women (1981, signed by 180 countries); the Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (1987, signed by 139 countries); and the Convention on the Rights of the Child (1990, signed by 192 countries).

The United Nations Secretary-General has promoted diverse initiatives in relation to migration. In 2003, he created the Global Commission on International Migration, which elaborated a comprehensive report that was launched in 2005. In 2006, and in response to the request by the General Assembly (resolutions 59/241 and 60/227), the Secretary-General prepared a report on international migration and development that was presented at the first High-level Dialogue on Migration and Development, organized by the General Assembly with the aim of discussing the effects of international migration and its regulation among Governments, international organizations, civil society and the private sector. In 2013, a second high-level dialogue took place.

Finally, as a result of the first high-level dialogue, and as an attempt to overcome the inertia of the United Nations framework and the unwillingness of Member States to create a formal intergovernmental organ for regular debates on this issue, the Global Forum on Migration and Development was promoted as a platform for informal and non-binding dialogue. The Forum aims to exchange experiences and discuss relevant policies and practical challenges. Between 2007 and 2013, as many as six meetings were organized on themes related to migration.

There have also been several other initiatives to promote regional dialogue on migration, some of them focused on specific aspects of human mobility. Rather than oriented to "norm-dissemination", these regional consultative processes (RCPs) have been primarily engaged in "practice dissemination", attempting to define common standards of good practices relating to regional migration.

The institutional landscape on migration is equally complex and disorderly, with several institutions having partial and overlapping mandates on migration. For example, the International Labour Organization is specialized in the rights of migrant workers; the United Nations High Commissioner for Refugees focuses on the conditions of the refugee and asylum-seeking population; the Office of the United Nations High Commissioner for Human Rights is tasked, among other things, with defending the rights of migrants who have been the victims of traffickers; and the United Nations Educational, Scientific and Cultural Organization, the United Nations Population Fund and the Office of the United Nations Against Drugs and Crime all have mandates involving some specific areas related to migration. Although without normative powers, the Department of Economic and Social Affairs, the United Nations Development Programme and the World Bank are also partly involved in migration. Lastly, the International Organization for Migration (IOM) is specialized in this field, although its mandate is limited and does not belong to the United Nations system. All of these institutions are part of the Global Migration Group (formerly the Geneva Migration Group), which was created with the purpose of facilitating coordination at the international level.

Moving forward

The disorderly and fragmented nature of governance of migration has efficiency costs, since it is more difficult to contemplate the externalities that the national policies generate for other countries. Migration is a global phenomenon, and it requires global responses.

The difficulties of building a global regime in this field rest on two main asymmetries. The first relates to the asymmetries of power between sending and recipient countries, the latter being in a better position for regulating migration. The second is the asymmetric way in which the benefits and the costs of the migratory process are distributed. While benefits are mainly private (captured to a large extent by migrants), the costs are social, affecting both home countries (loss of human capital) and host countries (challenging social cohesion and the access to social services). While beneficiaries in host countries are mainly foreigners, those who may lose out are citizens and voters; this explains why recipient countries are so reluctant to give up their autonomy to regulate in this area. Without question, there are benefits to citizens in host countries that are not always recognized, including contributing human capital, filling jobs that citizens are no longer willing to take, helping to smooth out the effects of population ageing, and making social security and tax contributions. Nevertheless, there is a consensus that more adequate international rules and governance of migratory processes could increase the positive effects (and reduce the negative ones) of migration, sharing its benefits more fairly and guaranteeing the rights of those involved more effectively (Martin, Abella and Kuptsch, 2006; Alonso, 2013).

In order to overcome resistance to building a global regime, a two-track process might be put in place, combining the definition of a framework of minimum standards at the global level with a dynamic of more comprehensive bilateral and regional agreements. The framework should be based on the principles that previous conventions on labour migration have established. It should provide a balanced framework that: (i) recognizes the right that countries have to define the rules of access of non-nationals to their territories, while preserving the greatest possible freedom for people to choose where they want to live and work; (ii) guarantees the rights of people who emigrate, regardless of their administrative status, and allows those in a regular situation to achieve a dignified life in the host country without any discrimination; (iii) accepts that all people have the right to stay in their home country, holding Governments responsible for the consequences of governance that may provoke mass emigration of their citizens; (iv) maximizes the benefits resulting from emigration both for the migrants themselves as well as for the countries involved; and, (v) establishes mechanisms to compensate those that are damaged by the migratory process.

Taking into account these general principles, countries should reduce unnecessary obstacles to migration. However, given that countries face different conditions, that process should be carried out gradually and flexibly, moving towards a progressive liberalization of migratory policies while allowing regulation to be adapted to the circumstances of individual countries. A way to define this process of dialogue and negotiation is by using a system based on a request-offer type of negotiation, similar to that used to liberalize services through the General Agreement on Trade in Services, with countries negotiating on the basis of positive lists of liberalized services, adapted to the conditions in each country (Trachtman, 2009).

At the same time, regional agreements on migration should be encouraged, in some cases taking advantage of the existing regional integration mechanisms. The fact that there is a greater similarity between economies in regional frameworks means that deals on migration would be more feasible. This could facilitate the path to global governance, even if through denser and more diffuse structures and with a set of agreements that would not necessarily be uniform.

Mechanisms of informal dialogue, both globally and regionally, should continue to be supported. RCPs may create a dynamic of coordinated solutions, based on constant exchange of information, addressing issues, dissemination of good practices and formulation of non-binding codes of conduct. These networks might facilitate the environment for more formal supranational agreements.

Finally, regarding the institutional structure to govern labour migration at the global level, the most viable alternative is to start with the IOM, changing its mandate and statute to transform it into a multilateral body integrated within the United Nations system. Since in the last few years the IOM has been increasingly active in the work processes of the

United Nations, much of the work here has already been started. In any case, the IOM should add a standard-setting and monitoring mandate to its current operational mission.

Addressing inequality: why good global governance matters

The subsections above have addressed issues of global governance and inequality between countries. Here we address the links between global governance and inequality within countries.

Experience in recent decades has shown that economic growth has been accompanied by rising inequalities within countries, in both developing and developed countries (figure 7), including not only inequalities among households in terms of income but also in terms of wealth, and multiple economic and social inequalities in relation to gender, ethnicity,

Figure 7

Source: UNDP, 2013, Figure 3.1.

age and location (United Nations, 2013a; United Nations Development Programme, 2013a; Piketty, 2014).

For instance, despite the fact that Africa's economic growth has been consistently above 5 percent on average since 2002, the Africa Progress Panel (a group of 10 eminent world leaders led by Kofi Annan) indicated in its 2012 Africa Progress Report that class, gender, regional and rural-urban inequalities are on the rise in many African countries. Among the social groups adversely affected are: households living in poverty in rural and urban areas and in inhospitable agro-climatic zones; food crop farmers, particularly those operating on a small scale or assisting with family farm enterprises; workers in the informal sector, the unemployed (particularly youth who have dropped out of school). Adversely affected groups constitute the majority of the population in Africa.

Growth and rising inequalities are also present in several Asian countries. Inequality increased in countries that account for more than 80 per cent of Asia's population. For developing Asia as a whole, the Gini coefficient rose from 0.39 to 0.46 between the 1990s and the 2000s (Wan, 2013). The pattern of growth has favoured urban areas over rural, certain regions over others (such as coastal areas versus inland areas in China), and capital over labour. Growth has also favoured the more skilled over the less skilled and the more educated over the less educated. In rural areas, access to non-farm sources of income has been a factor in differential incomes.

A few countries, including 18 in Latin America and 4 in South-east Asia, have managed to reduce domestic inequality in the period 2000-2010. Latin American countries have expanded social sector spending substantially since the early 1990s, and the more successful countries also adopted more vigorous education, health and social protection policies (Cornia, 2013). However, while these measures have reversed the growth in inequality in the region and led to a substantial reduction in some countries, inequality remains high and its reduction has recently tended to stagnate in several countries.

The barriers that current levels of inequality pose for achievement of the Millennium Development Goals and for sustainable development in the post-2015 world are by now well-recognized. Such inequality was the subject of one of the eleven global consultations instituted by the United Nations in preparation for the post-2015 development agenda. The significance of growing inequality between people has also been recognized by the corporations that contribute to the World Economic Forum's global risk assessment (World Economic Forum, 2014), which in 2014 found income disparity to be the risk most likely to have an impact on a global scale in the next decade. Inequalities between people reduce the sustainability of economic growth, diminish the productive potential of those who suffer from them and deprive their societies of their full contribution. Moreover, inequalities threaten national cohesion and create insecurity. "Equitable societies promote social capital, social cohesion and stability, trust and tolerance and thereby innovation, economic growth and sustainable development", notes the Chairpersons' summary statement at the Addressing Inequalities in the Post-2015 Development Agenda: Public Dialogue and Leadership Meeting, held in Copenhagen in 2013, hosted by the Governments of Denmark and Ghana (Chairpersons' summary statement, 2013).

Domestic inequality is influenced by national actors and systems of national governance as well as international actors and global governance. To reduce inequalities in income, wealth, capabilities and voice requires better policies at the national level. But improvements in global governance are also required, so as to prevent the establishment of global rules and institutions that generate and/or perpetuate inequality, and to allow Governments the policy space for financial, trade and fiscal policies that support reduction in inequality.

Poor global governance makes it difficult to reduce inequality within countries and can worsen existing inequalities by creating systemic risks that are then downloaded to countries and people with the least capacity to absorb them. Thus, lack of effective global governance in the use of environmental resources means that a large part of the damage created by countries and people who generate high levels of per capita emissions of greenhouse gases are shifted to lower-income countries and people with low levels of emissions per capita, who lack resources to mitigate the damage.

The financial crisis that erupted in 2008 also amply illustrates this creation and transfer of risk. It was a North Atlantic crisis, linked to poor regulation of international banks and financial companies in developed countries, but it spilled over, via international financial markets, into many developing countries, whose policies had played no part in the genesis of the crisis. Some highly paid employees in the financial sector in London and New York lost their jobs, but so did many millions of other people. Between the onset of the crisis and 2012, an estimated 28 million people became unemployed, bringing the global total of unemployed to 200 million. Over half of the increase was in high-income industrialized countries, but developing countries have been increasingly affected, accounting for 75 per cent of the newly unemployed in 2012 (International Labour Organization, 2013). The youth unemployment rate is particularly high, globally standing at 12.6 per cent in 2013, compared to an adult unemployment rate of 4.6 per cent (Ibid., 2013). A study for selected developed countries found that the growth in youth unemployment during the economic crisis raised the Gini coefficient considerably (Morsy, 2012).

Pressure to maintain the confidence of private investors in international financial markets and to comply with conditions attached to loans from the IMF and other international financial institutions has led many Governments to introduce cuts to public expenditure, often falling on basic public services and social protection, not only in Europe, but also in developing countries (United Nations Entity for Gender Equality and the Empowerment of Women, 2014). Basic public services and social security transfers are, of course, vital tools for the reduction of inequality. The capacity of Governments to use them for this purpose has been undermined. As a consequence, new obstacles to progress made in gender equality have emerged, tending to intensify the amount of unpaid work that women have to do to care for families and communities, and making it more difficult for women to cushion their children against the impact of the crisis in many developed and developing countries (Ibid., 2014).

Even in times of no financial crisis, the asymmetric governance of international markets in goods, finance and labour is conducive to inequality among people and undermines the capacity of Governments to reduce inequality through fiscal and regulatory measures. Trade agreements undermine the fiscal capacity of Governments through loss of tariff revenues, which are difficult to replace with revenue from taxation on large corporations because of international capital mobility and lack of effective international tax cooperation. The Agreement on Trade Related Aspects of Intellectual Property Rights (TRIPS) makes it harder for Governments to provide access to essential medicines. Trade and investment agreements operate "behind the border" to restrict the policy space available to Governments to foster structural change, including movement to more inclusive patterns of growth, based on economy-wide increases in labour productivity.

The current structures of asymmetric global governance that make the international movement of capital much easier than the international movement of labour have a number of other adverse impacts on equality. The prospect of capital flight puts pressure on Governments to adopt an over-restrictive fiscal stance, starving basic services of the money they need to ensure everyone has access to good quality services (Stiglitz, 2000). Moreover, capital flight can lead to sharp devaluation of the currency, pushing up prices with particularly adverse impacts on low-income households. In addition, competition to attract FDI is reported to lead to downward pressure on minimum wages and labour standards (United Nations Development Programme, 2013).

Moving forward

Reforms of global governance to support enlargement of the policy space for all Governments to secure sustainable reductions in inequality should therefore:

(i) *Strengthen fiscal capacity*. Higher tax-to-GDP ratios and greater progressivity in taxation and expenditure have been associated with reductions in inequality. Fiscal policy has powerful redistributive potential. Global initiatives need to be taken to: (a) reduce tax avoidance and evasion, including a United Nations Convention to combat both practices; (b) introduce new globally agreed measures, like the financial transactions (Tobin) tax; and (c) change the norms against which tax policies are evaluated, so as to encourage Governments to design progressive fiscal policies. Enhanced and more efficient international tax cooperation is necessary to guarantee positive outcomes in this direction.

(ii) *Facilitate better regulation of finance and capital flows*. Reductions of inequality in the period 2000-2010 were associated with stronger controls on banks and non-bank financial institutions, and controls on international mobility of capital were instrumental in allowing some countries to avoid large swings in economic activity and employment. The recent financial crisis made it clear that global financial reforms are essential. Though some reforms have been adopted, more are required.

(iii) *Enable better cooperation in macroeconomic policy so that the fiscal space to promote greater equality within countries is not undermined by recessionary bias in the international monetary system*. The current prevalence of recessionary bias undermines progress to reduce inequality.

(iv) *Support implementation of internationally agreed social and labour standards, thus also securing greater coherence between global economic governance and the global system of human rights obligations.* In fact, reductions in inequality in some Latin American countries has been associated with policies that did more to comply with these standards, such as increased health and education expenditures, increases in the minimum wage, strengthening of wage bargaining institutions, and improved social protection. The International Labour Organization conventions and human rights treaties set out rights that apply to everyone—citizens and non-citizens alike—and progressively implementing these conventions and treaties is an obligation of all United Nations Member States. Following the principle of responsible sovereignty, countries should also have the obligation to ensure that the policies of any one Government do not damage the capacities of other Governments to realize these rights. Rules and disciplines deriving from international trade and investment agreements have some provisions that make it harder for Governments to meet international social and human rights standards (an example is TRIPS). More must also be done to secure the adherence of non-State actors, such as corporations, to internationally agreed social and labour standards. Implementation of these standards is particularly important for international migrants, who frequently live in countries of which they are not citizens. Moreover, in the context of pluri-ethnic and multicultural societies, a strategy for sustainable development needs to recognize the rights of indigenous communities to land, natural resources, ethnic identity and cultural heritage, as well as their right to participate in relevant decision-making processes.

IV. Global governance for development

Global governance has become a domain with many different players (Alexandroff, 2010; Weiss, 2009) including: multilateral organizations that have a universal character, such as the United Nations General Assembly; elite multilateral groupings such as the Group of Eight (G8) and the Group of Twenty (G20) (Ocampo, 2011); different coalitions relevant to specific policy subjects (such as climate change); informal multilateralism (as exemplified in financial standard-setting bodies) and regional formations (for example, those relating to trade and investment agreements). Also included are activities of the private sector (e.g., the Global Compact) non-governmental organizations (NGOs) and large philanthropic foundations (e.g., Bill and Melinda Gates Foundation, Turner Foundation) and associated global funds to address particular issues) (Anheier, 2000). Participation of several actors is noticeable, for instance, in public heath with the emergence of global health partnerships (United Nations, 2009b).

In this increasingly complex system of global governance, questions arise on how effective these institutions have been in identifying and handling global issues, especially from a development perspective and how these institutions fulfil desirable criteria such as effectiveness, representativeness, participation and transparency, and coherence. This is of particular importance for addressing ongoing and emerging challenges for meeting the Millennium Development Goals (MDGs) in 2015, for securing the reforms for global governance identified above, and for sustainable development in the post-2015 era. In this respect, promoting a global economic governance system with the right balance between legitimacy and effectiveness, built around the principles laid out in Section II of this report, is an essential element in achieving these goals.

Currently, the system of global governance does not meet these criteria. The representativeness, opportunities for participation, and transparency of many of the main actors are open to question. Decision-making processes at the International Monetary Fund and World Bank, for instance, do not give major developing countries a share of voting power corresponding to their increasing relevance in the world economy, while other developing countries seem to have very little or no weight at all. The G20 is a self-appointed group where the participation of Governments of emerging market economies is on their own account, and not on the behalf of other developing countries. NGOs, while providing key impetus and innovative approaches to tackle development issues (Bradford, Jr., 2005), often have governance structures that are not subject to open and democratic accountability. The lack of representativeness, accountability and transparency of corporations (George, 2014) is even more important as corporations have more power and are currently promoting multi-stakeholder governance with a leading role for the private sector (Pingeot, 2014).

Against this background, "the United Nations emerges as an actor with distinct advantages, including the equal representation of its 192 Member States [now 193] under the United Nations Charter" (Deiss, 2010), as an institutional framework for monitoring the implementation of the internationally agreed development goals, including the MDGs, and the post-2015 development goals for achieving sustainable, equitable and inclusive growth. Nevertheless, the key question remains whether the United Nations will function as the main political forum for dealing with socioeconomic issues at the global level, playing a key and effective role in managing global challenges, or whether Member States will leave this role to other forums, including selective, elite multilateral groupings, and multi-stakeholder processes.

Currently, it seems that the United Nations has not been able to provide direction in the solution of global governance problems—perhaps lacking appropriate resources or authority, or both. United Nations bodies, with the exception of the Security Council, cannot make binding decisions. Further, the United Nations system is very fragmented, with scarce resources thinly distributed between competing agencies, each having its own agenda and governance processes. As a result, most global issues do not move forward as expeditiously as needed: there is little progress on climate change or the broader sustainability agenda, and most development goals are only voluntary commitments, with few enforcement mechanisms.

The role of the United Nations

For the United Nations to utilize its distinct advantages, it must strengthen its position in global governance. Its intellectual history suggests that the Organization is the source of many ideas that have led to human progress and to agreed global development goals, particularly through a series of United Nations conferences convened since 1970, and more recently through summits, starting with the 1990 World Summit for Children (Ocampo, 2013). For example, "the concept of human rights, and ideas about social and economic development and environmental sustainability have guided the UN's work in different countries" (Dutt, 2012). If this has been the strength of the United Nations, the weakness has been its accountability mechanisms and even a deficient monitoring of international commitments (Ocampo, 2013).

There have been several proposals on how to enhance the Organization's central role in global governance, as an essential element to achieving a broad development agenda including all dimensions of sustainable development. The key issue here is finding the right balance between representativeness and participation on the one hand, and effectiveness on the other. However, the very condition that generates the greatest legitimacy of the United Nations among all international institutions—the principle of one country, one vote—also makes it quite difficult to get things done. The divergent interests, conflicting incentives and differing values and norms of Member States can seriously impede the ability to move from broad consensus to agreement on operational policymaking and coordinated delivery of measures on the ground.

As a possible way forward towards more effective global governance, the United Nations Commission of Experts on Reform of the International Financial and Monetary System (United Nations, 2009a) recommended to the General Assembly the creation of a new universal, constituency-based economic governance body within the United Nations—a Global Economic Coordination Council at a level equivalent to the General Assembly and the Security Council. This Council would be a democratically representative alternative to the G20, and would aim to "promote development, secure consistency and coherence in the policy goals of the major international organizations and support consensus building among Governments on efficient and effective solutions for issues of global economic governance" and "help set the agenda for global economic and financial reforms" (Ibid.). The new Council would thus secure a more coherent and effective response of the United Nations on issues related to global economic governance. The Commission also put forward an alternative proposal of a body similar to the Intergovernmental Panel on Climate Change, but dealing with economic and social issues. These proposals deserve greater attention. However, there has been no action in this regard; instead the focus has been on reforming the United Nations Economic and Social Council (ECOSOC), the existing mechanism within the United Nations for economic policy coordination.

When ECOSOC was created as one of the main United Nations organs, it was expected to take over the function of coordinating economic and social policymaking across the world and within the United Nations system. However, it has not been able to fulfil this function very effectively, owing in part to the ambiguous relationship between the General Assembly and ECOSOC. Its responsibility for international and social cooperation was to be discharged under the authority of the General Assembly, giving ECOSOC few of the powers the Charter of the United Nations grants to the Security Council (Steven, 2012), which operates independently of the General Assembly. In practice, ECOSOC responsibility has been reduced to the coordination and monitoring of social, economic and environmental issues and related activities of the United Nations system.

ECOSOC has played no role in coordinating and providing guidance for the post-2015 development agenda so far. Instead, the post-2015 process has been largely coordinated directly by the Secretary-General, who sought inputs from within the United Nations system (coordinated by United Nations Department of Economic and Social Affairs), the High-level Panel on Eminent Persons on the Post-2015 Development Agenda, a global conversation with a broader set of actors (coordinated by the United Nations Development Programme), and the Sustainability Development Solutions Network, in which corporations play a leading role (Pingeot, 2014). In turn, at the intergovernmental level, the General Assembly has merged this discussion with the agenda on sustainable development agreed at the 2012 United Nations Conference on Sustainable Development (Rio+20), through the Open Working Group on Sustainable Development Goals. This Open Working Group has emphasized, at its sixth session, “that the United Nations remains the forum for a broad, development-focused discussion of the international financial and economic system, notably in the context of a reinvigorated ECOSOC”. To what extent ECOSOC will provide more than a discussion forum remains to be seen.

Moving forward

There have been periodic initiatives to strengthen ECOSOC, including at the 2005 World Summit, which led to General Assembly resolution 61/16 creating the Annual Ministerial Review and the biennial Development Cooperation Forum. The most recent strengthening of ECOSOC by the General Assembly was the adoption of resolution 68/1 of September 2013, based on the follow-up to resolution 61/16, and given special impetus by the outcome of Rio+20. At Rio+20, Heads of State and Government recognized the key role of ECOSOC in achieving a balanced integration of the three dimensions of sustainable development, elevating the Council’s function as a platform for sustainable development. The annual ministerial meetings of the High-level Political Forum will take place under the auspices of ECOSOC, while the Forum’s meetings at the level of Heads of State will be convened every four years under the General Assembly. This framework raises the visibility of the follow-up to the Sustainable Development Goals (SDGs) and the future post-2015 development agenda (which will hopefully be one and the same) by including high-level government representatives in its deliberations. It also creates a novel mechanism of coordination between the General Assembly and ECOSOC.

ECOSOC, as a principal body for the follow-up on the implementation of the United Nations development agenda, should take on the responsibility for advancement of the reform agenda set out in Section III. It should provide guidance to the work of the entire United Nations system in addressing deficiencies in the current governance in areas requiring improved international cooperation, such as the environment, international monetary and financial architecture, capital and labour flows, trade rules, and inequality. This includes reviewing and improving upon the coherence of existing structures as well as filling the gaps in global governance. These issues should be part of the Council's annual programme of work under the main overarching themes of promoting the balanced integration of the economic social and environmental dimensions of sustainable development, as well as the post-2015 development agenda.

However, if the Council is to be the principal body for the follow-up on the implementation of the United Nations development agenda, its ability to coordinate and guide should be strengthened by appropriate follow-up and monitoring mechanisms for bridging the gap between commitments and the implementation of these commitments. For this, a United Nations led monitoring and accountability mechanism with quantifiable targets and indicators needs to be established for both countries as well as United Nations agencies working on this agenda (United Nations, 2014).

This accountability mechanism would focus on the three dimensions of sustainable development (economic, social and environmental), while taking into account principles that support the development efforts of developing countries and environmental sustainability as presented in this report. It would systematically assess and monitor the effectiveness, representativeness, participation and transparency and coherence of global governance in achieving internationally agreed goals (currently the MDGs, and, in the future, the SDGs and the post-2015 development goals). Such a monitoring and accountability mechanism would provide an important basis for regular discussion of the evaluation at a high political level on how to further improve the outcome of the post-2015 development agenda, both in countries and within the United Nations system. The layout of such a system will require special attention in relation to the quantification of targets (means vs. ends/outcomes), data collection (the availability of data and/or the need for new data sources), and definitions and indicators measuring representativeness, inclusiveness, transparency and coherence of global governance.

Implementation of the post-2015 development agenda ultimately depends on the political will of Member States to carry it through. Therefore, success will depend on whether all countries contribute to the reform of global governance and use their policy space to implement policies that promote the three dimensions of sustainable development in an integrated manner. However, national States have tended to commit themselves to those solutions that are in their narrow national interest or do not interfere with what they perceive as their national sovereignty, and/or those from which they are expecting to maximize their national interest at the expense of others, either by domination or by free-riding (Kaul, 2013). While global challenges continue to be viewed from this narrow perspective, the probability of failing to address them will remain high. The need for responsible sovereignty, one of the five principles presented in Section II above, is more than relevant in this context. In this regard, ECOSOC should take an initiative on how to operationalize this principle. Responsible sovereignty is, no doubt, a necessary condition for States to cooperate in creating the conditions for the realization of internationally recognized rights and freedoms and to act according to the other key principles of global governance put forward in this report: common but differentiated responsibilities, inclusiveness, transparency, accountability and coherence. Likewise, the relevance of the United Nations in global economic governance largely depends on how much Member States are willing to strengthen the Organization, so that it may become a more effective factor in global economic governance for implementing a post-2015 development agenda for the benefit of all.

Carta *das*

N*ações* U*nidas*

Nações Unidas

Impresso pelo Centro de Informação da ONU
para o Brasil (UNIC Rio de Janeiro)
www.onu.org.br | www.unicrio.org.br

NOTA INTRODUTÓRIA

A Carta das Nações Unidas foi assinada em São Francisco, a 26 de junho de 1945, após o término da Conferência das Nações Unidas sobre Organização Internacional, entrando em vigor a 24 de outubro daquele mesmo ano. O Estatuto da Corte Internacional de Justiça é parte integrante da Carta (*o texto do Estatuto do CIJ pode ser consultado em www.nacoesunidas.org/carta/cij*).

A 17 de dezembro de 1963, a Assembleia Geral aprovou as emendas aos artigos 23, 27 e 61 da Carta, as quais entraram em vigor a 31 de agosto de 1965. Uma posterior emenda ao artigo 61 foi aprovada pela Assembleia Geral a 20 de dezembro de 1971 e entrou em vigor a 24 de setembro de 1973. A emenda do artigo 109, aprovada pela Assembleia Geral a 20 de dezembro de 1965, entrou em vigor a 12 de junho de 1968.

A emenda ao artigo 23 eleva o número de membros do Conselho de Segurança de onze para quinze. O artigo 27 emendado estipula que as decisões do Conselho de Segurança sobre questões de procedimento sejam efetuadas pelo voto afirmativo de nove membros (anteriormente sete) e, sobre todas as demais questões, pelo voto afirmativo de nove membros (anteriormente sete), incluindo-se entre eles os votos dos cinco membros permanentes do Conselho de Segurança.

A emenda ao artigo 61, que entrou em vigor a 31 de agosto de 1965, eleva o número de membros do Conselho Econômico e Social de dezoito para vinte e sete. A emenda subsequente a este artigo, que entrou em vigor a 24 de setembro de 1973, elevou posteriormente o número de membros do Conselho para cinquenta e quatro.

A emenda ao artigo 109, relacionada com o primeiro parágrafo do referido artigo, estipula que uma Conferência Geral de Estados-membros, convocada com a finalidade de rever a Carta, poderá efetuar-se em lugar e data a serem fixados pelo voto de dois terços dos membros da Assembleia Geral e pelo voto de nove membros quaisquer (anteriormente sete) do Conselho de Segurança.

O parágrafo 3 do artigo 109, sobre uma possível revisão da Carta durante a décima sessão da Assembleia Geral, mantém-se em sua forma original, quando se refere a um "voto de sete membros quaisquer do Conselho de Segurança", havendo o referido parágrafo sido aplicado em 1955 pela Assembleia Geral durante sua décima sessão ordinária e pelo Conselho de Segurança.

CARTA DAS NAÇÕES UNIDAS

Preâmbulo

NÓS, OS POVOS DAS NAÇÕES UNIDAS, RESOLVIDOS

a preservar as gerações vindouras do flagelo da guerra, que por duas vezes, no espaço da nossa vida, trouxe sofrimentos indizíveis à humanidade, e a reafirmar a fé nos direitos fundamentais do homem, na dignidade e no valor do ser humano, na igualdade de direito dos homens e das mulheres, assim como das nações grandes e pequenas, e a estabelecer condições sob as quais a justiça e o respeito às obrigações decorrentes de tratados e de outras fontes do direito internacional possam ser mantidos, e a promover o progresso social e melhores condições de vida dentro de uma liberdade ampla.

E PARA TAIS FINS,

praticar a tolerância e viver em paz, uns com os outros, como bons vizinhos, e unir as nossas forças para manter a paz e a segurança internacionais, e a garantir, pela aceitação de princípios e a instituição dos métodos, que a força armada não será usada a não ser no interesse comum, a empregar um mecanismo internacional para promover o progresso econômico e social de todos os povos.

RESOLVEMOS CONJUGAR NOSSOS ESFORÇOS PARA A CONSECUÇÃO DESSES OBJETIVOS.

Em vista disso, nossos respectivos Governos, por intermédio de representantes reunidos na cidade de São Francisco, depois de exibirem seus plenos poderes, que foram achados em boa e devida forma, concordaram com a presente Carta das Nações Unidas e estabelecem, por meio dela, uma organização internacional que será conhecida pelo nome de Nações Unidas.

CAPÍTULO I

PROPÓSITOS E PRINCÍPIOS

Artigo 1

Os propósitos das Nações unidas são:

1. Manter a paz e a segurança internacionais e, para esse fim: tomar, coletivamente, medidas efetivas para evitar ameaças à paz e reprimir os atos de agressão ou outra qualquer ruptura da paz e chegar, por meios pacíficos e de conformidade com os princípios da justiça e do direito internacional, a um ajuste ou solução das controvérsias ou situações que possam levar a uma perturbação da paz;
2. Desenvolver relações amistosas entre as nações, baseadas no respeito ao princípio de igualdade de direitos e de autodeterminação dos povos, e tomar outras medidas apropriadas ao fortalecimento da paz universal;
3. Conseguir uma cooperação internacional para resolver os problemas internacionais de caráter econômico, social, cultural ou humanitário, e para promover e estimular o respeito aos direitos humanos e às liberdades fundamentais para

todos, sem distinção de raça, sexo, língua ou religião; e

4. Ser um centro destinado a harmonizar a ação das nações para a consecução desses objetivos comuns.

Artigo 2

A Organização e seus membros, para a realização dos propósitos mencionados no artigo 1, agirão de acordo com os seguintes Princípios:

1. A Organização é baseada no princípio da igualdade soberana de todos os seus membros.
2. Todos os membros, a fim de assegurarem para todos em geral os direitos e vantagens resultantes de sua qualidade de membros, deverão cumprir de boa fé as obrigações por eles assumidas de acordo com a presente Carta.
3. Todos os membros deverão resolver suas controvérsias internacionais por meios pacíficos, de modo que não sejam ameaçadas a paz, a segurança e a justiça internacionais.
4. Todos os membros deverão evitar em suas relações internacionais a ameaça ou o uso da força contra a integridade territorial ou a

dependência política de qualquer Estado, ou qualquer outra ação incompatível com os Propósitos das Nações Unidas.

5. Todos os membros darão às Nações toda assistência em qualquer ação a que elas recorrerem de acordo com a presente Carta e se absterão de dar auxílio a qual Estado contra o qual as Nações Unidas agirem de modo preventivo ou coercitivo.
6. A Organização fará com que os Estados que não são membros das Nações Unidas ajam de acordo com esses Princípios em tudo quanto for necessário à manutenção da paz e da segurança internacionais.
7. Nenhum dispositivo da presente Carta autorizará as Nações Unidas a intervirem em assuntos que dependam essencialmente da jurisdição de qualquer Estado ou obrigará os membros a submeterem tais assuntos a uma solução, nos termos da presente Carta; este princípio, porém, não prejudicará a aplicação das medidas coercitivas constantes do Capítulo VII.

CAPÍTULO II

DOS MEMBROS

Artigo 3

Os membros originais das Nações Unidas serão os Estados que, tendo participado da Conferência das Nações Unidas sobre a Organização Internacional, realizada em São Francisco, ou, tendo assinado previamente a Declaração das Nações Unidas, de 1 de janeiro de 1942, assinarem a presente Carta, e a ratificarem, de acordo com o artigo 110.

Artigo 4

1. A admissão como membro das Nações Unidas fica aberta a todos os Estados amantes da paz que aceitarem as obrigações contidas na presente Carta e que, a juízo da Organização, estiverem aptos e dispostos a cumprir tais obrigações.
2. A admissão de qualquer desses Estados como membros das Nações Unidas será efetuada por decisão da Assembleia Geral, mediante recomendação do Conselho de Segurança.

Artigo 5

O membro das Nações Unidas, contra o qual for levada a efeito ação preventiva ou coercitiva por parte do Conselho de Segurança, poderá ser suspenso do exercício dos direitos e privilégios de membro pela Assembleia Geral, mediante recomendação do Conselho de Segurança. O exercício desses direitos e privilégios poderá ser restabelecido pelo Conselho de Segurança.

Artigo 6

O membro das Nações Unidas que houver violado persistentemente os Princípios contidos na presente Carta, poderá ser expulso da Organização pela Assembleia Geral mediante recomendação do Conselho de Segurança.

CAPÍTULO III

ÓRGÃOS

Artigo 7

1. Ficam estabelecidos como órgãos principais das Nações Unidas: uma Assembleia Geral, um Conselho de Segurança, um Conselho Econômico e Social, um Conselho de Tutela, uma Corte Internacional de Justiça e um Secretariado.
2. Serão estabelecidos, de acordo com a presente Carta, os órgãos subsidiários considerados de necessidade.

Artigo 8

As Nações Unidas não farão restrições quanto à elegibilidade de homens e mulheres destinados a participar em qualquer caráter e em condições de igualdade em seus órgãos principais e subsidiários.

CAPÍTULO IV

ASSEMBLEIA GERAL

COMPOSIÇÃO

Artigo 9

1. A Assembleia Geral será constituída por todos os membros das Nações Unidas.
2. Cada membro não deverá ter mais de cinco representantes na Assembleia Geral.

FUNÇÕES E ATRIBUIÇÕES

Artigo 10

A Assembleia Geral poderá discutir quaisquer questões ou assuntos que estiverem dentro das finalidades da presente Carta ou que se relacionarem com as atribuições e funções de qualquer dos órgãos nela previstos e, com exceção do estipulado no artigo 12, poderá fazer recomendações aos membros das Nações Unidas ou ao Conselho de Segurança ou a este e àqueles, conjuntamente, com referência a qualquer daquelas questões ou assuntos.

Artigo 11

1. A Assembleia Geral poderá considerar os princípios gerais de cooperação na manutenção da paz e da segurança internacionais, inclusive os princípios que disponham sobre o desarmamento e a regulamentação dos armamentos, e poderá fazer recomendações relativas a tais princípios aos membros ou ao Conselho de Segurança, ou a este e àqueles conjuntamente.
2. A Assembleia Geral poderá discutir quaisquer questões relativas à manutenção da paz e da segurança internacionais, que a ela forem submetidas por qualquer membro das Nações Unidas, ou pelo Conselho de Segurança, ou por um Estado que não seja membro das Nações unidas, de acordo com o artigo 35, parágrafo 2, e, com exceção do que fica estipulado no artigo 12, poderá fazer recomendações relativas a quaisquer destas questões ao Estado ou Estados interessados, ou ao Conselho de Segurança ou a ambos. Qualquer destas questões, para cuja solução for necessária uma ação, será submetida ao Conselho de Segurança pela Assembleia Geral, antes ou depois da discussão.

3. A Assembleia Geral poderá solicitar a atenção do Conselho de Segurança para situações que possam constituir ameaça à paz e à segurança internacionais.
4. As atribuições da Assembleia Geral enumeradas neste artigo não limitarão a finalidade geral do artigo 10.

Artigo 12

1. Enquanto o Conselho de Segurança estiver exercendo, em relação a qualquer controvérsia ou situação, as funções que lhe são atribuídas na presente Carta, a Assembleia Geral não fará nenhuma recomendação a respeito dessa controvérsia ou situação, a menos que o Conselho de Segurança a solicite.
2. O secretário-geral, com o consentimento do Conselho de Segurança, comunicará à Assembleia Geral, em cada sessão, quaisquer assuntos relativos à manutenção da paz e da segurança internacionais que estiverem sendo tratados pelo Conselho de Segurança, e da mesma maneira dará conhecimento de tais assuntos à Assembleia Geral, ou aos membros das Nações Unidas se a Assembleia Geral não estiver em sessão, logo que o Conselho de

Segurança terminar o exame dos referidos assuntos.

Artigo 13

1. A Assembleia Geral iniciará estudos e fará recomendações, destinados a: a) promover cooperação internacional no terreno político e incentivar o desenvolvimento progressivo do direito internacional e a sua codificação; b) promover cooperação internacional nos terrenos econômico, social, cultural, educacional e sanitário e favorecer o pleno gozo dos direitos humanos e das liberdades fundamentais, por parte de todos os povos, sem distinção de raça, sexo, língua ou religião.
2. As demais responsabilidades, funções e atribuições da Assembleia Geral, em relação aos assuntos mencionados no parágrafo 1 (b) acima, estão enumeradas nos Capítulos IX e X.

Artigo 14

A Assembleia Geral sujeita aos dispositivos do artigo 12, poderá recomendar medidas para a solução pacífica de qualquer situação, qualquer que seja sua origem, que lhe pareça prejudicial ao bem-estar geral ou às relações amistosas entre as nações, inclusive em situações que resultem da violação dos dispositivos da presente Carta que estabelecem os Propósitos e Princípios das Nações Unidas.

Artigo 15

1. A Assembleia Geral receberá e examinará os relatórios anuais e especiais do Conselho de Segurança. Esses relatórios incluirão uma relação das medidas que o Conselho de Segurança tenha adotado ou aplicado a fim de manter a paz e a segurança internacionais.
2. A Assembleia Geral receberá e examinará os relatórios dos outros órgãos das Nações Unidas.

Artigo 16

A Assembleia Geral desempenhará, com relação ao sistema internacional de tutela, as funções a ela atribuídas nos Capítulos XII e XIII, inclusive a aprovação de acordos de tutela referentes às zonas não designadas como estratégicas.

Artigo 17

1. A Assembleia Geral considerará e aprovará o orçamento da Organização.
2. As despesas da Organização serão custeadas pelos membros, segundo cotas fixadas pela Assembleia Geral.
3. A Assembleia Geral considerará e aprovará quaisquer ajustes financeiros e orçamentários com as agências especializadas, a que se refere o artigo 57, e examinará os orçamentos administrativos de tais instituições especializadas com o fim de lhes fazer recomendações.

VOTAÇÃO

Artigo 18

1. Cada membro da Assembleia Geral terá um voto.
2. As decisões da Assembleia Geral, em questões importantes, serão tomadas por maioria de dois terços dos membros presentes e votantes. Essas questões compreenderão: recomendações relativas à manutenção da paz e da segurança internacionais; à eleição dos membros não

permanentes do Conselho de Segurança; à eleição dos membros do Conselho Econômico e Social; à eleição dos membros dos Conselho de Tutela, de acordo como parágrafo 1 (c) do artigo 86; à admissão de novos membros das Nações Unidas; à suspensão dos direitos e privilégios de membros; à expulsão dos membros; questões referentes o funcionamento do sistema de tutela e questões orçamentárias.

3. As decisões sobre outras questões, inclusive a determinação de categoria adicionais de assuntos a serem debatidos por uma maioria dos membros presentes e que votem.

Artigo 19

O membro das Nações Unidas que estiver em atraso no pagamento de sua contribuição financeira à Organização não terá voto na Assembleia Geral, se o total de suas contribuições atrasadas igualarem ou excederem a soma das contribuições correspondentes aos dois anos anteriores completos. A Assembleia Geral poderá, entretanto, permitir que o referido membro vote, se ficar provado que a falta de pagamento é devida a condições independentes de sua vontade.

PROCEDIMENTO

Artigo 20

A Assembleia Geral reunir-se-á em sessões anuais regulares e em sessões especiais exigidas pelas circunstâncias. As sessões especiais serão convocadas pelo secretário-geral, a pedido do Conselho de Segurança ou da maioria dos membros das Nações Unidas.

Artigo 21

A Assembleia Geral adotará suas regras de processo e elegerá seu presidente para cada sessão.

Artigo 22

A Assembleia Geral poderá estabelecer os órgãos subsidiários que julgar necessários ao desempenho de suas funções.

CAPÍTULO V

CONSELHO DE SEGURANÇA

COMPOSIÇÃO

Artigo 23

1. O Conselho de Segurança será composto de quinze membros das Nações Unidas. A República da China, a França, a União das Repúblicas Socialistas Soviéticas, o Reino Unido da Grã-Bretanha e Irlanda do Norte, e os Estados Unidos da América serão membros permanentes do Conselho de Segurança. A Assembleia Geral elegerá dez outros membros das Nações Unidas para membros não permanentes do Conselho de Segurança, tendo especialmente em vista, em primeiro lugar, a contribuição dos membros das Nações Unidas para a manutenção da paz e da segurança internacionais e para os outros propósitos da Organização e também a distribuição geográfica equitativa.
2. Os membros não permanentes do Conselho de Segurança serão eleitos por um período de dois anos. Na primeira eleição dos membros não

permanentes do Conselho de Segurança, que se celebre depois do aumento do número de membros do Conselho de Segurança de onze para quinze, dois dos quatro membros novos serão eleitos por um período de um ano. Nenhum membro que termine seu mandato poderá ser reeleito para o período imediato.

3. Cada membro do Conselho de Segurança terá um representante.

FUNÇÕES E ATRIBUIÇÕES

Artigo 24

1. A fim de assegurar pronta e eficaz ação por parte das Nações Unidas, seus membros conferem ao Conselho de Segurança a principal responsabilidade na manutenção da paz e da segurança internacionais e concordam em que no cumprimento dos deveres impostos por essa responsabilidade o Conselho de Segurança aja em nome deles.
2. No cumprimento desses deveres, o Conselho de Segurança agirá de acordo com os Propósitos e Princípios das Nações Unidas. As atribuições específicas do Conselho de Segurança para o

cumprimento desses deveres estão enumeradas nos Capítulos VI, VII, VIII e XII.

3. O Conselho de Segurança submeterá relatórios anuais e, quando necessário, especiais à Assembleia Geral para sua consideração.

Artigos 25

Os membros das Nações Unidas concordam em aceitar e executar as decisões do Conselho de Segurança, de acordo com a presente Carta.

Artigos 26

A fim de promover o estabelecimento e a manutenção da paz e da segurança internacionais, desviando para armamentos o menos possível dos recursos humanos e econômicos do mundo, o Conselho de Segurança terá o encargo de formular, com a assistência da Comissão de Estado-Maior, a que se refere o artigo 47, os planos a serem submetidos aos membros das Nações Unidas, para o estabelecimento de um sistema de regulamentação dos armamentos.

VOTAÇÃO

Artigos 27

1. Cada membro do Conselho de Segurança terá um voto.
2. As decisões do Conselho de Segurança, em questões processuais, serão tomadas pelo voto afirmativo de nove membros.
3. As decisões do Conselho de Segurança, em todos os outros assuntos, serão tomadas pelo voto afirmativo de nove membros, inclusive os votos afirmativos de todos os membros permanentes, ficando estabelecido que, nas decisões previstas no Capítulo VI e no parágrafo 3 do artigo 52, aquele que for parte em uma controvérsia se absterá de votar.

PROCEDIMENTO

Artigo 28

1. O Conselho de Segurança será organizado de maneira que possa funcionar continuamente. Cada membro do Conselho de Segurança será, para tal fim, em todos os momentos, representado na sede da Organização.

2. O Conselho de Segurança terá reuniões periódicas, nas quais cada um de seus membros poderá, se assim o desejar, ser representado por um membro do governo ou por outro representante especialmente designado.
3. O Conselho de Segurança poderá reunir-se em outros lugares, fora da sede da Organização, e que, a seu juízo, possam facilitar o seu trabalho.

Artigo 29

O Conselho de Segurança poderá estabelecer órgãos subsidiários que julgar necessários para o desempenho de suas funções.

Artigo 30

O Conselho de Segurança adotará seu próprio regulamento interno, que incluirá o método de escolha de seu Presidente.

Artigo 31

Qualquer membro das Nações Unidas, que não for membro do Conselho de Segurança, poderá participar, sem direito a voto, na discussão de qualquer questão submetida ao Conselho de Segurança, sempre que este considere que os interesses do referido membro estão especialmente em jogo.

Artigo 32

Qualquer membro das Nações Unidas que não for membro do Conselho de Segurança, ou qualquer Estado que não for membro das Nações Unidas, será convidado, desde que seja parte em uma controvérsia submetida ao Conselho de Segurança, a participar, sem voto, na discussão dessa controvérsia. O Conselho de Segurança determinará as condições que lhe parecerem justas para a participação de um Estado que não for membro das Nações Unidas.

CAPÍTULO VI

SOLUÇÃO PACÍFICA DE CONTROVÉRSIAS

Artigo 33

1. As partes em uma controvérsia, que possa vir a constituir uma ameaça à paz e à segurança internacionais, procurarão, antes de tudo, chegar a uma solução por negociação, inquérito, mediação, conciliação, arbitragem, solução judicial, recurso a organismos ou acordos regionais, ou a qualquer outro meio pacífico à sua escolha.
2. O Conselho de Segurança convidará, quando julgar necessário, as referidas partes a resolver, por tais meios, suas controvérsias.

Artigo 34

O Conselho de Segurança poderá investigar sobre qualquer controvérsia ou situação suscetível de provocar atritos entre as Nações ou dar origem a uma controvérsia, a fim de determinar se a continuação de tal controvérsia ou situação pode constituir ameaça à manutenção da paz e da segurança internacionais.

Artigo 35

1. Qualquer membro das Nações Unidas poderá solicitar a atenção do Conselho de Segurança ou da Assembleia Geral para qualquer controvérsia, ou qualquer situação, da natureza das que se acham previstas no artigo 34.
2. Um Estado que não for membro das Nações Unidas poderá solicitar a atenção do Conselho de Segurança ou da Assembleia Geral para qualquer controvérsia em que seja parte, uma vez que aceite, previamente, em relação a essa controvérsia, as obrigações de solução pacífica previstas na presente Carta.
3. Os atos da Assembleia Geral, a respeito dos assuntos submetidos à sua atenção, de acordo com este artigo, serão sujeitos aos dispositivos dos artigos 11 e 12.

Artigo 36

1. O Conselho de Segurança poderá, em qualquer fase de uma controvérsia da natureza a que se refere o artigo 33, ou de uma situação de natureza semelhante, recomendar procedimentos ou métodos de solução apropriados.

2. O Conselho de Segurança deverá tomar em consideração quaisquer procedimentos para a solução de uma controvérsia que já tenham sido adotados pelas partes.
3. Ao fazer recomendações, de acordo com este artigo, o Conselho de Segurança deverá tomar em consideração que as controvérsias de caráter jurídico devem, em regra geral, ser submetidas pelas partes à Corte Internacional de Justiça, de acordo com os dispositivos do Estatuto da Corte.

Artigo 37

1. No caso em que as partes em controvérsia da natureza a que se refere o artigo 33 não conseguirem resolvê-la pelos meios indicados no mesmo artigo, deverão submetê-la ao Conselho de Segurança.
2. O Conselho de Segurança, caso julgue que a continuação dessa controvérsia poderá realmente constituir uma ameaça à manutenção da paz e da segurança internacionais, decidirá sobre a conveniência de agir de acordo com o artigo 36 ou recomendar as condições que lhe parecerem apropriadas à sua solução.

Artigo 38

Sem prejuízo dos dispositivos dos artigos 33 a 37, o Conselho de Segurança poderá, se todas as partes em uma controvérsia assim o solicitarem, fazer recomendações às partes, tendo em vista uma solução pacífica da controvérsia.

CAPÍTULO VII

AÇÃO RELATIVA A AMEAÇAS À PAZ, RUPTURA DA PAZ E ATOS DE AGRESSÃO

Artigo 39

O Conselho de Segurança determinará a existência de qualquer ameaça à paz, ruptura da paz ou ato de agressão, e fará recomendações ou decidirá que medidas deverão ser tomadas de acordo com os artigos 41 e 42, a fim de manter ou restabelecer a paz e a segurança internacionais.

Artigo 40

A fim de evitar que a situação se agrave, o Conselho de Segurança poderá, antes de fazer as recomendações ou decidir a respeito das medidas previstas no artigo 39, convidar as partes interessadas a aceitarem as medidas provisórias que lhe pareçam necessárias ou aconselháveis. Tais medidas provisórias não prejudicarão os direitos ou pretensões, nem a situação das partes interessadas. O Conselho de Segurança tomará devida nota do não cumprimento dessas medidas.

Artigo 41

O Conselho de Segurança decidirá sobre as medidas que, sem envolver o emprego de forças armadas, deverão ser tomadas para tornar efetivas suas decisões e poderá convidar os membros das Nações Unidas a aplicarem tais medidas. Estas poderão incluir a interrupção completa ou parcial das relações econômicas, dos meios de comunicação ferroviários, marítimos, aéreos, postais, telegráficos, radiofônicos, ou de outra qualquer espécie e o rompimento das relações diplomáticas.

Artigo 42

No caso de o Conselho de Segurança considerar que as medidas previstas no artigo 41 seriam ou demonstraram que são inadequadas, poderá levar e efeito, por meio de forças aéreas, navais ou terrestres, a ação que julgar necessária para manter ou restabelecer a paz e a segurança internacionais. Tal ação poderá compreender demonstrações, bloqueios e outras operações, por parte das forças aéreas, navais ou terrestres dos membros das Nações Unidas.

Artigo 43

1. Todos os membros das Nações Unidas, a fim de contribuir para a manutenção da paz e da segurança internacionais, se comprometem a proporcionar ao Conselho de Segurança, a seu pedido e de conformidade com o acordo ou acordos especiais, forças armadas, assistência e facilidades, inclusive direitos de passagem, necessários à manutenção da paz e da segurança internacionais.
2. Tal acordo ou tais acordos determinarão o número e tipo das forças, seu grau de preparação e sua localização geral, bem como a natureza das facilidades e da assistência a serem proporcionadas.
3. O acordo ou acordos serão negociados o mais cedo possível, por iniciativa do Conselho de Segurança. Serão concluídos entre o Conselho de Segurança e membros da Organização ou entre o Conselho de Segurança e grupos de membros e submetidos à ratificação, pelos Estados signatários, de conformidade com seus respectivos processos constitucionais.

Artigo 44

Quando o Conselho de Segurança decidir o emprego de força, deverá, antes de solicitar a um membro nele não representado o fornecimento de forças armadas em cumprimento das obrigações assumidas em virtude do artigo 43, convidar o referido membro, se este assim o desejar, a participar das decisões do Conselho de Segurança relativas ao emprego de contingentes das forças armadas do dito membro.

Artigo 45

A fim de habilitar as Nações Unidas a tomarem medidas militares urgentes, os membros das Nações Unidas deverão manter imediatamente utilizáveis, contingentes das forças aéreas nacionais para a execução combinada de uma ação coercitiva internacional. A potência e o grau de preparação desses contingentes, como os planos de ação combinada, serão determinados pelo Conselho de Segurança com a assistência da Comissão de Estado-Maior, dentro dos limites estabelecidos no acordo ou acordos especiais a que se refere o artigo 43.

Artigo 46

O Conselho de Segurança, com a assistência da Comissão de Estado-maior, fará planos para a aplicação das forças armadas.

Artigo 47

1. Será estabelecida uma Comissão de Estado-Maior destinada a orientar e assistir o Conselho de Segurança, em todas as questões relativas às exigências militares do mesmo Conselho, para manutenção da paz e da segurança internacionais, utilização e comando das forças colocadas à sua disposição, regulamentação de armamentos e possível desarmamento.
2. A Comissão de Estado-Maior será composta dos Chefes de Estado-Maior dos membros Permanentes do Conselho de Segurança ou de seus representantes. Todo membro das Nações Unidas que não estiver permanentemente representado na Comissão será por esta convidado a tomar parte nos seus trabalhos, sempre que a sua participação for necessária ao eficiente cumprimento das responsabilidades da Comissão.

3. A Comissão de Estado-Maior será responsável, sob a autoridade do Conselho de Segurança, pela direção estratégica de todas as forças armadas postas à disposição do dito Conselho. As questões relativas ao comando dessas forças serão resolvidas ulteriormente.
4. A Comissão de Estado-Maior, com autorização do Conselho de Segurança e depois de consultar os organismos adequados, poderá estabelecer subcomissões regionais.

Artigo 48

1. A ação necessária ao cumprimento das decisões do Conselho de Segurança para manutenção da paz e da segurança internacionais será levada a efeito por todos os membros das Nações Unidas ou por alguns deles, conforme seja determinado pelo Conselho de Segurança.
2. Essas decisões serão executas pelos membros das Nações Unidas diretamente e, por seu intermédio, nos organismos internacionais apropriados de que façam parte.

Artigo 49

Os membros das Nações Unidas prestar-se-ão assistência mútua para a execução das medidas determinadas pelo Conselho de Segurança.

Artigo 50

No caso de serem tomadas medidas preventivas ou coercitivas contra um Estado pelo Conselho de Segurança, qualquer outro Estado, membro ou não das Nações Unidas, que se sinta em presença de problemas especiais de natureza econômica, resultantes da execução daquelas medidas, terá o direito de consultar o Conselho de Segurança a respeito da solução de tais problemas.

Artigo 51

Nada na presente Carta prejudicará o direito inerente de legítima defesa individual ou coletiva no caso de ocorrer um ataque armado contra um membro das Nações Unidas, até que o Conselho de Segurança tenha tomado as medidas necessárias para a manutenção da paz e da segurança internacionais. As medidas tomadas pelos membros no exercício desse direito de legítima defesa serão comunicadas imediatamente ao Conselho de

Segurança e não deverão, de modo algum, atingir a autoridade e a responsabilidade que a presente Carta atribui ao Conselho para levar a efeito, em qualquer tempo, a ação que julgar necessária à manutenção ou ao restabelecimento da paz e da segurança internacionais.

CAPÍTULO VIII

ACORDOS REGIONAIS

Artigo 52

1. Nada na presente Carta impede a existência de acordos ou de organismos regionais, destinadas a tratar dos assuntos relativos à manutenção da paz e da segurança internacionais que forem suscetíveis de uma ação regional, desde que tais acordos ou entidades regionais e suas atividades sejam compatíveis com os Propósitos e Princípios das Nações Unidas.
2. Os membros das Nações Unidas, que forem parte em tais acordos ou que constituírem tais entidades, empregarão todos os esforços para chegar a uma solução pacífica das controvérsias locais por meio desses acordos e entidades

regionais, antes de submetê-las ao Conselho de Segurança.

3. O Conselho de Segurança estimulará o desenvolvimento da solução pacífica de controvérsias locais mediante os referidos acordos ou entidades regionais, por iniciativa dos Estados interessados ou a instância do próprio Conselho de Segurança.
4. Este artigo não prejudica, de modo algum, a aplicação dos artigos 34 e 35.

Artigo 53

1. O Conselho de Segurança utilizará, quando for o caso, tais acordos e entidades regionais para uma ação coercitiva sob a sua própria autoridade. Nenhuma ação coercitiva será, no entanto, levada a efeito de conformidade com acordos ou entidades regionais sem autorização do Conselho de Segurança, com exceção das medidas contra um Estado inimigo como está definido no parágrafo 2 deste artigo, que forem determinadas em consequência do artigo 107 ou em acordos regionais destinados a impedir a renovação de uma política agressiva por parte de qualquer desses Estados, até o momento em que a Organização possa, a pedido dos

Governos interessados, ser incumbida de impedir toda nova agressão por parte de tal Estado.

2. O termo Estado inimigo, usado no parágrafo 1 deste artigo, aplica-se a qualquer Estado que, durante a Segunda Guerra Mundial, foi inimigo de qualquer signatário da presente Carta.

Artigo 54

O Conselho de Segurança será sempre informado de toda ação empreendida ou projetada em conformidade com os acordos ou entidades regionais para manutenção da paz e da segurança internacionais.

CAPÍTULO IX

COOPERAÇÃO INTERNACIONAL ECONÔMICA E SOCIAL

Artigo 55

Com o fim de criar condições de estabilidade e bem-estar, necessárias às relações pacíficas e amistosas entre as Nações, baseadas no respeito ao princípio da igualdade de direitos e da autodeterminação dos povos, as Nações Unidas favorecerão:

a. níveis mais altos de vida, trabalho efetivo e condições de progresso e desenvolvimento econômico e social;
b. a solução dos problemas internacionais econômicos, sociais, sanitários e conexos; a cooperação internacional, de caráter cultural e educacional; e
c. o respeito universal e efetivo raça, sexo, língua ou religião.

Artigo 56

Para a realização dos propósitos enumerados no artigo 55, todos os membros da Organização se comprometem a agir em cooperação com esta, em conjunto ou separadamente.

Artigo 57

1. As várias agências especializadas, criadas por acordos intergovernamentais e com amplas responsabilidades internacionais, definidas em seus instrumentos básicos, nos campos

econômico, social, cultural, educacional, sanitário e conexos, serão vinculadas às Nações Unidas, em conformidade com as disposições do artigo 63.

2. Tais agências assim vinculadas às Nações Unidas serão designadas, daqui por diante, como agências especializadas.

Artigo 58

A Organização fará recomendação para coordenação dos programas e atividades das agências especializadas.

Artigo 59

A Organização, quando julgar conveniente, iniciará negociações entre os Estados interessados para a criação de novas agências especializadas que forem necessárias ao cumprimento dos propósitos enumerados no artigo 55.

Artigo 60

A Assembleia Geral e, sob sua autoridade, o Conselho Econômico e Social, que dispõe, para esse efeito, da competência que lhe é atribuída no Capítulo X, são incumbidos de exercer as funções da Organização estipuladas no presente Capítulo.

CAPÍTULO X

CONSELHO ECONÔMICO E SOCIAL

COMPOSIÇÃO

Artigo 61

1. O Conselho Econômico e Social será composto de cinquenta e quatro membros das Nações Unidas eleitos pela Assembleia Geral.
2. De acordo com os dispositivos do parágrafo 3, dezoito membros do Conselho Econômico e Social serão eleitos cada ano para um período de três anos, podendo, ao terminar esse prazo, ser reeleitos para o período seguinte.
3. Na primeira eleição a realizar-se depois de elevado de vinte e sete para cinquenta e quatro o número de membros do Conselho Econômico e Social, além dos membros que forem eleitos para substituir os nove membros, cujo mandato expira no fim desse ano, serão eleitos outros

vinte e sete membros. O mandato de nove destes vinte e sete membros suplementares assim eleitos expirará no fim de um ano e o de nove outros no fim de dois anos, de acordo com o que for determinado pela Assembleia Geral.

4. Cada membro do Conselho Econômico e social terá nele um representante.

FUNÇÕES E ATRIBUIÇÕES

Artigo 62

1. O Conselho Econômico e Social fará ou iniciará estudos e relatórios a respeito de assuntos internacionais de caráter econômico, social, cultural, educacional, sanitário e conexos e poderá fazer recomendações a respeito de tais assuntos à Assembleia Geral, aos membros das Nações Unidas e às agências especializadas interessadas.
2. Poderá, igualmente, fazer recomendações destinadas a promover o respeito e a observância dos direitos humanos e das liberdades fundamentais para todos.
3. Poderá preparar projetos de convenções a serem submetidos à Assembleia Geral, sobre assuntos de sua competência.

4. Poderá convocar, de acordo com as regras estipuladas pelas Nações Unidas, conferências internacionais sobre assuntos de sua competência.

Artigo 63

1. O Conselho Econômico e Social poderá estabelecer acordos com qualquer das agências a que se refere o artigo 57, a fim de determinar as condições em que a entidade interessada será vinculada às Nações Unidas. Tais acordos serão submetidos à aprovação da Assembleia Geral. 2
2. Poderá coordenar as atividades das agências especializadas, por meio de consultas e recomendações às mesmas e de recomendações à Assembleia Geral e aos membros das Nações Unidas.

Artigo 64

1. O Conselho Econômico e Social poderá tomar as medidas adequadas a fim de obter relatórios regulares das agências especializadas. Poderá entrar em entendimentos com os membros das Nações Unidas e com as agências especializadas, a fim de obter relatórios sobre

as medidas tomadas para cumprimento de suas próprias recomendações e das que forem feitas pelas Assembleia Geral sobre assuntos da competência do Conselho.

2. Poderá comunicar à Assembleia Geral suas observações a respeito desses relatórios.

Artigo 65

O Conselho Econômico e Social poderá fornecer informações ao Conselho de Segurança e, a pedido deste, prestar-lhe assistência.

Artigo 66

1. O Conselho Econômico e Social desempenhará as funções que forem de sua competência em relação ao cumprimento das recomendações da Assembleia Geral.
2. Poderá mediante aprovação da Assembleia Geral, prestar os serviços que lhe forem solicitados pelos membros das Nações Unidas e pelas agências especializadas.
3. Desempenhará as demais funções específicas em outras partes da presente Carta ou as que forem atribuídas pela Assembleia Geral.

VOTAÇÕES

Artigo 67

1. Cada membro do Conselho Econômico e Social terá um voto.
2. As decisões do Conselho Econômico e Social serão tomadas por maioria dos membros presentes e votantes.

PROCEDIMENTO

Artigo 68

O Conselho Econômico e Social criará comissões para os assuntos econômicos e sociais e a proteção dos direitos humanos, assim como outras comissões que forem necessárias para o desempenho de suas funções.

Artigo 69

O Conselho Econômico e Social poderá convidar qualquer membro das Nações Unidas a tomar parte, sem voto, em suas deliberações sobre qualquer assunto que interesse particularmente a esse membro.

Artigo 70

O Conselho Econômico e Social poderá entrar em entendimentos para que representantes das agências especializadas tomem parte, sem voto, em suas deliberações e nas das comissões por ele criadas, e para que os seus próprios representantes tomem parte nas deliberações das agências especializadas.

Artigo 71

O Conselho Econômico e Social poderá entrar nos entendimentos convenientes para a consulta com organizações não governamentais, encarregadas de questões que estiverem dentro da sua própria competência. Tais entendimentos poderão ser feitos com organizações internacionais e, quando for o caso, com organizações nacionais, depois de efetuadas consultas com o membro das Nações Unidas no caso.

Artigo 72

1. O Conselho Econômico e Social adotará seu próprio regulamento, que incluirá o método de escolha de seu Presidente.
2. O Conselho Econômico e Social reunir-se-á quando for necessário, de acordo com o seu

regulamento, o qual deverá incluir disposições referentes à convocação de reuniões a pedido da maioria dos membros.

CAPÍTULO XI

DECLARAÇÃO RELATIVA A TERRITÓRIOS SEM GOVERNO PRÓPRIO

Artigo 73

Os membros das Nações Unidas, que assumiram ou assumam responsabilidades pela administração de territórios cujos povos não tenham atingido a plena capacidade de se governarem a si mesmos, reconhecem o princípio de que os interesses dos habitantes desses territórios são da mais alta importância, e aceitam, como missão sagrada, a obrigação de promover no mais alto grau, dentro do sistema de paz e segurança internacionais estabelecido na presente Carta, o bem-estar dos habitantes desses territórios e, para tal fim, se obrigam a:

a. assegurar, com o devido respeito à cultura dos povos interessados, o seu progresso político, econômico, social e educacional, o seu tratamento equitativo e a sua proteção contra todo abuso;

b. desenvolver sua capacidade de governo próprio, tomar devida nota das aspirações políticas dos povos e auxiliá-los no desenvolvimento progressivo de suas instituições políticas livres, de acordo com as circunstâncias peculiares a cada território e seus habitantes e os diferentes graus de seu adiantamento;

c. consolidar a paz e a segurança internacionais;

d. promover medidas construtivas de desenvolvimento, estimular pesquisas, cooperar uns com os outros e, quando for o caso, com organismos internacionais especializadas, com vistas à realização prática dos propósitos de ordem social, econômica ou científica enumerados neste artigo; e;

e. transmitir regularmente ao secretário-geral, para fins de informação, sujeitas às reservas impostas por considerações de segurança e de ordem constitucional, informações estatísticas ou de outro caráter técnico, relativas às condições econômicas, sociais e educacionais dos territórios pelos quais são respectivamente responsáveis e que não estejam compreendidos entre aqueles a que se referem os Capítulos XII e XIII da Carta.

Artigo 74

Os membros das Nações Unidas concordam também em que a sua política com relação aos territórios a que se aplica o presente Capítulo deve ser baseada, do mesmo modo que a política seguida nos respectivos territórios metropolitanos, no princípio geral de boa vizinhança, tendo na devida conta os interesses e o bem-estar do resto do mundo no que se refere às questões sociais, econômicas e comerciais.

CAPÍTULO XII

SISTEMA INTERNACIONAL DE TUTELA

Artigo 75

As Nações Unidas estabelecerão sob sua autoridade um sistema internacional de tutela para a administração e fiscalização dos territórios que possam ser colocados sob tal sistema em consequência de futuros acordos individuais. Esses territórios serão, daqui em diante, mencionados como territórios tutelados.

Artigo 76

Os objetivos básicos do sistema de tutela, de acordo com os Propósitos das Nações Unidas enumerados no artigo 1 da presente Carta serão:

a. favorecer a paz e a segurança internacionais;
b. fomentar o progresso político, econômico, social e educacional dos habitantes dos territórios tutelados e o seu desenvolvimento progressivo para alcançar governo próprio ou independência, como mais convenha

às circunstâncias particulares de cada território e de seus habitantes e aos desejos livremente expressos dos povos interessados e como for previsto nos termos de cada acordo de tutela;

c. estimular o respeito aos direitos humanos e às liberdades fundamentais para todos, sem distinção de raça, sexo língua ou religião e favorecer o reconhecimento da interdependência de todos os povos; e

d. assegurar igualdade de tratamento nos domínios social, econômico e comercial para todos os membros das Nações Unidas e seus nacionais e, para estes últimos, igual tratamento na administração da justiça, sem prejuízo dos objetivos acima expostos e sob reserva das disposições do artigo 80.

Artigo 77

1. O sistema de tutela será aplicado aos territórios das categorias seguintes, que venham a ser colocados sob tal sistema por meio de acordos de tutela:

    a. territórios atualmente sob mandato;

b. territórios que possam ser separados de Estados inimigos em consequência da Segunda Guerra Mundial; e
c. territórios voluntariamente colocados sob tal sistema por Estados responsáveis pela sua administração.

2. Será objeto de acordo ulterior a determinação dos territórios das categorias acima mencionadas a serem colocados sob o sistema de tutela e das condições em que o serão.

Artigo 78

O sistema de tutela não será aplicado a territórios que se tenham tornado membros das Nações Unidas, cujas relações mútuas deverão basear-se no respeito ao princípio da igualdade soberana.

Artigo 79

As condições de tutela em que cada território será colocado sob este sistema, bem como qualquer alteração ou emenda, serão determinadas por acordo entre os Estados diretamente interessados, inclusive a potência mandatária no caso de território sob mandato de um membro das Nações Unidas e serão aprovadas de conformidade com as disposições dos artigos 83 e 85.

Artigo 80

1. Salvo o que for estabelecido em acordos individuais de tutela, feitos de conformidade com os artigos 77, 79 e 81, pelos quais se coloque cada território sob este sistema e até que tais acordos tenham sido concluídos, nada neste Capítulo será interpretado como alteração de qualquer espécie nos direitos de qualquer Estado ou povo ou dos termos dos atos internacionais vigentes em que os membros das Nações Unidas forem partes.
2. O parágrafo 1 deste artigo não será interpretado como motivo para demora ou adiamento da negociação e conclusão de acordos destinados a colocar territórios dentro do sistema de tutela, conforme as disposições do artigo 77.

Artigo 81

O acordo de tutela deverá, em cada caso, incluir as condições sob as quais o território tutelado será administrado e designar a autoridade que exercerá essa administração. Tal autoridade, daqui por diante chamada a autoridade administradora, poderá ser um ou mais Estados ou a própria Organização.

Artigo 82

Poderão designar-se, em qualquer acordo de tutela, uma ou várias zonas estratégicas, que compreendam parte ou a totalidade do território tutelado a que o mesmo se aplique, sem prejuízo de qualquer acordo ou acordos especiais feitos de conformidade com o artigo 43.

Artigo 83

1. Todas as funções atribuídas às Nações Unidas relativamente às zonas estratégicas, inclusive a aprovação das condições dos acordos de tutela, assim como de sua alteração ou emendas, serão exercidas pelo Conselho de Segurança.
2. Os objetivos básicos enumerados no artigo 76 serão aplicáveis aos habitantes de cada zona estratégica.
3. O Conselho de Segurança, ressalvadas as disposições dos acordos de tutela e sem prejuízo das exigências de segurança, poderá valer-se da assistência do Conselho de Tutela para desempenhar as funções que cabem às Nações Unidas pelo sistema de tutela, relativamente a matérias políticas, econômicas, sociais ou educacionais dentro das zonas estratégicas.

Artigo 84

A autoridade administradora terá o dever de assegurar que o território tutelado preste sua colaboração à manutenção da paz e da segurança internacionais. Para tal fim, a autoridade administradora poderá fazer uso de forças voluntárias, de facilidades e da ajuda do território tutelado para o desempenho das obrigações por ele assumidas a este respeito perante o Conselho de Segurança, assim como para a defesa local e para a manutenção da lei e da ordem dentro do território tutelado.

Artigo 85

1. As funções das Nações Unidas relativas a acordos de tutela para todas as zonas não designadas como estratégias, inclusive a aprovação das condições dos acordos de tutela e de sua alteração ou emenda, serão exercidas pela Assembleia Geral.
2. O Conselho de Tutela, que funcionará sob a autoridade da Assembleia Geral, auxiliará esta no desempenho dessas atribuições.

CAPÍTULO XIII

CONSELHO DE TUTELA

COMPOSIÇÃO

Artigo 86

1. O Conselho de Tutela será composto dos seguintes membros das Nações Unidas:
    a. os membros que administrem territórios tutelados;
    b. aqueles dentre os membros mencionados nominalmente no artigo 23, que não estiverem administrando territórios tutelados; e
    c. quantos outros membros eleitos por um período de três anos, pela Assembleia Geral, sejam necessários para assegurar que o número total de membros do Conselho de Tutela fique igualmente dividido entre os membros das Nações Unidas que administrem territórios tutelados e aqueles que o não fazem.

2. Cada membro do Conselho de Tutela designará uma pessoa especialmente qualificada para representá-lo perante o Conselho.

FUNÇÕES E ATRIBUIÇÕES

Artigo 87

A Assembleia Geral e, sob a sua autoridade, o Conselho de Tutela, no desempenho de suas funções, poderão:

a. examinar os relatórios que lhes tenham sido submetidos pela autoridade administradora;
b. Aceitar petições e examiná-las, em consulta com a autoridade administradora;
c. providenciar visitas periódicas aos territórios tutelados em épocas ficadas de acordo com a autoridade administradora; e
d. tomar estas e outras medidas de conformidade com os termos dos acordos de tutela.

Artigo 88

O Conselho de Tutela formulará um questionário sobre o adiantamento político, econômico, social e educacional dos habitantes de cada território tutelado e a autoridade administradora de cada um destes territórios, dentro da competência da Assembleia Geral, fará um relatório anual à Assembleia, baseado no referido questionário.

VOTAÇÃO

Artigo 89

1. Cada membro do Conselho de Tutela terá um voto.
2. As decisões do Conselho de Tutela serão tomadas por uma maioria dos membros presentes e votantes.

PROCEDIMENTO

Artigo 90

1. O Conselho de Tutela adotará seu próprio regulamento que incluirá o método de escolha de seu Presidente.

2. O Conselho de Tutela reunir-se-á quando for necessário, de acordo com o seu regulamento, que incluirá uma disposição referente à convocação de reuniões a pedido da maioria dos seus membros.

Artigo 91

O Conselho de Tutela valer-se-á, quando for necessário, da colaboração do Conselho Econômico e Social e das agências especializadas, a respeito das matérias em que estas e aquele sejam respectivamente interessados.

CAPÍTULO XIV

CORTE INTERNACIONAL DE JUSTIÇA

Artigo 92

A Corte Internacional de Justiça será o principal órgão judiciário das Nações Unidas. Funcionará de acordo com o Estatuto anexo, que é baseado no Estatuto da Corte Permanente de Justiça Internacional e faz parte integrante da presente Carta.

Artigo 93

1. Todos os membros das Nações Unidas são *ipso facto* partes do Estatuto da Corte Internacional de Justiça.
2. Um Estado que não for membro das Nações Unidas poderá tornar-se parte no Estatuto da Corte Internacional de Justiça, em condições que serão determinadas, em cada caso, pela Assembleia Geral, mediante recomendação do Conselho de Segurança.

Artigo 94

1. Cada membro das Nações Unidas se compromete a conformar-se com a decisão da Corte Internacional de Justiça em qualquer caso em que for parte.
2. Se uma das partes num caso deixar de cumprir as obrigações que lhe incumbem em virtude de sentença proferida pela Corte, a outra terá direito de recorrer ao Conselho de Segurança que poderá, se julgar necessário, fazer recomendações ou decidir sobre medidas a serem tomadas para o cumprimento da sentença.

Artigo 95

Nada na presente Carta impedirá os membros das Nações Unidas de confiarem a solução de suas divergências a outros tribunais, em virtude de acordos já vigentes ou que possam ser concluídos no futuro.

Artigo 96

1. A Assembleia Geral ou o Conselho de Segurança poderá solicitar parecer consultivo da Corte Internacional de Justiça, sobre qualquer questão de ordem jurídica.
2. Outros órgãos das Nações Unidas e agências especializadas, que forem em qualquer época devidamente autorizados pela Assembleia Geral, poderão também solicitar pareceres consultivos da Corte sobre questões jurídicas surgidas dentro da esfera de suas atividades.

CAPÍTULO XV

O SECRETARIADO

Artigo 97

O Secretariado será composto de um secretário-geral e do pessoal exigido pela Organização. O secretário-geral será indicado pela Assembleia Geral mediante a recomendação do Conselho de Segurança. Será o principal funcionário administrativo da Organização.

Artigo 98

O secretário-geral atuará neste caráter em todas as reuniões da Assembleia Geral, do Conselho de Segurança, do Conselho Econômico e Social e do Conselho de Tutela e desempenhará outras funções que lhe forem atribuídas por estes órgãos. O secretário-geral fará um relatório anual à Assembleia Geral sobre os trabalhos da Organização.

Artigo 99

O secretário-geral poderá chamar a atenção do Conselho de Segurança para qualquer assunto que em sua opinião possa ameaçar a manutenção da paz e da segurança internacionais.

Artigo 100

1. No desempenho de seus deveres, o secretário-geral e o pessoal do Secretariado não solicitarão nem receberão instruções de qualquer governo ou de qualquer autoridade estranha à organização. Abster-se-ão de qualquer ação que seja incompatível com a sua posição de funcionários internacionais responsáveis somente perante a Organização.
2. Cada membro das Nações Unidas se compromete a respeitar o caráter exclusivamente internacional das atribuições do secretário-geral e do pessoal do Secretariado e não procurará exercer qualquer influência sobre eles, no desempenho de suas funções.

Artigo 101

1. O pessoal do Secretariado será nomeado pelo secretário-geral, de acordo com regras estabelecidas pela Assembleia Geral.
2. Será também nomeado, em caráter permanente, o pessoal adequado para o Conselho

Econômico e Social, o Conselho de Tutela e, quando for necessário, para outros órgãos das Nações Unidas. Esses funcionários farão parte do Secretariado.

3. A consideração principal que prevalecerá na escolha do pessoal e na determinação das condições de serviço será a da necessidade de assegurar o mais alto grau de eficiência, competência e integridade. Deverá ser levada na devida conta a importância de ser a escolha do pessoal feita dentro do mais amplo critério geográfico possível.

CAPÍTULO XVI

DISPOSIÇÕES DIVERSAS

Artigo 102

1. Todo tratado e todo acordo internacional, concluídos por qualquer membro das Nações Unidas depois da entrada em vigor da presente Carta, deverão, dentro do mais breve prazo possível, ser registrados e publicados pelo Secretariado.

2. Nenhuma parte em qualquer tratado ou acordo internacional que não tenha sido registrado de conformidade com as disposições do parágrafo 1º deste artigo poderá invocar tal tratado ou acordo perante qualquer órgão das Nações Unidas.

Artigo 103

No caso de conflito entre as obrigações dos membros das Nações Unidas, em virtude da presente Carta e as obrigações resultantes de qualquer outro acordo internacional, prevalecerão as obrigações assumidas em virtude da presente Carta.

Artigo 104

A Organização desfrutará, no território de cada um de seus membros, da capacidade jurídica necessária ao exercício de suas funções e à realização de seus propósitos.

Artigo 105

1. A Organização desfrutará, no território de cada um de seus membros, dos privilégios e

imunidades necessários à realização de seus propósitos.

2. Os representantes dos membros das Nações Unidas e os funcionários da Organização desfrutará, igualmente, dos privilégios e imunidades necessários ao exercício independente de sus funções relacionadas com a Organização.
3. A Assembleia Geral poderá fazer recomendações com o fim de determinar os pormenores da aplicação dos parágrafos 1 e 2 deste artigo ou poderá propor aos membros das Nações Unidas convenções nesse sentido.

CAPÍTULO XVII

DISPOSIÇÕES TRANSITÓRIAS SOBRE SEGURANÇA

Artigo 106

Antes da entrada em vigor dos acordos especiais a que se refere o artigo 43, que, a juízo do Conselho de Segurança, o habilitem ao exercício de suas funções previstas no artigo 42, as partes na Declaração das Quatro Nações, assinada em Moscou, a 30 de outubro de

1943, e a França, deverão, de acordo com as disposições do parágrafo 5 daquela Declaração, consultar-se entre si e, sempre que a ocasião o exija, com outros membros das Nações Unidas a fim de ser levada a efeito, em nome da Organização, qualquer ação conjunta que se torne necessária à manutenção da paz e da segurança internacionais.

Artigo 107

Nada na presente Carta invalidará ou impedirá qualquer ação que, em relação a um Estado inimigo de qualquer dos signatários da presente Carta durante a Segunda Guerra Mundial, for levada a efeito ou autorizada em consequência da dita guerra, pelos governos responsáveis por tal ação.

CAPÍTULO XVIII

EMENDAS

Artigo 108

As emendas à presente Carta entrarão em vigor para todos os membros das Nações Unidas, quando forem adotadas pelos votos de dois terços dos membros da

Assembleia Geral e ratificada de acordo com os seus respectivos métodos constitucionais por dois terços dos membros das Nações Unidas, inclusive todos os membros permanentes do Conselho de Segurança.

Artigo 109

1. Uma Conferência Geral dos membros das Nações Unidas, destinada a rever a presente Carta, poderá reunir-se em data e lugar a serem fixados pelo voto de dois terços dos membros da Assembleia Geral e de nove membros quaisquer do Conselho de Segurança. Cada membro das Nações Unidas terá voto nessa Conferência.
2. Qualquer modificação à presente Carta, que for recomendada por dois terços dos votos da Conferência, terá efeito depois de ratificada, de acordo com os respectivos métodos constitucionais, por dois terços dos membros das Nações Unidas, inclusive todos os membros permanentes do Conselho de Segurança.
3. Se essa Conferência não for celebrada antes da décima sessão anual da Assembleia Geral que se seguir à entrada em vigor da presente Carta, a proposta de sua convocação deverá figurar na

agenda da referida sessão da Assembleia Geral, e a Conferência será realizada, se assim for decidido por maioria de votos dos membros da Assembleia Geral, e pelo voto de sete membros quaisquer do Conselho de Segurança.

CAPÍTULO XIX

RATIFICAÇÃO E ASSINATURA

Artigo 110

1. A presente Carta deverá ser ratificada pelos Estados signatários, de acordo com os respectivos métodos constitucionais.
2. As ratificações serão depositadas junto ao Governo dos Estados Unidos da América, que notificará de cada depósito todos os Estados signatários, assim como o secretário-geral da Organização depois que este for escolhido.
3. A presente Carta entrará em vigor depois do depósito de ratificações pela República da China, França, União das Repúblicas Socialistas Soviéticas, Reino Unido da Grã-Bretanha e Irlanda do Norte, e Estados Unidos da América e pela maioria dos outros Estados

signatários. O Governo dos Estados Unidos da América organizará, em seguida, um protocolo das ratificações depositadas, o qual será comunicado, por meio de cópias, aos Estados signatários.

4. Os Estados signatários da presente Carta, que a ratificarem depois de sua entrada em vigor tornar-se-ão membros fundadores das Nações Unidas, na data do depósito de suas respectivas ratificações.

Artigo 111

A presente Carta, cujos textos em chinês, francês, russo, inglês, e espanhol são igualmente autênticos, ficará depositada nos arquivos do Governo dos Estados Unidos da América. Cópias da mesma, devidamente autenticadas, serão transmitidas por este último Governo aos dos outros Estados signatários.

EM FÉ DO QUE os representantes dos governos das Nações Unidas assinaram a presente Carta.

FEITA na cidade de São Francisco aos vinte e seis dias do mês de junho de mil novecentos e quarenta e cinco.

Declaração Universal dos Direitos Humanos

UNIC/Rio/005, Janeiro 2009. (DPI/876)

Estes são os direitos de:

Atribuídos em:

Enunciados pela Organização das Naões Unidas na Declaração Universal dos Direitos Humanos

No dia 10 de dezembro de 1948, a Assembléia Geral das Nações Unidas adotou e proclamou a Declaração Universal dos Direitos Humanos cujo texto, na íntegra, pode ser lido a seguir. Logo após, a Assembléia Geral solicitou a todos os Países - Membros que publicassem o texto da Declaração"para que ele fosse divulgado, mostrado, lido e explicado, principalmente nas escolas e em outras instituições educacionais, sem distinção nehuma baseada na situação política ou econômica dos Países ou Estados."

DECLARAÇÃO UNIVERSAL DOS
DIREITOS HUMANOS

Preâmbulo

Considerando que o reconhecimento da dignidade inerente a todos os membros da família humana e de seus direitos iguais e inalienáveis é o fundamento da liberdade, da justiça e da paz no mundo,

Considerando que o desprezo e o desrespeito pelos direitos humanos resultaram em atos bárbaros que ultrajaram a consciência da Humanidade e que o advento de um mundo em que os todos gozem de liberdade de palavra, de crença e da liberdade de viverem a salvo do temor e da necessidade foi proclamado como a mais alta aspiração do ser humano comum,

Considerando ser essencial que os direitos humanos sejam protegidos pelo império da lei, para que o ser humano não seja compelido, como último recurso, à rebelião contra a tirania e a opressão,

Considerando ser essencial promover o desenvolvimento de relações amistosas entre as nações,

Considerando que os povos das Nações Unidas reafirmaram, na Carta da ONU, sua fé nos direitos humanos fundamentais, na dignidade e no valor do ser humano e na igualdade de direitos entre homens e mulheres, e que decidiram promover o progresso social e melhores condições de vida em uma liberdade mais ampla,

Considerando que os Estados-Membros se comprometeram a promover, em cooperação com as Nações Unidas, o respeito universal aos direitos e liberdades humanas fundamentais e a observância desses direitos e liberdades,

Considerando que uma compreensão comum desses direitos e liberdades é da mais alta importância para o pleno cumprimento desse compromisso, Agora portanto

A ASSEMBLÉIA GERAL

proclama

A PRESENTE DECLARAÇÃO UNIVERSAL DOS DIREITOS HUMANOS

como o ideal comum a ser atingido por todos os povos e todas as nações, com o objetivo de que cada indivíduo e cada órgão da sociedade, tendo sempre em mente esta Declaração, se esforce, através do ensino e da educação, por promover o respeito a esses direitos e liberdades, e, pela adoção de medidas progressivas de caráter nacional e internacional, por assegurar o seu reconhecimento e a sua observância universal e efetiva, tanto entre os povos dos próprios Estados-Membros, quanto entre os povos dos territórios sob sua jurisdição.

Artigo I

Todos os seres humanos nascem livres e iguais em dignidade e direitos. São dotados de razão e consciência e devem agir em relação uns aos outros com espírito de fraternidade.

Artigo II

1 - Todo ser humano tem capacidade para gozar os direitos e as liberdades estabelecidos nesta Declaração, sem distinção de qualquer espécie, seja de raça, cor, sexo, idioma, religião, opinião política ou de outra natureza, origem nacional ou social, riqueza, nascimento, ou qualquer outra condição.

2 - Não será também feita nenhuma distinção fundada na condição política, jurídica ou internacional do país ou território a que pertença uma pessoa, quer se trate de um território independente, sob tutela, sem governo próprio, quer sujeito a qualquer outra limitação de soberania.

Artigo III

Todo ser humano tem direito à vida, à liberdade e à segurança pessoal.

Artigo IV

Ninguém será mantido em escravidão ou servidão; a escravidão e o tráfico de escravos serão proibidos em todas as suas formas.

Artigo V

Ninguém será submetido à tortura nem a tratamento ou castigo cruel, desumano ou degradante.

Artigo VI

Todo ser humano tem o direito de ser, em todos os lugares, reconhecido como pessoa perante a lei.

Artigo VII

Todos são iguais perante a lei e têm direito, sem qualquer distinção, a igual proteção da lei. Todos têm direito a igual proteção contra qualquer discriminação que viole a presente Declaração e contra qualquer incitamento a tal discriminação.

Artigo VIII

Todo ser humano tem direito a receber dos tribunais nacionais competentes remédio efetivo para os atos que violem os direitos fundamentais que lhe sejam reconhecidos pela constituição ou pela lei.

Artigo IX

Ninguém será arbitrariamente preso, detido ou exilado.

Artigo X

Todo ser humano tem direito, em plena igualdade, a uma justa e pública audiência por parte de um tribunal independente e imparcial, para decidir sobre seus direitos e deveres ou do fundamento de qualquer acusação criminal contra ele.

Artigo XI

1. Todo ser humano acusado de um ato delituoso tem o direito de ser presumido inocente até que a sua culpabilidade tenha sido provada de acordo com a lei, em julgamento público no qual lhe tenham sido asseguradas todas as garantias necessárias à sua defesa.

2. Ninguém poderá ser culpado por qualquer ação ou omissão que, no momento, não constituíam delito perante o direito nacional ou internacional. Também não será imposta

pena mais forte do que aquela que, no momento da prática, era aplicável ao ato delituoso.

Artigo XII

Ninguém será sujeito à interferência em sua vida privada, em sua família, em seu lar ou em sua correspondência, nem a ataque à sua honra e reputação. Todo ser humano tem direito à proteção da lei contra tais interferências ou ataques.

Artigo XIII

1. Todo ser humano tem direito à liberdade de locomoção e residência dentro das fronteiras de cada Estado.

2. Todo ser humano tem o direito de deixar qualquer país, inclusive o próprio, e a este regressar.

Artigo XIV

1. Todo ser humano, vítima de perseguição, tem o direito de procurar e de gozar asilo em outros países.

2. Este direito não pode ser invocado em caso de perseguição legitimamente motivada por crimes de direito comum ou por atos contrários aos objetivos e princípios das Nações Unidas.

Artigo XV

1. Todo homem tem direito a uma nacionalidade.

2. Ninguém será arbitrariamente privado de sua nacionalidade, nem do direito de mudar de nacionalidade.

Artigo XVI

1. Os homens e mulheres de maior idade, sem qualquer restrição de raça, nacionalidade ou religião, têm o direito de contrair matrimônio e fundar uma família. Gozam de iguais direitos em relação ao casamento, sua duração e sua dissolução.

2. O casamento não será válido senão com o livre e pleno consentimento dos nubentes.

3. A família é o núcleo natural e fundamental da sociedade e tem direito à proteção da sociedade e do Estado.

Artigo XVII

1. Todo ser humano tem direito à propriedade, só ou em sociedade com outros.

2. Ninguém será arbitrariamente privado de sua propriedade.

Artigo XVIII

Todo ser humano tem direito à liberdade de pensamento, consciência e religião; este direito inclui a liberdade de mudar de religião ou crença e a liberdade de manifestar essa religião ou crença, pelo ensino, pela prática, pelo culto e pela observância, em público ou em particular.

Artigo XIX

Todo ser humano tem direito à liberdade de opinião e expressão; este direito inclui a liberdade de, sem interferência, ter opiniões e de procurar, receber e transmitir informações e idéias por quaisquer meios e

independentemente de fronteiras.

Artigo XX

1. Todo ser humano tem direito à liberdade de reunião e associação pacífica.

2. Ninguém pode ser obrigado a fazer parte de uma associação.

Artigo XXI

1. Todo ser humano tem o direito de fazer parte no governo de seu país diretamente ou por intermédio de representantes livremente escolhidos.

2. Todo ser humano tem igual direito de acesso ao serviço público do seu país.

3. A vontade do povo será a base da autoridade do governo; esta vontade será expressa em eleições periódicas e legítimas, por sufrágio universal, por voto secreto ou processo equivalente que assegure a liberdade de voto.

Artigo XXII

Todo ser humano, como membro da sociedade, tem direito à segurança social, à realização pelo esforço nacional, pela cooperação internacional e de acordo com a organização e recursos de cada Estado, dos direitos econômicos, sociais e culturais indispensáveis à sua dignidade e ao livre desenvolvimento da sua personalidade.

Artigo XXIII

1. Todo ser humano tem direito ao trabalho, à livre escolha de emprego, a condições justas e favoráveis de trabalho e à proteção contra o desemprego.

2. Todo ser humano, sem qualquer distinção, tem direito a igual remuneração por igual trabalho.

3. Todo ser humano que trabalha tem direito a uma remuneração justa e satisfatória, que lhe assegure, assim como à sua família, uma existência compatível com a dignidade humana e a que se acrescentarão, se necessário, outros meios de proteção social.

4. Todo ser humano tem direito a organizar sindicatos e a neles ingressar para proteção de seus interesses.

Artigo XXIV

Todo ser humano tem direito a repouso e lazer, inclusive a limitação razoável das horas de trabalho e a férias remuneradas periódicas.

Artigo XXV

1. Todo ser humano tem direito a um padrão de vida capaz de assegurar-lhe, e a sua família, saúde e bem-estar, inclusive alimentação, vestuário, habitação, cuidados médicos e os serviços sociais indispensáveis, e direito à segurança em caso de desemprego, doença, invalidez, viuvez, velhice ou outros casos de perda dos meios de subsistência em circunstâncias fora de seu controle.

2. A maternidade e a infância têm direito a cuidados e assistência especiais. Todas as crianças, nascidas dentro ou fora do matrimônio gozarão da mesma proteção social.

Artigo XXVI

1. Todo ser humano tem direito à instrução. A instrução será gratuita, pelo menos nos graus elementares e fundamentais. A instrução elementar será obrigatória. A instrução técnico-profissional será acessível a todos, bem como a instrução superior, esta baseada no mérito.

2. A instrução será orientada no sentido do pleno desenvolvimento da personalidade humana e do fortalecimento do respeito pelos direitos humanos e pelas liberdades fundamentais. A instrução promoverá a compreensão, a tolerância e a amizade entre todas as nações e grupos raciais ou religiosos, e coadjuvará as atividades das Nações Unidas em prol da manutenção da paz.

3. Os pais têm prioridade de direito na escolha do gênero de instrução que será minis trada a seus filhos.

Artigo XXVII

1. Todo ser humano tem o direito de participar

livremente da vida cultural da comunidade, de fruir das artes e de participar do progresso científico e de seus benefícios.

2. Todo ser humano tem direito à proteção dos interesses morais e materiais decorrentes de qualquer produção científica literária ou artística da qual seja autor.

Artigo XXVIII

Todo ser humano tem direito a uma ordem social e internacional em que os direitos e liberdades estabelecidos na presente Declaração possam ser plenamente realizados.

Artigo XXIX

1. Todo ser humano tem deveres para com a comunidade, na qual o livre e pleno desenvolvimento de sua personalidade é possível.

2. No exercício de seus direitos e liberdades, todo ser humano estará sujeito apenas às limitações determinadas pela lei, exclusivamente com o fim de assegurar

o devido reconhecimento e respeito dos direitos e liberdades de outrem e de satisfazer as justas exigências da moral, da ordem pública e do bem-estar de uma sociedade democrática.

3. Esses direitos e liberdades não podem, em hipótese alguma, ser exercidos contrariamente aos objetivos e princípios das Nações Unidas.

Artigo XXX

Nenhuma disposição da presente Declaração pode ser interpretada como o reconhecimento a qualquer Estado, grupo ou pessoa, do direito de exercer qualquer atividade ou praticar qualquer ato destinado à destruição de quaisquer dos direitos e liberdades aqui estabelecidos.

UNIC / Rio / 005 - Agosto 2009

General Assembly

Distr.: General
18 September 2000

Fifty-fifth session
Agenda item 60 *(b)*

Resolution adopted by the General Assembly

[*without reference to a Main Committee (A/55/L.2)*]

55/2. United Nations Millennium Declaration

The General Assembly

Adopts the following Declaration:

United Nations Millennium Declaration

I. Values and principles

1. We, heads of State and Government, have gathered at United Nations Headquarters in New York from 6 to 8 September 2000, at the dawn of a new millennium, to reaffirm our faith in the Organization and its Charter as indispensable foundations of a more peaceful, prosperous and just world.

2. We recognize that, in addition to our separate responsibilities to our individual societies, we have a collective responsibility to uphold the principles of human dignity, equality and equity at the global level. As leaders we have a duty therefore to all the world’s people, especially the most vulnerable and, in particular, the children of the world, to whom the future belongs.

3. We reaffirm our commitment to the purposes and principles of the Charter of the United Nations, which have proved timeless and universal. Indeed, their relevance and capacity to inspire have increased, as nations and peoples have become increasingly interconnected and interdependent.

4. We are determined to establish a just and lasting peace all over the world in accordance with the purposes and principles of the Charter. We rededicate ourselves to support all efforts to uphold the sovereign equality of all States, respect for their territorial integrity and political independence, resolution of disputes by peaceful means and in conformity with the principles of justice and international law, the right to self-determination of peoples which remain under colonial domination and foreign occupation, non-interference in the internal affairs of States, respect for human rights and fundamental freedoms, respect for the equal rights of all without distinction as to race, sex, language or religion and international cooperation in solving international problems of an economic, social, cultural or humanitarian character.

5. We believe that the central challenge we face today is to ensure that globalization becomes a positive force for all the world's people. For while globalization offers great opportunities, at present its benefits are very unevenly shared, while its costs are unevenly distributed. We recognize that developing countries and countries with economies in transition face special difficulties in responding to this central challenge. Thus, only through broad and sustained efforts to create a shared future, based upon our common humanity in all its diversity, can globalization be made fully inclusive and equitable. These efforts must include policies and measures, at the global level, which correspond to the needs of developing countries and economies in transition and are formulated and implemented with their effective participation.

6. We consider certain fundamental values to be essential to international relations in the twenty-first century. These include:

- **Freedom.** Men and women have the right to live their lives and raise their children in dignity, free from hunger and from the fear of violence, oppression or injustice. Democratic and participatory governance based on the will of the people best assures these rights.
- **Equality.** No individual and no nation must be denied the opportunity to benefit from development. The equal rights and opportunities of women and men must be assured.
- **Solidarity.** Global challenges must be managed in a way that distributes the costs and burdens fairly in accordance with basic principles of equity and social justice. Those who suffer or who benefit least deserve help from those who benefit most.
- **Tolerance.** Human beings must respect one other, in all their diversity of belief, culture and language. Differences within and between societies should be neither feared nor repressed, but cherished as a precious asset of humanity. A culture of peace and dialogue among all civilizations should be actively promoted.
- **Respect for nature.** Prudence must be shown in the management of all living species and natural resources, in accordance with the precepts of sustainable development. Only in this way can the immeasurable riches provided to us by nature be preserved and passed on to our descendants. The current unsustainable patterns of production and consumption must be changed in the interest of our future welfare and that of our descendants.
- **Shared responsibility.** Responsibility for managing worldwide economic and social development, as well as threats to international peace and security, must be shared among the nations of the world and should be exercised multilaterally. As the most universal and most representative organization in the world, the United Nations must play the central role.

7. In order to translate these shared values into actions, we have identified key objectives to which we assign special significance.

II. Peace, security and disarmament

8. We will spare no effort to free our peoples from the scourge of war, whether within or between States, which has claimed more than 5 million lives in the

past decade. We will also seek to eliminate the dangers posed by weapons of mass destruction.

9. We resolve therefore:

- To strengthen respect for the rule of law in international as in national affairs and, in particular, to ensure compliance by Member States with the decisions of the International Court of Justice, in compliance with the Charter of the United Nations, in cases to which they are parties.
- To make the United Nations more effective in maintaining peace and security by giving it the resources and tools it needs for conflict prevention, peaceful resolution of disputes, peacekeeping, post-conflict peace-building and reconstruction. In this context, we take note of the report of the Panel on United Nations Peace Operations[1] and request the General Assembly to consider its recommendations expeditiously.
- To strengthen cooperation between the United Nations and regional organizations, in accordance with the provisions of Chapter VIII of the Charter.
- To ensure the implementation, by States Parties, of treaties in areas such as arms control and disarmament and of international humanitarian law and human rights law, and call upon all States to consider signing and ratifying the Rome Statute of the International Criminal Court.[2]
- To take concerted action against international terrorism, and to accede as soon as possible to all the relevant international conventions.
- To redouble our efforts to implement our commitment to counter the world drug problem.
- To intensify our efforts to fight transnational crime in all its dimensions, including trafficking as well as smuggling in human beings and money laundering.
- To minimize the adverse effects of United Nations economic sanctions on innocent populations, to subject such sanctions regimes to regular reviews and to eliminate the adverse effects of sanctions on third parties.
- To strive for the elimination of weapons of mass destruction, particularly nuclear weapons, and to keep all options open for achieving this aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers.
- To take concerted action to end illicit traffic in small arms and light weapons, especially by making arms transfers more transparent and supporting regional disarmament measures, taking account of all the recommendations of the forthcoming United Nations Conference on Illicit Trade in Small Arms and Light Weapons.
- To call on all States to consider acceding to the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-personnel Mines and

[1] A/55/305-S/2000/809; see *Official Records of the Security Council, Fifty-fifth Year, Supplement for July, August and September 2000*, document S/2000/809.

[2] A/CONF.183/9.

on Their Destruction,[3] as well as the amended mines protocol to the Convention on conventional weapons.[4]

10. We urge Member States to observe the Olympic Truce, individually and collectively, now and in the future, and to support the International Olympic Committee in its efforts to promote peace and human understanding through sport and the Olympic Ideal.

III. Development and poverty eradication

11. We will spare no effort to free our fellow men, women and children from the abject and dehumanizing conditions of extreme poverty, to which more than a billion of them are currently subjected. We are committed to making the right to development a reality for everyone and to freeing the entire human race from want.

12. We resolve therefore to create an environment – at the national and global levels alike – which is conducive to development and to the elimination of poverty.

13. Success in meeting these objectives depends, *inter alia*, on good governance within each country. It also depends on good governance at the international level and on transparency in the financial, monetary and trading systems. We are committed to an open, equitable, rule-based, predictable and non-discriminatory multilateral trading and financial system.

14. We are concerned about the obstacles developing countries face in mobilizing the resources needed to finance their sustained development. We will therefore make every effort to ensure the success of the High-level International and Intergovernmental Event on Financing for Development, to be held in 2001.

15. We also undertake to address the special needs of the least developed countries. In this context, we welcome the Third United Nations Conference on the Least Developed Countries to be held in May 2001 and will endeavour to ensure its success. We call on the industrialized countries:

- To adopt, preferably by the time of that Conference, a policy of duty- and quota-free access for essentially all exports from the least developed countries;
- To implement the enhanced programme of debt relief for the heavily indebted poor countries without further delay and to agree to cancel all official bilateral debts of those countries in return for their making demonstrable commitments to poverty reduction; and
- To grant more generous development assistance, especially to countries that are genuinely making an effort to apply their resources to poverty reduction.

16. We are also determined to deal comprehensively and effectively with the debt problems of low- and middle-income developing countries, through various national and international measures designed to make their debt sustainable in the long term.

---

[3] See CD/1478.

[4] Amended protocol on prohibitions or restrictions on the use of mines, booby-traps and other devices (CCW/CONF.I/16 (Part I), annex B).

17. We also resolve to address the special needs of small island developing States, by implementing the Barbados Programme of Action[5] and the outcome of the twenty-second special session of the General Assembly rapidly and in full. We urge the international community to ensure that, in the development of a vulnerability index, the special needs of small island developing States are taken into account.

18. We recognize the special needs and problems of the landlocked developing countries, and urge both bilateral and multilateral donors to increase financial and technical assistance to this group of countries to meet their special development needs and to help them overcome the impediments of geography by improving their transit transport systems.

19. We resolve further:

- To halve, by the year 2015, the proportion of the world's people whose income is less than one dollar a day and the proportion of people who suffer from hunger and, by the same date, to halve the proportion of people who are unable to reach or to afford safe drinking water.
- To ensure that, by the same date, children everywhere, boys and girls alike, will be able to complete a full course of primary schooling and that girls and boys will have equal access to all levels of education.
- By the same date, to have reduced maternal mortality by three quarters, and under-five child mortality by two thirds, of their current rates.
- To have, by then, halted, and begun to reverse, the spread of HIV/AIDS, the scourge of malaria and other major diseases that afflict humanity.
- To provide special assistance to children orphaned by HIV/AIDS.
- By 2020, to have achieved a significant improvement in the lives of at least 100 million slum dwellers as proposed in the "Cities Without Slums" initiative.

20. We also resolve:

- To promote gender equality and the empowerment of women as effective ways to combat poverty, hunger and disease and to stimulate development that is truly sustainable.
- To develop and implement strategies that give young people everywhere a real chance to find decent and productive work.
- To encourage the pharmaceutical industry to make essential drugs more widely available and affordable by all who need them in developing countries.
- To develop strong partnerships with the private sector and with civil society organizations in pursuit of development and poverty eradication.

[5] Programme of Action for the Sustainable Development of Small Island Developing States (*Report of the Global Conference on the Sustainable Development of Small Island Developing States, Bridgetown, Barbados, 25 April-6May 1994* (United Nations publication, Sales No. E.94.I.18 and corrigenda), chap. I, resolution 1, annex II).

- To ensure that the benefits of new technologies, especially information and communication technologies, in conformity with recommendations contained in the ECOSOC 2000 Ministerial Declaration,[6] are available to all.

IV. Protecting our common environment

21. We must spare no effort to free all of humanity, and above all our children and grandchildren, from the threat of living on a planet irredeemably spoilt by human activities, and whose resources would no longer be sufficient for their needs.

22. We reaffirm our support for the principles of sustainable development, including those set out in Agenda 21,[7] agreed upon at the United Nations Conference on Environment and Development.

23. We resolve therefore to adopt in all our environmental actions a new ethic of conservation and stewardship and, as first steps, we resolve:

- To make every effort to ensure the entry into force of the Kyoto Protocol, preferably by the tenth anniversary of the United Nations Conference on Environment and Development in 2002, and to embark on the required reduction in emissions of greenhouse gases.
- To intensify our collective efforts for the management, conservation and sustainable development of all types of forests.
- To press for the full implementation of the Convention on Biological Diversity[8] and the Convention to Combat Desertification in those Countries Experiencing Serious Drought and/or Desertification, particularly in Africa.[9]
- To stop the unsustainable exploitation of water resources by developing water management strategies at the regional, national and local levels, which promote both equitable access and adequate supplies.
- To intensify cooperation to reduce the number and effects of natural and man-made disasters.
- To ensure free access to information on the human genome sequence.

V. Human rights, democracy and good governance

24. We will spare no effort to promote democracy and strengthen the rule of law, as well as respect for all internationally recognized human rights and fundamental freedoms, including the right to development.

25. We resolve therefore:

---

[6] E/2000/L.9.

[7] *Report of the United Nations Conference on Environment and Development, Rio de Janeiro, 3-14 June 1992* (United Nations publication, Sales No. E.93.I.8 and corrigenda), vol. I: *Resolutions adopted by the Conference*, resolution 1, annex II.

[8] See United Nations Environment Programme, *Convention on Biological Diversity* (Environmental Law and Institution Programme Activity Centre), June 1992.

[9] A/49/84/Add.2, annex, appendix II.

- To respect fully and uphold the Universal Declaration of Human Rights.[10]
- To strive for the full protection and promotion in all our countries of civil, political, economic, social and cultural rights for all.
- To strengthen the capacity of all our countries to implement the principles and practices of democracy and respect for human rights, including minority rights.
- To combat all forms of violence against women and to implement the Convention on the Elimination of All Forms of Discrimination against Women.[11]
- To take measures to ensure respect for and protection of the human rights of migrants, migrant workers and their families, to eliminate the increasing acts of racism and xenophobia in many societies and to promote greater harmony and tolerance in all societies.
- To work collectively for more inclusive political processes, allowing genuine participation by all citizens in all our countries.
- To ensure the freedom of the media to perform their essential role and the right of the public to have access to information.

VI. Protecting the vulnerable

26. We will spare no effort to ensure that children and all civilian populations that suffer disproportionately the consequences of natural disasters, genocide, armed conflicts and other humanitarian emergencies are given every assistance and protection so that they can resume normal life as soon as possible.

We resolve therefore:

- To expand and strengthen the protection of civilians in complex emergencies, in conformity with international humanitarian law.
- To strengthen international cooperation, including burden sharing in, and the coordination of humanitarian assistance to, countries hosting refugees and to help all refugees and displaced persons to return voluntarily to their homes, in safety and dignity and to be smoothly reintegrated into their societies.
- To encourage the ratification and full implementation of the Convention on the Rights of the Child[12] and its optional protocols on the involvement of children in armed conflict and on the sale of children, child prostitution and child pornography.[13]

VII. Meeting the special needs of Africa

27. We will support the consolidation of democracy in Africa and assist Africans in their struggle for lasting peace, poverty eradication and sustainable development, thereby bringing Africa into the mainstream of the world economy.

---

[10] Resolution 217 A (III).

[11] Resolution 34/180, annex.

[12] Resolution 44/25, annex.

[13] Resolution 54/263, annexes I and II.

28. We resolve therefore:

- To give full support to the political and institutional structures of emerging democracies in Africa.
- To encourage and sustain regional and subregional mechanisms for preventing conflict and promoting political stability, and to ensure a reliable flow of resources for peacekeeping operations on the continent.
- To take special measures to address the challenges of poverty eradication and sustainable development in Africa, including debt cancellation, improved market access, enhanced Official Development Assistance and increased flows of Foreign Direct Investment, as well as transfers of technology.
- To help Africa build up its capacity to tackle the spread of the HIV/AIDS pandemic and other infectious diseases.

VIII. Strengthening the United Nations

29. We will spare no effort to make the United Nations a more effective instrument for pursuing all of these priorities: the fight for development for all the peoples of the world, the fight against poverty, ignorance and disease; the fight against injustice; the fight against violence, terror and crime; and the fight against the degradation and destruction of our common home.

30. We resolve therefore:

- To reaffirm the central position of the General Assembly as the chief deliberative, policy-making and representative organ of the United Nations, and to enable it to play that role effectively.
- To intensify our efforts to achieve a comprehensive reform of the Security Council in all its aspects.
- To strengthen further the Economic and Social Council, building on its recent achievements, to help it fulfil the role ascribed to it in the Charter.
- To strengthen the International Court of Justice, in order to ensure justice and the rule of law in international affairs.
- To encourage regular consultations and coordination among the principal organs of the United Nations in pursuit of their functions.
- To ensure that the Organization is provided on a timely and predictable basis with the resources it needs to carry out its mandates.
- To urge the Secretariat to make the best use of those resources, in accordance with clear rules and procedures agreed by the General Assembly, in the interests of all Member States, by adopting the best management practices and technologies available and by concentrating on those tasks that reflect the agreed priorities of Member States.
- To promote adherence to the Convention on the Safety of United Nations and Associated Personnel.[14]

[14] Resolution 49/59, annex.

- To ensure greater policy coherence and better cooperation between the United Nations, its agencies, the Bretton Woods Institutions and the World Trade Organization, as well as other multilateral bodies, with a view to achieving a fully coordinated approach to the problems of peace and development.
- To strengthen further cooperation between the United Nations and national parliaments through their world organization, the Inter-Parliamentary Union, in various fields, including peace and security, economic and social development, international law and human rights and democracy and gender issues.
- To give greater opportunities to the private sector, non-governmental organizations and civil society, in general, to contribute to the realization of the Organization's goals and programmes.

31. We request the General Assembly to review on a regular basis the progress made in implementing the provisions of this Declaration, and ask the Secretary-General to issue periodic reports for consideration by the General Assembly and as a basis for further action.

32. We solemnly reaffirm, on this historic occasion, that the United Nations is the indispensable common house of the entire human family, through which we will seek to realize our universal aspirations for peace, cooperation and development. We therefore pledge our unstinting support for these common objectives and our determination to achieve them.

Monterrey Consensus of the International Conference on Financing for Development*

Contents

*Report of the International Conference on Financing for Development, Monterrey, Mexico, 18-22 March 2002 (A/CONF.198/11, chapter 1, resolution 1, annex)

I. Confronting the challenges of financing for development: a global response

1. We the heads of State and Government, gathered in Monterrey, Mexico, on 21 and 22 March 2002, have resolved to address the challenges of financing for development around the world, particularly in developing countries. Our goal is to eradicate poverty, achieve sustained economic growth and promote sustainable development as we advance to a fully inclusive and equitable global economic system.
2. We note with concern current estimates of dramatic shortfalls in resources required to achieve the internationally agreed development goals, including those contained in the United Nations Millennium Declaration.[1]
3. Mobilizing and increasing the effective use of financial resources and achieving the national and international economic conditions needed to fulfil internationally agreed development goals, including those contained in the Millennium Declaration, to eliminate poverty, improve social conditions and raise living standards, and protect our environment, will be our first step to ensuring that the twenty-first century becomes the century of development for all.
4. Achieving the internationally agreed development goals, including those contained in the Millennium Declaration, demands a new partnership between developed and developing countries. We commit ourselves to sound policies, good governance at all levels and the rule of law. We also commit ourselves to mobilizing domestic resources, attracting international flows, promoting international trade as an engine for development, increasing international financial and technical cooperation for development, sustainable debt financing and external debt relief, and enhancing the coherence and consistency of the international monetary, financial and trading systems.
5. The terrorist attacks on 11 September 2001 exacerbated the global economic slowdown, further reducing growth rates. It has now become all the more urgent to enhance collaboration among all stakeholders to promote sustained economic growth and to address the long-term challenges of financing for development. Our resolve to act together is stronger than ever.
6. Each country has primary responsibility for its own economic and social development, and the role of national policies and development strategies cannot be overemphasized. At the same time, domestic economies

[1] General Assembly resolution 55/2.

are now interwoven with the global economic system and, inter alia, the effective use of trade and investment opportunities can help countries to fight poverty. National development efforts need to be supported by an enabling international economic environment. We encourage and support development frameworks initiated at the regional level, such as the New Partnership for Africa's Development and similar efforts in other regions.

7. Globalization offers opportunities and challenges. The developing countries and countries with economies in transition face special difficulties in responding to those challenges and opportunities. Globalization should be fully inclusive and equitable, and there is a strong need for policies and measures at the national and international levels, formulated and implemented with the full and effective participation of developing countries and countries with economies in transition to help them respond effectively to those challenges and opportunities.

8. In the increasingly globalizing interdependent world economy, a holistic approach to the interconnected national, international and systemic challenges of financing for development - sustainable, gender-sensitive, people-centred development - in all parts of the globe is essential. Such an approach must open up opportunities for all and help to ensure that resources are created and used effectively and that strong, accountable institutions are established at all levels. To that end, collective and coherent action is needed in each interrelated area of our agenda, involving all stakeholders in active partnership.

9. Recognizing that peace and development are mutually reinforcing, we are determined to pursue our shared vision for a better future, through our individual efforts combined with vigorous multilateral action. Upholding the Charter of the United Nations and building upon the values of the Millennium Declaration, we commit ourselves to promoting national and global economic systems based on the principles of justice, equity, democracy, participation, transparency, accountability and inclusion.

II. Leading actions

A. Mobilizing domestic financial resources for development

10. In our common pursuit of growth, poverty eradication and sustainable development, a critical challenge is to ensure the necessary internal conditions for mobilizing domestic savings, both public and private, sustaining adequate levels of productive investment and increasing human capacity. A crucial task is to enhance the efficacy, coherence and consis-

tency of macroeconomic policies. An enabling domestic environment is vital for mobilizing domestic resources, increasing productivity, reducing capital flight, encouraging the private sector, and attracting and making effective use of international investment and assistance. Efforts to create such an environment should be supported by the international community.

11. Good governance is essential for sustainable development. Sound economic policies, solid democratic institutions responsive to the needs of the people and improved infrastructure are the basis for sustained economic growth, poverty eradication and employment creation. Freedom, peace and security, domestic stability, respect for human rights, including the right to development, and the rule of law, gender equality, market-oriented policies, and an overall commitment to just and democratic societies are also essential and mutually reinforcing.

12. We will pursue appropriate policy and regulatory frameworks at our respective national levels and in a manner consistent with national laws to encourage public and private initiatives, including at the local level, and foster a dynamic and well functioning business sector, while improving income growth and distribution, raising productivity, empowering women and protecting labour rights and the environment. We recognize that the appropriate role of government in market-oriented economies will vary from country to country.

13. Fighting corruption at all levels is a priority. Corruption is a serious barrier to effective resource mobilization and allocation, and diverts resources away from activities that are vital for poverty eradication and economic and sustainable development.

14. We recognize the need to pursue sound macroeconomic policies aimed at sustaining high rates of economic growth, full employment, poverty eradication, price stability and sustainable fiscal and external balances to ensure that the benefits of growth reach all people, especially the poor. Governments should attach priority to avoiding inflationary distortions and abrupt economic fluctuations that negatively affect income distribution and resource allocation. Along with prudent fiscal and monetary policies, an appropriate exchange rate regime is required.

15. An effective, efficient, transparent and accountable system for mobilizing public resources and managing their use by Governments is essential. We recognize the need to secure fiscal sustainability, along with equitable and efficient tax systems and administration, as well as improvements in public spending that do not crowd out productive private investment. We also recognize the contribution that medium-term fiscal frameworks can make in that respect.

16. Investments in basic economic and social infrastructure, social services and social protection, including education, health, nutrition, shelter and

social security programmes, which take special care of children and older persons and are gender sensitive and fully inclusive of the rural sector and all disadvantaged communities, are vital for enabling people, especially people living in poverty, to better adapt to and benefit from changing economic conditions and opportunities. Active labour market policies, including worker training, can help to increase employment and improve working conditions. The coverage and scope of social protection needs to be further strengthened. Economic crises also underscore the importance of effective social safety nets.

17. We recognize the need to strengthen and develop the domestic financial sector, by encouraging the orderly development of capital markets through sound banking systems and other institutional arrangements aimed at addressing development financing needs, including the insurance sector and debt and equity markets, that encourage and channel savings and foster productive investments. That requires a sound system of financial intermediation, transparent regulatory frameworks and effective supervisory mechanisms, supported by a solid central bank. Guarantee schemes and business development services should be developed for easing the access of small and medium-sized enterprises to local financing.

18. Microfinance and credit for micro-, small and medium-sized enterprises, including in rural areas, particularly for women, as well as national savings schemes, are important for enhancing the social and economic impact of the financial sector. Development banks, commercial and other financial institutions, whether independently or in cooperation, can be effective instruments for facilitating access to finance, including equity financing, for such enterprises, as well as an adequate supply of medium- and long-term credit. In addition, the promotion of private-sector financial innovations and public-private partnerships can also deepen domestic financial markets and further develop the domestic financial sector. The prime objective of pension schemes is social protection, but when those schemes are funded they can also be a source of savings. Bearing in mind economic and social considerations, efforts should be made to incorporate the informal sector into the formal economy, wherever feasible. It is also important to reduce the transfer costs of migrant workers' remittances and create opportunities for development-oriented investments, including housing.

19. It is critical to reinforce national efforts in capacity-building in developing countries and countries with economies in transition in such areas as institutional infrastructure, human resource development, public finance, mortgage finance, financial regulation and supervision, basic education in particular, public administration, social and gender budget policies, early warning and crisis prevention, and debt management. In that regard, par-

ticular attention is required to address the special needs of Africa, the least developed countries, small island developing States and landlocked developing countries. We reaffirm our commitment to the Programme of Action for the Least Developed Countries for the Decade 2001-2010,[2] adopted by the Third United Nations Conference on the Least Developed Countries, held in Brussels from 14 to 20 May 2001, and the Global Programme of Action for the Sustainable Development of Small Island Developing States.[3] International support for those efforts, including technical assistance and through United Nations operational activities for development, is indispensable. We encourage South-South cooperation, including through triangular cooperation, to facilitate exchange of views on successful strategies, practices and experience and replication of projects.

B. Mobilizing international resources for development: foreign direct investment and other private flows

20. Private international capital flows, particularly foreign direct investment, along with international financial stability, are vital complements to national and international development efforts. Foreign direct investment contributes toward financing sustained economic growth over the long term. It is especially important for its potential to transfer knowledge and technology, create jobs, boost overall productivity, enhance competitiveness and entrepreneurship, and ultimately eradicate poverty through economic growth and development. A central challenge, therefore, is to create the necessary domestic and international conditions to facilitate direct investment flows, conducive to achieving national development priorities, to developing countries, particularly Africa, least developed countries, small island developing States, and landlocked developing countries, and also to countries with economies in transition.
21. To attract and enhance inflows of productive capital, countries need to continue their efforts to achieve a transparent, stable and predictable investment climate, with proper contract enforcement and respect for property rights, embedded in sound macroeconomic policies and institutions that allow businesses, both domestic and international, to operate efficiently and profitably and with maximum development impact. Special efforts are required in such priority areas as economic policy and regula-

[2] A/CONF.191/11.
[3] *Report of the Global Conference on the Sustainable Development of Small Island Developing States, Bridgetown, Barbados, 25 April-6 May 1994* (United Nations publication, Sales No. E.94.I.18 and corrigenda), chap. I, resolution 1, annex II.

tory frameworks for promoting and protecting investments, including the areas of human resource development, avoidance of double taxation, corporate governance, accounting standards, and the promotion of a competitive environment. Other mechanisms, such as public/private partnerships and investment agreements, can be important. We emphasize the need for strengthened, adequately resourced technical assistance and productive capacity-building programmes, as requested by recipients.

22. To complement national efforts, there is the need for the relevant international and regional institutions as well as appropriate institutions in source countries to increase their support for private foreign investment in infrastructure development and other priority areas, including projects to bridge the digital divide, in developing countries and countries with economies in transition. To this end, it is important to provide export credits, co-financing, venture capital and other lending instruments, risk guarantees, leveraging aid resources, information on investment opportunities, business development services, forums to facilitate business contacts and cooperation between enterprises of developed and developing countries, as well as funding for feasibility studies. Inter-enterprise partnership is a powerful means for transfer and dissemination of technology. In this regard, strengthening of the multilateral and regional financial and development institutions is desirable. Additional source country measures should also be devised to encourage and facilitate investment flows to developing countries.

23. While Governments provide the framework for their operation, businesses, for their part, are expected to engage as reliable and consistent partners in the development process. We urge businesses to take into account not only the economic and financial but also the developmental, social, gender and environmental implications of their undertakings. In that spirit, we invite banks and other financial institutions, in developing countries as well as developed countries, to foster innovative developmental financing approaches. We welcome all efforts to encourage good corporate citizenship and note the initiative undertaken in the United Nations to promote global partnerships.

24. We will support new public/private sector financing mechanisms, both debt and equity, for developing countries and countries with economies in transition, to benefit in particular small entrepreneurs and small and medium-size enterprises and infrastructure. Those public/private initiatives could include the development of consultation mechanisms between international and regional financial organizations and national Governments with the private sector in both source and recipient countries as a means of creating business-enabling environments.

25. We underscore the need to sustain sufficient and stable private financial flows to developing countries and countries with economies in transition. It is important to promote measures in source and destination countries

to improve transparency and the information about financial flows. Measures that mitigate the impact of excessive volatility of short-term capital flows are important and must be considered. Given each country's varying degree of national capacity, managing national external debt profiles, paying careful attention to currency and liquidity risk, strengthening prudential regulations and supervision of all financial institutions, including highly leveraged institutions, liberalizing capital flows in an orderly and well sequenced process consistent with development objectives, and implementation, on a progressive and voluntary basis, of codes and standards agreed internationally, are also important. We encourage public/private initiatives that enhance the ease of access, accuracy, timeliness and coverage of information on countries and financial markets, which strengthen capacities for risk assessment. Multilateral financial institutions could provide further assistance for all those purposes.

C. International trade as an engine for development

26. A universal, rule-based, open, non-discriminatory and equitable multilateral trading system, as well as meaningful trade liberalization, can substantially stimulate development worldwide, benefiting countries at all stages of development. In that regard, we reaffirm our commitment to trade liberalization and to ensure that trade plays its full part in promoting economic growth, employment and development for all. We thus welcome the decisions of the World Trade Organization to place the needs and interests of developing countries at the heart of its work programme, and commit ourselves to their implementation.
27. To benefit fully from trade, which in many cases is the single most important external source of development financing, the establishment or enhancement of appropriate institutions and policies in developing countries, as well as in countries with economies in transition, is needed. Meaningful trade liberalization is an important element in the sustainable development strategy of a country. Increased trade and foreign direct investment could boost economic growth and could be a significant source of employment.
28. We acknowledge the issues of particular concern to developing countries and countries with economies in transition in international trade to enhance their capacity to finance their development, including trade barriers, trade-distorting subsidies and other trade-distorting measures, particularly in sectors of special export interest to developing countries, including agriculture; the abuse of anti-dumping measures; technical barriers and sanitary and phytosanitary measures; trade liberalization in labour intensive manufactures; trade liberalization in agricultural products; trade in services; tariff peaks, high tariffs and tariff escalation, as well as

non-tariff barriers; the movement of natural persons; the lack of recognition of intellectual property rights for the protection of traditional knowledge and folklore; the transfer of knowledge and technology; the implementation and interpretation of the Agreement on Trade-Related Aspects of Intellectual Property Rights[4] in a manner supportive of public health; and the need for special and differential treatment provisions for developing countries in trade agreements to be made more precise, effective and operational.

29. To ensure that world trade supports development to the benefit of all countries, we encourage the members of the World Trade Organization to implement the outcome of its Fourth Ministerial Conference, held in Doha, Qatar from 9 to 14 November 2001.

30. We also undertake to facilitate the accession of all developing countries, particularly the least developed countries, as well as countries with economies in transition, that apply for membership in the World Trade Organization.

31. We will implement the commitments made in Doha to address the marginalization of the least developed countries in international trade as well as the work programme adopted to examine issues related to the trade of small economies.

32. We also commit ourselves to enhancing the role of regional and subregional agreements and free trade areas, consistent with the multilateral trading system, in the construction of a better world trading system. We urge international financial institutions, including the regional development banks, to continue to support projects that promote subregional and regional integration among developing countries and countries with economies in transition.

33. We recognize the importance of enhanced and predictable access to all markets for the exports of developing countries, including small island developing States, landlocked developing countries, transit developing countries and countries in Africa, as well as countries with economies in transition.

34. We call on developed countries that have not already done so to work towards the objective of duty-free and quota-free access for all least developed countries' exports, as envisaged in the Programme of Action for the Least Developed Countries adopted in Brussels. Consideration of proposals for developing countries to contribute to improved market access for least developed countries would also be helpful.

[4] *The Results of the Uruguay Round of Multilateral Trade Negotiations: The Legal Texts* (Geneva, GATT secretariat, 1994), annex 1C.

35. We further recognize the importance for developing countries as well as countries with economies in transition of considering reducing trade barriers among themselves.

36. In cooperation with the interested Governments and their financial institutions and to further support national efforts to benefit from trade opportunities and effectively integrate into the multilateral trading system, we invite multilateral and bilateral financial and development institutions to expand and coordinate their efforts, with increased resources, for gradually removing supply-side constraints; improve trade infrastructure; diversify export capacity and support an increase in the technological content of exports; strengthen institutional development and enhance overall productivity and competitiveness. To that end, we further invite bilateral donors and the international and regional financial institutions, together with the relevant United Nations agencies, funds and programmes, to reinforce the support for trade-related training, capacity and institution building and trade-supporting services. Special consideration should be given to least developed countries, landlocked developing countries, small island developing States, African development, transit developing countries and countries with economies in transition, including through the Integrated Framework for Trade-Related Technical Assistance to Least Developed Countries and its follow-up, the Joint Integrated Technical Assistance Programme, the World Trade Organization Doha Development Agenda Global Trust Fund, as well as the activities of the International Trade Centre.

37. Multilateral assistance is also needed to mitigate the consequences of depressed export revenues of countries that still depend heavily on commodity exports. Thus, we recognize the recent review of the International Monetary Fund Compensatory Financing Facility and will continue to assess its effectiveness. It is also important to empower developing country commodity producers to insure themselves against risk, including against natural disasters. We further invite bilateral donors and multilateral aid agencies to strengthen their support to export diversification programmes in those countries.

38. In support of the process launched in Doha, immediate attention should go to strengthening and ensuring the meaningful and full participation of developing countries, especially the least developed countries, in multilateral trade negotiations. In particular, developing countries need assistance in order to participate effectively in the World Trade Organization work programme and negotiating process through the enhanced cooperation of all relevant stakeholders, including the United Nations Conference on Trade and Development, the World Trade Organization and the World Bank. To those ends, we underscore the importance of

effective, secure and predictable financing of trade-related technical assistance and capacity-building.

D. Increasing international financial and technical cooperation for development

39. Official development assistance (ODA) plays an essential role as a complement to other sources of financing for development, especially in those countries with the least capacity to attract private direct investment. ODA can help a country to reach adequate levels of domestic resource mobilization over an appropriate time horizon, while human capital, productive and export capacities are enhanced. ODA can be critical for improving the environment for private sector activity and can thus pave the way for robust growth. ODA is also a crucial instrument for supporting education, health, public infrastructure development, agriculture and rural development, and to enhance food security. For many countries in Africa, least developed countries, small island developing States and landlocked developing countries, ODA is still the largest source of external financing and is critical to the achievement of the development goals and targets of the Millennium Declaration and other internationally agreed development targets.

40. Effective partnerships among donors and recipients are based on the recognition of national leadership and ownership of development plans and, within that framework, sound policies and good governance at all levels are necessary to ensure ODA effectiveness. A major priority is to build those development partnerships, particularly in support of the neediest, and to maximize the poverty reduction impact of ODA. The goals, targets and commitments of the Millennium Declaration and other internationally agreed development targets can help countries to set short- and medium-term national priorities as the foundation for building partnerships for external support. In that context, we underline the importance of the United Nations funds, programmes and specialized agencies, and we will strongly support them.

41. We recognize that a substantial increase in ODA and other resources will be required if developing countries are to achieve the internationally agreed development goals and objectives, including those contained in the Millennium Declaration. To build support for ODA, we will cooperate to further improve policies and development strategies, both nationally and internationally, to enhance aid effectiveness.

42. In that context, we urge developed countries that have not done so to make concrete efforts towards the target of 0.7 per cent of gross national product (GNP) as ODA to developing countries and 0.15 to 0.20 per cent of GNP of developed countries to least developed countries, as reconfirmed at the Third United Nations Conference on Least Developed

Countries, and we encourage developing countries to build on progress achieved in ensuring that ODA is used effectively to help achieve development goals and targets. We acknowledge the efforts of all donors, commend those donors whose ODA contributions exceed, reach or are increasing towards the targets, and underline the importance of undertaking to examine the means and time frames for achieving the targets and goals.

43. Recipient and donor countries, as well as international institutions, should strive to make ODA more effective. In particular, there is a need for the multilateral and bilateral financial and development institutions to intensify efforts to:

- Harmonize their operational procedures at the highest standard so as to reduce transaction costs and make ODA disbursement and delivery more flexible, taking into account national development needs and objectives under the ownership of the recipient country;
- Support and enhance recent efforts and initiatives, such as untying aid, including the implementation of the Organisation for Economic Cooperation and Development/Development Assistance Committee recommendation on untying aid to the least developed countries, as agreed by the Organisation for Economic Cooperation and Development in May 2001. Further efforts should be made to address burdensome restrictions;
- Enhance the absorptive capacity and financial management of the recipient countries to utilize aid in order to promote the use of the most suitable aid delivery instruments that are responsive to the needs of developing countries and to the need for resource predictability, including budget support mechanisms, where appropriate, and in a fully consultative manner;
- Use development frameworks that are owned and driven by developing countries and that embody poverty reduction strategies, including poverty reduction strategy papers, as vehicles for aid delivery, upon request;
- Enhance recipient countries' input into and ownership of the design, including procurement, of technical assistance programmes; and increase the effective use of local technical assistance resources;
- Promote the use of ODA to leverage additional financing for development, such as foreign investment, trade and domestic resources;
- Strengthen triangular cooperation, including countries with economies in transition, and South-South cooperation, as delivery tools for assistance;
- Improve ODA targeting to the poor, coordination of aid and measurement of results.

We invite donors to take steps to apply the above measures in support of all developing countries, including immediately in support of the comprehensive strategy that is embodied in the New Partnership for Africa's Development and similar efforts in other regions, as well as in support of least developed countries, small island developing States and landlocked developing countries. We acknowledge and appreciate the discussions taking place in other forums on proposals to increase the concessionality of development financing, including greater use of grants.

44. We recognize the value of exploring innovative sources of finance provided that those sources do not unduly burden developing countries. In that regard, we agree to study, in the appropriate forums, the results of the analysis requested from the Secretary-General on possible innovative sources of finance, noting the proposal to use special drawing rights allocations for development purposes. We consider that any assessment of special drawing rights allocations must respect the International Monetary Fund's Articles of Agreement and the established rules of procedure of the Fund, which requires taking into account the global need for liquidity at the international level.

45. Multilateral and regional development banks continue to play a vital role in serving the development needs of developing countries and countries with economies in transition. They should contribute to providing an adequate supply of finance to countries that are challenged by poverty, follow sound economic policies and may lack adequate access to capital markets. They should also mitigate the impact of excessive volatility of financial markets. Strengthened regional development banks and subregional financial institutions add flexible financial support to national and regional development efforts, enhancing ownership and overall efficiency. They also serve as a vital source of knowledge and expertise on economic growth and development for their developing member countries.

46. We will ensure that the long-term resources at the disposal of the international financial system, including regional and subregional institutions and funds, allow them to adequately support sustained economic and social development, technical assistance for capacity-building, and social and environmental protection schemes. We will also continue to enhance their overall lending effectiveness through increased country ownership, operations that raise productivity and yield measurable results in reducing poverty, and closer coordination with donors and the private sector.

E. External debt

47. Sustainable debt financing is an important element for mobilizing resources for public and private investment. National comprehensive strategies to monitor and manage external liabilities, embedded in the domestic preconditions for debt sustainability, including sound macro-

economic policies and public resource management, are a key element in reducing national vulnerabilities. Debtors and creditors must share the responsibility for preventing and resolving unsustainable debt situations. Technical assistance for external debt management and debt tracking can play an important role and should be strengthened.

48. External debt relief can play a key role in liberating resources that can then be directed towards activities consistent with attaining sustainable growth and development, and therefore, debt relief measures should, where appropriate, be pursued vigorously and expeditiously, including within the Paris and London Clubs and other relevant forums. Noting the importance of re-establishing financial viability for those developing countries facing unsustainable debt burdens, we welcome initiatives that have been undertaken to reduce outstanding indebtedness and invite further national and international measures in that regard, including, as appropriate, debt cancellation and other arrangements.

49. The enhanced Heavily Indebted Poor Countries Initiative provides an opportunity to strengthen the economic prospects and poverty reduction efforts of its beneficiary countries. Speedy, effective and full implementation of the enhanced Initiative, which should be fully financed through additional resources, is critical. Heavily indebted poor countries should take the policy measures necessary to become eligible for the Initiative. Future reviews of debt sustainability should also bear in mind the impact of debt relief on progress towards the achievement of the development goals contained in the Millennium Declaration. We stress the importance of continued flexibility with regard to the eligibility criteria. Continued efforts are needed to reduce the debt burden of heavily indebted poor countries to sustainable levels. The computational procedures and assumptions underlying debt sustainability analysis need to be kept under review. Debt sustainability analysis at the completion point needs to take into account any worsening global growth prospects and declining terms of trade. Debt relief arrangements should seek to avoid imposing any unfair burdens on other developing countries.

50. We stress the need for the International Monetary Fund and the World Bank to consider any fundamental changes in countries' debt sustainability caused by natural catastrophes, severe terms of trade shocks or conflict, when making policy recommendations, including for debt relief, as appropriate.

51. While recognizing that a flexible mix of instruments is needed to respond appropriately to countries' different economic circumstances and capacities, we emphasize the importance of putting in place a set of clear principles for the management and resolution of financial crises that provide for fair burden-sharing between public and private sectors and between debtors, creditors and investors. We encourage donor countries to take steps to ensure that resources provided for debt relief do not detract from

ODA resources intended to be available for developing countries. We also encourage exploring innovative mechanisms to comprehensively address debt problems of developing countries, including middle-income countries and countries with economies in transition.

F. Addressing systemic issues: enhancing the coherence and consistency of the international monetary, financial and trading systems in support of development

52. In order to complement national development efforts, we recognize the urgent need to enhance coherence, governance, and consistency of the international monetary, financial and trading systems. To contribute to that end, we underline the importance of continuing to improve global economic governance and to strengthen the United Nations leadership role in promoting development. With the same purpose, efforts should be strengthened at the national level to enhance coordination among all relevant ministries and institutions. Similarly, we should encourage policy and programme coordination of international institutions and coherence at the operational and international levels to meet the Millennium Declaration development goals of sustained economic growth, poverty eradication and sustainable development.
53. Important international efforts are under way to reform the international financial architecture. Those efforts need to be sustained with greater transparency and the effective participation of developing countries and countries with economies in transition. One major objective of the reform is to enhance financing for development and poverty eradication. We also underscore our commitment to sound domestic financial sectors, which make a vital contribution to national development efforts, as an important component of an international financial architecture that is supportive of development.
54. Strong coordination of macroeconomic policies among the leading industrial countries is critical to greater global stability and reduced exchange rate volatility, which are essential to economic growth as well as for enhanced and predictable financial flows to developing countries and countries with economies in transition.
55. The multilateral financial institutions, in particular the International Monetary Fund, need to continue to give high priority to the identification and prevention of potential crises and to strengthening the underpinnings of international financial stability. In that regard, we stress the need for the Fund to further strengthen its surveillance activities of all economies, with particular attention to short-term capital flows and their impact. We encourage the International Monetary Fund to facilitate the timely detection of external vulnerability through well designed surveil-

lance and early warning systems and to coordinate closely with relevant regional institutions or organizations, including the regional commissions.

56. We stress the need for multilateral financial institutions, in providing policy advice and financial support, to work on the basis of sound, nationally owned paths of reform that take into account the needs of the poor and efforts to reduce poverty, and to pay due regard to the special needs and implementing capacities of developing countries and countries with economies in transition, aiming at economic growth and sustainable development. The advice should take into account social costs of adjustment programmes, which should be designed to minimize negative impact on the vulnerable segments of society.

57. It is essential to ensure the effective and equitable participation of developing countries in the formulation of financial standards and codes. It is also essential to ensure implementation, on a voluntary and progressive basis, as a contribution to reducing vulnerability to financial crisis and contagion.

58. Sovereign risk assessments made by the private sector should maximize the use of strict, objective and transparent parameters, which can be facilitated by high-quality data and analysis.

59. Noting the impact of financial crisis or risk of contagion in developing countries and countries with economies in transition, regardless of their size, we underline the need to ensure that the international financial institutions, including the International Monetary Fund, have a suitable array of financial facilities and resources to respond in a timely and appropriate way in accordance with their policies. The International Monetary Fund has a range of instruments available and its current financial position is strong. The contingent credit line is an important signal of the strength of countries' policies and a safeguard against contagion in financial markets. The need for special drawing rights allocations should be kept under review. In that regard, we also underline the need to enhance the stabilizing role of regional and subregional reserve funds, swap arrangements and similar mechanisms that complement the efforts of international financial institutions.

60. To promote fair burden-sharing and minimize moral hazard, we would welcome consideration by all relevant stakeholders of an international debt workout mechanism, in the appropriate forums, that will engage debtors and creditors to come together to restructure unsustainable debts in a timely and efficient manner. Adoption of such a mechanism should not preclude emergency financing in times of crisis.

61. Good governance at all levels is also essential for sustained economic growth, poverty eradication and sustainable development worldwide. To better reflect the growth of interdependence and enhance legitimacy, economic governance needs to develop in two areas: broadening the

base for decision-making on issues of development concern and filling organizational gaps. To complement and consolidate advances in those two areas, we must strengthen the United Nations system and other multilateral institutions. We encourage all international organizations to seek to continually improve their operations and interactions.

62. We stress the need to broaden and strengthen the participation of developing countries and countries with economies in transition in international economic decision-making and norm-setting. To those ends, we also welcome further actions to help developing countries and countries with economies in transition to build their capacity to participate effectively in multilateral forums.

63. A first priority is to find pragmatic and innovative ways to further enhance the effective participation of developing countries and countries with economies in transition in international dialogues and decision-making processes. Within the mandates and means of the respective institutions and forums, we encourage the following actions:

- International Monetary Fund and World Bank: to continue to enhance participation of all developing countries and countries with economies in transition in their decision-making, and thereby to strengthen the international dialogue and the work of those institutions as they address the development needs and concerns of these countries;
- World Trade Organization: to ensure that any consultation is representative of its full membership and that participation is based on clear, simple and objective criteria;
- Bank for International Settlements, Basel Committees and Financial Stability Forum: to continue enhancing their outreach and consultation efforts with developing countries and countries with economies in transition at the regional level, and to review their membership, as appropriate, to allow for adequate participation;
- Ad hoc groupings that make policy recommendations with global implications: to continue to improve their outreach to non-member countries, and to enhance collaboration with the multilateral institutions with clearly defined and broad-based intergovernmental mandates.

64. To strengthen the effectiveness of the global economic system's support for development, we encourage the following actions:

- Improve the relationship between the United Nations and the World Trade Organization for development, and strengthen their capacity to provide technical assistance to all countries in need of such assistance;
- Support the International Labour Organization and encourage its ongoing work on the social dimension of globalization;
- Strengthen the coordination of the United Nations system and all other multilateral financial, trade and development institutions to support eco-

nomic growth, poverty eradication and sustainable development worldwide;

- Mainstream the gender perspective into development policies at all levels and in all sectors;
- Strengthen international tax cooperation, through enhanced dialogue among national tax authorities and greater coordination of the work of the concerned multilateral bodies and relevant regional organizations, giving special attention to the needs of developing countries and countries with economies in transition;
- Promote the role of the regional commissions and the regional development banks in supporting policy dialogue among countries at the regional level on macroeconomic, financial, trade and development issues.

65. We commit ourselves to negotiating and finalizing as soon as possible a United Nations convention against corruption in all its aspects, including the question of repatriation of funds illicitly acquired to countries of origin, and also to promoting stronger cooperation to eliminate money-laundering. We encourage States that have not yet done so to consider signature and ratification of the United Nations Convention against Transnational Organized Crime.[5]

66. We urge as a matter of priority all States that have not yet done so to consider becoming parties to the International Convention for the Suppression of the Financing of Terrorism,[6] and call for increased cooperation with the same objective.

67. We attach priority to reinvigorating the United Nations system as fundamental to the promotion of international cooperation for development and to a global economic system that works for all. We reaffirm our commitment to enabling the General Assembly to play effectively its central role as the chief deliberative, policy-making and representative organ of the United Nations, and to further strengthening the Economic and Social Council to enable it to fulfil the role ascribed to it in the Charter of the United Nations.

III. Staying engaged

68. To build a global alliance for development will require an unremitting effort. We thus commit ourselves to keeping fully engaged, nationally, regionally and internationally, to ensuring proper follow-up to the implementation of agreements and commitments reached at the present

[5] General Assembly resolution 55/25.
[6] General Assembly resolution 54/109, annex.

Conference, and to continuing to build bridges between development, finance, and trade organizations and initiatives, within the framework of the holistic agenda of the Conference. Greater cooperation among existing institutions is needed, based on a clear understanding and respect for their respective mandates and governance structures.

69. Building on the successful experience of the Conference and the process leading up to it, we shall strengthen and make fuller use of the General Assembly and the Economic and Social Council, as well as the relevant intergovernmental/governing bodies of other institutional stakeholders, for the purposes of conference follow-up and coordination, by substantively connecting, in ascending series, the following elements:

(a) Interactions between representatives of the Economic and Social Council and the directors of the executive boards of the World Bank and the International Monetary Fund can serve as preliminary exchanges on matters related to follow-up to the Conference and preparations for the annual spring meeting between those institutions. Similar interactions can also be initiated with representatives of the appropriate intergovernmental body of the World Trade Organization;

(b) We encourage the United Nations, the World Bank and the International Monetary Fund, with the World Trade Organization, to address issues of coherence, coordination and cooperation, as a follow-up to the Conference, at the spring meeting between the Economic and Social Council and the Bretton Woods institutions. The meeting should include an intergovernmental segment to address an agenda agreed to by the participating organizations, as well as a dialogue with civil society and the private sector;

(c) The current high-level dialogue on strengthening international cooperation for development through partnership, held every two years in the General Assembly, would consider the financing for development-related reports coming from the Economic and Social Council and other bodies, as well as other financing for development-related issues. It would be reconstituted to enable it to become the intergovernmental focal point for the general follow-up to the Conference and related issues. The high-level dialogue would include a policy dialogue, with the participation of the relevant stakeholders, on the implementation of the results of the Conference, including the theme of coherence and consistency of the international monetary, financial and trading systems in support of development;

(d) Appropriate modalities to enable participation in the reconstituted high-level dialogue by all relevant stakeholders, as necessary, will be considered.

70. To support the above elements at the national, regional and international levels, we resolve:

- To continue to improve our domestic policy coherence through the continued engagement of our ministries of development, finance, trade and foreign affairs, as well as our central banks;
- To harness the active support of the regional commissions and the regional development banks;
- To keep the financing for development process on the agenda of the intergovernmental bodies of all main stakeholders, including all United Nations funds, programmes and agencies, including the United Nations Conference on Trade and Development.

71. We recognize the link between financing of development and attaining internationally agreed development goals and objectives, including those contained in the Millennium Declaration, in measuring development progress and helping to guide development priorities. We welcome in that regard the intention of the United Nations to prepare a report annually. We encourage close cooperation between the United Nations, the World Bank, the International Monetary Fund and the World Trade Organization in the preparation of that report. We shall support the United Nations in the implementation of a global information campaign on the internationally agreed development goals and objectives, including those contained in the Millennium Declaration. In that respect, we would like to encourage the active involvement of all relevant stakeholders, including civil society organizations and the private sector.

72. To underpin those efforts, we request the Secretary-General of the United Nations to provide - with collaboration from the secretariats of the major institutional stakeholders concerned, fully utilizing the United Nations System Chief Executives Board for Coordination mechanism - sustained follow-up within the United Nations system to the agreements and commitments reached at the present Conference and to ensure effective secretariat support. That support will build on the innovative and participatory modalities and related coordination arrangements utilized in the preparations of the Conference. The Secretary-General of the United Nations is further requested to submit an annual report on those follow-up efforts.

73. We call for a follow-up international conference to review the implementation of the Monterrey Consensus. The modalities of that conference shall be decided upon not later than 2005.

Sixty-third session
Agenda item 48

Resolution adopted by the General Assembly on 9 July 2009

[*without reference to a Main Committee (A/63/L.75)*]

63/303. Outcome of the Conference on the World Financial and Economic Crisis and Its Impact on Development

The General Assembly,

Noting the Conference on the World Financial and Economic Crisis and Its Impact on Development, held in New York from 24 to 30 June 2009, and the adoption by the Conference of the outcome document,

Decides to endorse the Outcome of the Conference on the World Financial and Economic Crisis and Its Impact on Development, annexed to the present resolution.

95th plenary meeting
9 July 2009

Annex

Outcome of the Conference on the World Financial and Economic Crisis and Its Impact on Development

We, Heads of State and Government and High Representatives, met in New York from 24 to 30 June 2009 for the Conference on the World Financial and Economic Crisis and Its Impact on Development.

1. The world is confronted with the worst financial and economic crisis since the Great Depression. The evolving crisis, which began within the world's major financial centres, has spread throughout the global economy, causing severe social, political and economic impacts. We are deeply concerned about its adverse impact on development. This crisis is negatively affecting all countries, particularly developing countries, and threatening the livelihoods, well-being and development opportunities of millions of people. The crisis has not only highlighted long-standing systemic fragilities and imbalances, but has also led to an intensification of efforts to reform and strengthen the international financial system and architecture. Our challenge is to ensure that actions and responses to the crisis are commensurate with its scale, depth and urgency, adequately financed, promptly implemented and appropriately coordinated internationally.

2. We reaffirm the purposes of the United Nations, as set forth in its Charter, including "to achieve international cooperation in solving international problems of an economic, social, cultural, or humanitarian character" and "to be a centre for harmonizing the actions of nations in the attainment of these common ends". The principles of the Charter are

particularly relevant in addressing the current challenges. The United Nations, on the basis of its universal membership and legitimacy, is well positioned to participate in various reform processes aimed at improving and strengthening the effective functioning of the international financial system and architecture. This United Nations Conference is part of our collective effort towards recovery. It builds on and contributes to what already is being undertaken by diverse actors and in various forums, and is intended to support, inform and provide political impetus to future actions. This Conference also highlights the importance of the role of the United Nations in international economic issues.

3. Developing countries, which did not cause the global economic and financial crisis, are nonetheless severely affected by it. The economic and social progress achieved during recent years, in particular on internationally agreed development goals, including the Millennium Development Goals, is now being threatened in developing countries, particularly least developed countries. This progress, partially underpinned by a period of high economic growth in many countries, needs to be secured and enhanced in the face of threats posed by the crisis. Our endeavours must be guided by the need to address the human costs of the crisis: an increase in the already unacceptable number of poor and vulnerable, particularly women and children, who suffer and die of hunger, malnutrition and preventable or curable disease; a rise in unemployment; the reduction in access to education and health services; and the current inadequacy of social protection in many countries. Women also face greater income insecurity and increased burdens of family care. These particular human costs have serious development consequences on the human security of those affected. An equitable global recovery requires the full participation of all countries in shaping appropriate responses to the crisis.

4. Although the financial and economic crisis has affected all countries, it is important to take into account the varying impacts and challenges of the crisis on the different categories of developing countries. The crisis is further endangering the achievement of their national development objectives, as well as the internationally agreed development goals, including the Millennium Development Goals. We are particularly concerned about the impact on countries in special situations, including least developed countries, small island developing States and landlocked developing countries, and on African countries and countries emerging from conflict. We are equally concerned about the specific development challenges of middle-income countries and low-income countries with vulnerable and poor populations. For all these countries, the crisis presents unique challenges to their efforts to achieve their national development goals. Our collective responses to this crisis must be made with sensitivity to the specific needs of these different categories of developing countries, which include trade and market access, access to adequate financing and concessionary financing, capacity-building, strengthened support for sustainable development, financial and technical assistance, debt sustainability, trade facilitation measures, infrastructure development, peace and security, the Millennium Development Goals, and our previous international development commitments.

5. Peace, stability and prosperity are indivisible. In today's globalized economy, all nations are far more closely tied together than ever before. The global reach of the crisis calls for prompt, decisive and coordinated action to address its causes, mitigate its impact and strengthen or establish the necessary mechanisms to help prevent similar crises in the future.

6. This Conference represents a milestone in an ongoing and concerted engagement by all States Members of the United Nations to address the crisis and its impact on development. Today, we have set forth our global consensus on the responses to this crisis, prioritized required actions and defined a clear role for the United Nations. We are doing so in the interest of all nations in order to achieve a more inclusive, equitable, balanced, development-oriented and sustainable economic development to help overcome poverty and inequality.

Present state of the world economy

7. This crisis is connected to multiple, interrelated global crises and challenges, such as increased food insecurity, volatile energy and commodity prices and climate change, as well as the lack of results so far in the multilateral trade negotiations and a loss of confidence in the international economic system. The global economic downturn is deeper than many early estimates, and the recovery is predicted to be gradual and varied. While some countries still experience positive, though much slower growth, the latest estimate of the United Nations indicates that world gross product will fall by 2.6 per cent in 2009, the first such decline since the Second World War. The crisis threatens to have calamitous human and development consequences. Millions of people all over the world are losing their jobs, their income, their savings and their homes. The World Bank estimates that more than 50 million people have already been driven into extreme poverty, particularly women and children. The Food and Agriculture Organization of the United Nations projects that the crisis will contribute to the number of hungry and undernourished people worldwide rising to a historic high of over one billion.

Impacts of the crisis

8. The crisis has produced or exacerbated serious, wide-ranging yet differentiated impacts across the globe. Since the crisis began, many States have reported negative impacts, which vary by country, region, level of development and severity, including the following:

- Rapid increases in unemployment, poverty and hunger
- Deceleration of growth, economic contraction
- Negative effects on trade balances and balance of payments
- Dwindling levels of foreign direct investment
- Large and volatile movements in exchange rates
- Growing budget deficits, falling tax revenues and reduction of fiscal space
- Contraction of world trade
- Increased volatility and falling prices for primary commodities
- Declining remittances to developing countries
- Sharply reduced revenues from tourism
- Massive reversal of private capital inflows
- Reduced access to credit and trade financing
- Reduced public confidence in financial institutions
- Reduced ability to maintain social safety nets and provide other social services, such as health and education
- Increased infant and maternal mortality
- Collapse of housing markets.

Causes of the crisis

9. The drivers of the financial and economic crisis are complex and multifaceted. We recognize that many of the main causes of the crisis are linked to systemic fragilities and imbalances that contributed to the inadequate functioning of the global economy. Major

underlying factors in the current situation included inconsistent and insufficiently coordinated macroeconomic policies and inadequate structural reforms, which led to unsustainable global macroeconomic outcomes. These factors were made acute by major failures in financial regulation, supervision and monitoring of the financial sector, and inadequate surveillance and early warning. These regulatory failures, compounded by over-reliance on market self-regulation, overall lack of transparency, financial integrity and irresponsible behaviour, have led to excessive risk-taking, unsustainably high asset prices, irresponsible leveraging and high levels of consumption fuelled by easy credit and inflated asset prices. Financial regulators, policymakers and institutions failed to appreciate the full measure of risks in the financial system or address the extent of the growing economic vulnerabilities and their cross-border linkages. Insufficient emphasis on equitable human development has contributed to significant inequalities among countries and peoples. Other weaknesses of a systemic nature also contributed to the unfolding crisis, which has demonstrated the need for more effective government involvement to ensure an appropriate balance between the market and public interest.

Response to the crisis

10. We are all in this crisis together. While each country has primary responsibility for its own economic and social development, we will continue to work in solidarity on a vigorous, coordinated and comprehensive global response to the crisis in accordance with our respective abilities and responsibilities. Developed countries and emerging markets have taken the lead in restoring global growth. An immediate priority has been to stabilize the financial markets and restore confidence in them and counter falling demand and the recession. Major actions have already been taken to maintain macroeconomic stability and strengthen the international financial system. At the same time, strong and urgent actions are needed to counter the impact of the crisis on the most vulnerable populations and help to restore strong growth and recover lost ground in their progress towards our internationally agreed development goals, including the Millennium Development Goals. Therefore, an adequate share of any additional resources – both short-term liquidity and long-term development financing – will need to be made available to developing countries, especially the least developed countries. Although this crisis continues to have a significant impact on the peoples of the world, we believe that it represents an important opportunity for meaningful change. Going forward, our response must focus on creating jobs, increasing prosperity, strengthening access to health and education, correcting imbalances, designing and implementing environmentally and socially sustainable development paths and having a strong gender perspective. It must also strengthen the foundation for a fair, inclusive and sustainable globalization supported by renewed multilateralism. We are confident that we will emerge from this crisis stronger and more vigorous and more united.

The need for prompt and decisive action

11. We commit to working in solidarity on a coordinated and comprehensive global response to the crisis and to undertaking actions aimed at, inter alia:

- Restoring confidence and economic growth, and creating full and productive employment and decent work for all
- Safeguarding economic, development and social gains
- Providing adequate support for developing countries to address the human and social impacts of the crisis, in order to safeguard and build upon hard-won economic and development gains to date, including the progress being achieved towards the implementation of the Millennium Development Goals
- Ensuring long-term debt sustainability of developing countries

- Seeking to provide sufficient development resources to developing countries without unwarranted conditionalities
- Rebuilding trust in the financial sector and restoring lending
- Promoting and revitalizing open trade and investment and rejecting protectionism
- Fostering an inclusive, green and sustainable recovery, and providing continued support for sustainable development efforts by developing countries
- Strengthening the role of the United Nations development system in responding to the economic crisis and its impact on development
- Reforming and strengthening the international financial and economic system and architecture, as appropriate, to adapt to current challenges
- Fostering good governance at all levels, including in the international financial institutions and financial markets
- Addressing the human and social impacts of the crisis.

Lines of action

Make the stimulus work for all

12. In attempting to combat the immediate impacts of the crisis, there have already been a number of responses at the national, regional and international levels. While acknowledging those efforts, we encourage greater cooperation and coordination among countries' fiscal and economic actions. Support for development is an essential and integral part of the solution to the global crisis, inter alia, through actions aimed at enhancing sustained economic growth, poverty eradication and sustainable development. We encourage countries, while implementing national stimulus measures, to avoid protectionism in any form and possible adverse impacts on third countries, particularly developing countries.

13. We encourage countries in a position to do so to utilize the room for fiscal stimulus that they possess, while also ensuring long-term fiscal sustainability. We also encourage individual countries to tailor their responses to their specific circumstances and use the available scope for domestic resource mobilization.

14. While a number of developed and emerging market economies have implemented stimulus packages, the majority of the world's developing countries lack fiscal space to implement countercyclical measures to combat the effects of the crisis and spur recovery. Many also face foreign-exchange shortages. In order to adequately respond to the crisis, developing countries will need a larger share of any additional resources – both short-term liquidity and long-term development financing. We call for an examination of mechanisms to ensure that adequate resources are provided to developing countries, especially the least developed countries. We underscore that developing countries should not be unduly financially burdened by the crisis and its impacts.

15. Developing countries facing an acute and severe shortage of foreign reserves because of the fallout of the crisis, which is negatively affecting their balance-of-payment situation, should not be denied the right to use legitimate trade defence measures in accordance with relevant provisions of the World Trade Organization (WTO), and, as a last resort, impose temporary capital restrictions and seek to negotiate agreements on temporary debt standstills between debtors and creditors, in order to help mitigate the adverse impacts of the crisis and stabilize macroeconomic developments.

16. We acknowledge the G20 summit held in London on 2 April 2009, and recognize its commitment to make available an additional $1.1 trillion programme aimed at revitalizing the world economy. A major part of these funds will be available for use by emerging markets and developing countries. A limited share ($50 billion) of these resources was targeted specifically to low-income countries. We call upon the G20 to further consider addressing the financial needs of developing countries, especially low-income countries. We also call upon all G20 countries to follow through with their commitments and to monitor the implementation of them. While recognizing the decisions taken by the G20, we are resolved to strengthen the role of the United Nations and its Member States in economic and financial affairs, including its coordinating role.

17. Countries must have the necessary flexibility to implement countercyclical measures and to pursue tailored and targeted responses to the crisis. We call for a streamlining of conditionalities to ensure that they are timely, tailored and targeted and support developing countries in the face of financial, economic and development challenges. In this context we note the recent improvement of the lending framework of the International Monetary Fund (IMF), through inter alia, modernizing conditionality, and the creation of more flexible instruments, such as a flexible credit line, as a welcome step. New and ongoing programmes should not contain unwarranted procyclical conditionalities. We call upon the multilateral development banks to move forward on flexible, concessional, fast-disbursing and front-loaded assistance designed to substantially and quickly assist developing countries facing financing gaps. While doing so, multilateral development banks need to assure the application of agreed safeguards to ensure their financial stability.

18. The increasing interdependence of national economies in a globalizing world and the emergence of rules-based regimes for international economic relations have meant that the space for national economic policy, that is, the scope for domestic policies, especially in the areas of trade, investment and international development, is now often framed by international disciplines and commitments and global market considerations. We recognize that these regimes, disciplines, commitments and considerations have presented challenges to many developing countries seeking to fashion a national response to the financial and economic crisis. We also recognize that many developing countries have called for opportunities to exercise greater policy flexibility within the scope of these constraints as a necessary component of recovery from the crisis and to address specific national concerns, which include, inter alia, the human and social impacts of the crisis, safeguarding progress achieved towards implementation of the Millennium Development Goals, effective use of credit and liquidity facilities, regulation of local financial markets, institutions, instruments and capital flows, and limited trade defence measures. It is for each Government to evaluate the trade-off between the benefits of accepting international rules and commitments and the constraints posed by the loss of policy space.

19. We recognize the continued importance of good governance along with national ownership of policies and strategies. We commit ourselves to the promotion of effective and efficient economic and financial institutions at all levels – key determinants of long-term economic growth and development. We also commit ourselves to accelerating our collective recovery from the crisis through improved transparency, eradication of corruption and strengthened governance. In this regard, we urge all States that have not done so to consider ratifying or acceding to the United Nations Convention against Corruption[1] and call upon all States parties to vigorously implement the Convention.

[1] United Nations, *Treaty Series*, vol. 2349, No. 42146.

20. The crisis has disparate impacts across regions, subregions and countries. These heterogeneous impacts have added complexity to our common goal of eradicating poverty, reducing inequality and promoting human development. Given the sensitivity of regional and subregional institutions to the specific needs of their constituencies, we note the value of regional and subregional cooperation efforts in meeting the challenges of the global economic crisis and we encourage enhanced regional and subregional cooperation, for example, through regional and subregional development banks, commercial and reserve currency arrangements, and other regional initiatives, as contributions to the multilateral response to the current crisis and to improved resilience to potential future crises.

Contain the effects of the crisis and improve future global resilience

21. This crisis does not affect only the economic and financial sectors. We recognize the human and social impacts of the crisis and the inherent challenges involved in addressing them. Short-term mitigation measures should take into account long-term goals, especially those related to poverty eradication; sustainable development, including environmental protection and clean and renewable energy; food security; gender equality; health; education; and sustained economic growth, including full and productive employment and decent work for all. Strengthening existing social safety nets, establishing new ones where needed and protecting social expenditures are important for the advancement of people-centred development and addressing the human and social impacts of the crisis. We reaffirm our commitment to the timely achievement of our internationally agreed development goals, including the Millennium Development Goals.

22. Closer cooperation and strong partnership between the United Nations development system, regional development banks and the World Bank and their scaled-up efforts can effectively address the needs of those hardest hit and ensure that their plight is not ignored. We call for the mobilization of additional resources for social protection, food security and human development through all sources of development finance, including voluntary bilateral contributions, to strengthen the foundation for early and sustained economic and social recovery in developing countries, particularly least developed countries. Such additional resources should be channelled through existing institutions such as the United Nations development system, the World Bank-proposed vulnerability fund and framework and multilateral development banks, where appropriate. These funds, including those for the United Nations development system, should be provided on a predictable basis. Furthermore, we stress the importance of the United Nations development system, given its broad field presence, in supporting the activities at the country level to mitigate the impact of the crisis in developing countries.

23. We commit ourselves to strengthening the ability of the United Nations to fulfil its development mandate. United Nations funds and programmes and United Nations agencies, in accordance with their respective mandates, have an important role to play in advancing development and in protecting development gains, in accordance with national strategies and priorities, including progress towards achieving the internationally agreed development goals, including the Millennium Development Goals, threatened by the current economic crisis. The United Nations should use the current economic situation as an opportunity to redouble its efforts to improve the efficiency and effectiveness of its development programmes in support of system-wide coherence. We recognize the unique role of the United Nations as an inclusive forum to promote a better understanding of the social and economic impact of the crisis and to fashion appropriate responses.

24. We acknowledge that the current economic crisis has the potential to increase the need for resources for humanitarian assistance in developing countries. We stress the need to take measures to ensure adequate resources for international cooperation in the provision of humanitarian assistance.

25. The crisis has severely impacted on international trade in most countries, especially developing countries. For many developing countries, these impacts include, among others, falling exports and loss of export revenue, diminishing access to trade finance, reductions in export-oriented and infrastructure investment, lower fiscal revenues and balance-of-payment problems. We undertake to resist all protectionist tendencies and rectify any protectionist measures already taken. At the same time we recognize the right of countries to fully utilize their flexibilities consistent with their WTO commitments and obligations. It is important that we contribute to the efforts of WTO and other relevant bodies to monitor and report on protectionist measures, including on how they affect developing countries.

26. We must also fully harness the potential of trade as an engine of sustained economic growth and development in our efforts to overcome this crisis. In this regard, we reaffirm our commitment to a universal, rules-based, open, non-discriminatory and equitable multilateral trading system. We reaffirm that international trade is an engine for development and sustained economic growth. We therefore reiterate our call for an early, ambitious, successful and balanced conclusion to the Doha Round that increases market access, generates increased trade flows and places the needs of developing countries at its centre. We welcome the commitment to implement duty-free and quota-free access for least developed countries, as agreed in the WTO Hong Kong Ministerial Declaration;[2] to make operationally effective the principle of special and differential treatment for developing countries; to the parallel elimination of all forms of export subsidies; to disciplines on all export measures with equivalent effect; to substantial reductions in trade-distorting domestic support, in accordance with the mandate of the Doha Round and the WTO Hong Kong Ministerial Declaration; and to meet existing aid-for-trade pledges. We also reaffirm the need to make progress on the implementation of the WTO work programme on small economies, mandated in the Doha Ministerial Declaration.[3]

27. Migrant workers are among the most vulnerable in the context of the current crisis. Remittances, which are significant private financial resources for households in countries of origin of migration, have been seriously affected by rising unemployment and weak earnings growth among migrant workers, particularly in advanced economies. We should resist unfair and discriminatory treatment of migrant workers and the imposition of unreasonable restrictions on labour migration in order to maximize the benefits of international migration, while complying with the relevant national legislation and applicable international instruments. We recognize the important contribution of migrant workers for both countries of origin and destination. We commit ourselves to allowing labour migration to meet labour market needs.

28. An effective response to the current economic crisis requires timely implementation of existing aid commitments. There is an urgent need for all donors to maintain and deliver on their existing bilateral and multilateral official development assistance (ODA) commitments and targets made, inter alia, in the United Nations Millennium Declaration,[4] the Monterrey Consensus[5] and the 2005 World Summit Outcome,[6] at the G8 summit in Gleneagles, in the Doha Declaration[7] and at the G20 London summit. We underline that

[7] See resolution 63/239, annex.

the fulfilment of all ODA commitments is crucial, including the commitments by many developed countries to achieve the target of 0.7 per cent of gross national product (GNP) for ODA to developing countries by 2015 and to reach the level of at least 0.5 per cent of GNP for ODA by 2010, as well as a target of 0.15 to 0.20 per cent of GNP for ODA to least developed countries. We recognize that many developed countries have established timetables to reach the level of at least 0.5 per cent for ODA by 2010. We encourage other donors to work on national timetables, by the end of 2010, to increase aid levels within their respective budget allocation processes towards achieving the established ODA targets. The full implementation of these commitments will substantially boost the resources available to push forward the international development agenda and to assist developing countries to mitigate and more effectively respond to the crisis in accordance with their national strategies. Donors should review and, if appropriate, increase or redirect their assistance to developing countries to enable them to mitigate and more effectively respond to the crisis in accordance with their national strategies.

29. We emphasize the importance for all development actors to continue to pursue economic and governance reforms and other steps to improve the effectiveness of aid based on the fundamental principles of national ownership, alignment, harmonization and managing for results.

30. We also encourage developing countries in a position to do so to continue to make concrete efforts to increase and make more effective their South-South cooperation initiatives, in accordance with the principles of aid effectiveness. We reiterate our support for South-South cooperation, as well as triangular cooperation, which provide much-needed additional resources for the implementation of development programmes.

31. New voluntary and innovative forms of financing can contribute to addressing our global problems. We encourage the scaling up of development finance from existing sources and the establishment, where appropriate, of new voluntary and innovative sources of financing initiatives to provide additional stable sources of development finance, which should supplement and not be a substitute for traditional sources of finance and should be disbursed in accordance with the priorities of developing countries and not unduly burden them. We reiterate our request to the Secretary-General to produce a progress report by the sixty-fourth session of the General Assembly, taking into account all existing initiatives.

32. The crisis must not delay the necessary global response to climate change and environmental degradation, taking into account the principle of common but differentiated responsibilities and respective capabilities. We acknowledge that the response to the crisis presents an opportunity to promote green economy initiatives. In this regard, we encourage the utilization of national stimulus packages, for those countries in a position to do so, to contribute to sustainable development, sustainable long-term growth, promotion of full and productive employment and decent work for all and poverty eradication. It is important that global green initiatives and proposals be inclusive and address sustainable development and environmental challenges and opportunities, including climate change mitigation and adaptation, financing and technology transfer to developing countries and sustainable forest management. We also encourage private-sector participation in these initiatives at the national level in accordance with national development strategies and priorities. We look forward to a successful outcome of the fifteenth session of the Conference of the Parties to the United Nations Framework Convention on Climate Change, to be held in Copenhagen in December 2009, as part of our overall efforts for a green recovery from the crisis.

33. The deepening crisis threatens to increase the debt and therefore threatens the debt sustainability of developing countries. This growing pressure limits the ability of these States to enact the appropriate fiscal measures to mitigate the impact of the crisis or engage

in development financing. We affirm that the appropriate measures must be taken to mitigate the negative effects of the crisis on the indebtedness of developing States and to avoid a new debt crisis. In that regard, we support making full use of the existing flexibility within the Debt Sustainability Framework.

34. We call upon States to redouble efforts to honour their commitments regarding debt relief and stress the responsibility of all debtors and creditors on the issue of debt sustainability, and emphasize the importance of equivalent treatment of all creditors. Donors and multilateral financial institutions should also increasingly consider providing grants and concessional loans as the preferred modalities of their financial support instruments to ensure debt sustainability. We will also explore enhanced approaches to the restructuring of sovereign debt based on existing frameworks and principles, broad creditors' and debtors' participation and comparable burden-sharing among creditors. We will also explore the need and feasibility of a more structured framework for international cooperation in this area.

35. We recognize that increases in global liquidity play a useful role in overcoming the financial crisis. Therefore, we strongly support and call for early implementation of the new general special drawing right (SDR) allocation of $250 billion. We also call for the urgent ratification of the fourth amendment to the IMF Articles of Agreement for a special one-time allocation of SDRs, as approved by the IMF Board of Governors in September 1997. We recognize the need for keeping under review the allocation of SDRs for development purposes. We also recognize the potential of expanded SDRs to help increase global liquidity in response to the urgent financial shortfalls caused by this crisis and to help prevent future crises. This potential should be further studied.

36. The crisis has intensified calls by some States for reform of the current global reserve system to overcome its insufficiencies. We acknowledge the calls by many States for further study of the feasibility and advisability of a more efficient reserve system, including the possible function of SDRs in any such system and the complementary roles that could be played by various regional arrangements. We also acknowledge the importance of seeking consensus on the parameters of such a study and its implementation. We recognize the existence of new and existing regional and subregional economic and financial cooperation initiatives to address, inter alia, the liquidity shortfalls and the short-term balance-of-payment difficulties among its members.

Improved regulation and monitoring

37. The current crisis has revealed many deficiencies in national and international financial regulation and supervision. We recognize the critical need for expanding the scope of regulation and supervision and making it more effective, with respect to all major financial centres, instruments and actors, including financial institutions, credit rating agencies and hedge funds. The need for tighter and more coordinated regulation of incentives, derivatives and the trading of standardized contracts is also apparent. We reject the imposition of needlessly onerous regulatory requirements, and call for effective, credible and enforceable regulations at all levels to ensure the needed transparency and oversight of the financial system. Every relevant institution must be subject to adequate and proportionate surveillance and regulation. We underscore that each country should adequately regulate its financial markets, institutions and instruments consistent with its development priorities and circumstances, as well as its international commitments and obligations. We underscore the importance of political commitment and of capacity-building to ensure that the measures taken are fully implemented.

38. We emphasize the need to ensure that all tax jurisdictions and financial centres comply with standards of transparency and regulation. We reiterate the need to further promote international cooperation in tax matters, including within the United Nations,

inter alia, by promoting double taxation agreements. Inclusive and cooperative frameworks should ensure the involvement and equal treatment of all jurisdictions. We call for consistent and non-discriminatory implementation of transparency requirements and international standards for exchange of information.

39. Illicit financial flows are estimated to amount to several times global ODA and have a harmful effect on development financing. Measures to enhance regulation and supervision of and transparency in the formal and informal financial system should include steps to curb illicit financial flows in all countries. Improving the transparency of the global financial system also deters illicit financial flows, including to international financial centres, and enhances the ability to detect illicit activities.

40. The current crisis has been compounded by an initial failure to appreciate the full scope of the risks accumulating in the financial markets and their potential to destabilize the international financial system and the global economy. We recognize the need for even-handed and effective IMF surveillance of major financial centres, international capital flows and financial markets. In this context, we welcome the improvement of early warning systems by the relevant international institutions to provide early warning of macroeconomic and financial risks and the actions needed to address them.

41. The ongoing crisis has highlighted the extent to which our economies are integrated, the indivisibility of our collective well-being and the unsustainability of a narrow focus on short-term gains. We reaffirm the principles of sustainable development and underscore the need for a global consensus on the key values and principles that will promote sustainable, fair and equitable economic development. We believe that corporate social and environmental responsibility are important elements of such a consensus. In this regard we recognize the importance of the 10 principles of the United Nations Global Compact.

Reform of the international financial and economic system and architecture

42. This crisis has added new impetus to ongoing international discussions on the reform of the international financial system and architecture, including issues related to mandate, scope, governance, responsiveness and development orientation as appropriate. There is consensus on the need for continued reform and modernization of the international financial institutions to better enable them to respond to the current financial and economic challenges and to the needs of Member States, and to better equip them to strengthen existing monitoring, surveillance, technical assistance and coordination roles to help prevent the occurrence of similar crises in the future, in accordance with their respective mandates.

43. We stress the urgent need for further reform of the governance of the Bretton Woods institutions, on the basis of a fair and equitable representation of developing countries, in order to increase the credibility and accountability of these institutions. These reforms must reflect current realities and should enhance the perspective and voice and participation of dynamic emerging markets and developing countries, including the poorest.

44. We call for an expeditious completion of the reform process of the World Bank's governance and of an accelerated road map for further reforms on voice and participation of developing countries, with a view to reaching agreement by April 2010, based on an approach that reflects its development mandate and with the involvement of all shareholders in a transparent, consultative and inclusive process. We also call for inclusive consultations on further reforms to improve the responsiveness and adaptability of the World Bank.

45. It is imperative that the reformed World Bank emerge with the requisite technical capacities, credit facilities and financial resources needed to assist and complement the efforts of developing countries aimed at achieving their overall development needs.

46. We recognize the importance of strengthening regional development banks, taking into account the interests of all their member countries. It is also important for them to provide medium- and long-term assistance to meet the development needs of their clients. We support measures to enhance the financial and lending capacity of regional development banks. Furthermore, we recognize the importance of other regional, interregional and subregional initiatives and arrangements aimed at promoting development, cooperation and solidarity among their members.

47. We recognize that it is imperative to undertake, as a matter of priority, a comprehensive and fast-tracked reform of IMF. We look forward to this accelerated progress in order to increase its credibility and accountability. We acknowledge the agreement to accelerate the implementation of the package of IMF quota and voice reforms agreed in April 2008. We strongly support completion of the next quota review, which, based on current trends, is expected to result in an increase in the quota shares of dynamic economies, particularly in the share of emerging market and developing countries as a whole, to be completed no later than January 2011, thus enhancing the legitimacy and effectiveness of the Fund.

48. We reaffirm the need to address the often expressed concern at the extent of representation of developing countries in the major standard-setting bodies. We therefore welcome, as a step in the right direction, the expansion of the membership in the Financial Stability Board and the Basel Committee on Banking Supervision and encourage the major standard-setting bodies to further review their membership promptly while enhancing their effectiveness, with a view to enhancing the representation of developing countries as appropriate.

49. We agree that the heads and senior leadership of the international financial institutions, particularly the Bretton Woods institutions, should be appointed through open, transparent and merit-based selection processes, with due regard to gender equality and geographical and regional representation.

50. The United Nations and the international financial institutions have complementary mandates that make the coordination of their actions crucial. Accordingly, we encourage continued and increasing cooperation, coordination and coherence and exchanges between the United Nations and the international financial institutions. In this regard, we believe that this Conference represents an important step to ensure increased cooperation.

The way forward

51. We have come together to raise our collective understanding of the impacts of the crisis and to contribute in the fashioning of the global response, in an inclusive manner, with actions at the national, regional and international levels.

52. We will strive to combine our short-term responses to meet the immediate impact of the financial and economic crisis, particularly on the most vulnerable countries, with medium- and long-term responses that necessarily involve the pursuit of development and the review of the global economic system. In this context, we propose the following course of action:

(*a*) Strengthen the capacity, effectiveness and efficiency of the United Nations; enhance the coherence and coordination of policies and actions between the United Nations, international financial institutions and relevant regional organizations;

(*b*) Further develop the United Nations development system's comprehensive crisis response in support of national development strategies through a coordinated approach by United Nations funds and programmes, specialized agencies and the international financial institutions at the country level. The response must continue to be led by programme countries and, in this context, address vulnerabilities caused or exacerbated by the crisis and further strengthen national ownership. It should build on steps already taken by the United Nations development system, in particular at the country level. We urge the international community to ensure adequate support to the United Nations development system's crisis response;

(*c*) Explore ways to strengthen international cooperation in the area of international migration and development, in order to address the challenges of the current economic and financial crisis on migration and migrants, taking into account the related work and activities of the United Nations funds and programmes, regional commissions and specialized agencies and of other international organizations, such as the International Organization for Migration.

53. We request the General Assembly and the Economic and Social Council, as well as the United Nations funds and programmes and specialized agencies, to take full advantage of their advocacy role to promote the recovery and development of the developing countries, especially the most vulnerable among them.

54. We invite the General Assembly to establish an ad hoc open-ended working group of the General Assembly to follow up on the issues contained in the present outcome document, and to submit a report on the progress of its work to the General Assembly before the end of the sixty-fourth session.

55. We encourage the President of the General Assembly to make the world financial and economic crisis and its impact on development a main theme of the general debate of the sixty-fourth session of the General Assembly.

56. We request the Economic and Social Council:

(*a*) To consider the promotion and enhancement of a coordinated response of the United Nations development system and specialized agencies in the follow-up to and implementation of this outcome document, in order to advance consistency and coherence in support of consensus-building around policies related to the world financial and economic crisis and its impact on development;

(*b*) To make recommendations to the General Assembly, in accordance with the Doha Declaration of 2 December 2008, for a strengthened and more effective and inclusive intergovernmental process to carry out the financing for development follow-up;

(*c*) Examine the strengthening of institutional arrangements to promote international cooperation in tax matters, including the United Nations Committee of Experts on International Cooperation in Tax Matters;

(*d*) Review the implementation of the agreements between the United Nations and the Bretton Woods institutions in collaboration with these institutions, focusing in particular on enhancing collaboration and cooperation between the United Nations and the Bretton Woods institutions, as well as on the opportunities for contributing to advancing their respective mandates;

(*e*) Consider and make recommendations to the General Assembly regarding the possible establishment of an ad hoc panel of experts on the world economic and financial crisis and its impact on development. The panel could provide independent technical expertise and analysis, which would contribute to informing international action and political decision-making and fostering constructive dialogues and exchanges among policymakers, academics, institutions and civil society.

57. We request the Secretary-General to report to the Economic and Social Council on a regular basis on the work of the High-level Task Force on the Global Food Security Crisis.

58. We invite the International Labour Organization to present the "Global Jobs Pact", adopted at the ninety-eighth session of the International Labour Conference, to the substantive session of the Economic and Social Council in July 2009, which intends to promote a job-intensive recovery from the crisis, drawing on the decent work agenda, and to shape a pattern for sustainable growth.

59. We encourage the Inter-Parliamentary Union to continue to contribute to the development of global responses to the crisis.

E/5715/Rev.2

Rules of Procedure of the Economic and Social Council

United Nations · New York, 1992

United Nations publication

Sales No.E.92.I.22

CONTENTS

RULES OF PROCEDURE

* The annex provides the relevant references with regard to the rules of procedure including the decisions by which they were adopted.

RULES OF PROCEDURE

I. SESSIONS

ORGANIZATIONAL AND SUBSTANTIVE SESSIONS

Rule 1

The Council shall normally hold an organizational session and one substantive session a year.

DATES OF CONVENING AND ADJOURNMENT

Rule 2

Subject to rule 3, and following a meeting early in the year for the purpose of electing the President and the Bureau, the organizational session shall be convened on the first Tuesday in February and resumed at the end of April. The substantive session shall take place between May and July and shall be adjourned at least six weeks before the opening of the regular session of the General Assembly.

Rule 3

Any member of the Council or the Secretary-General may request an alteration of the date of the substantive session. The President shall, through the Secretary-General, forthwith communicate the request to all members of the Council, together with such observation as the Secretary-General may present. If a majority of the members of the Council concurs in the request within eight days of the communication, the Council shall be convened accordingly.

SPECIAL SESSIONS

Rule 4

1. Special sessions of the Council shall be held:

(a) By decision of the Council;

(b) Upon the request or with the concurrence of a majority of the members of the Council;

(c) Upon the request of the General Assembly or the Security Council.

2. The President, with the concurrence of the Vice-Presidents and, as appropriate, in consultation with members of the Council, may also call a special session of the Council.

3. Should a request for a special session be made by the Trusteeship Council, by any Member of the United Nations or by a specialized agency, 1/ the President shall, through the Secretary-General, forthwith communicate the request to all members of the Council. Unless the President and the Vice-Presidents, as appropriate in consultation with members of the Council, have agreed to the request within four days of its receipt, the President shall, through the Secretary-General, inquire of all members of the Council whether or not they concur in the request; the replies to such an inquiry shall be communicated to the Secretary-General within eight days. If a majority of the members concurs in the request, the Council shall be convened accordingly.

4. Unless otherwise indicated in a decision or by a majority of the members of the Council, special sessions shall be convened within six weeks of a

---

1/ When the term "specialized agency" is used in these rules, it refers to specialized agencies brought into relationship with the United Nations; it also includes the International Atomic Energy Agency.

decision to hold such a session or of receipt by the President of a request for such a session, at a date fixed by the President.

PLACE OF SESSIONS

Rule 5

Sessions shall be held at the Headquarters of the United Nations unless, in pursuance of a previous decision of the Council or at the request of a majority of its members, another place is designated for the whole or part of a session.

NOTIFICATION OF OPENING DATE OF SESSIONS

Rule 6

The President shall, through the Secretary-General, notify the Members of the United Nations, the President of the Security Council, the President of the Trusteeship Council, the specialized agencies, the intergovernmental organizations referred to in rule 79 and the non-governmental organizations in category I or II or on the Roster of the date of the opening of each session. Such notification shall be sent at least six weeks in advance of the organizational session or the substantive session and at least twelve days in advance of a special session. If a special session is requested by the General Assembly or the Security Council, the President may reduce the period of notice to not less than eight days.

ADJOURNMENT OF SESSIONS

Rule 7

The Council may decide at any session to adjourn temporarily and resume its meetings at a later date.

II. AGENDA

BASIC PROGRAMME OF WORK

Rule 8

In the course of the organizational session the Council shall draw up, with the assistance of the Secretary-General, the basic programme of its work for the year.

DRAWING UP OF THE PROVISIONAL AGENDA

Rule 9

1. The Secretary-General shall draw up the provisional agenda for each session of the Council. He shall submit to the Council:

(a) The provisional agenda for the organizational session at least three weeks in advance of the opening of that session;

(b) The provisional agenda for the substantive session at the organizational session.

2. The provisional agenda shall include all items required by these rules and by the basic programme of work, or proposed by:

(a) The Council;

(b) The General Assembly;

(c) The Security Council;

(d) The Trusteeship Council;

(e) A Member of the United Nations;

(f) The Secretary-General;

(g) A specialized agency, subject to rule 76.

3. A non-governmental organization in category I may request that the Committee on

Non-Governmental Organizations recommend that items of special interest to the organization be included in the provisional agenda of the Council. In considering the request the Committee shall take into account:

(*a*) The adequacy of the documentation submitted by the organization;

(*b*) The extent to which the item may lend itself to early and constructive action by the Council;

(*c*) The possibility that the item might more appropriately be dealt with elsewhere than in the Council.

Any decision by the Committee not to grant a request submitted by a non-governmental organization to recommend that an item be placed on the provisional agenda of the Council shall be considered as final.

4. The agenda for the organizational session shall include the consideration of the provisional agenda for the substantive session of the Council.

5. Agenda items shall be arranged in an integrated manner, so that similar or connected issues can be discussed in one debate and under a single heading.

COMMUNICATION OF THE PROVISIONAL AGENDA

Rule 10

After the Council has considered the provisional agenda for the substantive session as provided in paragraph 4 of rule 9, that agenda, incorporating any amendments made by the Council, shall be communicated by the Secretary-General to the Members of the United Nations, the President of the Security Council, the President of the Trusteeship Council, the specialized agencies, the intergovernmental organizations referred to in rule 79 and the non-governmental organizations in category I or II or on the Roster.

PROVISIONAL AGENDA FOR A SPECIAL SESSION

Rule 11

The provisional agenda for a special session shall consist only of those items proposed for consideration in the request for the holding of the session, subject, when appropriate, to rule 18. It shall be transmitted to the authorities listed in rule 10 at the same time as the notice convening the Council.

SUPPLEMENTARY ITEMS

Rule 12

1. The inclusion of supplementary items in a provisional agenda that has been considered by the Council under paragraph 4 of rule 9 may be proposed by the General Assembly, the Security Council, the Trusteeship Council, a Member of the United Nations, the Secretary-General or, subject to rule 76, a specialized agency, or by the Committee on Non-Governmental Organizations in accordance with the procedure provided in paragraph 3 of rule 9. The proposal shall, except if made by the General Assembly, the Security Council or the Trusteeship Council, be accompanied by a supporting statement from the authority initiating it, indicating the urgency of the consideration of the item and the reasons that precluded its submission before the consideration of the provisional agenda by the Council.

2. The supplementary items shall be placed by the Secretary-General on a supplementary list and communicated to the Council together with the supporting statements and such observations as the Secretary-General may wish to offer.

ADOPTION OF THE AGENDA

Rule 13

1. The Council shall at the beginning of each session, after the election of the Bureau when required under rule 18, adopt the agenda for that session on the basis of the provisional agenda and the supplementary list referred to in rule 12.

2. An organ of the United Nations, a Member of the United Nations or a specialized agency that has proposed the inclusion of an item in the provisional agenda or the supplementary list shall be entitled to be heard by the Council, or by the appropriate sessional committee designated by the Council, on the inclusion of the item in the agenda.

3. In the case of an item placed on the provisional agenda or on the supplementary list at the request of the Committee on Non-Governmental Organizations under paragraph 3 of rule 9 or under paragraph 1 of rule 12, the non-governmental organization that proposed the item to the Committee shall be entitled to be heard by the Council, or by the appropriate sessional committee designated by the Council, on the inclusion of the item in the agenda.

4. Unless the Council decides otherwise, if the documentation relating to an item of the agenda has not been circulated, in all working languages, six weeks before the opening of a regular session, the item shall be postponed to the following session, except in the case of reports of subsidiary and other bodies on meetings that have been concluded twelve weeks or less before the opening of the session of the Council.

ALLOCATION OF ITEMS

Rule 14

The Council shall allocate items between the plenary meetings and its sessional committees, and may refer items without preliminary debate:

(a) To a specialized agency, another organization or programme of the United Nations system, one or more of its commissions or standing committees, or the Secretary-General, for study and report to the Council at a subsequent session;

(b) To the proposer of the item, for further information or documentation.

REVISION OF THE AGENDA

Rule 15

During a session, the Council may revise the agenda by adding, deleting, deferring or amending items. Only important and urgent items shall be added to the agenda during a session. The Council may refer to a committee any request to add an item to the agenda.

III. REPRESENTATION, CREDENTIALS

REPRESENTATIVES, ALTERNATES AND ADVISERS

Rule 16

Each member of the Council shall be represented by an accredited representative, who may be accompanied by such alternate representatives and advisers as may be required.

CREDENTIALS

Rule 17

The credentials of representatives and the names of alternate representatives and advisers shall be submitted to the Secretary-General not less than three days before the first meeting they are to attend. The Bureau shall examine the credentials and submit a report thereon to the Council.

IV. BUREAU

ELECTION AND SPECIAL RESPONSIBILITIES

Rule 18

1. Each year, at the commencement of its first meeting, the Council shall elect a President and four Vice-Presidents 2/ from among the representatives of its members. The President and the Vice-Presidents shall constitute the Bureau.

2. The Council, upon the recommendation of the President, shall decide on the special responsibilities of each of the Vice-Presidents.

TERM OF OFFICE

Rule 19

The President and the Vice-Presidents shall, subject to rule 22, hold office until their successors are elected. They shall be eligible for re-election.

ACTING PRESIDENT

Rule 20

1. If the President finds it necessary to be absent during a meeting or any part thereof, he shall designate one of the Vice-Presidents to take his place.

2/ In the election of the President of the Council, regard shall be had for the equitable geographical rotation of this office among the following regional groups: African States, Asian States, Eastern European States, Latin American and Caribbean States, and Western European and other States. The four Vice-Presidents of the Council shall be elected on the basis of equitable geographical distribution from the regional groups other than the one to which the President belongs.

2. If the President ceases to hold office pursuant to rule 22, the remaining members of the Bureau shall designate one of the Vice-Presidents to take his place until the election of a new President.

POWERS OF THE ACTING PRESIDENT

Rule 21

A Vice-President acting as President shall have the powers and duties of the President.

REPLACEMENT OF THE PRESIDENT OR
A VICE-PRESIDENT

Rule 22

If the President or any Vice-President ceases to be able to carry out his functions or ceases to be a representative of a member of the Council, or if the Member of the United Nations of which he is a representative ceases to be a member of the Council, he shall cease to hold such office and a new President or Vice-President shall be elected for the unexpired term.

VOTING RIGHTS OF THE PRESIDENT

Rule 23

The President, or a Vice-President acting as President, may delegate his right to vote to another member of his delegation.

V. SESSIONAL BODIES AND SUBSIDIARY ORGANS

ESTABLISHMENT

Rule 24

1. The Council may establish and define the composition and the terms of reference of:

(a) Functional commissions and regional commissions;

(b) Sessional committees of the whole and other sessional bodies;

(c) Standing and ad hoc committees.

2. Except for the regional commissions, the commissions and committees of the Council shall not create either standing or ad hoc intersessional subsidiary bodies without prior approval of the Council.

MEMBERSHIP

Rule 25

Unless the Council decides otherwise, the members of any body or organ of limited membership, other than those subsidiary to a regional commission, shall be elected by the Council.

OFFICERS

Rule 26

1. The Chairman of a sessional committee of the whole shall be one of the Vice-Presidents, designated by the Council upon the recommendation of the President. Each sessional committee of the whole shall elect two Vice-Chairmen.

2. Unless the Council decides otherwise, all other bodies and organs shall elect their own officers.

RULES OF PROCEDURE

Rule 27

1. The rules of procedure contained in chapters VI and VIII to XII shall apply to the proceedings of the committees and sessional bodies of the Council and their subsidiary bodies, unless provided otherwise.

2. The rules of procedure of the commissions and their subsidiary bodies shall be drawn up by the Council, unless it decides otherwise.

VI. SECRETARIAT

DUTIES OF THE SECRETARY-GENERAL

Rule 28

1. The Secretary-General shall act in that capacity in all meetings of the Council. He may designate a member of the Secretariat to act as his representative.

2. He shall provide and direct the staff required by the Council and be responsible for all the arrangements that may be necessary for its meetings.

3. He shall keep the members of the Council informed of any questions that may be brought before it for consideration.

DUTIES OF THE SECRETARIAT

Rule 29

The Secretariat shall:

(a) Interpret speeches made at meetings;

(b) Receive, translate and circulate documents;

(c) Print, publish and circulate the records of the sessions, the resolutions of the Council and the required documentation;

(d) Have custody of the documents in the archives;

(e) Generally perform all other work that may be required.

STATEMENTS BY THE SECRETARIAT

Rule 30

The Secretary-General, or his representative, may, subject to rule 44, make oral as well as written statements to the Council concerning any question under consideration.

ESTIMATES OF EXPENDITURE

Rule 31

1. The Secretary-General shall circulate to the Council for its consideration every odd-numbered year a draft four-year medium-term plan and biennial programme budget covering activities in the economic, social and human rights fields, prepared on the basis of programme objectives approved and priorities established by the Council and other competent bodies.

2. Programme budget proposals recommended by a committee or commission of the Council for its approval must be stated in terms of the objectives to be achieved. The Secretary-General shall have an opportunity to determine the most effective and economical means of implementing those proposals and make appropriate recommendations to the Council thereon.

3. Before a proposal involving the expenditure of United Nations funds is approved by the Council, the Secretary-General shall prepare and provide to the Council an estimate of the programme budget implications of implementing the proposal. The President shall draw attention to that estimate and invite discussion on it when the proposal is considered by the Council. In accordance with the proposal approved by the Council, the Secretary-General shall make appropriate recommendations in the biennial programme budget and medium-term plan he subsequently presents to the General Assembly.

4. In cases of exceptional urgency, the Council may request the Secretary-General to implement a new programme decision, as a matter of priority, during the current biennium. Such a new programme shall be implemented either within the current programme budget or by additional appropriations to be approved by the General Assembly in accordance with the Financial Regulations and Rules of the United Nations.

VII. LANGUAGES

OFFICIAL AND WORKING LANGUAGES

Rule 32

Arabic, Chinese, English, French, Russian and Spanish shall be the official languages and English, French and Spanish the working languages of the Council.

INTERPRETATION

Rule 33

1. Speeches made in an official language shall be interpreted into the other official languages.

2. A speaker may make a speech in a language other than an official language if he provides for interpretation into one of the official languages. Interpretation into the other official languages by the interpreters of the Secretariat may be based on the interpretation given in the first such language.

LANGUAGES OF RECORDS

Rule 34

Records shall be drawn up in the working languages. A translation of the whole or part of any record into either of the other official languages shall be furnished if requested by a representative.

LANGUAGES OF RESOLUTIONS AND OTHER FORMAL DECISIONS

Rule 35

All resolutions and other formal decisions of the Council shall be published in the official languages. 3/

VIII. PUBLIC AND PRIVATE MEETINGS

GENERAL PRINCIPLES

Rule 36

The meetings of the Council shall be held in public unless it decides otherwise.

IX. RECORDS

SOUND RECORDINGS OF MEETINGS

Rule 37

Sound recordings of the meetings of the Council and of its sessional committees of the whole shall be made and kept by the Secretariat. Such recordings may also be made and kept of the meetings of other subsidiary organs if so decided by the Council.

RECORDS OF PUBLIC MEETINGS

Rule 38

1. Summary records of public meetings of the Council, and its subsidiary organs where authorized, shall be prepared by the Secretariat in the working languages of the Council. They shall be distributed

---

3/ Such resolutions and decisions shall also be published in other languages as may be provided by the General Assembly.

in provisional form as soon as possible to all members of the Council or of the organ concerned, and to any other participants in the meeting, who may, within three working days of their receipt, submit corrections to the Secretariat; at the end of sessions and in other special circumstances, the presiding officer may, in consultation with the Secretary-General, extend the time for submitting corrections. Any disagreement concerning such corrections shall be decided by the presiding officer of the body to which the record relates, after consulting, where necessary, the sound recordings of the proceedings. Separate corrigenda to provisional records shall not normally be issued.

2. The summary records, with any corrections incorporated, shall be distributed promptly to the Members of the United Nations and to the specialized agencies. On publication, these records may be consulted by the public.

3. Neither verbatim nor summary records shall be provided for newly established subsidiary organs of the Council unless they have been specifically authorized by the Council.

RECORDS OF PRIVATE MEETINGS

Rule 39

The records of private meetings of the Council shall be distributed promptly to all members of the Council and to any other participants in these meetings. They shall be made available to other Members of the United Nations upon decision of the Council. They may be made public at such time and under such conditions as the Council may decide.

RESOLUTIONS AND OTHER FORMAL DECISIONS

Rule 40

As soon as possible, the text of the resolutions and other formal decisions adopted by the Council shall be distributed to all members of the Council and to any other participants in the session. The printed text of such resolutions and other formal decisions shall be distributed as soon as possible after the close of the session to the Members of the United Nations, to the specialized agencies and to the intergovernmental organizations referred to in rule 79.

X. CONDUCT OF BUSINESS

QUORUM

Rule 41

The President may declare a meeting open and permit the debate to proceed when representatives of at least one third of the members of the Council are present. The presence of representatives of a majority of the members of the body concerned shall be required for any decision to be taken.

GENERAL POWERS OF THE PRESIDENT

Rule 42

1. In addition to exercising the powers conferred upon him elsewhere by these rules, the President shall declare the opening and closing of each plenary meeting of the Council, direct the discussions, ensure observance of these rules, accord the right to speak, put questions to the vote and announce decisions. The President, subject to these rules, shall have complete control of the proceedings of the Council and over the maintenance of order at its meetings. He shall rule on points of order. He may propose to the Council the closure of the list of speakers, a limitation on the time to be allowed to speakers and on the number of times the representative of each member may speak on an item, the adjournment or closure of the debate, and the suspension or adjournment of a meeting.

2. The President, in the exercise of his functions, remains under the authority of the Council.

POINTS OF ORDER

Rule 43

1. During the discussion of any matter, a representative may at any time raise a point of order, which shall be decided immediately by the President in accordance with these rules. A representative may appeal against the ruling of the President. The appeal shall be immediately put to the vote, and the ruling of the President shall stand unless overruled by a majority of the members present and voting.

2. A representative may not, in raising a point of order, speak on the substance of the matter under discussion.

SPEECHES

Rule 44

1. No one may address the Council without having previously obtained the permission of the President. Subject to rules 43, 46 and 49 to 51, the President shall call upon speakers in the order in which they signify their desire to speak.

2. Debate shall be confined to the question before the Council, and the President may call a speaker to order if his remarks are not relevant to the subject under discussion.

3. The Council may limit the time allowed to speakers and the number of times the representative of each member may speak on any question; permission to speak on a motion to set such limits shall be accorded only to two representatives favouring and to two opposing such limits, after which the motion shall be put to the vote immediately. Interventions on procedural questions shall not exceed five minutes unless the Council decides otherwise. When debate is limited and a speaker exceeds the allotted time, the President shall call him to order without delay.

CLOSING OF LIST OF SPEAKERS

Rule 45

During the course of a debate the President may announce the list of speakers and, with the consent of the Council, declare the list closed. When there are no more speakers, the President shall, with the consent of the Council, declare the debate closed. Such closure shall have the same effect as closure by decision of the Council.

RIGHT OF REPLY

Rule 46

The right of reply shall be accorded by the President to any member who requests it. Representatives should attempt, in exercising this right, to be as brief as possible and preferably to deliver their statements at the end of the meeting at which this right is requested.

CONGRATULATIONS

Rule 47

Congratulations to the newly elected members of the Bureau shall be expressed only by the outgoing President or a member of his delegation, or by a representative designated by the outgoing President.

CONDOLENCES

Rule 48

Condolences shall be expressed solely by the President on behalf of all members. The President, with the agreement of the Council, may dispatch a message on behalf of all members of the Council.

SUSPENSION OR ADJOURNMENT OF THE MEETING

Rule 49

During the discussion of any matter, a representative may at any time move the suspension or the adjournment of the meeting. No discussion on such motions shall be permitted, and they shall be put to the vote immediately.

ADJOURNMENT OF DEBATE

Rule 50

A representative may at any time move the adjournment of the debate on the item under discussion. Permission to speak on the motion shall be accorded only to two representatives favouring and to two opposing the adjournment, after which the motion shall be put to the vote immediately.

CLOSURE OF DEBATE

Rule 51

A representative may at any time move the closure of the debate on the item under discussion, whether or not any other representative has signified his wish to speak. Permission to speak on the motion shall be accorded only to two representatives opposing the closure, after which the motion shall be put to the vote immediately.

ORDER OF MOTIONS

Rule 52

Subject to rule 43, the motions indicated below shall have precedence in the following order over all proposals or other motions before the meeting:

(a) To suspend the meeting;

(b) To adjourn the meeting;

(c) To adjourn the debate on the item under discussion;

(d) To close the debate on the item under discussion.

DISCUSSION OF REPORTS OF SESSIONAL COMMITTEES OF THE WHOLE

Rule 53

Discussion of a report of a sessional committee of the whole in a plenary meeting of the Council shall take place if at least one third of the members present and voting at the plenary meeting consider such discussion to be necessary. A motion to this effect shall not be discussed but shall be put to the vote immediately.

SUBMISSION OF PROPOSALS AND SUBSTANTIVE AMENDMENTS

Rule 54

Proposals and substantive amendments shall normally be submitted in writing to the Secretary-General who shall circulate copies to the members of the Council in all the official languages. Unless the Council decides otherwise, proposals and substantive amendments shall be discussed or put to the vote no earlier than twenty-four hours after copies have been circulated to all members.

WITHDRAWAL OF PROPOSALS AND MOTIONS

Rule 55

A proposal or a motion may be withdrawn by its sponsor at any time before voting on it has commenced, provided that it has not been amended. A proposal or a motion thus withdrawn may be reintroduced by any representative.

DECISIONS ON COMPETENCE

Rule 56

A motion calling for a decision on the competence of the Council to adopt a proposal submitted to it shall be put to the vote before a vote is taken on the proposal in question.

RECONSIDERATION OF PROPOSALS

Rule 57

When a proposal has been adopted or rejected, it may not be reconsidered at the same session unless the Council so decides. Permission to speak on a motion to reconsider shall be accorded only to two representatives opposing the motion, after which it shall be put to the vote immediately.

XI. VOTING AND ELECTIONS

VOTING RIGHTS

Rule 58

Each member of the Council shall have one vote.

REQUEST FOR A VOTE

Rule 59

A proposal or motion before the Council for decision shall be voted upon if any member so requests. Where no member requests a vote, the Council may adopt proposals or motions without a vote.

MAJORITY REQUIRED

Rule 60

1. Decisions of the Council shall be made by a majority of the members present and voting.

2. For the purpose of these rules, the phrase "members present and voting" means members casting an affirmative or negative vote. Members which abstain from voting are considered as not voting.

METHOD OF VOTING

Rule 61

1. Except as provided in rule 68, the Council shall normally vote by show of hands, except that a representative may request a roll-call, which shall then be taken in the English alphabetical order of the names of the members, beginning with the member whose name is drawn by lot by the President. The name of each member shall be called in all roll-calls, and its representative shall reply "yes", "no" or "abstention".

2. When the Council votes by mechanical means, a non-recorded vote shall replace a vote by show of hands and a recorded vote shall replace a roll-call. A representative may request a recorded vote. In the case of a recorded vote, the Council shall, unless a representative requests otherwise, dispense with the procedure of calling out the names of the members.

3. The vote of each member participating in a roll-call or a recorded vote shall be inserted in the record.

EXPLANATION OF VOTE

Rule 62

Representatives may make brief statements consisting solely of explanation of their votes, before the voting has commenced or after the voting has been completed. The representative of a member sponsoring a proposal or motion shall not speak in explanation of vote thereon, except if it has been amended.

CONDUCT DURING VOTING

Rule 63

After the President has announced the commencement of voting, no representative may interrupt the voting except on a point of order in connection with the actual process of voting.

DIVISION OF PROPOSALS AND AMENDMENTS

Rule 64

Parts of a proposal or an amendment shall be voted on separately if a representative requests that the proposal be divided. Those parts of the proposal or the amendment which have been approved shall then be put to the vote as a whole; if all the operative parts of a proposal or an amendment have been rejected, the proposal or amendment shall be considered to have been rejected as a whole.

AMENDMENTS

Rule 65

An amendment is a proposal that does no more than add to, delete from or revise part of another proposal.

ORDER OF VOTING ON AMENDMENTS

Rule 66

When an amendment is moved to a proposal, the amendment shall be voted on first. When two or more amendments are moved to a proposal, the amendment furthest removed in substance from the original proposal shall be voted on first and then the amendment next furthest removed therefrom, and so on until all the amendments have been put to the vote. Where, however, the adoption of one amendment necessarily implies the rejection of another amendment, the latter shall not be put to the vote. If one or more amendments are adopted, the amended proposal shall then be voted on.

ORDER OF VOTING ON PROPOSALS

Rule 67

1. If two or more proposals, other than amendments, relate to the same question, they shall, unless the Council decides otherwise, be voted on in the order in which they were submitted. The Council may, after each vote on a proposal, decide whether to vote on the next proposal.

2. A motion requiring that no decision be taken on a proposal shall have priority over that proposal.

ELECTIONS

Rule 68

All elections shall be held by secret ballot, unless, in the absence of any objection, the Council decides to proceed without taking a ballot on an agreed candidate or slate. When candidates are to be nominated, each nomination shall be made only by one representative, after which the Council shall immediately proceed to the election.

Rule 69

1. If, when only one elective place is to be filled, no candidate obtains in the first ballot the majority required, a second ballot shall be taken, confined to the two candidates having obtained the largest number of votes. If in the second ballot the votes are equally divided, the President shall decide between the candidates by drawing lots.

2. In the case of a tie in the first ballot among the candidates obtaining the second largest number of votes, a special ballot shall be held among

such candidates for the purpose of reducing their number to two; similarly, in the case of a tie among three or more candidates obtaining the largest number of votes, a special ballot shall be held. If a tie again results in the special ballot, the President shall eliminate one candidate by drawing lots, and thereafter another ballot shall be taken among all the remaining candidates. The procedure prescribed by these rules shall, if necessary, be repeated until one candidate is duly elected.

Rule 70

1. When two or more elective places are to be filled at one time under the same conditions, those candidates, in a number not exceeding the number of such places, obtaining in the first ballot the majority required and the largest number of votes shall be elected.

2. If the number of candidates obtaining such majority is less than the number of places to be filled, additional ballots shall be held to fill the remaining places, provided that if only one place remains to be filled the procedures in rule 69 shall be applied. The ballot shall be restricted to the unsuccessful candidates having obtained the largest number of votes in the previous ballot, but not exceeding twice the number of places remaining to be filled. However, in the case of a tie between a greater number of unsuccessful candidates, a special ballot shall be held for the purpose of reducing the number of candidates to the required number; if a tie again results among more than the required number of candidates, the President shall reduce their number to that required by drawing lots.

3. If such a restricted ballot (not counting a special ballot held under the conditions specified in the last sentence of paragraph 2) is inconclusive, the President shall decide among the remaining candidates by drawing lots.

EQUALLY DIVIDED VOTES

Rule 71

If a vote is equally divided on a matter other than an election, the proposal or motion shall be regarded as rejected.

XII. PARTICIPATION OF NON-MEMBERS OF THE COUNCIL

PARTICIPATION OF NON-MEMBER STATES

Rule 72

1. The Council shall invite any Member of the United Nations that is not a member of the Council, and any other State, 4/ to participate in its deliberations on any matter of particular concern to that State.

2. A committee or sessional body of the Council shall invite any State 4/ that is not one of its own members to participate in its deliberations on any matter of particular concern to that State.

3. A State thus invited shall not have the right to vote, but may submit proposals which may be put to the vote on request of any member of the body concerned.

4/ It is the understanding of the Economic and Social Council that in discharging its functions under this rule it will follow the practice of the General Assembly in implementing an "all States" clause, and that in all cases where it is advisable it will request the opinion of the Assembly before taking appropriate decisions.

PARTICIPATION OF NATIONAL LIBERATION MOVEMENTS

Rule 73

The Council may invite any national liberation movement recognized by or in accordance with resolutions of the General Assembly to participate, without the right to vote, in its deliberations on any matter of particular concern to that movement.

PARTICIPATION OF THE PRESIDENT OF THE TRUSTEESHIP COUNCIL

Rule 74

The President of the Trusteeship Council, or his representative, may participate, without the right to vote, in the deliberations of the Economic and Social Council on any matter of particular concern to the Trusteeship Council, including questions that have been proposed by the Trusteeship Council for inclusion in the provisional agenda of the Economic and Social Council.

PARTICIPATION OF AND CONSULTATION WITH SPECIALIZED AGENCIES 5/

Rule 75

In accordance with the agreements concluded between the United Nations and the specialized agencies, the specialized agencies shall be entitled:

(a) To be represented at meetings of the Council, its committees and sessional bodies;

(b) To participate, without the right to vote, through their representatives, in deliberations with respect to items of concern to them and to submit

---

5/ See footnote 1.

proposals regarding such items, which may be put to the vote at the request of any member of the Council or of the committee or sessional body concerned.

Rule 76

Before the Secretary-General places an item proposed by a specialized agency on the provisional agenda, he shall carry out with the agency concerned such preliminary consultation as may be necessary.

Rule 77

1. Where an item proposed for inclusion in the provisional agenda or the supplementary list contains a proposal for new activities to be undertaken by the United Nations relating to matters that are of direct concern to one or more specialized agencies, the Secretary-General shall enter into consultation with the agencies concerned and report to the Council on the means of achieving a coordinated use of the resources of the organizations concerned.

2. When in the course of a meeting of the Council a proposal for new activities to be undertaken by the United Nations relates to matters that are of direct concern to one or more specialized agencies, the Secretary-General shall, after such consultation as may be possible with the representatives of the agencies concerned, draw the attention of the Council to the implications of the proposal.

3. Before deciding on proposals referred to above, the Council shall satisfy itself that adequate consultations have taken place with the agencies concerned.

Rule 78

Whenever the Council is to consider a proposed international convention, the Secretary-General shall, at the same time that he requests Governments to comment on the proposed convention, consult the specialized agencies in respect of any provision of the proposed convention that may affect the activities of such agencies. The views of such agencies shall be brought before the Council together with the comments received from Governments.

PARTICIPATION OF OTHER INTERGOVERNMENTAL ORGANIZATIONS

Rule 79

Representatives of intergovernmental organizations accorded permanent observer status by the General Assembly and of other intergovernmental organizations designated on an ad hoc or a continuing basis by the Council on the recommendation of the Bureau, may participate, without the right to vote, in the deliberations of the Council on questions within the scope of the activities of the organizations.

XIII. CONSULTATION WITH NON-GOVERNMENTAL ORGANIZATIONS

COMMITTEE ON NON-GOVERNMENTAL ORGANIZATIONS

Rule 80

1. The Committee on Non-Governmental Organizations shall consist of nineteen Members of the United Nations elected for four years on the basis of equitable geographical representation. Accordingly, the membership of the Committee shall include:

(a) Five members from African States;

(b) Four members from Asian States;

(c) Four members from Latin American and Caribbean States;

(*d*) Four members from Western European and other States;

(*e*) Two members from Eastern European States.

2. The Committee shall carry out the functions assigned to it by the Council in connection with the arrangements for consultations with non-governmental organizations adopted by the Council in accordance with Article 71 of the Charter.

3. The Committee shall elect its own officers.

4. When considering applications for granting consultative status to non-governmental organizations, the Committee shall be guided by the rules of procedure of the Council. Non-governmental organizations applying for consultative status shall have an opportunity to submit written statements or be heard by the Committee, at the request of the latter, by means of an oral statement made by a duly authorized representative.

REPRESENTATION

Rule 81

Non-governmental organizations in category I or II may designate authorized representatives to sit as observers at public meetings of the Council, its committees and sessional bodies. Those on the Roster may have representatives present at such meetings when matters within their field of competence are being discussed.

GENERAL CONSULTATION OF THE COMMITTEE WITH ORGANIZATIONS IN CONSULTATIVE STATUS

Rule 82

The Committee on Non-Governmental Organizations may consult, in connection with sessions of the Council or at such other times as it may decide, with organizations in categories I and II on matters within their competence, other than items on the agenda of the Council, on which the Council or the Committee or the organization requests consultation. The Committee shall report to the Council on such consultations.

CONSULTATION OF THE COMMITTEE WITH ORGANIZATIONS IN CATEGORIES I AND II ON ITEMS ON THE PROVISIONAL AGENDA OF THE COUNCIL

Rule 83

The Committee on Non-Governmental Organizations may consult, in connection with any particular session of the Council, with organizations in categories I and II on matters within the competence of the organizations concerning specific items already on the provisional agenda of the Council on which the Council or the Committee or the organization requests consultation, and shall make recommendations as to which organizations, subject to the provisions of paragraph 1 of rule 84, should be heard by the Council or the appropriate committee and regarding which subjects on which they should be heard. Organizations desiring such consultation shall apply in writing so that the request may reach the Secretary-General as soon as possible after the issue of the provisional agenda for the session, and in any case not later than five days after the adoption of the agenda. The Committee shall report to the Council on such consultations.

HEARING OF ORGANIZATIONS IN CATEGORY I BY THE COUNCIL OR ITS COMMITTEES

Rule 84

1. The Committee on Non-Governmental Organizations shall make recommendations to the Council as to which organizations in category I should be heard by the Council or by its sessional committees and on which items they should be heard. Such organizations shall be entitled to make one statement on each such item to the Council or the appropriate sessional committee, subject to the

approval of the Council or of the sessional committee concerned. In the absence of the subsidiary body of the Council with jurisdiction in a major field of interest to the Council and to an organization in category II, the Committee may recommend that an organization in category II be heard by the Council on the subject in its field of interest.

2. Whenever the Council discusses the substance of an item proposed by a non-governmental organization in category I and included in the agenda of the Council, such an organization shall be entitled to present orally to the Council or a sessional committee of the Council, as appropriate, an introductory statement of an expository nature. Such an organization may be invited by the President of the Council or the Chairman of the committee, with the consent of the relevant body, to make, in the course of the discussion of the item before the Council or before the committee, an additional statement for purposes of clarification.

XIV. AMENDMENT AND SUSPENSION OF RULES OF PROCEDURE

METHOD OF AMENDMENT

Rule 85

Any of these rules may be amended by the Council. These rules may, however, not be amended until the Council has received a report on the proposed amendment from a committee of the Council.

METHOD OF SUSPENSION

Rule 86

Any of these rules may be suspended by the Council provided that twenty-four hours notice of the proposal for the suspension has been given, which may be waived if no representative objects. Any such suspension shall be limited to a specific and stated purpose and to a period required to achieve that purpose.

ANNEX

1. The Preparatory Commission of the United Nations, at its second session in London in 1945, prepared draft rules of procedure for the Council (PC/20, chap. III, sect. 3). These provisional rules were approved, without change, at the first meeting of the Joint Subcommittee of the Second and Third Committees during the first session of the General Assembly on 22 January 1946 (A/C.2/7 and A/C.3/3). The General Assembly adopted the conclusions of the reports of the Second and Third Committees at its 19th plenary meeting, on 29 January 1946 (A/16 and A/17). At its 12th meeting, during its first session, on 16 February 1946, the Council adopted these provisional rules of procedure, as contained in chapter III, section 3 (E/33).

2. The Council subsequently revised its rules of procedure at its second, fourth, fifth, seventh, eighth, tenth, fourteenth, fifteenth, fortieth, forty-first, forty-second, forty-sixth, resumed forty-seventh, organizational sessions for 1973, 1974 and 1975, fifty-eighth session, first regular session of 1982 and organizational session for 1992.

3. At the eighth session of the Council the revisions were of a comprehensive character (resolution 217 (VIII) (text of rules in E/33/Rev.5)). At the fourteenth session, the rules dealing with sessions and the agenda of the Council were revised by resolution 456 (XIV), as a consequence of the provisions of Council resolution 414 (XIII) on the organization and operation of the Council, and additional rules were adopted regarding inter-agency consultation, on the basis of the Council's recommendations contained in its resolution 402 B (XIII) (annex, para. 39) (text of rules in E/2336). At the fifteenth session, the rules concerning languages were amended by resolution 481 (XV) (text of rules in E/3063, rules 35-38). At the fortieth session, by resolution 1099 (XL), amendments were made in the rule regarding the Council Committee on Non-Governmental Organizations (text of rule in E/3063/Rev.1, rule 82). Amendments made by resolution 1193 (XLI) at the resumed

forty-first session related to rules 20, 22 and 23 (text of rules in E/3063/Rev.1) and those made at the forty-second session to rules 4, 19, 26 and 27 (text of rules in E/3063/Rev.1). At the forty-sixth session, _pro forma_ changes were made by resolution 1392 (XLVI) to rules 7, 10 and 12, and rules 83, 84, 85 and 86 were amended (text of amended rules in E/3063/Rev.1). At the resumed forty-seventh session, as a result of the measures adopted by the Council during its forty-seventh session to improve the organization of its work and in consequence of its approval of the calendar of conferences and meetings for 1970 and 1971 (Council decisions taken at its 1637th meeting, on 8 August 1969; see also _Official Records of the Economic and Social Council, Forty-seventh Session, Supplement No. 1_ (E/4735), pp. 18-20), the Council decided, _inter alia_, to adopt, on a provisional basis, the Secretary-General's proposals for the amendment of the relevant rules of procedure of the Council and other organizational changes (E/4757 and Corr.1, paras. 4-8) and to suspend rules 2, 9 and 14 of its rules of procedure which appear in E/3063/Rev.1 (Council decision taken at its 1647th meeting, on 17 November 1969; see also _Official Records of the Economic and Social Council, Resumed Forty-seventh Session, Supplement No. 1A_ (E/4735/Add.1), p. 5). At its organizational session for 1973, the Council decided to suspend that part of rule 82 (text of rule in E/3063/Rev.1) which stipulates that the members of the Council Committee on Non-Governmental Organizations shall be members of the Council, in order to permit members of the sessional committees also to serve on that Committee (Council decision taken at its 1848th meeting, on 8 January 1973; see also _Official Records of the Economic and Social Council, Fifty-fourth Session, Supplement No. 1_ (E/5367), p. 41). At its organizational session for 1974, the Council decided to suspend rule 20 in order to provide for the representation of all regional groups of countries among its officers and elected four Vice-Presidents instead of three as a consequence of paragraph 6 of Council resolution 1807 (LV) (Council decision taken at its 1887th meeting, on 7 January 1974; see _Official Records of the Economic and Social Council, Organizational Session for 1974_, p. 2). At its organizational session for 1975, the Council decided to suspend that part of rule 82 (text of rule in E/3063/Rev.1) which stipulates that the members of the Council Committee on Non-Governmental Organizations shall serve for one year, in order to permit members of the Committee to serve for four years (Council decision taken at its 1939th meeting, on 28 January 1975; see also Official Records of the Economic and Social Council, Fifty-eighth Session, Supplement No. 1 (E/5683), decision 70 (ORG-75)). At the fifty-eighth session of the Council the revisions were of a comprehensive character (Council resolution 1949 (LVIII)). At the 8th plenary meeting of its first regular session of 1982, on 15 April 1982, the Council, in pursuance of General Assembly resolution 35/219 A of 17 December 1980, decided to include Arabic among its official languages, with effect from 1 January 1983 (decision 1982/147); see Official Records of the Economic and Social Council, 1982, Supplement No. 1 (E/1982/82). At the 3rd plenary meeting of its organizational session for 1992, on 7 February 1992, the Council amended rules 1, 2 and 9 of its rules of procedure (resolution 1992/2); see Official Records of the Economic and Social Council, 1992, Supplement No. 1 (E/1992/92).

February 1946	E/33
June 1946	E/33/Rev.1
March 1947	E/33/Rev.2
March 1947	E/33/Rev.3
August 1947	E/33/Rev.4
March 1949	E/33/Rev.5
April 1950	E/1662
November 1952	E/2336
March 1958	E/3063
October 1967	E/3063/Rev.1
June 1975	E/5715
April 1983	E/5715/Rev.1

6. References to certain resolutions and decisions of the Council bearing on the present rules of procedure are given below:

Rule 1: Adopted on 16 February 1946, first session (E/33), amended by resolution 217 (VIII) (E/33/Rev.5), amended by resolution 456 (XIV) (E/2336) as a consequence of resolution 414 (XIII), paragraph 8 (a), amended by resolution 1949 (LVIII) as a consequence of resolution 1623 (LI), paragraph 2, and further amended by resolution 1992/2 of 7 February 1992;

Rule 2: Adopted on 16 February 1946, first session (E/33), amended by resolution 456 (XIV) (E/2336) as a consequence of resolution 414 (XIII), paragraph 8 (b), (c), (d) and (e), suspended and provisionally amended by decision of 17 November 1969, resumed forty-seventh session (E/4735/Add.1, p. 5), amended by resolution 1949 (LVIII), and further amended by decision 1978/72 of 4 August 1978, resolution 1982/50 of 28 July 1982 and resolution 1992/2 of 7 February 1992;

Rule 3: Adopted by resolution 217 (VIII) (E/33/Rev.5, rule 4) and amended by resolution 1949 (LVIII);

Rule 4: Adopted on 16 February 1946, first session (E/33, rule 3), and amended by resolution 217 (VIII) (E/33/Rev.5, rule 4) and resolution 456 (XIV) (E/2336, rule 4), decision of

29 May 1967, forty-second session (E/4393, p. 30), and resolution 1949 (LVIII). Former rule 5, adopted on 16 February 1946, first session (E/33, rule 5), and amended by resolution 217 (VIII) (E/33/Rev.5, rule 5), was incorporated in paragraph 2 of present rule 4;

Rule 5: Adopted on 16 February 1946, first session (E/33, rule 6), and amended by resolution 456 (XIV) (E/2336, rule 6) and resolution 1949 (LVIII);

Rule 6: Adopted on 16 February 1946, first session (E/33, rule 7), and amended by resolution 217 (VIII) (E/33/Rev.5, rule 7) and decision of 6 March 1950, tenth session (E/1661, p. 34); pro forma changes were introduced pursuant to resolution 1392 (XLVI); amended and renumbered by resolution 1949 (LVIII);

Rule 7: Adopted on 16 February 1946, first session (E/33, rule 8), amended by resolution 217 (VIII) (E/33/Rev.5, rule 8) and decision of 6 March 1950, tenth session (E/1661, p. 34), and renumbered by resolution 1949 (LVIII);

Rules 8-15: Original rules relating to the agenda were adopted on 16 February 1946, first session (E/33, rules 9-13), and subsequently amended by decision of 11 March 1947, fourth session (65th meeting) (E/33/Rev.3, rules 9-15), and resolutions 55 (IV), 57 (IV) and 99 (V), decision of 28 August 1948, seventh session (E/1065 and Corr.1, p. 77), resolution 217 (VIII), decision of 6 March 1950, tenth session (E/1661, pp. 34-36), and by resolution 456 (XIV) (E/2336, rules 9-17) as a consequence of resolution 414 (XIII), paragraph 8 (c), (d), (e), (f) and (g); pro forma changes were introduced in rules 10 and 12 by resolution 1392 (XLVI), and rules 9 and 14 were suspended and provisionally amended by decision of 17 November 1969, resumed forty-seventh session (E/4735/Add.1, p. 5). Rules 9 to 17 (E/2336) were amended and restructured by resolution 1949 (LVIII); rule 9 was further amended by resolution 1992/2 of 7 February 1992;

Rule 16: Adopted on 16 February 1946, first session (E/33, rule 14), amended by resolution 217 (VIII) (E/33/Rev.5, rule 17) and renumbered by resolution 456 (XIV) (E/2336, rule 18) and resolution 1949 (LVIII);

Rule 17: Adopted on 16 February 1946, first session (E/33, rule 15), amended by resolution 217 (VIII) (E/33/Rev.5, rule 18), renumbered by resolution 456 (XIV) (E/2336, rule 19), amended by decision of 29 May 1967, forty-second session (E/4393, p. 30), and further amended and renumbered by resolution 1949 (LVIII);

Rule 18: Adopted on 16 February 1946, first session (E/33, rule 16), amended by resolution 217 (VIII) (E/33/Rev.5, rule 19), renumbered by resolution 456 (XIV) (E/2336, rule 20), amended by resolution 1193 (XLI), suspended by decision of 7 January 1974, during the organizational session for 1974 (1887th meeting), and amended and renumbered by resolution 1949 (LVIII);

Rule 19: Adopted on 16 February 1946, first session (E/33, rule 17), amended by resolution 217 (VIII) (E/33/Rev.5, rule 20), renumbered by resolution 456 (XIV) (E/2336, rule 21), and amended and renumbered by resolution 1949 (LVIII);

Rule 20: Adopted on 16 February 1946, first session (E/33, rule 18), renumbered as a consequence of decision of 11 March 1947, fourth session (65th meeting) (E/33/Rev.3, rule 20), renumbered by resolution 217 (VIII) (E/33/Rev.5, rule 21), renumbered by resolution 456 (XIV) (E/2336, rule 22), amended and renumbered by resolution 1193 (XLI), and amended and renumbered by resolution 1949 (LVIII);

Rule 21: Adopted on 16 February 1946, first session (E/33, rule 20), renumbered as a consequence of decision of 11 March 1947, fourth session (65th meeting) (E/33/Rev.3, rule 22), and of resolution 217 (VIII) (E/33/Rev.5, rule 23) and resolution 456 (XIV) (E/2336, rule 24), and amended and renumbered by resolution 1949 (LVIII);

Rule 22: Adopted on 16 February 1946, first session (E/33, rule 19), renumbered as a consequence of decision of 11 March 1947, fourth session (65th meeting) (E/33/Rev.3, rule 21), amended by resolution 217 (VIII) (E/33/Rev.5, rule 22), renumbered by resolution 456 (XIV) (E/2336, rule 23), amended by resolution 1193 (XLI), and amended and renumbered by resolution 1949 (LVIII);

Rule 23: Adopted on 4 June 1946, second session (E/33/Rev.1, rule 21), renumbered as a consequence of decision of 11 March 1947, fourth session (65th meeting) (E/33/Rev.3, rule 23), renumbered by resolution 217 (VIII) (E/33/Rev.5, rule 24) and resolution 456 (XIV) (E/2336, rule 25), and amended and renumbered by resolution 1949 (LVIII);

Rules 24-27: Adopted by resolution 1949 (LVIII). The provisions of former rules 26 and 27 of chapter V and former rules 71 to 74 of chapter XII (E/3063/Rev.1) were revised and combined into present chapter V.

Rule 26 (E/3063/Rev.1): adopted on 16 February 1946, first session (E/33, rule 21), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rule 22), and decision of 11 March 1947, fourth session (65th meeting) (E/33/Rev.3, rule 24), amended and renumbered by resolution 217 (VIII) (E/33/Rev.5, rule 25), renumbered by resolution 456 (XIV) (E/2336, rule 26) and amended by decision of 29 May 1957, forty-second session (E/4393, p. 31).

Rule 27 (E/3063/Rev.1): adopted by resolution 217 (VIII) (E/33/Rev.5, rule 26), renumbered by resolution 456 (XIV) (E/2336, rule 27) and amended by decision of 29 May 1967, forty-second session (E/4393, p. 32).

Rule 71 (E/3063/Rev.1): adopted on 16 February 1946 (E/33, rule 60), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rule 61), and of decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rule 64), amended and renumbered by resolution 217 (VIII) (E/33/Rev.5, rule 70), and renumbered by resolution 456 (XIV) (E/2336, rule 71).

Rule 72 (E/3063/Rev.1): adopted by resolution 217 (VIII) (E/33/Rev.5, rule 71) and renumbered by resolution 456 (XIV) (E/2336, rule 72).

Rule 73 (E/3063/Rev.1): adopted on 16 February 1946, first session (E/33, rule 61), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rule 62) and of decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rule 65), amended by resolution 99 (V) (E/33/Rev.4, rule 65), amended and renumbered by resolution 217 (VIII) (E/33/Rev.5, rule 72) and renumbered by resolution 456 (XIV) (E/2336, rule 73).

Rule 74 (E/3063/Rev.1): adopted on 16 February 1946, first session (E/33, rule 62), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rule 63), and of decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rule 66), amended by resolution 99 (V) (E/33/Rev.4, rule 66), and amended and renumbered by resolution 217 (VIII) (E/33/Rev.5, rule 74);

Rules 28 and 30: Adopted by resolution 1949 (LVIII). The provisions of former rules 28 to 32 (E/3063/Rev.1) were amended and restructured into present rules 28 and 30. Rules 28-32 (E/3063/Rev.1): adopted on 16 February 1946, first session (E/33, rules 22-26), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rules 23-27), and of decision of 11 March 1947, fourth session (65th meeting) (E/33/Rev.3, rules 25-29), amended and renumbered by resolution 217 (VIII) (E/33/Rev.5, rules 27-31) and renumbered by resolution 456 (XIV) (E/2336, rules 28-32);

Rule 29: Adopted by resolution 217 (VIII) (E/33/Rev.5, rule 32), renumbered by resolution 456 (XIV) (E/2336, rule 33), and amended and renumbered by resolution 1949 (LVIII);

Rule 30: See rules 28 and 30 above;

Rule 31: Original rule adopted by decision of 28 February 1947, fourth session (52nd meeting), in pursuance of regulation 25 of the Provisional Financial Regulations of the United Nations (E/33/Rev.3, rule 30). Amended by decision of 28 August 1948, seventh session (E/1065 and Corr.1, p. 77), based on resolution 175 (VII), pursuant to General Assembly resolutions 125 (II) and 163 (II) and financial regulation 38 (E/33/Rev.5, rule 33). Pursuant to General Assembly resolutions 413 (V) and 456 (V) (regulation 13.1 of the Financial Regulations of the United Nations) and Council resolution 402 (XIII), further amended and renumbered by resolution 456 B (XIV) (E/2336, rule 34). Taking into account financial regulations 3.1, 13.1 and 13.2 of the United Nations, the rule was further amended and renumbered by resolution 1949 (LVIII);

Rule 32: Adopted on 16 February 1946 (E/33, rule 27), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rule 28), and of decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rule 31), and by resolution 217 (VIII) (E/33/Rev.5, rule 34) and resolution 456 (XIV) (E/2336, rule 35), amended by resolution 481 (XV) and renumbered by resolution 1949 (LVIII), and further amended by decision 1982/147 of 15 April 1982;

Rule 33: Adopted by resolution 1949 (LVIII). The provisions of rules 36 to 38 (E/3063/Rev.1) were amended and restructured within the present rule 33. Rules 36-38 (E/3063/Rev.1): adopted on 16 February 1946 (E/33, rules 28-30), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rules 29-31), and decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rules 32-34), and by resolution 217 (VIII) (E/33/Rev.5, rules 35-37) and resolution 456 (XIV) (E/2336, rules 36-38); rules 36 to 37 were amended by resolution 481 (XV);

Rule 34: Adopted on 16 February 1946 (E/33, rule 31), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rule 32), and of decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rule 35), amended and renumbered by resolution 217 (VIII) (E/33/Rev.5, rule 38), renumbered by resolution 456 (XIV) (E/2336, rule 39) and further renumbered by resolution 1949 (LVIII);

Rule 35: Adopted on 16 February 1946 (E/33, rule 34), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rule 35), and decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rule 38), and by resolution 217 (VIII) (E/33/Rev.5, rule 39), resolution 456 (XIV) (E/2336, rule 40) and resolution 1949 (LVIII);

Rule 36: Adopted on 16 February 1946 (E/33, rule 43), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rule 44), and decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rule 47), and by resolution 217 (VIII) (E/33/Rev.5, rule 40), resolution 456 (XIV) (E/2336, rule 41) and resolution

1949 (LVIII). Former rule 42 (E/3063/Rev.1), providing that "at the close of each private meeting, the Council may issue a communiqué through the Secretary-General", originally adopted on 16 February 1946 (E/33, rule 44), was deleted during the consideration of the present rules;

Rule 37: Adopted on 16 February 1946 (E/33, rule 46), suspended by resolutions 138 (VI) and 176 (VII) and replaced by a new rule in accordance with resolution 456 (XIV) (E/2336, rule 46), and amended and renumbered by resolution 1949 (LVIII);

Rule 38: Adopted on 16 February 1946 (E/33, rule 45), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rule 46), and decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rule 49), and amended and renumbered by resolution 217 (VIII) (E/33/Rev.5, rule 42), resolution 456 (XIV) (E/2336, rule 43) and resolution 1949 (LVIII);

Rule 39: Adopted on 16 February 1946 (E/33, rule 48), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rule 49), and decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rule 52), and amended and renumbered by resolution 217 (VIII) (E/33/Rev.5, rule 44), resolution 456 (XIV) (E/2336, rule 44) and resolution 1949 (LVIII);

Rule 40: Adopted on 16 February 1946 (E/33, rule 47), renumbered as a consequence of decision of 4 June 1946, second session (7th meeting) (E/33/Rev.1, rule 48), and decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rule 51), and amended and renumbered by resolution 217 (VIII) (E/33/Rev.5, rule 45) and resolution 1949 (LVIII);

Rules 41-71: The original rules dealing with conduct of business and voting, adopted on 16 February 1946 (E/33, rules 49-59 and 35-42), were substantially restructured by resolution 217 (VIII), using as far as applicable the text employed in the corresponding rules of the General Assembly (E/33/Rev.5, rules 46-49). Rule 60, first part, reproduced textually Article 67, paragraph 2, of the Charter, renumbered as a consequence of resolution 456 (XIV) (E/2336, rules 47-70) and substantially restructured by resolution 1949 (LVIII) (rules 41-71), using as far as applicable the text employed in the corresponding rules of the General Assembly (A/520/Rev.12), as well as relevant resolutions and decisions taken by the Council (see comments listed in E/5450, opposite proposed rules 47-70). Under the present rules, separate rules are provided concerning "Right of reply" (rule 46), "Congratulations" (rule 47), "Condolences" (rule 48), "Discussion of reports of sessional committees of the whole" (rule 53), "Reconsideration of proposals" (rule 57), "Request for a vote" (rule 59), "Explanation of vote" (rule 62) and "Amendments" (rule 65);

Rule 72: The rules concerning the participation of Members of the United Nations not members of the Council were originally adopted by resolution 217 (VIII) (E/33/Rev.5, rules 74-75), based on Article 69 of the Charter, renumbered as a consequence of resolution 456 (XIV) (E/2336, rules 75-76), and amended and replaced by present rule 72 (resolution 1949 (LVIII);

Rule 73: Adopted by resolution 1949 (LVIII), taking into account, inter alia, General Assembly resolutions 3237 (XXIX) of 22 November 1974 and 3280 (XXIX) of 10 December 1974 (in particular para. 7) relating to national liberation movements, adopted by the Assembly at its twenty-ninth session;

Rule 74: For arrangements for cooperation between the Economic and Social Council and the Trusteeship Council in matters of common concern, see Official Records of the Economic and Social Council, Second Year, Fifth Session, annex 20, pp. 477-486; pursuant to resolution 216 (VIII), a new rule was adopted by resolution 217 (VIII) (E/33/Rev.5, rule 76); renumbered by resolution 456 (XIV) (E/2336, rule 77) and resolution 1949 (LVIII);

Rule 75: Based on Article 70 of the Charter, adopted by resolution 217 (VIII) (E/33/Rev.5, rule 77) and renumbered as a consequence of resolution 456 (XIV) (E/2336, rule 78) and resolution 1949 (LVIII);

Rule 76: Adopted by decision of 11 March 1974, fourth session (65th meeting) (E/33/Rev.3, rule 11), amended and renumbered by resolution 217 (VIII) (E/33/Rev.5, rule 12), amended and renumbered by resolution 456 (XIV) (E/2336, rule 79) and renumbered by resolution 1949 (LVIII);

Rules 77-78: Adopted by resolution 456 (XIV) (E/2336, rules 80 and 81) and renumbered as a consequence of resolution 1949 (LVIII);

Rule 79: Adopted by resolution 1949 (LVIII);

Rule 80: Arrangements for consultation with non-governmental organizations were originally based on resolution 2/3 (second session) adopted on 21 June 1946 (see Official Records of the Economic and Social Council, First Year, Second Session, pp. 360-365). The original rule was adopted by resolution 217 (VIII) (E/33/Rev.5, rule 78) as a consequence of resolution 288 B (X), amended by decision of 6 March 1950, tenth session (E/1661, p. 36), renumbered as a consequence of resolution 456 (XIV) (E/2336, rule 82), amended by decision of 5 August 1954, eighteenth session (E/2654, p. 28) and further amended by resolution 1099 (XL) (E/3063, rule 82). By its decision of 8 January 1973, during the organizational session for 1973

(E/5367, p. 41), the Council decided to suspend that part of the rule which stipulates that the members of the Council Committee on Non-Governmental Organizations shall be members of the Council, in order to permit the additional members of the sessional committees also to serve on the Committee; further, by decision 70 (ORG-75) of 28 January 1975, during the organizational session for 1975 (E/5683), the Council decided to suspend that part of the rule which stipulates that the members of the Council Committee on Non-Governmental Organizations shall serve for one year, in order to permit members of the Committee to serve for four years; amended and renumbered by resolution 1949 (LVIII). The Council decided to enlarge the membership of the Committee on Non-Governmental Organizations by its resolution 1981/50 of 20 July 1981;

Rules 81-84: Arrangements for consultation with non-governmental organizations were originally based on resolution 2/3 (second session) adopted on 21 June 1946 (see *Official Records of the Economic and Social Council, First Year, Second Session*, pp. 360-365). The original rules were adopted by resolution 217 (VIII) (E/33/Rev.5, rules 79-81) consequent to resolution 288 B (X), amended by decision of 6 March 1950, tenth session (E/1661, pp. 36-37), renumbered as a consequence of resolution 456 (XIV) (E/2336, rules 83-86), amended by resolution 1392 (XLVI) and renumbered as a consequence of resolution 1949 (LVIII);

Rules 85-86: Adopted by resolution 1949 (LVIII), restructured former rules 87 to 89 (E/3063/Rev.1). Rule 87 (E/3063/Rev.1) was adopted on 16 February 1946 (E/33, rule 64), renumbered as a consequence of decision of 6 June 1946, second session (7th meeting) (E/33/Rev.1, rule 65), and decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rule 68), amended and renumbered by resolution 217 (VIII) (E/33/Rev.5, rule 82), and renumbered as a consequence of resolution 456 (XIV) (E/2336, rule 87). Rules 88 and 89 were adopted on 16 February 1946 (E/33, rules 65 and 66) and renumbered as a consequence of decision of 6 June 1946, second session (7th meeting) (E/33/Rev.1, rules 66 and 67), and decisions of 28 February and 11 March 1947, fourth session (52nd and 65th meetings) (E/33/Rev.3, rules 69 and 70), and resolution 456 (XIV) (E/2336, rules 88 and 89).

COMPENSEM O TRABALHO, NÃO A RIQUEZA

Para pôr fim ao estado de desigualdades no qual estamos, precisamos construir uma economia voltada para os trabalhadores, não só para os super-ricos.

OXFAM

www.oxfam.org.br

O ano passado registrou o maior aumento no número de bilionários da história – um novo bilionário a cada dois dias. Esse aumento teria sido suficiente para acabar mais de sete vezes com a pobreza extrema global. Oitenta e dois por cento de toda a riqueza gerada no ano passado ficaram nas mãos do 1% mais rico e nada ficou com os 50% mais pobres.

O trabalho insalubre e mal remunerado de muitos garante a riqueza extrema de poucos. As mulheres estão nos piores postos de trabalho e quase todos os bilionários do planeta são homens. Governos devem criar uma sociedade mais igualitária, priorizando trabalhadores e pequenos produtores de alimentos e não os super-ricos e poderosos.

Este artigo é dedicado às mulheres e homens ao redor do mundo que lutam contra a desigualdade e a injustiça, muitas vezes com grande risco para si mesmos, diante de crescente repressão na maioria dos países.

Este relatório foi escrito por Diego Alejo Vázquez Pimentel, Iñigo Macías Aymar e Max Lawson. A Oxfam agradece as contribuições de Deborah Hardoon, Alex Maitland, Nick Bryer, Milena Dovali, Erinch Sahan, Franziska Mager, Rowan Harvey, Francesca Rhodes, Diana Sarosi e Helen Bunting na sua produção. Os autores agradecem a diversos especialistas que generosamente contribuíram com seu conhecimento: Christoph Lakner, Branko Milanovic, Brina Seidel, Jason Hickel, Danny Dorling, Jessica Woodroffe, Abigail Hunt, Alison Tate, Gemma Freedman, Maura Leary, Kate Pickett, Isabel Ortiz, Mike Savage, Gabriel Zucman, Jonathan Ostry, Lucas Chancel, Patrik Belser, Ana Ines Abelenda, Paul Segal e Chris Hoy. Este texto faz parte de uma série de relatórios elaborados para subsidiar debates públicos sobre questões relacionadas a políticas de desenvolvimento e humanitárias.

PREFÁCIO

A campanha da Oxfam e o apelo à ação são muito oportunos, porque a crise da desigualdade é real. Como o relatório aponta, em muitos países a desigualdade salarial aumentou e a participação da remuneração trabalhista no PIB diminuiu porque os lucros aumentaram mais rapidamente do que os salários. Embora a proporção de renda dos 1% que estão no topo tenha crescido substancialmente, muitos outros não compartilharam os frutos do progresso econômico. Mesmo em países emergentes com rápido crescimento econômico, muitos trabalhadores, incluindo uma parte desproporcionalmente grande de mulheres, permanecem presos a salários baixos e de pobreza.

A pesquisa realizada como parte deste relatório da Oxfam confirma que a maioria das pessoas quer viver em sociedades muito mais iguais. Refletindo essas preocupações, a redução da desigualdade aumentou rapidamente a sua importância na agenda de instituições globais e líderes mundiais. Isso se reflete mais proeminentemente nos Objetivos de Desenvolvimento Sustentável da Agenda 2030 das Nações Unidas, onde o Objetivo 10 é um chamado para "reduzir a desigualdade dentro e entre os países" e o Objetivo 8 clama por um crescimento econômico inclusivo, com emprego completo e produtivo e trabalho decente para todos. Eu não poderia concordar mais com o relatório da Oxfam quando afirma que "empregos dignos, com salários dignos são essenciais para a criação de sociedades mais justas" e que a chave para reduzir a desigualdade é "trabalho decente e bem pago".

- Guy Rider, Diretor-Geral da Organização Internacional do Trabalho (OIT)

ENDOSSOS

Nenhum grupo do mundo fez mais do que a Oxfam para trazer à luz a coexistência da riqueza extrema e da pobreza extrema e as medidas necessárias para mover o mundo para a justiça social com menores desigualdades de renda e riqueza. O mundo inteiro assinou os Objetivos de Desenvolvimento Sustentável, com o ODS 10 chamando todas as nações para que reduzam a desigualdade dentro e entre os países. O novo relatório da Oxfam é leitura obrigatória para se alcançar o ODS 10 e abre novas idéias e abordagens. O relatório certamente vai gerar atenção e controvérsia - como deve ser. Às vezes, os super-ricos chamam a Oxfam e outros por "fazerem guerra de classes", mas a verdade é que em muitas sociedades, incluindo a minha, os Estados Unidos, muitos dos super-ricos declararam guerra aos pobres. A necessidade urgente é reequilibrar as mesas, defender os direitos dos pobres e restabelecer sociedades justas que atendam às necessidades de todos, de acordo com os objetivos acordados globalmente.

- Jeffrey D. Sachs, Professor da Universidade de Columbia, Diretor da Rede de Soluções para o Desenvolvimento Sustentável (UN SDSN, por sua sigla em inglês)

A receita para reduzir a desigualdade para as famílias trabalhadoras e garantir o trabalho decente é simples: um salário mínimo com o qual se possa viver, proteção social e o cumprimento pelas empresas dos direitos humanos e trabalhistas. A liberdade de associação e os direitos de negociação coletiva são facilitadores fundamentais. Os trabalhadores precisam do volume adicional da voz coletiva para se fazerem ouvir. Os governos devem agir. As empresas devem enfrentar suas responsabilidades. A Oxfam está certa - a economia global vai diminuir com muitos bilionários. Uma economia para pessoas trabalhadoras, e não proprietários ricos, acabará com a crise da desigualdade.

- Sharan Burrow, Secretária Geral, Confederação Sindical Internacional (ITUC, por sua sigla em inglês)

Devido à alta e crescente desigualdade dentro dos países, o 1% dos indivíduos mais ricos do mundo capturaram o crescimento duas vezes mais que os 50% mais pobres desde 1980. A riqueza está disparando no topo e ficando entricheirada. A pesquisa da Oxfam, que descreve essas tendências preocupantes, é uma leitura essencial. Agora é hora de recompensar o trabalho, não a riqueza.

- Gabriel Zucman, Universidade da California, Berkeley

Este relatório confirma o que os trabalhadores conhecem há anos: a maioria dos benefícios anunciados da globalização são reservados para uma elite global que se considera intocável. Os mitos do modelo atual de globalização estão entrando em colapso como uma casa de cartas e com ela a credibilidade de seus defensores e a confiança nas instituições políticas. Evasão descarada de impostos corporativos, privatizações, cortes de serviços e décadas de salários estagnados não ocorreram por acidente. É necessária uma ação urgente e radical para financiar serviços públicos universais, trabalho decente e redistribuir riqueza. A alternativa é o aumento contínuo do populismo, do racismo e do medo na extrema direita. Fomos avisados.

- Rosa Pavanelli, Secretária Geral da Internacional de Serviços Públicos (PSI, por sua sigla em inglês)

*"*Recompensem o trabalho, não a riqueza*" mostra que os trabalhadores precisam de sindicatos e do direito à negociação coletiva mais do que nunca. As pessoas precisam de salários com os quais possam viver com dignidade. Mas a ganância descontrolada das empresas está acelerando a desigualdade e a insegurança. A negociação coletiva mais generalizada reequilibraria a economia global para que essa funcione para todos, não apenas para o 1%. É hora de os governos atuarem.*

- Frances O'Grady, Secretário Geral do UK Trades Union Congress (TUC)

Oxfam mudou a forma como o mundo pensa sobre a desigualdade. Agora é a hora de parar de falar em Davos e começar a trabalhar para criar a maior igualdade que tantos milhões demandam.

- Danny Dorling, Universidade de Oxford

A Oxfam continua a oferecer uma excelente pesquisa sobre a crise global da desigualdade. Sua mensagem é clara: temos uma economia que atende os interesses do 1%. Se queremos curar nosso mundo fraturado e instável, precisamos mudar de rumo - e rápido.

- Jason Kickel, Goldsmiths - Universidade de Londres

RESUMO EXECUTIVO

Em 2016, os dividendos anuais das ações da matriz da rede varejista de moda Zara pagos ao quarto homem mais rico do mundo, Amancio Ortega, somaram aproximadamente € 1,3 bilhão.[1] Stefan Persson, cujo pai fundou a H&M[2], foi classificado em 43º lugar na lista Forbes de pessoas mais ricas do mundo e recebeu € 658 milhões de dividendos no ano passado[3].

Anju trabalha em Bangladesh costurando roupas para exportação. Frequentemente, ela trabalha 12 horas por dia, até tarde da noite. Muitas vezes ela pula algumas refeições porque não ganhou dinheiro suficiente. Ela ganha pouco mais de $ 900 dólares por ano[4].

O ano passado registrou o maior aumento no número de bilionários da história: um a mais a cada dois dias. Atualmente, há 2.043 bilionários em todo o mundo. Nove entre dez são homens.[5] A riqueza desses bilionários também aumentou consideravelmente, em um nível que seria suficiente para acabar com a pobreza extrema por mais de sete vezes. De toda a riqueza gerada no ano passado, 82% foram parar nas mãos do 1% que está no topo, enquanto os 50% mais pobres não viram nada.[6]

Salários dignos e trabalho decente para os trabalhadores do mundo são fundamentais para acabar com o estado de desigualdade em que vivemos. Em todo o mundo, nossa economia do 1% é construída nas costas de trabalhadores mal remunerados, frequentemente mulheres, que recebem baixos salários e são privados de direitos básicos. É construída nas costas de trabalhadoras como Fatima, em Bangladesh, que trabalha costurando roupas para exportação. Ela regularmente sofre abusos quando não consegue atingir as metas e fica doente porque não pode usar o banheiro[7]. É construída à custa de trabalhadoras como Dolores, que trabalha em frigoríficos de frangos nos Estados Unidos e desenvolveu uma deficiência permanente que não lhe permite segurar seus filhos pela mão.[8] É construída nas costas de imigrantes que trabalham como faxineiras em hotéis, como Myint na Tailândia[9], que é assediada sexualmente por hóspedes do sexo masculino e não tem alternativa senão aguentar calada para não perder seu emprego.

Este estudo analisa o aumento da riqueza extrema e a situação dos que trabalham, mas vivem na pobreza. Investiga por que isso está acontecendo e faz recomendações para que essa situação possa ser corrigida.

"Quando fiquei grávida, eles me deixaram trabalhar no estoque. Havia muitas caixas cheias de sapatos e meu trabalho era carimbá-las. Os sapatos são muitos bons e caberiam perfeitamente no meu filho. Gostaria que ele tivesse sapatos como aqueles, mas ele não pode. Eu penso que ele gostaria de tê-los e fico triste por isso. Os sapatos são muito bonitos. Você sabe que um par de sapatos que nós fazemos vale mais que todo o mês de salário."

- Lan, trabalhadora de vestuário, Vietnã

MENOS PALAVRAS E MAIS AÇÃO PARA DAR ÀS PESSOAS O QUE ELAS QUEREM: UM MUNDO MAIS IGUAL

Hoje em dia, é difícil encontrar um líder político ou empresarial que não se diga preocupado com as desigualdades. No entanto, são ações – e não palavras – que contam, e nesse aspecto a maioria dos nossos líderes deixa a desejar. Na verdade, muitos promovem ativamente políticas que podem aumentar a desigualdade. O Presidente dos Estados Unidos, Donald Trump, foi eleito com a promessa de ajudar trabalhadores, mas nomeou um ministério de bilionários e está pressionando pela aprovação de grandes reduções de impostos para o 1% mais rico.[10] O presidente Buhari da Nigéria, disse acreditar que a desigualdade está gerando uma onda crescente de raiva e frustração,[11] não obstante existe a suspeita de que bilhões em riqueza de petróleo estejam sendo roubados naquele país, ao mesmo tempo em que a desigualdade continua a aumentar e 10 milhões de crianças ainda estão fora da escola.[12] Oxfam e *Development Finance International* compilaram um índice detalhado de 152 ações governamentais de combate às desigualdades e a maioria dos governos não tem, vergonhosamente, tomado as mínimas medidas necessárias para eliminá-las.[13]

Quadro 1: Por um mundo mais igualitário[14]

Para elaborar este documento, a Oxfam entrevistou mais de 70 mil pessoas em 10 países que representam um quarto da população mundial:

- Mais de três quartos das pessoas concordam ou concordam enfaticamente que a distância entre ricos e pobres em seu país é muito grande, variando de 58% na Holanda a 92% na Nigéria.
- Quase dois terços dos entrevistados nos 10 países acreditam que a distância entre ricos e pobres precisa ser resolvidaurgentemente ou muito urgentemente.
- 60% do total de entrevistados concordam ou concordam enfaticamente que o governo é responsável por reduzir a distância entre ricos e pobres. Na África do Sul são 69%.
- 75% dos entrevistados preferem níveis de desigualdade de renda mais baixos que os registrados no seu país. Na verdade, mais da metade dos entrevistados desejam ter níveis de desigualdade no seu país mais baixos que os registrados em qualquer país no mundo.

REPRIMAM AS DESIGUALDADES, NÃO A DEMOCRACIA

Em todos os países nos quais a Oxfam atua, o espaço para cidadãos levantarem suas vozes está sendo fechado e a liberdade de expressão reprimida. Civicus, uma aliança global dedicada a fortalecer cidadãos, observou que as liberdades civis estão sob séria ameaça em mais de 100 países.[15]

“Para a minha geração, não há volta para o período anterior à revolução. Nossos olhos foram abertos. E, embora oprimidos, estamos nos reestruturando e nos organizando para combater a desigualdade econômica e a injustiça.”

– Ghouson Tawfik, Plataforma de Justiça Social, Egito

Segundo uma famosa declaração do Ministro da Suprema Corte dos Estados Unidos, Louis Brandeis, “podemos ter democracia neste país ou fortunas concentradas nas mãos de poucos, mas não podemos ter ambos”.[16] Nossos líderes sabem disso, mas em vez de agir para reduzir a concentração de riqueza e a desigualdade, estão optando por suprimir a democracia e a liberdade para demandar uma sociedade mais justa.

“Podemos ter democracia neste país ou fortunas concentradas nas mãos de poucos, mas não podemos ter ambos.”

– Louis Brandeis, ex-Ministro da Suprema Corte dos Estados Unidos

Quadro 2: A bonança dos bilionários[17]

Diante dessa inércia, o estado de desigualdades continua a piorar, já que os benefícios do crescimento econômico continuam a se concentrar em poucas mãos.

- O ano passado registrou o maior aumento no número de bilionários da história, com um bilionário a mais a cada dois dias. Atualmente, há 2.043 bilionários (em dólares) em todo o mundo. Nove entre dez deles são homens.[18]
- Em 12 meses, a riqueza desse grupo de elite aumentou US$ 762 bilhões – o suficiente para acabar mais de sete vezes com a pobreza extrema.[19]
- No período entre 2006 e 2015, os trabalhadores viram suas rendas aumentarem em média 2% a cada ano,[20] enquanto a riqueza dos bilionários aumentou próximo de 13% ao ano, quase seis vezes mais rápido.[21]
- Oitenta e dois por cento de todo crescimento na riqueza gerada no último ano foram para o 1% mais rico, enquanto a metade mais pobre da humanidade não viu nenhum aumento.[22]
- Enquanto os bilionários viram suas fortunas aumentarem em US$ 762 bilhões em um ano, as mulheres fornecem, anualmente, US$ 10 trilhões em cuidados não remunerados para sustentar a economia global.[23]
- Novos dados divulgados pelo banco Credit Suisse significam que agora 42 pessoas detêm a mesma riqueza que os 3,7 bilhões de pessoas na base da pirâmide da distribuição de renda e que as estatísticas do ano anterior foram atualizadas de 8 para 61 pessoas que detinham o mesmo nível de riqueza que os 50% mais pobres.[24]
- O 1% mais rico continua a deter mais riqueza que todo o restante da humanidade.[25]

Em países de todo o mundo, esse quadro se repete. Em 2017, pesquisas realizadas pela Oxfam e outras entidades revelaram que:

- Na Nigéria, os juros recebidos pelo homem mais rico sobre sua fortuna em um ano seriam suficientes para retirar duas milhões de pessoas da pobreza extrema. A despeito de quase uma década de crescimento econômico robusto na Nigéria, a pobreza aumentou ao longo do mesmo período no país.[26]
- Na Indonésia,[27] os quatro homens mais ricos concentram mais riqueza que as 100 milhões de pessoas mais pobres.
- As três pessoas mais ricas dos Estados Unidos detêm a mesma riqueza que a metade mais pobre da população do país (cerca de 160 milhões de pessoas).[28]
- No Brasil, uma pessoa que ganha um salário mínimo precisaria trabalhar 19 anos para ganhar o mesmo que uma pessoa do grupo do 0,1% mais rico ganha em um mês.[29]

A riqueza extrema que não vem do trabalho

A justificativa econômica predominante para a desigualdade é que ela oferece incentivos à inovação e ao investimento. Nos é dito que os bilionários são a prova suprema dos benefícios do talento, do trabalho duro e da inovação e que esses elementos beneficiam todos nós.[30]

"A desigualdade aumenta a cada dia. Os trabalhadores estão frustrados, seus salários não correspondem ao custo de vida. Isso se deve à crescente brecha entre ricos e pobres, que restringe quaisquer chances de prosperidade."

– Tariq Mobeen Chaudray, Center for Finance for Development, Indus Consortium, Paquistão

No entanto, há evidências crescentes[31] de que os níveis de desigualdade extrema registrados atualmente excedem em muito o que pode ser justificado por talento, esforço e disposição de assumir riscos. Na verdade, na maioria dos casos são produto de heranças, monopólios ou relações clientelistas com governo.

Aproximadamente um terço das fortunas bilionárias pode ser atribuído a heranças. Nos próximos 20 anos, 500 das pessoas mais ricas do mundo deixarão US$ 2,4 trilhões para os seus herdeiros - uma soma maior do que o PIB da Índia, país com 1,3 bilhão de habitantes.[32]

Os monopólios alimentam retornos excessivos aos proprietários e acionistas à custa do restante da economia. O poder do monopólio para gerar riqueza extrema é demonstrado pela fortuna de Carlos Slim, o sexto homem mais rico do mundo. Sua fortuna deriva de um monopólio quase completo que ele conseguiu estabelecer com serviços de comunicações (fixa, móveis e de banda larga) no México. A Organização para a Cooperação e o Desenvolvimento Econômico (OCDE) descobriu que esse monopólio teve efeitos consideravelmente negativos para os consumidores e para a economia.[33]

O poder monopolístico é acentuado pelo compadrio – a capacidade de interesses privados poderosos de manipular políticas públicas no intuito de consolidar monopólios existentes e criar outros. Acordos de privatizações, recursos naturais concedidos por valores muito abaixo do que seria justo, corrupção nas compras e contratos públicos ou isenções fiscais e brechas jurídicas são todos mecanismos pelos quais interesses privados com relações estreitas com o poder público podem enriquecer à custa do público em geral.

No total, a Oxfam calculou que aproximadamente dois terços das fortunas dos bilionários podem ser atribuídos a heranças, monopólios e compadrio.[34] Pesquisas realizadas pela Oxfam em 10 países revelam que mais da metade dos entrevistados acredita que, ainda que trabalhem duro, é difícil ou impossível para pessoas comuns aumentarem o dinheiro que têm.

As recompensas econômicas estão cada vez mais concentradas nas mãos dos mais ricos. Enquanto milhões de trabalhadores continuam a receber baixos salários, os retornos para acionistas e altos executivos dispararam.[35] Na África do Sul, os 10% mais ricos recebem metade do total de salários pagos, enquanto os 50% da força de trabalho ficam com apenas 12%.[36] Em pouco mais de um dia de trabalho, o diretor executivo de uma empresa americana ganha o mesmo que um trabalhador médio ganha em todo um ano.[37] Os homens são sempre os mais bem pagos.[38] Em média, são necessários somente um pouco mais de quatro dias para o diretor executivo de uma das cinco maiores empresas do setor de vestuário ganhar o mesmo que uma trabalhadora comum de Bangladesh levaria uma vida inteira para ganhar.[39]

Os retornos auferidos por acionistas ricos vêm subindo cada vez e com frequência, aumentando implacavelmente o ônus imposto aos trabalhadores. Seriam necessários US$ 2,2 bilhões por ano para que todos os 2,5 milhões de trabalhadores do setor de vestuário vietnamitas deixassem de ganhar o salário médio pago no país e passassem a receber um salário digno. Isso equivale a um terço do valor distribuído a acionistas pelas cinco maiores empresas do setor de vestuário.[40]

Em muitos casos, as fortunas dos mais ricos são alimentadas pela evasão fiscal – praticada por indivíduos ricos e pelas empresas das quais são titulares ou acionistas. Usando uma rede global de paraísos fiscais, como revelado nos chamados Panamá e Paradise Papers, os super-ricos estão escondendo pelo menos US$ 7,6 trilhões das autoridades fiscais.[41] Uma nova análise do economista Gabriel Zucman para este documento mostrou que isso significa que o 1% mais rico vem sonegando cerca de US$ 200 bilhões em impostos.[42] Os países em desenvolvimento estão perdendo pelo menos US$ 170 bilhões por ano em impostos não pagos por empresas e super-ricos.[43]

Até mesmo bilionários que fizeram suas fortunas em mercados competitivos muitas vezes estão fazendo isso, diminuindo os salários e condições dos trabalhadores, forçando os países a uma corrida suicida para reduzir salários e direitos trabalhistas ao fundo do poço e aumentar isenções fiscais.

Ao mesmo tempo, as crianças mais pobres, especialmente as meninas, são condenadas a morrer pobres, uma vez que as oportunidades vão para crianças de famílias mais ricas.[44]

"Os sonhos nascem lá, e os sonhos morrem lá."

– Mildred Ngesa, da FEMNET: Rede Africana de Mulheres para o Desenvolvimento e a Comunicação, referindo-se à favela de Dandora em Nairóbi, próxima ao local em que foi criada.

A VISTA DESDE BAIXO

Desigualdade e pobreza

Entre 1990 e 2010, o número de pessoas que viviam em situação de pobreza extrema (ou seja, com menos de US$ 1,90 por dia) caiu pela metade, e esse número vem diminuindo desde então.[45] Essa imensa conquista é algo de que o mundo deve se orgulhar. No entanto, se a desigualdade nos países não tivesse aumentado ao longo desse período, outras 200 milhões de pessoas teriam saído da pobreza.[46] Esse número poderia ter aumentado para 700 milhões se os pobres tivessem sido mais beneficiados pelo crescimento econômico do que seus concidadãos ricos.[47] Olhando para o futuro, o Banco Mundial deixou explícito que, a menos que eliminemos a brecha entre ricos e pobres, não conseguiremos alcançar, por uma larga margem, a meta de eliminar a pobreza extrema. Ainda que a meta de redução da pobreza em 3% seja alcançada, teremos cerca de 200 milhões de pessoas ainda vivendo com US$ 1,90 por dia em 2030.[48]

Também existem casos de pessoas que saíram da pobreza extrema mas frequentemente continuam muito pobres, endividadas e lutando intensamente para alimentar suas famílias. Muitas delas podem estar a apenas um passo de caírem na pobreza extrema novamente. Mais da metade da população mundial vive com US$ 2 a US$ 10 por dia.[49]

Essa situação se deve ao fato de que apenas uma proporção reduzida do aumento da renda global ficou nas mãos da metade mais pobre da população nos últimos 25 anos. O recém-publicado "World Inequality Report" (Relatório de Desigualdade Mundial) do banco Credit Suisse mostra que o 1% mais rico capturou 27% do crescimento da renda global entre 1980 e 2016. Enquanto isso, os 50% mais pobres ficaram com a metade disso, ou seja, com 13%.[50] Para alguém enquadrado nos 10% mais pobres, a renda anual média aumentou menos de US$ 3 em um quarto de século. Essa é uma forma profundamente ineficiente de se eliminar a pobreza: destinando somente 13 centavos de cada dólar de aumento da renda global para os 50% mais pobres e 42 centavos para os 10% mais ricos.[51] Em vista dos limites ambientais do nosso planeta, essa abordagem também é absolutamente insustentável: considerando esse nível de desigualdade, a economia global precisaria ser 175 vezes maior apenas para permitir que todos passassem a ganhar mais de US$ 5 por dia, o que seria ambientalmente catastrófico.[52]

Desigualdade econômica e de gênero

A desigualdade econômica e a de gênero estão estreitamente inter-relacionadas. Embora a distância salarial entre os gêneros venha recebendo mais atenção na maioria dos países, a diferença de riqueza entre mulheres e homens é, geralmente, ainda maior. Em todo o mundo, mais homens do que mulheres são proprietários de terras, ações de empresas e outros bens de capital;[53] os homens recebem mais para desempenhar as mesmas funções que as mulheres e estão concentrados em empregos de maior remuneração e *status*. Não é por acaso que as mulheres estão amplamente super-representadas em muitos dos empregos de pior remuneração e menos seguros.[54] Ao redor do mundo, normas sociais, atitudes e crenças desvalorizam o *status* e as habilidades das mulheres, justificam a violência e a discriminação de que são vítimas e determinam os empregos aos quais elas podem – ou não – se candidatar.

A desigualdade de gênero não é um acidente e nem é nova: nossas economias foram construídas por homens ricos e poderosos em benefício próprio. O modelo econômico neoliberal piorou essa situação – redução de serviços públicos, corte de impostos para os mais ricos e a corrida para baixo em matéria de salários e direitos trabalhistas afetaram mais as mulheres do que os homens.

Nossa prosperidade econômica depende também da enorme, embora não reconhecida, contribuição das mulheres por meio dos cuidados não remunerados que prestam. No Peru, por exemplo, estima-se que esses cuidados respondam por 20% do PIB.[55] Mulheres pobres são forçadas a prestar mais cuidados não remunerados do que mulheres mais ricas.[56]

Para combater a desigualdade econômica extrema, precisamos acabar com a desigualdade de gênero. Da mesma forma, para garantir a igualdade entre mulheres e homens, precisamos reduzir radicalmente a desigualdade econômica. Para tanto, não será suficiente integrar mais intensamente as mulheres às estruturas econômicas existentes. Precisamos definir uma visão para uma nova economia humana, conjuntamente criada por mulheres e homens em benefício de todos e não apenas de uns poucos privilegiados.

Trabalhando, mas ainda na pobreza

A renda do trabalho é a fonte mais importante de renda para a maioria das famílias.[57] Portanto, aumentar o acesso ao trabalho decente promove a igualdade.

Para muitos dos mais pobres, essa renda vem da produção de alimentos em pequena escala. Para muitos outros, vem dos salários. Este documento enfoca principalmente nos assalariados do mundo. A Oxfam publicará uma análise complementar dos pequenos produtores de alimentos ainda em 2018.

Quadro 3: Os trabalhadores continuam a enfrentar dificuldades para sobreviver[58]

Em Mianmar, a Oxfam trabalha com jovens operárias do setor de vestuário que confeccionam roupas para marcas globais. Elas ganham US$ 4 por dia, o dobro da linha de pobreza extrema. Para ganhar esse valor, trabalham 11 horas por dia, seis ou sete dias por semana. Em que pesem essas longas jornadas de trabalho, elas ainda enfrentam grandes dificuldades para satisfazer suas necessidades básicas em termos de alimentos e medicamentos e, em muitos casos, se endividam.

Cada vez mais, no entanto, ter um emprego não significa escapar da pobreza. Estimativas recentes da OIT revelam que um entre cada três trabalhadores de países emergentes e em desenvolvimento vive em situação de pobreza, e esse número está aumentando.[59]

A escravidão moderna talvez seja o elemento mais chocante do mercado de trabalho global dos nossos dias. A OIT estimou em 40 milhões o número de pessoas escravizadas em 2016, 25 milhões das quais em situação de trabalho forçado. Segundo a OIT, “trabalhadores forçados produziram alguns dos alimentos que consumimos e das roupas que vestimos e limparam os edifícios nos quais muitos de nós moramos ou trabalhamos".[60]

"Trabalhadores forçados produziram alguns dos alimentos que consumimos e das roupas que vestimos e limparam os edifícios nos quais muitos de nós moramos ou trabalhamos."

– OIT

Quase 43% dos trabalhadores jovens de todo o mundo ainda estão desempregados ou trabalham mas continuam vivendo em situação de pobreza. [61] Mais de 500 milhões de jovens sobrevivem com menos de US$ 2 por dia.[62] Nos países em desenvolvimento, estima-se que 260 milhões de jovens estejam sem emprego, educação ou qualquer tipo de treinamento.[63] Uma em cada três mulheres jovens está na mesma situação.[64] Embora os efeitos da crise financeira tenham variado muito, um fator comum dos seus resultados é que os jovens têm sido os mais afetados.[65]

Quatro milhões de pessoas em situação de trabalho escravo são crianças. De acordo com as estimativas mais recentes, há mais de 150 milhões de crianças de 5 a 17 anos envolvidas em alguma forma de trabalho infantil,[66] quase uma em cada 10.

Isso vem ocorrendo a despeito do significativo crescimento econômico registrado na maioria dos países nas últimas décadas. Embora o valor da sua produção tenha aumentado drasticamente, os trabalhadores não foram beneficiados na mesma proporção em seus salários ou condições de trabalho.Em uma pesquisa realizada em 133 países ricos e em desenvolvimento referente ao período de 1995 a 2014, a OIT constatou que em 91 deles os salários não acompanharam o aumento da produtividade e o crescimento econômico.[67]

Infelizmente, muitos países ainda não adotaram um salário mínimo ou mecanismos de negociação coletiva e, na maioria dos casos, os salários mínimos são significativamente mais baixos do que seria necessário para sobreviver ou do que poderia ser considerado um salário digno.[68] A Oxfam demonstrou que essa é a realidade no mercado de trabalho do Marrocos, do Quênia, da Indonésia e do Vietnã.[69] Quando previstos em lei, os salários mínimos também não vigoram efetivamente e menos ainda para as mulheres.

Inseguro, precário e sem direitos

O trabalho temporário e precário é a norma nos países em desenvolvimento e é uma realidade cada vez mais visível em nações ricas. Os empregados temporários recebem salários mais baixos e têm menos direitos e menor acesso à proteção social. As mulheres e os jovens são os mais propensos a aceitar empregos desse tipo.

Na opinião de muitos, seu trabalho é perigoso e prejudicial à saúde. Segundo a OIT, mais de 2,78 milhões de trabalhadores morrem todos os anos em decorrência de acidentes de trabalho ou doenças ocupacionais - um a cada 11 segundos.[70]

"O assédio sexual é muito comum nesse tipo de trabalho. Pelo menos 90% das mulheres trabalhadoras são assediadas tanto por clientes como pelos donos das empresas. A justiça está do lado das empresas".

– Eulogia Familia, líder sindical, representante dos empregados do setor hoteleiro da República Dominicana[71]

Mulheres trabalhadoras em todo o mundo muitas vezes sofrem lesões graves, ficam expostas a riscos para a sua saúde e à violência sexual no seu local de trabalho. Empregadas de hotéis entrevistadas pela Oxfam na República Dominicana, no Canadá e na Tailândia relataram casos regulares de assédio e violência sexual por parte de hóspedes do sexo masculino.[72] Relataram também problemas de saúde devido ao uso rotineiro de produtos químicos nas suas faxinas. Em Bangladesh, muitas operárias jovens do setor de vestuário sofrem de infecções urinárias recorrentes porque não têm permissão para ir ao banheiro no local de trabalho. Da mesma forma, em um estudo que realizou sobre a situação dos trabalhadores do setor avícola dos Estados Unidos, a Oxfam verificou que eles usavam fraldas porque não tinham permissão para usar o banheiro.[73]

Quadro 4: Sem conseguir segurar as mãos dos filhos[74]

Nos Estados Unidos, a Oxfam está trabalhando com empregados do setor avícola em uma campanha para melhorar suas terríveis condições de trabalho. Eles não têm direito a pausas suficientes para ir ao banheiro, o que força muitos deles a usarem fraldas para poderem trabalhar. Dolores, uma ex-trabalhadora do setor no Arkansas, descreveu a sua situação da seguinte maneira: "Era como não ter nenhum valor... chegávamos às 5 da manhã e trabalhávamos até as 11 ou 12 sem ir ao banheiro... Eu sentia vergonha de dizer a eles que precisava trocar a minha fralda".

O trabalho também é perigoso e marcado por uma das taxas mais altas de lesões entre todos os setores. As lesões por esforço repetitivo podem ser tão graves que após apenas um ano nas linhas de produção alguns trabalhadores não conseguem mais esticar os dedos, segurar uma colher ou mesmo segurar adequadamente as mãos dos filhos.

Trabalhadores organizados constituem um contrapeso ao poder da riqueza e têm desempenhado um papel fundamental na criação de sociedades mais igualitárias e democráticas. Os sindicatos aumentam salários, direitos e proteções não apenas para os seus membros, mas também para todos os trabalhadores de uma sociedade.[75] Infelizmente, o FMI vem observando uma tendência de queda nas taxas de densidade sindical em todo o mundo desde 2000.[76] O FMI associa isso ao aumento da desigualdade.[77] Esse problema vem se agravando em decorrência do uso mais intensivo da terceirização e de contratos temporários de curto prazo para minar direitos trabalhistas.

O número de países marcados pela violência física e ameaças contra trabalhadores aumentou 10% em apenas um ano, de acordo com o Índice Global de Direitos divulgado anualmente pela Confederação Internacional Sindical (CSI).[78] Agressões a sindicalistas foram registradas em 59 países.[79] Mais de três quartos dos países negam o direito de greve a alguns dos seus trabalhadores ou a todos eles. Na Tailândia, trabalhadores migrantes – que constituem uma em cada dez pessoas da força de trabalho – não têm direito de greve.[80]

Os piores empregos predominam no setor informal da economia, largamente não regulamentado, onde mulheres e jovens estão super-representados. Essa situação favorece alguns dos atores mais poderosos de uma economia globalizada. Grandes multinacionais podem reduzir seus custos terceirizando sua produção para empresas menores que empregam trabalhadores informais, pagam salários mais baixos e oferecem condições menos seguras de trabalho, o que lhes permite driblar a legislação trabalhista e de proteção social.

QUAL É A CAUSA DISSO?

Uma "tempestade perfeita" de fatores inter-relacionados está se formando para fortalecer o poder de negociação dos que estão no topo, ao mesmo tempo, reduzir o dos que estão na base.

Na base da pirâmide, direitos trabalhistas estão sendo minados e com eles o poder de negociação dos sindicatos. Empresas estão se consolidando cada vez mais e se encontram sob uma enorme pressão para oferecer retornos cada vez mais altos aos seus acionistas. Esses retornos geralmente são garantidos à custa dos trabalhadores e oferecem um maior incentivo para a evasão fiscal em larga escala. As empresas usam a mobilidade dos seus investimentos para promover uma “corrida para baixo” entre países em termos de tributação e salários. A ameaça de uma automação crescente também garante mais poder nas mãos de ricos donos de empresas e coloca mais pressão sobre os trabalhadores.

Podemos construir uma economia humana para resolver isso

A economia não precisa estar estruturada como está. Podemos criar uma economia mais humana,[81] que priorize os interesses de trabalhadores comuns e de pequenos produtores de alimentos, e não os daqueles com super salários e donos de grandes fortunas. Uma economia desse tipo poderia pôr fim à desigualdade extrema e garantir um futuro promissor para o nosso planeta. Precisamos rejeitar a adesão dogmática à economia neoliberal e a influência inaceitável das elites nos nossos governos. Podemos fazer isso principalmente de duas maneiras: concebendo economias mais igualitárias desde o início e usando a tributação e os gastos públicos para redistribuir e promover uma maior equidade.

Podemos estabelecer uma economia humana principalmente de duas maneiras: concebendo economias mais igualitárias desde o início e usando a tributação e os gastos públicos para redistribuir e promover uma maior equidade.

Regular, reestruturar e redesenhar a nossa economia e a forma como as empresas operam.

A regulação pode ser usada para garantir que os trabalhadores tenham mais poder de negociação; para acabar com os paraísos fiscais; para romper monopólios; e para que o setor financeiro e os avanços tecnológicos beneficiem a maioria. Governos e empresas podem ambos agir no sentido de garantir que salários miseráveis, a escravidão e o trabalho precário e perigoso não sejam vistos como moralmente aceitáveis. Isso exigirá uma cooperação global em uma escala muito maior que a observada atualmente. Será muito difícil lograr esse tipo de cooperação no atual ambiente político. Felizmente, os governos ainda têm muito espaço para promover grandes avanços no nível nacional.

O comércio e os investimentos podem gerar oportunidades, produtos, serviços e prosperidade ampla e irrestritamente. No entanto, decisões são cada vez mais tomadas apenas sob a ótica da maximização de retornos para acionistas ricos. Essa postura acabou se caracterizando como uma espécie de camisa de força que mantém o mundo empresarial em uma dinâmica que conduz à desigualdade.

No entanto, empresas, movimentos sociais e empreendedores têm gerado uma série de conceitos no intuito de se libertarem dessa camisa de força. Esses conceitos incluem cooperativas, modelos de participação acionária de empregados, primazia da missão, negócios centrados na geração de benefícios sociais, empreendimentos sociais e empresas de comércio justo.

Estudos revelam que empresas de propriedade dos funcionários promovem mais empregos e salários mais altos para seus empregados.[82] Por exemplo, a Mondragon é uma cooperativa multinacional espanhola que tem um faturamento US$ 13 bilhões e emprega 74 mil pessoas. Seu processo de tomada de decisões é democrático, a segurança no emprego é promovida e o salário mais alto não é mais do que nove vezes superior ao mais baixo.

Nossas economias poderiam ser construídas sobre essas estruturas progressistas se líderes políticos priorizassem políticas que financiassem, apoiassem e promovessem modelos desse tipo.

Para esse fim, eles devem oferecer educação, saúde e proteção social para todos e pagar por isso assegurando que pessoas físicas e jurídicas ricas paguem sua parcela justa de impostos.

Os governos têm outro papel fundamental a desempenhar na redução da desigualdade usando a tributação e seus gastos para *redistribuir* a renda.

Evidências colhidas em mais de 150 países ricos e pobres, entre 197-2009,[83] indicam que investir na saúde, educação e proteção social reduz a desigualdade.

Serviços públicos universais e de qualidade beneficiam enormemente as mulheres, pois reduzem a necessidade de prestarem cuidados não remunerados e corrigem desigualdades no acesso à educação e à saúde. Esse benefício aumenta se for oferecido juntamente com outras medidas específicas, como a disponibilização gratuita de creches.

Muito mais pode ser feito para que a tributação seja usada no sentido de redistribuir os retornos excessivamente altos desfrutados pelos ricos atualmente. Pessoas físicas e jurídicas ricas devem pagar mais impostos e não devem ter mais a capacidade de sonegar impostos devidos. Precisamos pôr fim aos paraísos fiscais e à rede global de sigilo que permite que empresas e indivíduos ricos deixem de pagar sua parcela justa de impostos. A corrida global para baixo, em termos da tributação, precisa ser revertida. Os governos devem seguir o exemplo do Chile e da África do Sul, que aumentaram a tributação de pessoas físicas e jurídicas ricas.[84]

Um mundo mais igualitário

Precisamos urgentemente reconfigurar nossas economias no sentido de recompensar trabalhadores comuns e pequenos produtores da base da pirâmide de renda e dar um basta à sua exploração. Precisamos parar de recompensar excessivamente os super-ricos. É isso que as pessoas desejam. É isso que nossos líderes prometeram fazer. Juntos, podemos acabar com o estado de desigualdades extremas. Podemos construir uma economia mais humana e um mundo mais igualitário para os nossos filhos e filhas.

RECOMENDAÇÕES

Governos e instituições internacionais devem reconhecer o impacto do atual modelo econômico neoliberal dominante sobre os pobres do mundo. Com base nesse reconhecimento, eles devem trabalhar no sentido de desenvolver economias mais humanas cujo objetivo principal seja o de promover uma maior equidade. As recomendações apresentadas a seguir analisam o que governos, instituições internacionais e empresas devem fazer.

OS GOVERNOS DEVEM

Em relação à desigualdade:

- **Estabelecer metas e planos de ação concretos e com prazos definidos para reduzir a desigualdade.** Os governos devem trabalhar no sentido de que a renda coletiva dos 10% mais ricos não seja mais alta que a dos 40% mais pobres. Os governos devem acordar que usarão essa medida[85] como o indicador atualizado do Objetivo de Desenvolvimento Sustentável (ODS) 10, de redução da desigualdade.[86]
- **Pôr fim à riqueza extrema**. Para acabar com a pobreza extrema, precisamos também acabar com a riqueza extrema. A era dourada dos dias atuais está minando o nosso futuro. Os governos devem usar a regulação e a tributação no sentido de reduzir radicalmente os níveis atuais de riqueza extrema e limitar a influência de indivíduos e grupos ricos na formulação de políticas.
- **Trabalhar em conjunto para promover uma revolução nos dados sobre desigualdade**. Todos os países devem se empenhar em produzir, anualmente, dados sobre a riqueza e a renda de todas as pessoas da sociedade, em especial dos 10% e do 1% mais ricos. Além de financiar mais pesquisas domiciliares, outras fontes de dados devem ser publicadas para lançar luz sobre o tema da renda e da concentração de riqueza no topo.[87]

- **Implementar políticas** concebidas para combater todas as formas de discriminação de gênero, promover normas sociais e atitudes positivas em relação às mulheres e ao seu trabalho e reequilibrar a dinâmica de poder nos níveis domiciliar, local, nacional e internacional.
- **Reconhecer e proteger os direitos dos cidadãos e de suas organizações à liberdade de expressão e de associação.** Reverter todas as leis e ações que tenham fechado espaço para os cidadãos. Apoiar especificamente organizações que defendem os direitos das mulheres e de outros grupos excluídos.

Em relação a conceber uma economia justa desde o início:

- **Incentivar modelos de negócios que priorizem retornos mais justos**, inclusive modelos de cooperativas e de participação de empregados na governança de empresas e nas cadeias de abastecimento.
- **Requerer que todas as multinacionais realizem auditorias obrigatórias** em toda a sua cadeia de abastecimento para garantir que todos os trabalhadores recebam um salário digno, de acordo com os **Princípios Orientadores das Nações Unidas sobre Empresas e Direitos Humanos.**[88]
- **Limitar retornos para acionistas** e promover um coeficiente de remuneração para altos executivos de empresas que seja **no máximo 20 vezes superior ao salário médio de seus empregados,**[89] de preferência até mais baixos.
- **Eliminar diferenças salariais entre homens e mulheres** e garantir que os direitos das mulheres trabalhadoras sejam plenamente usufruídos em toda a economia. Revogar leis que discriminam a igualdade econômica das mulheres e implementar leis e marcos regulatórios que apoiem os direitos das mulheres.
- **Eliminar o trabalho escravo e os salários miseráveis.** Promover uma transição dos níveis de salário mínimo para níveis de "salários dignos" para todos os trabalhadores, com base em evidências sobre o custo de vida e com pleno envolvimento de sindicatos e outros parceiros sociais.
- **Promover a organização dos trabalhadores.** Definir normas legais que protejam os direitos de sindicalização e de greve dos trabalhadores, revogando todas as leis que contrariem esses direitos. Permitir e apoiar acordos de negociação coletiva com ampla cobertura.
- **Eliminar o trabalho precário e garantir que todas as novas formas de emprego respeitem os direitos dos trabalhadores**. **Garantir os direitos de trabalhadores domésticos, trabalhadores migrantes e trabalhadores informais**. Formalizar progressivamente a economia informal e garantir proteção a todos os trabalhadores, garantindo seu envolvimento em processos decisórios.

Em relação a redistribuir para termos uma sociedade mais justa:

Gastos públicos

- **Compromisso público para garantir a oferta de serviços públicos gratuitos universais e um piso universal de proteção social.**[90] Para esse fim, é importante aumentar o financiamento e a prestação de serviços públicos e garantir contribuições dos empregadores para a seguridade social ou o seguro social.
- **Não direcionar recursos públicos para incentivar e subsidiar a prestação de serviços de saúde e educação por empresas do setor privado com fins lucrativos e ampliar a prestação de serviços essenciais pelo setor público**.

Regular rigorosamente instalações privadas para garantir a sua segurança e qualidade e não permitir que elas excluam quem não pode pagar.

Tributação

- **Usar a tributação para reduzir a riqueza extrema.** Priorizar impostos que não são pagos pelos super-ricos na medida justa, como impostos sobre fortunas, imóveis, heranças e ganhos de capital. Aumentar as alíquotas e a tributação de rendas elevadas. Adotar um imposto global sobre fortunas para bilionários para ajudar a financiar a consecução dos ODS.
- **Chamar uma nova geração de reformas fiscais internacionais** para acabar com a guerra fiscal internacional em relação à tributação dos mais ricos. As alíquotas tributárias devem ser definidas em um nível justo e progressivo que contribua para a redução das desigualdades.[91] Quaisquer novas negociações devem ser realizadas sob a responsabilidade de um novo organismo fiscal global que garanta a participação igualitária de todos os países.
- **Erradicar o uso de paraísos fiscais** e promover uma maior transparência nessa área mediante a adoção de uma lista objetiva dos piores paraísos fiscais e a aplicação de sanções robustas e automáticas a empresas, indivíduos e países que usam esses paraísos fiscais.

As empresas devem fazer a sua parte na construção de uma economia mais humana

- **Nada de dividendos se não forem pagos salários dignos:** as multinacionais podem optar por priorizar o bem-estar de trabalhadores de remuneração mais baixa não recompensando acionistas com dividendos ou recompras de ações ou não pagando bônus a executivos e funcionários bem remunerados até que todos os seus funcionários estejam recebendo um salário digno (calculado com base em um padrão independente) e medidas tenham sido tomadas para garantir que estão pagando preços que possam proporcionar uma renda digna a trabalhadores ou produtores das suas cadeias de suprimentos.
- **Representação em conselhos:** as empresas devem garantir a representação de trabalhadores em conselhos de administração e comissões de remuneração e identificar maneiras de levar em consideração as opiniões de outras partes interessadas, como, por exemplo, de trabalhadores das suas cadeias de abastecimento e de comunidades locais, em processos decisórios.
- **Apoiar mudanças transformacionais nas cadeias de abastecimento**: as empresas podem priorizar a contratação de serviços e a compra de insumos de empresas mais equitativamente estruturadas das suas cadeias de abastecimento – por exemplo, empresas de propriedade parcial ou total de trabalhadores ou produtores; que adotam um modelo de governança que prioriza uma missão social; ou que optam por compartilhar, parcial ou totalmente, seus lucros com seus funcionários. Iniciativas como o *Fair Value Club* da Oxfam[92] estão ajudando empresas a fazer exatamente isso.
- **Compartilhar os lucros com trabalhadores mais pobres**: as empresas podem tomar a decisão de compartilhar um percentual dos seus lucros (por exemplo, 50%) com os trabalhadores de remuneração mais baixa das suas cadeias de abastecimento e operações. Por exemplo, a empresa Cafe Direct[93] compartilha 50% dos seus lucros com cafeicultores.
- **Apoiar a igualdade de gênero no local de trabalho**: assumir o compromisso de promover os Princípios de Empoderamento das Mulheres da ONU[94] e as Convenções relevantes da OIT (C100, C111, C156, C183)[95] para confirmar seu compromisso com a igualdade de gênero; implementar uma política de gênero que apoie a apresentação de denúncias relacionadas a contratações, treinamentos, promoções, assédio e controvérsias; e divulgar a diferença salarial

entre homens e mulheres para todos os níveis da empresa, comprometendo-se a eliminá-la.

- **Reduzir diferenças salariais**: divulgar dados sobre a diferença entre os salários pagos pelas empresas aos seus diretores executivos e à média de seus funcionários, assumindo o compromisso de reduzir esse coeficiente a pelo menos 20:1.
- **Apoiar negociações coletivas:** assumir publicamente o compromisso de promover relações significativas e construtivas com sindicatos independentes em bases contínuas e, em parceria com eles, trabalhar no sentido de eliminar barreiras à participação de mulheres trabalhadoras em atividades sindicais, especialmente em funções de liderança, bem como promover outros meios para que mulheres trabalhadoras possam se fazer ouvir com segurança e eficácia.

NOTAS

1 *Cinco Días (2 de novembro de 2017). Amancio Ortega ingresa 628 millones más por dividendo de Inditex*. Extraído de https://cincodias.elpais.com/cincodias/2017/11/01/companias/1509550519_653608.html

2 A H&M tem sido consistentemente uma das empresas de vestuário mais progressistas na tentativa de resolver o problema dos salários extremamentes baixos em sua cadeia de suprimentos. Possui um índice salarial divulgado publicamente no mercado, o último em novembro de 2013. Foi signatário da nova iniciativa ACT em 2015 com a federação de sindicatos globais da indústria, para lidar com a negociação coletiva do setor em países de baixos salários para a produção de vestuário, começando em Camboja.

3 Calculado usando índice S&P Capital IQ e Financial Times Markets Data.

4 Em uma entrevista para Oxfam Austrália, Anju explicou que ganha em média 6 a 7 mil takas por mês, e que ela trabalha em média três horas a mais por dia. Em dólares, sua renda média mensal é de USD $ 78 (1 BDT = 0.012 USD) e, em média, ela trabalha 286,44 horas por mês (incluindo as horas extras). Isso significa que sua renda anual média é USD $ 78 x 12 = USD $ 936.

Financial Services and Markets Act 2000

2000 CHAPTER 8

An Act to make provision about the regulation of financial services and markets; to provide for the transfer of certain statutory functions relating to building societies, friendly societies, industrial and provident societies and certain other mutual societies; and for connected purposes. [00th June 2000]

BE IT ENACTED by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

PART I

THE REGULATOR

The Financial Services Authority.

1.—(1) The body corporate known as the Financial Services Authority ("the Authority") is to have the functions conferred on it by or under this Act.

(2) The Authority must comply with the requirements as to its constitution set out in Schedule 1.

(3) Schedule 1 also makes provision about the status of the Authority and the exercise of certain of its functions.

The Authority's general duties

The Authority's general duties.

2.—(1) In discharging its general functions the Authority must, so far as is reasonably possible, act in a way—

(a) which is compatible with the regulatory objectives; and

(b) which the Authority considers most appropriate for the purpose of meeting those objectives.

(2) The regulatory objectives are—

(a) market confidence;

(b) public awareness;

(c) the protection of consumers; and

(d) the reduction of financial crime.

(3) In discharging its general functions the Authority must have regard to—

(a) the need to use its resources in the most efficient and economic way;

(b) the responsibilities of those who manage the affairs of authorised persons;

(c) the principle that a burden or restriction which is imposed on a person, or on the carrying on of an activity, should be proportionate to the benefits, considered in general terms, which are expected to result from the imposition of that burden or restriction;

(d) the desirability of facilitating innovation in connection with regulated activities;

(e) the international character of financial services and markets and the desirability of maintaining the competitive position of the United Kingdom;

(f) the need to minimise the adverse effects on competition that may arise from anything done in the discharge of those functions;

(g) the desirability of facilitating competition between those who are subject to any form of regulation by the Authority.

(4) The Authority's general functions are—

(a) its function of making rules under this Act (considered as a whole);

(b) its function of preparing and issuing codes under this Act (considered as a whole);

(c) its functions in relation to the giving of general guidance (considered as a whole); and

(d) its function of determining the general policy and principles by reference to which it performs particular functions.

(5) "General guidance" has the meaning given in section 158(5).

The regulatory objectives

Market confidence.

3.—(1) The market confidence objective is: maintaining confidence in the financial system.

(2) "The financial system" means the financial system operating in the United Kingdom and includes—

(a) financial markets and exchanges;

(b) regulated activities; and

(c) other activities connected with financial markets and exchanges.

4.—(1) The public awareness objective is: promoting public understanding of the financial system. Public awareness.

(2) It includes, in particular—

(a) promoting awareness of the benefits and risks associated with different kinds of investment or other financial dealing; and

(b) the provision of appropriate information and advice.

(3) "The financial system" has the same meaning as in section 3.

5.—(1) The protection of consumers objective is: securing the appropriate degree of protection for consumers. The protection of consumers.

(2) In considering what degree of protection may be appropriate, the Authority must have regard to—

(a) the differing degrees of risk involved in different kinds of investment or other transaction;

(b) the differing degrees of experience and expertise that different consumers may have in relation to different kinds of regulated activity;

(c) the needs that consumers may have for advice and accurate information; and

(d) the general principle that consumers should take responsibility for their decisions.

(3) "Consumers" means persons—

(a) who are consumers for the purposes of section 138; or

(b) who, in relation to regulated activities carried on otherwise than by authorised persons, would be consumers for those purposes if the activities were carried on by authorised persons.

6.—(1) The reduction of financial crime objective is: reducing the extent to which it is possible for a business carried on— The reduction of financial crime.

(a) by a regulated person, or

(b) in contravention of the general prohibition,

to be used for a purpose connected with financial crime.

(2) In considering that objective the Authority must, in particular, have regard to the desirability of—

(a) regulated persons being aware of the risk of their businesses being used in connection with the commission of financial crime;

(b) regulated persons taking appropriate measures (in relation to their administration and employment practices, the conduct of transactions by them and otherwise) to prevent financial crime, facilitate its detection and monitor its incidence;

(c) regulated persons devoting adequate resources to the matters mentioned in paragraph (b).

(3) "Financial crime" includes any offence involving—

(a) fraud or dishonesty;

(b) misconduct in, or misuse of information relating to, a financial market; or

(c) handling the proceeds of crime.

(4) "Offence" includes an act or omission which would be an offence if it had taken place in the United Kingdom.

(5) "Regulated person" means an authorised person, a recognised investment exchange or a recognised clearing house.

Corporate governance

Duty of Authority to follow principles of good governance.

7. In managing its affairs, the Authority must have regard to such generally accepted principles of good corporate governance as it is reasonable to regard as applicable to it.

Arrangements for consulting practitioners and consumers

The Authority's general duty to consult.

8. The Authority must make and maintain effective arrangements for consulting practitioners and consumers on the extent to which its general policies and practices are consistent with its general duties under section 2.

The Practitioner Panel.

9.—(1) Arrangements under section 8 must include the establishment and maintenance of a panel of persons (to be known as "the Practitioner Panel") to represent the interests of practitioners.

(2) The Authority must appoint one of the members of the Practitioner Panel to be its chairman.

(3) The Treasury's approval is required for the appointment or dismissal of the chairman.

(4) The Authority must have regard to any representations made to it by the Practitioner Panel.

(5) The Authority must appoint to the Practitioner Panel such—

(a) individuals who are authorised persons,

(b) persons representing authorised persons,

(c) persons representing recognised investment exchanges, and

(d) persons representing recognised clearing houses,

as it considers appropriate.

The Consumer Panel.

10.—(1) Arrangements under section 8 must include the establishment and maintenance of a panel of persons (to be known as "the Consumer Panel") to represent the interests of consumers.

(2) The Authority must appoint one of the members of the Consumer Panel to be its chairman.

(3) The Treasury's approval is required for the appointment or dismissal of the chairman.

(4) The Authority must have regard to any representations made to it by the Consumer Panel.

(5) The Authority must appoint to the Consumer Panel such consumers, or persons representing the interests of consumers, as it considers appropriate.

(6) The Authority must secure that the membership of the Consumer Panel is such as to give a fair degree of representation to those who are using, or are or may be contemplating using, services otherwise than in connection with businesses carried on by them.

(7) "Consumers" means persons, other than authorised persons—

(a) who are consumers for the purposes of section 138; or

(b) who, in relation to regulated activities carried on otherwise than by authorised persons, would be consumers for those purposes if the activities were carried on by authorised persons.

Duty to consider representations by the Panels.

11.—(1) This section applies to a representation made, in accordance with arrangements made under section 8, by the Practitioner Panel or by the Consumer Panel.

(2) The Authority must consider the representation.

(3) If the Authority disagrees with a view expressed, or proposal made, in the representation, it must give the Panel a statement in writing of its reasons for disagreeing.

Reviews

Reviews.

12.—(1) The Treasury may appoint an independent person to conduct a review of the economy, efficiency and effectiveness with which the Authority has used its resources in discharging its functions.

(2) A review may be limited by the Treasury to such functions of the Authority (however described) as the Treasury may specify in appointing the person to conduct it.

(3) A review is not to be concerned with the merits of the Authority's general policy or principles in pursuing regulatory objectives or in exercising functions under Part VI.

(4) On completion of a review, the person conducting it must make a written report to the Treasury—

(a) setting out the result of the review; and

(b) making such recommendations (if any) as he considers appropriate.

(5) A copy of the report must be—

(a) laid before each House of Parliament; and

(b) published in such manner as the Treasury consider appropriate.

(6) Any expenses reasonably incurred in the conduct of a review are to be met by the Treasury out of money provided by Parliament.

(7) "Independent" means appearing to the Treasury to be independent of the Authority.

Right to obtain documents and information.

13.—(1) A person conducting a review under section 12—

(a) has a right of access at any reasonable time to all such documents as he may reasonably require for purposes of the review; and

(b) may require any person holding or accountable for any such document to provide such information and explanation as are reasonably necessary for that purpose.

(2) Subsection (1) applies only to documents in the custody or under the control of the Authority.

(3) An obligation imposed on a person as a result of the exercise of powers conferred by subsection (1) is enforceable by injunction or, in Scotland, by an order for specific performance under section 45 of the Court of Session Act 1988.

1988 c. 36.

Inquiries

Cases in which the Treasury may arrange independent inquiries.

14.—(1) This section applies in two cases.

(2) The first is where it appears to the Treasury that—

(a) events have occurred in relation to—

(i) a collective investment scheme, or

(ii) a person who is, or was at the time of the events, carrying on a regulated activity (whether or not as an authorised person),

which posed or could have posed a grave risk to the financial system or caused or risked causing significant damage to the interests of consumers; and

(b) those events might not have occurred, or the risk or damage might have been reduced, but for a serious failure in—

(i) the system established by this Act for the regulation of such schemes or of such persons and their activities; or

(ii) the operation of that system.

(3) The second is where it appears to the Treasury that—

(a) events have occurred in relation to listed securities or an issuer of listed securities which caused or could have caused significant damage to holders of listed securities; and

(b) those events might not have occurred but for a serious failure in the regulatory system established by Part VI or in its operation.

(4) If the Treasury consider that it is in the public interest that there should be an independent inquiry into the events and the circumstances surrounding them, they may arrange for an inquiry to be held under section 15.

(5) "Consumers" means persons—

(a) who are consumers for the purposes of section 138; or

(b) who, in relation to regulated activities carried on otherwise than by authorised persons, would be consumers for those purposes if the activities were carried on by authorised persons.

(6) "The financial system" has the same meaning as in section 3.

(7) "Listed securities" means anything which has been admitted to the official list under Part VI.

Power to appoint person to hold an inquiry.

15.—(1) If the Treasury decide to arrange for an inquiry to be held under this section, they may appoint such person as they consider appropriate to hold the inquiry.

(2) The Treasury may, by a direction to the appointed person, control—

(a) the scope of the inquiry;

(b) the period during which the inquiry is to be held;

(c) the conduct of the inquiry; and

(d) the making of reports.

(3) A direction may, in particular—

(a) confine the inquiry to particular matters;

(b) extend the inquiry to additional matters;

(c) require the appointed person to discontinue the inquiry or to take only such steps as are specified in the direction;

(d) require the appointed person to make such interim reports as are so specified.

Powers of appointed person and procedure.

16.—(1) The person appointed to hold an inquiry under section 15 may—

(a) obtain such information from such persons and in such manner as he thinks fit;

(b) make such inquiries as he thinks fit; and

(c) determine the procedure to be followed in connection with the inquiry.

(2) The appointed person may require any person who, in his opinion, is able to provide any information, or produce any document, which is relevant to the inquiry to provide any such information or produce any such document.

(3) For the purposes of an inquiry, the appointed person has the same powers as the court in respect of the attendance and examination of witnesses (including the examination of witnesses abroad) and in respect of the production of documents.

(4) "Court" means—

(a) the High Court; or

(b) in Scotland, the Court of Session.

Conclusion of inquiry.

17.—(1) On completion of an inquiry under section 15, the person holding the inquiry must make a written report to the Treasury—

(a) setting out the result of the inquiry; and

(b) making such recommendations (if any) as he considers appropriate.

(2) The Treasury may publish the whole, or any part, of the report and may do so in such manner as they consider appropriate.

(3) Subsection (4) applies if the Treasury propose to publish a report but consider that it contains material—

(a) which relates to the affairs of a particular person whose interests would, in the opinion of the Treasury, be seriously prejudiced by publication of the material; or

(b) the disclosure of which would be incompatible with an international obligation of the United Kingdom.

(4) The Treasury must ensure that the material is removed before publication.

(5) The Treasury must lay before each House of Parliament a copy of any report or part of a report published under subsection (2).

(6) Any expenses reasonably incurred in holding an inquiry are to be met by the Treasury out of money provided by Parliament.

Obstruction and contempt.

18.—(1) If a person ("A")—

(a) fails to comply with a requirement imposed on him by a person holding an inquiry under section 15, or

(b) otherwise obstructs such an inquiry,

the person holding the inquiry may certify the matter to the High Court (or, in Scotland, the Court of Session).

(2) The court may enquire into the matter.

(3) If, after hearing—

(a) any witnesses who may be produced against or on behalf of A, and

(b) any statement made by or on behalf of A,

the court is satisfied that A would have been in contempt of court if the inquiry had been proceedings before the court, it may deal with him as if he were in contempt.

Part II

Regulated And Prohibited Activities

The general prohibition

The general prohibition.

19.—(1) No person may carry on a regulated activity in the United Kingdom, or purport to do so, unless he is—

(a) an authorised person; or

(b) an exempt person.

(2) The prohibition is referred to in this Act as the general prohibition.

Requirement for permission

Authorised persons acting without permission.

20.—(1) If an authorised person carries on a regulated activity in the United Kingdom, or purports to do so, otherwise than in accordance with permission—

(a) given to him by the Authority under Part IV, or

(b) resulting from any other provision of this Act,

he is to be taken to have contravened a requirement imposed on him by the Authority under this Act.

(2) The contravention does not—

(a) make a person guilty of an offence;

(b) make any transaction void or unenforceable; or

(c) (subject to subsection (3)) give rise to any right of action for breach of statutory duty.

(3) In prescribed cases the contravention is actionable at the suit of a person who suffers loss as a result of the contravention, subject to the defences and other incidents applying to actions for breach of statutory duty.

Financial promotion

Restrictions on financial promotion.

21.—(1) A person ("A") must not, in the course of business, communicate an invitation or inducement to engage in investment activity.

(2) But subsection (1) does not apply if—

(a) A is an authorised person; or

(b) the content of the communication is approved for the purposes of this section by an authorised person.

(3) In the case of a communication originating outside the United Kingdom, subsection (1) applies only if the communication is capable of having an effect in the United Kingdom.

(4) The Treasury may by order specify circumstances in which a person is to be regarded for the purposes of subsection (1) as—

(a) acting in the course of business;

(b) not acting in the course of business.

(5) The Treasury may by order specify circumstances (which may include compliance with financial promotion rules) in which subsection (1) does not apply.

(6) An order under subsection (5) may, in particular, provide that subsection (1) does not apply in relation to communications—

(a) of a specified description;

(b) originating in a specified country or territory outside the United Kingdom;

(c) originating in a country or territory which falls within a specified description of country or territory outside the United Kingdom; or

(d) originating outside the United Kingdom.

(7) The Treasury may by order repeal subsection (3).

(8) "Engaging in investment activity" means—

(a) entering or offering to enter into an agreement the making or performance of which by either party constitutes a controlled activity; or

(b) exercising any rights conferred by a controlled investment to acquire, dispose of, underwrite or convert a controlled investment.

(9) An activity is a controlled activity if—

(a) it is an activity of a specified kind or one which falls within a specified class of activity; and

(b) it relates to an investment of a specified kind, or to one which falls within a specified class of investment.

(10) An investment is a controlled investment if it is an investment of a specified kind or one which falls within a specified class of investment.

(11) Schedule 2 (except paragraph 26) applies for the purposes of subsections (9) and (10) with references to section 22 being read as references to each of those subsections.

(12) Nothing in Schedule 2, as applied by subsection (11), limits the powers conferred by subsection (9) or (10).

(13) "Communicate" includes causing a communication to be made.

(14) "Investment" includes any asset, right or interest.

(15) "Specified" means specified in an order made by the Treasury.

Regulated activities

The classes of activity and categories of investment.

22.—(1) An activity is a regulated activity for the purposes of this Act if it is an activity of a specified kind which is carried on by way of business and—

(a) relates to an investment of a specified kind; or

(b) in the case of an activity of a kind which is also specified for the purposes of this paragraph, is carried on in relation to property of any kind.

(2) Schedule 2 makes provision supplementing this section.

(3) Nothing in Schedule 2 limits the powers conferred by subsection (1).

(4) "Investment" includes any asset, right or interest.

(5) "Specified" means specified in an order made by the Treasury.

Offences

Contravention of the general prohibition.

23.—(1) A person who contravenes the general prohibition is guilty of an offence and liable—

(a) on summary conviction, to imprisonment for a term not exceeding six months or a fine not exceeding the statutory maximum, or both;

(b) on conviction on indictment, to imprisonment for a term not exceeding two years or a fine, or both.

(2) In this Act "an authorisation offence" means an offence under this section.

(3) In proceedings for an authorisation offence it is a defence for the accused to show that he took all reasonable precautions and exercised all due diligence to avoid committing the offence.

False claims to be authorised or exempt.

24.—(1) A person who is neither an authorised person nor, in relation to the regulated activity in question, an exempt person is guilty of an offence if he—

(a) describes himself (in whatever terms) as an authorised person;

(b) describes himself (in whatever terms) as an exempt person in relation to the regulated activity; or

(c) behaves, or otherwise holds himself out, in a manner which indicates (or which is reasonably likely to be understood as indicating) that he is—

(i) an authorised person; or

(ii) an exempt person in relation to the regulated activity.

(2) In proceedings for an offence under this section it is a defence for the accused to show that he took all reasonable precautions and exercised all due diligence to avoid committing the offence.

(3) A person guilty of an offence under this section is liable on summary conviction to imprisonment for a term not exceeding six months or a fine not exceeding level 5 on the standard scale, or both.

(4) But where the conduct constituting the offence involved or included the public display of any material, the maximum fine for the offence is level 5 on the standard scale multiplied by the number of days for which the display continued.

Contravention of section 21.

25.—(1) A person who contravenes section 21(1) is guilty of an offence and liable—

(a) on summary conviction, to imprisonment for a term not exceeding six months or a fine not exceeding the statutory maximum, or both;

(b) on conviction on indictment, to imprisonment for a term not exceeding two years or a fine, or both.

(2) In proceedings for an offence under this section it is a defence for the accused to show—

(a) that he believed on reasonable grounds that the content of the communication was prepared, or approved for the purposes of section 21, by an authorised person; or

(b) that he took all reasonable precautions and exercised all due diligence to avoid committing the offence.

Enforceability of agreements

Agreements made by unauthorised persons.

26.—(1) An agreement made by a person in the course of carrying on a regulated activity in contravention of the general prohibition is unenforceable against the other party.

(2) The other party is entitled to recover—

(a) any money or other property paid or transferred by him under the agreement; and

(b) compensation for any loss sustained by him as a result of having parted with it.

(3) "Agreement" means an agreement—

(a) made after this section comes into force; and

(b) the making or performance of which constitutes, or is part of, the regulated activity in question.

(4) This section does not apply if the regulated activity is accepting deposits.

Agreements made through unauthorised persons.

27.—(1) An agreement made by an authorised person ("the provider")—

(a) in the course of carrying on a regulated activity (not in contravention of the general prohibition), but

(b) in consequence of something said or done by another person ("the third party") in the course of a regulated activity carried on by the third party in contravention of the general prohibition,

is unenforceable against the other party.

(2) The other party is entitled to recover—

(a) any money or other property paid or transferred by him under the agreement; and

(b) compensation for any loss sustained by him as a result of having parted with it.

(3) "Agreement" means an agreement—

(a) made after this section comes into force; and

(b) the making or performance of which constitutes, or is part of, the regulated activity in question carried on by the provider.

(4) This section does not apply if the regulated activity is accepting deposits.

Agreements made unenforceable by section 26 or 27.

28.—(1) This section applies to an agreement which is unenforceable because of section 26 or 27.

(2) The amount of compensation recoverable as a result of that section is—

(a) the amount agreed by the parties; or

(b) on the application of either party, the amount determined by the court.

(3) If the court is satisfied that it is just and equitable in the circumstances of the case, it may allow—

(a) the agreement to be enforced; or

(b) money and property paid or transferred under the agreement to be retained.

(4) In considering whether to allow the agreement to be enforced or (as the case may be) the money or property paid or transferred under the agreement to be retained the court must—

(a) if the case arises as a result of section 26, have regard to the issue mentioned in subsection (5); or

(b) if the case arises as a result of section 27, have regard to the issue mentioned in subsection (6).

(5) The issue is whether the person carrying on the regulated activity concerned reasonably believed that he was not contravening the general prohibition by making the agreement.

(6) The issue is whether the provider knew that the third party was (in carrying on the regulated activity) contravening the general prohibition.

(7) If the person against whom the agreement is unenforceable—

(a) elects not to perform the agreement, or

(b) as a result of this section, recovers money paid or other property transferred by him under the agreement,

he must repay any money and return any other property received by him under the agreement.

(8) If property transferred under the agreement has passed to a third party, a reference in section 26 or 27 or this section to that property is to be read as a reference to its value at the time of its transfer under the agreement.

(9) The commission of an authorisation offence does not make the agreement concerned illegal or invalid to any greater extent than is provided by section 26 or 27.

Accepting deposits in breach of general prohibition.

29.—(1) This section applies to an agreement between a person ("the depositor") and another person ("the deposit-taker") made in the course of the carrying on by the deposit-taker of accepting deposits in contravention of the general prohibition.

(2) If the depositor is not entitled under the agreement to recover without delay any money deposited by him, he may apply to the court for an order directing the deposit-taker to return the money to him.

(3) The court need not make such an order if it is satisfied that it would not be just and equitable for the money deposited to be returned, having regard to the issue mentioned in subsection (4).

(4) The issue is whether the deposit-taker reasonably believed that he was not contravening the general prohibition by making the agreement.

(5) "Agreement" means an agreement—

(a) made after this section comes into force; and

(b) the making or performance of which constitutes, or is part of, accepting deposits.

Enforceability of agreements resulting from unlawful communications.

30.—(1) In this section—

"unlawful communication" means a communication in relation to which there has been a contravention of section 21(1);

"controlled agreement" means an agreement the making or performance of which by either party constitutes a controlled activity for the purposes of that section; and

"controlled investment" has the same meaning as in section 21.

(2) If in consequence of an unlawful communication a person enters as a customer into a controlled agreement, it is unenforceable against him and he is entitled to recover—

(a) any money or other property paid or transferred by him under the agreement; and

(b) compensation for any loss sustained by him as a result of having parted with it.

(3) If in consequence of an unlawful communication a person exercises any rights conferred by a controlled investment, no obligation to which he is subject as a result of exercising them is enforceable against him and he is entitled to recover—

(a) any money or other property paid or transferred by him under the obligation; and

(b) compensation for any loss sustained by him as a result of having parted with it.

(4) But the court may allow—

(a) the agreement or obligation to be enforced, or

(b) money or property paid or transferred under the agreement or obligation to be retained,

if it is satisfied that it is just and equitable in the circumstances of the case.

(5) In considering whether to allow the agreement or obligation to be enforced or (as the case may be) the money or property paid or transferred under the agreement to be retained the court must have regard to the issues mentioned in subsections (6) and (7).

(6) If the applicant made the unlawful communication, the issue is whether he reasonably believed that he was not making such a communication.

(7) If the applicant did not make the unlawful communication, the issue is whether he knew that the agreement was entered into in consequence of such a communication.

(8) "Applicant" means the person seeking to enforce the agreement or obligation or retain the money or property paid or transferred.

(9) Any reference to making a communication includes causing a communication to be made.

(10) The amount of compensation recoverable as a result of subsection (2) or (3) is—

(a) the amount agreed between the parties; or

(b) on the application of either party, the amount determined by the court.

(11) If a person elects not to perform an agreement or an obligation which (by virtue of subsection (2) or (3)) is unenforceable against him, he must repay any money and return any other property received by him under the agreement.

(12) If (by virtue of subsection (2) or (3)) a person recovers money paid or property transferred by him under an agreement or obligation, he must repay any money and return any other property received by him as a result of exercising the rights in question.

(13) If any property required to be returned under this section has passed to a third party, references to that property are to be read as references to its value at the time of its receipt by the person required to return it.

Part III

Authorisation and Exemption

Authorisation

Authorised persons.

31.—(1) The following persons are authorised for the purposes of this Act—

(a) a person who has a Part IV permission to carry on one or more regulated activities;

(b) an EEA firm qualifying for authorisation under Schedule 3;

(c) a Treaty firm qualifying for authorisation under Schedule 4;

(d) a person who is otherwise authorised by a provision of, or made under, this Act.

(2) In this Act "authorised person" means a person who is authorised for the purposes of this Act.

Partnerships and unincorporated associations.

32.—(1) If a firm is authorised—

(a) it is authorised to carry on the regulated activities concerned in the name of the firm; and

(b) its authorisation is not affected by any change in its membership.

(2) If an authorised firm is dissolved, its authorisation continues to have effect in relation to any firm which succeeds to the business of the dissolved firm.

(3) For the purposes of this section, a firm is to be regarded as succeeding to the business of another firm only if—

(a) the members of the resulting firm are substantially the same as those of the former firm; and

(b) succession is to the whole or substantially the whole of the business of the former firm.

(4) "Firm" means—

(a) a partnership; or

(b) an unincorporated association of persons.

(5) "Partnership" does not include a partnership which is constituted under the law of any place outside the United Kingdom and is a body corporate.

Ending of authorisation

Withdrawal of authorisation by the Authority.

33.—(1) This section applies if—

(a) an authorised person's Part IV permission is cancelled; and

(b) as a result, there is no regulated activity for which he has permission.

(2) The Authority must give a direction withdrawing that person's status as an authorised person.

EEA firms.

34.—(1) An EEA firm ceases to qualify for authorisation under Part II of Schedule 3 if it ceases to be an EEA firm as a result of—

(a) having its EEA authorisation withdrawn; or

(b) ceasing to have an EEA right in circumstances in which EEA authorisation is not required.

(2) At the request of an EEA firm, the Authority may give a direction cancelling its authorisation under Part II of Schedule 3.

(3) If an EEA firm has a Part IV permission, it does not cease to be an authorised person merely because it ceases to qualify for authorisation under Part II of Schedule 3.

Treaty firms.

35.—(1) A Treaty firm ceases to qualify for authorisation under Schedule 4 if its home State authorisation is withdrawn.

(2) At the request of a Treaty firm, the Authority may give a direction cancelling its Schedule 4 authorisation.

(3) If a Treaty firm has a Part IV permission, it does not cease to be an authorised person merely because it ceases to qualify for authorisation under Schedule 4.

Persons authorised as a result of paragraph 1(1) of Schedule 5.

36.—(1) At the request of a person authorised as a result of paragraph 1(1) of Schedule 5, the Authority may give a direction cancelling his authorisation as such a person.

(2) If a person authorised as a result of paragraph 1(1) of Schedule 5 has a Part IV permission, he does not cease to be an authorised person merely because he ceases to be a person so authorised.

Exercise of EEA rights by UK firms

Exercise of EEA rights by UK firms.

37. Part III of Schedule 3 makes provision in relation to the exercise outside the United Kingdom of EEA rights by UK firms.

Exemption

Exemption orders.

38.—(1) The Treasury may by order ("an exemption order") provide for—

(a) specified persons, or

(b) persons falling within a specified class,

to be exempt from the general prohibition.

(2) But a person cannot be an exempt person as a result of an exemption order if he has a Part IV permission.

(3) An exemption order may provide for an exemption to have effect—

(a) in respect of all regulated activities;

(b) in respect of one or more specified regulated activities;

(c) only in specified circumstances;

(d) only in relation to specified functions;

(e) subject to conditions.

(4) "Specified" means specified by the exemption order.

Exemption of appointed representatives.

39.—(1) If a person (other than an authorised person)—

(a) is a party to a contract with an authorised person ("his principal") which—

(i) permits or requires him to carry on business of a prescribed description, and

(ii) complies with such requirements as may be prescribed, and

(b) is someone for whose activities in carrying on the whole or part of that business his principal has accepted responsibility in writing,

he is exempt from the general prohibition in relation to any regulated activity comprised in the carrying on of that business for which his principal has accepted responsibility.

(2) A person who is exempt as a result of subsection (1) is referred to in this Act as an appointed representative.

(3) The principal of an appointed representative is responsible, to the same extent as if he had expressly permitted it, for anything done or omitted by the representative in carrying on the business for which he has accepted responsibility.

(4) In determining whether an authorised person has complied with a provision contained in or made under this Act, anything which a relevant person has done or omitted as respects business for which the authorised person has accepted responsibility is to be treated as having been done or omitted by the authorised person.

(5) "Relevant person" means a person who at the material time is or was an appointed representative by virtue of being a party to a contract with the authorised person.

(6) Nothing in subsection (4) is to cause the knowledge or intentions of an appointed representative to be attributed to his principal for the purpose of determining whether the principal has committed an offence, unless in all the circumstances it is reasonable for them to be attributed to him.

PART IV

PERMISSION TO CARRY ON REGULATED ACTIVITIES

Application for permission

40.—(1) An application for permission to carry on one or more regulated activities may be made to the Authority by— Application for permission.

(a) an individual;

(b) a body corporate;

(c) a partnership; or

(d) an unincorporated association.

(2) An authorised person may not apply for permission under this section if he has a permission—

(a) given to him by the Authority under this Part, or

(b) having effect as if so given,

which is in force.

(3) An EEA firm may not apply for permission under this section to carry on a regulated activity which it is, or would be, entitled to carry on in exercise of an EEA right, whether through a United Kingdom branch or by providing services in the United Kingdom.

(4) A permission given by the Authority under this Part or having effect as if so given is referred to in this Act as "a Part IV permission".

The threshold conditions.

41.—(1) "The threshold conditions", in relation to a regulated activity, means the conditions set out in Schedule 6.

(2) In giving or varying permission, or imposing or varying any requirement, under this Part the Authority must ensure that the person concerned will satisfy, and continue to satisfy, the threshold conditions in relation to all of the regulated activities for which he has or will have permission.

(3) But the duty imposed by subsection (2) does not prevent the Authority, having due regard to that duty, from taking such steps as it considers are necessary, in relation to a particular authorised person, in order to secure its regulatory objective of the protection of consumers.

Permission

Giving permission.

42.—(1) "The applicant" means an applicant for permission under section 40.

(2) The Authority may give permission for the applicant to carry on the regulated activity or activities to which his application relates or such of them as may be specified in the permission.

(3) If the applicant—

(a) in relation to a particular regulated activity, is exempt from the general prohibition as a result of section 39(1) or an order made under section 38(1), but

(b) has applied for permission in relation to another regulated activity,

the application is to be treated as relating to all the regulated activities which, if permission is given, he will carry on.

(4) If the applicant—

(a) in relation to a particular regulated activity, is exempt from the general prohibition as a result of section 285(2) or (3), but

(b) has applied for permission in relation to another regulated activity,

the application is to be treated as relating only to that other regulated activity.

(5) If the applicant—

(a) is a person to whom, in relation to a particular regulated activity, the general prohibition does not apply as a result of Part XIX, but

(b) has applied for permission in relation to another regulated activity,

the application is to be treated as relating only to that other regulated activity.

(6) If it gives permission, the Authority must specify the permitted regulated activity or activities, described in such manner as the Authority considers appropriate.

(7) The Authority may—

(a) incorporate in the description of a regulated activity such limitations (for example as to circumstances in which the activity may, or may not, be carried on) as it considers appropriate;

(b) specify a narrower or wider description of regulated activity than that to which the application relates;

(c) give permission for the carrying on of a regulated activity which is not included among those to which the application relates.

Imposition of requirements.

43.—(1) A Part IV permission may include such requirements as the Authority considers appropriate.

(2) A requirement may, in particular, be imposed—

(a) so as to require the person concerned to take specified action; or

(b) so as to require him to refrain from taking specified action.

(3) A requirement may extend to activities which are not regulated activities.

(4) A requirement may be imposed by reference to the person's relationship with—

(a) his group; or

(b) other members of his group.

(5) A requirement expires at the end of such period as the Authority may specify in the permission.

(6) But subsection (5) does not affect the Authority's powers under section 44 or 45.

Variation and cancellation of Part IV permission

Variation etc. at request of authorised person.

44.—(1) The Authority may, on the application of an authorised person with a Part IV permission, vary the permission by—

(a) adding a regulated activity to those for which it gives permission;

(b) removing a regulated activity from those for which it gives permission;

(c) varying the description of a regulated activity for which it gives permission;

(d) cancelling a requirement imposed under section 43; or

(e) varying such a requirement.

(2) The Authority may, on the application of an authorised person with a Part IV permission, cancel the permission.

(3) The Authority may refuse an application under this section if it appears to it—

(a) that the interests of consumers, or potential consumers, would be adversely affected if the application were to be granted; and

(b) that it is desirable in the interests of consumers, or potential consumers, for the application to be refused.

(4) If, as a result of a variation of a Part IV permission under this section, there are no longer any regulated activities for which the authorised person concerned has permission, the Authority must, once it is satisfied that it is no longer necessary to keep the permission in force, cancel it.

(5) The Authority's power to vary a Part IV permission under this section extends to including any provision in the permission as varied that could be included if a fresh permission were being given in response to an application under section 40.

Variation etc. on the Authority's own initiative.

45.—(1) The Authority may exercise its power under this section in relation to an authorised person if it appears to it that—

(a) he is failing, or is likely to fail, to satisfy the threshold conditions;

(b) he has failed, during a period of at least 12 months, to carry on a regulated activity for which he has a Part IV permission; or

(c) it is desirable to exercise that power in order to protect the interests of consumers or potential consumers.

(2) The Authority's power under this section is the power to vary a Part IV permission in any of the ways mentioned in section 44(1) or to cancel it.

(3) If, as a result of a variation of a Part IV permission under this section, there are no longer any regulated activities for which the authorised person concerned has permission, the Authority must, once it is satisfied that it is no longer necessary to keep the permission in force, cancel it.

(4) The Authority's power to vary a Part IV permission under this section extends to including any provision in the permission as varied that could be included if a fresh permission were being given in response to an application under section 40.

(5) The Authority's power under this section is referred to in this Part as its own-initiative power.

Variation of permission on acquisition of control.

46.—(1) This section applies if it appears to the Authority that—

(a) a person has acquired control over a UK authorised person who has a Part IV permission; but

(b) there are no grounds for exercising its own-initiative power.

(2) If it appears to the Authority that the likely effect of the acquisition of control on the authorised person, or on any of its activities, is uncertain the Authority may vary the authorised person's permission by—

(a) imposing a requirement of a kind that could be imposed under section 43 on giving permission; or

(b) varying a requirement included in the authorised person's permission under that section.

(3) Any reference to a person having acquired control is to be read in accordance with Part XII.

Exercise of power in support of overseas regulator.

47.—(1) The Authority's own-initiative power may be exercised in respect of an authorised person at the request of, or for the purpose of assisting, a regulator who is—

(a) outside the United Kingdom; and

(b) of a prescribed kind.

(2) Subsection (1) applies whether or not the Authority has powers which are exercisable in relation to the authorised person by virtue of any provision of Part XIII.

(3) If a request to the Authority for the exercise of its own-initiative power has been made by a regulator who is—

(a) outside the United Kingdom,

(b) of a prescribed kind, and

(c) acting in pursuance of provisions of a prescribed kind,

the Authority must, in deciding whether or not to exercise that power in response to the request, consider whether it is necessary to do so in order to comply with a Community obligation.

(4) In deciding in any case in which the Authority does not consider that the exercise of its own-initiative power is necessary in order to comply with a Community obligation, it may take into account in particular—

(a) whether in the country or territory of the regulator concerned, corresponding assistance would be given to a United Kingdom regulatory authority;

(b) whether the case concerns the breach of a law, or other requirement, which has no close parallel in the United Kingdom or involves the assertion of a jurisdiction not recognised by the United Kingdom;

(c) the seriousness of the case and its importance to persons in the United Kingdom;

(d) whether it is otherwise appropriate in the public interest to give the assistance sought.

(5) The Authority may decide not to exercise its own-initiative power, in response to a request, unless the regulator concerned undertakes to make such contribution towards the cost of its exercise as the Authority considers appropriate.

(6) Subsection (5) does not apply if the Authority decides that it is necessary for it to exercise its own-initiative power in order to comply with a Community obligation.

(7) In subsections (4) and (5) "request" means a request of a kind mentioned in subsection (1).

Prohibitions and restrictions.

48.—(1) This section applies if the Authority—

(a) on giving a person a Part IV permission, imposes an assets requirement on him; or

(b) varies an authorised person's Part IV permission so as to alter an assets requirement imposed on him or impose such a requirement on him.

(2) A person on whom an assets requirement is imposed is referred to in this section as "A".

(3) "Assets requirement" means a requirement under section 43—

(a) prohibiting the disposal of, or other dealing with, any of A's assets (whether in the United Kingdom or elsewhere) or restricting such disposals or dealings; or

(b) that all or any of A's assets, or all or any assets belonging to consumers but held by A or to his order, must be transferred to and held by a trustee approved by the Authority.

(4) If the Authority—

(a) imposes a requirement of the kind mentioned in subsection (3)(a), and

(b) gives notice of the requirement to any institution with whom A keeps an account,

the notice has the effects mentioned in subsection (5).

(5) Those effects are that—

(a) the institution does not act in breach of any contract with A if, having been instructed by A (or on his behalf) to transfer any sum or otherwise make any payment out of A's account, it refuses to do so in the reasonably held belief that complying with the instruction would be incompatible with the requirement; and

(b) if the institution complies with such an instruction, it is liable to pay to the Authority an amount equal to the amount transferred from, or otherwise paid out of, A's account in contravention of the requirement.

(6) If the Authority imposes a requirement of the kind mentioned in subsection (3)(b), no assets held by a person as trustee in accordance with the requirement may, while the requirement is in force, be released or dealt with except with the consent of the Authority.

(7) If, while a requirement of the kind mentioned in subsection (3)(b) is in force, A creates a charge over any assets of his held in accordance with the requirement, the charge is (to the extent that it confers security over the assets) void against the liquidator and any of A's creditors.

(8) Assets held by a person as trustee ("T") are to be taken to be held by T in accordance with a requirement mentioned in subsection (3)(b) only if—

(a) A has given T written notice that those assets are to be held by T in accordance with the requirement; or

(b) they are assets into which assets to which paragraph (a) applies have been transposed by T on the instructions of A.

(9) A person who contravenes subsection (6) is guilty of an offence and liable on summary conviction to a fine not exceeding level 5 on the standard scale.

(10) "Charge" includes a mortgage (or in Scotland a security over property).

(11) Subsections (6) and (8) do not affect any equitable interest or remedy in favour of a person who is a beneficiary of a trust as a result of a requirement of the kind mentioned in subsection (3)(b).

Connected persons

Persons connected with an applicant.

49.—(1) In considering—

(a) an application for a Part IV permission, or

(b) whether to vary or cancel a Part IV permission,

the Authority may have regard to any person appearing to it to be, or likely to be, in a relationship with the applicant or person given permission which is relevant.

(2) Before—

(a) giving permission in response to an application made by a person who is connected with an EEA firm, or

(b) cancelling or varying any permission given by the Authority to such a person,

the Authority must consult the firm's home state regulator.

(3) A person ("A") is connected with an EEA firm if—

(a) A is a subsidiary undertaking of the firm; or

(b) A is a subsidiary undertaking of a parent undertaking of the firm.

Additional permissions

Authority's duty to consider other permissions etc.

50.—(1) "Additional Part IV permission" means a Part IV permission which is in force in relation to an EEA firm, a Treaty firm or a person authorised as a result of paragraph 1(1) of Schedule 5.

(2) If the Authority is considering whether, and if so how, to exercise its own-initiative power under this Part in relation to an additional Part IV permission, it must take into account—

(a) the home State authorisation of the authorised person concerned;

(b) any relevant directive; and

(c) relevant provisions of the Treaty.

Procedure

Applications under this Part.

51.—(1) An application for a Part IV permission must—

(a) contain a statement of the regulated activity or regulated activities which the applicant proposes to carry on and for which he wishes to have permission; and

(b) give the address of a place in the United Kingdom for service on the applicant of any notice or other document which is required or authorised to be served on him under this Act.

(2) An application for the variation of a Part IV permission must contain a statement—

(a) of the desired variation; and

(b) of the regulated activity or regulated activities which the applicant proposes to carry on if his permission is varied.

(3) Any application under this Part must—

(a) be made in such manner as the Authority may direct; and

(b) contain, or be accompanied by, such other information as the Authority may reasonably require.

(4) At any time after receiving an application and before determining it, the Authority may require the applicant to provide it with such further information as it reasonably considers necessary to enable it to determine the application.

(5) Different directions may be given, and different requirements imposed, in relation to different applications or categories of application.

(6) The Authority may require an applicant to provide information which he is required to provide under this section in such form, or to verify it in such a way, as the Authority may direct.

Determination of applications.

52.—(1) An application under this Part must be determined by the Authority before the end of the period of six months beginning with the date on which it received the completed application.

(2) The Authority may determine an incomplete application if it considers it appropriate to do so; and it must in any event determine such an application within twelve months beginning with the date on which it received the application.

(3) The applicant may withdraw his application, by giving the Authority written notice, at any time before the Authority determines it.

(4) If the Authority grants an application for, or for variation of, a Part IV permission, it must give the applicant written notice.

(5) The notice must state the date from which the permission, or the variation, has effect.

(6) If the Authority proposes—

(a) to give a Part IV permission but to exercise its power under section 42(7)(a) or (b) or 43(1), or

(b) to vary a Part IV permission on the application of an authorised person but to exercise its power under any of those provisions (as a result of section 44(5)),

it must give the applicant a warning notice.

(7) If the Authority proposes to refuse an application made under this Part, it must (unless subsection (8) applies) give the applicant a warning notice.

(8) This subsection applies if it appears to the Authority that—

(a) the applicant is an EEA firm; and

(b) the application is made with a view to carrying on a regulated activity in a manner in which the applicant is, or would be, entitled to carry on that activity in the exercise of an EEA right whether through a United Kingdom branch or by providing services in the United Kingdom.

(9) If the Authority decides—

(a) to give a Part IV permission but to exercise its power under section 42(7)(a) or (b) or 43(1),

(b) to vary a Part IV permission on the application of an authorised person but to exercise its power under any of those provisions (as a result of section 44(5)), or

(c) to refuse an application under this Part,

it must give the applicant a decision notice.

Exercise of own-initiative power: procedure.

53.—(1) This section applies to an exercise of the Authority's own-initiative power to vary an authorised person's Part IV permission.

(2) A variation takes effect—

(a) immediately, if the notice given under subsection (4) states that that is the case;

(b) on such date as may be specified in the notice; or

(c) if no date is specified in the notice, when the matter to which the notice relates is no longer open to review.

(3) A variation may be expressed to take effect immediately (or on a specified date) only if the Authority, having regard to the ground on which it is exercising its own-initiative power, reasonably considers that it is necessary for the variation to take effect immediately (or on that date).

(4) If the Authority proposes to vary the Part IV permission, or varies it with immediate effect, it must give the authorised person written notice.

(5) The notice must—

(a) give details of the variation;

(b) state the Authority's reasons for the variation and for its determination as to when the variation takes effect;

(c) inform the authorised person that he may make representations to the Authority within such period as may be specified in the notice (whether or not he has referred the matter to the Tribunal);

(d) inform him of when the variation takes effect; and

(e) inform him of his right to refer the matter to the Tribunal.

(6) The Authority may extend the period allowed under the notice for making representations.

(7) If, having considered any representations made by the authorised person, the Authority decides—

(a) to vary the permission in the way proposed, or

(b) if the permission has been varied, not to rescind the variation,

it must give him written notice.

(8) If, having considered any representations made by the authorised person, the Authority decides—

(a) not to vary the permission in the way proposed,

(b) to vary the permission in a different way, or

(c) to rescind a variation which has effect,

it must give him written notice.

(9) A notice given under subsection (7) must inform the authorised person of his right to refer the matter to the Tribunal.

(10) A notice under subsection (8)(b) must comply with subsection (5).

(11) If a notice informs a person of his right to refer a matter to the Tribunal, it must give an indication of the procedure on such a reference.

(12) For the purposes of subsection (2)(c), whether a matter is open to review is to be determined in accordance with section 391(8).

Cancellation of Part IV permission: procedure.

54.—(1) If the Authority proposes to cancel an authorised person's Part IV permission otherwise than at his request, it must give him a warning notice.

(2) If the Authority decides to cancel an authorised person's Part IV permission otherwise than at his request, it must give him a decision notice.

References to the Tribunal

Right to refer matters to the Tribunal.

55.—(1) An applicant who is aggrieved by the determination of an application made under this Part may refer the matter to the Tribunal.

(2) An authorised person who is aggrieved by the exercise of the Authority's own-initiative power may refer the matter to the Tribunal.

PART V

PERFORMANCE OF REGULATED ACTIVITIES

Prohibition orders

Prohibition orders.

56.—(1) Subsection (2) applies if it appears to the Authority that an individual is not a fit and proper person to perform functions in relation to a regulated activity carried on by an authorised person.

(2) The Authority may make an order ("a prohibition order") prohibiting the individual from performing a specified function, any function falling within a specified description or any function.

(3) A prohibition order may relate to—

(a) a specified regulated activity, any regulated activity falling within a specified description or all regulated activities;

(b) authorised persons generally or any person within a specified class of authorised person.

(4) An individual who performs or agrees to perform a function in breach of a prohibition order is guilty of an offence and liable on summary conviction to a fine not exceeding level 5 on the standard scale.

(5) In proceedings for an offence under subsection (4) it is a defence for the accused to show that he took all reasonable precautions and exercised all due diligence to avoid committing the offence.

(6) An authorised person must take reasonable care to ensure that no function of his, in relation to the carrying on of a regulated activity, is performed by a person who is prohibited from performing that function by a prohibition order.

(7) The Authority may, on the application of the individual named in a prohibition order, vary or revoke it.

(8) This section applies to the performance of functions in relation to a regulated activity carried on by—

(a) a person who is an exempt person in relation to that activity, and

(b) a person to whom, as a result of Part XX, the general prohibition does not apply in relation to that activity,

as it applies to the performance of functions in relation to a regulated activity carried on by an authorised person.

(9) "Specified" means specified in the prohibition order.

Prohibition orders: procedure and right to refer to Tribunal.

57.—(1) If the Authority proposes to make a prohibition order it must give the individual concerned a warning notice.

(2) The warning notice must set out the terms of the prohibition.

(3) If the Authority decides to make a prohibition order it must give the individual concerned a decision notice.

(4) The decision notice must—

(a) name the individual to whom the prohibition order applies;

(b) set out the terms of the order; and

(c) be given to the individual named in the order.

(5) A person against whom a decision to make a prohibition order is made may refer the matter to the Tribunal.

Applications relating to prohibitions: procedure and right to refer to Tribunal.

58.—(1) This section applies to an application for the variation or revocation of a prohibition order.

(2) If the Authority decides to grant the application, it must give the applicant written notice of its decision.

(3) If the Authority proposes to refuse the application, it must give the applicant a warning notice.

(4) If the Authority decides to refuse the application, it must give the applicant a decision notice.

(5) If the Authority gives the applicant a decision notice, he may refer the matter to the Tribunal.

Approval

Approval for particular arrangements.

59.—(1) An authorised person ("A") must take reasonable care to ensure that no person performs a controlled function under an arrangement entered into by A in relation to the carrying on by A of a regulated activity, unless the Authority approves the performance by that person of the controlled function to which the arrangement relates.

(2) An authorised person ("A") must take reasonable care to ensure that no person performs a controlled function under an arrangement entered into by a contractor of A in relation to the carrying on by A of a regulated activity, unless the Authority approves the performance by that person of the controlled function to which the arrangement relates.

(3) "Controlled function" means a function of a description specified in rules.

(4) The Authority may specify a description of function under subsection (3) only if, in relation to the carrying on of a regulated activity by an authorised person, it is satisfied that the first, second or third condition is met.

(5) The first condition is that the function is likely to enable the person responsible for its performance to exercise a significant influence on the conduct of the authorised person's affairs, so far as relating to the regulated activity.

(6) The second condition is that the function will involve the person performing it in dealing with customers of the authorised person in a manner substantially connected with the carrying on of the regulated activity.

(7) The third condition is that the function will involve the person performing it in dealing with property of customers of the authorised person in a manner substantially connected with the carrying on of the regulated activity.

(8) Neither subsection (1) nor subsection (2) applies to an arrangement which allows a person to perform a function if the question of whether he is a fit and proper person to perform the function is reserved under any of the single market directives to an authority in a country or territory outside the United Kingdom.

(9) In determining whether the first condition is met, the Authority may take into account the likely consequences of a failure to discharge that function properly.

(10) "Arrangement"—

(a) means any kind of arrangement for the performance of a function of A which is entered into by A or any contractor of his with another person; and

(b) includes, in particular, that other person's appointment to an office, his becoming a partner or his employment (whether under a contract of service or otherwise).

(11) "Customer", in relation to an authorised person, means a person who is using, or who is or may be contemplating using, any of the services provided by the authorised person.

Applications for approval.

60.—(1) An application for the Authority's approval under section 59 may be made by the authorised person concerned.

(2) The application must—

(a) be made in such manner as the Authority may direct; and

(b) contain, or be accompanied by, such information as the Authority may reasonably require.

(3) At any time after receiving the application and before determining it, the Authority may require the applicant to provide it with such further information as it reasonably considers necessary to enable it to determine the application.

(4) The Authority may require an applicant to present information which he is required to give under this section in such form, or to verify it in such a way, as the Authority may direct.

(5) Different directions may be given, and different requirements imposed, in relation to different applications or categories of application.

(6) "The authorised person concerned" includes a person who has applied for permission under Part IV and will be the authorised person concerned if permission is given.

Determination of applications.

61.—(1) The Authority may grant an application made under section 60 only if it is satisfied that the person in respect of whom the application is made ("the candidate") is a fit and proper person to perform the function to which the application relates.

(2) In deciding that question, the Authority may have regard (among other things) to whether the candidate, or any person who may perform a function on his behalf—

(a) has obtained a qualification,

(b) has undergone, or is undergoing, training, or

(c) possesses a level of competence,

required by general rules in relation to persons performing functions of the kind to which the application relates.

(3) The Authority must, before the end of the period of three months beginning with the date on which it receives an application made under section 60 ("the period for consideration"), determine whether—

(a) to grant the application; or

(b) to give a warning notice under section 62(2).

(4) If the Authority imposes a requirement under section 60(3), the period for consideration stops running on the day on which the requirement is imposed but starts running again—

(a) on the day on which the required information is received by the Authority; or

(b) if the information is not provided on a single day, on the last of the days on which it is received by the Authority.

(5) A person who makes an application under section 60 may withdraw his application by giving written notice to the Authority at any time before the Authority determines it, but only with the consent of—

(a) the candidate; and

(b) the person by whom the candidate is to be retained to perform the function concerned, if not the applicant.

Applications for approval: procedure and right to refer to Tribunal.

62.—(1) If the Authority decides to grant an application made under section 60 ("an application"), it must give written notice of its decision to each of the interested parties.

(2) If the Authority proposes to refuse an application, it must give a warning notice to each of the interested parties.

(3) If the Authority decides to refuse an application, it must give a decision notice to each of the interested parties.

(4) If the Authority decides to refuse an application, each of the interested parties may refer the matter to the Tribunal.

(5) "The interested parties", in relation to an application, are—

(a) the applicant;

(b) the person in respect of whom the application is made ("A"); and

(c) the person by whom A's services are to be retained, if not the applicant.

Withdrawal of approval.

63.—(1) The Authority may withdraw an approval given under section 59 if it considers that the person in respect of whom it was given is not a fit and proper person to perform the function to which the approval relates.

(2) When considering whether to withdraw its approval, the Authority may take into account any matter which it could take into account if it were considering an application made under section 60 in respect of the performance of the function to which the approval relates.

(3) If the Authority proposes to withdraw its approval, it must give each of the interested parties a warning notice.

(4) If the Authority decides to withdraw its approval, it must give each of the interested parties a decision notice.

(5) If the Authority decides to withdraw its approval, each of the interested parties may refer the matter to the Tribunal.

(6) "The interested parties", in relation to an approval, are—

(a) the person on whose application it was given ("A");

(b) the person in respect of whom it was given ("B"); and

(c) the person by whom B's services are retained, if not A.

Conduct

Conduct: statements and codes.

64.—(1) The Authority may issue statements of principle with respect to the conduct expected of approved persons.

(2) If the Authority issues a statement of principle under subsection (1), it must also issue a code of practice for the purpose of helping to determine whether or not a person's conduct complies with the statement of principle.

(3) A code issued under subsection (2) may specify—

(a) descriptions of conduct which, in the opinion of the Authority, comply with a statement of principle;

(b) descriptions of conduct which, in the opinion of the Authority, do not comply with a statement of principle;

(c) factors which, in the opinion of the Authority, are to be taken into account in determining whether or not a person's conduct complies with a statement of principle.

(4) The Authority may at any time alter or replace a statement or code issued under this section.

(5) If a statement or code is altered or replaced, the altered or replacement statement or code must be issued by the Authority.

(6) A statement or code issued under this section must be published by the Authority in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(7) A code published under this section and in force at the time when any particular conduct takes place may be relied on so far as it tends to establish whether or not that conduct complies with a statement of principle.

(8) Failure to comply with a statement of principle under this section does not of itself give rise to any right of action by persons affected or affect the validity of any transaction.

(9) A person is not to be taken to have failed to comply with a statement of principle if he shows that, at the time of the alleged failure, it or its associated code of practice had not been published.

(10) The Authority must, without delay, give the Treasury a copy of any statement or code which it publishes under this section.

(11) The power under this section to issue statements of principle and codes of practice—

(a) includes power to make different provision in relation to persons, cases or circumstances of different descriptions; and

(b) is to be treated for the purposes of section 2(4)(a) as part of the Authority's rule-making functions.

(12) The Authority may charge a reasonable fee for providing a person with a copy of a statement or code published under this section.

(13) "Approved person" means a person in relation to whom the Authority has given its approval under section 59.

Statements and codes: procedure.

65.—(1) Before issuing a statement or code under section 64, the Authority must publish a draft of it in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(2) The draft must be accompanied by —

(a) a cost benefit analysis; and

(b) notice that representations about the proposal may be made to the Authority within a specified time.

(3) Before issuing the proposed statement or code, the Authority must have regard to any representations made to it in accordance with subsection (2)(b).

(4) If the Authority issues the proposed statement or code it must publish an account, in general terms, of—

(a) the representations made to it in accordance with subsection (2)(b); and

(b) its response to them.

(5) If the statement or code differs from the draft published under subsection (1) in a way which is, in the opinion of the Authority, significant—

(a) the Authority must (in addition to complying with subsection (4)) publish details of the difference; and

(b) those details must be accompanied by a cost benefit analysis.

(6) Neither subsection (2)(a) nor subsection (5)(b) applies if the Authority considers—

(a) that, making the appropriate comparison, there will be no increase in costs; or

(b) that, making that comparison, there will be an increase in costs but the increase will be of minimal significance.

(7) Subsections (1) to (6) do not apply if the Authority considers that the delay involved in complying with them would prejudice the interests of consumers.

(8) A statement or code must state that it is issued under section 64.

(9) The Authority may charge a reasonable fee for providing a copy of a draft published under subsection (1).

(10) This section also applies to a proposal to alter or replace a statement or code.

(11) "Cost benefit analysis" means an estimate of the costs together with an analysis of the benefits that will arise—

(a) if the proposed statement or code is issued; or

(b) if subsection (5)(b) applies, from the statement or code that has been issued.

(12) "The appropriate comparison" means—

(a) in relation to subsection (2)(a), a comparison between the overall position if the statement or code is issued and the overall position if it is not issued;

(b) in relation to subsection (5)(b), a comparison between the overall position after the issuing of the statement or code and the overall position before it was issued.

Disciplinary powers.

66.—(1) The Authority may take action against a person under this section if—

(a) it appears to the Authority that he is guilty of misconduct; and

(b) the Authority is satisfied that it is appropriate in all the circumstances to take action against him.

(2) A person is guilty of misconduct if, while an approved person—

(a) he has failed to comply with a statement of principle issued under section 64; or

(b) he has been knowingly concerned in a contravention by the relevant authorised person of a requirement imposed on that authorised person by or under this Act.

(3) If the Authority is entitled to take action under this section against a person, it may—

(a) impose a penalty on him of such amount as it considers appropriate; or

(b) publish a statement of his misconduct.

(4) The Authority may not take action under this section after the end of the period of two years beginning with the first day on which the Authority knew of the misconduct, unless proceedings in respect of it against the person concerned were begun before the end of that period.

(5) For the purposes of subsection (4)—

(a) the Authority is to be treated as knowing of misconduct if it has information from which the misconduct can reasonably be inferred; and

(b) proceedings against a person in respect of misconduct are to be treated as begun when a warning notice is given to him under section 67(1).

(6) "Approved person" has the same meaning as in section 64.

(7) "Relevant authorised person", in relation to an approved person, means the person on whose application approval under section 59 was given.

Disciplinary measures: procedure and right to refer to Tribunal.

67.—(1) If the Authority proposes to take action against a person under section 66, it must give him a warning notice.

(2) A warning notice about a proposal to impose a penalty must state the amount of the penalty.

(3) A warning notice about a proposal to publish a statement must set out the terms of the statement.

(4) If the Authority decides to take action against a person under section 66, it must give him a decision notice.

(5) A decision notice about the imposition of a penalty must state the amount of the penalty.

(6) A decision notice about the publication of a statement must set out the terms of the statement.

(7) If the Authority decides to take action against a person under section 66, he may refer the matter to the Tribunal.

Publication.

68. After a statement under section 66 is published, the Authority must send a copy of it to the person concerned and to any person to whom a copy of the decision notice was given.

Statement of policy.

69.—(1) The Authority must prepare and issue a statement of its policy with respect to—

(a) the imposition of penalties under section 66; and

(b) the amount of penalties under that section.

(2) The Authority's policy in determining what the amount of a penalty should be must include having regard to—

(a) the seriousness of the misconduct in question in relation to the nature of the principle or requirement concerned;

(b) the extent to which that misconduct was deliberate or reckless; and

(c) whether the person on whom the penalty is to be imposed is an individual.

(3) The Authority may at any time alter or replace a statement issued under this section.

(4) If a statement issued under this section is altered or replaced, the Authority must issue the altered or replacement statement.

(5) The Authority must, without delay, give the Treasury a copy of any statement which it publishes under this section.

(6) A statement issued under this section must be published by the Authority in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(7) The Authority may charge a reasonable fee for providing a person with a copy of the statement.

(8) In exercising, or deciding whether to exercise, its power under section 66 in the case of any particular misconduct, the Authority must have regard to any statement of policy published under this section and in force at the time when the misconduct in question occurred.

Statements of policy: procedure.

70.—(1) Before issuing a statement under section 69, the Authority must publish a draft of the proposed statement in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(2) The draft must be accompanied by notice that representations about the proposal may be made to the Authority within a specified time.

(3) Before issuing the proposed statement, the Authority must have regard to any representations made to it in accordance with subsection (2).

(4) If the Authority issues the proposed statement it must publish an account, in general terms, of—

(a) the representations made to it in accordance with subsection (2); and

(b) its response to them.

(5) If the statement differs from the draft published under subsection (1) in a way which is, in the opinion of the Authority, significant, the Authority must (in addition to complying with subsection (4)) publish details of the difference.

(6) The Authority may charge a reasonable fee for providing a person with a copy of a draft published under subsection (1).

(7) This section also applies to a proposal to alter or replace a statement.

Breach of statutory duty

Actions for damages.

71.—(1) A contravention of section 56(6) or 59(1) or (2) is actionable at the suit of a private person who suffers loss as a result of the contravention, subject to the defences and other incidents applying to actions for breach of statutory duty.

(2) In prescribed cases, a contravention of that kind which would be actionable at the suit of a private person is actionable at the suit of a person who is not a private person, subject to the defences and other incidents applying to actions for breach of statutory duty.

(3) "Private person" has such meaning as may be prescribed.

Part VI

Official Listing

The competent authority

The competent authority.

72.—(1) On the coming into force of this section, the functions conferred on the competent authority by this Part are to be exercised by the Authority.

(2) Schedule 7 modifies this Act in its application to the Authority when it acts as the competent authority.

(3) But provision is made by Schedule 8 allowing some or all of those functions to be transferred by the Treasury so as to be exercisable by another person.

General duty of the competent authority.

73.—(1) In discharging its general functions the competent authority must have regard to—

(a) the need to use its resources in the most efficient and economic way;

(b) the principle that a burden or restriction which is imposed on a person should be proportionate to the benefits, considered in general terms, which are expected to arise from the imposition of that burden or restriction;

(c) the desirability of facilitating innovation in respect of listed securities;

(d) the international character of capital markets and the desirability of maintaining the competitive position of the United Kingdom;

(e) the need to minimise the adverse effects on competition of anything done in the discharge of those functions;

(f) the desirability of facilitating competition in relation to listed securities.

(2) The competent authority's general functions are—

(a) its function of making rules under this Part (considered as a whole);

(b) its functions in relation to the giving of general guidance in relation to this Part (considered as a whole);

(c) its function of determining the general policy and principles by reference to which it performs particular functions under this Part.

The official list

The official list.

74.—(1) The competent authority must maintain the official list.

(2) The competent authority may admit to the official list such securities and other things as it considers appropriate.

(3) But—

(a) nothing may be admitted to the official list except in accordance with this Part; and

(b) the Treasury may by order provide that anything which falls within a description or category specified in the order may not be admitted to the official list.

(4) The competent authority may make rules ("listing rules") for the purposes of this Part.

(5) In the following provisions of this Part—

"security" means anything which has been, or may be, admitted to the official list; and

"listing" means being included in the official list in accordance with this Part.

Listing

Applications for listing.

75.—(1) Admission to the official list may be granted only on an application made to the competent authority in such manner as may be required by listing rules.

(2) No application for listing may be entertained by the competent authority unless it is made by, or with the consent of, the issuer of the securities concerned.

(3) No application for listing may be entertained by the competent authority in respect of securities which are to be issued by a body of a prescribed kind.

(4) The competent authority may not grant an application for listing unless it is satisfied that—

(a) the requirements of listing rules (so far as they apply to the application), and

(b) any other requirements imposed by the authority in relation to the application,

are complied with.

(5) An application for listing may be refused if, for a reason relating to the issuer, the competent authority considers that granting it would be detrimental to the interests of investors.

(6) An application for listing securities which are already officially listed in another EEA State may be refused if the issuer has failed to comply with any obligations to which he is subject as a result of that listing.

Decision on application.

76.—(1) The competent authority must notify the applicant of its decision on an application for listing—

(a) before the end of the period of six months beginning with the date on which the application is received; or

(b) if within that period the authority has required the applicant to provide further information in connection with the application, before the end of the period of six months beginning with the date on which that information is provided.

(2) If the competent authority fails to comply with subsection (1), it is to be taken to have decided to refuse the application.

(3) If the competent authority decides to grant an application for listing, it must give the applicant written notice.

(4) If the competent authority proposes to refuse an application for listing, it must give the applicant a warning notice.

(5) If the competent authority decides to refuse an application for listing, it must give the applicant a decision notice.

(6) If the competent authority decides to refuse an application for listing, the applicant may refer the matter to the Tribunal.

(7) If securities are admitted to the official list, their admission may not be called in question on the ground that any requirement or condition for their admission has not been complied with.

Discontinuance and suspension of listing.

77.—(1) The competent authority may, in accordance with listing rules, discontinue the listing of any securities if satisfied that there are special circumstances which preclude normal regular dealings in them.

(2) The competent authority may, in accordance with listing rules, suspend the listing of any securities.

(3) If securities are suspended under subsection (2) they are to be treated, for the purposes of sections 96 and 99, as still being listed.

(4) This section applies to securities whenever they were admitted to the official list.

(5) If the competent authority discontinues or suspends the listing of any securities, the issuer may refer the matter to the Tribunal.

Discontinuance or suspension: procedure.

78.—(1) A discontinuance or suspension takes effect—

(a) immediately, if the notice under subsection (2) states that that is the case;

(b) in any other case, on such date as may be specified in that notice.

(2) If the competent authority—

(a) proposes to discontinue or suspend the listing of securities, or

(b) discontinues or suspends the listing of securities with immediate effect,

it must give the issuer of the securities written notice.

(3) The notice must—

(a) give details of the discontinuance or suspension;

(b) state the competent authority's reasons for the discontinuance or suspension and for choosing the date on which it took effect or takes effect;

(c) inform the issuer of the securities that he may make representations to the competent authority within such period as may be specified in the notice (whether or not he has referred the matter to the Tribunal);

(d) inform him of the date on which the discontinuance or suspension took effect or will take effect; and

(e) inform him of his right to refer the matter to the Tribunal.

(4) The competent authority may extend the period within which representations may be made to it.

(5) If, having considered any representations made by the issuer of the securities, the competent authority decides—

(a) to discontinue or suspend the listing of the securities, or

(b) if the discontinuance or suspension has taken effect, not to cancel it,

the competent authority must give the issuer of the securities written notice.

(6) A notice given under subsection (5) must inform the issuer of the securities of his right to refer the matter to the Tribunal.

(7) If a notice informs a person of his right to refer a matter to the Tribunal, it must give an indication of the procedure on such a reference.

(8) If the competent authority decides—

(a) not to discontinue or suspend the listing of the securities, or

(b) if the discontinuance or suspension has taken effect, to cancel it,

the competent authority must give the issuer of the securities written notice.

(9) The effect of cancelling a discontinuance is that the securities concerned are to be readmitted, without more, to the official list.

(10) If the competent authority has suspended the listing of securities and proposes to refuse an application by the issuer of the securities for the cancellation of the suspension, it must give him a warning notice.

(11) The competent authority must, having considered any representations made in response to the warning notice—

(a) if it decides to refuse the application, give the issuer of the securities a decision notice;

(b) if it grants the application, give him written notice of its decision.

(12) If the competent authority decides to refuse an application for the cancellation of the suspension of listed securities, the applicant may refer the matter to the Tribunal.

(13) "Discontinuance" means a discontinuance of listing under section 77(1).

(14) "Suspension" means a suspension of listing under section 77(2).

Listing particulars

Listing particulars and other documents.

79.—(1) Listing rules may provide that securities (other than new securities) of a kind specified in the rules may not be admitted to the official list unless—

(a) listing particulars have been submitted to, and approved by, the competent authority and published; or

(b) in such cases as may be specified by listing rules, such document (other than listing particulars or a prospectus of a kind required by listing rules) as may be so specified has been published.

(2) "Listing particulars" means a document in such form and containing such information as may be specified in listing rules.

(3) For the purposes of this Part, the persons responsible for listing particulars are to be determined in accordance with regulations made by the Treasury.

(4) Nothing in this section affects the competent authority's general power to make listing rules.

General duty of disclosure in listing particulars.

80.—(1) Listing particulars submitted to the competent authority under section 79 must contain all such information as investors and their professional advisers would reasonably require, and reasonably expect to find there, for the purpose of making an informed assessment of—

(a) the assets and liabilities, financial position, profits and losses, and prospects of the issuer of the securities; and

(b) the rights attaching to the securities.

(2) That information is required in addition to any information required by—

(a) listing rules, or

(b) the competent authority,

as a condition of the admission of the securities to the official list.

(3) Subsection (1) applies only to information—

(a) within the knowledge of any person responsible for the listing particulars; or

(b) which it would be reasonable for him to obtain by making enquiries.

(4) In determining what information subsection (1) requires to be included in listing particulars, regard must be had (in particular) to—

(a) the nature of the securities and their issuer;

(b) the nature of the persons likely to consider acquiring them;

(c) the fact that certain matters may reasonably be expected to be within the knowledge of professional advisers of a kind which persons likely to acquire the securities may reasonably be expected to consult; and

(d) any information available to investors or their professional advisers as a result of requirements imposed on the issuer of the securities by a recognised investment exchange, by listing rules or by or under any other enactment.

Supplementary listing particulars.

81.—(1) If at any time after the preparation of listing particulars which have been submitted to the competent authority under section 79 and before the commencement of dealings in the securities concerned following their admission to the official list—

(a) there is a significant change affecting any matter contained in those particulars the inclusion of which was required by—

(i) section 80,

(ii) listing rules, or

(iii) the competent authority, or

(b) a significant new matter arises, the inclusion of information in respect of which would have been so required if it had arisen when the particulars were prepared,

the issuer must, in accordance with listing rules, submit supplementary listing particulars of the change or new matter to the competent authority, for its approval and, if they are approved, publish them.

(2) "Significant" means significant for the purpose of making an informed assessment of the kind mentioned in section 80(1).

(3) If the issuer of the securities is not aware of the change or new matter in question, he is not under a duty to comply with subsection (1) unless he is notified of the change or new matter by a person responsible for the listing particulars.

(4) But it is the duty of any person responsible for those particulars who is aware of such a change or new matter to give notice of it to the issuer.

(5) Subsection (1) applies also as respects matters contained in any supplementary listing particulars previously published under this section in respect of the securities in question.

Exemptions from disclosure.

82.—(1) The competent authority may authorise the omission from listing particulars of any information, the inclusion of which would otherwise be required by section 80 or 81, on the ground—

(a) that its disclosure would be contrary to the public interest;

(b) that its disclosure would be seriously detrimental to the issuer; or

(c) in the case of securities of a kind specified in listing rules, that its disclosure is unnecessary for persons of the kind who may be expected normally to buy or deal in securities of that kind.

(2) But—

(a) no authority may be granted under subsection (1)(b) in respect of essential information; and

(b) no authority granted under subsection (1)(b) extends to any such information.

(3) The Secretary of State or the Treasury may issue a certificate to the effect that the disclosure of any information (including information that would otherwise have to be included in listing particulars for which they are themselves responsible) would be contrary to the public interest.

(4) The competent authority is entitled to act on any such certificate in exercising its powers under subsection (1)(a).

(5) This section does not affect any powers of the competent authority under listing rules made as a result of section 101(2).

(6) "Essential information" means information which a person considering acquiring securities of the kind in question would be likely to need in order not to be misled about any facts which it is essential for him to know in order to make an informed assessment.

(7) "Listing particulars" includes supplementary listing particulars.

Registration of listing particulars.

83.—(1) On or before the date on which listing particulars are published as required by listing rules, a copy of the particulars must be delivered for registration to the registrar of companies.

(2) A statement that a copy has been delivered to the registrar must be included in the listing particulars when they are published.

(3) If there has been a failure to comply with subsection (1) in relation to listing particulars which have been published—

(a) the issuer of the securities in question, and

(b) any person who is a party to the publication and aware of the failure,

is guilty of an offence.

(4) A person guilty of an offence under subsection (3) is liable—

(a) on summary conviction, to a fine not exceeding the statutory maximum;

(b) on conviction on indictment, to a fine.

(5) "Listing particulars" includes supplementary listing particulars.

(6) "The registrar of companies" means—

(a) if the securities are, or are to be, issued by a company incorporated in Great Britain whose registered office is in England and Wales, the registrar of companies in England and Wales;

(b) if the securities are, or are to be, issued by a company incorporated in Great Britain whose registered office is in Scotland, the registrar of companies in Scotland;

(c) if the securities are, or are to be, issued by a company incorporated in Northern Ireland, the registrar of companies for Northern Ireland; and

(d) in any other case, any of those registrars.

Prospectuses

Prospectuses.

84.—(1) Listing rules must provide that no new securities for which an application for listing has been made may be admitted to the official list unless a prospectus has been submitted to, and approved by, the competent authority and published.

(2) "New securities" means securities which are to be offered to the public in the United Kingdom for the first time before admission to the official list.

(3) "Prospectus" means a prospectus in such form and containing such information as may be specified in listing rules.

(4) Nothing in this section affects the competent authority's general power to make listing rules.

Publication of prospectus.

85.—(1) If listing rules made under section 84 require a prospectus to be published before particular new securities are admitted to the official list, it is unlawful for any of those securities to be offered to the public in the United Kingdom before the required prospectus is published.

(2) A person who contravenes subsection (1) is guilty of an offence and liable—

(a) on summary conviction, to imprisonment for a term not exceeding three months or a fine not exceeding level 5 on the standard scale;

(b) on conviction on indictment, to imprisonment for a term not exceeding two years or a fine, or both.

(3) A person is not to be regarded as contravening subsection (1) merely because a prospectus does not fully comply with the requirements of listing rules as to its form or content.

(4) But subsection (3) does not affect the question whether any person is liable to pay compensation under section 90.

(5) Any contravention of subsection (1) is actionable, at the suit of a person who suffers loss as a result of the contravention, subject to the defences and other incidents applying to actions for breach of statutory duty.

Application of this Part to prospectuses.

86.—(1) The provisions of this Part apply in relation to a prospectus required by listing rules as they apply in relation to listing particulars.

(2) In this Part—

(a) any reference to listing particulars is to be read as including a reference to a prospectus; and

(b) any reference to supplementary listing particulars is to be read as including a reference to a supplementary prospectus.

Approval of prospectus where no application for listing.

87.—(1) Listing rules may provide for a prospectus to be submitted to and approved by the competent authority if—

(a) securities are to be offered to the public in the United Kingdom for the first time;

(b) no application for listing of the securities has been made under this Part; and

(c) the prospectus is submitted by, or with the consent of, the issuer of the securities.

(2) "Non-listing prospectus" means a prospectus submitted to the competent authority as a result of any listing rules made under subsection (1).

(3) Listing rules made under subsection (1) may make provision—

(a) as to the information to be contained in, and the form of, a non-listing prospectus; and

(b) as to the timing and manner of publication of a non-listing prospectus.

(4) The power conferred by subsection (3)(b) is subject to such provision made by or under any other enactment as the Treasury may by order specify.

(5) Schedule 9 modifies provisions of this Part as they apply in relation to non-listing prospectuses.

Sponsors

Sponsors.

88.—(1) Listing rules may require a person to make arrangements with a sponsor for the performance by the sponsor of such services in relation to him as may be specified in the rules.

(2) "Sponsor" means a person approved by the competent authority for the purposes of the rules.

(3) Listing rules made by virtue of subsection (1) may—

(a) provide for the competent authority to maintain a list of sponsors;

(b) specify services which must be performed by a sponsor;

(c) impose requirements on a sponsor in relation to the provision of services or specified services;

(d) specify the circumstances in which a person is qualified for being approved as a sponsor.

(4) If the competent authority proposes—

(a) to refuse a person's application for approval as a sponsor, or

(b) to cancel a person's approval as a sponsor,

it must give him a warning notice.

(5) If, after considering any representations made in response to the warning notice, the competent authority decides—

(a) to grant the application for approval, or

(b) not to cancel the approval,

it must give the person concerned, and any person to whom a copy of the warning notice was given, written notice of its decision.

(6) If, after considering any representations made in response to the warning notice, the competent authority decides—

(a) to refuse to grant the application for approval, or

(b) to cancel the approval,

it must give the person concerned a decision notice.

(7) A person to whom a decision notice is given under this section may refer the matter to the Tribunal.

Public censure of sponsor.

89.—(1) Listing rules may make provision for the competent authority, if it considers that a sponsor has contravened a requirement imposed on him by rules made as a result of section 88(3)(c), to publish a statement to that effect.

(2) If the competent authority proposes to publish a statement it must give the sponsor a warning notice setting out the terms of the proposed statement.

(3) If, after considering any representations made in response to the warning notice, the competent authority decides to make the proposed statement, it must give the sponsor a decision notice setting out the terms of the statement.

(4) A sponsor to whom a decision notice is given under this section may refer the matter to the Tribunal.

Compensation

Compensation for false or misleading particulars.

90.—(1) Any person responsible for listing particulars is liable to pay compensation to a person who has—

(a) acquired securities to which the particulars apply; and

(b) suffered loss in respect of them as a result of—

(i) any untrue or misleading statement in the particulars; or

(ii) the omission from the particulars of any matter required to be included by section 80 or 81.

(2) Subsection (1) is subject to exemptions provided by Schedule 10.

(3) If listing particulars are required to include information about the absence of a particular matter, the omission from the particulars of that information is to be treated as a statement in the listing particulars that there is no such matter.

(4) Any person who fails to comply with section 81 is liable to pay compensation to any person who has—

(a) acquired securities of the kind in question; and

(b) suffered loss in respect of them as a result of the failure.

(5) Subsection (4) is subject to exemptions provided by Schedule 10.

(6) This section does not affect any liability which may be incurred apart from this section.

(7) References in this section to the acquisition by a person of securities include references to his contracting to acquire them or any interest in them.

(8) No person shall, by reason of being a promoter of a company or otherwise, incur any liability for failing to disclose information which he would not be required to disclose in listing particulars in respect of a company's securities—

(a) if he were responsible for those particulars; or

(b) if he is responsible for them, which he is entitled to omit by virtue of section 82.

(9) The reference in subsection (8) to a person incurring liability includes a reference to any other person being entitled as against that person to be granted any civil remedy or to rescind or repudiate an agreement.

(10) "Listing particulars", in subsection (1) and Schedule 10, includes supplementary listing particulars.

Penalties

Penalties for breach of listing rules.

91.—(1) If the competent authority considers that—

(a) an issuer of listed securities, or

(b) an applicant for listing,

has contravened any provision of listing rules, it may impose on him a penalty of such amount as it considers appropriate.

(2) If, in such a case, the competent authority considers that a person who was at the material time a director of the issuer or applicant was knowingly concerned in the contravention, it may impose on him a penalty of such amount as it considers appropriate.

(3) If the competent authority is entitled to impose a penalty on a person under this section in respect of a particular matter it may, instead of imposing a penalty on him in respect of that matter, publish a statement censuring him.

(4) Nothing in this section prevents the competent authority from taking any other steps which it has power to take under this Part.

(5) A penalty under this section is payable to the competent authority.

(6) The competent authority may not take action against a person under this section after the end of the period of two years beginning with the first day on which it knew of the contravention unless proceedings against that person, in respect of the contravention, were begun before the end of that period.

(7) For the purposes of subsection (6)—

(a) the competent authority is to be treated as knowing of a contravention if it has information from which the contravention can reasonably be inferred; and

(b) proceedings against a person in respect of a contravention are to be treated as begun when a warning notice is given to him under section 92.

Procedure.

92.—(1) If the competent authority proposes to take action against a person under section 91, it must give him a warning notice.

(2) A warning notice about a proposal to impose a penalty must state the amount of the proposed penalty.

(3) A warning notice about a proposal to publish a statement must set out the terms of the proposed statement.

(4) If the competent authority decides to take action against a person under section 91, it must give him a decision notice.

(5) A decision notice about the imposition of a penalty must state the amount of the penalty.

(6) A decision notice about the publication of a statement must set out the terms of the statement.

(7) If the competent authority decides to take action against a person under section 91, he may refer the matter to the Tribunal.

Statement of policy.

93.—(1) The competent authority must prepare and issue a statement ("its policy statement") of its policy with respect to—

(a) the imposition of penalties under section 91; and

(b) the amount of penalties under that section.

(2) The competent authority's policy in determining what the amount of a penalty should be must include having regard to—

(a) the seriousness of the contravention in question in relation to the nature of the requirement contravened;

(b) the extent to which that contravention was deliberate or reckless; and

(c) whether the person on whom the penalty is to be imposed is an individual.

(3) The competent authority may at any time alter or replace its policy statement.

(4) If its policy statement is altered or replaced, the competent authority must issue the altered or replacement statement.

(5) In exercising, or deciding whether to exercise, its power under section 91 in the case of any particular contravention, the competent authority must have regard to any policy statement published under this section and in force at the time when the contravention in question occurred.

(6) The competent authority must publish a statement issued under this section in the way appearing to the competent authority to be best calculated to bring it to the attention of the public.

(7) The competent authority may charge a reasonable fee for providing a person with a copy of the statement.

(8) The competent authority must, without delay, give the Treasury a copy of any policy statement which it publishes under this section.

Statements of policy: procedure.

94.—(1) Before issuing a statement under section 93, the competent authority must publish a draft of the proposed statement in the way appearing to the competent authority to be best calculated to bring it to the attention of the public.

(2) The draft must be accompanied by notice that representations about the proposal may be made to the competent authority within a specified time.

(3) Before issuing the proposed statement, the competent authority must have regard to any representations made to it in accordance with subsection (2).

(4) If the competent authority issues the proposed statement it must publish an account, in general terms, of—

(a) the representations made to it in accordance with subsection (2); and

(b) its response to them.

(5) If the statement differs from the draft published under subsection (1) in a way which is, in the opinion of the competent authority, significant, the competent authority must (in addition to complying with subsection (4)) publish details of the difference.

(6) The competent authority may charge a reasonable fee for providing a person with a copy of a draft published under subsection (1).

(7) This section also applies to a proposal to alter or replace a statement.

Competition

Competition scrutiny.

95.—(1) The Treasury may by order provide for—

(a) regulating provisions, and

(b) the practices of the competent authority in exercising its functions under this Part ("practices"),

to be kept under review.

(2) Provision made as a result of subsection (1) must require the person responsible for keeping regulating provisions and practices under review to consider—

(a) whether any regulating provision or practice has a significantly adverse effect on competition; or

(b) whether two or more regulating provisions or practices taken together have, or a particular combination of regulating provisions and practices has, such an effect.

(3) An order under this section may include provision corresponding to that made by any provision of Chapter III of Part X.

(4) Subsection (3) is not to be read as in any way restricting the power conferred by subsection (1).

(5) Subsections (6) to (8) apply for the purposes of provision made by or under this section.

(6) Regulating provisions or practices have a significantly adverse effect on competition if—

(a) they have, or are intended or likely to have, that effect; or

(b) the effect that they have, or are intended or likely to have, is to require or encourage behaviour which has, or is intended or likely to have, a significantly adverse effect on competition.

(7) If regulating provisions or practices have, or are intended or likely to have, the effect of requiring or encouraging exploitation of the strength of a market position they are to be taken to have, or be intended or be likely to have, an adverse effect on competition.

(8) In determining whether any of the regulating provisions or practices have, or are intended or likely to have, a particular effect, it may be assumed that the persons to whom the provisions concerned are addressed will act in accordance with them.

(9) "Regulating provisions" means—

(a) listing rules,

(b) general guidance given by the competent authority in connection with its functions under this Part.

Miscellaneous

Obligations of issuers of listed securities.

96.—(1) Listing rules may—

(a) specify requirements to be complied with by issuers of listed securities; and

(b) make provision with respect to the action that may be taken by the competent authority in the event of non-compliance.

(2) If the rules require an issuer to publish information, they may include provision authorising the competent authority to publish it in the event of his failure to do so.

(3) This section applies whenever the listed securities were admitted to the official list.

Appointment by competent authority of persons to carry out investigations.

97.—(1) Subsection (2) applies if it appears to the competent authority that there are circumstances suggesting that—

(a) there may have been a breach of listing rules;

(b) a person who was at the material time a director of an issuer of listed securities has been knowingly concerned in a breach of listing rules by that issuer;

(c) a person who was at the material time a director of a person applying for the admission of securities to the official list has been knowingly concerned in a breach of listing rules by that applicant;

(d) there may have been a contravention of section 83, 85 or 98.

(2) The competent authority may appoint one or more competent persons to conduct an investigation on its behalf.

(3) Part XI applies to an investigation under subsection (2) as if—

(a) the investigator were appointed under section 167(1);

(b) references to the investigating authority in relation to him were to the competent authority;

(c) references to the offences mentioned in section 168 were to those mentioned in subsection (1)(d);

(d) references to an authorised person were references to the person under investigation.

Advertisements etc. in connection with listing applications.

98.—(1) If listing particulars are, or are to be, published in connection with an application for listing, no advertisement or other information of a kind specified by listing rules may be issued in the United Kingdom unless the contents of the advertisement or other information have been submitted to the competent authority and that authority has—

(a) approved those contents; or

(b) authorised the issue of the advertisement or information without such approval.

(2) A person who contravenes subsection (1) is guilty of an offence and liable—

(a) on summary conviction, to a fine not exceeding the statutory maximum;

(b) on conviction on indictment, to imprisonment for a term not exceeding two years or a fine, or both.

(3) A person who issues an advertisement or other information to the order of another person is not guilty of an offence under subsection (2) if he shows that he believed on reasonable grounds that the advertisement or information had been approved, or its issue authorised, by the competent authority.

(4) If information has been approved, or its issue has been authorised, under this section, neither the person issuing it nor any person responsible for, or for any part of, the listing particulars incurs any civil liability by reason of any statement in or omission from the information if that information and the listing particulars, taken together, would not be likely to mislead persons of the kind likely to consider acquiring the securities in question.

(5) The reference in subsection (4) to a person incurring civil liability includes a reference to any other person being entitled as against that person to be granted any civil remedy or to rescind or repudiate an agreement.

Fees.

99.—(1) Listing rules may require the payment of fees to the competent authority in respect of—

(a) applications for listing;

(b) the continued inclusion of securities in the official list;

(c) applications under section 88 for approval as a sponsor; and

(d) continued inclusion of sponsors in the list of sponsors.

(2) In exercising its powers under subsection (1), the competent authority may set such fees as it considers will (taking account of the income it expects as the competent authority) enable it—

(a) to meet expenses incurred in carrying out its functions under this Part or for any incidental purpose;

(b) to maintain adequate reserves; and

(c) in the case of the Authority, to repay the principal of, and pay any interest on, any money which it has borrowed and which has been used for the purpose of meeting expenses incurred in relation to—

(i) its assumption of functions from the London Stock Exchange Limited in relation to the official list; and

(ii) its assumption of functions under this Part.

(3) In fixing the amount of any fee which is to be payable to the competent authority, no account is to be taken of any sums which it receives, or expects to receive, by way of penalties imposed by it under this Part.

(4) Subsection (2)(c) applies whether expenses were incurred before or after the coming into force of this Part.

(5) Any fee which is owed to the competent authority under any provision made by or under this Part may be recovered as a debt due to it.

100.—(1) In determining its policy with respect to the amount of penalties to be imposed by it under this Part, the competent authority must take no account of the expenses which it incurs, or expects to incur, in discharging its functions under this Part. Penalties.

(2) The competent authority must prepare and operate a scheme for ensuring that the amounts paid to it by way of penalties imposed under this Part are applied for the benefit of issuers of securities admitted to the official list.

(3) The scheme may, in particular, make different provision with respect to different classes of issuer.

(4) Up to date details of the scheme must be set out in a document ("the scheme details").

(5) The scheme details must be published by the competent authority in the way appearing to it to be best calculated to bring them to the attention of the public.

(6) Before making the scheme, the competent authority must publish a draft of the proposed scheme in the way appearing to it to be best calculated to bring it to the attention of the public.

(7) The draft must be accompanied by notice that representations about the proposals may be made to the competent authority within a specified time.

(8) Before making the scheme, the competent authority must have regard to any representations made to it under subsection (7).

(9) If the competent authority makes the proposed scheme, it must publish an account, in general terms, of—

(a) the representations made to it in accordance with subsection (7); and

(b) its response to them.

(10) If the scheme differs from the draft published under subsection (6) in a way which is, in the opinion of the competent authority, significant the competent authority must (in addition to complying with subsection (9)) publish details of the difference.

(11) The competent authority must, without delay, give the Treasury a copy of any scheme details published by it.

(12) The competent authority may charge a reasonable fee for providing a person with a copy of—

(a) a draft published under subsection (6);

(b) scheme details.

(13) Subsections (6) to (10) and (12) apply also to a proposal to alter or replace the scheme.

Listing rules: general provisions.

101.—(1) Listing rules may make different provision for different cases.

(2) Listing rules may authorise the competent authority to dispense with or modify the application of the rules in particular cases and by reference to any circumstances.

(3) Listing rules must be made by an instrument in writing.

(4) Immediately after an instrument containing listing rules is made, it must be printed and made available to the public with or without payment.

(5) A person is not to be taken to have contravened any listing rule if he shows that at the time of the alleged contravention the instrument containing the rule had not been made available as required by subsection (4).

(6) The production of a printed copy of an instrument purporting to be made by the competent authority on which is endorsed a certificate signed by an officer of the authority authorised by it for that purpose and stating—

(a) that the instrument was made by the authority,

(b) that the copy is a true copy of the instrument, and

(c) that on a specified date the instrument was made available to the public as required by subsection (4),

is evidence (or in Scotland sufficient evidence) of the facts stated in the certificate.

(7) A certificate purporting to be signed as mentioned in subsection (6) is to be treated as having been properly signed unless the contrary is shown.

(8) A person who wishes in any legal proceedings to rely on a rule-making instrument may require the Authority to endorse a copy of the instrument with a certificate of the kind mentioned in subsection (6).

Exemption from liability in damages.

102.—(1) Neither the competent authority nor any person who is, or is acting as, a member, officer or member of staff of the competent authority is to be liable in damages for anything done or omitted in the discharge, or purported discharge, of the authority's functions.

(2) Subsection (1) does not apply—

(a) if the act or omission is shown to have been in bad faith; or

(b) so as to prevent an award of damages made in respect of an act or omission on the ground that the act or omission was unlawful as a result of section 6(1) of the Human Rights Act 1998.

1998 c. 42.

Interpretation of this Part.

103.—(1) In this Part—

"application" means an application made under section 75;

"issuer", in relation to anything which is or may be admitted to the official list, has such meaning as may be prescribed by the Treasury;

"listing" has the meaning given in section 74(5);

"listing particulars" has the meaning given in section 79(2);

"listing rules" has the meaning given in section 74(4);

"new securities" has the meaning given in section 84(2);

"the official list" means the list maintained as the official list by the Authority immediately before the coming into force of section 74, as that list has effect for the time being;

"security" (except in section 74(2)) has the meaning given in section 74(5).

(2) In relation to any function conferred on the competent authority by this Part, any reference in this Part to the competent authority is to be read as a reference to the person by whom that function is for the time being exercisable.

(3) If, as a result of an order under Schedule 8, different functions conferred on the competent authority by this Part are exercisable by different persons, the powers conferred by section 91 are exercisable by such person as may be determined in accordance with the provisions of the order.

(4) For the purposes of this Part, a person offers securities if, and only if, as principal—

(a) he makes an offer which, if accepted, would give rise to a contract for their issue or sale by him or by another person with whom he has made arrangements for their issue or sale; or

(b) he invites a person to make such an offer.

(5) "Offer" and "offeror" are to be read accordingly.

(6) For the purposes of this Part, the question whether a person offers securities to the public in the United Kingdom is to be determined in accordance with Schedule 11.

(7) For the purposes of subsection (4) "sale" includes any disposal for valuable consideration.

PART VII

CONTROL OF BUSINESS TRANSFERS

Control of business transfers.

104. No insurance business transfer scheme or banking business transfer scheme is to have effect unless an order has been made in relation to it under section 111(1).

Insurance business transfer schemes.

105.—(1) A scheme is an insurance business transfer scheme if it—

(a) satisfies one of the conditions set out in subsection (2);

(b) results in the business transferred being carried on from an establishment of the transferee in an EEA State; and

(c) is not an excluded scheme.

(2) The conditions are that—

(a) the whole or part of the business carried on in one or more member States by a UK authorised person who has permission to effect or carry out contracts of insurance ("the authorised person concerned") is to be transferred to another body ("the transferee");

(b) the whole or part of the business, so far as it consists of reinsurance, carried on in the United Kingdom through an establishment there by an EEA firm qualifying for authorisation under Schedule 3 which has permission to effect or carry out contracts of insurance ("the authorised person concerned") is to be transferred to another body ("the transferee");

(c) the whole or part of the business carried on in the United Kingdom by an authorised person who is neither a UK authorised person nor an EEA firm but who has permission to effect or carry out contracts of insurance ("the authorised person concerned") is to be transferred to another body ("the transferee").

(3) A scheme is an excluded scheme for the purposes of this section if it falls within any of the following cases:

Case 1

Where the authorised person concerned is a friendly society.

Case 2

Where—

(a) the authorised person concerned is a UK authorised person;

(b) the business to be transferred under the scheme is business which consists of the effecting or carrying out of contracts of reinsurance in one or more EEA States other than the United Kingdom; and

(c) the scheme has been approved by a court in an EEA State other than the United Kingdom or by the host state regulator.

Case 3

Where—

(a) the authorised person concerned is a UK authorised person;

(b) the business to be transferred under the scheme is carried on in one or more countries or territories (none of which is an EEA State) and does not include policies of insurance (other than reinsurance) against risks arising in an EEA State; and

(c) the scheme has been approved by a court in a country or territory other than an EEA State or by the authority responsible for the supervision of that business in a country or territory in which it is carried on.

Case 4

Where the business to be transferred under the scheme is the whole of the business of the authorised person concerned and—

(a) consists solely of the effecting or carrying out of contracts of reinsurance, or

(b) all the policyholders are controllers of the firm or of firms within the same group as the firm which is the transferee,

and, in either case, all of the policyholders who will be affected by the transfer have consented to it.

(4) The parties to a scheme which falls within Case 2, 3 or 4 may apply to the court for an order sanctioning the scheme as if it were an insurance business transfer scheme.

(5) Subsection (6) applies if the scheme involves a compromise or arrangement falling within section 427A of the Companies Act 1985 (or Article 420A of the Companies (Northern Ireland) Order 1986).

1985 c. 6.
S.I. 1986/1032 (N.I. 6).

(6) Sections 425 to 427 of that Act (or Articles 418 to 420 of that Order) have effect as modified by section 427A of that Act (or Article 420A of that Order) in relation to that compromise or arrangement.

(7) But subsection (6) does not affect the operation of this Part in relation to the scheme.

(8) "UK authorised person" means a body which is an authorised person and which—

(a) is incorporated in the United Kingdom; or

(b) is an unincorporated association formed under the law of any part of the United Kingdom.

(9) "Establishment" means, in relation to a person, his head office or a branch of his.

Banking business transfer schemes.

106.—(1) A scheme is a banking business transfer scheme if it—

(a) satisfies one of the conditions set out in subsection (2);

(b) is one under which the whole or part of the business to be transferred includes the accepting of deposits; and

(c) is not an excluded scheme.

(2) The conditions are that—

(a) the whole or part of the business carried on by a UK authorised person who has permission to accept deposits ("the authorised person concerned") is to be transferred to another body ("the transferee");

(b) the whole or part of the business carried on in the United Kingdom by an authorised person who is not a UK authorised person but who has permission to accept deposits ("the authorised person concerned") is to be transferred to another body which will carry it on in the United Kingdom ("the transferee").

(3) A scheme is an excluded scheme for the purposes of this section if—

(a) the authorised person concerned is a building society or a credit union; or

1985 c. 6.
S.I. 1986/1032 (N.I. 6).

(b) the scheme is a compromise or arrangement to which section 427A(1) of the Companies Act 1985 or Article 420A of the Companies (Northern Ireland) Order 1986 (mergers and divisions of public companies) applies.

(4) For the purposes of subsection (2)(a) it is immaterial whether or not the business to be transferred is carried on in the United Kingdom.

(5) "UK authorised person" has the same meaning as in section 105.

1986 c. 53.

(6) "Building society" has the meaning given in the Building Societies Act 1986.

(7) "Credit union" means a credit union within the meaning of—

1979 c. 34.

(a) the Credit Unions Act 1979;

S.I. 1985/1205 (N.I. 12).

(b) the Credit Unions (Northern Ireland) Order 1985.

Application for order sanctioning transfer scheme.

107.—(1) An application may be made to the court for an order sanctioning an insurance business transfer scheme or a banking business transfer scheme.

(2) An application may be made by—

(a) the authorised person concerned;

(b) the transferee; or

(c) both.

(3) The application must be made—

(a) if the authorised person concerned and the transferee are registered or have their head offices in the same jurisdiction, to the court in that jurisdiction;

(b) if the authorised person concerned and the transferee are registered or have their head offices in different jurisdictions, to the court in either jurisdiction;

(c) if the transferee is not registered in the United Kingdom and does not have his head office there, to the court which has jurisdiction in relation to the authorised person concerned.

(4) "Court" means—

(a) the High Court; or

(b) in Scotland, the Court of Session.

Requirements on applicants.

108.—(1) The Treasury may by regulations impose requirements on applicants under section 107.

(2) The court may not determine an application under that section if the applicant has failed to comply with a prescribed requirement.

(3) The regulations may, in particular, include provision—

(a) as to the persons to whom, and periods within which, notice of an application must be given;

(b) enabling the court to waive a requirement of the regulations in prescribed circumstances.

Scheme reports.

109.—(1) An application under section 107 in respect of an insurance business transfer scheme must be accompanied by a report on the terms of the scheme ("a scheme report").

(2) A scheme report may be made only by a person—

(a) appearing to the Authority to have the skills necessary to enable him to make a proper report; and

(b) nominated or approved for the purpose by the Authority.

(3) A scheme report must be made in a form approved by the Authority.

Right to participate in proceedings.

110. On an application under section 107, the following are also entitled to be heard—

(a) the Authority, and

(b) any person (including an employee of the authorised person concerned or of the transferee) who alleges that he would be adversely affected by the carrying out of the scheme.

Sanction of the court for business transfer schemes.

111.—(1) This section sets out the conditions which must be satisfied before the court may make an order under this section sanctioning an insurance business transfer scheme or a banking business transfer scheme.

(2) The court must be satisfied that—

(a) the appropriate certificates have been obtained (as to which see Parts I and II of Schedule 12);

(b) the transferee has the authorisation required (if any) to enable the business, or part, which is to be transferred to be carried on in the place to which it is to be transferred (or will have it before the scheme takes effect).

(3) The court must consider that, in all the circumstances of the case, it is appropriate to sanction the scheme.

Effect of order sanctioning business transfer scheme.

112.—(1) If the court makes an order under section 111(1), it may by that or any subsequent order make such provision (if any) as it thinks fit—

(a) for the transfer to the transferee of the whole or any part of the undertaking concerned and of any property or liabilities of the authorised person concerned;

(b) for the allotment or appropriation by the transferee of any shares, debentures, policies or other similar interests in the transferee which under the scheme are to be allotted or appropriated to or for any other person;

(c) for the continuation by (or against) the transferee of any pending legal proceedings by (or against) the authorised person concerned;

(d) with respect to such incidental, consequential and supplementary matters as are, in its opinion, necessary to secure that the scheme is fully and effectively carried out.

(2) An order under subsection (1)(a) may—

(a) transfer property or liabilities whether or not the authorised person concerned otherwise has the capacity to effect the transfer in question;

(b) make provision in relation to property which was held by the authorised person concerned as trustee;

(c) make provision as to future or contingent rights or liabilities of the authorised person concerned, including provision as to the construction of instruments (including wills) under which such rights or liabilities may arise;

(d) make provision as to the consequences of the transfer in relation to any retirement benefits scheme (within the meaning of section 611 of the Income and Corporation Taxes Act 1988) operated by or on behalf of the authorised person concerned.

1988 c. 1.

(3) If an order under subsection (1) makes provision for the transfer of property or liabilities—

(a) the property is transferred to and vests in, and

(b) the liabilities are transferred to and become liabilities of,

the transferee as a result of the order.

(4) But if any property or liability included in the order is governed by the law of any country or territory outside the United Kingdom, the order may require the authorised person concerned, if the transferee so requires, to take all necessary steps for securing that the transfer to the transferee of the property or liability is fully effective under the law of that country or territory.

(5) Property transferred as the result of an order under subsection (1) may, if the court so directs, vest in the transferee free from any charge which is (as a result of the scheme) to cease to have effect.

(6) An order under subsection (1) which makes provision for the transfer of property is to be treated as an instrument of transfer for the purposes of the provisions mentioned in subsection (7) and any other enactment requiring the delivery of an instrument of transfer for the registration of property.

(7) The provisions are—

1985 c. 6.

(a) section 183(1) of the Companies Act 1985;

S.I. 1986/1032 (N.I. 6).

(b) Article 193(1) and (2) of the Companies (Northern Ireland) Order 1986.

(8) If the court makes an order under section 111(1) in relation to an insurance business transfer scheme, it may by that or any subsequent order make such provision (if any) as it thinks fit—

(a) for dealing with the interests of any person who, within such time and in such manner as the court may direct, objects to the scheme;

(b) for the dissolution, without winding up, of the authorised person concerned;

(c) for the reduction, on such terms and subject to such conditions (if any) as it thinks fit, of the benefits payable under—

(i) any description of policy, or

(ii) policies generally,

entered into by the authorised person concerned and transferred as a result of the scheme.

(9) If, in the case of an insurance business transfer scheme, the authorised person concerned is not an EEA firm, it is immaterial for the purposes of subsection (1)(a), (c) or (d) or subsection (2), (3) or (4) that the law applicable to any of the contracts of insurance included in the transfer is the law of an EEA State other than the United Kingdom.

(10) The transferee must, if an insurance or banking business transfer scheme is sanctioned by the court, deposit two office copies of the order made under subsection (1) with the Authority within 10 days of the making of the order.

(11) But the Authority may extend that period.

(12) "Property" includes property, rights and powers of any description.

(13) "Liabilities" includes duties.

(14) "Shares" and "debentures" have the same meaning as in—

(a) the Companies Act 1985; or 1985 c. 6.

(b) in Northern Ireland, the Companies (Northern Ireland) Order 1986. S.I. 1986/1032 (N.I. 6).

(15) "Charge" includes a mortgage (or, in Scotland, a security over property).

Appointment of actuary in relation to reduction of benefits.

113.—(1) This section applies if an order has been made under section 111(1).

(2) The court making the order may, on the application of the Authority, appoint an independent actuary—

(a) to investigate the business transferred under the scheme; and

(b) to report to the Authority on any reduction in the benefits payable under policies entered into by the authorised person concerned that, in the opinion of the actuary, ought to be made.

Rights of certain policyholders.

114.—(1) This section applies in relation to an insurance business transfer scheme if—

(a) the authorised person concerned is an authorised person other than an EEA firm qualifying for authorisation under Schedule 3;

(b) the court has made an order under section 111 in relation to the scheme; and

(c) an EEA State other than the United Kingdom is, as regards any policy included in the transfer which evidences a contract of insurance, the State of the commitment or the EEA State in which the risk is situated ("the EEA State concerned").

(2) The court must direct that notice of the making of the order, or the execution of any instrument, giving effect to the transfer must be published by the transferee in the EEA State concerned.

(3) A notice under subsection (2) must specify such period as the court may direct as the period during which the policyholder may exercise any right which he has to cancel the policy.

(4) The order or instrument mentioned in subsection (2) does not bind the policyholder if—

(a) the notice required under that subsection is not published; or

(b) the policyholder cancels the policy during the period specified in the notice given under that subsection.

(5) The law of the EEA State concerned governs—

(a) whether the policyholder has a right to cancel the policy; and

(b) the conditions, if any, subject to which any such right may be exercised.

(6) Paragraph 6 of Schedule 12 applies for the purposes of this section as it applies for the purposes of that Schedule.

Business transfers outside the United Kingdom

Certificates for purposes of insurance business transfers overseas.

115. Part III of Schedule 12 makes provision about certificates which the Authority may issue in relation to insurance business transfers taking place outside the United Kingdom.

Effect of insurance business transfers authorised in other EEA States.

116.—(1) This section applies if, as a result of an authorised transfer, an EEA firm falling within paragraph 5(d) of Schedule 3 transfers to another body all its rights and obligations under any UK policies.

(2) This section also applies if, as a result of an authorised transfer, a company authorised in an EEA State other than the United Kingdom under Article 27 of the first life insurance directive, or Article 23 of the first non-life insurance directive, transfers to another body all its rights and obligations under any UK policies.

(3) If appropriate notice of the execution of an instrument giving effect to the transfer is published, the instrument has the effect in law—

(a) of transferring to the transferee all the transferor's rights and obligations under the UK policies to which the instrument applies, and

(b) if the instrument so provides, of securing the continuation by or against the transferee of any legal proceedings by or against the transferor which relate to those rights and obligations.

(4) No agreement or consent is required before subsection (3) has the effects mentioned.

(5) "Authorised transfer" means—

(a) in subsection (1), a transfer authorised in the home State of the EEA firm in accordance with—

(i) Article 11 of the third life directive; or

(ii) Article 12 of the third non-life directive; and

(b) in subsection (2), a transfer authorised in an EEA State other than the United Kingdom in accordance with—

(i) Article 31a of the first life directive; or

(ii) Article 28a of the first non-life directive.

(6) "UK policy" means a policy evidencing a contract of insurance (other than a contract of reinsurance) to which the applicable law is the law of any part of the United Kingdom.

(7) "Appropriate notice" means—

(a) if the UK policy evidences a contract of insurance in relation to which an EEA State other than the United Kingdom is the State of the commitment, notice given in accordance with the law of that State;

(b) if the UK policy evidences a contract of insurance where the risk is situated in an EEA State other than the United Kingdom, notice given in accordance with the law of that EEA State;

(c) in any other case, notice given in accordance with the applicable law.

(8) Paragraph 6 of Schedule 12 applies for the purposes of this section as it applies for the purposes of that Schedule.

Modifications

117. The Treasury may by regulations— Power to modify this Part.

(a) provide for prescribed provisions of this Part to have effect in relation to prescribed cases with such modifications as may be prescribed;

(b) make such amendments to any provision of this Part as they consider appropriate for the more effective operation of that or any other provision of this Part.

Part VIII

Penalties for Market Abuse

Market abuse

118.—(1) For the purposes of this Act, market abuse is behaviour (whether by one person alone or by two or more persons jointly or in concert)— Market abuse.

(a) which occurs in relation to qualifying investments traded on a market to which this section applies;

(b) which satisfies any one or more of the conditions set out in subsection (2); and

(c) which is likely to be regarded by a regular user of that market who is aware of the behaviour as a failure on the part of the person or persons concerned to observe the standard of behaviour reasonably expected of a person in his or their position in relation to the market.

(2) The conditions are that—

(a) the behaviour is based on information which is not generally available to those using the market but which, if available to a regular user of the market, would or would be likely to be regarded by him as relevant when deciding the terms on which transactions in investments of the kind in question should be effected;

(b) the behaviour is likely to give a regular user of the market a false or misleading impression as to the supply of, or demand for, or as to the price or value of, investments of the kind in question;

(c) a regular user of the market would, or would be likely to, regard the behaviour as behaviour which would, or would be likely to, distort the market in investments of the kind in question.

(3) The Treasury may by order prescribe (whether by name or by description)—

(a) the markets to which this section applies; and

(b) the investments which are qualifying investments in relation to those markets.

(4) The order may prescribe different investments or descriptions of investment in relation to different markets or descriptions of market.

(5) Behaviour is to be disregarded for the purposes of subsection (1) unless it occurs—

(a) in the United Kingdom; or

(b) in relation to qualifying investments traded on a market to which this section applies which is situated in the United Kingdom or which is accessible electronically in the United Kingdom.

(6) For the purposes of this section, the behaviour which is to be regarded as occurring in relation to qualifying investments includes behaviour which—

(a) occurs in relation to anything which is the subject matter, or whose price or value is expressed by reference to the price or value, of those qualifying investments; or

(b) occurs in relation to investments (whether qualifying or not) whose subject matter is those qualifying investments.

(7) Information which can be obtained by research or analysis conducted by, or on behalf of, users of a market is to be regarded for the purposes of this section as being generally available to them.

(8) Behaviour does not amount to market abuse if it conforms with a rule which includes a provision to the effect that behaviour conforming with the rule does not amount to market abuse.

(9) Any reference in this Act to a person engaged in market abuse is a reference to a person engaged in market abuse whether alone or with one or more other persons.

(10) In this section—

"behaviour" includes action or inaction;

"investment" is to be read with section 22 and Schedule 2;

"regular user", in relation to a particular market, means a reasonable person who regularly deals on that market in investments of the kind in question.

The code

The code.

119.—(1) The Authority must prepare and issue a code containing such provisions as the Authority considers will give appropriate guidance to those determining whether or not behaviour amounts to market abuse.

(2) The code may among other things specify—

(a) descriptions of behaviour that, in the opinion of the Authority, amount to market abuse;

(b) descriptions of behaviour that, in the opinion of the Authority, do not amount to market abuse;

(c) factors that, in the opinion of the Authority, are to be taken into account in determining whether or not behaviour amounts to market abuse.

(3) The code may make different provision in relation to persons, cases or circumstances of different descriptions.

(4) The Authority may at any time alter or replace the code.

(5) If the code is altered or replaced, the altered or replacement code must be issued by the Authority.

(6) A code issued under this section must be published by the Authority in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(7) The Authority must, without delay, give the Treasury a copy of any code published under this section.

(8) The Authority may charge a reasonable fee for providing a person with a copy of the code.

Provisions included in the Authority's code by reference to the City Code.

120.—(1) The Authority may include in a code issued by it under section 119 ("the Authority's code") provision to the effect that in its opinion behaviour conforming with the City Code—

(a) does not amount to market abuse;

(b) does not amount to market abuse in specified circumstances; or

(c) does not amount to market abuse if engaged in by a specified description of person.

(2) But the Treasury's approval is required before any such provision may be included in the Authority's code.

(3) If the Authority's code includes provision of a kind authorised by subsection (1), the Authority must keep itself informed of the way in which the Panel on Takeovers and Mergers interprets and administers the relevant provisions of the City Code.

(4) "City Code" means the City Code on Takeovers and Mergers issued by the Panel as it has effect at the time when the behaviour occurs.

(5) "Specified" means specified in the Authority's code.

Codes: procedure.

121.—(1) Before issuing a code under section 119, the Authority must publish a draft of the proposed code in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(2) The draft must be accompanied by—

(a) a cost benefit analysis; and

(b) notice that representations about the proposal may be made to the Authority within a specified time.

(3) Before issuing the proposed code, the Authority must have regard to any representations made to it in accordance with subsection (2)(b).

(4) If the Authority issues the proposed code it must publish an account, in general terms, of—

(a) the representations made to it in accordance with subsection (2)(b); and

(b) its response to them.

(5) If the code differs from the draft published under subsection (1) in a way which is, in the opinion of the Authority, significant—

(a) the Authority must (in addition to complying with subsection (4)) publish details of the difference; and

(b) those details must be accompanied by a cost benefit analysis.

(6) Subsections (1) to (5) do not apply if the Authority considers that there is an urgent need to publish the code.

(7) Neither subsection (2)(a) nor subsection (5)(b) applies if the Authority considers—

(a) that, making the appropriate comparison, there will be no increase in costs; or

(b) that, making that comparison, there will be an increase in costs but the increase will be of minimal significance.

(8) The Authority may charge a reasonable fee for providing a person with a copy of a draft published under subsection (1).

(9) This section also applies to a proposal to alter or replace a code.

(10) "Cost benefit analysis" means an estimate of the costs together with an analysis of the benefits that will arise—

(a) if the proposed code is issued; or

(b) if subsection (5)(b) applies, from the code that has been issued.

(11) "The appropriate comparison" means—

(a) in relation to subsection (2)(a), a comparison between the overall position if the code is issued and the overall position if it is not issued;

(b) in relation to subsection (5)(b), a comparison between the overall position after the issuing of the code and the overall position before it was issued.

Effect of the code.

122.—(1) If a person behaves in a way which is described (in the code in force under section 119 at the time of the behaviour) as behaviour that, in the Authority's opinion, does not amount to market abuse that behaviour of his is to be taken, for the purposes of this Act, as not amounting to market abuse.

(2) Otherwise, the code in force under section 119 at the time when particular behaviour occurs may be relied on so far as it indicates whether or not that behaviour should be taken to amount to market abuse.

Power to impose penalties

Power to impose penalties in cases of market abuse.

123.—(1) If the Authority is satisfied that a person ("A")—

(a) is or has engaged in market abuse, or

(b) by taking or refraining from taking any action has required or encouraged another person or persons to engage in behaviour which, if engaged in by A, would amount to market abuse,

it may impose on him a penalty of such amount as it considers appropriate.

(2) But the Authority may not impose a penalty on a person if, having considered any representations made to it in response to a warning notice, there are reasonable grounds for it to be satisfied that—

(a) he believed, on reasonable grounds, that his behaviour did not fall within paragraph (a) or (b) of subsection (1), or

(b) he took all reasonable precautions and exercised all due diligence to avoid behaving in a way which fell within paragraph (a) or (b) of that subsection.

(3) If the Authority is entitled to impose a penalty on a person under this section it may, instead of imposing a penalty on him, publish a statement to the effect that he has engaged in market abuse.

Statement of policy

Statement of policy.

124.—(1) The Authority must prepare and issue a statement of its policy with respect to—

(a) the imposition of penalties under section 123; and

(b) the amount of penalties under that section.

(2) The Authority's policy in determining what the amount of a penalty should be must include having regard to—

(a) whether the behaviour in respect of which the penalty is to be imposed had an adverse effect on the market in question and, if it did, how serious that effect was;

(b) the extent to which that behaviour was deliberate or reckless; and

(c) whether the person on whom the penalty is to be imposed is an individual.

(3) A statement issued under this section must include an indication of the circumstances in which the Authority is to be expected to regard a person as—

(a) having a reasonable belief that his behaviour did not amount to market abuse; or

(b) having taken reasonable precautions and exercised due diligence to avoid engaging in market abuse.

(4) The Authority may at any time alter or replace a statement issued under this section.

(5) If a statement issued under this section is altered or replaced, the Authority must issue the altered or replacement statement.

(6) In exercising, or deciding whether to exercise, its power under section 123 in the case of any particular behaviour, the Authority must have regard to any statement published under this section and in force at the time when the behaviour concerned occurred.

(7) A statement issued under this section must be published by the Authority in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(8) The Authority may charge a reasonable fee for providing a person with a copy of a statement published under this section.

(9) The Authority must, without delay, give the Treasury a copy of any statement which it publishes under this section.

Statement of policy: procedure.

125.—(1) Before issuing a statement of policy under section 124, the Authority must publish a draft of the proposed statement in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(2) The draft must be accompanied by notice that representations about the proposal may be made to the Authority within a specified time.

(3) Before issuing the proposed statement, the Authority must have regard to any representations made to it in accordance with subsection (2).

(4) If the Authority issues the proposed statement it must publish an account, in general terms, of—

(a) the representations made to it in accordance with subsection (2); and

(b) its response to them.

(5) If the statement differs from the draft published under subsection (1) in a way which is, in the opinion of the Authority, significant, the Authority must (in addition to complying with subsection (4)) publish details of the difference.

(6) The Authority may charge a reasonable fee for providing a person with a copy of a draft published under subsection (1).

(7) This section also applies to a proposal to alter or replace a statement.

Procedure

Warning notices.

126.—(1) If the Authority proposes to take action against a person under section 123, it must give him a warning notice.

(2) A warning notice about a proposal to impose a penalty must state the amount of the proposed penalty.

(3) A warning notice about a proposal to publish a statement must set out the terms of the proposed statement.

Decision notices and right to refer to Tribunal.

127.—(1) If the Authority decides to take action against a person under section 123, it must give him a decision notice.

(2) A decision notice about the imposition of a penalty must state the amount of the penalty.

(3) A decision notice about the publication of a statement must set out the terms of the statement.

(4) If the Authority decides to take action against a person under section 123, that person may refer the matter to the Tribunal.

Miscellaneous

Suspension of investigations.

128.—(1) If the Authority considers it desirable or expedient because of the exercise or possible exercise of a power relating to market abuse, it may direct a recognised investment exchange or recognised clearing house—

(a) to terminate, suspend or limit the scope of any inquiry which the exchange or clearing house is conducting under its rules; or

(b) not to conduct an inquiry which the exchange or clearing house proposes to conduct under its rules.

(2) A direction under this section—

(a) must be given to the exchange or clearing house concerned by notice in writing; and

(b) is enforceable, on the application of the Authority, by injunction or, in Scotland, by an order under section 45 of the Court of Session Act 1988. 1988 c. 36.

(3) The Authority's powers relating to market abuse are its powers—

(a) to impose penalties under section 123; or

(b) to appoint a person to conduct an investigation under section 168 in a case falling within subsection (2)(d) of that section.

Power of court to impose penalty in cases of market abuse.

129.—(1) The Authority may on an application to the court under section 381 or 383 request the court to consider whether the circumstances are such that a penalty should be imposed on the person to whom the application relates.

(2) The court may, if it considers it appropriate, make an order requiring the person concerned to pay to the Authority a penalty of such amount as it considers appropriate.

Guidance.

130.—(1) The Treasury may from time to time issue written guidance for the purpose of helping relevant authorities to determine the action to be taken in cases where behaviour occurs which is behaviour—

(a) with respect to which the power in section 123 appears to be exercisable; and

(b) which appears to involve the commission of an offence under section 397 of this Act or Part V of the Criminal Justice Act 1993 (insider dealing). 1993 c. 36.

(2) The Treasury must obtain the consent of the Attorney General and the Secretary of State before issuing any guidance under this section.

(3) In this section "relevant authorities"—

(a) in relation to England and Wales, means the Secretary of State, the Authority, the Director of the Serious Fraud Office and the Director of Public Prosecutions;

(b) in relation to Northern Ireland, means the Secretary of State, the Authority, the Director of the Serious Fraud Office and the Director of Public Prosecutions for Northern Ireland.

(4) Subsections (1) to (3) do not apply to Scotland.

(5) In relation to Scotland, the Lord Advocate may from time to time, after consultation with the Treasury, issue written guidance for the purpose of helping the Authority to determine the action to be taken in cases where behaviour mentioned in subsection (1) occurs.

Effect on transactions.

131. The imposition of a penalty under this Part does not make any transaction void or unenforceable.

Part IX

Hearings and Appeals

The Financial Services and Markets Tribunal.

132.—(1) For the purposes of this Act, there is to be a tribunal known as the Financial Services and Markets Tribunal (but referred to in this Act as "the Tribunal").

(2) The Tribunal is to have the functions conferred on it by or under this Act.

(3) The Lord Chancellor may by rules make such provision as appears to him to be necessary or expedient in respect of the conduct of proceedings before the Tribunal.

(4) Schedule 13 is to have effect as respects the Tribunal and its proceedings (but does not limit the Lord Chancellor's powers under this section).

Proceedings: general provision.

133.—(1) A reference to the Tribunal under this Act must be made before the end of—

(a) the period of 28 days beginning with the date on which the decision notice or supervisory notice in question is given; or

(b) such other period as may be specified in rules made under section 132.

(2) Subject to rules made under section 132, the Tribunal may allow a reference to be made after the end of that period.

(3) On a reference the Tribunal may consider any evidence relating to the subject-matter of the reference, whether or not it was available to the Authority at the material time.

(4) On a reference the Tribunal must determine what (if any) is the appropriate action for the Authority to take in relation to the matter referred to it.

(5) On determining a reference, the Tribunal must remit the matter to the Authority with such directions (if any) as the Tribunal considers appropriate for giving effect to its determination.

(6) In determining a reference made as a result of a decision notice, the Tribunal may not direct the Authority to take action which the Authority would not, as a result of section 388(2), have had power to take when giving the decision notice.

(7) In determining a reference made as a result of a supervisory notice, the Tribunal may not direct the Authority to take action which would have otherwise required the giving of a decision notice.

(8) The Tribunal may, on determining a reference, make recommendations as to the Authority's regulating provisions or its procedures.

(9) The Authority must not take the action specified in a decision notice—

(a) during the period within which the matter to which the decision notice relates may be referred to the Tribunal; and

(b) if the matter is so referred, until the reference, and any appeal against the Tribunal's determination, has been finally disposed of.

(10) The Authority must act in accordance with the determination of, and any direction given by, the Tribunal.

(11) An order of the Tribunal may be enforced—

(a) as if it were an order of a county court; or

(b) in Scotland, as if it were an order of the Court of Session.

(12) "Supervisory notice" has the same meaning as in section 395.

Legal assistance before the Tribunal

Legal assistance scheme.

134.—(1) The Lord Chancellor may by regulations establish a scheme governing the provision of legal assistance in connection with proceedings before the Tribunal.

(2) If the Lord Chancellor establishes a scheme under subsection (1), it must provide that a person is eligible for assistance only if—

(a) he falls within subsection (3); and

(b) he fulfils such other criteria (if any) as may be prescribed as a result of section 135(1)(d).

(3) A person falls within this subsection if he is an individual who has referred a matter to the Tribunal under section 127(4).

(4) In this Part of this Act "the legal assistance scheme" means any scheme in force under subsection (1).

Provisions of the legal assistance scheme.

135.—(1) The legal assistance scheme may, in particular, make provision as to—

(a) the kinds of legal assistance that may be provided;

(b) the persons by whom legal assistance may be provided;

(c) the manner in which applications for legal assistance are to be made;

(d) the criteria on which eligibility for legal assistance is to be determined;

(e) the persons or bodies by whom applications are to be determined;

(f) appeals against refusals of applications;

(g) the revocation or variation of decisions;

(h) its administration and the enforcement of its provisions.

(2) Legal assistance under the legal assistance scheme may be provided subject to conditions or restrictions, including conditions as to the making of contributions by the person to whom it is provided.

Funding of the legal assistance scheme.

136.—(1) The Authority must pay to the Lord Chancellor such sums at such times as he may, from time to time, determine in respect of the anticipated or actual cost of legal assistance provided in connection with proceedings before the Tribunal under the legal assistance scheme.

(2) In order to enable it to pay any sum which it is obliged to pay under subsection (1), the Authority must make rules requiring the payment to it by authorised persons or any class of authorised person of specified amounts or amounts calculated in a specified way.

(3) Sums received by the Lord Chancellor under subsection (1) must be paid into the Consolidated Fund.

(4) The Lord Chancellor must, out of money provided by Parliament fund the cost of legal assistance provided in connection with proceedings before the Tribunal under the legal assistance scheme.

(5) Subsection (6) applies if, as respects a period determined by the Lord Chancellor, the amount paid to him under subsection (1) as respects that period exceeds the amount he has expended in that period under subsection (4).

(6) The Lord Chancellor must—

(a) repay, out of money provided by Parliament, the excess to the Authority; or

(b) take the excess into account on the next occasion on which he makes a determination under subsection (1).

(7) The Authority must make provision for any sum repaid to it under subsection (6)(a)—

(a) to be distributed among—

(i) the authorised persons on whom a levy was imposed in the period in question as a result of rules made under subsection (2); or

(ii) such of those persons as it may determine;

(b) to be applied in order to reduce any amounts which those persons, or such of them as it may determine, are or will be liable to pay to the Authority, whether under rules made under subsection (2) or otherwise; or

(c) to be partly so distributed and partly so applied.

(8) If the Authority considers that it is not practicable to deal with any part of a sum repaid to it under subsection (6)(a) in accordance with provision made by it as a result of subsection (7), it may, with the consent the Lord Chancellor, apply or dispose of that part of that sum in such manner as it considers appropriate.

(9) "Specified" means specified in the rules.

Appeals

Appeal on a point of law.

137.—(1) A party to a reference to the Tribunal may with permission appeal—

(a) to the Court of Appeal, or

(b) in Scotland, to the Court of Session,

on a point of law arising from a decision of the Tribunal disposing of the reference.

(2) "Permission" means permission given by the Tribunal or by the Court of Appeal or (in Scotland) the Court of Session.

(3) If, on an appeal under subsection (1), the court considers that the decision of the Tribunal was wrong in law, it may—

(a) remit the matter to the Tribunal for rehearing and determination by it; or

(b) itself make a determination.

(4) An appeal may not be brought from a decision of the Court of Appeal under subsection (3) except with the leave of—

(a) the Court of Appeal; or

(b) the House of Lords.

(5) An appeal lies, with the leave of the Court of Session or the House of Lords, from any decision of the Court of Session under this section, and such leave may be given on such terms as to costs, expenses or otherwise as the Court of Session or the House of Lords may determine.

(6) Rules made under section 132 may make provision for regulating or prescribing any matters incidental to or consequential on an appeal under this section.

PART X

RULES AND GUIDANCE

CHAPTER I

RULE-MAKING POWERS

General rule-making power.

138.—(1) The Authority may make such rules applying to authorised persons—

(a) with respect to the carrying on by them of regulated activities, or

(b) with respect to the carrying on by them of activities which are not regulated activities,

as appear to it to be necessary or expedient for the purpose of protecting the interests of consumers.

(2) Rules made under this section are referred to in this Act as the Authority's general rules.

(3) The Authority's power to make general rules is not limited by any other power which it has to make regulating provisions.

(4) The Authority's general rules may make provision applying to authorised persons even though there is no relationship between the authorised persons to whom the rules will apply and the persons whose interests will be protected by the rules.

(5) General rules may contain requirements which take into account, in the case of an authorised person who is a member of a group, any activity of another member of the group.

(6) General rules may not—

(a) make provision prohibiting an EEA firm from carrying on, or holding itself out as carrying on, any activity which it has permission conferred by Part II of Schedule 3 to carry on in the United Kingdom;

(b) make provision, as respects an EEA firm, about any matter responsibility for which is, under any of the single market directives, reserved to the firm's home state regulator.

(7) "Consumers" means persons—

(a) who use, have used, or are or may be contemplating using, any of the services provided by—

(i) authorised persons in carrying on regulated activities; or

(ii) persons acting as appointed representatives;

(b) who have rights or interests which are derived from, or are otherwise attributable to, the use of any such services by other persons; or

(c) who have rights or interests which may be adversely affected by the use of any such services by persons acting on their behalf or in a fiduciary capacity in relation to them.

(8) If an authorised person is carrying on a regulated activity in his capacity as a trustee, the persons who are, have been or may be beneficiaries of the trust are to be treated as persons who use, have used or are or may be contemplating using services provided by the authorised person in his carrying on of that activity.

(9) For the purposes of subsection (7) a person who deals with an authorised person in the course of the authorised person's carrying on of a regulated activity is to be treated as using services provided by the authorised person in carrying on those activities.

Miscellaneous ancillary matters.

139.—(1) Rules relating to the handling of money held by an authorised person in specified circumstances ("clients' money") may—

(a) make provision which results in that clients' money being held on trust in accordance with the rules;

(b) treat two or more accounts as a single account for specified purposes (which may include the distribution of money held in the accounts);

(c) authorise the retention by the authorised person of interest accruing on the clients' money; and

(d) make provision as to the distribution of such interest which is not to be retained by him.

(2) An institution with which an account is kept in pursuance of rules relating to the handling of clients' money does not incur any liability as constructive trustee if money is wrongfully paid from the account, unless the institution permits the payment—

(a) with knowledge that it is wrongful; or

(b) having deliberately failed to make enquiries in circumstances in which a reasonable and honest person would have done so.

(3) In the application of subsection (1) to Scotland, the reference to money being held on trust is to be read as a reference to its being held as agent for the person who is entitled to call for it to be paid over to him or to be paid on his direction or to have it otherwise credited to him.

(4) Rules may—

(a) confer rights on persons to rescind agreements with, or withdraw offers to, authorised persons within a specified period; and

(b) make provision, in respect of authorised persons and persons exercising those rights, for the restitution of property and the making or recovery of payments where those rights are exercised.

(5) "Rules" means general rules.

(6) "Specified" means specified in the rules.

Restriction on managers of authorised unit trust schemes.

140.—(1) The Authority may make rules prohibiting an authorised person who has permission to act as the manager of an authorised unit trust scheme from carrying on a specified activity.

(2) Such rules may specify an activity which is not a regulated activity.

Insurance business rules.

141.—(1) The Authority may make rules prohibiting an authorised person who has permission to effect or carry out contracts of insurance from carrying on a specified activity.

(2) Such rules may specify an activity which is not a regulated activity.

(3) The Authority may make rules in relation to contracts entered into by an authorised person in the course of carrying on business which consists of the effecting or carrying out of contracts of long-term insurance.

(4) Such rules may, in particular—

(a) restrict the descriptions of property or indices of the value of property by reference to which the benefits under such contracts may be determined;

(b) make provision, in the interests of the protection of policyholders, for the substitution of one description of property, or index of value, by reference to which the benefits under a contract are to be determined for another such description of property or index.

(5) Rules made under this section are referred to in this Act as insurance business rules.

Insurance business: regulations supplementing Authority's rules.

142.—(1) The Treasury may make regulations for the purpose of preventing a person who is not an authorised person but who—

(a) is a parent undertaking of an authorised person who has permission to effect or carry out contracts of insurance, and

(b) falls within a prescribed class,

from doing anything to lessen the effectiveness of asset identification rules.

(2) "Asset identification rules" means rules made by the Authority which require an authorised person who has permission to effect or carry out contracts of insurance to identify assets which belong to him and which are maintained in respect of a particular aspect of his business.

(3) The regulations may, in particular, include provision—

(a) prohibiting the payment of dividends;

(b) prohibiting the creation of charges;

(c) making charges created in contravention of the regulations void.

(4) The Treasury may by regulations provide that, in prescribed circumstances, charges created in contravention of asset identification rules are void.

(5) A person who contravenes regulations under subsection (1) is guilty of an offence and liable on summary conviction to a fine not exceeding level 5 on the standard scale.

(6) "Charges" includes mortgages (or in Scotland securities over property).

Endorsement of codes etc.

143.—(1) The Authority may make rules ("endorsing rules")—

(a) endorsing the City Code on Takeovers and Mergers issued by the Panel on Takeovers and Mergers;

(b) endorsing the Rules Governing Substantial Acquisitions of Shares issued by the Panel.

(2) Endorsement may be—

(a) as respects all authorised persons; or

(b) only as respects a specified kind of authorised person.

(3) At any time when endorsing rules are in force, and if asked to do so by the Panel, the Authority may exercise its powers under Part IV or section 66 as if failure to comply with an endorsed provision was a ground entitling the Authority to exercise those powers.

(4) At any time when endorsing rules are in force and if asked to do so by the Panel, the Authority may exercise its powers under Part XIII, XIV or XXV as if the endorsed provisions were rules applying to the persons in respect of whom they are endorsed.

(5) For the purposes of subsections (3) and (4), a failure to comply with a requirement imposed, or ruling given, under an endorsed provision is to be treated as a failure to comply with the endorsed provision under which that requirement was imposed or ruling was given.

(6) If endorsed provisions are altered, subsections (3) and (4) apply to them as altered, but only if before the alteration the Authority has notified the Panel (and has not withdrawn its notification) that it is satisfied with the Panel's consultation procedures.

(7) "Consultation procedures" means procedures designed to provide an opportunity for persons likely to be affected by alterations to those provisions to make representations about proposed alterations to any of those provisions.

(8) Subsections (1), (2)(d), (4), (5), (6)(a) and (12) of section 155 apply (with the necessary modifications) to a proposal to give notification of the kind mentioned in subsection (6) as they apply to a proposal to make endorsing rules.

(9) This section applies in relation to particular provisions of the code or rules mentioned in subsection (1) as it applies to the code or the rules.

Specific rules

Price stabilising rules.

144.—(1) The Authority may make rules ("price stabilising rules") as to—

(a) the circumstances and manner in which,

(b) the conditions subject to which, and

(c) the time when or the period during which,

action may be taken for the purpose of stabilising the price of investments of specified kinds.

(2) Price stabilising rules—

(a) are to be made so as to apply only to authorised persons;

(b) may make different provision in relation to different kinds of investment.

(3) The Authority may make rules which, for the purposes of section 397(5)(b), treat a person who acts or engages in conduct—

(a) for the purpose of stabilising the price of investments, and

(b) in conformity with such provisions corresponding to price stabilising rules and made by a body or authority outside the United Kingdom as may be specified in the rules under this subsection,

as acting, or engaging in that conduct, for that purpose and in conformity with price stabilising rules.

(4) The Treasury may by order impose limitations on the power to make rules under this section.

(5) Such an order may, in particular—

(a) specify the kinds of investment in relation to which price stabilising rules may make provision;

(b) specify the kinds of investment in relation to which rules made under subsection (3) may make provision;

(c) provide for price stabilising rules to make provision for action to be taken for the purpose of stabilising the price of investments only in such circumstances as the order may specify;

(d) provide for price stabilising rules to make provision for action to be taken for that purpose only at such times or during such periods as the order may specify.

(6) If provisions specified in rules made under subsection (3) are altered, the rules continue to apply to those provisions as altered, but only if before the alteration the Authority has notified the body or authority concerned (and has not withdrawn its notification) that it is satisfied with its consultation procedures.

(7) "Consultation procedures" has the same meaning as in section 143.

Financial promotion rules.

145.—(1) The Authority may make rules applying to authorised persons about the communication by them, or their approval of the communication by others, of invitations or inducements—

(a) to engage in investment activity; or

(b) to participate in a collective investment scheme.

(2) Rules under this section may, in particular, make provision about the form and content of communications.

(3) Subsection (1) applies only to communications which—

(a) if made by a person other than an authorised person, without the approval of an authorised person, would contravene section 21(1);

(b) may be made by an authorised person without contravening section 238(1).

(4) "Engage in investment activity" has the same meaning as in section 21.

(5) The Treasury may by order impose limitations on the power to make rules under this section.

Money laundering rules.

146. The Authority may make rules in relation to the prevention and detection of money laundering in connection with the carrying on of regulated activities by authorised persons.

Control of information rules.

147.—(1) The Authority may make rules ("control of information rules") about the disclosure and use of information held by an authorised person ("A").

(2) Control of information rules may—

(a) require the withholding of information which A would otherwise have to disclose to a person ("B") for or with whom A does business in the course of carrying on any regulated or other activity;

(b) specify circumstances in which A may withhold information which he would otherwise have to disclose to B;

(c) require A not to use for the benefit of B information A holds which A would otherwise have to use in that way;

(d) specify circumstances in which A may decide not to use for the benefit of B information A holds which A would otherwise have to use in that way.

Modification or waiver

Modification or waiver of rules.

148.—(1) This section applies in relation to the following—

(a) auditors and actuaries rules;

(b) control of information rules;

(c) financial promotion rules;

(d) general rules;

(e) insurance business rules;

(f) money laundering rules; and

(g) price stabilising rules.

(2) The Authority may, on the application or with the consent of an authorised person, direct that all or any of the rules to which this section applies—

(a) are not to apply to the authorised person; or

(b) are to apply to him with such modifications as may be specified in the direction.

(3) An application must be made in such manner as the Authority may direct.

(4) The Authority may not give a direction unless it is satisfied that—

(a) compliance by the authorised person with the rules, or with the rules as unmodified, would be unduly burdensome or would not achieve the purpose for which the rules were made; and

(b) the direction would not result in undue risk to persons whose interests the rules are intended to protect.

(5) A direction may be given subject to conditions.

(6) Unless it is satisfied that it is inappropriate or unnecessary to do so, a direction must be published by the Authority in such a way as it thinks most suitable for bringing the direction to the attention of—

(a) those likely to be affected by it; and

(b) others who may be likely to make an application for a similar direction.

(7) In deciding whether it is satisfied as mentioned in subsection (6), the Authority must—

(a) take into account whether the direction relates to a rule contravention of which is actionable in accordance with section 150;

(b) consider whether its publication would prejudice, to an unreasonable degree, the commercial interests of the authorised person concerned or any other member of his immediate group; and

(c) consider whether its publication would be contrary to an international obligation of the United Kingdom.

(8) For the purposes of paragraphs (b) and (c) of subsection (7), the Authority must consider whether it would be possible to publish the direction without either of the consequences mentioned in those paragraphs by publishing it without disclosing the identity of the authorised person concerned.

(9) The Authority may—

(a) revoke a direction; or

(b) vary it on the application, or with the consent, of the authorised person to whom it relates.

(10) "Direction" means a direction under subsection (2).

(11) "Immediate group", in relation to an authorised person ("A"), means—

(a) A;

(b) a parent undertaking of A;

(c) a subsidiary undertaking of A;

(d) a subsidiary undertaking of a parent undertaking of A;

(e) a parent undertaking of a subsidiary undertaking of A.

Contravention of rules

149.—(1) If a particular rule so provides, contravention of the rule does not give rise to any of the consequences provided for by other provisions of this Act. Evidential provisions.

(2) A rule which so provides must also provide—

(a) that contravention may be relied on as tending to establish contravention of such other rule as may be specified; or

(b) that compliance may be relied on as tending to establish compliance with such other rule as may be specified.

(3) A rule may include the provision mentioned in subsection (1) only if the Authority considers that it is appropriate for it also to include the provision required by subsection (2).

Actions for damages.

150.—(1) A contravention by an authorised person of a rule is actionable at the suit of a private person who suffers loss as a result of the contravention, subject to the defences and other incidents applying to actions for breach of statutory duty.

(2) If rules so provide, subsection (1) does not apply to contravention of a specified provision of those rules.

(3) In prescribed cases, a contravention of a rule which would be actionable at the suit of a private person is actionable at the suit of a person who is not a private person, subject to the defences and other incidents applying to actions for breach of statutory duty.

(4) In subsections (1) and (3) "rule" does not include—

(a) listing rules; or

(b) a rule requiring an authorised person to have or maintain financial resources.

(5) "Private person" has such meaning as may be prescribed.

Limits on effect of contravening rules.

151.—(1) A person is not guilty of an offence by reason of a contravention of a rule made by the Authority.

(2) No such contravention makes any transaction void or unenforceable.

Procedural provisions

Notification of rules to the Treasury.

152.—(1) If the Authority makes any rules, it must give a copy to the Treasury without delay.

(2) If the Authority alters or revokes any rules, it must give written notice to the Treasury without delay.

(3) Notice of an alteration must include details of the alteration.

Rule-making instruments.

153.—(1) Any power conferred on the Authority to make rules is exercisable in writing.

(2) An instrument by which rules are made by the Authority ("a rule-making instrument") must specify the provision under which the rules are made.

(3) To the extent to which a rule-making instrument does not comply with subsection (2), it is void.

(4) A rule-making instrument must be published by the Authority in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(5) The Authority may charge a reasonable fee for providing a person with a copy of a rule-making instrument.

(6) A person is not to be taken to have contravened any rule made by the Authority if he shows that at the time of the alleged contravention the rule-making instrument concerned had not been made available in accordance with this section.

Verification of rules.

154.—(1) The production of a printed copy of a rule-making instrument purporting to be made by the Authority—

(a) on which is endorsed a certificate signed by a member of the Authority's staff authorised by it for that purpose, and

(b) which contains the required statements,

is evidence (or in Scotland sufficient evidence) of the facts stated in the certificate.

(2) The required statements are—

(a) that the instrument was made by the Authority;

(b) that the copy is a true copy of the instrument; and

(c) that on a specified date the instrument was made available to the public in accordance with section 153(4).

(3) A certificate purporting to be signed as mentioned in subsection (1) is to be taken to have been properly signed unless the contrary is shown.

(4) A person who wishes in any legal proceedings to rely on a rule-making instrument may require the Authority to endorse a copy of the instrument with a certificate of the kind mentioned in subsection (1).

Consultation.

155.—(1) If the Authority proposes to make any rules, it must publish a draft of the proposed rules in the way appearing to it to be best calculated to bring them to the attention of the public.

(2) The draft must be accompanied by—

(a) a cost benefit analysis;

(b) an explanation of the purpose of the proposed rules;

(c) an explanation of the Authority's reasons for believing that making the proposed rules is compatible with its general duties under section 2; and

(d) notice that representations about the proposals may be made to the Authority within a specified time.

(3) In the case of a proposal to make rules under a provision mentioned in subsection (9), the draft must also be accompanied by details of the expected expenditure by reference to which the proposal is made.

(4) Before making the proposed rules, the Authority must have regard to any representations made to it in accordance with subsection (2)(d).

(5) If the Authority makes the proposed rules, it must publish an account, in general terms, of—

(a) the representations made to it in accordance with subsection (2)(d); and

(b) its response to them.

(6) If the rules differ from the draft published under subsection (1) in a way which is, in the opinion of the Authority, significant—

(a) the Authority must (in addition to complying with subsection (5)) publish details of the difference; and

(b) those details must be accompanied by a cost benefit analysis.

(7) Subsections (1) to (6) do not apply if the Authority considers that the delay involved in complying with them would be prejudicial to the interests of consumers.

(8) Neither subsection (2)(a) nor subsection (6)(b) applies if the Authority considers—

(a) that, making the appropriate comparison, there will be no increase in costs; or

(b) that, making that comparison, there will be an increase in costs but the increase will be of minimal significance.

(9) Neither subsection (2)(a) nor subsection (6)(b) requires a cost benefit analysis to be carried out in relation to rules made under—

(a) section 136(2);

(b) subsection (1) of section 213 as a result of subsection (4) of that section;

(c) section 234;

(d) paragraph 17 of Schedule 1.

(10) "Cost benefit analysis" means an estimate of the costs together with an analysis of the benefits that will arise—

(a) if the proposed rules are made; or

(b) if subsection (6) applies, from the rules that have been made.

(11) "The appropriate comparison" means—

(a) in relation to subsection (2)(a), a comparison between the overall position if the rules are made and the overall position if they are not made;

(b) in relation to subsection (6)(b), a comparison between the overall position after the making of the rules and the overall position before they were made.

(12) The Authority may charge a reasonable fee for providing a person with a copy of a draft published under subsection (1).

General supplementary powers.

156.—(1) Rules made by the Authority may make different provision for different cases and may, in particular, make different provision in respect of different descriptions of authorised person, activity or investment.

(2) Rules made by the Authority may contain such incidental, supplemental, consequential and transitional provision as the Authority considers appropriate.

CHAPTER II

GUIDANCE

Guidance.

157.—(1) The Authority may give guidance consisting of such information and advice as it considers appropriate—

(a) with respect to the operation of this Act and of any rules made under it;

(b) with respect to any matters relating to functions of the Authority;

(c) for the purpose of meeting the regulatory objectives;

(d) with respect to any other matters about which it appears to the Authority to be desirable to give information or advice.

(2) The Authority may give financial or other assistance to persons giving information or advice of a kind which the Authority could give under this section.

(3) If the Authority proposes to give guidance to regulated persons generally, or to a class of regulated person, in relation to rules to which those persons are subject, subsections (1), (2) and (4) to (10) of section 155 apply to the proposed guidance as they apply to proposed rules.

(4) The Authority may—

(a) publish its guidance;

(b) offer copies of its published guidance for sale at a reasonable price; and

(c) if it gives guidance in response to a request made by any person, make a reasonable charge for that guidance.

(5) In this Chapter, references to guidance given by the Authority include references to any recommendation made by the Authority to persons generally, to regulated persons generally or to any class of regulated person.

(6) "Regulated person" means any—

(a) authorised person;

(b) person who is otherwise subject to rules made by the Authority.

Notification of guidance to the Treasury.

158.—(1) On giving any general guidance, the Authority must give the Treasury a copy of the guidance without delay.

(2) If the Authority alters any of its general guidance, it must give written notice to the Treasury without delay.

(3) The notice must include details of the alteration.

(4) If the Authority revokes any of its general guidance, it must give written notice to the Treasury without delay.

(5) "General guidance" means guidance given by the Authority under section 157 which is—

(a) given to persons generally, to regulated persons generally or to a class of regulated person;

(b) intended to have continuing effect; and

(c) given in writing or other legible form.

(6) "Regulated person" has the same meaning as in section 157.

CHAPTER III

COMPETITION SCRUTINY

Interpretation.

159.—(1) In this Chapter—

"Director" means the Director General of Fair Trading;

"practices", in relation to the Authority, means practices adopted by the Authority in the exercise of functions under this Act;

"regulating provisions" means any—

(a) rules;

(b) general guidance (as defined by section 158(5));

(c) statement issued by the Authority under section 64;

(d) code issued by the Authority under section 64 or 119.

(2) For the purposes of this Chapter, regulating provisions or practices have a significantly adverse effect on competition if—

(a) they have, or are intended or likely to have, that effect; or

(b) the effect that they have, or are intended or likely to have, is to require or encourage behaviour which has, or is intended or likely to have, a significantly adverse effect on competition.

(3) If regulating provisions or practices have, or are intended or likely to have, the effect of requiring or encouraging exploitation of the strength of a market position they are to be taken, for the purposes of this Chapter, to have an adverse effect on competition.

(4) In determining under this Chapter whether any of the regulating provisions have, or are likely to have, a particular effect, it may be assumed that the persons to whom the provisions concerned are addressed will act in accordance with them.

Reports by Director General of Fair Trading.

160.—(1) The Director must keep the regulating provisions and the Authority's practices under review.

(2) If at any time the Director considers that—

(a) a regulating provision or practice has a significantly adverse effect on competition, or

(b) two or more regulating provisions or practices taken together, or a particular combination of regulating provisions and practices, have such an effect,

he must make a report to that effect.

(3) If at any time the Director considers that—

(a) a regulating provision or practice does not have a significantly adverse effect on competition, or

(b) two or more regulating provisions or practices taken together, or a particular combination of regulating provisions and practices, do not have any such effect,

he may make a report to that effect.

(4) A report under subsection (2) must include details of the adverse effect on competition.

(5) If the Director makes a report under subsection (2) he must—

(a) send a copy of it to the Treasury, the Competition Commission and the Authority; and

(b) publish it in the way appearing to him to be best calculated to bring it to the attention of the public.

(6) If the Director makes a report under subsection (3)—

(a) he must send a copy of it to the Treasury, the Competition Commission and the Authority; and

(b) he may publish it.

(7) Before publishing a report under this section the Director must, so far as practicable, exclude any matter which relates to the private affairs of a particular individual the publication of which, in the opinion of the Director, would or might seriously and prejudicially affect his interests.

(8) Before publishing such a report the Director must, so far as practicable, exclude any matter which relates to the affairs of a particular body the publication of which, in the opinion of the Director, would or might seriously and prejudicially affect its interests.

(9) Subsections (7) and (8) do not apply in relation to copies of a report which the Director is required to send under subsection (5)(a) or (6)(a).

(10) For the purposes of the law of defamation, absolute privilege attaches to any report of the Director under this section.

Power of Director to request information.

161.—(1) For the purpose of investigating any matter with a view to its consideration under section 160, the Director may exercise the powers conferred on him by this section.

(2) The Director may by notice in writing require any person to produce to him or to a person appointed by him for the purpose, at a time and place specified in the notice, any document which—

(a) is specified or described in the notice; and

(b) is a document in that person's custody or under his control.

(3) The Director may by notice in writing—

(a) require any person carrying on any business to provide him with such information as may be specified or described in the notice; and

(b) specify the time within which, and the manner and form in which, any such information is to be provided.

(4) A requirement may be imposed under subsection (2) or (3)(a) only in respect of documents or information which relate to any matter relevant to the investigation.

(5) If a person ("the defaulter") refuses, or otherwise fails, to comply with a notice under this section, the Director may certify that fact in writing to the court and the court may enquire into the case.

(6) If, after hearing any witness who may be produced against or on behalf of the defaulter and any statement which may be offered in defence, the court is satisfied that the defaulter did not have a reasonable excuse for refusing or otherwise failing to comply with the notice, the court may deal with the defaulter as if he were in contempt.

(7) "Court" means—

(a) the High Court; or

(b) in relation to Scotland, the Court of Session.

Consideration by Competition Commission.

162.—(1) If the Director—

(a) makes a report under section 160(2), or

(b) asks the Commission to consider a report that he has made under section 160(3),

the Commission must investigate the matter.

(2) The Commission must then make its own report on the matter unless it considers that, as a result of a change of circumstances, no useful purpose would be served by a report.

(3) If the Commission decides in accordance with subsection (2) not to make a report, it must make a statement setting out the change of circumstances which resulted in that decision.

(4) A report made under this section must state the Commission's conclusion as to whether—

(a) the regulating provision or practice which is the subject of the report has a significantly adverse effect on competition; or

(b) the regulating provisions or practices, or combination of regulating provisions and practices, which are the subject of the report have such an effect.

(5) A report under this section stating the Commission's conclusion that there is a significantly adverse effect on competition must also—

(a) state whether the Commission considers that that effect is justified; and

(b) if it states that the Commission considers that it is not justified, state its conclusion as to what action, if any, ought to be taken by the Authority.

(6) Subsection (7) applies whenever the Commission is considering, for the purposes of this section, whether a particular adverse effect on competition is justified.

(7) The Commission must ensure, so far as that is reasonably possible, that the conclusion it reaches is compatible with the functions conferred, and obligations imposed, on the Authority by or under this Act.

(8) A report under this section must contain such an account of the Commission's reasons for its conclusions as is expedient, in the opinion of the Commission, for facilitating proper understanding of them.

(9) Schedule 14 supplements this section.

(10) If the Commission makes a report under this section it must send a copy to the Treasury, the Authority and the Director.

Role of the Treasury.

163.—(1) This section applies if the Competition Commission makes a report under section 162(2) which states its conclusion that there is a significantly adverse effect on competition.

(2) If the Commission's conclusion, as stated in the report, is that the adverse effect on competition is not justified, the Treasury must give a direction to the Authority requiring it to take such action as may be specified in the direction.

(3) But subsection (2) does not apply if the Treasury consider—

(a) that, as a result of action taken by the Authority in response to the Commission's report, it is unnecessary for them to give a direction; or

(b) that the exceptional circumstances of the case make it inappropriate or unnecessary for them to do so.

(4) In considering the action to be specified in a direction under subsection (2), the Treasury must have regard to any conclusion of the Commission included in the report because of section 162(5)(b).

(5) Subsection (6) applies if—

(a) the Commission's conclusion, as stated in its report, is that the adverse effect on competition is justified; but

(b) the Treasury consider that the exceptional circumstances of the case require them to act.

(6) The Treasury may give a direction to the Authority requiring it to take such action—

(a) as they consider to be necessary in the light of the exceptional circumstances of the case; and

(b) as may be specified in the direction.

(7) The Authority may not be required as a result of this section to take any action—

(a) that it would not have power to take in the absence of a direction under this section; or

(b) that would otherwise be incompatible with any of the functions conferred, or obligations imposed, on it by or under this Act.

(8) Subsection (9) applies if the Treasury are considering—

(a) whether subsection (2) applies and, if so, what action is to be specified in a direction under that subsection; or

(b) whether to give a direction under subsection (6).

(9) The Treasury must—

(a) do what they consider appropriate to allow the Authority, and any other person appearing to the Treasury to be affected, an opportunity to make representations; and

(b) have regard to any such representations.

(10) If, in reliance on subsection (3)(a) or (b), the Treasury decline to act under subsection (2), they must make a statement to that effect, giving their reasons.

(11) If the Treasury give a direction under this section they must make a statement giving—

(a) details of the direction; and

(b) if the direction is given under subsection (6), their reasons for giving it.

(12) The Treasury must—

(a) publish any statement made under this section in the way appearing to them best calculated to bring it to the attention of the public; and

(b) lay a copy of it before Parliament.

164.—(1) The Chapter I prohibition does not apply to an agreement the parties to which consist of or include— The Competition Act 1998.

(a) an authorised person, or

(b) a person who is otherwise subject to the Authority's regulating provisions,

to the extent to which the agreement consists of provisions the inclusion of which in the agreement is encouraged by any of the Authority's regulating provisions.

(2) The Chapter I prohibition does not apply to the practices of an authorised person or a person who is otherwise subject to the regulating provisions to the extent to which the practices are encouraged by any of the Authority's regulating provisions.

(3) The Chapter II prohibition does not apply to conduct of—

(a) an authorised person, or

(b) a person who is otherwise subject to the Authority's regulating provisions,

to the extent to which the conduct is encouraged by any of the Authority's regulating provisions.

1998 c. 41.

(4) "The Chapter I prohibition" means the prohibition imposed by section 2(1) of the Competition Act 1998.

(5) "The Chapter II prohibition" means the prohibition imposed by section 18(1) of that Act.

Part XI

Information Gathering and Investigations

Powers to gather information

Authority's power to require information.

165.—(1) The Authority may, by notice in writing given to an authorised person, require him—

(a) to provide specified information or information of a specified description; or

(b) to produce specified documents or documents of a specified description.

(2) The information or documents must be provided or produced—

(a) before the end of such reasonable period as may be specified; and

(b) at such place as may be specified.

(3) An officer who has written authorisation from the Authority to do so may require an authorised person without delay—

(a) to provide the officer with specified information or information of a specified description; or

(b) to produce to him specified documents or documents of a specified description.

(4) This section applies only to information and documents reasonably required in connection with the exercise by the Authority of functions conferred on it by or under this Act.

(5) The Authority may require any information provided under this section to be provided in such form as it may reasonably require.

(6) The Authority may require—

(a) any information provided, whether in a document or otherwise, to be verified in such manner, or

(b) any document produced to be authenticated in such manner,

as it may reasonably require.

(7) The powers conferred by subsections (1) and (3) may also be exercised to impose requirements on—

(a) a person who is connected with an authorised person;

(b) an operator, trustee or depositary of a scheme recognised under section 270 or 272 who is not an authorised person;

(c) a recognised investment exchange or recognised clearing house.

(8) "Authorised person" includes a person who was at any time an authorised person but who has ceased to be an authorised person.

(9) "Officer" means an officer of the Authority and includes a member of the Authority's staff or an agent of the Authority.

(10) "Specified" means—

(a) in subsections (1) and (2), specified in the notice; and

(b) in subsection (3), specified in the authorisation.

(11) For the purposes of this section, a person is connected with an authorised person ("A") if he is or has at any relevant time been—

(a) a member of A's group;

(b) a controller of A;

(c) any other member of a partnership of which A is a member; or

(d) in relation to A, a person mentioned in Part I of Schedule 15.

Reports by skilled persons.

166.—(1) The Authority may, by notice in writing given to a person to whom subsection (2) applies, require him to provide the Authority with a report on any matter about which the Authority has required or could require the provision of information or production of documents under section 165.

(2) This subsection applies to—

(a) an authorised person ("A"),

(b) any other member of A's group,

(c) a partnership of which A is a member, or

(d) a person who has at any relevant time been a person falling within paragraph (a), (b) or (c),

who is, or was at the relevant time, carrying on a business.

(3) The Authority may require the report to be in such form as may be specified in the notice.

(4) The person appointed to make a report required by subsection (1) must be a person—

(a) nominated or approved by the Authority; and

(b) appearing to the Authority to have the skills necessary to make a report on the matter concerned.

(5) It is the duty of any person who is providing (or who at any time has provided) services to a person to whom subsection (2) applies in

relation to a matter on which a report is required under subsection (1) to give a person appointed to provide such a report all such assistance as the appointed person may reasonably require.

(6) The obligation imposed by subsection (5) is enforceable, on the application of the Authority, by an injunction or, in Scotland, by an order for specific performance under section 45 of the Court of Session Act 1988.

1988 c. 36.

Appointment of investigators

Appointment of persons to carry out general investigations.

167.—(1) If it appears to the Authority or the Secretary of State ("the investigating authority") that there is good reason for doing so, the investigating authority may appoint one or more competent persons to conduct an investigation on its behalf into—

(a) the nature, conduct or state of the business of an authorised person or of an appointed representative;

(b) a particular aspect of that business; or

(c) the ownership or control of an authorised person.

(2) If a person appointed under subsection (1) thinks it necessary for the purposes of his investigation, he may also investigate the business of a person who is or has at any relevant time been—

(a) a member of the group of which the person under investigation ("A") is part; or

(b) a partnership of which A is a member.

(3) If a person appointed under subsection (1) decides to investigate the business of any person under subsection (2) he must give that person written notice of his decision.

(4) The power conferred by this section may be exercised in relation to a former authorised person (or appointed representative) but only in relation to—

(a) business carried on at any time when he was an authorised person (or appointed representative); or

(b) the ownership or control of a former authorised person at any time when he was an authorised person.

(5) "Business" includes any part of a business even if it does not consist of carrying on regulated activities.

Appointment of persons to carry out investigations in particular cases.

168.—(1) Subsection (3) applies if it appears to an investigating authority that there are circumstances suggesting that—

(a) a person may have contravened any regulation made under section 142; or

(b) a person may be guilty of an offence under section 177, 191, 346 or 398(1) or under Schedule 4.

(2) Subsection (3) also applies if it appears to an investigating authority that there are circumstances suggesting that—

(a) an offence under section 24(1) or 397 or under Part V of the Criminal Justice Act 1993 may have been committed;

1993 c. 36.

(b) there may have been a breach of the general prohibition;

(c) there may have been a contravention of section 21 or 238; or

(d) market abuse may have taken place.

(3) The investigating authority may appoint one or more competent persons to conduct an investigation on its behalf.

(4) Subsection (5) applies if it appears to the Authority that there are circumstances suggesting that—

(a) a person may have contravened section 20;

(b) a person may be guilty of an offence under prescribed regulations relating to money laundering;

(c) an authorised person may have contravened a rule made by the Authority;

(d) an individual may not be a fit and proper person to perform functions in relation to a regulated activity carried on by an authorised or exempt person;

(e) an individual may have performed or agreed to perform a function in breach of a prohibition order;

(f) an authorised or exempt person may have failed to comply with section 56(6);

(g) an authorised person may have failed to comply with section 59(1) or (2);

(h) a person in relation to whom the Authority has given its approval under section 59 may not be a fit and proper person to perform the function to which that approval relates; or

(i) a person may be guilty of misconduct for the purposes of section 66.

(5) The Authority may appoint one or more competent persons to conduct an investigation on its behalf.

(6) “Investigating authority” means the Authority or the Secretary of State.

Assistance to overseas regulators

Investigations etc. in support of overseas regulator.

169.—(1) At the request of an overseas regulator, the Authority may—

(a) exercise the power conferred by section 165; or

(b) appoint one or more competent persons to investigate any matter.

(2) An investigator has the same powers as an investigator appointed under section 168(3) (as a result of subsection (1) of that section).

(3) If the request has been made by a competent authority in pursuance of any Community obligation the Authority must, in deciding whether or not to exercise its investigative power, consider whether its exercise is necessary to comply with any such obligation.

(4) In deciding whether or not to exercise its investigative power, the Authority may take into account in particular—

(a) whether in the country or territory of the overseas regulator concerned, corresponding assistance would be given to a United Kingdom regulatory authority;

(b) whether the case concerns the breach of a law, or other requirement, which has no close parallel in the United Kingdom or involves the assertion of a jurisdiction not recognised by the United Kingdom;

(c) the seriousness of the case and its importance to persons in the United Kingdom;

(d) whether it is otherwise appropriate in the public interest to give the assistance sought.

(5) The Authority may decide that it will not exercise its investigative power unless the overseas regulator undertakes to make such contribution towards the cost of its exercise as the Authority considers appropriate.

(6) Subsections (4) and (5) do not apply if the Authority considers that the exercise of its investigative power is necessary to comply with a Community obligation.

(7) If the Authority has appointed an investigator in response to a request from an overseas regulator, it may direct the investigator to permit a representative of that regulator to attend, and take part in, any interview conducted for the purposes of the investigation.

(8) A direction under subsection (7) is not to be given unless the Authority is satisfied that any information obtained by an overseas regulator as a result of the interview will be subject to safeguards equivalent to those contained in Part XXIII.

(9) The Authority must prepare a statement of its policy with respect to the conduct of interviews in relation to which a direction under subsection (7) has been given.

(10) The statement requires the approval of the Treasury.

(11) If the Treasury approve the statement, the Authority must publish it.

(12) No direction may be given under subsection (7) before the statement has been published.

(13) "Overseas regulator" has the same meaning as in section 195.

(14) "Investigative power" means one of the powers mentioned in subsection (1).

(15) "Investigator" means a person appointed under subsection (1)(b).

Conduct of investigations

Investigations: general.

170.—(1) This section applies if an investigating authority appoints one or more competent persons ("investigators") under section 167 or 168(3) or (5) to conduct an investigation on its behalf.

(2) The investigating authority must give written notice of the appointment of an investigator to the person who is the subject of the investigation ("the person under investigation").

(3) Subsections (2) and (9) do not apply if —

(a) the investigator is appointed as a result of section 168(1) or (4) and the investigating authority believes that the notice required by subsection (2) or (9) would be likely to result in the investigation being frustrated; or

(b) the investigator is appointed as a result of subsection (2) of section 168.

(4) A notice under subsection (2) must—

(a) specify the provisions under which, and as a result of which, the investigator was appointed; and

(b) state the reason for his appointment.

(5) Nothing prevents the investigating authority from appointing a person who is a member of its staff as an investigator.

(6) An investigator must make a report of his investigation to the investigating authority.

(7) The investigating authority may, by a direction to an investigator, control—

(a) the scope of the investigation;

(b) the period during which the investigation is to be conducted;

(c) the conduct of the investigation; and

(d) the reporting of the investigation.

(8) A direction may, in particular—

(a) confine the investigation to particular matters;

(b) extend the investigation to additional matters;

(c) require the investigator to discontinue the investigation or to take only such steps as are specified in the direction;

(d) require the investigator to make such interim reports as are so specified.

(9) If there is a change in the scope or conduct of the investigation and, in the opinion of the investigating authority, the person subject to investigation is likely to be significantly prejudiced by not being made aware of it, that person must be given written notice of the change.

(10) "Investigating authority", in relation to an investigator, means—

(a) the Authority, if the Authority appointed him;

(b) the Secretary of State, if the Secretary of State appointed him.

Powers of persons appointed under section 167.

171.—(1) An investigator may require the person who is the subject of the investigation ("the person under investigation") or any person connected with the person under investigation—

(a) to attend before the investigator at a specified time and place and answer questions; or

(b) otherwise to provide such information as the investigator may require.

(2) An investigator may also require any person to produce at a specified time and place any specified documents or documents of a specified description.

(3) A requirement under subsection (1) or (2) may be imposed only so far as the investigator concerned reasonably considers the question, provision of information or production of the document to be relevant to the purposes of the investigation.

(4) For the purposes of this section and section 172, a person is connected with the person under investigation ("A") if he is or has at any relevant time been—

(a) a member of A's group;

(b) a controller of A;

(c) a partnership of which A is a member; or

(d) in relation to A, a person mentioned in Part I or II of Schedule 15.

(5) "Investigator" means a person conducting an investigation under section 167.

(6) "Specified" means specified in a notice in writing.

Additional power of persons appointed as a result of section 168(1) or (4).

172.—(1) An investigator has the powers conferred by section 171.

(2) An investigator may also require a person who is neither the subject of the investigation ("the person under investigation") nor a person connected with the person under investigation—

(a) to attend before the investigator at a specified time and place and answer questions; or

(b) otherwise to provide such information as the investigator may require for the purposes of the investigation.

(3) A requirement may only be imposed under subsection (2) if the investigator is satisfied that the requirement is necessary or expedient for the purposes of the investigation.

(4) "Investigator" means a person appointed as a result of subsection (1) or (4) of section 168.

(5) "Specified" means specified in a notice in writing.

Powers of persons appointed as a result of section 168(2).

173.—(1) Subsections (2) to (4) apply if an investigator considers that any person ("A") is or may be able to give information which is or may be relevant to the investigation.

(2) The investigator may require A—

(a) to attend before him at a specified time and place and answer questions; or

(b) otherwise to provide such information as he may require for the purposes of the investigation.

(3) The investigator may also require A to produce at a specified time and place any specified documents or documents of a specified description which appear to the investigator to relate to any matter relevant to the investigation.

(4) The investigator may also otherwise require A to give him all assistance in connection with the investigation which A is reasonably able to give.

(5) "Investigator" means a person appointed under subsection (3) of section 168 (as a result of subsection (2) of that section).

Admissibility of statements made to investigators.

174.—(1) A statement made to an investigator by a person in compliance with an information requirement is admissible in evidence in any proceedings, so long as it also complies with any requirements governing the admissibility of evidence in the circumstances in question.

(2) But in criminal proceedings in which that person is charged with an offence to which this subsection applies or in proceedings in relation to action to be taken against that person under section 123—

(a) no evidence relating to the statement may be adduced, and

(b) no question relating to it may be asked,

by or on behalf of the prosecution or (as the case may be) the Authority, unless evidence relating to it is adduced, or a question relating to it is asked, in the proceedings by or on behalf of that person.

(3) Subsection (2) applies to any offence other than one—

(a) under section 177(4) or 398;

(b) under section 5 of the Perjury Act 1911 (false statements made otherwise than on oath); 1911 c. 6.

(c) under section 44(2) of the Criminal Law (Consolidation)(Scotland) Act 1995 (false statements made otherwise than on oath); or 1995 c. 39.

(d) under Article 10 of the Perjury (Northern Ireland) Order 1979. S.I. 1979/1714 (N.I. 19).

(4) "Investigator" means a person appointed under section 167 or 168(3) or (5).

(5) "Information requirement" means a requirement imposed by an investigator under section 171, 172, 173 or 175.

Information and documents: supplemental provisions.

175.—(1) If the Authority or an investigator has power under this Part to require a person to produce a document but it appears that the document is in the possession of a third person, that power may be exercised in relation to the third person.

(2) If a document is produced in response to a requirement imposed under this Part, the person to whom it is produced may—

(a) take copies or extracts from the document; or

(b) require the person producing the document, or any relevant person, to provide an explanation of the document.

(3) If a person who is required under this Part to produce a document fails to do so, the Authority or an investigator may require him to state, to the best of his knowledge and belief, where the document is.

(4) A lawyer may be required under this Part to furnish the name and address of his client.

(5) No person may be required under this Part to disclose information or produce a document in respect of which he owes an obligation of confidence by virtue of carrying on the business of banking unless—

(a) he is the person under investigation or a member of that person's group;

(b) the person to whom the obligation of confidence is owed is the person under investigation or a member of that person's group;

(c) the person to whom the obligation of confidence is owed consents to the disclosure or production; or

(d) the imposing on him of a requirement with respect to such information or document has been specifically authorised by the investigating authority.

(6) If a person claims a lien on a document, its production under this Part does not affect the lien.

(7) "Relevant person", in relation to a person who is required to produce a document, means a person who—

(a) has been or is or is proposed to be a director or controller of that person;

(b) has been or is an auditor of that person;

(c) has been or is an actuary, accountant or lawyer appointed or instructed by that person; or

(d) has been or is an employee of that person.

(8) "Investigator" means a person appointed under section 167 or 168(3) or (5).

Entry of premises under warrant.

176.—(1) A justice of the peace may issue a warrant under this section if satisfied on information on oath given by or on behalf of the Secretary of State, the Authority or an investigator that there are reasonable grounds for believing that the first, second or third set of conditions is satisfied.

(2) The first set of conditions is—

(a) that a person on whom an information requirement has been imposed has failed (wholly or in part) to comply with it; and

(b) that on the premises specified in the warrant—

(i) there are documents which have been required; or

(ii) there is information which has been required.

(3) The second set of conditions is—

(a) that the premises specified in the warrant are premises of an authorised person or an appointed representative;

(b) that there are on the premises documents or information in relation to which an information requirement could be imposed; and

(c) that if such a requirement were to be imposed—

(i) it would not be complied with; or

(ii) the documents or information to which it related would be removed, tampered with or destroyed.

(4) The third set of conditions is—

(a) that an offence mentioned in section 168 for which the maximum sentence on conviction on indictment is two years or more has been (or is being) committed by any person;

(b) that there are on the premises specified in the warrant documents or information relevant to whether that offence has been (or is being) committed;

(c) that an information requirement could be imposed in relation to those documents or information; and

(d) that if such a requirement were to be imposed—

(i) it would not be complied with; or

(ii) the documents or information to which it related would be removed, tampered with or destroyed.

(5) A warrant under this section shall authorise a constable—

(a) to enter the premises specified in the warrant;

(b) to search the premises and take possession of any documents or information appearing to be documents or information of a kind in respect of which a warrant under this section was issued ("the relevant kind") or to take, in relation to any such documents or information, any other steps which may appear to be necessary for preserving them or preventing interference with them;

(c) to take copies of, or extracts from, any documents or information appearing to be of the relevant kind;

(d) to require any person on the premises to provide an explanation of any document or information appearing to be of the relevant kind or to state where it may be found; and

(e) to use such force as may be reasonably necessary.

(6) In England and Wales, sections 15(5) to (8) and section 16 of the Police and Criminal Evidence Act 1984 (execution of search warrants and safeguards) apply to warrants issued under this section. 1984 c. 60.

(7) In Northern Ireland, Articles 17(5) to (8) and 18 of the Police and Criminal Evidence (Northern Ireland) Order 1989 apply to warrants issued under this section. S.I. 1989/1341 (N.I. 12).

(8) Any document of which possession is taken under this section may be retained—

(a) for a period of three months; or

(b) if within that period proceedings to which the document is relevant are commenced against any person for any criminal offence, until the conclusion of those proceedings.

(9) In the application of this section to Scotland—

(a) for the references to a justice of the peace substitute references to a justice of the peace or a sheriff; and

(b) for the references to information on oath substitute references to evidence on oath.

(10) "Investigator" means a person appointed under section 167 or 168(3) or (5).

(11) "Information requirement" means a requirement imposed—

(a) by the Authority under section 165 or 175; or

(b) by an investigator under section 171, 172, 173 or 175.

Offences

Offences.

177.—(1) If a person other than the investigator ("the defaulter") fails to comply with a requirement imposed on him under this Part the person imposing the requirement may certify that fact in writing to the court.

(2) If the court is satisfied that the defaulter failed without reasonable excuse to comply with the requirement, it may deal with the defaulter (and in the case of a body corporate, any director or officer) as if he were in contempt.

(3) A person who knows or suspects that an investigation is being or is likely to be conducted under this Part is guilty of an offence if—

(a) he falsifies, conceals, destroys or otherwise disposes of a document which he knows or suspects is or would be relevant to such an investigation, or

(b) he causes or permits the falsification, concealment, destruction or disposal of such a document,

unless he shows that he had no intention of concealing facts disclosed by the documents from the investigator.

(4) A person who, in purported compliance with a requirement imposed on him under this Part—

(a) provides information which he knows to be false or misleading in a material particular, or

(b) recklessly provides information which is false or misleading in a material particular,

is guilty of an offence.

(5) A person guilty of an offence under subsection (3) or (4) is liable—

(a) on summary conviction, to imprisonment for a term not exceeding six months or a fine not exceeding the statutory maximum, or both;

(b) on conviction on indictment, to imprisonment for a term not exceeding two years or a fine, or both.

(6) Any person who intentionally obstructs the exercise of any rights conferred by a warrant under section 176 is guilty of an offence and liable on summary conviction to imprisonment for a term not exceeding three months or a fine not exceeding level 5 on the standard scale, or both.

(7) "Court" means—

(a) the High Court;

(b) in Scotland, the Court of Session.

PART XII

CONTROL OVER AUTHORISED PERSONS

Notice of control

Obligation to notify the Authority.

178.—(1) If a step which a person proposes to take would result in his acquiring—

(a) control over a UK authorised person,

(b) an additional kind of control over a UK authorised person, or

(c) an increase in a relevant kind of control which he already has over a UK authorised person,

he must notify the Authority of his proposal.

(2) A person who, without himself taking any such step, acquires any such control or additional or increased control must notify the Authority before the end of the period of 14 days beginning with the day on which he first becomes aware that he has acquired it.

(3) A person who is under the duty to notify the Authority imposed by subsection (1) must also give notice to the Authority on acquiring, or increasing, the control in question.

(4) In this Part "UK authorised person" means an authorised person who—

(a) is a body incorporated in, or an unincorporated association formed under the law of, any part of the United Kingdom; and

(b) is not a person authorised as a result of paragraph 1 of Schedule 5.

(5) A notice under subsection (1) or (2) is referred to in this Part as "a notice of control".

Acquiring, increasing and reducing control

179.—(1) For the purposes of this Part, a person ("the acquirer") acquires control over a UK authorised person ("A") on first falling within any of the cases in subsection (2). Acquiring control.

(2) The cases are where the acquirer—

(a) holds 10% or more of the shares in A;

(b) is able to exercise significant influence over the management of A by virtue of his shareholding in A;

(c) holds 10% or more of the shares in a parent undertaking ("P") of A;

(d) is able to exercise significant influence over the management of P by virtue of his shareholding in P;

(e) is entitled to exercise, or control the exercise of, 10% or more of the voting power in A;

(f) is able to exercise significant influence over the management of A by virtue of his voting power in A;

(g) is entitled to exercise, or control the exercise of, 10% or more of the voting power in P; or

(h) is able to exercise significant influence over the management of P by virtue of his voting power in P.

(3) In subsection (2) "the acquirer" means—

(a) the acquirer;

(b) any of the acquirer's associates; or

(c) the acquirer and any of his associates.

(4) For the purposes of this Part, each of the following is to be regarded as a kind of control—

(a) control arising as a result of the holding of shares in A;

(b) control arising as a result of the holding of shares in P;

(c) control arising as a result of the entitlement to exercise, or control the exercise of, voting power in A;

(d) control arising as a result of the entitlement to exercise, or control the exercise of, voting power in P.

(5) For the purposes of this section and sections 180 and 181, "associate", "shares" and "voting power" have the same meaning as in section 422.

Increasing control.

180.—(1) For the purposes of this Part, a controller of a person ("A") who is a UK authorised person increases his control over A if—

(a) the percentage of shares held by the controller in A increases by any of the steps mentioned in subsection (2);

(b) the percentage of shares held by the controller in a parent undertaking ("P") of A increases by any of the steps mentioned in subsection (2);

(c) the percentage of voting power which the controller is entitled to exercise, or control the exercise of, in A increases by any of the steps mentioned in subsection (2);

(d) the percentage of voting power which the controller is entitled to exercise, or control the exercise of, in P increases by any of the steps mentioned in subsection (2); or

(e) the controller becomes a parent undertaking of A.

(2) The steps are—

(a) from below 10% to 10% or more but less than 20%;

(b) from below 20% to 20% or more but less than 33%;

(c) from below 33% to 33% or more but less than 50%;

(d) from below 50% to 50% or more.

(3) In paragraphs (a) to (d) of subsection (1) "the controller" means—

(a) the controller;

(b) any of the controller's associates; or

(c) the controller and any of his associates.

(4) In the rest of this Part "acquiring control" or "having control" includes—

(a) acquiring or having an additional kind of control; or

(b) acquiring an increase in a relevant kind of control, or having increased control of a relevant kind.

Reducing control.

181.—(1) For the purposes of this Part, a controller of a person ("A") who is a UK authorised person reduces his control over A if—

(a) the percentage of shares held by the controller in A decreases by any of the steps mentioned in subsection (2),

(b) the percentage of shares held by the controller in a parent undertaking ("P") of A decreases by any of the steps mentioned in subsection (2),

(c) the percentage of voting power which the controller is entitled to exercise, or control the exercise of, in A decreases by any of the steps mentioned in subsection (2),

(d) the percentage of voting power which the controller is entitled to exercise, or control the exercise of, in P decreases by any of the steps mentioned in subsection (2), or

(e) the controller ceases to be a parent undertaking of A,

unless the controller ceases to have the kind of control concerned over A as a result.

(2) The steps are—

(a) from 50% or more to 33% or more but less than 50%;

(b) from 33% or more to 20% or more but less than 33%;

(c) from 20% or more to 10% or more but less than 20%;

(d) from 10% or more to less than 10%.

(3) In paragraphs (a) to (d) of subsection (1) "the controller" means—

(a) the controller;

(b) any of the controller's associates; or

(c) the controller and any of his associates.

Acquiring or increasing control: procedure

182.—(1) A notice of control must— Notification.

(a) be given to the Authority in writing; and

(b) include such information and be accompanied by such documents as the Authority may reasonably require.

(2) The Authority may require the person giving a notice of control to provide such additional information or documents as it reasonably considers necessary in order to enable it to determine what action it is to take in response to the notice.

(3) Different requirements may be imposed in different circumstances.

183.—(1) The Authority must, before the end of the period of three months beginning with the date on which it receives a notice of control ("the period for consideration"), determine whether— Duty of Authority in relation to notice of control.

(a) to approve of the person concerned having the control to which the notice relates; or

(b) to serve a warning notice under subsection (3) or section 185(3).

(2) Before doing so, the Authority must comply with such requirements as to consultation with competent authorities outside the United Kingdom as may be prescribed.

(3) If the Authority proposes to give the person concerned a notice of objection under section 186(1), it must give him a warning notice.

184.—(1) If the Authority decides to approve of the person concerned having the control to which the notice relates it must notify that person of its approval in writing without delay. Approval of acquisition of control.

(2) If the Authority fails to comply with subsection (1) of section 183 it is to be treated as having given its approval and notified the person concerned at the end of the period fixed by that subsection.

(3) The Authority's approval remains effective only if the person to whom it relates acquires the control in question—

(a) before the end of such period as may be specified in the notice; or

(b) if no period is specified, before the end of the period of one year beginning with the date—

(i) of the notice of approval;

(ii) on which the Authority is treated as having given approval under subsection (2); or

(iii) of a decision on a reference to the Tribunal which results in the person concerned receiving approval.

Conditions attached to approval.

185.—(1) The Authority's approval under section 184 may be given unconditionally or subject to such conditions as the Authority considers appropriate.

(2) In imposing any conditions, the Authority must have regard to its duty under section 41.

(3) If the Authority proposes to impose conditions on a person it must give him a warning notice.

(4) If the Authority decides to impose conditions on a person it must give him a decision notice.

(5) A person who is subject to a condition imposed under this section may apply to the Authority—

(a) for the condition to be varied; or

(b) for the condition to be cancelled.

(6) The Authority may, on its own initiative, cancel a condition imposed under this section.

(7) If the Authority has given its approval to a person subject to a condition, he may refer to the Tribunal—

(a) the imposition of the condition; or

(b) the Authority's decision to refuse an application made by him under subsection (5).

Objection to acquisition of control.

186.—(1) On considering a notice of control, the Authority may give a decision notice under this section to the person acquiring control ("the acquirer") unless it is satisfied that the approval requirements are met.

(2) The approval requirements are that—

(a) the acquirer is a fit and proper person to have the control over the authorised person that he has or would have if he acquired the control in question; and

(b) the interests of consumers would not be threatened by the acquirer's control or by his acquiring that control.

(3) In deciding whether the approval requirements are met, the Authority must have regard, in relation to the control that the acquirer—

(a) has over the authorised person concerned ("A"), or

(b) will have over A if the proposal to which the notice of control relates is carried into effect,

to its duty under section 41 in relation to each regulated activity carried on by A.

(4) If the Authority gives a notice under this section but considers that the approval requirements would be met if the person to whom a notice is given were to take, or refrain from taking, a particular step, the notice must identify that step.

(5) A person to whom a notice under this section is given may refer the matter to the Tribunal.

(6) "Consumers" means persons who are consumers for the purposes of section 138.

Objection to existing control.

187.—(1) If the Authority is not satisfied that the approval requirements are met, it may give a decision notice under this section to a person if he has failed to comply with a duty to notify imposed by section 178.

(2) If the failure relates to subsection (1) or (2) of that section, the Authority may (instead of giving a notice under subsection (1)) approve the acquisition of the control in question by the person concerned as if he had given it a notice of control.

(3) The Authority may also give a decision notice under this section to a person who is a controller of a UK authorised person if the Authority becomes aware of matters as a result of which it is satisfied that—

(a) the approval requirements are not met with respect to the controller; or

(b) a condition imposed under section 185 required that person to do (or refrain from doing) a particular thing and the condition has been breached as a result of his failing to do (or doing) that thing.

(4) A person to whom a notice under this section is given may refer the matter to the Tribunal.

(5) "Approval requirements" has the same meaning as in section 186.

Notices of objection under section 187: procedure.

188.—(1) If the Authority proposes to give a notice of objection to a person under section 187, it must give him a warning notice.

(2) Before doing so, the Authority must comply with such requirements as to consultation with competent authorities outside the United Kingdom as may be prescribed.

(3) If the Authority decides to give a warning notice under this section, it must do so before the end of the period of three months beginning—

(a) in the case of a notice to be given under section 187(1), with the date on which it became aware of the failure to comply with the duty in question;

(b) in the case of a notice to be given under section 187(3), with the date on which it became aware of the matters in question.

(4) The Authority may require the person concerned to provide such additional information or documents as it considers reasonable.

(5) Different requirements may be imposed in different circumstances.

(6) In this Part "notice of objection" means a notice under section 186 or 187.

Improperly acquired shares

Improperly acquired shares.

189.—(1) The powers conferred by this section are exercisable if a person has acquired, or has continued to hold, any shares in contravention of—

(a) a notice of objection; or

(b) a condition imposed on the Authority's approval.

(2) The Authority may by notice in writing served on the person concerned ("a restriction notice") direct that any such shares which are specified in the notice are, until further notice, subject to one or more of the following restrictions—

(a) a transfer of (or agreement to transfer) those shares, or in the case of unissued shares any transfer of (or agreement to transfer) the right to be issued with them, is void;

(b) no voting rights are to be exercisable in respect of the shares;

(c) no further shares are to be issued in right of them or in pursuance of any offer made to their holder;

(d) except in a liquidation, no payment is to be made of any sums due from the body corporate on the shares, whether in respect of capital or otherwise.

(3) The court may, on the application of the Authority, order the sale of any shares to which this section applies and, if they are for the time being subject to any restriction under subsection (2), that they are to cease to be subject to that restriction.

(4) No order may be made under subsection (3)—

(a) until the end of the period within which a reference may be made to the Tribunal in respect of the notice of objection; and

(b) if a reference is made, until the matter has been determined or the reference withdrawn.

(5) If an order has been made under subsection (3), the court may, on the application of the Authority, make such further order relating to the sale or transfer of the shares as it thinks fit.

(6) If shares are sold in pursuance of an order under this section, the proceeds of sale, less the costs of the sale, must be paid into court for the benefit of the persons beneficially interested in them; and any such person may apply to the court for the whole or part of the proceeds to be paid to him.

(7) This section applies—

(a) in the case of an acquirer falling within section 178(1), to all the shares—

(i) in the authorised person which the acquirer has acquired;

(ii) which are held by him or an associate of his; and

(iii) which were not so held immediately before he became a person with control over the authorised person;

(b) in the case of an acquirer falling within section 178(2), to all the shares held by him or an associate of his at the time when he first became aware that he had acquired control over the authorised person; and

(c) to all the shares in an undertaking ("C")—

(i) which are held by the acquirer or an associate of his, and

(ii) which were not so held before he became a person with control in relation to the authorised person,

where C is the undertaking in which shares were acquired by the acquirer (or an associate of his) and, as a result, he became a person with control in relation to that authorised person.

(8) A copy of the restriction notice must be served on—

(a) the authorised person to whose shares it relates; and

(b) if it relates to shares held by an associate of that authorised person, on that associate.

(9) The jurisdiction conferred by this section may be exercised by the High Court and the Court of Session.

Reducing control: procedure

190.—(1) If a step which a controller of a UK authorised person proposes to take would result in his— Notification.

(a) ceasing to have control of a relevant kind over the authorised person, or

(b) reducing a relevant kind of control over that person,

he must notify the Authority of his proposal.

(2) A controller of a UK authorised person who, without himself taking any such step, ceases to have that control or reduces that control must notify the Authority before the end of the period of 14 days beginning with the day on which he first becomes aware that—

(a) he has ceased to have the control in question; or

(b) he has reduced that control.

(3) A person who is under the duty to notify the Authority imposed by subsection (1) must also give a notice to the Authority—

(a) on ceasing to have the control in question; or

(b) on reducing that control.

(4) A notice under this section must—

(a) be given to the Authority in writing; and

(b) include details of the extent of the control (if any) which the person concerned will retain (or still retains) over the authorised person concerned.

Offences

Offences under this Part.

191.—(1) A person who fails to comply with the duty to notify the Authority imposed on him by section 178(1) or 190(1) is guilty of an offence.

(2) A person who fails to comply with the duty to notify the Authority imposed on him by section 178(2) or 190(2) is guilty of an offence.

(3) If a person who has given a notice of control to the Authority carries out the proposal to which the notice relates, he is guilty of an offence if—

(a) the period of three months beginning with the date on which the Authority received the notice is still running; and

(b) the Authority has not responded to the notice by either giving its approval or giving him a warning notice under section 183(3) or 185(3).

(4) A person to whom the Authority has given a warning notice under section 183(3) is guilty of an offence if he carries out the proposal to which the notice relates before the Authority has decided whether to give him a notice of objection.

(5) A person to whom a notice of objection has been given is guilty of an offence if he acquires the control to which the notice applies at a time when the notice is still in force.

(6) A person guilty of an offence under subsection (1), (2), (3) or (4) is liable on summary conviction to a fine not exceeding level 5 on the standard scale.

(7) A person guilty of an offence under subsection (5) is liable—

(a) on summary conviction, to a fine not exceeding the statutory maximum; and

(b) on conviction on indictment, to imprisonment for a term not exceeding two years or a fine, or both.

(8) A person guilty of an offence under subsection (5) is also liable on summary conviction to a fine not exceeding one tenth of the statutory maximum for each day on which the offence has continued.

(9) It is a defence for a person charged with an offence under subsection (1) to show that he had, at the time of the alleged offence, no knowledge of the act or circumstances by virtue of which the duty to notify the Authority arose.

(10) If a person—

(a) was under the duty to notify the Authority imposed by section 178(1) or 190(1) but had no knowledge of the act or circumstances by virtue of which that duty arose, but

(b) subsequently becomes aware of that act or those circumstances,

he must notify the Authority before the end of the period of 14 days beginning with the day on which he first became so aware.

(11) A person who fails to comply with the duty to notify the Authority imposed by subsection (10) is guilty of an offence and liable, on summary conviction, to a fine not exceeding level 5 on the standard scale.

Miscellaneous

Power to change definitions of control etc.

192. The Treasury may by order—

(a) provide for exemptions from the obligations to notify imposed by sections 178 and 190;

(b) amend section 179 by varying, or removing, any of the cases in which a person is treated as having control over a UK authorised person or by adding a case;

(c) amend section 180 by varying, or removing, any of the cases in which a person is treated as increasing control over a UK authorised person or by adding a case;

(d) amend section 181 by varying, or removing, any of the cases in which a person is treated as reducing his control over a UK authorised person or by adding a case;

(e) amend section 422 by varying, or removing, any of the cases in which a person is treated as being a controller of a person or by adding a case.

Part XIII

Incoming Firms: Intervention by Authority

Interpretation

Interpretation of this Part.

193.—(1) In this Part—

"additional procedure" means the procedure described in section 199;

"incoming firm" means—

(a) an EEA firm which is exercising, or has exercised, its right to carry on a regulated activity in the United Kingdom in accordance with Schedule 3; or

(b) a Treaty firm which is exercising, or has exercised, its right to carry on a regulated activity in the United Kingdom in accordance with Schedule 4; and

"power of intervention" means the power conferred on the Authority by section 196.

(2) In relation to an incoming firm which is an EEA firm, expressions used in this Part and in Schedule 3 have the same meaning in this Part as they have in that Schedule.

General grounds on which power of intervention is exercisable.

194.—(1) The Authority may exercise its power of intervention in respect of an incoming firm if it appears to it that—

(a) the firm has contravened, or is likely to contravene, a requirement which is imposed on it by or under this Act (in a case where the Authority is responsible for enforcing compliance in the United Kingdom);

(b) the firm has, in purported compliance with any requirement imposed by or under this Act, knowingly or recklessly given the Authority information which is false or misleading in a material particular; or

(c) it is desirable to exercise the power in order to protect the interests of actual or potential customers.

(2) Subsection (3) applies to an incoming EEA firm falling within sub-paragraph (a) or (b) of paragraph 5 of Schedule 3 which is exercising an EEA right to carry on any Consumer Credit Act business in the United Kingdom.

(3) The Authority may exercise its power of intervention in respect of the firm if the Director General of Fair Trading has informed the Authority that—

(a) the firm,

(b) any of the firm's employees, agents or associates (whether past or present), or

(c) if the firm is a body corporate, a controller of the firm or an associate of such a controller,

has done any of the things specified in paragraphs (a) to (d) of section 25(2) of the Consumer Credit Act 1974.

1974 c. 39.

(4) "Associate", "Consumer Credit Act business" and "controller" have the same meaning as in section 203.

Exercise of power in support of overseas regulator.

195.—(1) The Authority may exercise its power of intervention in respect of an incoming firm at the request of, or for the purpose of assisting, an overseas regulator.

(2) Subsection (1) applies whether or not the Authority's power of intervention is also exercisable as a result of section 194.

(3) "An overseas regulator" means an authority in a country or territory outside the United Kingdom—

(a) which is a home state regulator; or

(b) which exercises any function of a kind mentioned in subsection (4).

(4) The functions are—

(a) a function corresponding to any function of the Authority under this Act;

(b) a function corresponding to any function exercised by the competent authority under Part VI in relation to the listing of shares;

(c) a function corresponding to any function exercised by the Secretary of State under the Companies Act 1985;

1985 c. 6.

(d) a function in connection with —

(i) the investigation of conduct of the kind prohibited by Part V of the Criminal Justice Act 1993 (insider dealing); or

1993 c. 36.

(ii) the enforcement of rules (whether or not having the force of law) relating to such conduct;

(e) a function prescribed by regulations made for the purposes of this subsection which, in the opinion of the Treasury, relates to companies or financial services.

(5) If—

(a) a request to the Authority for the exercise of its power of intervention has been made by a home state regulator in pursuance of a Community obligation, or

(b) a home state regulator has notified the Authority that an EEA firm's EEA authorisation has been withdrawn,

the Authority must, in deciding whether or not to exercise its power of intervention, consider whether exercising it is necessary in order to comply with a Community obligation.

(6) In deciding in any case in which the Authority does not consider that the exercise of its power of intervention is necessary in order to comply with a Community obligation, it may take into account in particular—

(a) whether in the country or territory of the overseas regulator concerned, corresponding assistance would be given to a United Kingdom regulatory authority;

(b) whether the case concerns the breach of a law, or other requirement, which has no close parallel in the United Kingdom or involves the assertion of a jurisdiction not recognised by the United Kingdom;

(c) the seriousness of the case and its importance to persons in the United Kingdom;

(d) whether it is otherwise appropriate in the public interest to give the assistance sought.

(7) The Authority may decide not to exercise its power of intervention, in response to a request, unless the regulator concerned undertakes to make such contribution to the cost of its exercise as the Authority considers appropriate.

(8) Subsection (7) does not apply if the Authority decides that it is necessary for it to exercise its power of intervention in order to comply with a Community obligation.

The power of intervention.

196. If the Authority is entitled to exercise its power of intervention in respect of an incoming firm under this Part, it may impose any requirement in relation to the firm which it could impose if—

(a) the firm's permission was a Part IV permission; and

(b) the Authority was entitled to exercise its power under that Part to vary that permission.

Exercise of power of intervention

Procedure on exercise of power of intervention.

197.—(1) A requirement takes effect—

(a) immediately, if the notice given under subsection (3) states that that is the case;

(b) on such date as may be specified in the notice; or

(c) if no date is specified in the notice, when the matter to which it relates is no longer open to review.

(2) A requirement may be expressed to take effect immediately (or on a specified date) only if the Authority, having regard to the ground on which it is exercising its power of intervention, considers that it is necessary for the requirement to take effect immediately (or on that date).

(3) If the Authority proposes to impose a requirement under section 196 on an incoming firm, or imposes such a requirement with immediate effect, it must give the firm written notice.

(4) The notice must—

(a) give details of the requirement;

(b) inform the firm of when the requirement takes effect;

(c) state the Authority's reasons for imposing the requirement and for its determination as to when the requirement takes effect;

(d) inform the firm that it may make representations to the Authority within such period as may be specified in the notice (whether or not it has referred the matter to the Tribunal); and

(e) inform it of its right to refer the matter to the Tribunal.

(5) The Authority may extend the period allowed under the notice for making representations.

(6) If, having considered any representations made by the firm, the Authority decides—

(a) to impose the requirement proposed, or

(b) if it has been imposed, not to rescind the requirement,

it must give it written notice.

(7) If, having considered any representations made by the firm, the Authority decides—

(a) not to impose the requirement proposed,

(b) to impose a different requirement from that proposed, or

(c) to rescind a requirement which has effect,

it must give it written notice.

(8) A notice given under subsection (6) must inform the firm of its right to refer the matter to the Tribunal.

(9) A notice under subsection (7)(b) must comply with subsection (4).

(10) If a notice informs a person of his right to refer a matter to the Tribunal, it must give an indication of the procedure on such a reference.

Power to apply to court for injunction in respect of certain overseas insurance companies.

198.—(1) This section applies if the Authority has received a request made in respect of an incoming EEA firm in accordance with—

(a) Article 20.5 of the first non-life insurance directive; or

(b) Article 24.5 of the first life insurance directive.

(2) The court may, on an application made to it by the Authority with respect to the firm, grant an injunction restraining (or in Scotland an interdict prohibiting) the firm disposing of or otherwise dealing with any of its assets.

(3) If the court grants an injunction, it may by subsequent orders make provision for such incidental, consequential and supplementary matters as it considers necessary to enable the Authority to perform any of its functions under this Act.

(4) "The court" means—

(a) the High Court; or

(b) in Scotland, the Court of Session.

Additional procedure for EEA firms in certain cases.

199.—(1) This section applies if it appears to the Authority that its power of intervention is exercisable in relation to an EEA firm exercising EEA rights in the United Kingdom ("an incoming EEA firm") in respect of the contravention of a relevant requirement.

(2) A requirement is relevant if—

(a) it is imposed by the Authority under this Act; and

(b) as respects its contravention, any of the single market directives provides that a procedure of the kind set out in the following provisions of this section is to apply.

(3) The Authority must, in writing, require the firm to remedy the situation.

(4) If the firm fails to comply with the requirement under subsection (3) within a reasonable time, the Authority must give a notice to that effect to the firm's home state regulator requesting it—

(a) to take all appropriate measures for the purpose of ensuring that the firm remedies the situation which has given rise to the notice; and

(b) to inform the Authority of the measures it proposes to take or has taken or the reasons for not taking such measures.

(5) Except as mentioned in subsection (6), the Authority may not exercise its power of intervention unless satisfied—

(a) that the firm's home state regulator has failed or refused to take measures for the purpose mentioned in subsection (4)(a); or

(b) that the measures taken by the home state regulator have proved inadequate for that purpose.

(6) If the Authority decides that it should exercise its power of intervention in respect of the incoming EEA firm as a matter of urgency in order to protect the interests of consumers, it may exercise that power—

(a) before complying with subsections (3) and (4); or

(b) where it has complied with those subsections, before it is satisfied as mentioned in subsection (5).

(7) In such a case the Authority must at the earliest opportunity inform the firm's home state regulator and the Commission.

(8) If—

(a) the Authority has (by virtue of subsection (6)) exercised its power of intervention before complying with subsections (3) and (4) or before it is satisfied as mentioned in subsection (5), and

(b) the Commission decides under any of the single market directives that the Authority must rescind or vary any requirement imposed in the exercise of its power of intervention,

the Authority must in accordance with the decision rescind or vary the requirement.

Supplemental

Rescission and variation of requirements.

200.—(1) The Authority may rescind or vary a requirement imposed in exercise of its power of intervention on its own initiative or on the application of the person subject to the requirement.

(2) The power of the Authority on its own initiative to rescind a requirement is exercisable by written notice given by the Authority to the person concerned, which takes effect on the date specified in the notice.

(3) Section 197 applies to the exercise of the power of the Authority on its own initiative to vary a requirement as it applies to the imposition of a requirement.

(4) If the Authority proposes to refuse an application for the variation or rescission of a requirement, it must give the applicant a warning notice.

(5) If the Authority decides to refuse an application for the variation or rescission of a requirement—

(a) the Authority must give the applicant a decision notice; and

(b) that person may refer the matter to the Tribunal.

Effect of certain requirements on other persons.

201. If the Authority, in exercising its power of intervention, imposes on an incoming firm a requirement of a kind mentioned in subsection (3) of section 48, the requirement has the same effect in relation to the firm as it would have in relation to an authorised person if it had been imposed on the authorised person by the Authority acting under section 45.

Contravention of requirement imposed under this Part.

202.—(1) Contravention of a requirement imposed by the Authority under this Part does not—

(a) make a person guilty of an offence;

(b) make any transaction void or unenforceable; or

(c) (subject to subsection (2)) give rise to any right of action for breach of statutory duty.

(2) In prescribed cases the contravention is actionable at the suit of a person who suffers loss as a result of the contravention, subject to the defences and other incidents applying to actions for breach of statutory duty.

Powers of Director General of Fair Trading

Power to prohibit the carrying on of Consumer Credit Act business.

203.—(1) If it appears to the Director General of Fair Trading ("the Director") that subsection (4) has been, or is likely to be, contravened as respects a consumer credit EEA firm, he may by written notice given to the firm impose on the firm a consumer credit prohibition.

(2) If it appears to the Director that a restriction imposed under section 204 on an EEA consumer credit firm has not been complied with, he may by written notice given to the firm impose a consumer credit prohibition.

(3) "Consumer credit prohibition" means a prohibition on carrying on, or purporting to carry on, in the United Kingdom any Consumer Credit Act business which consists of or includes carrying on one or more listed activities.

(4) This subsection is contravened as respects a firm if—

(a) the firm or any of its employees, agents or associates (whether past or present), or

(b) if the firm is a body corporate, any controller of the firm or an associate of any such controller,

does any of the things specified in paragraphs (a) to (d) of section 25(2) of the Consumer Credit Act 1974. 1974 c. 39.

(5) A consumer credit prohibition may be absolute or may be imposed—

(a) for such period,

(b) until the occurrence of such event, or

(c) until such conditions are complied with,

as may be specified in the notice given under subsection (1) or (2).

(6) Any period, event or condition so specified may be varied by the Director on the application of the firm concerned.

(7) A consumer credit prohibition may be withdrawn by written notice served by the Director on the firm concerned, and any such notice takes effect on such date as is specified in the notice.

(8) Schedule 16 has effect as respects consumer credit prohibitions and restrictions under section 204.

(9) A firm contravening a prohibition under this section is guilty of an offence and liable—

(a) on summary conviction, to a fine not exceeding the statutory maximum;

(b) on conviction on indictment, to a fine.

(10) In this section and section 204—

"a consumer credit EEA firm" means an EEA firm falling within any of paragraphs (a) to (c) of paragraph 5 of Schedule 3 whose EEA authorisation covers any Consumer Credit Act business;

"Consumer Credit Act business" means consumer credit business, consumer hire business or ancillary credit business;

"consumer credit business", "consumer hire business" and "ancillary credit business" have the same meaning as in the Consumer Credit Act 1974;

"listed activity" means an activity listed in the Annex to the second banking co-ordination directive or the Annex to the investment services directive;

"associate" has the same meaning as in section 25(2) of the Consumer Credit Act 1974;

"controller" has the meaning given by section 189(1) of that Act.

Power to restrict the carrying on of Consumer Credit Act business.

204.—(1) In this section "restriction" means a direction that a consumer credit EEA firm may not carry on in the United Kingdom, otherwise than in accordance with such condition or conditions as may be specified in the direction, any Consumer Credit Act business which—

(a) consists of or includes carrying on any listed activity; and

(b) is specified in the direction.

(2) If it appears to the Director that the situation as respects a consumer credit EEA firm is such that the powers conferred by section 203(1) are exercisable, the Director may, instead of imposing a prohibition, impose such restriction as appears to him desirable.

(3) A restriction—

(a) may be withdrawn, or

(b) may be varied with the agreement of the firm concerned,

by written notice served by the Director on the firm, and any such notice takes effect on such date as is specified in the notice.

(4) A firm contravening a restriction is guilty of an offence and liable—

(a) on summary conviction, to a fine not exceeding the statutory maximum;

(b) on conviction on indictment, to a fine.

PART XIV

DISCIPLINARY MEASURES

Public censure.

205. If the Authority considers that an authorised person has contravened a requirement imposed on him by or under this Act, the Authority may publish a statement to that effect.

Financial penalties.

206.—(1) If the Authority considers that an authorised person has contravened a requirement imposed on him by or under this Act, it may impose on him a penalty, in respect of the contravention, of such amount as it considers appropriate.

(2) The Authority may not in respect of any contravention both require a person to pay a penalty under this section and withdraw his authorisation under section 33.

(3) A penalty under this section is payable to the Authority.

Proposal to take disciplinary measures.

207.—(1) If the Authority proposes—

(a) to publish a statement in respect of an authorised person (under section 205), or

(b) to impose a penalty on an authorised person (under section 206),

it must give the authorised person a warning notice.

(2) A warning notice about a proposal to publish a statement must set out the terms of the statement.

(3) A warning notice about a proposal to impose a penalty, must state the amount of the penalty.

Decision notice.

208.—(1) If the Authority decides—

(a) to publish a statement under section 205 (whether or not in the terms proposed), or

(b) to impose a penalty under section 206 (whether or not of the amount proposed),

it must without delay give the authorised person concerned a decision notice.

(2) In the case of a statement, the decision notice must set out the terms of the statement.

(3) In the case of a penalty, the decision notice must state the amount of the penalty.

(4) If the Authority decides to—

(a) publish a statement in respect of an authorised person under section 205, or

(b) impose a penalty on an authorised person under section 206,

the authorised person may refer the matter to the Tribunal.

Publication.

209. After a statement under section 205 is published, the Authority must send a copy of it to the authorised person and to any person on whom a copy of the decision notice was given under section 393(4).

Statements of policy.

210.—(1) The Authority must prepare and issue a statement of its policy with respect to—

(a) the imposition of penalties under this Part; and

(b) the amount of penalties under this Part.

(2) The Authority's policy in determining what the amount of a penalty should be must include having regard to—

(a) the seriousness of the contravention in question in relation to the nature of the requirement contravened;

(b) the extent to which that contravention was deliberate or reckless; and

(c) whether the person on whom the penalty is to be imposed is an individual.

(3) The Authority may at any time alter or replace a statement issued under this section.

(4) If a statement issued under this section is altered or replaced, the Authority must issue the altered or replacement statement.

(5) The Authority must, without delay, give the Treasury a copy of any statement which it publishes under this section.

(6) A statement issued under this section must be published by the Authority in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(7) In exercising, or deciding whether to exercise, its power under section 206 in the case of any particular contravention, the Authority must have regard to any statement published under this section and in force at the time when the contravention in question occurred.

(8) The Authority may charge a reasonable fee for providing a person with a copy of the statement.

Statements of policy: procedure.

211.—(1) Before issuing a statement under section 210, the Authority must publish a draft of the proposed statement in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(2) The draft must be accompanied by notice that representations about the proposal may be made to the Authority within a specified time.

(3) Before issuing the proposed statement, the Authority must have regard to any representations made to it in accordance with subsection (2).

(4) If the Authority issues the proposed statement it must publish an account, in general terms, of—

(a) the representations made to it in accordance with subsection (2); and

(b) its response to them.

(5) If the statement differs from the draft published under subsection (1) in a way which is, in the opinion of the Authority, significant, the Authority must (in addition to complying with subsection (4)) publish details of the difference.

(6) The Authority may charge a reasonable fee for providing a person with a copy of a draft published under subsection (1).

(7) This section also applies to a proposal to alter or replace a statement.

PART XV

THE FINANCIAL SERVICES COMPENSATION SCHEME

The scheme manager

The scheme manager.

212.—(1) The Authority must establish a body corporate ("the scheme manager") to exercise the functions conferred on the scheme manager by or under this Part.

(2) The Authority must take such steps as are necessary to ensure that the scheme manager is, at all times, capable of exercising those functions.

(3) The constitution of the scheme manager must provide for it to have—

(a) a chairman; and

(b) a board (which must include the chairman) whose members are the scheme manager's directors.

(4) The chairman and other members of the board must be persons appointed, and liable to removal from office, by the Authority (acting, in the case of the chairman, with the approval of the Treasury).

(5) But the terms of their appointment (and in particular those governing removal from office) must be such as to secure their independence from the Authority in the operation of the compensation scheme.

(6) The scheme manager is not to be regarded as exercising functions on behalf of the Crown.

(7) The scheme manager's board members, officers and staff are not to be regarded as Crown servants.

The scheme

The compensation scheme.

213.—(1) The Authority must by rules establish a scheme for compensating persons in cases where relevant persons are unable, or are likely to be unable, to satisfy claims against them.

(2) The rules are to be known as the Financial Services Compensation Scheme (but are referred to in this Act as "the compensation scheme").

(3) The compensation scheme must, in particular, provide for the scheme manager—

(a) to assess and pay compensation, in accordance with the scheme, to claimants in respect of claims made in connection with regulated activities carried on (whether or not with permission) by relevant persons; and

(b) to have power to impose levies on authorised persons, or any class of authorised person, for the purpose of meeting its expenses (including in particular expenses incurred, or expected to be incurred, in paying compensation, borrowing or insuring risks).

(4) The compensation scheme may provide for the scheme manager to have power to impose levies on authorised persons, or any class of authorised person, for the purpose of recovering the cost (whenever incurred) of establishing the scheme.

(5) In making any provision of the scheme by virtue of subsection (3)(b), the Authority must take account of the desirability of ensuring that the amount of the levies imposed on a particular class of authorised person reflects, so far as practicable, the amount of the claims made, or likely to be made, in respect of that class of person.

(6) An amount payable to the scheme manager as a result of any provision of the scheme made by virtue of subsection (3)(b) or (4) may be recovered as a debt due to the scheme manager.

(7) Sections 214 to 217 make further provision about the scheme but are not to be taken as limiting the power conferred on the Authority by subsection (1).

(8) In those sections "specified" means specified in the scheme.

(9) In this Part (except in sections 219, 220 or 224) "relevant person" means a person who was—

(a) an authorised person at the time the act or omission giving rise to the claim against him took place; or

(b) an appointed representative at that time.

(10) But a person who, at that time—

(a) qualified for authorisation under Schedule 3, and

(b) fell within a prescribed category,

is not to be regarded as a relevant person in relation to any activities for which he had permission as a result of any provision of, or made under, that Schedule unless he had elected to participate in the scheme in relation to those activities at that time.

Provisions of the scheme

General.

214.—(1) The compensation scheme may, in particular, make provision—

(a) as to the circumstances in which a relevant person is to be taken (for the purposes of the scheme) to be unable, or likely to be unable, to satisfy claims made against him;

(b) for the establishment of different funds for meeting different kinds of claim;

(c) for the imposition of different levies in different cases;

(d) limiting the levy payable by a person in respect of a specified period;

(e) for repayment of the whole or part of a levy in specified circumstances;

(f) for a claim to be entertained only if it is made by a specified kind of claimant;

(g) for a claim to be entertained only if it falls within a specified kind of claim;

(h) as to the procedure to be followed in making a claim;

(i) for the making of interim payments before a claim is finally determined;

(j) limiting the amount payable on a claim to a specified maximum amount or a maximum amount calculated in a specified manner;

(k) for payment to be made, in specified circumstances, to a person other than the claimant.

(2) Different provision may be made with respect to different kinds of claim.

(3) The scheme may provide for the determination and regulation of matters relating to the scheme by the scheme manager.

(4) The scheme, or particular provisions of the scheme, may be made so as to apply only in relation to—

(a) activities carried on,

(b) claimants,

(c) matters arising, or

(d) events occurring,

in specified territories, areas or localities.

(5) The scheme may provide for a person who—

(a) qualifies for authorisation under Schedule 3, and

(b) falls within a prescribed category,

to elect to participate in the scheme in relation to some or all of the activities for which he has permission as a result of any provision of, or made under, that Schedule.

(6) The scheme may provide for the scheme manager to have power—

(a) in specified circumstances,

(b) but only if the scheme manager is satisfied that the claimant is entitled to receive a payment in respect of his claim—

(i) under a scheme which is comparable to the compensation scheme, or

(ii) as the result of a guarantee given by a government or other authority,

to make a full payment of compensation to the claimant and recover the whole or part of the amount of that payment from the other scheme or under that guarantee.

Rights of the scheme in relevant person's insolvency.

215.—(1) The compensation scheme may, in particular, make provision—

(a) as to the effect of a payment of compensation under the scheme in relation to rights or obligations arising out of the claim against a relevant person in respect of which the payment was made;

(b) for conferring on the scheme manager a right of recovery against that person.

(2) Such a right of recovery conferred by the scheme does not, in the event of the relevant person's insolvency, exceed such right (if any) as the claimant would have had in that event.

(3) If a person other than the scheme manager presents a petition under section 9 of the 1986 Act or Article 22 of the 1989 Order in relation to a company or partnership which is a relevant person, the scheme manager has the same rights as are conferred on the Authority by section 362.

(4) If a person other than the scheme manager presents a petition for the winding up of a body which is a relevant person, the scheme manager has the same rights as are conferred on the Authority by section 371.

(5) If a person other than the scheme manager presents a bankruptcy petition to the court in relation to an individual who, or an entity which, is a relevant person, the scheme manager has the same rights as are conferred on the Authority by section 374.

(6) Insolvency rules may be made for the purpose of integrating any procedure for which provision is made as a result of subsection (1) into the general procedure on the administration of a company or partnership or on a winding-up, bankruptcy or sequestration.

(7) "Bankruptcy petition" means a petition to the court—

(a) under section 264 of the 1986 Act or Article 238 of the 1989 Order for a bankruptcy order to be made against an individual;

(b) under section 5 of the 1985 Act for the sequestration of the estate of an individual; or

(c) under section 6 of the 1985 Act for the sequestration of the estate belonging to or held for or jointly by the members of an entity mentioned in subsection (1) of that section.

(8) "Insolvency rules" are—

(a) for England and Wales, rules made under sections 411 and 412 of the 1986 Act;

(b) for Scotland, rules made by order by the Treasury, after consultation with the Scottish Ministers, for the purposes of this section; and

1978 c. 23.

(c) for Northern Ireland, rules made under Article 359 of the 1989 Order and section 55 of the Judicature (Northern Ireland) Act 1978.

(9) "The 1985 Act", "the 1986 Act", "the 1989 Order" and "court" have the same meaning as in Part XXIV.

Continuity of long-term insurance policies.

216.—(1) The compensation scheme may, in particular, include provision requiring the scheme manager to make arrangements for securing continuity of insurance for policyholders, or policyholders of a specified class, of relevant long-term insurers.

(2) "Relevant long-term insurers" means relevant persons who—

(a) have permission to effect or carry out contracts of long-term insurance; and

(b) are unable, or likely to be unable, to satisfy claims made against them.

(3) The scheme may provide for the scheme manager to take such measures as appear to him to be appropriate—

(a) for securing or facilitating the transfer of a relevant long-term insurer's business so far as it consists of the carrying out of contracts of long-term insurance, or of any part of that business, to another authorised person;

(b) for securing the issue by another authorised person to the policyholders concerned of policies in substitution for their existing policies.

(4) The scheme may also provide for the scheme manager to make payments to the policyholders concerned—

(a) during any period while he is seeking to make arrangements mentioned in subsection (1);

(b) if it appears to him that it is not reasonably practicable to make such arrangements.

(5) A provision of the scheme made by virtue of section 213(3)(b) may include power to impose levies for the purpose of meeting expenses of the scheme manager incurred in—

(a) taking measures as a result of any provision of the scheme made by virtue of subsection (3);

(b) making payments as a result of any such provision made by virtue of subsection (4).

Insurers in financial difficulties.

217.—(1) The compensation scheme may, in particular, include provision for the scheme manager to have power to take measures for safeguarding policyholders, or policyholders of a specified class, of relevant insurers.

(2) "Relevant insurers" means relevant persons who—

(a) have permission to effect or carry out contracts of insurance; and

(b) are in financial difficulties.

(3) The measures may include such measures as the scheme manager considers appropriate for—

(a) securing or facilitating the transfer of a relevant insurer's business so far as it consists of the carrying out of contracts of insurance, or of any part of that business, to another authorised person;

(b) giving assistance to the relevant insurer to enable it to continue to effect or carry out contracts of insurance.

(4) The scheme may provide—

(a) that if measures of a kind mentioned in subsection (3)(a) are to be taken, they should be on terms appearing to the scheme manager to be appropriate, including terms reducing, or deferring payment of, any of the things to which any of those who are eligible policyholders in relation to the relevant insurer are entitled in their capacity as such;

(b) that if measures of a kind mentioned in subsection (3)(b) are to be taken, they should be conditional on the reduction of, or the deferment of the payment of, the things to which any of those who are eligible policyholders in relation to the relevant insurer are entitled in their capacity as such;

(c) for ensuring that measures of a kind mentioned in subsection (3)(b) do not benefit to any material extent persons who were members of a relevant insurer when it began to be in financial difficulties or who had any responsibility for, or who may have profited from, the circumstances giving rise to its financial difficulties, except in specified circumstances;

(d) for requiring the scheme manager to be satisfied that any measures he proposes to take are likely to cost less than it would cost to pay compensation under the scheme if the relevant insurer became unable, or likely to be unable, to satisfy claims made against him.

(5) The scheme may provide for the Authority to have power—

(a) to give such assistance to the scheme manager as it considers appropriate for assisting the scheme manager to determine what measures are practicable or desirable in the case of a particular relevant insurer;

(b) to impose constraints on the taking of measures by the scheme manager in the case of a particular relevant insurer;

(c) to require the scheme manager to provide it with information about any particular measures which the scheme manager is proposing to take.

(6) The scheme may include provision for the scheme manager to have power—

(a) to make interim payments in respect of eligible policyholders of a relevant insurer;

(b) to indemnify any person making payments to eligible policyholders of a relevant insurer.

(7) A provision of the scheme made by virtue of section 213(3)(b) may include power to impose levies for the purpose of meeting expenses of the scheme manager incurred in—

(a) taking measures as a result of any provision of the scheme made by virtue of subsection (1);

(b) making payments or giving indemnities as a result of any such provision made by virtue of subsection (6).

(8) "Financial difficulties" and "eligible policyholders" have such meanings as may be specified.

Annual report

Annual report.

218.—(1) At least once a year, the scheme manager must make a report to the Authority on the discharge of its functions.

(2) The report must—

(a) include a statement setting out the value of each of the funds established by the compensation scheme; and

(b) comply with any requirements specified in rules made by the Authority.

(3) The scheme manager must publish each report in the way it considers appropriate.

Information and documents

Scheme manager's power to require information.

219.—(1) The scheme manager may, by notice in writing given to the relevant person in respect of whom a claim is made under the scheme or to a person otherwise involved, require that person—

(a) to provide specified information or information of a specified description; or

(b) to produce specified documents or documents of a specified description.

(2) The information or documents must be provided or produced—

(a) before the end of such reasonable period as may be specified; and

(b) in the case of information, in such manner or form as may be specified.

(3) This section applies only to information and documents the provision or production of which the scheme manager considers—

(a) to be necessary for the fair determination of the claim; or

(b) to be necessary (or likely to be necessary) for the fair determination of other claims made (or which it expects may be made) in respect of the relevant person concerned.

(4) If a document is produced in response to a requirement imposed under this section, the scheme manager may—

(a) take copies or extracts from the document; or

(b) require the person producing the document to provide an explanation of the document.

(5) If a person who is required under this section to produce a document fails to do so, the scheme manager may require the person to state, to the best of his knowledge and belief, where the document is.

(6) If the relevant person is insolvent, no requirement may be imposed under this section on a person to whom section 220 or 224 applies.

(7) If a person claims a lien on a document, its production under this Part does not affect the lien.

(8) "Relevant person" has the same meaning as in section 224.

(9) "Specified" means specified in the notice given under subsection (1).

(10) A person is involved in a claim made under the scheme if he was knowingly involved in the act or omission giving rise to the claim.

Scheme manager's power to inspect information held by liquidator etc.

220.—(1) For the purpose of assisting the scheme manager to discharge its functions in relation to a claim made in respect of an insolvent relevant person, a person to whom this section applies must permit a person authorised by the scheme manager to inspect relevant documents.

(2) A person inspecting a document under this section may take copies of, or extracts from, the document.

(3) This section applies to—

(a) the administrative receiver, administrator, liquidator or trustee in bankruptcy of an insolvent relevant person;

(b) the permanent trustee, within the meaning of the Bankruptcy (Scotland) Act 1985, on the estate of an insolvent relevant person. 1985 c. 66.

(4) This section does not apply to a liquidator, administrator or trustee in bankruptcy who is—

(a) the Official Receiver;

(b) the Official Receiver for Northern Ireland; or

(c) the Accountant in Bankruptcy.

(5) "Relevant person" has the same meaning as in section 224.

Powers of court where information required.

221.—(1) If a person ("the defaulter")—

(a) fails to comply with a requirement imposed under section 219, or

(b) fails to permit documents to be inspected under section 220,

the scheme manager may certify that fact in writing to the court and the court may enquire into the case.

(2) If the court is satisfied that the defaulter failed without reasonable excuse to comply with the requirement (or to permit the documents to be inspected), it may deal with the defaulter (and, in the case of a body corporate, any director or officer) as if he were in contempt.

(3) "Court" means—

(a) the High Court;

(b) in Scotland, the Court of Session.

Miscellaneous

Statutory immunity.

222.—(1) Neither the scheme manager nor any person who is, or is acting as, its board member, officer or member of staff is to be liable in damages for anything done or omitted in the discharge, or purported discharge, of the scheme manager's functions.

(2) Subsection (1) does not apply—

(a) if the act or omission is shown to have been in bad faith; or

(b) so as to prevent an award of damages made in respect of an act or omission on the ground that the act or omission was unlawful as a result of section 6(1) of the Human Rights Act 1998.

1998 c. 42.

Management expenses.

223.—(1) The amount which the scheme manager may recover, from the sums levied under the scheme, as management expenses attributable to a particular period may not exceed such amount as may be fixed by the scheme as the limit applicable to that period.

(2) In calculating the amount of any levy to be imposed by the scheme manager, no amount may be included to reflect management expenses unless the limit mentioned in subsection (1) has been fixed by the scheme.

(3) "Management expenses" means expenses incurred, or expected to be incurred, by the scheme manager in connection with its functions under this Act other than those incurred—

(a) in paying compensation;

(b) as a result of any provision of the scheme made by virtue of section 216(3) or (4) or 217(1) or (6).

Scheme manager's power to inspect documents held by Official Receiver etc.

224.—(1) If, as a result of the insolvency or bankruptcy of a relevant person, any documents have come into the possession of a person to whom this section applies, he must permit any person authorised by the scheme manager to inspect the documents for the purpose of establishing—

(a) the identity of persons to whom the scheme manager may be liable to make a payment in accordance with the compensation scheme; or

(b) the amount of any payment which the scheme manager may be liable to make.

(2) A person inspecting a document under this section may take copies or extracts from the document.

(3) In this section "relevant person" means a person who was—

(a) an authorised person at the time the act or omission which may give rise to the liability mentioned in subsection (1)(a) took place; or

(b) an appointed representative at that time.

(4) But a person who, at that time—

(a) qualified for authorisation under Schedule 3, and

(b) fell within a prescribed category,

is not to be regarded as a relevant person for the purposes of this section in relation to any activities for which he had permission as a result of any provision of, or made under, that Schedule unless he had elected to participate in the scheme in relation to those activities at that time.

(5) This section applies to—

(a) the Official Receiver;

(b) the Official Receiver for Northern Ireland; and

(c) the Accountant in Bankruptcy.

Part XVI

The Ombudsman Scheme

The scheme

The scheme and the scheme operator.

225.—(1) This Part provides for a scheme under which certain disputes may be resolved quickly and with minimum formality by an independent person.

(2) The scheme is to be administered by a body corporate ("the scheme operator").

(3) The scheme is to be operated under a name chosen by the scheme operator but is referred to in this Act as "the ombudsman scheme".

(4) Schedule 17 makes provision in connection with the ombudsman scheme and the scheme operator.

Compulsory jurisdiction.

226.—(1) A complaint which relates to an act or omission of a person ("the respondent") in carrying on an activity to which compulsory jurisdiction rules apply is to be dealt with under the ombudsman scheme if the conditions mentioned in subsection (2) are satisfied.

(2) The conditions are that—

(a) the complainant is eligible and wishes to have the complaint dealt with under the scheme;

(b) the respondent was an authorised person at the time of the act or omission to which the complaint relates; and

(c) the act or omission to which the complaint relates occurred at a time when compulsory jurisdiction rules were in force in relation to the activity in question.

(3) "Compulsory jurisdiction rules" means rules—

(a) made by the Authority for the purposes of this section; and

(b) specifying the activities to which they apply.

(4) Only activities which are regulated activities, or which could be made regulated activities by an order under section 22, may be specified.

(5) Activities may be specified by reference to specified categories (however described).

(6) A complainant is eligible, in relation to the compulsory jurisdiction of the ombudsman scheme, if he falls within a class of person specified in the rules as eligible.

(7) The rules—

(a) may include provision for persons other than individuals to be eligible; but

(b) may not provide for authorised persons to be eligible except in specified circumstances or in relation to complaints of a specified kind.

(8) The jurisdiction of the scheme which results from this section is referred to in this Act as the "compulsory jurisdiction".

Voluntary jurisdiction.

227.—(1) A complaint which relates to an act or omission of a person ("the respondent") in carrying on an activity to which voluntary jurisdiction rules apply is to be dealt with under the ombudsman scheme if the conditions mentioned in subsection (2) are satisfied.

(2) The conditions are that—

(a) the complainant is eligible and wishes to have the complaint dealt with under the scheme;

(b) at the time of the act or omission to which the complaint relates, the respondent was participating in the scheme;

(c) at the time when the complaint is referred under the scheme, the respondent has not withdrawn from the scheme in accordance with its provisions;

(d) the act or omission to which the complaint relates occurred at a time when voluntary jurisdiction rules were in force in relation to the activity in question; and

(e) the complaint cannot be dealt with under the compulsory jurisdiction.

(3) "Voluntary jurisdiction rules" means rules—

(a) made by the scheme operator for the purposes of this section; and

(b) specifying the activities to which they apply.

(4) The only activities which may be specified in the rules are activities which are, or could be, specified in compulsory jurisdiction rules.

(5) Activities may be specified by reference to specified categories (however described).

(6) The rules require the Authority's approval.

(7) A complainant is eligible, in relation to the voluntary jurisdiction of the ombudsman scheme, if he falls within a class of person specified in the rules as eligible.

(8) The rules may include provision for persons other than individuals to be eligible.

(9) A person qualifies for participation in the ombudsman scheme if he falls within a class of person specified in the rules in relation to the activity in question.

(10) Provision may be made in the rules for persons other than authorised persons to participate in the ombudsman scheme.

(11) The rules may make different provision in relation to complaints arising from different activities.

(12) The jurisdiction of the scheme which results from this section is referred to in this Act as the "voluntary jurisdiction".

(13) In such circumstances as may be specified in voluntary jurisdiction rules, a complaint—

(a) which relates to an act or omission occurring at a time before the rules came into force, and

(b) which could have been dealt with under a scheme which has to any extent been replaced by the voluntary jurisdiction,

is to be dealt with under the ombudsman scheme even though paragraph (b) or (d) of subsection (2) would otherwise prevent that.

(14) In such circumstances as may be specified in voluntary jurisdiction rules, a complaint is to be dealt with under the ombudsman scheme even though—

(a) paragraph (b) or (d) of subsection (2) would otherwise prevent that, and

(b) the complaint is not brought within the scheme as a result of subsection (13),

but only if the respondent has agreed that complaints of that kind were to be dealt with under the scheme.

Determination of complaints

Determination under the compulsory jurisdiction.

228.—(1) This section applies only in relation to the compulsory jurisdiction.

(2) A complaint is to be determined by reference to what is, in the opinion of the ombudsman, fair and reasonable in all the circumstances of the case.

(3) When the ombudsman has determined a complaint he must give a written statement of his determination to the respondent and to the complainant.

(4) The statement must—

(a) give the ombudsman's reasons for his determination;

(b) be signed by him; and

(c) require the complainant to notify him in writing, before a date specified in the statement, whether he accepts or rejects the determination.

(5) If the complainant notifies the ombudsman that he accepts the determination, it is binding on the respondent and the complainant and final.

(6) If, by the specified date, the complainant has not notified the ombudsman of his acceptance or rejection of the determination he is to be treated as having rejected it.

(7) The ombudsman must notify the respondent of the outcome.

(8) A copy of the determination on which appears a certificate signed by an ombudsman is evidence (or in Scotland sufficient evidence) that the determination was made under the scheme.

(9) Such a certificate purporting to be signed by an ombudsman is to be taken to have been duly signed unless the contrary is shown.

Awards.

229.—(1) This section applies only in relation to the compulsory jurisdiction.

(2) If a complaint which has been dealt with under the scheme is determined in favour of the complainant, the determination may include—

(a) an award against the respondent of such amount as the ombudsman considers fair compensation for loss or damage (of a kind falling within subsection (3)) suffered by the complainant ("a money award");

(b) a direction that the respondent take such steps in relation to the complainant as the ombudsman considers just and appropriate (whether or not a court could order those steps to be taken).

(3) A money award may compensate for—

(a) financial loss; or

(b) any other loss, or any damage, of a specified kind.

(4) The Authority may specify the maximum amount which may be regarded as fair compensation for a particular kind of loss or damage specified under subsection (3)(b).

(5) A money award may not exceed the monetary limit; but the ombudsman may, if he considers that fair compensation requires payment of a larger amount, recommend that the respondent pay the complainant the balance.

(6) The monetary limit is such amount as may be specified.

(7) Different amounts may be specified in relation to different kinds of complaint.

(8) A money award—

(a) may provide for the amount payable under the award to bear interest at a rate and as from a date specified in the award; and

(b) is enforceable by the complainant in accordance with Part III of Schedule 17.

(9) Compliance with a direction under subsection (2)(b)—

(a) is enforceable by an injunction; or

(b) in Scotland, is enforceable by an order under section 45 of the Court of Session Act 1988.

1988 c. 36.

(10) Only the complainant may bring proceedings for an injunction or proceedings for an order.

(11) “Specified” means specified in compulsory jurisdiction rules.

Costs.

230.—(1) The scheme operator may by rules (“costs rules”) provide for an ombudsman to have power, on determining a complaint under the compulsory jurisdiction, to award costs in accordance with the provisions of the rules.

(2) Costs rules require the approval of the Authority.

(3) Costs rules may not provide for the making of an award against the complainant in respect of the respondent’s costs.

(4) But they may provide for the making of an award against the complainant in favour of the scheme operator, for the purpose of providing a contribution to resources deployed in dealing with the complaint, if in the opinion of the ombudsman—

(a) the complainant’s conduct was improper or unreasonable; or

(b) the complainant was responsible for an unreasonable delay.

(5) Costs rules may authorise an ombudsman making an award in accordance with the rules to order that the amount payable under the award bears interest at a rate and as from a date specified in the order.

(6) An amount due under an award made in favour of the scheme operator is recoverable as a debt due to the scheme operator.

(7) Any other award made against the respondent is to be treated as a money award for the purposes of paragraph 16 of Schedule 17.

Information

Ombudsman's power to require information.

231.—(1) An ombudsman may, by notice in writing given to a party to a complaint, require that party—

(a) to provide specified information or information of a specified description; or

(b) to produce specified documents or documents of a specified description.

(2) The information or documents must be provided or produced—

(a) before the end of such reasonable period as may be specified; and

(b) in the case of information, in such manner or form as may be specified.

(3) This section applies only to information and documents the production of which the ombudsman considers necessary for the determination of the complaint.

(4) If a document is produced in response to a requirement imposed under this section, the ombudsman may—

(a) take copies or extracts from the document; or

(b) require the person producing the document to provide an explanation of the document.

(5) If a person who is required under this section to produce a document fails to do so, the ombudsman may require him to state, to the best of his knowledge and belief, where the document is.

(6) If a person claims a lien on a document, its production under this Part does not affect the lien.

(7) "Specified" means specified in the notice given under subsection (1).

Powers of court where information required.

232.—(1) If a person ("the defaulter") fails to comply with a requirement imposed under section 231, the ombudsman may certify that fact in writing to the court and the court may enquire into the case.

(2) If the court is satisfied that the defaulter failed without reasonable excuse to comply with the requirement, it may deal with the defaulter (and, in the case of a body corporate, any director or officer) as if he were in contempt.

(3) "Court" means—

(a) the High Court;

(b) in Scotland, the Court of Session.

Data protection. 1998 c. 29.

233. In section 31 of the Data Protection Act 1998 (regulatory activity), after subsection (4), insert—

"(4A) Personal data processed for the purpose of discharging any function which is conferred by or under Part XVI of the Financial Services and Markets Act 2000 on the body established by the Financial Services Authority for the purposes of that Part are exempt from the subject information provisions in any case to the extent to which the application of those provisions to the data would be likely to prejudice the proper discharge of the function."

Funding

Industry funding.

234.—(1) For the purpose of funding—

(a) the establishment of the ombudsman scheme (whenever any relevant expense is incurred), and

(b) its operation in relation to the compulsory jurisdiction,

the Authority may make rules requiring the payment to it or to the scheme operator, by authorised persons or any class of authorised person of specified amounts (or amounts calculated in a specified way).

(2) "Specified" means specified in the rules.

PART XVII

COLLECTIVE INVESTMENT SCHEMES

CHAPTER I

INTERPRETATION

Collective investment schemes.

235.—(1) In this Part "collective investment scheme" means any arrangements with respect to property of any description, including money, the purpose or effect of which is to enable persons taking part in the arrangements (whether by becoming owners of the property or any part of it or otherwise) to participate in or receive profits or income arising from the acquisition, holding, management or disposal of the property or sums paid out of such profits or income.

(2) The arrangements must be such that the persons who are to participate ("participants") do not have day-to-day control over the management of the property, whether or not they have the right to be consulted or to give directions.

(3) The arrangements must also have either or both of the following characteristics—

(a) the contributions of the participants and the profits or income out of which payments are to be made to them are pooled;

(b) the property is managed as a whole by or on behalf of the operator of the scheme.

(4) If arrangements provide for such pooling as is mentioned in subsection (3)(a) in relation to separate parts of the property, the arrangements are not to be regarded as constituting a single collective investment scheme unless the participants are entitled to exchange rights in one part for rights in another.

(5) The Treasury may by order provide that arrangements do not amount to a collective investment scheme—

(a) in specified circumstances; or

(b) if the arrangements fall within a specified category of arrangement.

236.—(1) In this Part "an open-ended investment company" means a collective investment scheme which satisfies both the property condition and the investment condition. Open-ended investment companies.

(2) The property condition is that the property belongs beneficially to, and is managed by or on behalf of, a body corporate ("BC") having as its purpose the investment of its funds with the aim of—

(a) spreading investment risk; and

(b) giving its members the benefit of the results of the management of those funds by or on behalf of that body.

(3) The investment condition is that, in relation to BC, a reasonable investor would, if he were to participate in the scheme—

(a) expect that he would be able to realize, within a period appearing to him to be reasonable, his investment in the scheme (represented, at any given time, by the value of shares in, or securities of, BC held by him as a participant in the scheme); and

(b) be satisfied that his investment would be realized on a basis calculated wholly or mainly by reference to the value of property in respect of which the scheme makes arrangements.

(4) In determining whether the investment condition is satisfied, no account is to be taken of any actual or potential redemption or repurchase of shares or securities under—

(a) Chapter VII of Part V of the Companies Act 1985; 1985 c. 6.

(b) Chapter VII of Part VI of the Companies (Northern Ireland) Order 1986; S.I. 1986/1032 (N.I. 6.)

(c) corresponding provisions in force in another EEA State; or

(d) provisions in force in a country or territory other than an EEA state which the Treasury have, by order, designated as corresponding provisions.

(5) The Treasury may by order amend the definition of "an open-ended investment company" for the purposes of this Part.

237.—(1) In this Part "unit trust scheme" means a collective investment scheme under which the property is held on trust for the participants. Other definitions.

(2) In this Part—

"trustee", in relation to a unit trust scheme, means the person holding the property in question on trust for the participants;

"depositary", in relation to—

(a) a collective investment scheme which is constituted by a body incorporated by virtue of regulations under section 262, or

(b) any other collective investment scheme which is not a unit trust scheme,

means any person to whom the property subject to the scheme is entrusted for safekeeping;

"the operator", in relation to a unit trust scheme with a separate trustee, means the manager and in relation to an open-ended investment company, means that company;

"units" means the rights or interests (however described) of the participants in a collective investment scheme.

(3) In this Part—

"an authorised unit trust scheme" means a unit trust scheme which is authorised for the purposes of this Act by an authorisation order in force under section 243;

"an authorised open-ended investment company" means a body incorporated by virtue of regulations under section 262 in respect of which an authorisation order is in force under any provision made in such regulations by virtue of subsection (2)(l) of that section;

"a recognised scheme" means a scheme recognised under section 264, 270 or 272.

Chapter II

Restrictions on Promotion

Restrictions on promotion.

238.—(1) An authorised person must not communicate an invitation or inducement to participate in a collective investment scheme.

(2) But that is subject to the following provisions of this section and to section 239.

(3) Subsection (1) applies in the case of a communication originating outside the United Kingdom only if the communication is capable of having an effect in the United Kingdom.

(4) Subsection (1) does not apply in relation to—

(a) an authorised unit trust scheme;

(b) a scheme constituted by an authorised open-ended investment company; or

(c) a recognised scheme.

(5) Subsection (1) does not apply to anything done in accordance with rules made by the Authority for the purpose of exempting from that subsection the promotion otherwise than to the general public of schemes of specified descriptions.

(6) The Treasury may by order specify circumstances in which subsection (1) does not apply.

(7) An order under subsection (6) may, in particular, provide that subsection (1) does not apply in relation to communications—

(a) of a specified description;

(b) originating in a specified country or territory outside the United Kingdom;

(c) originating in a country or territory which falls within a specified description of country or territory outside the United Kingdom; or

(d) originating outside the United Kingdom.

(8) The Treasury may by order repeal subsection (3).

(9) "Communicate" includes causing a communication to be made.

(10) "Promotion otherwise than to the general public" includes promotion in a way designed to reduce, so far as possible, the risk of participation by persons for whom participation would be unsuitable.

(11) "Participate", in relation to a collective investment scheme, means become a participant (within the meaning given by section 235(2)) in the scheme.

Single property schemes.

239.—(1) The Treasury may by regulations make provision for exempting single property schemes from section 238(1).

(2) For the purposes of subsection (1) a single property scheme is a scheme which has the characteristics mentioned in subsection (3) and satisfies such other requirements as are prescribed by the regulations conferring the exemption.

(3) The characteristics are—

(a) that the property subject to the scheme (apart from cash or other assets held for management purposes) consists of—

(i) a single building (or a single building with ancillary buildings) managed by or on behalf of the operator of the scheme, or

(ii) a group of adjacent or contiguous buildings managed by him or on his behalf as a single enterprise,

with or without ancillary land and with or without furniture, fittings or other contents of the building or buildings in question; and

(b) that the units of the participants in the scheme are either dealt in on a recognised investment exchange or offered on terms such that any agreement for their acquisition is conditional on their admission to dealings on such an exchange.

(4) If regulations are made under subsection (1), the Authority may make rules imposing duties or liabilities on the operator and (if any) the trustee or depositary of a scheme exempted by the regulations.

(5) The rules may include, to such extent as the Authority thinks appropriate, provision for purposes corresponding to those for which provision can be made under section 248 in relation to authorised unit trust schemes.

Restriction on approval of promotion.

240.—(1) An authorised person may not approve for the purposes of section 21 the content of a communication relating to a collective investment scheme if he would be prohibited by section 238(1) from effecting the communication himself or from causing it to be communicated.

(2) For the purposes of determining in any case whether there has been a contravention of section 21(1), an approval given in contravention of subsection (1) is to be regarded as not having been given.

Actions for damages.

241. If an authorised person contravenes a requirement imposed on him by section 238 or 240, section 150 applies to the contravention as it applies to a contravention mentioned in that section.

CHAPTER III

AUTHORISED UNIT TRUST SCHEMES

Applications for authorisation

Applications for authorisation of unit trust schemes.

242.—(1) Any application for an order declaring a unit trust scheme to be an authorised unit trust scheme must be made to the Authority by the manager and trustee, or proposed manager and trustee, of the scheme.

(2) The manager and trustee (or proposed manager and trustee) must be different persons.

(3) The application—

(a) must be made in such manner as the Authority may direct; and

(b) must contain or be accompanied by such information as the Authority may reasonably require for the purpose of determining the application.

(4) At any time after receiving an application and before determining it, the Authority may require the applicants to provide it with such further information as it reasonably considers necessary to enable it to determine the application.

(5) Different directions may be given, and different requirements imposed, in relation to different applications.

(6) The Authority may require applicants to present information which they are required to give under this section in such form, or to verify it in such a way, as the Authority may direct.

Authorisation orders.

243.—(1) If, on an application under section 242 in respect of a unit trust scheme, the Authority—

(a) is satisfied that the scheme complies with the requirements set out in this section,

(b) is satisfied that the scheme complies with the requirements of the trust scheme rules, and

(c) has been provided with a copy of the trust deed and a certificate signed by a solicitor to the effect that it complies with such of the requirements of this section or those rules as relate to its contents,

the Authority may make an order declaring the scheme to be an authorised unit trust scheme.

(2) If the Authority makes an order under subsection (1), it must give written notice of the order to the applicant.

(3) In this Chapter "authorisation order" means an order under subsection (1).

(4) The manager and the trustee must be persons who are independent of each other.

(5) The manager and the trustee must each—

(a) be a body corporate incorporated in the United Kingdom or another EEA State, and

(b) have a place of business in the United Kingdom,

and the affairs of each must be administered in the country in which it is incorporated.

(6) If the manager is incorporated in another EEA State, the scheme must not be one which satisfies the requirements prescribed for the purposes of section 264.

(7) The manager and the trustee must each be an authorised person and the manager must have permission to act as manager and the trustee must have permission to act as trustee.

(8) The name of the scheme must not be undesirable or misleading.

(9) The purposes of the scheme must be reasonably capable of being successfully carried into effect.

(10) The participants must be entitled to have their units redeemed in accordance with the scheme at a price—

(a) related to the net value of the property to which the units relate; and

(b) determined in accordance with the scheme.

(11) But a scheme is to be treated as complying with subsection (10) if it requires the manager to ensure that a participant is able to sell his units on an investment exchange at a price not significantly different from that mentioned in that subsection.

Determination of applications.

244.—(1) An application under section 242 must be determined by the Authority before the end of the period of six months beginning with the date on which it receives the completed application.

(2) The Authority may determine an incomplete application if it considers it appropriate to do so; and it must in any event determine such an application within twelve months beginning with the date on which it first receives the application.

(3) The applicant may withdraw his application, by giving the Authority written notice, at any time before the Authority determines it.

Applications refused

Procedure when refusing an application.

245.—(1) If the Authority proposes to refuse an application made under section 242 it must give each of the applicants a warning notice.

(2) If the Authority decides to refuse the application—

(a) it must give each of the applicants a decision notice; and

(b) either applicant may refer the matter to the Tribunal.

Certificates

Certificates.

246.—(1) If the manager or trustee of a unit trust scheme which complies with the conditions necessary for it to enjoy the rights conferred by any relevant Community instrument so requests, the Authority may issue a certificate to the effect that the scheme complies with those conditions.

(2) Such a certificate may be issued on the making of an authorisation order in respect of the scheme or at any subsequent time.

Rules

Trust scheme rules.

247.—(1) The Authority may make rules ("trust scheme rules") as to—

(a) the constitution, management and operation of authorised unit trust schemes;

(b) the powers, duties, rights and liabilities of the manager and trustee of any such scheme;

(c) the rights and duties of the participants in any such scheme; and

(d) the winding up of any such scheme.

(2) Trust scheme rules may, in particular, make provision—

(a) as to the issue and redemption of the units under the scheme;

(b) as to the expenses of the scheme and the means of meeting them;

(c) for the appointment, removal, powers and duties of an auditor for the scheme;

(d) for restricting or regulating the investment and borrowing powers exercisable in relation to the scheme;

(e) requiring the keeping of records with respect to the transactions and financial position of the scheme and for the inspection of those records;

(f) requiring the preparation of periodical reports with respect to the scheme and the provision of those reports to the participants and to the Authority; and

(g) with respect to the amendment of the scheme.

(3) Trust scheme rules may make provision as to the contents of the trust deed, including provision requiring any of the matters mentioned in subsection (2) to be dealt with in the deed.

(4) But trust scheme rules are binding on the manager, trustee and participants independently of the contents of the trust deed and, in the case of the participants, have effect as if contained in it.

(5) If—

(a) a modification is made of the statutory provisions in force in Great Britain or Northern Ireland relating to companies,

(b) the modification relates to the rights and duties of persons who hold the beneficial title to any shares in a company without also holding the legal title, and

(c) it appears to the Treasury that, for the purpose of assimilating the law relating to authorised unit trust schemes to the law relating to companies as so modified, it is expedient to modify the rule-making powers conferred on the Authority by this section,

the Treasury may by order make such modifications of those powers as they consider appropriate.

Scheme particulars rules.

248.—(1) The Authority may make rules ("scheme particulars rules") requiring the manager of an authorised unit trust scheme—

(a) to submit scheme particulars to the Authority; and

(b) to publish scheme particulars or make them available to the public on request.

(2) "Scheme particulars" means particulars in such form, containing such information about the scheme and complying with such requirements, as are specified in scheme particulars rules.

(3) Scheme particulars rules may require the manager of an authorised unit trust scheme to submit, and to publish or make available, revised or further scheme particulars if there is a significant change affecting any matter—

(a) which is contained in scheme particulars previously published or made available; and

(b) whose inclusion in those particulars was required by the rules.

(4) Scheme particulars rules may require the manager of an authorised unit trust scheme to submit, and to publish or make available, revised or further scheme particulars if—

(a) a significant new matter arises; and

(b) the inclusion of information in respect of that matter would have been required in previous particulars if it had arisen when those particulars were prepared.

(5) Scheme particulars rules may provide for the payment, by the person or persons who in accordance with the rules are treated as responsible for any scheme particulars, of compensation to any qualifying person who has suffered loss as a result of—

(a) any untrue or misleading statement in the particulars; or

(b) the omission from them of any matter required by the rules to be included.

(6) "Qualifying person" means a person who—

(a) has become or agreed to become a participant in the scheme; or

(b) although not being a participant, has a beneficial interest in units in the scheme.

(7) Scheme particulars rules do not affect any liability which any person may incur apart from the rules.

Disqualification of auditor for breach of trust scheme rules.

249.—(1) If it appears to the Authority that an auditor has failed to comply with a duty imposed on him by trust scheme rules, it may disqualify him from being the auditor for any authorised unit trust scheme or authorised open-ended investment company.

(2) Subsections (2) to (5) of section 345 have effect in relation to disqualification under subsection (1) as they have effect in relation to disqualification under subsection (1) of that section.

Modification or waiver of rules.

250.—(1) In this section "rules" means—

(a) trust scheme rules; or

(b) scheme particulars rules.

(2) The Authority may, on the application or with the consent of any person to whom any rules apply, direct that all or any of the rules—

(a) are not to apply to him as respects a particular scheme; or

(b) are to apply to him, as respects a particular scheme, with such modifications as may be specified in the direction.

(3) The Authority may, on the application or with the consent of the manager and trustee of a particular scheme acting jointly, direct that all or any of the rules—

(a) are not to apply to the scheme; or

(b) are to apply to the scheme with such modifications as may be specified in the direction.

(4) Subsections (3) to (9) and (11) of section 148 have effect in relation to a direction under subsection (2) as they have effect in relation to a direction under section 148(2) but with the following modifications—

(a) subsection (4)(a) is to be read as if the words "by the authorised person" were omitted;

(b) any reference to the authorised person (except in subsection (4)(a)) is to be read as a reference to the person mentioned in subsection (2); and

(c) subsection (7)(b) is to be read, in relation to a participant of the scheme, as if the word "commercial" were omitted.

(5) Subsections (3) to (9) and (11) of section 148 have effect in relation to a direction under subsection (3) as they have effect in relation to a direction under section 148(2) but with the following modifications—

(a) subsection (4)(a) is to be read as if the words "by the authorised person" were omitted;

(b) subsections (7)(b) and (11) are to be read as if references to the authorised person were references to each of the manager and the trustee of the scheme;

(c) subsection (7)(b) is to be read, in relation to a participant of the scheme, as if the word "commercial" were omitted;

(d) subsection (8) is to be read as if the reference to the authorised person concerned were a reference to the scheme concerned and to its manager and trustee; and

(e) subsection (9) is to be read as if the reference to the authorised person were a reference to the manager and trustee of the scheme acting jointly.

Alterations

Alteration of schemes and changes of manager or trustee.

251.—(1) The manager of an authorised unit trust scheme must give written notice to the Authority of any proposal to alter the scheme or to replace its trustee.

(2) Any notice given in respect of a proposal to alter the scheme involving a change in the trust deed must be accompanied by a certificate signed by a solicitor to the effect that the change will not affect the compliance of the deed with the trust scheme rules.

(3) The trustee of an authorised unit trust scheme must give written notice to the Authority of any proposal to replace the manager of the scheme.

(4) Effect is not to be given to any proposal of which notice has been given under subsection (1) or (3) unless—

(a) the Authority, by written notice, has given its approval to the proposal; or

(b) one month, beginning with the date on which the notice was given, has expired without the manager or trustee having received from the Authority a warning notice under section 252 in respect of the proposal.

(5) The Authority must not approve a proposal to replace the manager or the trustee of an authorised unit trust scheme unless it is satisfied that, if the proposed replacement is made, the scheme will continue to comply with the requirements of section 243(4) to (7).

Procedure when refusing approval of change of manager or trustee.

252.—(1) If the Authority proposes to refuse approval of a proposal to replace the trustee or manager of an authorised unit trust scheme, it must give a warning notice to the person by whom notice of the proposal was given under section 251(1) or (3).

(2) If the Authority proposes to refuse approval of a proposal to alter an authorised unit trust scheme it must give separate warning notices to the manager and the trustee of the scheme.

(3) To be valid the warning notice must be received by that person before the end of one month beginning with the date on which notice of the proposal was given.

(4) If, having given a warning notice to a person, the Authority decides to refuse approval—

(a) it must give him a decision notice; and

(b) he may refer the matter to the Tribunal.

Exclusion clauses

Avoidance of exclusion clauses.

253. Any provision of the trust deed of an authorised unit trust scheme is void in so far as it would have the effect of exempting the manager or trustee from liability for any failure to exercise due care and diligence in the discharge of his functions in respect of the scheme.

Ending of authorisation

Revocation of authorisation order otherwise than by consent.

254.—(1) An authorisation order may be revoked by an order made by the Authority if it appears to the Authority that—

(a) one or more of the requirements for the making of the order are no longer satisfied;

(b) the manager or trustee of the scheme concerned has contravened a requirement imposed on him by or under this Act;

(c) the manager or trustee of the scheme has, in purported compliance with any such requirement, knowingly or recklessly given the Authority information which is false or misleading in a material particular;

(d) no regulated activity is being carried on in relation to the scheme and the period of that inactivity began at least twelve months earlier; or

(e) none of paragraphs (a) to (d) applies, but it is desirable to revoke the authorisation order in order to protect the interests of participants or potential participants in the scheme.

(2) For the purposes of subsection (1)(e), the Authority may take into account any matter relating to—

(a) the scheme;

(b) the manager or trustee;

(c) any person employed by or associated with the manager or trustee in connection with the scheme;

(d) any director of the manager or trustee;

(e) any person exercising influence over the manager or trustee;

(f) any body corporate in the same group as the manager or trustee;

(g) any director of any such body corporate;

(h) any person exercising influence over any such body corporate.

Procedure.

255.—(1) If the Authority proposes to make an order under section 254 revoking an authorisation order ("a revoking order"), it must give separate warning notices to the manager and the trustee of the scheme.

(2) If the Authority decides to make a revoking order, it must without delay give each of them a decision notice and either of them may refer the matter to the Tribunal.

Requests for revocation of authorisation order.

256.—(1) An authorisation order may be revoked by an order made by the Authority at the request of the manager or trustee of the scheme concerned.

(2) If the Authority makes an order under subsection (1), it must give written notice of the order to the manager and trustee of the scheme concerned.

(3) The Authority may refuse a request to make an order under this section if it considers that—

(a) the public interest requires that any matter concerning the scheme should be investigated before a decision is taken as to whether the authorisation order should be revoked; or

(b) revocation would not be in the interests of the participants or would be incompatible with a Community obligation.

(4) If the Authority proposes to refuse a request under this section, it must give separate warning notices to the manager and the trustee of the scheme.

(5) If the Authority decides to refuse the request, it must without delay give each of them a decision notice and either of them may refer the matter to the Tribunal.

Powers of intervention

Directions.

257.—(1) The Authority may give a direction under this section if it appears to the Authority that—

(a) one or more of the requirements for the making of an authorisation order are no longer satisfied;

(b) the manager or trustee of an authorised unit trust scheme has contravened, or is likely to contravene, a requirement imposed on him by or under this Act;

(c) the manager or trustee of such a scheme has, in purported compliance with any such requirement, knowingly or recklessly given the Authority information which is false or misleading in a material particular; or

(d) none of paragraphs (a) to (c) applies, but it is desirable to give a direction in order to protect the interests of participants or potential participants in such a scheme.

(2) A direction under this section may—

(a) require the manager of the scheme to cease the issue or redemption, or both the issue and redemption, of units under the scheme;

(b) require the manager and trustee of the scheme to wind it up.

(3) If the authorisation order is revoked, the revocation does not affect any direction under this section which is then in force.

(4) A direction may be given under this section in relation to a scheme in the case of which the authorisation order has been revoked if a direction under this section was already in force at the time of revocation.

(5) If a person contravenes a direction under this section, section 150 applies to the contravention as it applies to a contravention mentioned in that section.

(6) The Authority may, either on its own initiative or on the application of the manager or trustee of the scheme concerned, revoke or vary a direction given under this section if it appears to the Authority—

(a) in the case of revocation, that it is no longer necessary for the direction to take effect or continue in force;

(b) in the case of variation, that the direction should take effect or continue in force in a different form.

Applications to the court.

258.—(1) If the Authority could give a direction under section 257, it may also apply to the court for an order—

(a) removing the manager or the trustee, or both the manager and the trustee, of the scheme; and

(b) replacing the person or persons removed with a suitable person or persons nominated by the Authority.

(2) The Authority may nominate a person for the purposes of subsection (1)(b) only if it is satisfied that, if the order was made, the requirements of section 243(4) to (7) would be complied with.

(3) If it appears to the Authority that there is no person it can nominate for the purposes of subsection (1)(b), it may apply to the court for an order—

(a) removing the manager or the trustee, or both the manager and the trustee, of the scheme; and

(b) appointing an authorised person to wind up the scheme.

(4) On an application under this section the court may make such order as it thinks fit.

(5) The court may, on the application of the Authority, rescind any such order as is mentioned in subsection (3) and substitute such an order as is mentioned in subsection (1).

(6) The Authority must give written notice of the making of an application under this section to the manager and trustee of the scheme concerned.

(7) The jurisdiction conferred by this section may be exercised by—

(a) the High Court;

(b) in Scotland, the Court of Session.

Procedure on giving directions under section 257 and varying them on Authority's own initiative.

259.—(1) A direction takes effect—

(a) immediately, if the notice given under subsection (3) states that that is the case;

(b) on such date as may be specified in the notice; or

(c) if no date is specified in the notice, when the matter to which it relates is no longer open to review.

(2) A direction may be expressed to take effect immediately (or on a specified date) only if the Authority, having regard to the ground on which it is exercising its power under section 257, considers that it is necessary for the direction to take effect immediately (or on that date).

(3) If the Authority proposes to give a direction under section 257, or gives such a direction with immediate effect, it must give separate written notice to the manager and the trustee of the scheme concerned.

(4) The notice must—

(a) give details of the direction;

(b) inform the person to whom it is given of when the direction takes effect;

(c) state the Authority's reasons for giving the direction and for its determination as to when the direction takes effect;

(d) inform the person to whom it is given that he may make representations to the Authority within such period as may be specified in it (whether or not he has referred the matter to the Tribunal); and

(e) inform him of his right to refer the matter to the Tribunal.

(5) If the direction imposes a requirement under section 257(2)(a), the notice must state that the requirement has effect until—

(a) a specified date; or

(b) a further direction.

(6) If the direction imposes a requirement under section 257(2)(b), the scheme must be wound up—

(a) by a date specified in the notice; or

(b) if no date is specified, as soon as practicable.

(7) The Authority may extend the period allowed under the notice for making representations.

(8) If, having considered any representations made by a person to whom the notice was given, the Authority decides—

(a) to give the direction in the way proposed, or

(b) if it has been given, not to revoke the direction,

it must give separate written notice to the manager and the trustee of the scheme concerned.

(9) If, having considered any representations made by a person to whom the notice was given, the Authority decides—

(a) not to give the direction in the way proposed,

(b) to give the direction in a way other than that proposed, or

(c) to revoke a direction which has effect,

it must give separate written notice to the manager and the trustee of the scheme concerned.

(10) A notice given under subsection (8) must inform the person to whom it is given of his right to refer the matter to the Tribunal.

(11) A notice under subsection (9)(b) must comply with subsection (4).

(12) If a notice informs a person of his right to refer a matter to the Tribunal, it must give an indication of the procedure on such a reference.

(13) This section applies to the variation of a direction on the Authority's own initiative as it applies to the giving of a direction.

(14) For the purposes of subsection (1)(c), whether a matter is open to review is to be determined in accordance with section 391(8).

Procedure: refusal to revoke or vary direction.

260.—(1) If on an application under section 257(6) for a direction to be revoked or varied the Authority proposes—

(a) to vary the direction otherwise than in accordance with the application, or

(b) to refuse to revoke or vary the direction,

it must give the applicant a warning notice.

(2) If the Authority decides to refuse to revoke or vary the direction—

(a) it must give the applicant a decision notice; and

(b) the applicant may refer the matter to the Tribunal.

Procedure: revocation of direction and grant of request for variation.

261.—(1) If the Authority decides on its own initiative to revoke a direction under section 257 it must give separate written notices of its decision to the manager and trustee of the scheme.

(2) If on an application under section 257(6) for a direction to be revoked or varied the Authority decides to revoke the direction or vary it in accordance with the application, it must give the applicant written notice of its decision.

(3) A notice under this section must specify the date on which the decision takes effect.

(4) The Authority may publish such information about the revocation or variation, in such way, as it considers appropriate.

CHAPTER IV

OPEN-ENDED INVESTMENT COMPANIES

Open-ended investment companies.

262.—(1) The Treasury may by regulations make provision for—

(a) facilitating the carrying on of collective investment by means of open-ended investment companies;

(b) regulating such companies.

(2) The regulations may, in particular, make provision—

(a) for the incorporation and registration in Great Britain of bodies corporate;

(b) for a body incorporated by virtue of the regulations to take such form as may be determined in accordance with the regulations;

(c) as to the purposes for which such a body may exist, the investments which it may issue and otherwise as to its constitution;

(d) as to the management and operation of such a body and the management of its property;

(e) as to the powers, duties, rights and liabilities of such a body and of other persons, including—

(i) the directors or sole director of such a body;

(ii) its depositary (if any);

(iii) its shareholders, and persons who hold the beneficial title to shares in it without holding the legal title;

(iv) its auditor; and

(v) any persons who act or purport to act on its behalf;

(f) as to the merger of one or more such bodies and the division of such a body;

(g) for the appointment and removal of an auditor for such a body;

(h) as to the winding up and dissolution of such a body;

(i) for such a body, or any director or depositary of such a body, to be required to comply with directions given by the Authority;

(j) enabling the Authority to apply to a court for an order removing and replacing any director or depositary of such a body;

(k) for the carrying out of investigations by persons appointed by the Authority or the Secretary of State;

(l) corresponding to any provision made in relation to unit trust schemes by Chapter III of this Part.

(3) Regulations under this section may—

(a) impose criminal liability;

(b) confer functions on the Authority;

(c) in the case of provision made by virtue of subsection (2)(l), authorise the making of rules by the Authority;

(d) confer jurisdiction on any court or on the Tribunal;

(e) provide for fees to be charged by the Authority in connection with the carrying out of any of its functions under the regulations (including fees payable on a periodical basis);

(f) modify, exclude or apply (with or without modifications) any primary or subordinate legislation (including any provision of, or made under, this Act);

(g) make consequential amendments, repeals and revocations of any such legislation;

(h) modify or exclude any rule of law.

(4) The provision that may be made by virtue of subsection (3)(f) includes provision extending or adapting any power to make subordinate legislation.

(5) Regulations under this section may, in particular—

(a) revoke the Open-Ended Investment Companies (Investment Companies with Variable Capital) Regulations 1996; and S.I. 1996/2827.

(b) provide for things done under or in accordance with those regulations to be treated as if they had been done under or in accordance with regulations under this section.

Amendment of section 716 Companies Act 1985.
1985 c. 6.

263. In section 716(1) of the Companies Act 1985 (prohibition on formation of companies with more than 20 members unless registered under the Act etc.), after "this Act," insert "is incorporated by virtue of regulations made under section 262 of the Financial Services and Markets Act 2000".

CHAPTER V

RECOGNISED OVERSEAS SCHEMES

Schemes constituted in other EEA States

Schemes constituted in other EEA States.

264.—(1) A collective investment scheme constituted in another EEA State is a recognised scheme if—

(a) it satisfies such requirements as are prescribed for the purposes of this section; and

(b) not less than two months before inviting persons in the United Kingdom to become participants in the scheme, the operator of the scheme gives notice to the Authority of his intention to do so, specifying the way in which the invitation is to be made.

(2) But this section does not make the scheme a recognised scheme if within two months of receiving the notice under subsection (1) the Authority notifies—

(a) the operator of the scheme, and

(b) the authorities of the State in question who are responsible for the authorisation of collective investment schemes,

that the way in which the invitation is to be made does not comply with the law in force in the United Kingdom.

(3) The notice to be given to the Authority under subsection (1)—

(a) must be accompanied by a certificate from the authorities mentioned in subsection (2)(b) to the effect that the scheme complies with the conditions necessary for it to enjoy the rights conferred by any relevant Community instrument;

(b) must contain the address of a place in the United Kingdom for the service on the operator of notices or other documents required or authorised to be served on him under this Act; and

(c) must contain or be accompanied by such other information and documents as may be prescribed.

(4) A notice given by the Authority under subsection (2) must—

(a) give the reasons for which the Authority considers that the law in force in the United Kingdom will not be complied with; and

(b) specify a reasonable period (which may not be less than 28 days) within which any person to whom it is given may make representations to the Authority.

(5) For the purposes of this section a collective investment scheme is constituted in another EEA State if—

(a) it is constituted under the law of that State by a contract or under a trust and is managed by a body corporate incorporated under that law; or

(b) it takes the form of an open-ended investment company incorporated under that law.

(6) The operator of a recognised scheme may give written notice to the Authority that he desires the scheme to be no longer recognised by virtue of this section.

(7) On the giving of notice under subsection (6), the scheme ceases to be a recognised scheme.

Representations and references to the Tribunal.

265.—(1) This section applies if any representations are made to the Authority, before the period for making representations has ended, by a person to whom a notice was given by the Authority under section 264(2).

(2) The Authority must, within a reasonable period, decide in the light of those representations whether or not to withdraw its notice.

(3) If the Authority withdraws its notice the scheme is a recognised scheme from the date on which the notice is withdrawn.

(4) If the Authority decides not to withdraw its notice, it must give a decision notice to each person to whom the notice under section 264(2) was given.

(5) The operator of the scheme to whom the decision notice is given may refer the matter to the Tribunal.

Disapplication of rules.

266.—(1) Apart from—

(a) financial promotion rules, and

(b) rules under section 283(1),

rules made by the Authority under this Act do not apply to the operator, trustee or depositary of a scheme in relation to the carrying on by him of regulated activities for which he has permission in that capacity.

(2) "Scheme" means a scheme which is a recognised scheme by virtue of section 264.

Power of Authority to suspend promotion of scheme.

267.—(1) Subsection (2) applies if it appears to the Authority that the operator of a scheme has communicated an invitation or inducement in relation to the scheme in a manner contrary to financial promotion rules.

(2) The Authority may direct that—

(a) the exemption from subsection (1) of section 238 provided by subsection (4)(c) of that section is not to apply in relation to the scheme; and

(b) subsection (5) of that section does not apply with respect to things done in relation to the scheme.

(3) A direction under subsection (2) has effect—

(a) for a specified period;

(b) until the occurrence of a specified event; or

(c) until specified conditions are complied with.

(4) The Authority may, either on its own initiative or on the application of the operator of the scheme concerned, vary a direction given under subsection (2) if it appears to the Authority that the direction should take effect or continue in force in a different form.

(5) The Authority may, either on its own initiative or on the application of the operator of the recognised scheme concerned, revoke a direction given under subsection (2) if it appears to the Authority—

(a) that the conditions specified in the direction have been complied with; or

(b) that it is no longer necessary for the direction to take effect or continue in force.

(6) If an event is specified, the direction ceases to have effect (unless revoked earlier) on the occurrence of that event.

(7) For the purposes of this section and sections 268 and 269—

(a) the scheme's home State is the EEA State in which the scheme is constituted (within the meaning given by section 264);

(b) the competent authorities in the scheme's home State are the authorities in that State who are responsible for the authorisation of collective investment schemes.

(8) "Scheme" means a scheme which is a recognised scheme by virtue of section 264.

(9) "Specified", in relation to a direction, means specified in it.

Procedure on giving directions under section 267 and varying them on Authority's own initiative.

268.—(1) A direction under section 267 takes effect—

(a) immediately, if the notice given under subsection (3)(a) states that that is the case;

(b) on such date as may be specified in the notice; or

(c) if no date is specified in the notice, when the matter to which it relates is no longer open to review.

(2) A direction may be expressed to take effect immediately (or on a specified date) only if the Authority, having regard to its reasons for exercising its power under section 267, considers that it is necessary for the direction to take effect immediately (or on that date).

(3) If the Authority proposes to give a direction under section 267, or gives such a direction with immediate effect, it must—

(a) give the operator of the scheme concerned written notice; and

(b) inform the competent authorities in the scheme's home State of its proposal or (as the case may be) of the direction.

(4) The notice must—

(a) give details of the direction;

(b) inform the operator of when the direction takes effect;

(c) state the Authority's reasons for giving the direction and for its determination as to when the direction takes effect;

(d) inform the operator that he may make representations to the Authority within such period as may be specified in it (whether or not he has referred the matter to the Tribunal); and

(e) inform him of his right to refer the matter to the Tribunal.

(5) The Authority may extend the period allowed under the notice for making representations.

(6) Subsection (7) applies if, having considered any representations made by the operator, the Authority decides—

(a) to give the direction in the way proposed, or

(b) if it has been given, not to revoke the direction.

(7) The Authority must—

(a) give the operator of the scheme concerned written notice; and

(b) inform the competent authorities in the scheme's home State of the direction.

(8) Subsection (9) applies if, having considered any representations made by a person to whom the notice was given, the Authority decides—

(a) not to give the direction in the way proposed,

(b) to give the direction in a way other than that proposed, or

(c) to revoke a direction which has effect.

(9) The Authority must—

(a) give the operator of the scheme concerned written notice; and

(b) inform the competent authorities in the scheme's home State of its decision.

(10) A notice given under subsection (7)(a) must inform the operator of his right to refer the matter to the Tribunal.

(11) A notice under subsection (9)(a) given as a result of subsection (8)(b) must comply with subsection (4).

(12) If a notice informs a person of his right to refer a matter to the Tribunal, it must give an indication of the procedure on such a reference.

(13) This section applies to the variation of a direction on the Authority's own initiative as it applies to the giving of a direction.

(14) For the purposes of subsection (1)(c), whether a matter is open to review is to be determined in accordance with section 391(8).

Procedure on application for variation or revocation of direction.

269.—(1) If, on an application under subsection (4) or (5) of section 267, the Authority proposes—

(a) to vary a direction otherwise than in accordance with the application, or

(b) to refuse the application,

it must give the operator of the scheme concerned a warning notice.

(2) If, on such an application, the Authority decides—

(a) to vary a direction otherwise than in accordance with the application, or

(b) to refuse the application,

it must give the operator of the scheme concerned a decision notice.

(3) If the application is refused, the operator of the scheme may refer the matter to the Tribunal.

(4) If, on such an application, the Authority decides to grant the application it must give the operator of the scheme concerned written notice.

(5) If the Authority decides on its own initiative to revoke a direction given under section 267 it must give the operator of the scheme concerned written notice.

(6) The Authority must inform the competent authorities in the scheme's home State of any notice given under this section.

Schemes authorised in designated countries or territories

Schemes authorised in designated countries or territories.

270.—(1) A collective investment scheme which is not a recognised scheme by virtue of section 264 but is managed in, and authorised under the law of, a country or territory outside the United Kingdom is a recognised scheme if—

(a) that country or territory is designated for the purposes of this section by an order made by the Treasury;

(b) the scheme is of a class specified by the order;

(c) the operator of the scheme has given written notice to the Authority that he wishes it to be recognised; and

(d) either—

(i) the Authority, by written notice, has given its approval to the scheme's being recognised; or

(ii) two months, beginning with the date on which notice was given under paragraph (c), have expired without the operator receiving a warning notice from the Authority under section 271.

(2) The Treasury may not make an order designating any country or territory for the purposes of this section unless satisfied—

(a) that the law and practice under which relevant collective investment schemes are authorised and supervised in that country or territory affords to investors in the United Kingdom protection at least equivalent to that provided for them by or under this Part in the case of comparable authorised schemes; and

(b) that adequate arrangements exist, or will exist, for co-operation between the authorities of the country or territory responsible for the authorisation and supervision of relevant collective investment schemes and the Authority.

(3) "Relevant collective investment schemes" means collective investment schemes of the class or classes to be specified by the order.

(4) "Comparable authorised schemes" means whichever of the following the Treasury consider to be the most appropriate, having regard to the class or classes of scheme to be specified by the order—

(a) authorised unit trust schemes;

(b) authorised open-ended investment companies;

(c) both such unit trust schemes and such companies.

(5) If the Treasury are considering whether to make an order designating a country or territory for the purposes of this section—

(a) the Treasury must ask the Authority for a report—

(i) on the law and practice of that country or territory in relation to the authorisation and supervision of relevant collective investment schemes,

(ii) on any existing or proposed arrangements for co-operation between it and the authorities responsible in that country or territory for the authorisation and supervision of relevant collective investment schemes,

having regard to the Treasury's need to be satisfied as mentioned in subsection (2);

(b) the Authority must provide the Treasury with such a report; and

(c) the Treasury must have regard to it in deciding whether to make the order.

(6) The notice to be given by the operator under subsection (1)(c)—

(a) must contain the address of a place in the United Kingdom for the service on the operator of notices or other documents required or authorised to be served on him under this Act; and

(b) must contain or be accompanied by such information and documents as may be specified by the Authority.

Procedure.

271.—(1) If the Authority proposes to refuse approval of a scheme's being a recognised scheme by virtue of section 270, it must give the operator of the scheme a warning notice.

(2) To be valid the warning notice must be received by the operator before the end of two months beginning with the date on which notice was given under section 270(1)(c).

(3) If, having given a warning notice, the Authority decides to refuse approval—

(a) it must give the operator of the scheme a decision notice; and

(b) the operator may refer the matter to the Tribunal.

Individually recognised overseas schemes

Individually recognised overseas schemes.

272.—(1) The Authority may, on the application of the operator of a collective investment scheme which—

(a) is managed in a country or territory outside the United Kingdom,

(b) does not satisfy the requirements prescribed for the purposes of section 264,

(c) is not managed in a country or territory designated for the purposes of section 270 or, if it is so managed, is of a class not specified by the designation order, and

(d) appears to the Authority to satisfy the requirements set out in the following provisions of this section,

make an order declaring the scheme to be a recognised scheme.

(2) Adequate protection must be afforded to participants in the scheme.

(3) The arrangements for the scheme's constitution and management must be adequate.

(4) The powers and duties of the operator and, if the scheme has a trustee or depositary, of the trustee or depositary must be adequate.

(5) In deciding whether the matters mentioned in subsection (3) or (4) are adequate, the Authority must have regard to—

(a) any rule of law, and

(b) any matters which are, or could be, the subject of rules,

applicable in relation to comparable authorised schemes.

(6) "Comparable authorised schemes" means whichever of the following the Authority considers the most appropriate, having regard to the nature of scheme in respect of which the application is made—

(a) authorised unit trust schemes;

(b) authorised open-ended investment companies;

(c) both such unit trust schemes and such companies.

(7) The scheme must take the form of an open-ended investment company or (if it does not take that form) the operator must be a body corporate.

(8) The operator of the scheme must—

(a) if an authorised person, have permission to act as operator;

(b) if not an authorised person, be a fit and proper person to act as operator.

(9) The trustee or depositary (if any) of the scheme must—

(a) if an authorised person, have permission to act as trustee or depositary;

(b) if not an authorised person, be a fit and proper person to act as trustee or depositary.

(10) The operator and the trustee or depositary (if any) of the scheme must be able and willing to co-operate with the Authority by the sharing of information and in other ways.

(11) The name of the scheme must not be undesirable or misleading.

(12) The purposes of the scheme must be reasonably capable of being successfully carried into effect.

(13) The participants must be entitled to have their units redeemed in accordance with the scheme at a price related to the net value of the property to which the units relate and determined in accordance with the scheme.

(14) But a scheme is to be treated as complying with subsection (13) if it requires the operator to ensure that a participant is able to sell his units on an investment exchange at a price not significantly different from that mentioned in that subsection.

(15) Subsection (13) is not to be read as imposing a requirement that the participants must be entitled to have their units redeemed (or sold as mentioned in subsection (14)) immediately following a demand to that effect.

Matters that may be taken into account.

273. For the purposes of subsections (8)(b) and (9)(b) of section 272, the Authority may take into account any matter relating to—

(a) any person who is or will be employed by or associated with the operator, trustee or depositary in connection with the scheme;

(b) any director of the operator, trustee or depositary;

(c) any person exercising influence over the operator, trustee or depositary;

(d) any body corporate in the same group as the operator, trustee or depositary;

(e) any director of any such body corporate;

(f) any person exercising influence over any such body corporate.

Applications for recognition of individual schemes.

274.—(1) An application under section 272 for an order declaring a scheme to be a recognised scheme must be made to the Authority by the operator of the scheme.

(2) The application—

(a) must be made in such manner as the Authority may direct;

(b) must contain the address of a place in the United Kingdom for the service on the operator of notices or other documents required or authorised to be served on him under this Act;

(c) must contain or be accompanied by such information as the Authority may reasonably require for the purpose of determining the application.

(3) At any time after receiving an application and before determining it, the Authority may require the applicant to provide it with such further information as it reasonably considers necessary to enable it to determine the application.

(4) Different directions may be given, and different requirements imposed, in relation to different applications.

(5) The Authority may require an applicant to present information which he is required to give under this section in such form, or to verify it in such a way, as the Authority may direct.

Determination of applications.

275.—(1) An application under section 272 must be determined by the Authority before the end of the period of six months beginning with the date on which it receives the completed application.

(2) The Authority may determine an incomplete application if it considers it appropriate to do so; and it must in any event determine such an application within twelve months beginning with the date on which it first receives the application.

(3) If the Authority makes an order under section 272(1), it must give written notice of the order to the applicant.

Procedure when refusing an application.

276.—(1) If the Authority proposes to refuse an application made under section 272 it must give the applicant a warning notice.

(2) If the Authority decides to refuse the application—

(a) it must give the applicant a decision notice; and

(b) the applicant may refer the matter to the Tribunal.

Alteration of schemes and changes of operator, trustee or depositary.

277.—(1) The operator of a scheme recognised by virtue of section 272 must give written notice to the Authority of any proposed alteration to the scheme.

(2) Effect is not to be given to any such proposal unless—

(a) the Authority, by written notice, has given its approval to the proposal; or

(b) one month, beginning with the date on which notice was given under subsection (1), has expired without the Authority having given written notice to the operator that it has decided to refuse approval.

(3) At least one month before any replacement of the operator, trustee or depositary of such a scheme, notice of the proposed replacement must be given to the Authority—

(a) by the operator, trustee or depositary (as the case may be); or

(b) by the person who is to replace him.

Schemes recognised under sections 270 and 272

Rules as to scheme particulars.

278. The Authority may make rules imposing duties or liabilities on the operator of a scheme recognised under section 270 or 272 for purposes corresponding to those for which rules may be made under section 248 in relation to authorised unit trust schemes.

Revocation of recognition.

279. The Authority may direct that a scheme is to cease to be recognised by virtue of section 270 or revoke an order under section 272 if it appears to the Authority—

(a) that the operator, trustee or depositary of the scheme has contravened a requirement imposed on him by or under this Act;

(b) that the operator, trustee or depositary of the scheme has, in purported compliance with any such requirement, knowingly or recklessly given the Authority information which is false or misleading in a material particular;

(c) in the case of an order under section 272, that one or more of the requirements for the making of the order are no longer satisfied; or

(d) that none of paragraphs (a) to (c) applies, but it is undesirable in the interests of the participants or potential participants that the scheme should continue to be recognised.

Procedure.

280.—(1) If the Authority proposes to give a direction under section 279 or to make an order under that section revoking a recognition order, it must give a warning notice to the operator and (if any) the trustee or depositary of the scheme.

(2) If the Authority decides to give a direction or make an order under that section—

(a) it must without delay give a decision notice to the operator and (if any) the trustee or depositary of the scheme; and

(b) the operator or the trustee or depositary may refer the matter to the Tribunal.

Directions.

281.—(1) In this section a "relevant recognised scheme" means a scheme recognised under section 270 or 272.

(2) If it appears to the Authority that—

(a) the operator, trustee or depositary of a relevant recognised scheme has contravened, or is likely to contravene, a requirement imposed on him by or under this Act,

(b) the operator, trustee or depositary of such a scheme has, in purported compliance with any such requirement, knowingly or recklessly given the Authority information which is false or misleading in a material particular,

(c) one or more of the requirements for the recognition of a scheme under section 272 are no longer satisfied, or

(d) none of paragraphs (a) to (c) applies, but the exercise of the power conferred by this section is desirable in order to protect the interests of participants or potential participants in a relevant recognised scheme who are in the United Kingdom,

it may direct that the scheme is not to be a recognised scheme for a specified period or until the occurrence of a specified event or until specified conditions are complied with.

Procedure on giving directions under section 281 and varying them otherwise than as requested.

282.—(1) A direction takes effect—

(a) immediately, if the notice given under subsection (3) states that that is the case;

(b) on such date as may be specified in the notice; or

(c) if no date is specified in the notice, when the matter to which it relates is no longer open to review.

(2) A direction may be expressed to take effect immediately (or on a specified date) only if the Authority, having regard to the ground on which it is exercising its power under section 281, considers that it is necessary for the direction to take effect immediately (or on that date).

(3) If the Authority proposes to give a direction under section 281, or gives such a direction with immediate effect, it must give separate written notice to the operator and (if any) the trustee or depositary of the scheme concerned.

(4) The notice must—

(a) give details of the direction;

(b) inform the person to whom it is given of when the direction takes effect;

(c) state the Authority's reasons for giving the direction and for its determination as to when the direction takes effect;

(d) inform the person to whom it is given that he may make representations to the Authority within such period as may be specified in it (whether or not he has referred the matter to the Tribunal); and

(e) inform him of his right to refer the matter to the Tribunal.

(5) The Authority may extend the period allowed under the notice for making representations.

(6) If, having considered any representations made by a person to whom the notice was given, the Authority decides—

(a) to give the direction in the way proposed, or

(b) if it has been given, not to revoke the direction,

it must give separate written notice to the operator and (if any) the trustee or depositary of the scheme concerned.

(7) If, having considered any representations made by a person to whom the notice was given, the Authority decides—

(a) not to give the direction in the way proposed,

(b) to give the direction in a way other than that proposed, or

(c) to revoke a direction which has effect,

it must give separate written notice to the operator and (if any) the trustee or depositary of the scheme concerned.

(8) A notice given under subsection (6) must inform the person to whom it is given of his right to refer the matter to the Tribunal.

(9) A notice under subsection (7)(b) must comply with subsection (4).

(10) If a notice informs a person of his right to refer a matter to the Tribunal, it must give an indication of the procedure on such a reference.

(11) This section applies to the variation of a direction on the Authority's own initiative as it applies to the giving of a direction.

(12) For the purposes of subsection (1)(c), whether a matter is open to review is to be determined in accordance with section 391(8).

Facilities and information in UK

Facilities and information in UK.

283.—(1) The Authority may make rules requiring operators of recognised schemes to maintain in the United Kingdom, or in such part or parts of it as may be specified, such facilities as the Authority thinks desirable in the interests of participants and as are specified in rules.

(2) The Authority may by notice in writing require the operator of any recognised scheme to include such explanatory information as is specified in the notice in any communication of his which—

(a) is a communication of an invitation or inducement of a kind mentioned in section 21(1); and

(b) names the scheme.

(3) In the case of a communication originating outside the United Kingdom, subsection (2) only applies if the communication is capable of having an effect in the United Kingdom.

CHAPTER VI

INVESTIGATIONS

Power to investigate.

284.—(1) An investigating authority may appoint one or more competent persons to investigate on its behalf—

(a) the affairs of, or of the manager or trustee of, any authorised unit trust scheme,

(b) the affairs of, or of the operator, trustee or depositary of, any recognised scheme so far as relating to activities carried on in the United Kingdom, or

(c) the affairs of, or of the operator, trustee or depositary of, any other collective investment scheme except a body incorporated by virtue of regulations under section 262,

if it appears to the investigating authority that it is in the interests of the participants or potential participants to do so or that the matter is of public concern.

(2) A person appointed under subsection (1) to investigate the affairs of, or of the manager, trustee, operator or depositary of, any scheme (scheme "A"), may also, if he thinks it necessary for the purposes of that investigation, investigate—

(a) the affairs of, or of the manager, trustee, operator or depositary of, any other such scheme as is mentioned in subsection (1) whose manager, trustee, operator or depositary is the same person as the manager, trustee, operator or depositary of scheme A;

(b) the affairs of such other schemes and persons (including bodies incorporated by virtue of regulations under section 262 and the directors and depositaries of such bodies) as may be prescribed.

(3) If the person appointed to conduct an investigation under this section ("B") considers that a person ("C") is or may be able to give information which is relevant to the investigation, B may require C—

(a) to produce to B any documents in C's possession or under his control which appear to B to be relevant to the investigation,

(b) to attend before B, and

(c) otherwise to give B all assistance in connection with the investigation which C is reasonably able to give,

and it is C's duty to comply with that requirement.

(4) Subsections (5) to (9) of section 170 apply if an investigating authority appoints a person under this section to conduct an investigation on its behalf as they apply in the case mentioned in subsection (1) of that section.

(5) Section 174 applies to a statement made by a person in compliance with a requirement imposed under this section as it applies to a statement mentioned in that section.

(6) Subsections (2) to (4) and (6) of section 175 and section 177 have effect as if this section were contained in Part XI.

(7) Subsections (1) to (9) of section 176 apply in relation to a person appointed under subsection (1) as if—

(a) references to an investigator were references to a person so appointed;

(b) references to an information requirement were references to a requirement imposed under section 175 or under subsection (3) by a person so appointed;

(c) the premises mentioned in subsection (3)(a) were the premises of a person whose affairs are the subject of an investigation under this section or of an appointed representative of such a person.

(8) No person may be required under this section to disclose information or produce a document in respect of which he owes an obligation of confidence by virtue of carrying on the business of banking unless subsection (9) or (10) applies.

(9) This subsection applies if—

(a) the person to whom the obligation of confidence is owed consents to the disclosure or production; or

(b) the imposing on the person concerned of a requirement with respect to information or a document of a kind mentioned in subsection (8) has been specifically authorised by the investigating authority.

(10) This subsection applies if the person owing the obligation of confidence or the person to whom it is owed is—

(a) the manager, trustee, operator or depositary of any collective investment scheme which is under investigation;

(b) the director of a body incorporated by virtue of regulations under section 262 which is under investigation;

(c) any other person whose own affairs are under investigation.

(11) "Investigating authority" means the Authority or the Secretary of State.

PART XVIII

RECOGNISED INVESTMENT EXCHANGES AND CLEARING HOUSES

CHAPTER I

EXEMPTION

General

Exemption for recognised investment exchanges and clearing houses.

285.—(1) In this Act—

(a) "recognised investment exchange" means an investment exchange in relation to which a recognition order is in force; and

(b) "recognised clearing house" means a clearing house in relation to which a recognition order is in force.

(2) A recognised investment exchange is exempt from the general prohibition as respects any regulated activity—

(a) which is carried on as a part of the exchange's business as an investment exchange; or

(b) which is carried on for the purposes of, or in connection with, the provision of clearing services by the exchange.

(3) A recognised clearing house is exempt from the general prohibition as respects any regulated activity which is carried on for the purposes of, or in connection with, the provision of clearing services by the clearing house.

Qualification for recognition.

286.—(1) The Treasury may make regulations setting out the requirements—

(a) which must be satisfied by an investment exchange or clearing house if it is to qualify as a body in respect of which the Authority may make a recognition order under this Part; and

(b) which, if a recognition order is made, it must continue to satisfy if it is to remain a recognised body.

(2) But if regulations contain provision as to the default rules of an investment exchange or clearing house, or as to proceedings taken under such rules by such a body, they require the approval of the Secretary of State.

(3) "Default rules" means rules of an investment exchange or clearing house which provide for the taking of action in the event of a person's appearing to be unable, or likely to become unable, to meet his obligations in respect of one or more market contracts connected with the exchange or clearing house.

(4) "Market contract" means—

1989 c. 40.

S.I. 1990/1504 (N.I. 10).

(a) a contract to which Part VII of the Companies Act 1989 applies as a result of section 155 of that Act or a contract to which Part V of the Companies (No. 2)(Northern Ireland) Order 1990 applies as a result of Article 80 of that Order; and

(b) such other kind of contract as may be prescribed.

(5) Requirements resulting from this section are referred to in this Part as "recognition requirements".

Applications for recognition

Application by an investment exchange.

287.—(1) Any body corporate or unincorporated association may apply to the Authority for an order declaring it to be a recognised investment exchange for the purposes of this Act.

(2) The application must be made in such manner as the Authority may direct and must be accompanied by—

(a) a copy of the applicant's rules;

(b) a copy of any guidance issued by the applicant;

(c) the required particulars; and

(d) such other information as the Authority may reasonably require for the purpose of determining the application.

(3) The required particulars are—

(a) particulars of any arrangements which the applicant has made, or proposes to make, for the provision of clearing services in respect of transactions effected on the exchange;

(b) if the applicant proposes to provide clearing services in respect of transactions other than those effected on the exchange, particulars of the criteria which the applicant will apply when determining to whom it will provide those services.

Application by a clearing house.

288.—(1) Any body corporate or unincorporated association may apply to the Authority for an order declaring it to be a recognised clearing house for the purposes of this Act.

(2) The application must be made in such manner as the Authority may direct and must be accompanied by—

(a) a copy of the applicant's rules;

(b) a copy of any guidance issued by the applicant;

(c) the required particulars; and

(d) such other information as the Authority may reasonably require for the purpose of determining the application.

(3) The required particulars are—

(a) if the applicant makes, or proposes to make, clearing arrangements with a recognised investment exchange, particulars of those arrangements;

(b) if the applicant proposes to provide clearing services for persons other than recognised investment exchanges, particulars of the criteria which it will apply when determining to whom it will provide those services.

Applications: supplementary.

289.—(1) At any time after receiving an application and before determining it, the Authority may require the applicant to provide such further information as it reasonably considers necessary to enable it to determine the application.

(2) Information which the Authority requires in connection with an application must be provided in such form, or verified in such manner, as the Authority may direct.

(3) Different directions may be given, or requirements imposed, by the Authority with respect to different applications.

Recognition orders.

290.—(1) If it appears to the Authority that the applicant satisfies the recognition requirements applicable in its case, the Authority may make a recognition order declaring the applicant to be—

(a) a recognised investment exchange, if the application is made under section 287;

(b) a recognised clearing house, if it is made under section 288.

(2) The Treasury's approval of the making of a recognition order is required under section 307.

(3) In considering an application, the Authority may have regard to any information which it considers is relevant to the application.

(4) A recognition order must specify a date on which it is to take effect.

(5) Section 298 has effect in relation to a decision to refuse to make a recognition order—

(a) as it has effect in relation to a decision to revoke such an order; and

(b) as if references to a recognised body were references to the applicant.

(6) Subsection (5) does not apply in a case in which the Treasury have failed to give their approval under section 307.

Liability in relation to recognised body's regulatory functions.

291.—(1) A recognised body and its officers and staff are not to be liable in damages for anything done or omitted in the discharge of the recognised body's regulatory functions unless it is shown that the act or omission was in bad faith.

(2) But subsection (1) does not prevent an award of damages made in respect of an act or omission on the ground that the act or omission was unlawful as a result of section 6(1) of the Human Rights Act 1998.

1998 c. 42.

(3) "Regulatory functions" means the functions of the recognised body so far as relating to, or to matters arising out of, the obligations to which the body is subject under or by virtue of this Act.

Overseas investment exchanges and overseas clearing houses.

292.—(1) An application under section 287 or 288 by an overseas applicant must contain the address of a place in the United Kingdom for the service on the applicant of notices or other documents required or authorised to be served on it under this Act.

(2) If it appears to the Authority that an overseas applicant satisfies the requirements of subsection (3) it may make a recognition order declaring the applicant to be—

(a) a recognised investment exchange;

(b) a recognised clearing house.

(3) The requirements are that—

(a) investors are afforded protection equivalent to that which they would be afforded if the body concerned were required to comply with recognition requirements;

(b) there are adequate procedures for dealing with a person who is unable, or likely to become unable, to meet his obligations in respect of one or more market contracts connected with the investment exchange or clearing house;

(c) the applicant is able and willing to co-operate with the Authority by the sharing of information and in other ways;

(d) adequate arrangements exist for co-operation between the Authority and those responsible for the supervision of the applicant in the country or territory in which the applicant's head office is situated.

(4) In considering whether it is satisfied as to the requirements mentioned in subsection (3)(a) and (b), the Authority is to have regard to—

(a) the relevant law and practice of the country or territory in which the applicant's head office is situated;

(b) the rules and practices of the applicant.

(5) In relation to an overseas applicant and a body or association declared to be a recognised investment exchange or recognised clearing house by a recognition order made by virtue of subsection (2)—

(a) the reference in section 313(2) to recognition requirements is to be read as a reference to matters corresponding to the matters in respect of which provision is made in the recognition requirements;

(b) sections 296(1) and 297(2) have effect as if the requirements mentioned in section 296(1)(a) and section 297(2)(a) were those of subsection (3)(a), (b), and (c) of this section;

(c) section 297(2) has effect as if the grounds on which a recognition order may be revoked under that provision included the ground that in the opinion of the Authority arrangements of the kind mentioned in subsection (3)(d) no longer exist.

Supervision

Notification requirements.

293.—(1) The Authority may make rules requiring a recognised body to give it—

(a) notice of such events relating to the body as may be specified; and

(b) such information in respect of those events as may be specified.

(2) The rules may also require a recognised body to give the Authority, at such times or in respect of such periods as may be specified, such information relating to the body as may be specified.

(3) An obligation imposed by the rules extends only to a notice or information which the Authority may reasonably require for the exercise of its functions under this Act.

(4) The rules may require information to be given in a specified form and to be verified in a specified manner.

(5) If a recognised body—

(a) alters or revokes any of its rules or guidance, or

(b) makes new rules or issues new guidance,

it must give written notice to the Authority without delay.

(6) If a recognised investment exchange makes a change—

(a) in the arrangements it makes for the provision of clearing services in respect of transactions effected on the exchange, or

(b) in the criteria which it applies when determining to whom it will provide clearing services,

it must give written notice to the Authority without delay.

(7) If a recognised clearing house makes a change—

(a) in the recognised investment exchanges for whom it provides clearing services, or

(b) in the criteria which it applies when determining to whom (other than recognised investment exchanges) it will provide clearing services,

it must give written notice to the Authority without delay.

(8) Subsections (5) to (7) do not apply to an overseas investment exchange or an overseas clearing house.

(9) "Specified" means specified in the Authority's rules.

Modification or waiver of rules.

294.—(1) The Authority may, on the application or with the consent of a recognised body, direct that rules made under section 293 or 295—

(a) are not to apply to the body; or

(b) are to apply to the body with such modifications as may be specified in the direction.

(2) An application must be made in such manner as the Authority may direct.

(3) Subsections (4) to (6) apply to a direction given under subsection (1).

(4) The Authority may not give a direction unless it is satisfied that—

(a) compliance by the recognised body with the rules, or with the rules as unmodified, would be unduly burdensome or would not achieve the purpose for which the rules were made; and

(b) the direction would not result in undue risk to persons whose interests the rules are intended to protect.

(5) A direction may be given subject to conditions.

(6) The Authority may—

(a) revoke a direction; or

(b) vary it on the application, or with the consent, of the recognised body to which it relates.

Notification: overseas investment exchanges and overseas clearing houses.

295.—(1) At least once a year, every overseas investment exchange and overseas clearing house must provide the Authority with a report.

(2) The report must contain a statement as to whether any events have occurred which are likely—

(a) to affect the Authority's assessment of whether it is satisfied as to the requirements set out in section 292(3); or

(b) to have any effect on competition.

(3) The report must also contain such information as may be specified in rules made by the Authority.

(4) The investment exchange or clearing house must provide the Treasury and the Director with a copy of the report.

Authority's power to give directions.

296.—(1) This section applies if it appears to the Authority that a recognised body—

(a) has failed, or is likely to fail, to satisfy the recognition requirements; or

(b) has failed to comply with any other obligation imposed on it by or under this Act.

(2) The Authority may direct the body to take specified steps for the purpose of securing the body's compliance with—

(a) the recognition requirements; or

(b) any obligation of the kind in question.

(3) A direction under this section is enforceable, on the application of the Authority, by an injunction or, in Scotland, by an order for specific performance under section 45 of the Court of Session Act 1988.

1988 c. 36.

(4) The fact that a rule made by a recognised body has been altered in response to a direction given by the Authority does not prevent it from being subsequently altered or revoked by the recognised body.

Revoking recognition.

297.—(1) A recognition order may be revoked by an order made by the Authority at the request, or with the consent, of the recognised body concerned.

(2) If it appears to the Authority that a recognised body—

(a) is failing, or has failed, to satisfy the recognition requirements, or

(b) is failing, or has failed, to comply with any other obligation imposed on it by or under this Act,

it may make an order revoking the recognition order for that body even though the body does not wish the order to be made.

(3) An order under this section ("a revocation order") must specify the date on which it is to take effect.

(4) In the case of a revocation order made under subsection (2), the specified date must not be earlier than the end of the period of three months beginning with the day on which the order is made.

(5) A revocation order may contain such transitional provisions as the Authority thinks necessary or expedient.

Directions and revocation: procedure.

298.—(1) Before giving a direction under section 296, or making a revocation order under section 297(2), the Authority must—

(a) give written notice of its intention to do so to the recognised body concerned;

(b) take such steps as it considers reasonably practicable to bring the notice to the attention of members (if any) of that body; and

(c) publish the notice in such manner as it thinks appropriate for bringing it to the attention of other persons who are, in its opinion, likely to be affected.

(2) A notice under subsection (1) must—

(a) state why the Authority intends to give the direction or make the order; and

(b) draw attention to the right to make representations conferred by subsection (3).

(3) Before the end of the period for making representations—

(a) the recognised body,

(b) any member of that body, and

(c) any other person who is likely to be affected by the proposed direction or revocation order,

may make representations to the Authority.

(4) The period for making representations is—

(a) two months beginning—

(i) with the date on which the notice is served on the recognised body; or

(ii) if later, with the date on which the notice is published; or

(b) such longer period as the Authority may allow in the particular case.

(5) In deciding whether to—

(a) give a direction, or

(b) make a revocation order,

the Authority must have regard to any representations made in accordance with subsection (3).

(6) When the Authority has decided whether to give a direction under section 296 or to make the proposed revocation order, it must—

(a) give the recognised body written notice of its decision; and

(b) if it has decided to give a direction or make an order, take such steps as it considers reasonably practicable for bringing its decision to the attention of members of the body or of other persons who are, in the Authority's opinion, likely to be affected.

(7) If the Authority considers it essential to do so, it may give a direction under section 296—

(a) without following the procedure set out in this section; or

(b) if the Authority has begun to follow that procedure, regardless of whether the period for making representations has expired.

(8) If the Authority has, in relation to a particular matter, followed the procedure set out in subsections (1) to (5), it need not follow it again if, in relation to that matter, it decides to take action other than that specified in its notice under subsection (1).

Complaints about recognised bodies.

299.—(1) The Authority must make arrangements for the investigation of any relevant complaint about a recognised body.

(2) "Relevant complaint" means a complaint which the Authority considers is relevant to the question of whether the body concerned should remain a recognised body.

Extension of functions of Tribunal.

300.—(1) If the Treasury are satisfied that the condition mentioned in subsection (2) is satisfied, they may by order confer functions on the Tribunal with respect to disciplinary proceedings—

(a) of one or more investment exchanges in relation to which a recognition order under section 290 is in force or of such investment exchanges generally, or

(b) of one or more clearing houses in relation to which a recognition order under that section is in force or of such clearing houses generally.

(2) The condition is that it is desirable to exercise the power conferred under subsection (1) with a view to ensuring that—

(a) decisions taken in disciplinary proceedings with respect to which functions are to be conferred on the Tribunal are consistent with—

(i) decisions of the Tribunal in cases arising under Part VIII; and

(ii) decisions taken in other disciplinary proceedings with respect to which the Tribunal has functions as a result of an order under this section; or

(b) the disciplinary proceedings are in accordance with the Convention rights.

(3) An order under this section may modify or exclude any provision made by or under this Act with respect to proceedings before the Tribunal.

(4) "Disciplinary proceedings" means proceedings under the rules of an investment exchange or clearing house in relation to market abuse by persons subject to the rules.

(5) "The Convention rights" has the meaning given in section 1 of the Human Rights Act 1998. 1998 c. 42.

Other matters

Supervision of certain contracts.

301.—(1) The Secretary of State and the Treasury, acting jointly, may by regulations provide for—

(a) Part VII of the Companies Act 1989 (financial markets and insolvency), and 1989 c. 40.

(b) Part V of the Companies (No. 2)(Northern Ireland) Order 1990, S.I. 1990/1504 (N.I. 10).

to apply to relevant contracts as it applies to contracts connected with a recognised body.

(2) "Relevant contracts" means contracts of a prescribed description in relation to which settlement arrangements are provided by a person for the time being included in a list ("the list") maintained by the Authority for the purposes of this section.

(3) Regulations may be made under this section only if the Secretary of State and the Treasury are satisfied, having regard to the extent to which the relevant contracts concerned are contracts of a kind dealt in by persons supervised by the Authority, that it is appropriate for the arrangements mentioned in subsection (2) to be supervised by the Authority.

(4) The approval of the Treasury is required for—

(a) the conditions set by the Authority for admission to the list; and

(b) the arrangements for admission to, and removal from, the list.

(5) If the Treasury withdraw an approval given by them under subsection (4), all regulations made under this section and then in force are to be treated as suspended.

(6) But if—

(a) the Authority changes the conditions or arrangements (or both), and

(b) the Treasury give a fresh approval under subsection (4),

the suspension of the regulations ends on such date as the Treasury may, in giving the fresh approval, specify.

(7) The Authority must—

(a) publish the list as for the time being in force; and

(b) provide a certified copy of it to any person who wishes to refer to it in legal proceedings.

(8) A certified copy of the list is evidence (or in Scotland sufficient evidence) of the contents of the list.

(9) A copy of the list which purports to be certified by or on behalf of the Authority is to be taken to have been duly certified unless the contrary is shown.

(10) Regulations under this section may, in relation to a person included in the list—

(a) apply (with such exceptions, additions and modifications as appear to the Secretary of State and the Treasury to be necessary or expedient) such provisions of, or made under, this Act as they consider appropriate;

1989 c. 40. S.I. 1990/1504 (N.I. 10).

(b) provide for the provisions of Part VII of the Companies Act 1989 and Part V of the Companies (No. 2)(Northern Ireland) Order 1990 to apply (with such exceptions, additions or modifications as appear to the Secretary of State and the Treasury to be necessary or expedient).

CHAPTER II

COMPETITION SCRUTINY

Interpretation.

302.—(1) In this Chapter and Chapter III—

"practices" means—

(a) in relation to a recognised investment exchange, the practices of the exchange in its capacity as such; and

(b) in relation to a recognised clearing house, the practices of the clearing house in respect of its clearing arrangements;

"regulatory provisions" means—

(a) the rules of an investment exchange or a clearing house;

(b) any guidance issued by an investment exchange or clearing house;

(c) in the case of an investment exchange, the arrangements and criteria mentioned in section 287(3);

(d) in the case of a clearing house, the arrangements and criteria mentioned in section 288(3).

(2) For the purposes of this Chapter, regulatory provisions or practices have a significantly adverse effect on competition if—

(a) they have, or are intended or likely to have, that effect; or

(b) the effect that they have, or are intended or likely to have, is to require or encourage behaviour which has, or is intended or likely to have, a significantly adverse effect on competition.

(3) If regulatory provisions or practices have, or are intended or likely to have, the effect of requiring or encouraging exploitation of the strength of a market position they are to be taken, for the purposes of this Chapter, to have an adverse effect on competition.

(4) In determining under this Chapter whether any regulatory provisions have, or are intended or likely to have, a particular effect, it may be assumed that persons to whom the provisions concerned are addressed will act in accordance with them.

Role of Director General of Fair Trading

Initial report by Director.

303.—(1) The Authority must send to the Treasury and to the Director a copy of any regulatory provisions with which it is provided on an application for recognition under section 287 or 288.

(2) The Authority must send to the Director such information in its possession as a result of the application for recognition as it considers will assist him in discharging his functions in connection with the application.

(3) The Director must issue a report as to whether—

(a) a regulatory provision of which a copy has been sent to him under subsection (1) has a significantly adverse effect on competition; or

(b) a combination of regulatory provisions so copied to him have such an effect.

(4) If the Director's conclusion is that one or more provisions have a significantly adverse effect on competition, he must state his reasons for that conclusion.

(5) When the Director issues a report under subsection (3), he must send a copy of it to the Authority, the Competition Commission and the Treasury.

Further reports by Director.

304.—(1) The Director must keep under review the regulatory provisions and practices of recognised bodies.

(2) If at any time the Director considers that—

(a) a regulatory provision or practice has a significantly adverse effect on competition, or

(b) regulatory provisions or practices, or a combination of regulating provisions and practices have such an effect,

he must make a report.

(3) If at any time the Director considers that—

(a) a regulatory provision or practice does not have a significantly adverse effect on competition, or

(b) regulatory provisions or practices, or a combination of regulatory provisions and practices do not have any such effect,

he may make a report to that effect.

(4) A report under subsection (2) must contain details of the adverse effect on competition.

(5) If the Director makes a report under subsection (2), he must—

(a) send a copy of it to the Treasury, to the Competition Commission and to the Authority; and

(b) publish it in the way appearing to him to be best calculated to bring it to the attention of the public.

(6) If the Director makes a report under subsection (3)—

(a) he must send a copy of it to the Treasury, to the Competition Commission and to the Authority; and

(b) he may publish it.

(7) Before publishing a report under this section, the Director must, so far as practicable, exclude any matter which relates to the private affairs of a particular individual the publication of which, in the opinion of the Director, would or might seriously and prejudicially affect his interests.

(8) Before publishing such a report, the Director must exclude any matter which relates to the affairs of a particular body the publication of which, in the opinion of the Director, would or might seriously and prejudicially affect its interests.

(9) Subsections (7) and (8) do not apply to the copy of a report which the Director is required to send to the Treasury, the Competition Commission and the Authority under subsection (5)(a) or (6)(a).

(10) For the purposes of the law of defamation, absolute privilege attaches to any report of the Director under this section.

Investigations by Director.

305.—(1) For the purpose of investigating any matter with a view to its consideration under section 303 or 304, the Director may exercise the powers conferred on him by this section.

(2) The Director may by notice in writing require any person to produce to him or to a person appointed by him for the purpose, at a time and place specified in the notice, any document which—

(a) is specified or described in the notice; and

(b) is a document in that person's custody or under his control.

(3) The Director may by notice in writing—

(a) require any person carrying on any business to provide him with such information as may be specified or described in the notice; and

(b) specify the time within which, and the manner and form in which, any such information is to be provided.

(4) A requirement may be imposed under subsection (2) or (3)(a) only in respect of documents or information which relate to any matter relevant to the investigation.

(5) If a person ("the defaulter") refuses, or otherwise fails, to comply with a notice under this section, the Director may certify that fact in writing to the court and the court may enquire into the case.

(6) If, after hearing any witness who may be produced against or on behalf of the defaulter and any statement which may be offered in defence, the court is satisfied that the defaulter did not have a reasonable excuse for refusing or otherwise failing to comply with the notice, the court may deal with the defaulter as if he were in contempt.

(7) In this section, "the court" means—

(a) the High Court; or

(b) in Scotland, the Court of Session.

Role of Competition Commission

Consideration by Competition Commission.

306.—(1) If subsection (2) or (3) applies, the Commission must investigate the matter which is the subject of the Director's report.

(2) This subsection applies if the Director sends to the Competition Commission a report—

(a) issued by him under section 303(3) which concludes that one or more regulatory provisions have a significantly adverse effect on competition, or

(b) made by him under section 304(2).

(3) This subsection applies if the Director asks the Commission to consider a report—

(a) issued by him under section 303(3) which concludes that one or more regulatory provisions do not have a significantly adverse effect on competition, or

(b) made by him under section 304(3).

(4) The Commission must then make its own report on the matter unless it considers that, as a result of a change of circumstances, no useful purpose would be served by a report.

(5) If the Commission decides in accordance with subsection (4) not to make a report, it must make a statement setting out the change of circumstances which resulted in that decision.

(6) A report made under this section must state the Commission's conclusion as to whether—

(a) the regulatory provision or practice which is the subject of the report has a significantly adverse effect on competition, or

(b) the regulatory provisions or practices or combination of regulatory provisions and practices which are the subject of the report have such an effect.

(7) A report under this section stating the Commission's conclusion that there is a significantly adverse effect on competition must also—

(a) state whether the Commission considers that that effect is justified; and

(b) if it states that the Commission considers that it is not justified, state its conclusion as to what action, if any, the Treasury ought to direct the Authority to take.

(8) Subsection (9) applies whenever the Commission is considering, for the purposes of this section, whether a particular adverse effect on competition is justified.

(9) The Commission must ensure, so far as that is reasonably possible, that the conclusion it reaches is compatible with the obligations imposed on the recognised body concerned by or under this Act.

(10) A report under this section must contain such an account of the Commission's reasons for its conclusions as is expedient, in the opinion of the Commission, for facilitating proper understanding of them.

(11) The provisions of Schedule 14 (except paragraph 2(b)) apply for the purposes of this section as they apply for the purposes of section 162.

(12) If the Commission makes a report under this section it must send a copy to the Treasury, the Authority and the Director.

Role of the Treasury

Recognition orders: role of the Treasury.

307.—(1) Subsection (2) applies if, on an application for a recognition order—

(a) the Director makes a report under section 303 but does not ask the Competition Commission to consider it under section 306;

(b) the Competition Commission concludes—

(i) that the applicant's regulatory provisions do not have a significantly adverse effect on competition; or

(ii) that if those provisions do have that effect, the effect is justified.

(2) The Treasury may refuse to approve the making of the recognition order only if they consider that the exceptional circumstances of the case make it inappropriate for them to give their approval.

(3) Subsection (4) applies if, on an application for a recognition order, the Competition Commission concludes—

(a) that the applicant's regulatory provisions have a significantly adverse effect on competition; and

(b) that that effect is not justified.

(4) The Treasury must refuse to approve the making of the recognition order unless they consider that the exceptional circumstances of the case make it inappropriate for them to refuse their approval.

Directions by the Treasury.

308.—(1) This section applies if the Competition Commission makes a report under section 306(4) (other than a report on an application for a recognition order) which states the Commission's conclusion that there is a significantly adverse effect on competition.

(2) If the Commission's conclusion, as stated in the report, is that the adverse effect on competition is not justified, the Treasury must give a remedial direction to the Authority.

(3) But subsection (2) does not apply if the Treasury consider—

(a) that, as a result of action taken by the Authority or the recognised body concerned in response to the Commission's report, it is unnecessary for them to give a direction; or

(b) that the exceptional circumstances of the case make it inappropriate or unnecessary for them to do so.

(4) In considering the action to be specified in a remedial direction, the Treasury must have regard to any conclusion of the Commission included in the report because of section 306(7)(b).

(5) Subsection (6) applies if—

(a) the Commission's conclusion, as stated in its report, is that the adverse effect on competition is justified; but

(b) the Treasury consider that the exceptional circumstances of the case require them to act.

(6) The Treasury may give a direction to the Authority requiring it to take such action—

(a) as they consider to be necessary in the light of the exceptional circumstances of the case; and

(b) as may be specified in the direction.

(7) If the action specified in a remedial direction is the giving by the Authority of a direction—

(a) the direction to be given must be compatible with the recognition requirements applicable to the recognised body in relation to which it is given; and

(b) subsections (3) and (4) of section 296 apply to it as if it were a direction given under that section.

(8) "Remedial direction" means a direction requiring the Authority—

(a) to revoke the recognition order for the body concerned; or

(b) to give such directions to the body concerned as may be specified in it.

Statements by the Treasury.

309.—(1) If, in reliance on subsection (3)(a) or (b) of section 308, the Treasury decline to act under subsection (2) of that section, they must make a statement to that effect, giving their reasons.

(2) If the Treasury give a direction under section 308 they must make a statement giving—

(a) details of the direction; and

(b) if the direction is given under subsection (6) of that section, their reasons for giving it.

(3) The Treasury must—

(a) publish any statement made under this section in the way appearing to them best calculated to bring it to the attention of the public; and

(b) lay a copy of it before Parliament.

Procedure on exercise of certain powers by the Treasury.

310.—(1) Subsection (2) applies if the Treasury are considering—

(a) whether to refuse their approval under section 307;

(b) whether section 308(2) applies; or

(c) whether to give a direction under section 308(6).

(2) The Treasury must—

(a) take such steps as they consider appropriate to allow the exchange or clearing house concerned, and any other person appearing to the Treasury to be affected, an opportunity to make representations—

(i) about any report made by the Director under section 303 or 304 or by the Competition Commission under section 306;

(ii) as to whether, and if so how, the Treasury should exercise their powers under section 307 or 308; and

(b) have regard to any such representations.

CHAPTER III

EXCLUSION FROM THE COMPETITION ACT 1998

The Chapter I prohibition.

311.—(1) The Chapter I prohibition does not apply to an agreement for the constitution of a recognised body to the extent to which the agreement relates to the regulatory provisions of that body.

(2) If the conditions set out in subsection (3) are satisfied, the Chapter I prohibition does not apply to an agreement for the constitution of—

(a) an investment exchange which is not a recognised investment exchange, or

(b) a clearing house which is not a recognised clearing house,

to the extent to which the agreement relates to the regulatory provisions of that body.

(3) The conditions are that—

(a) the body has applied for a recognition order in accordance with the provisions of this Act; and

(b) the application has not been determined.

(4) The Chapter I prohibition does not apply to a recognised body's regulatory provisions.

(5) The Chapter I prohibition does not apply to a decision made by a recognised body to the extent to which the decision relates to any of that body's regulatory provisions or practices.

(6) The Chapter I prohibition does not apply to practices of a recognised body.

(7) The Chapter I prohibition does not apply to an agreement the parties to which consist of or include—

(a) a recognised body, or

(b) a person who is subject to the rules of a recognised body,

to the extent to which the agreement consists of provisions the inclusion of which is required or encouraged by any of the body's regulatory provisions or practices.

(8) If a recognised body's recognition order is revoked, this section is to have effect as if that body had continued to be recognised until the end of the period of six months beginning with the day on which the revocation took effect.

(9) "The Chapter I prohibition" means the prohibition imposed by section 2(1) of the Competition Act 1998.

1998 c. 41.

(10) Expressions used in this section which are also used in Part I of the Competition Act 1998 are to be interpreted in the same way as for the purposes of that Part of that Act.

The Chapter II prohibition.

312.—(1) The Chapter II prohibition does not apply to—

(a) practices of a recognised body;

(b) the adoption or enforcement of such a body's regulatory provisions;

(c) any conduct which is engaged in by such a body or by a person who is subject to the rules of such a body to the extent to which it is encouraged or required by the regulatory provisions of the body.

(2) The Chapter II prohibition means the prohibition imposed by section 18(1) of the Competition Act 1998. 1998 c. 41.

CHAPTER IV

Interpretation

Interpretation of Part XVIII.

313.—(1) In this Part—

"application" means an application for a recognition order made under section 287 or 288;

"applicant" means a body corporate or unincorporated association which has applied for a recognition order;

"Director" means the Director General of Fair Trading;

"overseas applicant" means a body corporate or association which has neither its head office nor its registered office in the United Kingdom and which has applied for a recognition order;

"overseas investment exchange" means a body corporate or association which has neither its head office nor its registered office in the United Kingdom and in relation to which a recognition order is in force;

"overseas clearing house" means a body corporate or association which has neither its head office nor its registered office in the United Kingdom and in relation to which a recognition order is in force;

"recognised body" means a recognised investment exchange or a recognised clearing house;

"recognised clearing house" has the meaning given in section 285;

"recognised investment exchange" has the meaning given in section 285;

"recognition order" means an order made under section 290 or 292;

"recognition requirements" has the meaning given by section 286;

"remedial direction" has the meaning given in section 308(8);

"revocation order" has the meaning given in section 297.

(2) References in this Part to rules of an investment exchange (or a clearing house) are to rules made, or conditions imposed, by the investment exchange (or the clearing house) with respect to—

(a) recognition requirements;

(b) admission of persons to, or their exclusion from the use of, its facilities; or

(c) matters relating to its constitution.

(3) References in this Part to guidance issued by an investment exchange are references to guidance issued, or any recommendation made, in writing or other legible form and intended to have continuing effect, by the investment exchange to—

(a) all or any class of its members or users, or

(b) persons seeking to become members of the investment exchange or to use its facilities,

with respect to any of the matters mentioned in subsection (2)(a) to (c).

(4) References in this Part to guidance issued by a clearing house are to guidance issued, or any recommendation made, in writing or other legible form and intended to have continuing effect, by the clearing house to—

(a) all or any class of its members, or

(b) persons using or seeking to use its services,

with respect to the provision by it or its members of clearing services.

PART XIX

LLOYD'S

General

Authority's general duty.

314.—(1) The Authority must keep itself informed about—

(a) the way in which the Council supervises and regulates the market at Lloyd's; and

(b) the way in which regulated activities are being carried on in that market.

(2) The Authority must keep under review the desirability of exercising—

(a) any of its powers under this Part;

(b) any powers which it has in relation to the Society as a result of section 315.

The Society

The Society: authorisation and permission.

315.—(1) The Society is an authorised person.

(2) The Society has permission to carry on a regulated activity of any of the following kinds—

(a) arranging deals in contracts of insurance written at Lloyd's ("the basic market activity");

(b) arranging deals in participation in Lloyd's syndicates ("the secondary market activity"); and

(c) an activity carried on in connection with, or for the purposes of, the basic or secondary market activity.

(3) For the purposes of Part IV, the Society's permission is to be treated as if it had been given on an application for permission under that Part.

(4) The power conferred on the Authority by section 45 may be exercised in anticipation of the coming into force of the Society's permission (or at any other time).

(5) The Society is not subject to any requirement of this Act concerning the registered office of a body corporate.

Power to apply Act to Lloyd's underwriting

Direction by Authority.

316.—(1) The general prohibition or (if the general prohibition is not applied under this section) a core provision applies to the carrying on of an insurance market activity by—

(a) a member of the Society, or

(b) the members of the Society taken together,

only if the Authority so directs.

(2) A direction given under subsection (1) which applies a core provision is referred to in this Part as "an insurance market direction".

(3) In subsection (1)—

"core provision" means a provision of this Act mentioned in section 317; and

"insurance market activity" means a regulated activity relating to contracts of insurance written at Lloyd's.

(4) In deciding whether to give a direction under subsection (1), the Authority must have particular regard to—

(a) the interests of policyholders and potential policyholders;

(b) any failure by the Society to satisfy an obligation to which it is subject as a result of a provision of the law of another EEA State which—

(i) gives effect to any of the insurance directives; and

(ii) is applicable to an activity carried on in that State by a person to whom this section applies;

(c) the need to ensure the effective exercise of the functions which the Authority has in relation to the Society as a result of section 315.

(5) A direction under subsection (1) must be in writing.

(6) A direction under subsection (1) applying the general prohibition may apply it in relation to different classes of person.

(7) An insurance market direction—

(a) must specify each core provision, class of person and kind of activity to which it applies;

(b) may apply different provisions in relation to different classes of person and different kinds of activity.

(8) A direction under subsection (1) has effect from the date specified in it, which may not be earlier than the date on which it is made.

(9) A direction under subsection (1) must be published in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(10) The Authority may charge a reasonable fee for providing a person with a copy of the direction.

(11) The Authority must, without delay, give the Treasury a copy of any direction which it gives under this section.

The core provisions.

317.—(1) The core provisions are Parts V, X, XI, XII, XIV, XV, XVI, XXII and XXIV, sections 384 to 386 and Part XXVI.

(2) References in an applied core provision to an authorised person are (where necessary) to be read as references to a person in the class to which the insurance market direction applies.

(3) An insurance market direction may provide that a core provision is to have effect, in relation to persons to whom the provision is applied by the direction, with modifications.

Exercise of powers through Council.

318—(1) The Authority may give a direction under this subsection to the Council or to the Society (acting through the Council) or to both.

(2) A direction under subsection (1) is one given to the body concerned—

(a) in relation to the exercise of its powers generally with a view to achieving, or in support of, a specified objective; or

(b) in relation to the exercise of a specified power which it has, whether in a specified manner or with a view to achieving, or in support of, a specified objective.

(3) "Specified" means specified in the direction.

(4) A direction under subsection (1) may be given—

(a) instead of giving a direction under section 316(1); or

(b) if the Authority considers it necessary or expedient to do so, at the same time as, or following, the giving of such a direction.

(5) A direction may also be given under subsection (1) in respect of underwriting agents as if they were among the persons mentioned in section 316(1).

(6) A direction under this section—

(a) does not, at any time, prevent the exercise by the Authority of any of its powers;

(b) must be in writing.

(7) A direction under subsection (1) must be published in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(8) The Authority may charge a reasonable fee for providing a person with a copy of the direction.

(9) The Authority must, without delay, give the Treasury a copy of any direction which it gives under this section.

Consultation.

319.—(1) Before giving a direction under section 316 or 318, the Authority must publish a draft of the proposed direction.

(2) The draft must be accompanied by—

(a) a cost benefit analysis; and

(b) notice that representations about the proposed direction may be made to the Authority within a specified time.

(3) Before giving the proposed direction, the Authority must have regard to any representations made to it in accordance with subsection (2)(b).

(4) If the Authority gives the proposed direction it must publish an account, in general terms, of—

(a) the representations made to it in accordance with subsection (2)(b); and

(b) its response to them.

(5) If the direction differs from the draft published under subsection (1) in a way which is, in the opinion of the Authority, significant—

(a) the Authority must (in addition to complying with subsection (4)) publish details of the difference; and

(b) those details must be accompanied by a cost benefit analysis.

(6) Subsections (1) to (5) do not apply if the Authority considers that the delay involved in complying with them would be prejudicial to the interests of consumers.

(7) Neither subsection (2)(a) nor subsection (5)(b) applies if the Authority considers—

(a) that, making the appropriate comparison, there will be no increase in costs; or

(b) that, making that comparison, there will be an increase in costs but the increase will be of minimal significance.

(8) The Authority may charge a reasonable fee for providing a person with a copy of a draft published under subsection (1).

(9) When the Authority is required to publish a document under this section it must do so in the way appearing to it to be best calculated to bring it to the attention of the public.

(10) "Cost benefit analysis" means an estimate of the costs together with an analysis of the benefits that will arise—

(a) if the proposed direction is given; or

(b) if subsection (5)(b) applies, from the direction that has been given.

(11) "The appropriate comparison" means—

(a) in relation to subsection (2)(a), a comparison between the overall position if the direction is given and the overall position if it is not given;

(b) in relation to subsection (5)(b), a comparison between the overall position after the giving of the direction and the overall position before it was given.

Former underwriting members

Former underwriting members.

320.—(1) A former underwriting member may carry out each contract of insurance that he has underwritten at Lloyd's whether or not he is an authorised person.

(2) If he is an authorised person, any Part IV permission that he has does not extend to his activities in carrying out any of those contracts.

(3) The Authority may impose on a former underwriting member such requirements as appear to it to be appropriate for the purpose of protecting policyholders against the risk that he may not be able to meet his liabilities.

(4) A person on whom a requirement is imposed may refer the matter to the Tribunal.

Requirements imposed under section 320.

321.—(1) A requirement imposed under section 320 takes effect—

(a) immediately, if the notice given under subsection (2) states that that is the case;

(b) in any other case, on such date as may be specified in that notice.

(2) If the Authority proposes to impose a requirement on a former underwriting member ("A") under section 320, or imposes such a requirement on him which takes effect immediately, it must give him written notice.

(3) The notice must—

(a) give details of the requirement;

(b) state the Authority's reasons for imposing it;

(c) inform A that he may make representations to the Authority within such period as may be specified in the notice (whether or not he has referred the matter to the Tribunal);

(d) inform him of the date on which the requirement took effect or will take effect; and

(e) inform him of his right to refer the matter to the Tribunal.

(4) The Authority may extend the period allowed under the notice for making representations.

(5) If, having considered any representations made by A, the Authority decides—

(a) to impose the proposed requirement, or

(b) if it has been imposed, not to revoke it,

it must give him written notice.

(6) If the Authority decides—

(a) not to impose a proposed requirement, or

(b) to revoke a requirement that has been imposed,

it must give A written notice.

(7) If the Authority decides to grant an application by A for the variation or revocation of a requirement, it must give him written notice of its decision.

(8) If the Authority proposes to refuse an application by A for the variation or revocation of a requirement it must give him a warning notice.

(9) If the Authority, having considered any representations made in response to the warning notice, decides to refuse the application, it must give A a decision notice.

(10) A notice given under—

(a) subsection (5), or

(b) subsection (9) in the case of a decision to refuse the application,

must inform A of his right to refer the matter to the Tribunal.

(11) If the Authority decides to refuse an application for a variation or revocation of the requirement, the applicant may refer the matter to the Tribunal.

(12) If a notice informs a person of his right to refer a matter to the Tribunal, it must give an indication of the procedure on such a reference.

Rules applicable to former underwriting members.

322.—(1) The Authority may make rules imposing such requirements on persons to whom the rules apply as appear to it to be appropriate for protecting policyholders against the risk that those persons may not be able to meet their liabilities.

(2) The rules may apply to—

(a) former underwriting members generally; or

(b) to a class of former underwriting member specified in them.

(3) Section 319 applies to the making of proposed rules under this section as it applies to the giving of a proposed direction under section 316.

(4) Part X (except sections 152 to 154) does not apply to rules made under this section.

Transfers of business done at Lloyd's

Transfer schemes.

323. The Treasury may by order provide for the application of any provision of Part VII (with or without modification) in relation to schemes for the transfer of the whole or any part of the business carried on by one or more members of the Society or former underwriting members.

Supplemental

Interpretation of this Part.

324.—(1) In this Part—

"arranging deals", in relation to the investments to which this Part applies, has the same meaning as in paragraph 3 of Schedule 2;

"former underwriting member" means a person ceasing to be an underwriting member of the Society on, or at any time after, 24 December 1996; and

"participation in Lloyd's syndicates", in relation to the secondary market activity, means the investment described in sub-paragraph (1) of paragraph 21 of Schedule 2.

(2) A term used in this Part which is defined in Lloyd's Act 1982 has the same meaning as in that Act. 1982 c. xiv.

Part XX

Provision of Financial Services by Members of the Professions

Authority's general duty.

325.—(1) The Authority must keep itself informed about—

(a) the way in which designated professional bodies supervise and regulate the carrying on of exempt regulated activities by members of the professions in relation to which they are established;

(b) the way in which such members are carrying on exempt regulated activities.

(2) In this Part—

"exempt regulated activities" means regulated activities which may, as a result of this Part, be carried on by members of a profession which is supervised and regulated by a designated professional body without breaching the general prohibition; and

"members", in relation to a profession, means persons who are entitled to practise the profession in question and, in practising it, are subject to the rules of the body designated in relation to that profession, whether or not they are members of that body.

(3) The Authority must keep under review the desirability of exercising any of its powers under this Part.

(4) Each designated professional body must co-operate with the Authority, by the sharing of information and in other ways, in order to enable the Authority to perform its functions under this Part.

Designation of professional bodies.

326.—(1) The Treasury may by order designate bodies for the purposes of this Part.

(2) A body designated under subsection (1) is referred to in this Part as a designated professional body.

(3) The Treasury may designate a body under subsection (1) only if they are satisfied that—

(a) the basic condition, and

(b) one or more of the additional conditions,

are met in relation to it.

(4) The basic condition is that the body has rules applicable to the carrying on by members of the profession in relation to which it is established of regulated activities which, if the body were to be designated, would be exempt regulated activities.

(5) The additional conditions are that—

(a) the body has power under any enactment to regulate the practice of the profession;

(b) being a member of the profession is a requirement under any enactment for the exercise of particular functions or the holding of a particular office;

(c) the body has been recognised for the purpose of any enactment other than this Act and the recognition has not been withdrawn;

(d) the body is established in an EEA State other than the United Kingdom and in that State—

(i) the body has power corresponding to that mentioned in paragraph (a);

(ii) there is a requirement in relation to the body corresponding to that mentioned in paragraph (b); or

(iii) the body is recognised in a manner corresponding to that mentioned in paragraph (c).

(6) "Enactment" includes an Act of the Scottish Parliament, Northern Ireland legislation and subordinate legislation (whether made under an Act, an Act of the Scottish Parliament or Northern Ireland legislation).

(7) "Recognised" means recognised by—

(a) a Minister of the Crown;

(b) the Scottish Ministers;

(c) a Northern Ireland Minister;

(d) a Northern Ireland department or its head.

Exemption from the general prohibition.

327.—(1) The general prohibition does not apply to the carrying on of a regulated activity by a person ("P") if—

(a) the conditions set out in subsections (2) to (7) are satisfied; and

(b) there is not in force—

(i) a direction under section 328, or

(ii) an order under section 329,

which prevents this subsection from applying to the carrying on of that activity by him.

(2) P must be—

(a) a member of a profession; or

(b) controlled or managed by one or more such members.

(3) P must not receive from a person other than his client any pecuniary reward or other advantage, for which he does not account to his client, arising out of his carrying on of any of the activities.

(4) The manner of the provision by P of any service in the course of carrying on the activities must be incidental to the provision by him of professional services.

(5) P must not carry on, or hold himself out as carrying on, a regulated activity other than—

(a) one which rules made as a result of section 332(3) allow him to carry on; or

(b) one in relation to which he is an exempt person.

(6) The activities must not be of a description, or relate to an investment of a description, specified in an order made by the Treasury for the purposes of this subsection.

(7) The activities must be the only regulated activities carried on by P (other than regulated activities in relation to which he is an exempt person).

(8) "Professional services" means services—

(a) which do not constitute carrying on a regulated activity, and

(b) the provision of which is supervised and regulated by a designated professional body.

Directions in relation to the general prohibition.

328.—(1) The Authority may direct that section 327(1) is not to apply to the extent specified in the direction.

(2) A direction under subsection (1)—

(a) must be in writing;

(b) may be given in relation to different classes of person or different descriptions of regulated activity.

(3) A direction under subsection (1) must be published in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(4) The Authority may charge a reasonable fee for providing a person with a copy of the direction.

(5) The Authority must, without delay, give the Treasury a copy of any direction which it gives under this section.

(6) The Authority may exercise the power conferred by subsection (1) only if it is satisfied that it is desirable in order to protect the interests of clients.

(7) In considering whether it is so satisfied, the Authority must have regard amongst other things to the effectiveness of any arrangements made by any designated professional body—

(a) for securing compliance with rules made under section 332(1);

(b) for dealing with complaints against its members in relation to the carrying on by them of exempt regulated activities;

(c) in order to offer redress to clients who suffer, or claim to have suffered, loss as a result of misconduct by its members in their carrying on of exempt regulated activities;

(d) for co-operating with the Authority under section 325(4).

(8) In this Part "clients" means—

(a) persons who use, have used or are or may be contemplating using, any of the services provided by a member of a profession in the course of carrying on exempt regulated activities;

(b) persons who have rights or interests which are derived from, or otherwise attributable to, the use of any such services by other persons; or

(c) persons who have rights or interests which may be adversely affected by the use of any such services by persons acting on their behalf or in a fiduciary capacity in relation to them.

(9) If a member of a profession is carrying on an exempt regulated activity in his capacity as a trustee, the persons who are, have been or may be beneficiaries of the trust are to be treated as persons who use, have used or are or may be contemplating using services provided by that person in his carrying on of that activity.

Orders in relation to the general prohibition.

329.—(1) Subsection (2) applies if it appears to the Authority that a person to whom, as a result of section 327(1), the general prohibition does not apply is not a fit and proper person to carry on regulated activities in accordance with that section.

(2) The Authority may make an order disapplying section 327(1) in relation to that person to the extent specified in the order.

(3) The Authority may, on the application of the person named in an order under subsection (1), vary or revoke it.

(4) "Specified" means specified in the order.

(5) If a partnership is named in an order under this section, the order is not affected by any change in its membership.

(6) If a partnership named in an order under this section is dissolved, the order continues to have effect in relation to any partnership which succeeds to the business of the dissolved partnership.

(7) For the purposes of subsection (6), a partnership is to be regarded as succeeding to the business of another partnership only if—

(a) the members of the resulting partnership are substantially the same as those of the former partnership; and

(b) succession is to the whole or substantially the whole of the business of the former partnership.

330.—(1) Before giving a direction under section 328(1), the Authority must publish a draft of the proposed direction. Consultation.

(2) The draft must be accompanied by—

(a) a cost benefit analysis; and

(b) notice that representations about the proposed direction may be made to the Authority within a specified time.

(3) Before giving the proposed direction, the Authority must have regard to any representations made to it in accordance with subsection (2)(b).

(4) If the Authority gives the proposed direction it must publish an account, in general terms, of—

(a) the representations made to it in accordance with subsection (2)(b); and

(b) its response to them.

(5) If the direction differs from the draft published under subsection (1) in a way which is, in the opinion of the Authority, significant—

(a) the Authority must (in addition to complying with subsection (4)) publish details of the difference; and

(b) those details must be accompanied by a cost benefit analysis.

(6) Subsections (1) to (5) do not apply if the Authority considers that the delay involved in complying with them would prejudice the interests of consumers.

(7) Neither subsection (2)(a) nor subsection (5)(b) applies if the Authority considers—

(a) that, making the appropriate comparison, there will be no increase in costs; or

(b) that, making that comparison, there will be an increase in costs but the increase will be of minimal significance.

(8) The Authority may charge a reasonable fee for providing a person with a copy of a draft published under subsection (1).

(9) When the Authority is required to publish a document under this section it must do so in the way appearing to it to be best calculated to bring it to the attention of the public.

(10) "Cost benefit analysis" means an estimate of the costs together with an analysis of the benefits that will arise—

(a) if the proposed direction is given; or

(b) if subsection (5)(b) applies, from the direction that has been given.

(11) "The appropriate comparison" means—

(a) in relation to subsection (2)(a), a comparison between the overall position if the direction is given and the overall position if it is not given;

(b) in relation to subsection (5)(b), a comparison between the overall position after the giving of the direction and the overall position before it was given.

Procedure on making or varying orders under section 329.

331.—(1) If the Authority proposes to make an order under section 329, it must give the person concerned a warning notice.

(2) The warning notice must set out the terms of the proposed order.

(3) If the Authority decides to make an order under section 329, it must give the person concerned a decision notice.

(4) The decision notice must—

(a) name the person to whom the order applies;

(b) set out the terms of the order; and

(c) be given to the person named in the order.

(5) Subsections (6) to (8) apply to an application for the variation or revocation of an order under section 329.

(6) If the Authority decides to grant the application, it must give the applicant written notice of its decision.

(7) If the Authority proposes to refuse the application, it must give the applicant a warning notice.

(8) If the Authority decides to refuse the application, it must give the applicant a decision notice.

(9) A person—

(a) against whom the Authority have decided to make an order under section 329, or

(b) whose application for the variation or revocation of such an order the Authority had decided to refuse,

may refer the matter to the Tribunal.

(10) The Authority may not make an order under section 329 unless—

(a) the period within which the decision to make to the order may be referred to the Tribunal has expired and no such reference has been made; or

(b) if such a reference has been made, the reference has been determined.

Rules in relation to persons to whom the general prohibition does not apply.

332.—(1) The Authority may make rules applicable to persons to whom, as a result of section 327(1), the general prohibition does not apply.

(2) The power conferred by subsection (1) is to be exercised for the purpose of ensuring that clients are aware that such persons are not authorised persons.

(3) A designated professional body must make rules—

(a) applicable to members of the profession in relation to which it is established who are not authorised persons; and

(b) governing the carrying on by those members of regulated activities (other than regulated activities in relation to which they are exempt persons).

(4) Rules made in compliance with subsection (3) must be designed to secure that, in providing a particular professional service to a particular client, the member carries on only regulated activities which arise out of, or are complementary to, the provision by him of that service to that client.

(5) Rules made by a designated professional body under subsection (3) require the approval of the Authority.

False claims to be a person to whom the general prohibition does not apply.

333.—(1) A person who—

(a) describes himself (in whatever terms) as a person to whom the general prohibition does not apply, in relation to a particular regulated activity, as a result of this Part, or

(b) behaves, or otherwise holds himself out, in a manner which indicates (or which is reasonably likely to be understood as indicating) that he is such a person,

is guilty of an offence if he is not such a person.

(2) In proceedings for an offence under this section it is a defence for the accused to show that he took all reasonable precautions and exercised all due diligence to avoid committing the offence.

(3) A person guilty of an offence under this section is liable on summary conviction to imprisonment for a term not exceeding six months or a fine not exceeding level 5 on the standard scale, or both.

(4) But where the conduct constituting the offence involved or included the public display of any material, the maximum fine for the offence is level 5 on the standard scale multiplied by the number of days for which the display continued.

PART XXI

MUTUAL SOCIETIES

Friendly societies

The Friendly Societies Commission.

334.—(1) The Treasury may by order provide—

(a) for any functions of the Friendly Societies Commission to be transferred to the Authority;

(b) for any functions of the Friendly Societies Commission which have not been, or are not being, transferred to the Authority to be transferred to the Treasury.

(2) If the Treasury consider it appropriate to do so, they may by order provide for the Friendly Societies Commission to cease to exist on a day specified in or determined in accordance with the order.

(3) The enactments relating to friendly societies which are mentioned in Part I of Schedule 18 are amended as set out in that Part.

(4) Part II of Schedule 18—

(a) removes certain restrictions on the ability of incorporated friendly societies to form subsidiaries and control corporate bodies; and

(b) makes connected amendments.

The Registry of Friendly Societies.

335.—(1) The Treasury may by order provide—

(a) for any functions of the Chief Registrar of Friendly Societies, or of an assistant registrar of friendly societies for the central registration area, to be transferred to the Authority;

(b) for any of their functions which have not been, or are not being, transferred to the Authority to be transferred to the Treasury.

(2) The Treasury may by order provide—

(a) for any functions of the central office of the registry of friendly societies to be transferred to the Authority;

(b) for any functions of that office which have not been, or are not being, transferred to the Authority to be transferred to the Treasury.

(3) The Treasury may by order provide—

(a) for any functions of the assistant registrar of friendly societies for Scotland to be transferred to the Authority;

(b) for any functions of the assistant registrar which have not been, or are not being, transferred to the Authority to be transferred to the Treasury.

(4) If the Treasury consider it appropriate to do so, they may by order provide for—

(a) the office of Chief Registrar of Friendly Societies,

(b) the office of assistant registrar of friendly societies for the central registration area,

(c) the central office, or

(d) the office of assistant registrar of friendly societies for Scotland,

to cease to exist on a day specified in or determined in accordance with the order.

Building societies

The Building Societies Commission.

336.—(1) The Treasury may by order provide—

(a) for any functions of the Building Societies Commission to be transferred to the Authority;

(b) for any functions of the Building Societies Commission which have not been, or are not being, transferred to the Authority to be transferred to the Treasury.

(2) If the Treasury consider it appropriate to do so, they may by order provide for the Building Societies Commission to cease to exist on a day specified in or determined in accordance with the order.

(3) The enactments relating to building societies which are mentioned in Part III of Schedule 18 are amended as set out in that Part.

The Building Societies Investor Protection Board.

337. The Treasury may by order provide for the Building Societies Investor Protection Board to cease to exist on a day specified in or determined in accordance with the order.

Industrial and provident societies and credit unions

Industrial and provident societies and credit unions.

338.—(1) The Treasury may by order provide for the transfer to the Authority of any functions conferred by—

(a) the Industrial and Provident Societies Act 1965; 1965 c. 12.

(b) the Industrial and Provident Societies Act 1967; 1967 c. 48.

(c) the Friendly and Industrial and Provident Societies Act 1968; 1968 c. 55.

(d) the Industrial and Provident Societies Act 1975; 1975 c. 41.

(e) the Industrial and Provident Societies Act 1978; 1978 c. 34.

(f) the Credit Unions Act 1979. 1979 c. 34.

(2) The Treasury may by order provide for the transfer to the Treasury of any functions under those enactments which have not been, or are not being, transferred to the Authority.

(3) The enactments relating to industrial and provident societies which are mentioned in Part IV of Schedule 18 are amended as set out in that Part.

(4) The enactments relating to credit unions which are mentioned in Part V of Schedule 18 are amended as set out in that Part.

Supplemental

Supplemental provisions.

339.—(1) The additional powers conferred by section 428 on a person making an order under this Act include power for the Treasury, when making an order under section 334, 335, 336 or 338 which transfers functions, to include provision—

(a) for the transfer of any functions of a member of the body, or servant or agent of the body or person, whose functions are transferred by the order;

(b) for the transfer of any property, rights or liabilities held, enjoyed or incurred by any person in connection with transferred functions;

(c) for the carrying on and completion by or under the authority of the person to whom functions are transferred of any proceedings, investigations or other matters commenced, before the order takes effect, by or under the authority of the person from whom the functions are transferred;

(d) amending any enactment relating to transferred functions in connection with their exercise by, or under the authority of, the person to whom they are transferred;

(e) for the substitution of the person to whom functions are transferred for the person from whom they are transferred, in any instrument, contract or legal proceedings made or begun before the order takes effect.

(2) The additional powers conferred by section 428 on a person making an order under this Act include power for the Treasury, when making an order under section 334(2), 335(4), 336(2) or 337, to include provision—

(a) for the transfer of any property, rights or liabilities held, enjoyed or incurred by any person in connection with the office or body which ceases to have effect as a result of the order;

(b) for the carrying on and completion by or under the authority of such person as may be specified in the order of any proceedings, investigations or other matters commenced, before the order takes effect, by or under the authority of the person whose office, or the body which, ceases to exist as a result of the order;

(c) amending any enactment which makes provision with respect to that office or body;

(d) for the substitution of the Authority, the Treasury or such other body as may be specified in the order in any instrument, contract or legal proceedings made or begun before the order takes effect.

(3) On or after the making of an order under any of sections 334 to 338 ("the original order"), the Treasury may by order make any incidental, supplemental, consequential or transitional provision which they had power to include in the original order.

(4) A certificate issued by the Treasury that property vested in a person immediately before an order under this Part takes effect has been transferred as a result of the order is conclusive evidence of the transfer.

(5) Subsections (1) and (2) are not to be read as affecting in any way the powers conferred by section 428.

PART XXII

AUDITORS AND ACTUARIES

Appointment

Appointment.

340.—(1) Rules may require an authorised person, or an authorised person falling within a specified class—

(a) to appoint an auditor, or

(b) to appoint an actuary,

if he is not already under an obligation to do so imposed by another enactment.

(2) Rules may require an authorised person, or an authorised person falling within a specified class—

(a) to produce periodic financial reports; and

(b) to have them reported on by an auditor or an actuary.

(3) Rules may impose such other duties on auditors of, or actuaries acting for, authorised persons as may be specified.

(4) Rules under subsection (1) may make provision—

(a) specifying the manner in which and time within which an auditor or actuary is to be appointed;

(b) requiring the Authority to be notified of an appointment;

(c) enabling the Authority to make an appointment if no appointment has been made or notified;

(d) as to remuneration;

(e) as to the term of office, removal and resignation of an auditor or actuary.

(5) An auditor or actuary appointed as a result of rules under subsection (1), or on whom duties are imposed by rules under subsection (3)—

(a) must act in accordance with such provision as may be made by rules; and

(b) is to have such powers in connection with the discharge of his functions as may be provided by rules.

(6) In subsections (1) to (3) "auditor" or "actuary" means an auditor, or actuary, who satisfies such requirements as to qualifications, experience and other matters (if any) as may be specified.

(7) "Specified" means specified in rules.

Information

Access to books etc.

341.—(1) An appointed auditor of, or an appointed actuary acting for, an authorised person—

(a) has a right of access at all times to the authorised person's books, accounts and vouchers; and

(b) is entitled to require from the authorised person's officers such information and explanations as he reasonably considers necessary for the performance of his duties as auditor or actuary.

(2) "Appointed" means appointed under or as a result of this Act.

Information given by auditor or actuary to the Authority.

342.—(1) This section applies to a person who is, or has been, an auditor of an authorised person appointed under or as a result of a statutory provision.

(2) This section also applies to a person who is, or has been, an actuary acting for an authorised person and appointed under or as a result of a statutory provision.

(3) An auditor or actuary does not contravene any duty to which he is subject merely because he gives to the Authority—

(a) information on a matter of which he has, or had, become aware in his capacity as auditor of, or actuary acting for, the authorised person, or

(b) his opinion on such a matter,

if he is acting in good faith and he reasonably believes that the information or opinion is relevant to any functions of the Authority.

(4) Subsection (3) applies whether or not the auditor or actuary is responding to a request from the Authority.

(5) The Treasury may make regulations prescribing circumstances in which an auditor or actuary must communicate matters to the Authority as mentioned in subsection (3).

(6) It is the duty of an auditor or actuary to whom any such regulations apply to communicate a matter to the Authority in the circumstances prescribed by the regulations.

(7) The matters to be communicated to the Authority in accordance with the regulations may include matters relating to persons other than the authorised person concerned.

Information given by auditor or actuary to the Authority: persons with close links.

343.—(1) This section applies to a person who—

(a) is, or has been, an auditor of an authorised person appointed under or as a result of a statutory provision; and

(b) is, or has been, an auditor of a person ("CL") who has close links with the authorised person.

(2) This section also applies to a person who—

(a) is, or has been, an actuary acting for an authorised person and appointed under or as a result of a statutory provision; and

(b) is, or has been, an actuary acting for a person ("CL") who has close links with the authorised person.

(3) An auditor or actuary does not contravene any duty to which he is subject merely because he gives to the Authority—

(a) information on a matter concerning the authorised person of which he has, or had, become aware in his capacity as auditor of, or actuary acting for, CL, or

(b) his opinion on such a matter,

if he is acting in good faith and he reasonably believes that the information or opinion is relevant to any functions of the Authority.

(4) Subsection (3) applies whether or not the auditor or actuary is responding to a request from the Authority.

(5) The Treasury may make regulations prescribing circumstances in which an auditor or actuary must communicate matters to the Authority as mentioned in subsection (3).

(6) It is the duty of an auditor or actuary to whom any such regulations apply to communicate a matter to the Authority in the circumstances prescribed by the regulations.

(7) The matters to be communicated to the Authority in accordance with the regulations may include matters relating to persons other than the authorised person concerned.

(8) CL has close links with the authorised person concerned ("A") if CL is—

(a) a parent undertaking of A;

(b) a subsidiary undertaking of A;

(c) a parent undertaking of a subsidiary undertaking of A; or

(d) a subsidiary undertaking of a parent undertaking of A.

(9) "Subsidiary undertaking" includes all the instances mentioned in Article 1(1) and (2) of the Seventh Company Law Directive in which an entity may be a subsidiary of an undertaking.

Duty of auditor or actuary resigning etc. to give notice.

344.—(1) This section applies to an auditor or actuary to whom section 342 applies.

(2) He must without delay notify the Authority if he—

(a) is removed from office by an authorised person;

(b) resigns before the expiry of his term of office with such a person; or

(c) is not re-appointed by such a person.

(3) If he ceases to be an auditor of, or actuary acting for, such a person, he must without delay notify the Authority—

(a) of any matter connected with his so ceasing which he thinks ought to be drawn to the Authority's attention; or

(b) that there is no such matter.

Disqualification

345.—(1) If it appears to the Authority that an auditor or actuary to whom section 342 applies has failed to comply with a duty imposed on him under this Act, it may disqualify him from being the auditor of, or (as the case may be) from acting as an actuary for, any authorised person or any particular class of authorised person. Disqualification.

(2) If the Authority proposes to disqualify a person under this section it must give him a warning notice.

(3) If it decides to disqualify him it must give him a decision notice.

(4) The Authority may remove any disqualification imposed under this section if satisfied that the disqualified person will in future comply with the duty in question.

(5) A person who has been disqualified under this section may refer the matter to the Tribunal.

Offence

346.—(1) An authorised person who knowingly or recklessly gives an appointed auditor or actuary information which is false or misleading in a material particular is guilty of an offence and liable— Provision of false or misleading information to auditor or actuary.

(a) on summary conviction, to imprisonment for a term not exceeding six months or a fine not exceeding the statutory maximum, or both;

(b) on conviction on indictment, to imprisonment for a term not exceeding two years or a fine, or both.

(2) Subsection (1) applies equally to an officer, controller or manager of an authorised person.

(3) "Appointed" means appointed under or as a result of this Act.

Part XXIII

Public Record, Disclosure of Information and Co-operation

The public record

347.—(1) The Authority must maintain a record of every— The record of authorised persons etc.

(a) person who appears to the Authority to be an authorised person;

(b) authorised unit trust scheme;

(c) authorised open-ended investment company;

(d) recognised scheme;

(e) recognised investment exchange;

(f) recognised clearing house;

(g) individual to whom a prohibition order relates;

(h) approved person; and

(i) person falling within such other class (if any) as the Authority may determine.

(2) The record must include such information as the Authority considers appropriate and at least the following information—

(a) in the case of a person appearing to the Authority to be an authorised person—

(i) information as to the services which he holds himself out as able to provide; and

(ii) any address of which the Authority is aware at which a notice or other document may be served on him;

(b) in the case of an authorised unit trust scheme, the name and address of the manager and trustee of the scheme;

(c) in the case of an authorised open-ended investment company, the name and address of—

(i) the company;

(ii) if it has only one director, the director; and

(iii) its depositary (if any);

(d) in the case of a recognised scheme, the name and address of—

(i) the operator of the scheme; and

(ii) any representative of the operator in the United Kingdom;

(e) in the case of a recognised investment exchange or recognised clearing house, the name and address of the exchange or clearing house;

(f) in the case of an individual to whom a prohibition order relates—

(i) his name; and

(ii) details of the effect of the order;

(g) in the case of a person who is an approved person—

(i) his name;

(ii) the name of the relevant authorised person;

(iii) if the approved person is performing a controlled function under an arrangement with a contractor of the relevant authorised person, the name of the contractor.

(3) If it appears to the Authority that a person in respect of whom there is an entry in the record as a result of one of the paragraphs of subsection (1) has ceased to be a person to whom that paragraph applies, the Authority may remove the entry from the record.

(4) But if the Authority decides not to remove the entry, it must—

(a) make a note to that effect in the record; and

(b) state why it considers that the person has ceased to be a person to whom that paragraph applies.

(5) The Authority must—

(a) make the record available for inspection by members of the public in a legible form at such times and in such place or places as the Authority may determine; and

(b) provide a certified copy of the record, or any part of it, to any person who asks for it—

(i) on payment of the fee (if any) fixed by the Authority; and

(ii) in a form (either written or electronic) in which it is legible to the person asking for it.

(6) The Authority may—

(a) publish the record, or any part of it;

(b) exploit commercially the information contained in the record, or any part of that information.

(7) "Authorised unit trust scheme", "authorised open-ended investment company" and "recognised scheme" have the same meaning as in Part XVII, and associated expressions are to be read accordingly.

(8) "Approved person" means a person in relation to whom the Authority has given its approval under section 59 and "controlled function" and "arrangement" have the same meaning as in that section.

(9) "Relevant authorised person" has the meaning given in section 66.

Disclosure of information

Restrictions on disclosure of confidential information by Authority etc.

348.—(1) Confidential information must not be disclosed by a primary recipient, or by any person obtaining the information directly or indirectly from a primary recipient, without the consent of—

(a) the person from whom the primary recipient obtained the information; and

(b) if different, the person to whom it relates.

(2) In this Part "confidential information" means information which—

(a) relates to the business or other affairs of any person;

(b) was received by the primary recipient for the purposes of, or in the discharge of, any functions of the Authority, the competent authority for the purposes of Part VI or the Secretary of State under any provision made by or under this Act; and

(c) is not prevented from being confidential information by subsection (4).

(3) It is immaterial for the purposes of subsection (2) whether or not the information was received—

(a) by virtue of a requirement to provide it imposed by or under this Act;

(b) for other purposes as well as purposes mentioned in that subsection.

(4) Information is not confidential information if—

(a) it has been made available to the public by virtue of being disclosed in any circumstances in which, or for any purposes for which, disclosure is not precluded by this section; or

(b) it is in the form of a summary or collection of information so framed that it is not possible to ascertain from it information relating to any particular person.

(5) Each of the following is a primary recipient for the purposes of this Part—

(a) the Authority;

(b) any person exercising functions conferred by Part VI on the competent authority;

(c) the Secretary of State;

(d) a person appointed to make a report under section 166;

(e) any person who is or has been employed by a person mentioned in paragraphs (a) to (c);

(f) any auditor or expert instructed by a person mentioned in those paragraphs.

(6) In subsection (5)(f) "expert" includes—

(a) a competent person appointed by the competent authority under section 97;

(b) a competent person appointed by the Authority or the Secretary of State to conduct an investigation under Part XI;

(c) any body or person appointed under paragraph 6 of Schedule 1 to perform a function on behalf of the Authority.

Exceptions from section 348.

349.—(1) Section 348 does not prevent a disclosure of confidential information which is—

(a) made for the purpose of facilitating the carrying out of a public function; and

(b) permitted by regulations made by the Treasury under this section.

(2) The regulations may, in particular, make provision permitting the disclosure of confidential information or of confidential information of a prescribed kind—

(a) by prescribed recipients, or recipients of a prescribed description, to any person for the purpose of enabling or assisting the recipient to discharge prescribed public functions;

(b) by prescribed recipients, or recipients of a prescribed description, to prescribed persons, or persons of prescribed descriptions, for the purpose of enabling or assisting those persons to discharge prescribed public functions;

(c) by the Authority to the Treasury or the Secretary of State for any purpose;

(d) by any recipient if the disclosure is with a view to or in connection with prescribed proceedings.

(3) The regulations may also include provision—

(a) making any permission to disclose confidential information subject to conditions (which may relate to the obtaining of consents or any other matter);

(b) restricting the uses to which confidential information disclosed under the regulations may be put.

(4) In relation to confidential information, each of the following is a "recipient"—

(a) a primary recipient;

(b) a person obtaining the information directly or indirectly from a primary recipient.

(5) "Public functions" includes—

(a) functions conferred by or in accordance with any provision contained in any enactment or subordinate legislation;

(b) functions conferred by or in accordance with any provision contained in the Community Treaties or any Community instrument;

(c) similar functions conferred on persons by or under provisions having effect as part of the law of a country or territory outside the United Kingdom;

(d) functions exercisable in relation to prescribed disciplinary proceedings.

(6) "Enactment" includes—

(a) an Act of the Scottish Parliament;

(b) Northern Ireland legislation.

(7) "Subordinate legislation" has the meaning given in the Interpretation Act 1978 and also includes an instrument made under an Act of the Scottish Parliament or under Northern Ireland legislation. 1978 c. 30.

Disclosure of information by the Inland Revenue.

350.—(1) No obligation as to secrecy imposed by statute or otherwise prevents the disclosure of Revenue information to—

(a) the Authority, or

(b) the Secretary of State,

if the disclosure is made for the purpose of assisting in the investigation of a matter under section 168 or with a view to the appointment of an investigator under that section.

(2) A disclosure may only be made under subsection (1) by or under the authority of the Commissioners of Inland Revenue.

(3) Section 348 does not apply to Revenue information.

(4) Information obtained as a result of subsection (1) may not be used except—

(a) for the purpose of deciding whether to appoint an investigator under section 168;

(b) in the conduct of an investigation under section 168;

(c) in criminal proceedings brought against a person under this Act or the Criminal Justice Act 1993 as a result of an investigation under section 168; 1993 c. 36.

(d) for the purpose of taking action under this Act against a person as a result of an investigation under section 168;

(e) in proceedings before the Tribunal as a result of action taken as mentioned in paragraph (d).

(5) Information obtained as a result of subsection (1) may not be disclosed except—

(a) by or under the authority of the Commissioners of Inland Revenue;

(b) in proceedings mentioned in subsection (4)(c) or (e) or with a view to their institution.

(6) Subsection (5) does not prevent the disclosure of information obtained as a result of subsection (1) to a person to whom it could have been disclosed under subsection (1).

(7) "Revenue information" means information held by a person which it would be an offence under section 182 of the Finance Act 1989 for him to disclose.

1989 c. 26.

Competition information.

351.—(1) A person is guilty of an offence if he has competition information (whether or not it was obtained by him) and improperly discloses it—

(a) if it relates to the affairs of an individual, during that individual's lifetime;

(b) if it relates to any particular business of a body, while that business continues to be carried on.

(2) For the purposes of subsection (1) a disclosure is improper unless it is made—

(a) with the consent of the person from whom it was obtained and, if different—

(i) the individual to whose affairs the information relates, or

(ii) the person for the time being carrying on the business to which the information relates;

(b) to facilitate the performance by a person mentioned in the first column of the table set out in Part I of Schedule 19 of a function mentioned in the second column of that table;

(c) in pursuance of a Community obligation;

(d) for the purpose of criminal proceedings in any part of the United Kingdom;

(e) in connection with the investigation of any criminal offence triable in the United Kingdom or any part of the United Kingdom;

(f) with a view to the institution of, or otherwise for the purposes of, civil proceedings brought under or in connection with—

(i) a competition provision; or

(ii) a specified enactment.

(3) A person guilty of an offence under this section is liable—

(a) on summary conviction, to a fine not exceeding the statutory maximum;

(b) on conviction on indictment, to imprisonment for a term not exceeding two years or to a fine or to both.

(4) Section 348 does not apply to competition information.

(5) "Competition information" means information which—

(a) relates to the affairs of a particular individual or body;

(b) is not otherwise in the public domain; and

(c) was obtained under or by virtue of a competition provision.

(6) "Competition provision" means any provision of—

(a) an order made under section 95;

(b) Chapter III of Part X; or

(c) Chapter II of Part XVIII.

(7) "Specified enactment" means an enactment specified in Part II of Schedule 19.

Offences.

352.—(1) A person who discloses information in contravention of section 348 or 350(5) is guilty of an offence.

(2) A person guilty of an offence under subsection (1) is liable—

(a) on summary conviction, to imprisonment for a term not exceeding three months or a fine not exceeding the statutory maximum, or both;

(b) on conviction on indictment, to imprisonment for a term not exceeding two years or a fine, or both.

(3) A person is guilty of an offence if, in contravention of any provision of regulations made under section 349, he uses information which has been disclosed to him in accordance with the regulations.

(4) A person is guilty of an offence if, in contravention of subsection (4) of section 350, he uses information which has been disclosed to him in accordance with that section.

(5) A person guilty of an offence under subsection (3) or (4) is liable on summary conviction to imprisonment for a term not exceeding three months or a fine not exceeding level 5 on the standard scale, or both.

(6) In proceedings for an offence under this section it is a defence for the accused to prove—

(a) that he did not know and had no reason to suspect that the information was confidential information or that it had been disclosed in accordance with section 350;

(b) that he took all reasonable precautions and exercised all due diligence to avoid committing the offence.

Removal of other restrictions on disclosure.

353.—(1) The Treasury may make regulations permitting the disclosure of any information, or of information of a prescribed kind—

(a) by prescribed persons for the purpose of assisting or enabling them to discharge prescribed functions under this Act or any rules or regulations made under it;

(b) by prescribed persons, or persons of a prescribed description, to the Authority for the purpose of assisting or enabling the Authority to discharge prescribed functions.

(2) Regulations under this section may not make any provision in relation to the disclosure of confidential information by primary recipients or by any person obtaining confidential information directly or indirectly from a primary recipient.

(3) If a person discloses any information as permitted by regulations under this section the disclosure is not to be taken as a contravention of any duty to which he is subject.

Co-operation

Authority's duty to co-operate with others.

354.—(1) The Authority must take such steps as it considers appropriate to co-operate with other persons (whether in the United Kingdom or elsewhere) who have functions—

(a) similar to those of the Authority; or

(b) in relation to the prevention or detection of financial crime.

(2) Co-operation may include the sharing of information which the Authority is not prevented from disclosing.

(3) "Financial crime" has the same meaning as in section 6.

PART XXIV

INSOLVENCY

Interpretation

Interpretation of this Part.

1985 c. 66.

1986 c. 45.

S.I. 1989/2405 (N.I. 19).

355.—(1) In this Part—

"the 1985 Act" means the Bankruptcy (Scotland) Act 1985;

"the 1986 Act" means the Insolvency Act 1986;

"the 1989 Order" means the Insolvency (Northern Ireland) Order 1989;

"body" means a body of persons—

(a) over which the court has jurisdiction under any provision of, or made under, the 1986 Act (or the 1989 Order); but

(b) which is not a building society, a friendly society or an industrial and provident society; and

"court" means—

(a) the court having jurisdiction for the purposes of the 1985 Act or the 1986 Act; or

(b) in Northern Ireland, the High Court.

(2) In this Part "insurer" has such meaning as may be specified in an order made by the Treasury.

Voluntary arrangements

Authority's powers to participate in proceedings: company voluntary arrangements.

356.—(1) This section applies if a voluntary arrangement has been approved under Part I of the 1986 Act (or Part II of the 1989 Order) in respect of a company or insolvent partnership which is an authorised person.

(2) The Authority may make an application to the court in relation to the company or insolvent partnership under section 6 of the 1986 Act (or Article 19 of the 1989 Order).

(3) If a person other than the Authority makes an application to the court in relation to the company or insolvent partnership under either of those provisions, the Authority is entitled to be heard at any hearing relating to the application.

Authority's powers to participate in proceedings: individual voluntary arrangements.

357.—(1) The Authority is entitled to be heard on an application by an individual who is an authorised person under section 253 of the 1986 Act (or Article 227 of the 1989 Order).

(2) Subsections (3) to (6) apply if such an order is made on the application of such a person.

(3) A person appointed for the purpose by the Authority is entitled to attend any meeting of creditors of the debtor summoned under section 257 of the 1986 Act (or Article 231 of the 1989 Order).

(4) Notice of the result of a meeting so summoned is to be given to the Authority by the chairman of the meeting.

(5) The Authority may apply to the court—

(a) under section 262 of the 1986 Act (or Article 236 of the 1989 Order); or

(b) under section 263 of the 1986 Act (or Article 237 of the 1989 Order).

(6) If a person other than the Authority makes an application to the court under any provision mentioned in subsection (5), the Authority is entitled to be heard at any hearing relating to the application.

Authority's powers to participate in proceedings: trust deeds for creditors in Scotland.

358.—(1) This section applies where a trust deed has been granted by or on behalf of a debtor who is an authorised person.

(2) The trustee must, as soon as practicable after he becomes aware that the debtor is an authorised person, send to the Authority—

(a) in every case, a copy of the trust deed;

(b) where any other document or information is sent to every creditor known to the trustee in pursuance of paragraph 5(1)(c) of Schedule 5 to the 1985 Act, a copy of such document or information.

(3) Paragraph 7 of that Schedule applies to the Authority as if it were a qualified creditor who has not been sent a copy of the notice as mentioned in paragraph 5(1)(c) of the Schedule.

(4) The Authority must be given the same notice as the creditors of any meeting of creditors held in relation to the trust deed.

(5) A person appointed for the purpose by the Authority is entitled to attend and participate in (but not to vote at) any such meeting of creditors as if the Authority were a creditor under the deed.

(6) This section does not affect any right the Authority has as a creditor of a debtor who is an authorised person.

(7) Expressions used in this section and in the 1985 Act have the same meaning in this section as in that Act.

Administration orders

Petitions.

359.—(1) The Authority may present a petition to the court under section 9 of the 1986 Act (or Article 22 of the 1989 Order) in relation to a company or insolvent partnership which—

(a) is, or has been, an authorised person;

(b) is, or has been, an appointed representative; or

(c) is carrying on, or has carried on, a regulated activity in contravention of the general prohibition.

(2) Subsection (3) applies in relation to a petition presented by the Authority by virtue of this section.

(3) If the company or partnership is in default on an obligation to pay a sum due and payable under an agreement, it is to be treated for the purpose of section 8(1)(a) of the 1986 Act (or Article 21(1)(a) of the 1989 Order) as unable to pay its debts.

(4) "Agreement" means an agreement the making or performance of which constitutes or is part of a regulated activity carried on by the company or partnership.

(5) "Company" means—

(a) a company to which section 8 of the 1986 Act applies; or

(b) in relation to Northern Ireland, a company to which Article 21 of the 1989 Order applies.

Insurers.

360.—(1) The Treasury may by order provide that such provisions of Part II of the 1986 Act (or Part III of the 1989 Order) as may be specified are to apply in relation to insurers with such modifications as may be specified.

(2) An order under this section—

(a) may provide that such provisions of this Part as may be specified are to apply in relation to the administration of insurers in accordance with the order with such modifications as may be specified; and

(b) requires the consent of the Secretary of State.

(3) "Specified" means specified in the order.

Administrator's duty to report to Authority.

361.—(1) If—

(a) an administration order is in force in relation to a company or partnership by virtue of a petition presented by a person other than the Authority, and

(b) it appears to the administrator that the company or partnership is carrying on, or has carried on, a regulated activity in contravention of the general prohibition,

the administrator must report the matter to the Authority without delay.

(2) "An administration order" means an administration order under Part II of the 1986 Act (or Part III of the 1989 Order).

Authority's powers to participate in proceedings.

362.—(1) This section applies if a person other than the Authority presents a petition to the court under section 9 of the 1986 Act (or Article 22 of the 1989 Order) in relation to a company or partnership which—

(a) is, or has been, an authorised person;

(b) is, or has been, an appointed representative; or

(c) is carrying on, or has carried on, a regulated activity in contravention of the general prohibition.

(2) The Authority is entitled to be heard—

(a) at the hearing of the petition; and

(b) at any other hearing of the court in relation to the company or partnership under Part II of the 1986 Act (or Part III of the 1989 Order).

(3) Any notice or other document required to be sent to a creditor of the company or partnership must also be sent to the Authority.

(4) The Authority may apply to the court under section 27 of the 1986 Act (or Article 39 of the 1989 Order); and on such an application, section 27(1)(a) (or Article 39(1)(a)) has effect with the omission of the words "(including at least himself)".

(5) A person appointed for the purpose by the Authority is entitled—

(a) to attend any meeting of creditors of the company or partnership summoned under any enactment;

(b) to attend any meeting of a committee established under section 26 of the 1986 Act (or Article 38 of the 1989 Order); and

(c) to make representations as to any matter for decision at such a meeting.

(6) If, during the course of the administration of a company, a compromise or arrangement is proposed between the company and its creditors, or any class of them, the Authority may apply to the court under section 425 of the Companies Act 1985 (or Article 418 of the Companies (Northern Ireland) Order 1986). 1985 c. 6. S.I. 1986/1032 (N.I. 6).

Receivership

Authority's powers to participate in proceedings.

363.—(1) This section applies if a receiver has been appointed in relation to a company which—

(a) is, or has been, an authorised person;

(b) is, or has been, an appointed representative; or

(c) is carrying on, or has carried on, a regulated activity in contravention of the general prohibition.

(2) The Authority is entitled to be heard on an application made under section 35 or 63 of the 1986 Act (or Article 45 of the 1989 Order).

(3) The Authority is entitled to make an application under section 41(1)(a) or 69(1)(a) of the 1986 Act (or Article 51(1)(a) of the 1989 Order).

(4) A report under section 48(1) or 67(1) of the 1986 Act (or Article 58(1) of the 1989 Order) must be sent by the person making it to the Authority.

(5) A person appointed for the purpose by the Authority is entitled—

(a) to attend any meeting of creditors of the company summoned under any enactment;

(b) to attend any meeting of a committee established under section 49 or 68 of the 1986 Act (or Article 59 of the 1989 Order); and

(c) to make representations as to any matter for decision at such a meeting.

Receiver's duty to report to Authority.

364. If—

(a) a receiver has been appointed in relation to a company, and

(b) it appears to the receiver that the company is carrying on, or has carried on, a regulated activity in contravention of the general prohibition,

the receiver must report the matter to the Authority without delay.

Voluntary winding up

Authority's powers to participate in proceedings.

365.—(1) This section applies in relation to a company which—

(a) is being wound up voluntarily;

(b) is an authorised person; and

(c) is not an insurer effecting or carrying out contracts of long-term insurance.

(2) The Authority may apply to the court under section 112 of the 1986 Act (or Article 98 of the 1989 Order) in respect of the company.

(3) The Authority is entitled to be heard at any hearing of the court in relation to the voluntary winding up of the company.

(4) Any notice or other document required to be sent to a creditor of the company must also be sent to the Authority.

(5) A person appointed for the purpose by the Authority is entitled—

(a) to attend any meeting of creditors of the company summoned under any enactment;

(b) to attend any meeting of a committee established under section 101 of the 1986 Act (or Article 87 of the 1989 Order); and

(c) to make representations as to any matter for decision at such a meeting.

(6) The voluntary winding up of the company does not bar the right of the Authority to have it wound up by the court.

(7) If, during the course of the winding up of the company, a compromise or arrangement is proposed between the company and its creditors, or any class of them, the Authority may apply to the court under section 425 of the Companies Act 1985 (or Article 418 of the Companies (Northern Ireland) Order 1986).

1985 c. 6.
S.I. 1986/1032 (N.I. 6).

Insurers effecting or carrying out long-term contracts or insurance.

366.—(1) An insurer effecting or carrying out contracts of long-term insurance may not be wound up voluntarily without the consent of the Authority.

(2) If notice of a general meeting of such an insurer is given, specifying the intention to propose a resolution for voluntary winding up of the insurer, a director of the insurer must notify the Authority as soon as practicable after he becomes aware of it.

(3) A person who fails to comply with subsection (2) is guilty of an offence and liable on summary conviction to a fine not exceeding level 5 on the standard scale.

(4) The following provisions do not apply in relation to a winding-up resolution—

(a) sections 378(3) and 381A of the Companies Act 1985 ("the 1985 Act"); and

(b) Articles 386(3) and 389A of the Companies (Northern Ireland) Order 1986 ("the 1986 Order"). S.I. 1986/1032 (N.I. 6).

(5) A copy of a winding-up resolution forwarded to the registrar of companies in accordance with section 380 of the 1985 Act (or Article 388 of the 1986 Order) must be accompanied by a certificate issued by the Authority stating that it consents to the voluntary winding up of the insurer.

(6) If subsection (5) is complied with, the voluntary winding up is to be treated as having commenced at the time the resolution was passed.

(7) If subsection (5) is not complied with, the resolution has no effect.

(8) "Winding-up resolution" means a resolution for voluntary winding up of an insurer effecting or carrying out contracts of long-term insurance.

Winding up by the court

Winding-up petitions.

367.—(1) The Authority may present a petition to the court for the winding up of a body which—

(a) is, or has been, an authorised person;

(b) is, or has been, an appointed representative; or

(c) is carrying on, or has carried on, a regulated activity in contravention of the general prohibition.

(2) In subsection (1) "body" includes any partnership.

(3) On such a petition, the court may wind up the body if—

(a) the body is unable to pay its debts within the meaning of section 123 or 221 of the 1986 Act (or Article 103 or 185 of the 1989 Order); or

(b) the court is of the opinion that it is just and equitable that it should be wound up.

(4) If a body is in default on an obligation to pay a sum due and payable under an agreement, it is to be treated for the purpose of subsection (3)(a) as unable to pay its debts.

(5) "Agreement" means an agreement the making or performance of which constitutes or is part of a regulated activity carried on by the body concerned.

(6) Subsection (7) applies if a petition is presented under subsection (1) for the winding up of a partnership—

(a) on the ground mentioned in subsection (3)(b); or

(b) in Scotland, on a ground mentioned in subsection (3)(a) or (b).

(7) The court has jurisdiction, and the 1986 Act (or the 1989 Order) has effect, as if the partnership were an unregistered company as defined by section 220 of that Act (or Article 184 of that Order).

Winding-up petitions: EEA and Treaty firms.

368. The Authority may not present a petition to the court under section 367 for the winding up of—

(a) an EEA firm which qualifies for authorisation under Schedule 3, or

(b) a Treaty firm which qualifies for authorisation under Schedule 4,

unless it has been asked to do so by the home state regulator of the firm concerned.

Insurers: service of petition etc. on Authority.

369.—(1) If a person other than the Authority presents a petition for the winding up of an authorised person with permission to effect or carry out contracts of insurance, the petitioner must serve a copy of the petition on the Authority.

(2) If a person other than the Authority applies to have a provisional liquidator appointed under section 135 of the 1986 Act (or Article 115 of the 1989 Order) in respect of an authorised person with permission to effect or carry out contracts of insurance, the applicant must serve a copy of the application on the Authority.

Liquidator's duty to report to Authority.

370. If—

(a) a company is being wound up voluntarily or a body is being wound up on a petition presented by a person other than the Authority, and

(b) it appears to the liquidator that the company or body is carrying on, or has carried on, a regulated activity in contravention of the general prohibition,

the liquidator must report the matter to the Authority without delay.

Authority's powers to participate in proceedings.

371.—(1) This section applies if a person other than the Authority presents a petition for the winding up of a body which—

(a) is, or has been, an authorised person;

(b) is, or has been, an appointed representative; or

(c) is carrying on, or has carried on, a regulated activity in contravention of the general prohibition.

(2) The Authority is entitled to be heard—

(a) at the hearing of the petition; and

(b) at any other hearing of the court in relation to the body under or by virtue of Part IV or V of the 1986 Act (or Part V or VI of the 1989 Order).

(3) Any notice or other document required to be sent to a creditor of the body must also be sent to the Authority.

(4) A person appointed for the purpose by the Authority is entitled—

(a) to attend any meeting of creditors of the body;

(b) to attend any meeting of a committee established for the purposes of Part IV or V of the 1986 Act under section 101 of that Act or under section 141 or 142 of that Act;

(c) to attend any meeting of a committee established for the purposes of Part V or VI of the 1989 Order under Article 87 of that Order or under Article 120 of that Order; and

(d) to make representations as to any matter for decision at such a meeting.

(5) If, during the course of the winding up of a company, a compromise or arrangement is proposed between the company and its creditors, or

any class of them, the Authority may apply to the court under section 425 of the Companies Act 1985 (or Article 418 of the Companies (Northern Ireland) Order 1986). 1985 c. 6. S.I. 1986/1032 (N.I. 6).

Bankruptcy

372.—(1) The Authority may present a petition to the court— Petitions.

(a) under section 264 of the 1986 Act (or Article 238 of the 1989 Order) for a bankruptcy order to be made against an individual; or

(b) under section 5 of the 1985 Act for the sequestration of the estate of an individual.

(2) But such a petition may be presented only on the ground that—

(a) the individual appears to be unable to pay a regulated activity debt; or

(b) the individual appears to have no reasonable prospect of being able to pay a regulated activity debt.

(3) An individual appears to be unable to pay a regulated activity debt if he is in default on an obligation to pay a sum due and payable under an agreement.

(4) An individual appears to have no reasonable prospect of being able to pay a regulated activity debt if—

(a) the Authority has served on him a demand requiring him to establish to the satisfaction of the Authority that there is a reasonable prospect that he will be able to pay a sum payable under an agreement when it falls due;

(b) at least three weeks have elapsed since the demand was served; and

(c) the demand has been neither complied with nor set aside in accordance with rules.

(5) A demand made under subsection (4)(a) is to be treated for the purposes of the 1986 Act (or the 1989 Order) as if it were a statutory demand under section 268 of that Act (or Article 242 of that Order).

(6) For the purposes of a petition presented in accordance with subsection (1)(b)—

(a) the Authority is to be treated as a qualified creditor; and

(b) a ground mentioned in subsection (2) constitutes apparent insolvency.

(7) “Individual” means an individual—

(a) who is, or has been, an authorised person; or

(b) who is carrying on, or has carried on, a regulated activity in contravention of the general prohibition.

(8) “Agreement” means an agreement the making or performance of which constitutes or is part of a regulated activity carried on by the individual concerned.

(9) “Rules” means—

(a) in England and Wales, rules made under section 412 of the 1986 Act;

(b) in Scotland, rules made by order by the Treasury, after consultation with the Scottish Ministers, for the purposes of this section; and

(c) in Northern Ireland, rules made under Article 359 of the 1989 Order.

Insolvency practitioner's duty to report to Authority.

373.—(1) If—

(a) a bankruptcy order or sequestration award is in force in relation to an individual by virtue of a petition presented by a person other than the Authority, and

(b) it appears to the insolvency practitioner that the individual is carrying on, or has carried on, a regulated activity in contravention of the general prohibition,

the insolvency practitioner must report the matter to the Authority without delay.

(2) "Bankruptcy order" means a bankruptcy order under Part IX of the 1986 Act (or Part IX of the 1989 Order).

(3) "Sequestration award" means an award of sequestration under section 12 of the 1985 Act.

(4) "Individual" includes an entity mentioned in section 374(1)(c).

Authority's powers to participate in proceedings.

374.—(1) This section applies if a person other than the Authority presents a petition to the court—

(a) under section 264 of the 1986 Act (or Article 238 of the 1989 Order) for a bankruptcy order to be made against an individual;

(b) under section 5 of the 1985 Act for the sequestration of the estate of an individual; or

(c) under section 6 of the 1985 Act for the sequestration of the estate belonging to or held for or jointly by the members of an entity mentioned in subsection (1) of that section.

(2) The Authority is entitled to be heard—

(a) at the hearing of the petition; and

(b) at any other hearing in relation to the individual or entity under—

(i) Part IX of the 1986 Act;

(ii) Part IX of the 1989 Order; or

(iii) the 1985 Act.

(3) A copy of the report prepared under section 274 of the 1986 Act (or Article 248 of the 1989 Order) must also be sent to the Authority.

(4) A person appointed for the purpose by the Authority is entitled—

(a) to attend any meeting of creditors of the individual or entity;

(b) to attend any meeting of a committee established under section 301 of the 1986 Act (or Article 274 of the 1989 Order);

(c) to attend any meeting of commissioners held under paragraph 17 or 18 of Schedule 6 to the 1985 Act; and

(d) to make representations as to any matter for decision at such a meeting.

(5) "Individual" means an individual who—

(a) is, or has been, an authorised person; or

(b) is carrying on, or has carried on, a regulated activity in contravention of the general prohibition.

(6) "Entity" means an entity which—

(a) is, or has been, an authorised person; or

(b) is carrying on, or has carried on, a regulated activity in contravention of the general prohibition.

Provisions against debt avoidance

Authority's right to apply for an order.

375.—(1) The Authority may apply for an order under section 423 of the 1986 Act (or Article 367 of the 1989 Order) in relation to a debtor if—

(a) at the time the transaction at an undervalue was entered into, the debtor was carrying on a regulated activity (whether or not in contravention of the general prohibition); and

(b) a victim of the transaction is or was party to an agreement entered into with the debtor, the making or performance of which constituted or was part of a regulated activity carried on by the debtor.

(2) An application made under this section is to be treated as made on behalf of every victim of the transaction to whom subsection (1)(b) applies.

(3) Expressions which are given a meaning in Part XVI of the 1986 Act (or Article 367, 368 or 369 of the 1989 Order) have the same meaning when used in this section.

Supplemental provisions concerning insurers

Continuation of contracts of long-term insurance where insurer in liquidation.

376.—(1) This section applies in relation to the winding up of an insurer which effects or carries out contracts of long-term insurance.

(2) Unless the court otherwise orders, the liquidator must carry on the insurer's business so far as it consists of carrying out the insurer's contracts of long-term insurance with a view to its being transferred as a going concern to a person who may lawfully carry out those contracts.

(3) In carrying on the business, the liquidator—

(a) may agree to the variation of any contracts of insurance in existence when the winding up order is made; but

(b) must not effect any new contracts of insurance.

(4) If the liquidator is satisfied that the interests of the creditors in respect of liabilities of the insurer attributable to contracts of long-term insurance effected by it require the appointment of a special manager, he may apply to the court.

(5) On such an application, the court may appoint a special manager to act during such time as the court may direct.

(6) The special manager is to have such powers, including any of the powers of a receiver or manager, as the court may direct.

(7) Section 177(5) of the 1986 Act (or Article 151(5) of the 1989 Order) applies to a special manager appointed under subsection (5) as it applies to a special manager appointed under section 177 of the 1986 Act (or Article 151 of the 1989 Order).

(8) If the court thinks fit, it may reduce the value of one or more of the contracts of long-term insurance effected by the insurer.

(9) Any reduction is to be on such terms and subject to such conditions (if any) as the court thinks fit.

(10) The court may, on the application of an official, appoint an independent actuary to investigate the insurer's business so far as it consists of carrying out its contracts of long-term insurance and to report to the official—

(a) on the desirability or otherwise of that part of the insurer's business being continued; and

(b) on any reduction in the contracts of long-term insurance effected by the insurer that may be necessary for successful continuation of that part of the insurer's business.

(11) "Official" means—

(a) the liquidator;

(b) a special manager appointed under subsection (5); or

(c) the Authority.

(12) The liquidator may make an application in the name of the insurer and on its behalf under Part VII without obtaining the permission that would otherwise be required by section 167 of, and Schedule 4 to, the 1986 Act (or Article 142 of, and Schedule 2 to, the 1989 Order).

Reducing the value of contracts instead of winding up.

377.—(1) This section applies in relation to an insurer which has been proved to be unable to pay its debts.

(2) If the court thinks fit, it may reduce the value of one or more of the insurer's contracts instead of making a winding up order.

(3) Any reduction is to be on such terms and subject to such conditions (if any) as the court thinks fit.

Treatment of assets on winding up.

378.—(1) The Treasury may by regulations provide for the treatment of the assets of an insurer on its winding up.

(2) The regulations may, in particular, provide for—

(a) assets representing a particular part of the insurer's business to be available only for meeting liabilities attributable to that part of the insurer's business;

(b) separate general meetings of the creditors to be held in respect of liabilities attributable to a particular part of the insurer's business.

Winding-up rules.

379.—(1) Winding-up rules may include provision—

(a) for determining the amount of the liabilities of an insurer to policyholders of any class or description for the purpose of proof in a winding up; and

(b) generally for carrying into effect the provisions of this Part with respect to the winding up of insurers.

(2) Winding-up rules may, in particular, make provision for all or any of the following matters—

(a) the identification of assets and liabilities;

(b) the apportionment, between assets of different classes or descriptions, of—

(i) the costs, charges and expenses of the winding up; and

(ii) any debts of the insurer of a specified class or description;

(c) the determination of the amount of liabilities of a specified description;

(d) the application of assets for meeting liabilities of a specified description;

(e) the application of assets representing any excess of a specified description.

(3) "Specified" means specified in winding-up rules.

(4) "Winding-up rules" means rules made under section 411 of the 1986 Act (or Article 359 of the 1989 Order).

(5) Nothing in this section affects the power to make winding-up rules under the 1986 Act or the 1989 Order.

PART XXV

INJUNCTIONS AND RESTITUTION

Injunctions

Injunctions.

380.—(1) If, on the application of the Authority or the Secretary of State, the court is satisfied—

(a) that there is a reasonable likelihood that any person will contravene a relevant requirement, or

(b) that any person has contravened a relevant requirement and that there is a reasonable likelihood that the contravention will continue or be repeated,

the court may make an order restraining (or in Scotland an interdict prohibiting) the contravention.

(2) If on the application of the Authority or the Secretary of State the court is satisfied—

(a) that any person has contravened a relevant requirement, and

(b) that there are steps which could be taken for remedying the contravention,

the court may make an order requiring that person, and any other person who appears to have been knowingly concerned in the contravention, to take such steps as the court may direct to remedy it.

(3) If, on the application of the Authority or the Secretary of State, the court is satisfied that any person may have—

(a) contravened a relevant requirement, or

(b) been knowingly concerned in the contravention of such a requirement,

it may make an order restraining (or in Scotland an interdict prohibiting) him from disposing of, or otherwise dealing with, any assets of his which it is satisfied he is reasonably likely to dispose of or otherwise deal with.

(4) The jurisdiction conferred by this section is exercisable by the High Court and the Court of Session.

(5) In subsection (2), references to remedying a contravention include references to mitigating its effect.

(6) "Relevant requirement"—

(a) in relation to an application by the Authority, means a requirement—

(i) which is imposed by or under this Act; or

(ii) which is imposed by or under any other Act and whose contravention constitutes an offence which the Authority has power to prosecute under this Act;

(b) in relation to an application by the Secretary of State, means a requirement which is imposed by or under this Act and whose contravention constitutes an offence which the Secretary of State has power to prosecute under this Act.

(7) In the application of subsection (6) to Scotland—

(a) in paragraph (a)(ii) for "which the Authority has power to prosecute under this Act" substitute "mentioned in paragraph (a) or (b) of section 402(1)"; and

(b) in paragraph (b) omit "which the Secretary of State has power to prosecute under this Act".

Injunctions in cases of market abuse.

381.—(1) If, on the application of the Authority, the court is satisfied—

(a) that there is a reasonable likelihood that any person will engage in market abuse, or

(b) that any person is or has engaged in market abuse and that there is a reasonable likelihood that the market abuse will continue or be repeated,

the court may make an order restraining (or in Scotland an interdict prohibiting) the market abuse.

(2) If on the application of the Authority the court is satisfied—

(a) that any person is or has engaged in market abuse, and

(b) that there are steps which could be taken for remedying the market abuse,

the court may make an order requiring him to take such steps as the court may direct to remedy it.

(3) Subsection (4) applies if, on the application of the Authority, the court is satisfied that any person—

(a) may be engaged in market abuse; or

(b) may have been engaged in market abuse.

(4) The court make an order restraining (or in Scotland an interdict prohibiting) the person concerned from disposing of, or otherwise dealing with, any assets of his which it is satisfied that he is reasonably likely to dispose of, or otherwise deal with.

(5) The jurisdiction conferred by this section is exercisable by the High Court and the Court of Session.

(6) In subsection (2), references to remedying any market abuse include references to mitigating its effect.

Restitution orders

Restitution orders.

382.—(1) The court may, on the application of the Authority or the Secretary of State, make an order under subsection (2) if it is satisfied that a person has contravened a relevant requirement, or been knowingly concerned in the contravention of such a requirement, and—

(a) that profits have accrued to him as a result of the contravention; or

(b) that one or more persons have suffered loss or been otherwise adversely affected as a result of the contravention.

(2) The court may order the person concerned to pay to the Authority such sum as appears to the court to be just having regard—

(a) in a case within paragraph (a) of subsection (1), to the profits appearing to the court to have accrued;

(b) in a case within paragraph (b) of that subsection, to the extent of the loss or other adverse effect;

(c) in a case within both of those paragraphs, to the profits appearing to the court to have accrued and to the extent of the loss or other adverse effect.

(3) Any amount paid to the Authority in pursuance of an order under subsection (2) must be paid by it to such qualifying person or distributed by it among such qualifying persons as the court may direct.

(4) On an application under subsection (1) the court may require the person concerned to supply it with such accounts or other information as it may require for any one or more of the following purposes—

(a) establishing whether any and, if so, what profits have accrued to him as mentioned in paragraph (a) of that subsection;

(b) establishing whether any person or persons have suffered any loss or adverse effect as mentioned in paragraph (b) of that subsection and, if so, the extent of that loss or adverse effect; and

(c) determining how any amounts are to be paid or distributed under subsection (3).

(5) The court may require any accounts or other information supplied under subsection (4) to be verified in such manner as it may direct.

(6) The jurisdiction conferred by this section is exercisable by the High Court and the Court of Session.

(7) Nothing in this section affects the right of any person other than the Authority or the Secretary of State to bring proceedings in respect of the matters to which this section applies.

(8) "Qualifying person" means a person appearing to the court to be someone—

(a) to whom the profits mentioned in subsection (1)(a) are attributable; or

(b) who has suffered the loss or adverse effect mentioned in subsection (1)(b).

(9) "Relevant requirement"—

(a) in relation to an application by the Authority, means a requirement—

(i) which is imposed by or under this Act; or

(ii) which is imposed by or under any other Act and whose contravention constitutes an offence which the Authority has power to prosecute under this Act;

(b) in relation to an application by the Secretary of State, means a requirement which is imposed by or under this Act and whose contravention constitutes an offence which the Secretary of State has power to prosecute under this Act.

(10) In the application of subsection (9) to Scotland—

(a) in paragraph (a)(ii) for "which the Authority has power to prosecute under this Act" substitute "mentioned in paragraph (a) or (b) of section 402(1); and

(b) in paragraph (b) omit "which the Secretary of State has power to prosecute under this Act".

Restitution orders in cases of market abuse.

383.—(1) The court may, on the application of the Authority, make an order under subsection (4) if it is satisfied that a person ("the person concerned")—

(a) has engaged in market abuse, or

(b) by taking or refraining from taking any action has required or encouraged another person or persons to engage in behaviour which, if engaged in by the person concerned, would amount to market abuse,

and the condition mentioned in subsection (2) is fulfilled.

(2) The condition is—

(a) that profits have accrued to the person concerned as a result; or

(b) that one or more persons have suffered loss or been otherwise adversely affected as a result.

(3) But the court may not make an order under subsection (4) if it is satisfied that—

(a) the person concerned believed, on reasonable grounds, that his behaviour did not fall within paragraph (a) or (b) of subsection (1); or

(b) he took all reasonable precautions and exercised all due diligence to avoid behaving in a way which fell within paragraph (a) or (b) of subsection (1).

(4) The court may order the person concerned to pay to the Authority such sum as appears to the court to be just having regard—

(a) in a case within paragraph (a) of subsection (2), to the profits appearing to the court to have accrued;

(b) in a case within paragraph (b) of that subsection, to the extent of the loss or other adverse effect;

(c) in a case within both of those paragraphs, to the profits appearing to the court to have accrued and to the extent of the loss or other adverse effect.

(5) Any amount paid to the Authority in pursuance of an order under subsection (4) must be paid by it to such qualifying person or distributed by it among such qualifying persons as the court may direct.

(6) On an application under subsection (1) the court may require the person concerned to supply it with such accounts or other information as it may require for any one or more of the following purposes—

(a) establishing whether any and, if so, what profits have accrued to him as mentioned in subsection (2)(a);

(b) establishing whether any person or persons have suffered any loss or adverse effect as mentioned in subsection (2)(b) and, if so, the extent of that loss or adverse effect; and

(c) determining how any amounts are to be paid or distributed under subsection (5).

(7) The court may require any accounts or other information supplied under subsection (6) to be verified in such manner as it may direct.

(8) The jurisdiction conferred by this section is exercisable by the High Court and the Court of Session.

(9) Nothing in this section affects the right of any person other than the Authority to bring proceedings in respect of the matters to which this section applies.

(10) "Qualifying person" means a person appearing to the court to be someone—

(a) to whom the profits mentioned in paragraph (a) of subsection (2) are attributable; or

(b) who has suffered the loss or adverse effect mentioned in paragraph (b) of that subsection.

Restitution required by Authority

Power of Authority to require restitution.

384.—(1) The Authority may exercise the power in subsection (5) if it is satisfied that an authorised person ("the person concerned") has contravened a relevant requirement, or been knowingly concerned in the contravention of such a requirement, and—

(a) that profits have accrued to him as a result of the contravention; or

(b) that one or more persons have suffered loss or been otherwise adversely affected as a result of the contravention.

(2) The Authority may exercise the power in subsection (5) if it is satisfied that a person ("the person concerned")—

(a) has engaged in market abuse, or

(b) by taking or refraining from taking any action has required or encouraged another person or persons to engage in behaviour which, if engaged in by the person concerned, would amount to market abuse,

and the condition mentioned in subsection (3) is fulfilled,

(3) The condition is—

(a) that profits have accrued to the person concerned as a result of the market abuse; or

(b) that one or more persons have suffered loss or been otherwise adversely affected as a result of the market abuse.

(4) But the Authority may not exercise that power as a result of subsection (2) if, having considered any representations made to it in response to a warning notice, there are reasonable grounds for it to be satisfied that—

(a) the person concerned believed, on reasonable grounds, that his behaviour did not fall within paragraph (a) or (b) of that subsection; or

(b) he took all reasonable precautions and exercised all due diligence to avoid behaving in a way which fell within paragraph (a) or (b) of that subsection.

(5) The power referred to in subsections (1) and (2) is a power to require the person concerned, in accordance with such arrangements as the Authority considers appropriate, to pay to the appropriate person or distribute among the appropriate persons such amount as appears to the Authority to be just having regard—

(a) in a case within paragraph (a) of subsection (1) or (3), to the profits appearing to the Authority to have accrued;

(b) in a case within paragraph (b) of subsection (1) or (3), to the extent of the loss or other adverse effect;

(c) in a case within paragraphs (a) and (b) of subsection (1) or (3), to the profits appearing to the Authority to have accrued and to the extent of the loss or other adverse effect.

(6) "Appropriate person" means a person appearing to the Authority to be someone—

(a) to whom the profits mentioned in paragraph (a) of subsection (1) or (3) are attributable; or

(b) who has suffered the loss or adverse effect mentioned in paragraph (b) of subsection (1) or (3).

(7) "Relevant requirement" means—

(a) a requirement imposed by or under this Act; and

(b) a requirement which is imposed by or under any other Act and whose contravention constitutes an offence in relation to which this Act confers power to prosecute on the Authority.

(8) In the application of subsection (7) to Scotland, in paragraph (b) for "in relation to which this Act confers power to prosecute on the Authority" substitute "mentioned in paragraph (a) or (b) of section 402(1)".

Warning notices.

385.—(1) If the Authority proposes to exercise the power under section 384(5) in relation to a person, it must give him a warning notice.

(2) A warning notice under this section must specify the amount which the Authority proposes to require the person concerned to pay or distribute as mentioned in section 384(5).

Decision notices.

386.—(1) If the Authority decides to exercise the power under section 384(5), it must give a decision notice to the person in relation to whom the power is exercised.

(2) The decision notice must—

(a) state the amount that he is to pay or distribute as mentioned in section 384(5);

(b) identify the person or persons to whom that amount is to be paid or among whom that amount is to be distributed; and

(c) state the arrangements in accordance with which the payment or distribution is to be made.

(3) If the Authority decides to exercise the power under section 384(5), the person in relation to whom it is exercised may refer the matter to the Tribunal.

PART XXVI

NOTICES

Warning notices

387.—(1) A warning notice must—

(a) state the action which the Authority proposes to take;

(b) be in writing;

(c) give reasons for the proposed action;

(d) state whether section 394 applies; and

(e) if that section applies, describe its effect and state whether any secondary material exists to which the person concerned must be allowed access under it.

(2) The warning notice must specify a reasonable period (which may not be less than 28 days) within which the person to whom it is given may make representations to the Authority.

(3) The Authority may extend the period specified in the notice.

(4) The Authority must then decide, within a reasonable period, whether to give the person concerned a decision notice.

Decision notices

388.—(1) A decision notice must—

(a) be in writing;

(b) give the Authority's reasons for the decision to take the action to which the notice relates;

(c) state whether section 394 applies;

(d) if that section applies, describe its effect and state whether any secondary material exists to which the person concerned must be allowed access under it; and

(e) give an indication of—

(i) any right to have the matter referred to the Tribunal which is given by this Act; and

(ii) the procedure on such a reference.

(2) If the decision notice was preceded by a warning notice, the action to which the decision notice relates must be action under the same Part as the action proposed in the warning notice.

(3) The Authority may, before it takes the action to which a decision notice ("the original notice") relates, give the person concerned a further decision notice which relates to different action in respect of the same matter.

(4) The Authority may give a further decision notice as a result of subsection (3) only if the person to whom the original notice was given consents.

(5) If the person to whom a decision notice is given under subsection (3) had the right to refer the matter to which the original decision notice related to the Tribunal, he has that right as respects the decision notice under subsection (3).

Conclusion of proceedings

Notices of discontinuance.

389.—(1) If the Authority decides not to take—

(a) the action proposed in a warning notice, or

(b) the action to which a decision notice relates,

it must give a notice of discontinuance to the person to whom the warning notice or decision notice was given.

(2) But subsection (1) does not apply if the discontinuance of the proceedings concerned results in the granting of an application made by the person to whom the warning or decision notice was given.

(3) A notice of discontinuance must identify the proceedings which are being discontinued.

Final notices.

390.—(1) If the Authority has given a person a decision notice and the matter was not referred to the Tribunal within the period mentioned in section 133(1), the Authority must, on taking the action to which the decision notice relates, give the person concerned and any person to whom the decision notice was copied a final notice.

(2) If the Authority has given a person a decision notice and the matter was referred to the Tribunal, the Authority must, on taking action in accordance with any directions given by—

(a) the Tribunal, or

(b) the court under section 137,

give that person and any person to whom the decision notice was copied a final notice.

(3) A final notice about a statement must—

(a) set out the terms of the statement;

(b) give details of the manner in which, and the date on which, the statement will be published.

(4) A final notice about an order must—

(a) set out the terms of the order;

(b) state the date from which the order has effect.

(5) A final notice about a penalty must—

(a) state the amount of the penalty;

(b) state the manner in which, and the period within which, the penalty is to be paid;

(c) give details of the way in which the penalty will be recovered if it is not paid by the date stated in the notice.

(6) A final notice about a requirement to make a payment or distribution in accordance with section 384(5) must state—

(a) the persons to whom,

(b) the manner in which, and

(c) the period within which,

it must be made.

(7) In any other case, the final notice must—

(a) give details of the action being taken;

(b) state the date on which the action is to be taken.

(8) The period stated under subsection (5)(b) or (6)(c) may not be less than 14 days beginning with the date on which the final notice is given.

(9) If all or any of the amount of a penalty payable under a final notice is outstanding at the end of the period stated under subsection (5)(b), the Authority may recover the outstanding amount as a debt due to it.

(10) If all or any of a required payment or distribution has not been made at the end of a period stated in a final notice under subsection (6)(c), the obligation to make the payment is enforceable, on the application of the Authority, by injunction or, in Scotland, by an order under section 45 of the Court of Session Act 1988. 1988 c. 36.

Publication

391.—(1) Neither the Authority nor a person to whom a warning notice or decision notice is given or copied may publish the notice or any details concerning it. Publication.

(2) A notice of discontinuance must state that, if the person to whom the notice is given consents, the Authority may publish such information as it considers appropriate about the matter to which the discontinued proceedings related.

(3) A copy of a notice of discontinuance must be accompanied by a statement that, if the person to whom the notice is copied consents, the Authority may publish such information as it considers appropriate about the matter to which the discontinued proceedings related, so far as relevant to that person.

(4) The Authority must publish such information about the matter to which a final notice relates as it considers appropriate.

(5) When a supervisory notice takes effect, the Authority must publish such information about the matter to which the notice relates as it considers appropriate.

(6) But the Authority may not publish information under this section if publication of it would, in its opinion, be unfair to the person with respect to whom the action was taken or prejudicial to the interests of consumers.

(7) Information is to be published under this section in such manner as the Authority considers appropriate.

(8) For the purposes of determining when a supervisory notice takes effect, a matter to which the notice relates is open to review if—

(a) the period during which any person may refer the matter to the Tribunal is still running;

(b) the matter has been referred to the Tribunal but has not been dealt with;

(c) the matter has been referred to the Tribunal and dealt with but the period during which an appeal may be brought against the Tribunal's decision is still running; or

(d) such an appeal has been brought but has not been determined.

(9) "Notice of discontinuance" means a notice given under section 389.

(10) "Supervisory notice" has the same meaning as in section 395.

(11) "Consumers" means persons who are consumers for the purposes of section 138.

Third party rights and access to evidence

Application of sections 393 and 394.

392. Sections 393 and 394 apply to—

(a) a warning notice given in accordance with section 54(1), 57(1), 63(3), 67(1), 88(4)(b), 89(2), 92(1), 126(1), 207(1), 255(1), 280(1), 331(1), 345(2) (whether as a result of subsection (1) of that section or section 249(1)) or 385(1);

(b) a decision notice given in accordance with section 54(2), 57(3), 63(4), 67(4), 88(6)(b), 89(3), 92(4), 127(1), 208(1), 255(2), 280(2), 331(3), 345(3) (whether as a result of subsection (1) of that section or section 249(1)) or 386(1).

Third party rights.

393.—(1) If any of the reasons contained in a warning notice to which this section applies relates to a matter which—

(a) identifies a person ("the third party") other than the person to whom the notice is given, and

(b) in the opinion of the Authority, is prejudicial to the third party,

a copy of the notice must be given to the third party.

(2) Subsection (1) does not require a copy to be given to the third party if the Authority—

(a) has given him a separate warning notice in relation to the same matter; or

(b) gives him such a notice at the same time as it gives the warning notice which identifies him.

(3) The notice copied to a third party under subsection (1) must specify a reasonable period (which may not be less than 28 days) within which he may make representations to the Authority.

(4) If any of the reasons contained in a decision notice to which this section applies relates to a matter which—

(a) identifies a person ("the third party") other than the person to whom the decision notice is given, and

(b) in the opinion of the Authority, is prejudicial to the third party,

a copy of the notice must be given to the third party.

(5) If the decision notice was preceded by a warning notice, a copy of the decision notice must (unless it has been given under subsection (4)) be given to each person to whom the warning notice was copied.

(6) Subsection (4) does not require a copy to be given to the third party if the Authority—

(a) has given him a separate decision notice in relation to the same matter; or

(b) gives him such a notice at the same time as it gives the decision notice which identifies him.

(7) Neither subsection (1) nor subsection (4) requires a copy of a notice to be given to a third party if the Authority considers it impracticable to do so.

(8) Subsections (9) to (11) apply if the person to whom a decision notice is given has a right to refer the matter to the Tribunal.

(9) A person to whom a copy of the notice is given under this section may refer to the Tribunal—

(a) the decision in question, so far as it is based on a reason of the kind mentioned in subsection (4); or

(b) any opinion expressed by the Authority in relation to him.

(10) The copy must be accompanied by an indication of the third party's right to make a reference under subsection (9) and of the procedure on such a reference.

(11) A person who alleges that a copy of the notice should have been given to him, but was not, may refer to the Tribunal the alleged failure and—

(a) the decision in question, so far as it is based on a reason of the kind mentioned in subsection (4); or

(b) any opinion expressed by the Authority in relation to him.

(12) Section 394 applies to a third party as it applies to the person to whom the notice to which this section applies was given, in so far as the material which the Authority must disclose under that section relates to the matter which identifies the third party.

(13) A copy of a notice given to a third party under this section must be accompanied by a description of the effect of section 394 as it applies to him.

(14) Any person to whom a warning notice or decision notice was copied under this section must be given a copy of a notice of discontinuance applicable to the proceedings to which the warning notice or decision notice related.

Access to Authority material.

394.—(1) If the Authority gives a person ("A") a notice to which this section applies, it must—

(a) allow him access to the material on which it relied in taking the decision which gave rise to the obligation to give the notice;

(b) allow him access to any secondary material which, in the opinion of the Authority, might undermine that decision.

(2) But the Authority does not have to allow A access to material under subsection (1) if the material is excluded material or it—

(a) relates to a case involving a person other than A; and

(b) was taken into account by the Authority in A's case only for purposes of comparison with other cases.

(3) The Authority may refuse A access to particular material which it would otherwise have to allow him access to if, in its opinion, allowing him access to the material—

(a) would not be in the public interest; or

(b) would not be fair, having regard to—

(i) the likely significance of the material to A in relation to the matter in respect of which he has been given a notice to which this section applies; and

(ii) the potential prejudice to the commercial interests of a person other than A which would be caused by the material's disclosure.

(4) If the Authority does not allow A access to material because it is excluded material consisting of a protected item, it must give A written notice of—

(a) the existence of the protected item; and

(b) the Authority's decision not to allow him access to it.

(5) If the Authority refuses under subsection (3) to allow A access to material, it must give him written notice of—

(a) the refusal; and

(b) the reasons for it.

(6) "Secondary material" means material, other than material falling within paragraph (a) of subsection (1) which—

(a) was considered by the Authority in reaching the decision mentioned in that paragraph; or

(b) was obtained by the Authority in connection with the matter to which the notice to which this section applies relates but which was not considered by it in reaching that decision.

(7) "Excluded material" means material which—

(a) has been intercepted in obedience to a warrant issued under any enactment relating to the interception of communications;

(b) indicates that such a warrant has been issued or that material has been intercepted in obedience to such a warrant; or

(c) is a protected item (as defined in section 413).

The Authority's procedures

395.—(1) The Authority must determine the procedure that it proposes to follow in relation to the giving of— The Authority's procedures.

(a) supervisory notices; and

(b) warning notices and decision notices.

(2) That procedure must be designed to secure, among other things, that the decision which gives rise to the obligation to give any such notice is taken by a person not directly involved in establishing the evidence on which that decision is based.

(3) But the procedure may permit a decision which gives rise to an obligation to give a supervisory notice to be taken by a person other than a person mentioned in subsection (2) if—

(a) the Authority considers that, in the particular case, it is necessary in order to protect the interests of consumers; and

(b) the person taking the decision is of a level of seniority laid down by the procedure.

(4) A level of seniority laid down by the procedure for the purposes of subsection (3)(b) must be appropriate to the importance of the decision.

(5) The Authority must issue a statement of the procedure.

(6) The statement must be published in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(7) The Authority may charge a reasonable fee for providing a person with a copy of the statement.

(8) The Authority must, without delay, give the Treasury a copy of any statement which it issues under this section.

(9) When giving a supervisory notice, or a warning notice or decision notice, the Authority must follow its stated procedure.

(10) If the Authority changes the procedure in a material way, it must publish a revised statement.

(11) The Authority's failure in a particular case to follow its procedure as set out in the latest published statement does not affect the validity of a notice given in that case.

(12) But subsection (11) does not prevent the Tribunal from taking into account any such failure in considering a matter referred to it.

(13) "Supervisory notice" means a notice given in accordance with section—

(a) 53(4), (7) or (8)(b);

(b) 78(2) or (5);

(c) 197(3), (6) or (7)(b);

(d) 259(3), (8) or (9)(b);

(e) 268(3), (7)(a) or (9)(a) (as a result of subsection (8)(b));

(f) 282(3), (6) or (7)(b);

(g) 321(2) or (5).

Statements under section 395: consultation.

396.—(1) Before issuing a statement of procedure under section 395, the Authority must publish a draft of the proposed statement in the way appearing to the Authority to be best calculated to bring it to the attention of the public.

(2) The draft must be accompanied by notice that representations about the proposal may be made to the Authority within a specified time.

(3) Before issuing the proposed statement of procedure, the Authority must have regard to any representations made to it in accordance with subsection (2).

(4) If the Authority issues the proposed statement of procedure it must publish an account, in general terms, of—

(a) the representations made to it in accordance with subsection (2); and

(b) its response to them.

(5) If the statement of procedure differs from the draft published under subsection (1) in a way which is, in the opinion of the Authority, significant, the Authority must (in addition to complying with subsection (4)) publish details of the difference.

(6) The Authority may charge a reasonable fee for providing a person with a copy of a draft published under subsection (1).

(7) This section also applies to a proposal to revise a statement of policy.

PART XXVII

OFFENCES

Miscellaneous offences

Misleading statements and practices.

397.—(1) This subsection applies to a person who—

(a) makes a statement, promise or forecast which he knows to be misleading, false or deceptive in a material particular;

(b) dishonestly conceals any material facts whether in connection with a statement, promise or forecast made by him or otherwise; or

(c) recklessly makes (dishonestly or otherwise) a statement, promise or forecast which is misleading, false or deceptive in a material particular.

(2) A person to whom subsection (1) applies is guilty of an offence if he makes the statement, promise or forecast or conceals the facts for the purpose of inducing, or is reckless as to whether it may induce, another person (whether or not the person to whom the statement, promise or forecast is made)—

(a) to enter or offer to enter into, or to refrain from entering or offering to enter into, a relevant agreement; or

(b) to exercise, or refrain from exercising, any rights conferred by a relevant investment.

(3) Any person who does any act or engages in any course of conduct which creates a false or misleading impression as to the market in or the price or value of any relevant investments is guilty of an offence if he does so for the purpose of creating that impression and of thereby inducing another person to acquire, dispose of, subscribe for or underwrite those investments or to refrain from doing so or to exercise, or refrain from exercising, any rights conferred by those investments.

(4) In proceedings for an offence under subsection (2) brought against a person to whom subsection (1) applies as a result of paragraph (a) of that subsection, it is a defence for him to show that the statement, promise or forecast was made in conformity with price stabilising rules or control of information rules.

(5) In proceedings brought against any person for an offence under subsection (3) it is a defence for him to show—

(a) that he reasonably believed that his act or conduct would not create an impression that was false or misleading as to the matters mentioned in that subsection;

(b) that he acted or engaged in the conduct—

(i) for the purpose of stabilising the price of investments; and

(ii) in conformity with price stabilising rules; or

(c) that he acted or engaged in the conduct in conformity with control of information rules.

(6) Subsections (1) and (2) do not apply unless—

(a) the statement, promise or forecast is made in or from, or the facts are concealed in or from, the United Kingdom or arrangements are made in or from the United Kingdom for the statement, promise or forecast to be made or the facts to be concealed;

(b) the person on whom the inducement is intended to or may have effect is in the United Kingdom; or

(c) the agreement is or would be entered into or the rights are or would be exercised in the United Kingdom.

(7) Subsection (3) does not apply unless—

(a) the act is done, or the course of conduct is engaged in, in the United Kingdom; or

(b) the false or misleading impression is created there.

(8) A person guilty of an offence under this section is liable—

(a) on summary conviction, to imprisonment for a term not exceeding six months or a fine not exceeding the statutory maximum, or both;

(b) on conviction on indictment, to imprisonment for a term not exceeding seven years or a fine, or both.

(9) "Relevant agreement" means an agreement—

(a) the entering into or performance of which by either party constitutes an activity of a specified kind or one which falls within a specified class of activity; and

(b) which relates to a relevant investment.

(10) "Relevant investment" means an investment of a specified kind or one which falls within a prescribed class of investment.

(11) Schedule 2 (except paragraphs 25 and 26) applies for the purposes of subsections (9) and (10) with references to section 22 being read as references to each of those subsections.

(12) Nothing in Schedule 2, as applied by subsection (11), limits the power conferred by subsection (9) or (10).

(13) "Investment" includes any asset, right or interest.

(14) "Specified" means specified in an order made by the Treasury.

Misleading the Authority: residual cases.

398.—(1) A person who, in purported compliance with any requirement imposed by or under this Act, knowingly or recklessly gives the Authority information which is false or misleading in a material particular is guilty of an offence.

(2) Subsection (1) applies only to a requirement in relation to which no other provision of this Act creates an offence in connection with the giving of information.

(3) A person guilty of an offence under this section is liable—

(a) on summary conviction, to a fine not exceeding the statutory maximum;

(b) on conviction on indictment, to a fine.

Misleading the Director General of Fair Trading. 1998 c. 41.

399. Section 44 of the Competition Act 1998 (offences connected with the provision of false or misleading information) applies in relation to any function of the Director General of Fair Trading under this Act as if it were a function under Part I of that Act.

Bodies corporate and partnerships

Offences by bodies corporate etc.

400.—(1) If an offence under this Act committed by a body corporate is shown—

(a) to have been committed with the consent or connivance of an officer, or

(b) to be attributable to any neglect on his part,

the officer as well as the body corporate is guilty of the offence and liable to be proceeded against and punished accordingly.

(2) If the affairs of a body corporate are managed by its members, subsection (1) applies in relation to the acts and defaults of a member in connection with his functions of management as if he were a director of the body.

(3) If an offence under this Act committed by a partnership is shown—

(a) to have been committed with the consent or connivance of a partner, or

(b) to be attributable to any neglect on his part,

the partner as well as the partnership is guilty of the offence and liable to be proceeded against and punished accordingly.

(4) In subsection (3) "partner" includes a person purporting to act as a partner.

(5) "Officer", in relation to a body corporate, means—

(a) a director, member of the committee of management, chief executive, manager, secretary or other similar officer of the body, or a person purporting to act in any such capacity; and

(b) an individual who is a controller of the body.

(6) If an offence under this Act committed by an unincorporated association (other than a partnership) is shown—

(a) to have been committed with the consent or connivance of an officer of the association or a member of its governing body, or

(b) to be attributable to any neglect on the part of such an officer or member,

that officer or member as well as the association is guilty of the offence and liable to be proceeded against and punished accordingly.

(7) Regulations may provide for the application of any provision of this section, with such modifications as the Treasury consider appropriate, to a body corporate or unincorporated association formed or recognised under the law of a territory outside the United Kingdom.

Institution of proceedings

Proceedings for offences.

401.—(1) In this section "offence" means an offence under this Act or subordinate legislation made under this Act.

(2) Proceedings for an offence may be instituted in England and Wales only—

(a) by the Authority or the Secretary of State; or

(b) by or with the consent of the Director of Public Prosecutions.

(3) Proceedings for an offence may be instituted in Northern Ireland only—

(a) by the Authority or the Secretary of State; or

(b) by or with the consent of the Director of Public Prosecutions for Northern Ireland.

(4) Except in Scotland, proceedings for an offence under section 203 may also be instituted by the Director General of Fair Trading.

(5) In exercising its power to institute proceedings for an offence, the Authority must comply with any conditions or restrictions imposed in writing by the Treasury.

(6) Conditions or restrictions may be imposed under subsection (5) in relation to—

(a) proceedings generally; or

(b) such proceedings, or categories of proceedings, as the Treasury may direct.

Power of the Authority to institute proceedings for certain other offences.

402.—(1) Except in Scotland, the Authority may institute proceedings for an offence under—

(a) Part V of the Criminal Justice Act 1993 (insider dealing); or

1993 c. 36.

(b) prescribed regulations relating to money laundering.

(2) In exercising its power to institute proceedings for any such offence, the Authority must comply with any conditions or restrictions imposed in writing by the Treasury.

(3) Conditions or restrictions may be imposed under subsection (2) in relation to—

(a) proceedings generally; or

(b) such proceedings, or categories of proceedings, as the Treasury may direct.

Jurisdiction and procedure in respect of offences.

403.—(1) A fine imposed on an unincorporated association on its conviction of an offence is to be paid out of the funds of the association.

(2) Proceedings for an offence alleged to have been committed by an unincorporated association must be brought in the name of the association (and not in that of any of its members).

(3) Rules of court relating to the service of documents are to have effect as if the association were a body corporate.

(4) In proceedings for an offence brought against an unincorporated association—

1925 c. 86.
1980 c. 43.

(a) section 33 of the Criminal Justice Act 1925 and Schedule 3 to the Magistrates' Courts Act 1980 (procedure) apply as they do in relation to a body corporate;

1995 c. 46.

(b) section 70 of the Criminal Procedure (Scotland) Act 1995 (procedure) applies as if the association were a body corporate;

1945 c. 15 (N.I.)
S.I. 1981/1675 (N.I. 26).

(c) section 18 of the Criminal Justice (Northern Ireland) Act 1945 and Schedule 4 to the Magistrates' Courts (Northern Ireland) Order 1981 (procedure) apply as they do in relation to a body corporate.

(5) Summary proceedings for an offence may be taken—

(a) against a body corporate or unincorporated association at any place at which it has a place of business;

(b) against an individual at any place where he is for the time being.

(6) Subsection (5) does not affect any jurisdiction exercisable apart from this section.

(7) "Offence" means an offence under this Act.

PART XXVIII

MISCELLANEOUS
